The 84th Annual Conference of All India Ophthalmological Society

Foreword

Prof (Dr.) Namrata Sharma

Dear Colleagues and Friends,

It gives me immense pleasure to welcome you to the **84th Annual Conference of the All India Ophthalmological Society (AIOC 2026)**, scheduled to be held from **13th to 15th March 2026** at the **Novotel Jaipur Exhibition & Convention Centre, Jaipur**.

AIOC 2026 promises to be a landmark academic event, thoughtfully designed to foster learning, innovation, collaboration, and professional growth across all levels of ophthalmic practice. The scientific program reflects the collective efforts of a dedicated faculty and committee, aiming to deliver a truly enriching experience.

This year's conference features an impressive academic spectrum, including several **Instruction Courses and Young Master Courses**. Further, there are **68 International Speakers** from various countries including **USA, UK, Japan, Argentina, Mexico, Canada, France**. There are **17 International Societies** including **EUCORNEA, Japan Contact Lens Association, Canadian Ophthalmological Society, PANCORNEA, MEOM** etc.

Overall there are **1800 + Podium presenters**. The conference highlights include **7 Subspecialty Days**, National Symposia, *When the Tough Gets Going*, **PG Capsules** and **Eye Shala** for postgraduates, **Leadership Development**, Science and Fun, **Ophthalmic Premier League Program**, **Wet Labs**, **Student of the Year**, *Think Under the Apple Tree*, **Training the Teachers**, Competitive and Award Sessions, **AIOC Theatre**, Video Sessions, **Teachers of Tomorrow**, A Surgical Medical Trick, **OOPS in Surgery – What's Your Next Move**, and **One Point @ a Time**.

Set against the vibrant cultural backdrop of Jaipur, AIOC 2026 aims to provide not only cutting-edge scientific deliberations but also opportunities for meaningful networking and camaraderie among peers from India and across the globe.

I would like to thank Dr Partha Biswas (President AIOS), Dr. J. S. Titiyal (President Elect), Dr. Mohan Rajan (Vice President), Dr Santosh G Honavar (Hony. General Secretary), Dr. Manoj Chandra Mathur (Hony. Treasurer), Dr. Prashant Keshao Bawankule (Chairman ARC), Dr. M. Vanathi (Editor-Journal), Dr. Krishna Prasad Kudlu (Editor-Proceedings) Dr. Samar Kumar Basak (Immediate Past President) along with Scientific Committee and ARC members for their help.

Also The local Organizing Committee under the able leadership of Chairman Dr Virendra Agarwal, Addl. Chairman Dr Sandeep Vijay, Dynamic Organising secretary Dr Mukesh Sharma, Treasurer Dr Ghulam Ali and member Dr Harshul Tak, promises to be an academic and social extravaganza.

I look forward to welcoming each one of you to Jaipur for three and half days of academic excellence, shared learning, and memorable experiences.

With warm regards,

Namrata Sharma

Prof (Dr.) Namrata Sharma

Chairperson, Scientific Committee

All India Ophthalmological Society (AIOS)

The 84th Annual Conference of All India Ophthalmological Society

Know Your Incoming President

Prof Dr. Jeewan Singh Titiyal

Professor Dr. Jeewan Singh Titiyal, President of the All India Ophthalmological Society (AIOS) for 2026- 2027, is a distinguished academician, clinician, researcher, and teacher who has devoted more than four decades to the service of ophthalmology and society. Coming from a humble background in the remote hills of Uttarakhand, his journey reflects resilience, dedication, and an unwavering commitment to excellence. His early schooling took place in

the challenging terrains of District Pithoragarh, Block Dharchula, in the village of Tidang before he completed his intermediate education in Lucknow. A year of pre-medical coaching paved the way for his admission to the All India Institute of Medical Sciences (AIIMS), New Delhi, where he joined as an undergraduate student in 1978 an institution that would become the foundation of his illustrious career.

After completing his postgraduate training in ophthalmology in 1987 at the prestigious Dr. Rajendra Prasad Centre for Ophthalmic Sciences, AIIMS, he joined the Cornea and Cataract Refractive Surgery unit in 1988. This phase proved transformative, enabling him to perform corneal transplantation surgeries and restore vision to countless individuals suffering from corneal blindness. In 1991, he joined AIIMS as a young faculty member, beginning a lifelong journey as a teacher and mentor. Rising steadily through academic ranks, subsequently he was selected and appointed Professor in 2005 and later Head of the Cornea and Refractive Surgery Unit, where he played a pivotal role in strengthening postgraduate education, teacher training, infrastructure development, and research. His efforts significantly elevated patient care, diagnostics, teaching, and research at AIIMS to international standards. He subsequently served as Chief of the Dr. RP Centre in 2021 and later as Dean of Research at AIIMS, New Delhi, before superannuating in December 2024. Following this, he embarked on a new chapter with Dr. Agarwal's Healthcare Group, contributing to the establishment of their first hospital in the NCR region, located in South Delhi as Regional head clinical services. In year 2025 the Ministry of Health and Family Welfare, Govt. of India nominated him as President of AIIMS, Rajkot, Gujrat.

Dr. Titiyal has been an active member of the ophthalmic community for over three decades, contributing extensively to academic programs, instructional courses, live surgical demonstrations, and wet lab training. He has played a key role in formulating several AIOS guidelines and has represented AIOS at the Ministry of Health and Family Welfare, Government of India, for various regulatory initiatives. He has been honored by nearly every state ophthalmological society in the country and has delivered numerous orations and keynote addresses. Internationally, he is widely respected and has received the Senior Achievement Award from the American Academy of Ophthalmology and the Asia-Pacific Academy of Ophthalmology, as well as the Distinguished Service Award from the Asia-Pacific Ophthalmology Society. He is also a certified educator of the Asia-Pacific Association of Cataract and Refractive Surgeons (APACRS) and holds the distinction of being the first Indian to perform live surgery at the ASCRS platform. He has to his credit more than 400 publications in peer reviewed journals, 8 books, 100 chapters and more than 2000 talks. He is ranked top 2 percentile in most cited researcher in Ophthalmology as per the Stanford University study completed many research projects of significance to clinical practice. In recognition of his

The 84th Annual Conference of All India Ophthalmological Society

outstanding contributions to medicine and society, the Government of India honored him with the Padma Shri Award in 2014.

Beyond his academic and professional achievements, Dr. Titiyal is widely admired for his humility, approachability, and compassion. Despite his association with the highest levels of governance and leadership, he has always treated every individual with equal respect and care whether a senior official or a member of the most vulnerable sections of society. His philosophy has consistently centered on service, equity, and human dignity. As a teacher, his focus has not only been on enhancing clinical expertise, surgical skills, and research aptitude, but also on building confidence in his students and colleagues, empowering them to surpass their mentors and become leaders and teachers for future generations.

Dr. Titiyal is deeply supported by his close-knit family. His wife, Mrs. Basanti Titiyal, a devoted homemaker, has been a pillar of strength, managing family and social responsibilities and enabling him to dedicate himself fully to his professional commitments. Their children, Dr. Hemant Titiyal and Dr. Renuka Titiyal, are both medical professionals; his son pursuing public health and his daughter serving as faculty in the Department of Medicine at Safdarjung Hospital and Vardhman Mahavir Medical College. His siblings have also been a constant source of support, including his younger brother, Dr. Govind Singh Titiyal, a renowned ophthalmologist and Principal of Government Medical College in Haldwani, Uttarakhand. Rooted in his village and values, Dr. Titiyal continues to draw strength from his family and community. With a vision focused on inclusivity, excellence, and future readiness, Dr. Jeewan Singh Titiyal aims to bring out the best in every individual and shape a future that benefits generations to come.

Dr Jeewan singh Titiyal,

MD, DSc, FRCOphth

(Padma Shri Awardee)

Senior Consultant and Regional Clinical Head,

Dr Agarwals Eye Hospital, South Extension Part II, New Delhi

President of All India Institute of Medical Sciences. (AIIMS), Rajkot Gujrat

Know Your Incoming President

The 84th Annual Conference of All India Ophthalmological Society

Message

Dr. Partha Biswas

"When purpose is shared, Vision becomes Legacy"

Dear Esteemed Colleagues, Seniors, Teachers, and Dear Friends,

As I stand before you at the 84th Annual Conference of the All India Ophthalmological Society, my heart is filled with gratitude, pride, and deep emotion.

AIOC 2026 is not merely a conference — it is the culmination of a year-long journey of dedication, collaboration, and tireless effort by countless hands and brilliant minds who believed in a shared vision of excellence.

Over this past year, serving as your President has been an incredibly giving experience. It has humbled me, strengthened me, and enriched me beyond measure. I have witnessed first-hand the passion with which our members work — not for recognition, but for the advancement of Indian Ophthalmology and the betterment of patient care across our nation.

I am proud that together, we translated vision into action.

AIOS SEE Project – The first National AIOS Project formally accepted by the Ministry of Health & Family Welfare. This landmark National survey of Refractive Error and Refractive Error Coverage in School Going Children reflects our commitment to structured, nationwide ophthalmic outreach and sustainable eye care delivery to the child population of our country.

READS Project – Phase 2 – Strengthening accessibility, equity, and digital academic empowerment across regions, ensuring that standardised and structured training of our ophthalmic residents truly reaches every corner of our country.

National Diabetic Retinopathy Project – A focused, mission-driven initiative to combat one of the leading causes of preventable blindness in India, reinforcing AIOS responsibility toward public health.

These are not just projects — they are foundations for the future. They represent continuity, collaboration with the Government of India, and AIOS stepping confidently into a leadership role in national eye health policy.

When I assumed office, I carried with me a simple yet powerful resolve — that AIOS must not only lead academically, but also serve nationally.

This colourful, vibrant, academically rich conference is the result of relentless teamwork.

I express my deepest gratitude to our Office Bearers:

Dr. Jeewan S. Titiyal – President Elect

Dr. Mohan Rajan – Vice President

Dr. Santosh G. Honavar – Honorary General Secretary

Dr. Manoj Chandra Mathur – Honorary Treasurer

Dr. Prashant Keshao Bawankule – Chairman ARC

Dr. Namrata Sharma – Chairperson, Scientific Committee

Dr. C. V. Gopala Raju – Joint Secretary

The 84th Annual Conference of All India Ophthalmological Society

Dr. Elankumaran Pasupathi – Joint Treasurer

Dr. M. Vanathi – Editor, Journal

Dr. Krishna Prasad Kudlu – Editor, Proceedings

Dr. Samar Kumar Basak – Immediate Past President

A special word of appreciation to our Scientific Committee Members —

Dr. Somasheila I. Murthy, Dr. Jatinder Singh Bhalla, Dr. Pradip Kumar Mohanta, Dr. Piyush R. Bansal, Dr. Vardhaman Kankaria, Dr. Amit Porwal, and Dr. Fairouz Puthiyapurayil Manjandavida.

My heartfelt thanks to the Academic & Research Committee Members —

Dr. Tinku Bali, Dr. Kasturi Bhattacharjee, Dr. Shrinivas M. Joshi, Dr. Anagha Heroor, and Dr. Deepak Mishra.

To the extraordinary Local Organising Committee of Jaipur, under the dynamic leadership of:

Dr. Virendra Agrawal – Organizing Chairman

Dr. Sandeep Vijay – Addl. Chairman

Dr. Mukesh Sharma – Organizing Secretary

Dr. Gulam Ali Kamdar – Organizing Treasurer

Dr. Harshul Tak – Core Member

Along with the numerous Patrons, Chief Advisors, Advisors, committee members, volunteers and evaluators who worked tirelessly behind the scenes — this magnificent conference stands as a testament to your commitment and teamwork.

This year has reaffirmed a simple truth — AIOS is not defined by a position, but by people.

It is powered by collective intent. It thrives on shared dreams. It grows because of selfless service.

As I conclude my tenure, I do so with immense satisfaction and gratitude. This one-year journey has been profoundly fulfilling — not because of titles held, but because of trust received and bonds strengthened.

It is my honour to welcome our incoming President, Dr. Jeewan Singh Titiyal. A visionary academician, an inspiring teacher, and a leader of exceptional integrity, I am confident that under his stewardship, AIOS will scale greater heights and continue to illuminate the path of excellence for generations to come.

Let AIOCC 2026 be remembered not only for its scientific brilliance, but for the spirit of unity, camaraderie, and inspiration that binds us as one ophthalmic family.

Warm regards,

Dr. Partha Biswas

President, AIOS

The 84th Annual Conference of All India Ophthalmological Society

Hony. General Secretary of AIOS

Dr. Santosh G. Honavar

“Science is a way of thinking much more than it is a body of knowledge.” — Carl Sagan

Dear Esteemed Colleagues and Friends,

It gives me immense pleasure to welcome you to the 84th Annual Conference of the All India Ophthalmological Society (AIOC 2026), to be held from 12th to 15th March 2026 in the historic city of Jaipur.

The words of Carl Sagan beautifully capture the ethos of AIOS. For us, science is not merely information - it is a disciplined curiosity, a commitment to evidence, and a responsibility toward our patients. The scientific program of AIOC 2026 stands as a reflection of this philosophy.

Meticulously curated by the Scientific Committee, the program offers a comprehensive academic experience through instruction courses, symposia, keynote lectures, free paper sessions, poster presentations, surgical videos, wet labs, and skill transfer courses. It integrates foundational research, clinical innovation, technological advancement, and evidence-based practice across every subspecialty of ophthalmology.

From young researchers presenting emerging ideas to master clinicians sharing decades of wisdom, AIOC 2026 embodies AIOS's enduring culture of mentorship, scholarship, and scientific integrity. The depth and diversity of this program reaffirm AIOS as a leading force in advancing ophthalmic science nationally and globally.

Beyond science, AIOC 2026 celebrates the spirit of fellowship and shared purpose that binds us as a professional family.

We eagerly look forward to the **Grand Inauguration Ceremony on March 12**, featuring an inspiring address by renowned author and thought leader **Chetan Bhagat**. His reflections on innovation, resilience, and contemporary India promise to energize us. The evening will also showcase **“Utsav” - the AIOS Zonal Cultural Competition**, celebrating the extraordinary artistic talents within our community and reflecting the vibrancy, diversity, and unity that define AIOS.

On March 13, we have planned a grand **Music and Dance Extravaganza** featuring the acclaimed musical duo **Salim-Sulaiman**, along with a special performance by **Elli AvrRam**, followed by the Gala Dinner - an evening of celebration, camaraderie, and shared memories.

The conference will also host a **large and dynamic Trade Exhibition**, bringing together leading national and international industry partners to showcase the latest technologies, diagnostics, surgical platforms, pharmaceuticals, and digital innovations shaping the future of ophthalmology. The **Technology Pavilion** will offer delegates an immersive experience into emerging advancements and next-generation solutions transforming eye care delivery.

A special highlight will be the **YOSI Pavilion**, creating a vibrant space dedicated to the aspirations and initiatives of the Young Ophthalmologists Society of India. Complementing this is the **Career Fair by AIOS-YOSI**, designed to guide young ophthalmologists through diverse career pathways,

The 84th Annual Conference of All India Ophthalmological Society

fellowships, research opportunities, practice models, and leadership development - reinforcing AIOS's commitment to nurturing the next generation.

The conference thus provides invaluable opportunities for mentorship, leadership dialogue, collaborative engagement, and industry interaction - ensuring that learning extends beyond lecture halls into meaningful professional connections.

Since its inception in 1930, AIOS has remained steadfast in its mission to promote ophthalmic science, ethical practice, education, and service. AIOC 2026 carries this proud legacy forward - where knowledge meets innovation, and science is complemented by culture, camaraderie, and collective aspiration.

I extend my heartfelt gratitude to the AIOS Office, Local Organising Committee, faculty, presenters, sponsors, and every member whose dedication makes this conference possible.

I warmly welcome you to AIOC 2026. May it be intellectually enriching, professionally transformative, and personally memorable.

With warm regards,

Dr. Santosh G. Honavar
Honorary General Secretary
All India Ophthalmological Society

Hony. General Secretary of AIOS

The 84th Annual Conference of All India Ophthalmological Society

Hony. Treasurer of AIOS

Dr. Manoj Chandra Mathur

Respected Elders and dear colleagues

It gives me immense pleasure to welcome you all to Jaipur, renowned for its grand cultural and historic heritage and warm hospitality, for the 84th Annual Conference of AIOS

The local Organising Committee led by the dynamic Chairman Dr Virendra Agarwal, Addl. Chairman Dr Sandeep Vijay, enthusiastic Organising secretary Dr Mukesh Sharma, Treasurer Dr Ghulam Ali and member Dr Harshul Tak, promises to be an academic and social extravaganza.

The National organising committee under the leadership of our president Dr Partha Biswas and stewardship of Secretary Dr Santosh Honavar, held multiple meetings and supervised all arrangements with minute focus on logistics and delegate comfort.

This four-day event is being organised at Jaipur Exhibition Convention Centre – Hotel Novotel in the PINK CITY, Jaipur. The scientific committee led by its dynamic Chairperson Dr Namrata Sharma has designed a sumptuous scientific fare.

A sincere shout out to trade for pitching in to showcase their products as always. The entire earmarked trade area is lapped up for Trade Exhibition. We have done our bit by appointing experienced and reliable vendors for Event management, fabrication, Audiovisual and also expect a culinary treat from the world-famous Rajasthani cuisine

Jaipur offers multiple options for a comfortable stay and sightseeing around. The weather in mid-March is comfortable. I am excited to meet you all in Jaipur

Sincerely Yours

Dr Manoj Chandra Mathur

Rathinam Sivakumar

Dr. Rathinam is the Chief of Uveitis Service & Principal of PG Institute ophthalmology. She graduated in medicine from Madurai University, DO, DNB and MNAMS (Ophthalmology) from Aravind Eye Hospital Madurai, Ph.D. from Dr. M.G.R. University and FAMS from National Academy of Medical Sciences, New Delhi.

Her basic, epidemiological and clinical research over 30 years at uveitis clinic, Aravind Eye Care System uncovered the cause, source and pathogenesis for three new unknown outbreaks, which include Ocular Leptospirosis, Trematode eye disease in children and Ocular West Nile virus infection. She received the prestigious Prof. C.S Bhaskaran Oration award and P.Siva Reddy International Award for her Research on novel infectious uveitis etiologies from All India Ophthalmology Society (AIOS) 2014 and from Indian Association of Medical Microbiologists (IAMM). She has made outstanding contributions to ophthalmic literature both in national and international arena. She is an elected member of International Uveitis Study Group (IUSG) since 2001.

The 84th Annual Conference of All India Ophthalmological Society

- Presented several Papers in National and International Conferences
- More than 25 Publications
- Conducted over 500 Eye Camps under the aegis of Blind Free India Project launched by Chennai Vision Charitable Trust
- Was adjudged one of the Top Women Ophthalmologist in the country in the year 2009 by a survey in Ophthalmology World Report.
- Was awarded the T. Agarwal Gold Medal for the Best Woman Refractive Surgeon by Shrimathi Shiela Dikshit, Chief Minister of New Delhi in 2010.
- Was awarded the Best video in the Refractive Surgery category in APACRS in 2012
- Dr. G. Sitalaskmi Gift of Sight Award from Lions Club of International on Helen Keller Remembrance Day 2017
- Awarded Dr Nataraja Pillai Best Paper Award at Sankara Nethralaya Alumni Meet July 2018
- Authored the "Color Atlas of CORNEA" book, released during AIOS meet March 2024

AIOS S. S Badrinath Endowment

Recent developments in Macular Telangiectasia Type 2

A. Giridhar

- Dr. Giridhar Anantharaman is the Founder Director and Senior Vitreo Retinal Surgeon at Giridhar Eye Institute, Cochin, Kerala.
- He is also the Managing Trustee of SSM Eye Research foundation and Swarnam Eye Bank, a not-for-profit community initiatives of Giridhar Eye Institute.
- He had his schooling in multiple schools in New Delhi and completed both Undergraduate and Postgraduate medical education at JIPMER Pondicherry.
- He did his fellowship in Vitreo Retinal Diseases and Surgery at Sankara Nethralaya, Chennai.
- He has nearly 4 decades of experience practicing Medical and Surgical Retina and has over the years developed a major referral unit at Cochin, Kerala.
- He has over 85 publications in the peer-reviewed journals and is an active Peer Reviewer for renowned ophthalmology journals.
- He is recipient of the Thiru Kumaraswamy Gold Medal and Certificate in MS Postgraduate examination of Madras University in the year 1983.
- He is recipient of many awards and orations including:
 - Dr B Patnaik Oration at VRSI; C.E. Oommen Oration at the KSOS; Prof. Hem. K. Tiwari Oration 2024 at RP Centre of Ophthalmic Sciences, AIIMS, New Delhi; Distinguished Service Award from APAO; AIOS-IJO Gold Award; JM Pahwa Award; Dr S Mohandas Memorial Oration; and Dr TNC Vedhantham Memorial Oration.
- He and his team has trained over 35 young eye surgeons in Vitreo Retinal surgery and nearly 75 Ophthalmologists in Medical Retina esp. in the basic treatment of Diabetic Retinopathy.
- His primary area of interest is Macular Diseases and Diabetic Retinopathy.

The 84th Annual Conference of All India Ophthalmological Society

AIOS – Lalit Verma (LV) Pearl Award 2026

Rengaraj Venkatesh

Dr. Rengaraj Venkatesh is the Chief Medical Officer of Aravind Eye Hospital, Pondicherry and Heads Aravind Center of Eye Care Innovation (ACEi). He graduated in medicine with a gold medal in Ophthalmology from Annamalai University and completed DO & D.N.B from Aravind Eye Hospital, Madurai. He is specialized in the field of Cataract and Glaucoma.

Publications and Contributions:

Author of 150 publications in National and International peer-reviewed journals.

Editorial board member of several ophthalmology journals.

Authored 12 chapters in renowned ophthalmology books.

Awarded for best paper, poster, and video presentations at National and International conferences.

Advocacy & Sustainability:

Passionate advocate for improving access to eye care in India.

Implemented sustainability practices at Aravind (waste segregation, DEWATS, solar energy, rainwater harvesting).

Published work on cataract waste in environmental journals.

Member of the “Climate Change Group” at the International Agency for Prevention of Blindness (IAPB).

Advisory Board member of EyeSustain.

Sought-after speaker on sustainable eye care practices.

Professional Affiliations:

Life member of the Tamil Nadu Ophthalmic Association (TNOA), All India Ophthalmological Society(AIOS), American Society of Cataract and Refractive Surgery(ASCRS), and the American Academy of Ophthalmology(AAO).

10. [PGC17] - Crawling under the Shadows: A Case of Severe Ocular Myiasis

Chief & Presenting author : Imon Roy (R30781)

11. [PGC18] - Quiet Eyes with Stormy Consequences- A case of Bilateral Fuch's Uveitis Syndrome

Chief & Presenting author : Anamika Chowdhury (A29120)

12. [PGC20] - CMV Storm in Vulnerable Retina

Chief & Presenting author : Bhanu Priya (B29456)

The 84th Annual Conference of All India Ophthalmological Society

13. [PGC22] - "Double Trouble: From Chemical burn to surgical rescue - A case of modified SLET with DALK"

Chief & Presenting author : Sakshi Mahalle (S29554)

14. [PGC23] - Ocular Complications of Hydroxychloroquine: Unrelenting Maculopathy

Chief & Presenting author : Jai Dixit (D29622)

15. [PGC26] - Early recognition & aggressive management of periorbital necrotizing fasciitis- case based overview

Chief & Presenting author : Chayanika Mehta (C31083)

16. [PGC27] - Race Against Time: A Rare Case of Trilateral Retinoblastoma in a 3 year old child

Chief & Presenting author : Sushmita Deshmukh (S28624)

17. [PGC28] - SEBACEOUS CARCINOMA PRESENTING IN LOWER EYELID

Chief & Presenting author : Meenakshi Benneshirur (M31404)

18. [PGC29] - Bilateral Neovascular Glaucoma in Chronic Myeloid Leukemia: An Unusual Clinical Association

Chief & Presenting author : Barkha Chaudhary (B29613)

19. [PGC30] - Plus-Minus Lid Syndrome with Light Near Dissociation Secondary to Midbrain Infarction

Chief & Presenting author : Ashwin Govil (G29597)

20. [PGC31] - A HIDDEN DIAGNOSIS BEHIND A HEAVY EYELID

Chief & Presenting author : Pragna P Mane (P31375)

21. [PGC33] - SEEING BEYOND THE BONES: OCULAR INVOLVEMENT IN MCCUNE-ALBRIGHT SYNDROME

Chief & Presenting author : Kubendiran Prashanthini (K31400)

22. [PGC34] - Kink and swell: Asymmetric optic disc edema in a case of unilateral high myopia

Chief & Presenting author : Nikita Nupur (N30194)

23. [PGC36] - WHEN VISION BLURS BUT CLUES SHINE: A CASE REPORT OF BEST VITELLIFORM MACULAR DYSTROPHY

Chief & Presenting author : DIVYA DATTA

24. [PGC37] - Incidental Torpedo Maculopathy in an Elderly Patient With Unilateral CNVM: A Case Report

Chief & Presenting author : SHUBHAM DATTATRAYA BADE

25. [PGC39] - Sparks of Danger:Case Series on Diverse Ocular Presentations from Firecracker Injuries During Diwali

Chief & Presenting author : RINKAL MANGLANI

26. [PGC40] - ATYPICAL MENINGIOMA PRESENTING WITH PROGRESSIVE VISION LOSS:A RARE CASE OF UNILATERAL PROPTOSIS

Chief & Presenting author : Priyal Thakar (P31261)

The 84th Annual Conference of All India Ophthalmological Society

27. [PGC41] - WHEN IT ISN'T CELLULITIS : A MISDIAGNOSED CASE OF ORBITAL PSEUDOTUMOR

Chief & Presenting author : Apurva Pokharkar (A31403)

28. [PGC42] - A case of refractory Diabetic Macular Edema: Deciding when to switch Anti-VEGF

Chief & Presenting author : Rishab Bairagi (B28610)

29. [PGC44] - Secondary Glaucoma(SWS)

Chief & Presenting author : Kondeti Nava Manojna (N30134)

30. [PGC45] - SILENT LEUKEMIA, LOUD OPTIC NERVE - AN UNCOMMON OPHTHALMIC DEBUT OF CML

Chief & Presenting author : Sivasangari V (S31414)

31. [PGC49] - Double Trouble: Ethambutol Toxicity and VP Shunt Failure Leading to Partial Optic Atrophy

Chief & Presenting author : Ankur Nigam (N31398)

32. [PGC50] - Multimodal imaging in a case of TB SLC - To assess extent, progression and remission of disease

Chief & Presenting author : SUPRITAM DAS

33. [PGC51] - Isolated Ocular Syphilis mimicking as Posterior Placoid Chorioretinopathy in an immunocompetent host

Chief & Presenting author : Preethi K (P30355)

34. [PGC52] - A SER(i)OUS PITFALL: Optic Disc Pit Maculopathy in a 13-Year-Old

Chief & Presenting author : Khyati Ganesuni (K31148)

35. [PGC53] - Relentless Fungal Keratitis Rescued by 24 Intrastromal Injections: A Tale of Persistence

Chief & Presenting author : Alisha Porwal (A29595)

36. [PGC54] - DOWNWARD BOUND : A CASE OF MONOCULAR ELEVATION DYSFUNCTION IN A YOUNG ADULT

Chief & Presenting author : Bhoomika Srinivas (B31226)

37. [PGC55] - The Puzzling Macular Star :A Rare Presentation in Young Female

Chief & Presenting author : Priyanshi Pandey (P31387)

38. [PGC56] - Lessons from a rare case : Orbital myiasis , superimposed on Hansen's disease .

Chief & Presenting author : Rakshitha Suresh (R31224)

39. [PGC57] - Radiation-related retinopathy after external beam radiotherapy for pituitary macroadenoma

Chief & Presenting author : Tejaswini Palla (T31383)

40. [PGC58] - FROM SOIL TO SINUS TO BRAIN - "THE SILENT INVADER" - MUCORMYCOSIS

Chief & Presenting author : Nisapthni M (N31395)

41. [PGC59] - Ocular Hypertension with a Twist

Chief & Presenting author : Reshma S M (R30888)

The 84th Annual Conference of All India Ophthalmological Society

42. [PGC60] - Bitemporal hemianopia secondary to pituitary macroadenoma.

Chief & Presenting author : Ruchira Rupaballi Nayak (R30868)

43. [PGC61] - Povidone Iodine to the rescue : Salvaging Fungal Endophthalmitis

Chief & Presenting author : Rahul Yadav (Y31410)

44. [PGC62] - Case Report : Management of Aphakic Bullous Keratopathy

Chief & Presenting author : Mrunal Thangan (M28711)

45. [PGC63] - From denervation to devastation

Chief & Presenting author : Apoorva V (A30862)

46. [PGC64] - Catching VHL in the Eye

Chief & Presenting author : Kota Manimala (M30826)

47. [PGC65] - Unmasking a silent carrier

Chief & Presenting author : Somya (S30873)

48. [PGC66] - IgG4 at the Apex

Chief & Presenting author : Snehil Sharma (S30928)

49. [PGC67] - A Case of failing bleb and Acetazolamide induced Choroidal Effusion

Chief & Presenting author : Vidushi Dixit (D28203)

50. [PGC69] - From Darkness to Sight: Bilateral Optic Neuritis Unmasking Neuromyelitis Optica

Chief & Presenting author : Anusua Kar (A30035)

51. [PGC70] - Ocular Surface Reconstruction in Recalcitrant Giant OSSN: A Multimodal Therapeutic Success

Chief & Presenting author : Mehak Gupta (M30326)

52. [PGC71] - Indirect Carotid-Cavernous Fistula Presenting With Contralateral Proptosis: A Case Report

Chief & Presenting author : Tareeta Biswas (T29609)

53. [PGC72] - Keratoconus Beyond the Cornea: A Four-Case Series of Multisystem Associations

Chief & Presenting author : Anjali K (A30267)

54. [PGC74] - FROM CRISIS TO CONTROL:MANAGING SECONDARY OPEN ANGLE GLAUCOMA IN STURGE WEBER SYNDROME

Chief & Presenting author : Anusha K (A31441)

55. [PGC75] - Retained anterior chamber angle foreign body masquerading as unilateral corneal edema

Chief & Presenting author : Peenal Satra (P31133)

The 84th Annual Conference of All India Ophthalmological Society

56. [PGC79] - Trapped Aqueous: A rare Post-Phacoemulsification Malignant Glaucoma Escape Story

Chief & Presenting author : Jagruti Gulhane

57. [PGC80] - The Eyes that Warned First: CRVO uncovering CML blast crisis.

Chief & Presenting author : Vidhya Bhoopathy (V29919)

58. [PGC82] - Unmasking malignancy: SCC or SGC??

Chief & Presenting author : Bhuvanambika P (B28251)

59. [PGC83] - Not All PL-Negative Optic Neuritis Is Hopeless: A Case of Dramatic Visual Rebound

Chief & Presenting author : Kiran (K31202)

60. [PGC84] - A BOLT TO THE BODY, A BLUR TO THE EYE: A CASE OF ELECTRIC CATARACT

Chief & Presenting author : Tanya Kamath (T31432)

61. [PGC85] - Atypical Cone Dystrophy Revealed: When Hyperopia and a Tilted Disc Complicate the Picture

Chief & Presenting author : Malavika Aravind (M31435)

62. [PGC86] - The Absent Iris: A Case of Congenital Aniridia, Central Nuclear Cataract and Other Ocular Anomalies

Chief & Presenting author : Shangeetha M. (S31436)

63. [PGC87] - Managing the dehiscence- cataract extraction in Iridofundal coloboma

Chief & Presenting author : Renukha J (R29222)

64. [PGC89] - From Firework to Focus: Reconstructing Sight After Cracker Burst Trauma

Chief & Presenting author : Thasneem Suraiya (T13971)

65. [PGC90] - Platelets to Papilledema - Eltrombopag-Induced CVST with Sequential Optic Atrophy in refractory ITP.

Chief & Presenting author : Shanmathi Thiyagarajan (S31369)

66. [PGC91] - Management of recurrent orbital solitary fibrous tumor : A multimodal therapeutic approach

Chief & Presenting author : Archie Gupta (A26575)

67. [PGC93] - The Sneaky Corneal Bumps: A Salzmann Surprise

Chief & Presenting author : Asmitha S

68. [PGC94] - AUTOIMMUNE PERIPHERAL CORNEAL DESTRUCTION : A CASE OF MOOREN'S ULCER

Chief & Presenting author : Aishwarya Talwalkar (A31084)

69. [PGC95] - Pituitary apoplexy following cataract surgery: A novel complication

Chief & Presenting author : Sameer Chaudhary (C27089)

70. [PGC97] - The Eye with a Hidden Pull: A Curious Case of Duane Syndrome

Chief & Presenting author : Sonia Sharma (S30572)

The 84th Annual Conference of All India Ophthalmological Society

71. [PGC98] - An Orbital Mass with a twist : Diagnosing Pseudotumor

Chief & Presenting author : Saranya ANBARASAN (S28230)

72. [PGC100] - Through The Iridian Rift: The Silent Break In The Circle of the Iris

Chief & Presenting author : Swati Nagure (S31439)

73. [PGC101] - A Diagnostic Masquerade: Malignant Eyelid Carcinoma Presenting as Preseptal Cellulitis

Chief & Presenting author : Aisha Tanaz (A31438)

74. [PGC102] - When a cold burns the eyes - ocular manifestation in MIRM

Chief & Presenting author : Richa Verma (R30631)

75. [PGC104] - Latency bet Cure and Compromise: A Rare Case of Unexplained Vision Loss

Chief & Presenting author : Amirtha Varshini Venkata Subramanian (A29249)

76. [PGC105] - BEYOND THE BLOOD : A VISION THREATENING OCULAR TWIST IN ALL

Chief & Presenting author : Rutuja Madavi

77. [PGC106] - Unmasking the Mimic: Orbital Mucormycosis masquerading as Rhabdomyosarcoma in a Toddler

Chief & Presenting author : Jahnvi Katoch (J31376)

78. [PGC109] - FROM SCARRED TO CLEAR: RESTORING OCULAR SURFACE USING CULTIVATED LIMBAL STEM CELL TRANSPLANT

Chief & Presenting author : Priyanka Venkatakumar (P30762)

79. [PGC110] - Plugged with Platelets : A Macular Makeover

Chief & Presenting author : Debolina Chatterjee (D30818)

80. [PGC111] - Faces of Maldevelopment: Clinical Spectrum of Anterior Segment Dysgenesis Disorders causing glaucoma

Chief & Presenting author : Shireen Gupta

81. [PGC112] - THE ORBIT AS A WINDOW: UNILATERAL PROPTOSIS REVEALING SYSTEMIC LYMPHOMA

Chief & Presenting author : Nivetha Ramaswamy (N31397)

82. [PGC113] - Peering into a 'C' of Surprises: Cornea, Coloboma, Cataract

Chief & Presenting author : Lavina Paryani (L30024)

83. [PGC114] - a rare case of ocular cysticercosis with intermediate uveitis as presentation

Chief & Presenting author : Preethi Subramani (P31417)

84. [PGC117] - " TREATMENT TRIUMPH OR VISUAL TRAGEDY ? "

Chief & Presenting author : Prajakta Bhansali

The 84th Annual Conference of All India Ophthalmological Society

85. [PGC118] - From Hypotony to Healing

Chief & Presenting author : Rahul (R30947)

86. [PGC119] - The Mass that Vanishes: a Steroid-Responsive Orbital Mystery

Chief & Presenting author : Kiruthiga D A (K29920)

87. [PGC120] - Acute post op fungal endophthalmitis chief author prof Dr Kavitha co author Dr Thasneem Suraiya

Chief & Presenting author : Sruthi Malkapuram (S31317)

88. [PGC121] - Papilledema secondary to intraventricular subependymoma causing obstructive hydrocephalus.

Chief & Presenting author : Shreyas Gokhale (G31327)

89. [PGC123] - "A WOLF IN VESSELS: TUBERCULAR VASCULITIS IN A FIT YOUNG ADULT"

Chief & Presenting author : Pon Poojaa Thiruvalluvan (P31430)

90. [PGC125] - Hurricane Keratopathy--post operative steroid use

Chief & Presenting author : Amritha Lakshmi R

91. [PGC126] - Bilateral Ocular Pyogenic Granulomas in Laryngo-Onycho-Cutaneous Syndrome With Systemic Involvement

Chief & Presenting author : Kapil Chalana (C30915)

92. [PGC127] - When the Womb Raises Pressure

Chief & Presenting author : Vandana (V30827)

93. [PGC129] - Hypertensive Retinopathy in Takayasu Arteritis Secondary to Tuberculosis: A Case Report and Review

Chief & Presenting author : Nandita Trivedi (N26857)

94. [PGC130] - BEHIND THE FROZEN EYE : TOTAL OPHTHALMOPLÉGIA UNMASKS NASOPHARYNGEAL CARCINOMA

Chief & Presenting author : Mounica Selvam (M31434)

95. [PGC131] - A quick vision saves vision: Swift diagnosis and intensive management of Acute retinal necrosis

Chief & Presenting author : Akanksha Waldia (A29966)

96. [PGC132] - HIDDEN MENACE: LENS SIDEROSIS AFTER A SPONTANEOUSLY DISINTEGRATED METALLIC FOREIGN BODY

Chief & Presenting author : Abhishek T S (S31440)

97. [PGC133] - Management of descemet's penetrating wooden foreign body in a child using vitreoretinal forceps

Chief & Presenting author : Pragya Shambhawi (P31433)

98. [PGC135] - Paediatric Neuromyelitis Optica Spectrum Disorder (NMOSD): A Case of Bilateral Optic Neuritis

Chief & Presenting author : Varnika Aditi Singh (V28112)

The 84th Annual Conference of All India Ophthalmological Society

99. [PGC136] - Orbital Castleman's Disease Presenting as Eyelid Mass Lesions - A Brief Clinicopathologic Capsule

Chief & Presenting author : Natasha Pillai (N30670)

100. [PGC137] - Through the Looking Glass: A Case Profile of Bilateral Macular Hole in a Middle-Aged Female Patient

Chief & Presenting author : Poojashree (168247)

101. [PGC140] - CENTRAL RETINAL ARTERY OCCLUSION AS THE FIRST SIGN OF CATASTROPHIC LUPUS VASCULOPATHY

Chief & Presenting author : Surbhi Tiwari (S30955)

102. [PGC141] - Shadows of a Silent Infection: A rare Case of Candida Endophthalmitis

Chief & Presenting author : Bindya C

103. [PGC144] - "BILATERAL CHOROIDAL OSTEOMA" RARELY RARE, TRULY INTRIGUING

Chief & Presenting author : Shailaza Tripathi (S28679)

104. [PGC145] - comparison between autograft vs allograft in a case of chemical injury and SJS

Chief & Presenting author : Neha Doijad

105. [PGC146] - Herpetic (HSV) Immune Stromal Keratitis in Paediatric Patient

Chief & Presenting author : Apurva Mhatre (A31388)

106. [PGC147] - Diagnostic dilemma- Double Trouble : A Tale of Acute Proptosis

Chief & Presenting author : Apoorva Managoli (A31323)

107. [PGC150] - MACULAR MELTDOWN : LATE ONSET STARGARDTS WITH GEOGRAPHICAL ATROPHY

Chief & Presenting author : Divya R

108. [PGC153] - When It Isn't Retinoblastoma : A Rare Pediatric Orbital Mesenchymal Hamartoma

Chief & Presenting author : Gouthami S (G31386)

109. [PGC154] - Surgical Challenges & Outcome in Tubercular Uveitic Glaucoma & Cataract with 360deg Double Synechiae

Chief & Presenting author : Neha Gupta (N31017)

110. [PGC156] - THE DOME IMPROVEMENT PROJECT : PENETRATING KERATOPLASTY TO REPAIR A CHALLENGING ANTERIOR STAPHYLOMA

Chief & Presenting author : Siddharth Tyagi

111. [PGC158] - An Unusual Price of Prevention: OCP-Associated Central Retinal Artery Occlusion

Chief & Presenting author : Rupali (R29994)

112. [PGC159] - CLINICAL FEATURES , DIAGNOSIS AND MANAGEMENT OF ORBITAL LYMPHANGIOMA

Chief & Presenting author : CHANDANA R H

The 84th Annual Conference of All India Ophthalmological Society

113. [PGC161] - Beyond High Myopia: Anterior Lenticonus in Alport Syndrome

Chief & Presenting author : Vaisakh K R (R29993)

114. [PGC164] - The Irisless Challenge: Cataract Surgery in a Fragile Pediatric Lens

Chief & Presenting author : Chaithra A Kumari (C31457)

115. [PGC165] - Escaping the bite: Pilocarpine unveils a lucky diagnosis

Chief & Presenting author : Shreya Bhat (S31459)

116. [PGC166] - Ptosis with a Plot Twist

Chief & Presenting author : Bhoomika Jayesh Nisar (B30361)

117. [PGC168] - A Paradox of Progress: Wipe-Out Syndrome Following an Apparently Successful Trabeculectomy

Chief & Presenting author : Priyanga M (P30072)

118. [PGC169] - RECURRENT INTRASTROMAL BLEED FOLLOWING FUNGAL CORNEAL ULCER

Chief & Presenting author : Tanmay Gaidhani (G30639)

119. [PGC173] - When the Macula Speaks in Dots: A Rare Choroidal Puzzle

Chief & Presenting author : Nandhinee Arumugham (N31477)

120. [PGC175] - Congenital PPC Mimicking PFV: Diagnostic Challenges and Clinical Distinction

Chief & Presenting author : Suman Roy

121. [PGC176] - Uncovering the buckle - A clinically significant complication of retinal detachment surgery

Chief & Presenting author : Keerthana Hubli

122. [PGC177] - Migrating Crystalline Lipid Keratopathy in Anterior Sclerokeratitis

Chief & Presenting author : Arpit Gupta (G30377)

123. [PGC178] - The Long Shadow of Renal Cell Carcinoma: An Orbital Metastasis Story

Chief & Presenting author : Anupam Singh (S24626)

124. [PGC181] - CONJUNCTIVAL XEROSIS AS A SENTINEL SIGN: A CLINICAL CAPSULE ON PEDIATRIC VITAMIN A DEFICIENCY

Chief & Presenting author : Anisha J

125. [PGC182] - Double fovea - a masquerador or a mirage !

Chief & Presenting author : Aditya Anand (A22453)

126. [PGC183] - When hair grows on the eyeball: A Limbal Story

Chief & Presenting author : jahnvi m brahmesh

The 84th Annual Conference of All India Ophthalmological Society

127. [PGC185] - VKH Seen Only in Sight

Chief & Presenting author : Aishwarya Bidarahalli (A30031)

128. [PGC186] - The Small Eye with a Big Story: Microphthalmos with Optic Disc Coloboma and Sensory Nystagmus

Chief & Presenting author : Nimmanapalli Bharathi (N29998)

129. [PGC187] - MASS IN AC- INTERESTING CASE

Chief & Presenting author : Sahu Shafali (S25048)

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC Open House Leadership Development

Programme - Session 1

Date :	11-03-2026 (Wednesday)
Time :	09:00-10:30
Hall :	Meeting Room L-06 & 07

Chairperson : Harsha Bhattacharjee

Co- Chairperson : Chitra Ramamurthy

Moderator : Deepak Mishra

1 Prashant Bawankule - Introduction - 2 min

2 Partha Biswas - Leadership in AIOS - 12 min

Debate 1

Devika Joshi - Should leaders be feared - 3 Min

Soumya Ganesh Nanaiah - Should leaders be loved - 3 Min

Debate 2

Sushil Ojha - Should there be gender quotas in leadership positions?-YES - 3 Min

Soumya PP - Should there be gender quotas in leadership positions?-NO - 3 Min

3 Harsha Bhattacharjee - Institution building in difficult terrain - 12 min

Debate 3

Abhijaat Chaturvedi - Marketing is an essential form of success in practice - 3 Min

Saurabh Jain - Word of mouth "is all that is necessary - 3 Min

Debate 4

Arshi Singh - Leader should work from heart - 3 Min

Simar Rajan Singh - Leader should work with head - 3 Min

5 Introduction of New LDP Batch 2024-25 - 15 min

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - Session 1

Date :	11-03-2026 (Wednesday)
Time :	09:00-10:00
Hall :	Meeting Room U-01

Chairperson : Sudipta Mitra

Co-Chairperson : Satyajit Sinha

Moderator : Shrinivas M. Joshi

Judge : Sudhir Kumar, Amit Gupta, Parul Ichhpujani, Manisha Rathi, Gopal S. Pillai

1. [PGT6] - Effect of Prophylactic Intense Regulated Pulsed Light Therapy on Post-Refractive Surgery Dry Eye

Chief & Presenting author : Anahita Shroff (A27394)

2. [PGT13] - ANTERIOR SEGMENT OPTICAL COHERENCE TOMOGRAPHY EVALUATION OF LACRIMAL PUNCTUM BEFORE AND AFTER STENTING

Chief & Presenting author : Simran Hundlani (S29538)

3. [PGT16] - Cortical Functional Connectivity and White Matter Integrity in Anisometropic Amblyopia: Insights into Variable Responses to Occlusion Therapy

Chief & Presenting author : Himani Gupta (H29589)

4. [PGT24] - CORNEAL DENSITOMETRY IN POST DEEP ANTERIOR LAMELLAR KERATOPLASTY PATIENTS

Chief & Presenting author : SUPRIYA C (S28148)

5. [PGT56] - Comparison of Ropivacaine and a mixture of Lidocaine+ Bupivacaine on intraocular pressure after peribulbar anaesthesia

Chief & Presenting author : Samaa Hanif

6. [PGT80] - Aqueous Angiography Guided Minimally Invasive surgery, A Pilot RCT

Chief & Presenting author : Ashi Gupta (A25851)

7. [PGT100] - MICROHOOK AB INTERNO TRABECULOTOMY VERSUS BENT AB INTERNO GONIECTOMY WITH PHACOEMULSIFICATION IN OPEN ANGLE GLAUCOMA

Chief & Presenting author : Rinkal Goyal (R26414)

The 84th Annual Conference of All India Ophthalmological Society

Training the Teachers (Teachers Conclave) - Session 1

Date :	11-03-2026 (Wednesday)
Time :	09:30-10:15
Hall :	Atlantiis 1

1. Krishnaprasad R - Introduction & Program Overview - 05 mins
 2. Prashant Bawankule - ARC AIOS in the cause of Ophthalmic Teaching & Training - 05 mins
 3. J S Titiyal - Keynote Address : From a Teacher to a Mentor – Need of the Hour - 10 mins
- Q & A - 25 mins

The 84th Annual Conference of All India Ophthalmological Society

Eyeshala - Session 1 - Cornea and Refractive Surgery

Date :	11-03-2026 (Wednesday)
Time :	10:00-11:30
Hall :	Meeting Room L-01

Chair : Namrata Sharma, Rajesh Sinha, Shweta Agarwal, Sri Ganesh, Sujata Das

Moderator : Prafulla Maharana

Conveners : Farnaz Khan, Mahima Kaushal

10:00 - 10:15 - Limbal Stem Cell Deficiency - Diagnosis, Classification and Management - Shewta Agarwal - 15 min

10:15 - 10:30 - Bacterial Keratitis - Diagnosis and Management - Prafulla Maharana - 15 min

10:30 - 10:45 - Fungal Keratitis - Diagnosis and Management - Sujata Das - 15 min

10:45 - 11:00 - Ectatic Corneal Disorders - Management Algorithm - Rajesh Sinha - 15 min

11:00 - 11:15 - Lamellar Corneal Surgeries - An Overview - Namrata Sharma - 15 min

11:15 - 11:30 - Refractive Surgeries - How to Triage a Patient for an Appropriate Procedure - Sri Ganesh - 15 min

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - Session 2

Date :	11-03-2026 (Wednesday)
Time :	10:00-11:00
Hall :	Meeting Room U-01

Chairperson : Somen Misra

Co-Chairperson : Sreeni Edakhlon

Moderator : Tinku Bali

Judge : Gauri Sankar Gogoi, Rajalingam Vairagyam, Sanjeev Kumar Mittal, Rajendra Singh Chauhan, Pragati Gupta

1. [PGT10] - To evaluate the role of intralesional bleomycin in cases of periocular capillary hemangioma unresponsive to oral propranolol.

Chief & Presenting author : Abhishek Kumar (K25916)

2. [PGT15] - DEVELOPMENT OF PREOPERATIVE RISK STRATIFICATION SCORE FOR MANUAL SICS AND ITS IMPACT ON OUTCOME

Chief & Presenting author : Athira Nair (A28682)

3. [PGT44] - A CROSS SECTIONAL STUDY OF ANTERIOR CHAMBER ANGLE PARAMETERS AND BIOMETRIC PARAMETERS IN PATIENTS WITH SHALLOW ANTERIOR CHAMBER AND THEIR SIBLINGS AT A TERTIARY CARE CENTRE IN EASTERN INDIA

Chief & Presenting author : Anita Sankhla (A25439)

4. [PGT51] - Evaluation of Retinal Vessel Density Pre- and Post-Medical Treatment in Treatment-naïve Glaucoma Patients (POAG & NTG) using Optical Coherence Tomography Angiography (OCTA)

Chief & Presenting author : Rohit Chavan (C27321)

5. [PGT55] - Incidence and Risk Factors for Vitreous Cavity Bleed Following Pars Plana Vitrectomy for Complications of Proliferative Diabetic Retinopathy: A Prospective Observational Study

Chief & Presenting author : Priyanka Jain (P27788)

6. [PGT60] - A STUDY OF SIGNIFICANCE OF PRESSURE TO CORNEA INDEX IN PATIENTS WITH PSEUDOEXFOLATIVE GLAUCOMA.

Chief & Presenting author : Bhavya Kadiri (B27488)

7. [PGT63] - Comparison of the Efficacy and Safety Profiles of Device-Based and Non-Device-Based Minimally Invasive Glaucoma Surgeries (MIGS): iStent vs. BANG.

Chief & Presenting author : Sai Thaejesvi Gopalakrishnan (S27603)

The 84th Annual Conference of All India Ophthalmological Society

8. [PGT97] - Quantification of vitreous haze using Swept Source OCT in eyes with intermediate, posterior and panuveitis

Chief & Presenting author : Prathamesh Agashe

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Cataract - I

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room L-01A

Co-Chairperson : Malay Sarkar

Convenor : Minu M. Mathen

Co-Convenor : Sreeni Edakhlon

Moderator : Elankumaran Pasupathi

1. [FP44] - IOL Piercings: The Scleral Studs Approach for Scleral Fixated IOLs

Chief & Presenting author : Sangeet Mittal (M09477), Kanwaljeet Harjot Madan

2. [FP69] - Radiation Associated Cataracts Among Interventional Physicians and Support Staff

Chief & Presenting author : Gerald R. Schultz (G03079)

3. [FP402] - When precision slips!!!: why biometry mistakes matter more than ever.

Chief & Presenting author : Shashwat Porwal (P25142), Madhu Shekhar

4. [FP639] - Evaluation of macular microvascular changes after uneventful phacoemulsification surgery using OCTA

Chief & Presenting author : Hanjabam Dhanashree (H29574), Benjamin Nongrum, Tanie Natung

5. [FP645] - Dual Iris Fixation and Pupilloplasty for Traumatic Mydriasis with Lens Subluxation: 50 Cases

Chief & Presenting author : Navaneeth Saggam (S28102)

6. [FP728] - Title-An Outbreak of TASS after SICS cataract surgery –A little hidden viscoelastic substance

Chief & Presenting author : Somya Dulani (D09280), Abha Sinha, Sunanda KUMARI, Keshav Kumar Hota

7. [FP833] - Prophylactic Vaccine for Negative Dysphotopsia

Chief & Presenting author : Debashis Dutta (D07662), Minu M. Mathen, Ayan Mohanta, Arup Bhaumik

8. [FP847] - The effect of Phaco tip bevel Orientation during Chopping -Does it matter?

Chief & Presenting author : Bharathi Megur (M12298), Deepak Megur

9. [FP863] - Lens striations:A pivotal Marker to assess adequate depth of the trench during Phacoemulsification.

Chief & Presenting author : Deepak Megur (M08810), Bharathi Megur

10. [FP939] - Evaluating competency: Assessment and Grading in Simulation based Learning.

Chief & Presenting author : Kimaya Chavan (C13659), Chetankumar Ahiwalay

The 84th Annual Conference of All India Ophthalmological Society

11. [FP1144] - Novel Tear Metabolomics to Distinguish Bacterial, Viral, and Fungal Endophthalmitis

Chief & Presenting author : Naren Shetty (S17536), Padmamalini Mahendradas, Arkasubhra GHOSH

12. [FP1863] - Intermediate and near vision outcome following implantation of monofocal IOL

Chief & Presenting author : Ramlal Sharma (S07011), Arushi Rattan Pg

Haryana Ophthalmological Society : Navigating anterior chamber depth and angle changes after cataract surgery : Chayan Aggarwal

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Community / Social Ophthalmology - I

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room L-02

Chairperson : Sil Asim Kumar

Co-Chairperson : Arvind Kumar Morya

Convenor : Mahendra Kumar Jharwal

Co-Convenor : Dharamveer Choudhary

1. [FP11] - Comparison of Outcomes from Melbourne Rapid Fields Tablet Perimeter Software and HFA 24-2 SITA Fast

Chief & Presenting author : Mithun Thulasidas (T20871)

2. [FP162] - Artificial Intelligence in Smartphone Ophthalmology: A Budget-Friendly Tool for Cataract Screening

Presenting author : Preeti Thallapally (P30051) ,Chief author : *Siddharam Janti*, Hari Kumar Sreerangam, Preeti Thallapally, Shamlil Zalke

3. [FP195] - Correcting the Gender Imbalance in Health Care Access in a Society with High Literacy Rates

Chief & Presenting author : Thomas Cherian (T07267), Reesha K.R., Elizabeth Joseph

4. [FP617] - An AI based Risk Score to Triage and Prognosticate in Therapeutic Keratoplasty:Community Perspective

Chief & Presenting author : Apeksha Kataria (A24336), Yathish Shivanna, Gairik Kundu, Rohit Shetty

5. [FP776] - Assessing types and causes of corneal foreign bodies among factory workers in North West Delhi.

Presenting author : Seema Bajaj (Nee Tyagi) (B08686) ,Chief author : *Shailly Tyagi*

6. [FP853] - Validation of Predicting Myopia Onset and Progression (PreMO) Risk Score in India

Chief & Presenting author : Jitendra Nenumal Jethani (J09433)

7. [FP1003] - Ophthalmic Triage in the Age of AI: Assessing Chatbot Accuracy and Utility”

Chief & Presenting author : Nihil Singh (S30837), Vijay Bhaisare, Sfurti Tripathi , Shruti Mahajan

8. [FP1342] - Made-in-India Ruthenium-106 Plaque: Technological independence and triumph over Ocular Tumors

Chief & Presenting author : Rolika Bansal (R21494), Santosh G. Honavar, Vijay Anand P Reddy, Ashwitha ALva

9. [FP1962] - AI-Based Diabetic Retinopathy Screening in Central India, Outcomes from a Community Program.

Chief & Presenting author : Chawla Gajendra (C05261), Aashul Chawla

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

10. [FP2166] - A Call for Sight: Evaluating the Role of Telephonic Counselling in Eye Donation Decision-Making

Chief & Presenting author : Aneeta Jabbar (J13432), Elizabeth Joseph

11. [FP2294] - Squint Scale - An AI powered diagnostic tool for All

Chief & Presenting author : Gopikrishna Selvaganapathy (S28509)

12. [FP2363] - Sight Quest - The Diabetic Retinopathy Challenge

Chief & Presenting author : Shishir Verghese (V15308), Verghese Joseph

The 84th Annual Conference of All India Ophthalmological Society

Hyde Park Session - I

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room L-03

1. [FP78] - Restoring Form and Function: Blepharoplasty for Orbital Fat Bags in Thyroid Eye Disease

Chief & Presenting author : Sonali V. Kumar (S11777)

2. [FP464] - Frontal mucocele as a cause of unilateral huge proptosis;-A rare case report

Chief & Presenting author : Rutayani Dash (R21007), Prativa Behera, Meghna Samantaray

3. [FP519] - A Cross-sectional Study to Assess Thyroid associated ophthalmopathy:Optic Disc,CMT,RNFL using OCT.

Chief & Presenting author : Akshita Jain (A30929), Udayaditya Mukhopadhyay

4. [FP576] - Role of Topical Nepafenac with Prednisolone in Preventing Macular Edema Post-SICS.

Chief & Presenting author : Neha Pareek (N30808), Priye Suman Rastogi, Arnoev SANDUJA

5. [FP581] - Ophthalmic features in patients of haematological disorders .

Chief & Presenting author : Divya Jain (D30903), Bandyopadhyay Manas

6. [FP688] - In Silico Study of the Catalytic Domain of PknB from ocular Mycobacterium tuberculosis

Chief & Presenting author : Deepak Choudhury (C20269), P. Ansuman Abhisek, Nikita Dash

7. [FP855] - An unusual case of unilateral snowflake type of cataract in a young man after lighting injury

Chief & Presenting author : Sangita Basantaray (B14909)

8. [FP1280] - Seeing Eye to Eye –Who Leads the Way? Retrospective Comparison of biometry parameters

Presenting author : Srinivas Thatipally (S09136) ,Chief author : *Roma Johri* , Roma Johri

9. [FP1351] - TECNIS PureSee™ IOL: Visual outcomes and satisfaction in eyes aimed for emmetropia

Chief & Presenting author : Akshita Ghiya (A27231), Amit Mishra, Virendra Agrawal

10. [FP1379] - Prevalence , severity and risk factors of Posterior capsular Opacification - Tertiary experience

Chief & Presenting author : Sarita Panigrahi (P17614), Rutayani Dash

11. [FP1627] - Preparing Surgeons In Managing Cataract Complications - Training On A Virtual Reality Simulator.

Chief & Presenting author : Chetankumar Ahiwalay (A21377), Kimaya Chavan

12. [FP1725] - Scleral Fixated IOL in Surgical Aphakia: A Case Series

Chief & Presenting author : Harsh Gandhi (G29831), Kunjan Patel, Harsh Gandhi

13. [FP1780] - Progressive Precision : Evaluating Autofocus Pro against Conventional IOL Strategies

Chief & Presenting author : Vanaja Vaithianathan (V06274), Sharanyaa Krishnamoorthy, D Thamizhselvi

The 84th Annual Conference of All India Ophthalmological Society

14. [FP1925] - To evaluate visual outcomes after SFIOL implantation in patients with surgical aphakia in Bihar

Chief & Presenting author : Nishtha Mishra (N26305), Vatsala Kunwar, Sumit Randhir Singh, Kumari Priyanka Verma

15. [FP2146] - Effect Of Manual Small Incision Cataract Surgery On Ocular Surface In Diabetics

Presenting author : nikitha nataraju ,Chief author : *Najeeha Shukri*, ASHWNINI K V, anjanabai osbekar

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Cornea - I

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room L-04

1. [FP6] - Peripheral Iridectomy in Descemet stripping endothelial keratoplasty: To Do or Not to Do

Chief & Presenting author : Santosh Kumar (K11796)

2. [FP16] - Microkeratome Vs Femtosecond Laser Assisted Salk: A Randomized Controlled Trial

Chief & Presenting author : Mrinalini Singh (M26521), Pradeep Kumar, Sanjay Kumar Mishra, Alok Sati

3. [FP33] - Regenerative potential of limbal stem cells in graft-host junction modulation post-PK corneal haze

Chief & Presenting author : Srishti Khullar (S24271), Prabhjot Singh, Vijay Kumar Sharma

4. [FP832] - Practical pearls to minimise power related refractive surprise

Chief & Presenting author : Parul Aggarwal (A13290)

5. [FP940] - Intraoperative OCT Predicts Graft Thickness and Guides Microkeratome Selection in DSAEK

Chief & Presenting author : Manasi Tripathi (M22350), Rajesh Sinha, Shraddha Sneha, Manpreet Kaur

6. [FP967] - ASCOT-guided Evaluation of Wound Healing after Cyanoacrylate Glue Patch for Corneal Perforations

Chief & Presenting author : Manpreet Kaur (K18920), Sarath S, J. S. Titiyal, Vaibhav Namdev

7. [FP1008] - Acute Hydrops : Analysis of Intracameral Air Injection with Compression Sutures Vs Conservative Mm

Chief & Presenting author : Rajesh Goyal (G11774), Sakshi Gera

8. [FP1086] - “Visual Outcomes and Post operative Complications After DSEK in a Tertiary healthcare centre

Chief & Presenting author : Sonia Ghosh (S30597), Anamika Chowdhury, Sunil Kumar

9. [FP1109] - Repeat penetrating keratoplasty: Indications and long term outcome

Chief & Presenting author : Ashok Sharma (A04284), Rajan Sharma

10. [FP1496] - Anterior Segment Manifestations Of Herpes Zoster Ophthalmicus – Prospective evaluation

Chief & Presenting author : Shivani Thareja (P11931), Jatin Ashar, Prashant Garg

11. [FP1684] - Clinical Profile and Correlation of Donor-Related parameters with Graft detachments in DMEK

Chief & Presenting author : Eeshita Agarwal (E26794), Sunita Chaurasia

12. [FP1713] - 5-yr Endothelial Cell Density in Peripherally Trephined Donor DMEK vs Centrally Trephined Donor DMEK

Chief & Presenting author : Soham Basak (B16308), SK Basak

13. [FP1784] - Addressing the Dual Challenge: TKPro-Assisted Posterior Segment Surgery with Concurrent PK

Chief & Presenting author : Pranita Sahay (S16689), Siddhartha Rao B.S., Neiwete Lomi, Nawazish Shaikh

The 84th Annual Conference of All India Ophthalmological Society

Telangana Ophthalmological Society : Ophthalmological hide-and-seek of Keratoconus and Fuchs endothelial corneal dystrophy : Tejaswi

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Glaucoma - I

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room L-05

Chairperson : Naresh K. Motwani

Co-Chairperson : Saravana Bhava Balachandrachari

Co-Convenor : Mohammad Abid Shamshad

Moderator : Deepak Mishra

1. [FP50] - Evaluation of clinical profile in childhood glaucoma patients in tertiary centre.

Chief & Presenting author : Manju R. Pillai (P09192), Sravya Chinta, Neethu Mohan

2. [FP89] - A STUDY ON ASSOCIATION BETWEEN OCULAR PRESSURES & MYOPIA IN YOUNG ADULTS IN A TERTIARY CARE HOSPITAL

Chief & Presenting author : Pritha Ghosh (P30763), Mily Mandal

3. [FP480] - IOP elevation after (DSEK) & Gonioscopic angle evaluation in pts without preexisting glaucoma.

Chief & Presenting author : Rakesh Shakya (S13665), Bhudhendra Kumar Jain, V.K.Raju, Arvind Kumar Morya

4. [FP501] - Prospective Evaluation of AI-Integrated Fundus Camera for Glaucoma Referral in Comprehensive Clinic

Chief & Presenting author : Usha Tejaswini S (U27007), Divya RAO, Rengaraj Venkatesh, Kavitha S.

5. [FP506] - Peripapillary vascular density to differentiates glaucomatous from physiological cupping by OCTA.

Chief & Presenting author : Niharika Arya (N21292), Manushree Gautam, Neetu Kori shankhwar, Shweta Walia

6. [FP579] - Early onset Asymmetric PACG Post-Myopic LASIK – An Unusual Sequelae!!

Chief & Presenting author : Deepanshu (D26232), Annu Joon, Kirti Singh

7. [FP682] - Bridging Central & Peripheral Visual-Field Testing: The Diagnostic Advantage of 24 2C SITA Faster

Chief & Presenting author : Meenakshi Dogra (M29611), Meena Gopinath Menon

8. [FP736] - Clinical profile and Ultrasound Biomicroscopic features of primary angle closure disease in young

Chief & Presenting author : Divya Shetty (S15599), Baskaran Mani, George Ronnie J., A. Parivadhini

9. [FP856] - Angles, Iris, and the Unexpected Benefits of Cataract Surgery

Chief & Presenting author : Shyam Sangeeth S (S30855), Mathew Tony, Hannah Shiny Rubsingh

The 84th Annual Conference of All India Ophthalmological Society

10. [FP965] - Visual field progression in Primary open angle glaucoma (POAG) V/S Pseudoexfoliative glaucoma (PEXG)

Presenting author : Asfa Khaleel (A28257), Chief author : *Madhavi M.R.*, Prashant

11. [FP977] - Glaucoma in ICE Syndrome: Surgical Results and Clinical Patterns from a North Indian Cohort

Chief & Presenting author : Arya Wagle (A29380), Suneeta Dubey, Julie Pegu

12. [FP1917] - Two year outcome of suture Gonioscopy assisted transluminal trabeculotomy with phacoemulsification

Chief & Presenting author : Pooja Bhomaj (B13543), Sharad Bhomaj

Chandigarh Ophthalmological Society : Evaluation of the role of oral Vitamin B12 and folate supplementation in Open Angle Glaucoma -

Abha Gupta (A27168)

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Neuro Ophthalmology

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room U-02

1. [FP52] - Unveiling the Mystery: A Case Report on Vertical Nystagmus"

Chief & Presenting author : MANIKA SHARMA (M29459), Brij Kishore Gupta, Kanav Gupta

2. [FP253] - NEUROLOGICAL SEQUELAE IN PAGET'S DISEASE: A CASE OF SIXTH NERVE PALSY

Presenting author : Sonal Meharwade (S30777) ,Chief author : *Akshata Chandaki*, Gajanan D C

3. [FP351] - Kearns - Sayre Syndrome -diagnosis and management from cardiology emergency to ophthalmology

Chief & Presenting author : Mamta Verma (M29617), Jitender Kumar, Manisha Nada

4. [FP433] - Vision and Vascular events -The spectrum of Neuro-Ophthalmic disorders in Stroke patients

Chief & Presenting author : Meghana Grandhi (M28331), P Mounika, Jayasri Kanthalu Narayanamoorthy

5. [FP1085] - "Morning Glory Syndrome: A Case Series Highlighting Diverse Ocular Associations"

Presenting author : Kiruthiga D A (K29920) ,Chief author : *Thasneem Suraiya*

6. [FP1214] - Neuro-ophthalmic manifestations of Leptomeningeal metastases

Chief & Presenting author : Padmalakshmi K (P30832), Veena Noronha, S. Ambika, Smita Vittal

7. [FP1277] - Diverse presentations and Treatment outcomes of Demyelinating Optic neuropathies: A case series

Chief & Presenting author : Deeksheka D (D30095), Sushritha S, Lily Daniel

8. [FP1505] - To report ocular motility involvement in a case of Porencephaly.

Chief & Presenting author : Dipti Shikha Kashyap (D27532), Pramod Kumar Pandey

9. [FP1746] - Lateral geniculate body infarction in Dengue infection-A Probable vasculopathic sequelae

Chief & Presenting author : Shireen Ahmad (S30227), Gazella Bruce Warjri

10. [FP1795] - Ocular-Ischemic syndrome as a presentation of moya moya disease.

Chief & Presenting author : Barkha Singh (B27947), Vijaya Sahu

11. [FP2226] - In the Shadow of Genetic Vision Loss: A Case Series on Leber's Hereditary Optic Neuropathy.

Chief & Presenting author : Taniya Nazeer (T28494), Priyanka Krishnakumar, Kowsalya, Taniya Nazeer

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Trauma

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room U-03

1. [FP621] - Fortune turning around

Chief & Presenting author : Shital Nannaware (S26287)

2. [FP792] - Breaking the Silence of Sight: Ocular Injury Patterns at a Tertiary Eye Center in Eastern India

Chief & Presenting author : Himanshu Jha Vats (V30912), Arup Kumar Das

3. [FP821] - Behind closed globes: Epidemiology & Visual Outcomes

Presenting author : Jagisha Bedi, Chief author : *Yamini Priya Vemula Ramana*, Rishabh Narula, Aditi Rao, Lizbeth Renny

4. [FP873] - Comparative study of astigmatism following repair in subgroups of open globe injuries

Chief & Presenting author : Priyanshi Gandhi (P28069), Vijay Labana, (Mrs.) Santosh Mehta

5. [FP954] - Beyond observation in black eye: The Surgical Solution to Orbital fractures

Chief & Presenting author : Soumya Behera (S30683), Sweksha Priya, Soumya Behera

6. [FP975] - Concentric Clues: Navigating a posterior capsular defect and retained intraocular foreign body (IOFB)

Chief & Presenting author : Himanshu Prakash (P28228), Rohan Kapoor, Mukesh Kumar

7. [FP981] - Unconventional and rare traumatic situations- Four Case Reports

Chief & Presenting author : Rajendra Singh Chauhan (R04583), Gautam Jain, Jyoti Deswal, Ashok Rathi

8. [FP1128] - Non resolving red eye following trauma in a young subject: A diagnostic dilemma

Chief & Presenting author : Siddharth Madan (S16243), Umesh, Pushkar Rangari, Rishita Yadav

9. [FP1493] - A EPIDEMIOLOGICAL STUDY OF CLOSED GLOBE INJURY AMONG PATIENTS ATTENDING TERTIARY RURAL HOSPITAL.

Chief & Presenting author : Pawan Tadavi (T28502), Neha Patil, Medha Mahendra Bhagat

10. [FP1566] - The spectrum of ocular trauma : A retrospective study in a tertiary care centre

Chief & Presenting author : Harini Diraviam (H30899), Mohan K.

11. [FP1800] - Globe subluxation with traumatic optic nerve avulsion with preserved optic sheath: A Case Report

Chief & Presenting author : Shreya Sidam (S30861), Snehal B Kokode, (Mrs.) Kavita Anand Dhabarde

12. [FP1885] - Unusual paediatric ocular trauma : lower eyelid injury from a toy car spring

Chief & Presenting author : Nidhi Sharma (N25258), Yogesh Malik, Chander Prabha

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Uvea

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:30
Hall :	Meeting Room U-05

1. [FP171] - APMPPE Presenting as Multiple Serous Retinal and Bacillary Layer Detachments

Presenting author : (Lt. Col.) Ranjit Goenka (G09023) ,Chief author : *Vipin Rana*, Ashok Kumar, Utkarsh ROODKEE, Vipin Rana

2. [FP563] - AQUEOUS POLYMERASE CHAIN REACTION POSITIVITY OF CYTOMEGALOVIRUS IN POSNER-SCHLOSSMAN SYNDROME

Chief & Presenting author : Swathika A (S25621), Suchitra Pradeep

3. [FP1155] - Bilateral Neuroretinitis in Adult Female with Suspected TINU Syndrome:A Rare Ophthalmo-Renal Entity

Chief & Presenting author : Divya Elizabeth Varghese (D29635), Narayanan Balakrishnan

4. [FP1384] - Outcomes of Pars plana vitrectomy in Culture-Positive Endogenous Endophthalmitis in North India

Chief & Presenting author : Isha Acharya (I23906), Lokesh Chauhan

5. [FP1390] - Mumps : A cause for pediatric uveitis

Chief & Presenting author : Anjana (A22099), R. Rathinam Sivakumar, Lisa Sunny, Radhika Thundikandy

6. [FP1427] - Uveitis with a Zoonotic Twist!! Challenging case of anterior, intermediate uveitis in Brucellosis.

Presenting author : Sougandha G (S30309) ,Chief author : *Ksheeraja.Y*

7. [FP1452] - Paediatric infectious uveitis: lessons learnt!

Chief & Presenting author : Bhavya Annadevula (B26465), Veena Kannusamy, Anjali Khadia, S. Bala Murugan

8. [FP1648] - Epidemic retinitis with extensive retro bulbar optic neuritis in the Winter of 2023-24'

Chief & Presenting author : Ronnie Abhishek Talluri (T30983), Soumyava Basu, Anup Kelgaonkar

9. [FP2038] - OCTA IN INFLAMMATORY CNVM

Chief & Presenting author : Shreya Angrish (S28782), Padmamalini Mahendradas, Ankush Kawali, Aneena Thomas

10. [FP2085] - Master mimicker Syphilis, The unexpected Devastator!

Chief & Presenting author : Sumedha Vats (S21653)

11. [FP2259] - VKH and Maternal Immunity: A Delicate Balance

Chief & Presenting author : Kaparthi Chandravadan (K30669), Anuradha Vadakke Kanakath

12. [FP2299] - Inflammatory mimickers of Central Serous Chorioretinopathy – A Case series

Chief & Presenting author : Rutuja Naik Nimbalkar (R31012), S. Sivaranjani, Ezhil Arul

13. [FP2383] - Saving the Eye !!!

Chief & Presenting author : Bhanu Priya (B29456), Priksha Lakhlan, Avnindra Gupta, Lalit Verma

The 84th Annual Conference of All India Ophthalmological Society

Innovations in Ophthalmic Training - Session 2

Date :	11-03-2026 (Wednesday)
Time :	10:15-11:20
Hall :	Atlantiis 1

Panelists :

J S Titiyal, Ragini Parekh, Deepak Mishra, Sonal Kalia

1. Santosh Honavar - Keynote Address : AIOS initiatives to aid PG Training - 10 mins
 2. Uma Kulkarni - Innovations in Clinical Teaching - 10 mins
 3. Dinesh Balakumar - Making sense of online resources - 10 mins
 4. Krishnaprasad R - Innovations in Surgical Training - 10 mins
- Q & A - 15 mins

Special Lecture

5. Akshay Nair - Simulators for Surgical Priming – The Present & Future - 10 mins

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC Open House Leadership Development

Programme - Session 2

Date :	11-03-2026 (Wednesday)
Time :	10:30-11:45
Hall :	Meeting Room L-06 & 07

Chairperson - Arun Singhvi

Co - Chairperson - Harshul Tak

Moderator - Shrinivas Joshi

1. Debasish Bhattacharya - Building Institution -Disha : Low cost models - 10 Min

Debate 5

Aadithreya Varman - Joining family practice is better - 3 Min

Nikhil Kamat - First generation practice is better - 3 Min

Debate 6

Gunjan Budhiraja - Should youth be given more leadership opportunities? - YES - 3 Min

P. Ravi Kumar - Should youth be given more leadership opportunities? - NO - 3 Min

2 Arun Singhvi - Model ASG, via Brand AIIMS - 10 Min

Debate 7

Vijayabhaskar Gajjala - Community ophthalmology and private practice complete each other - 3 Min

Shylesh Dabke - Community ophthalmology and private practice are mutually exclusive - 3 Min

Debate 8

Basant Kumar Singh - Leader should lead from front - 3 Min

Sangeeta Roy - Leader should lead from back - 3 Min

3 Ajay Sharma - Building Institution - model EYE Q - 10 Min

4 Introduction of New LDP Batch 2024-25 - 15 min

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - Session 3

Date :	11-03-2026 (Wednesday)
Time :	11:00-12:00
Hall :	Meeting Room U-01

Chairperson : Chitra Ramamurthy

Co-Chairperson : Mohita Sharma

Moderator : Anagha Heroor

Judge : Sanjay Kumar Daulat Thakur, Kavita Rajan Bhatnagar, Kedar Nemivant, Gyan Bhaskar, Vaishali Lalit Une

1. [PGT46] - Perilesional injections versus topical interferon alpha 2b in ocular surface squamous neoplasia

Chief & Presenting author : Nandini Gupta (N25971)

2. [PGT48] - OPTICAL COHERENCE TOMOGRAPHY ANGIOGRAPHY CHARACTERISTICS IN OPTIC NEURITIS AND ITS ASSOCIATION WITH VISUAL OUTCOMES

Chief & Presenting author : Jaserah Idrees (J29541)

3. [PGT53] - Assessment of Corneal Morphological Parameters in Moderate to High Myopia or Myopic Astigmatism for Subclinical Keratoconus Detection Using a Scheimpflug Tomographer

Chief & Presenting author : Kopal Shrivastav (K28106)

4. [PGT67] - Study evaluating the effectiveness and safety of Mitomycin C (MMC) in reducing the postoperative hypertensive phase in Ahmed Glaucoma Valve (AGV) surgery.

Chief & Presenting author : Tejas Atnoor (A27744)

5. [PGT69] - Epidemiological Profile of Paediatric Infectious Keratitis Cases at a Tertiary Hospital

Chief & Presenting author : Nandita Trivedi (N26857)

6. [PGT75] - GONIOSCOPY ASSISTED TRANSLUMINAL TRABECULOTOMY VERSUS TRABECULECTOMY WITH PHACOEMULSIFICATION IN OPEN ANGLE GLAUCOMA

Chief & Presenting author : Shreedhar Shivkumar (S26426)

7. [PGT77] - Assessment of eye related quality of life in children with strabismus

Chief & Presenting author : Nymisha Kakulla (N25831)

8. [PGT90] - Correlation of Central and Peripheral Contrast Sensitivity with Higher Order Aberrations in Computer Vision Syndrome

Chief & Presenting author : Varnika Aditi Singh (V28112)

The 84th Annual Conference of All India Ophthalmological Society

Eyeshala - Session 2 - Cataract, Glaucoma, Oncology

Date :	11-03-2026 (Wednesday)
Time :	11:30-13:15
Hall :	Meeting Room L-01

Chair : Anil K. Mandal, Arup Chakrabarti, Chitra Ramamurthy, Naren Shetty, Shweta Tripathi

Moderator : Amit Porwal

Conveners : Ashwitha Alva, Rolika Bansal

11:30 - 11:45 - Calculation of IOL Power - What is New? - Arup Chakrabarti - 15 min

11:45 - 12:00 - Recent Advances in Cataract Surgery - Naren Shetty - 15 min

12:00 - 12:15 - Premium IOLs - An Overview - Chitra Ramamurthy - 15 min

12:15 - 12:30 - Medical Management of Glaucoma - Newer Drugs - Shweta Tripathi - 15 min

12:30 - 12:45 - Approach to Congenital and Developmental Glaucoma - Anil K Mandal - 15 min

12:45 - 13:00 - Minimally Invasive Glaucoma Surgeries - An Update - Amit Porwal - 15 min

13:00 - 13:15 - Retinoblastoma 2026 - Current Concepts - Santosh G Honavar - 15 min

<https://www.facebook.com/AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Cataract - II

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room L-01A

Chairperson : Ravi Trehan

Co-Chairperson : (Lt.Col) Ashok Singh

Convenor : Ankur Midha

Moderator : Rishi Raj Singh

1. [FP109] - A Comparison of Refractive Outcomes of Scleral Fixed IOL and CMT Flex®

Chief & Presenting author : Madhurima Kumar (M26350), Kalishankar Das

2. [FP192] - decoding the mystry of 2.2mm clear corneal incision in phacoemulsification

Chief & Presenting author : Malay Sarkar (S08642)

3. [FP278] - FLACS Arcuate Incisions Vs Image Guided Arcuate Incisions Vs Toric IOL for -0.75D to -1.50D cylinder

Chief & Presenting author : Bharti Kashyap (K06544), Nidhi Gajendragadkar, Bibhuti B. Kashyap, Birendra Prasad Kashyap

4. [FP315] - Retinal Perfusion during cataract surgery with varying intraocular pressure in comorbid eyes

Chief & Presenting author : Vaishali Abhaykumar Vasavada (V11113), Shail Vasavada, Shyamal Dwivedi, Vasavada Abhaykumar Raghukant

5. [FP387] - A Comparative Analysis of Multifocal Eyecryl IOLvs.World's First Progressive Polyfocal Autofocus IOL

Chief & Presenting author : Arvind Kumar Morya (M17612), Nupur Goel

6. [FP669] - Predictors of Surgically Induced Astigmatism: A Step towards Customizing the Toric IOL Calculation

Chief & Presenting author : Nilesh Kumar (K20052)

7. [FP1004] - ULTRASOUND BIOMICROSCOPY (UBM) ANALYSIS IN EYES WITH YAMANE TECHNIQUE SCLERAL FIXATED IOL,s

Chief & Presenting author : Vandana C. Nath (N05284), Deepa Agrawal, Asav Patel

8. [FP1005] - The Tilted IOLs: Impact of Fixation Technique on IOL Orientation and Visual Acuity

Presenting author : Ayush Mehra (M30848) ,Chief author : *Babi Sinha*, Ayush Mehra, Mamatha B., Karan A.K.

9. [FP1013] - Twist of Vision: Initial Outcomes of an AI-Designed Spiral Optic IOL

Presenting author : Sneha Vasanth (S29437) ,Chief author : *Sri Ganesh*, Sneha Vasanth, Sushmitha Samak S

The 84th Annual Conference of All India Ophthalmological Society

10. [FP1019] - Hybrid EDOF Trifocal IOL Outcomes: Objective Subjective Evaluation After Phacoemulsification

Presenting author : Zeba Khanam (Z22254) ,Chief author : *Bhawesh Saha*, Sheel Meshram, Priyanka Mohanty

11. [FP1064] - Total Corneal Power Changes and Accuracy of IOL Power Calculation Post-Lenticular Surgery

Chief & Presenting author : Apurva Bansod (A27113), Abhijit Sinha Roy, Pooja Khamar

12. [FP1123] - Outcomes of a Novel Technique for Scleral Fixation of a regular PMMA IOL in Aphakic Patients

Chief & Presenting author : Vivekanandan V R (V20859)

M. P. State Ophthalmic Society : To evaluate Surgical Success: Addressing Complications with Capsular Tension Rings (CTR) during Phaco and PC IOL Implantation - Rakesh Shakya (S13665)

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Squint

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room L-02

Convenor : Poonam Jain

1. [FP306] - Intermittent Exotropia - Tips and Tricks in its management

Chief & Presenting author : Naheed Akhtar (A18975)

2. [FP396] - Role of Botulinum toxin A in the early treatment of sixth nerve palsy

Chief & Presenting author : Priyanka Singh (S13260)

3. [FP448] - Surgical outcome of LR transposition at SR with IR recession in cases of monocular elevation deficit

Chief & Presenting author : Amit Mohan (M11516), Divya Dubey

4. [FP497] - Impact of Lateral Rectus and Inferior Oblique Recession on Vertical Fissure Height in Exotropia

Chief & Presenting author : Jyotsana Sharma (J26947)

5. [FP625] - Macular flow dynamics following Pediatric strabismus surgery : An OCTA-based study

Chief & Presenting author : Devika Vasudevan (D27195), Suruthi Nagarajan, Rajesh Prabu V

6. [FP677] - SLANTED MUSCLE INSERTIONS FOR NEAR-DISTANCE DISPARITY

Chief & Presenting author : Antony Arokiadass Baskaran (B18727), Sahithya Bhaskaran, Shashikanth Shetty

7. [FP1313] - Surgical outcome & saccadic parameters following true muscle transplantation

Chief & Presenting author : Chavi Harkawat , Rebika, ROHIT SAXENA, Vinay Gupta

8. [FP1398] - Comparison of conj-scleral thickness after medial rectus resection vs plication in primary exotropia

Presenting author : Palash Patni ,Chief author : Paromita Dutta, Palash Patni

9. [FP1967] - Quantification of Strabismus using deep learning

Chief & Presenting author : Savleen Kaur (K13191), Debabrata, Jaspreet Sukhija

10. [FP2371] - A Low-Cost, Anatomically Realistic Strabismus Surgery Simulator:For ophthalmology skill training

Chief & Presenting author : Manish Tijare (M27272), Kuldeep Kumar Srivastava, Shah Chintan Mukeshkumar, Pradhnya Wasule

11. [FP2372] - Title To compare surgical success of resection vs plication surgery in horizontal strabismus

Presenting author : Amit Kumar (A18914) ,Chief author : Akshay Kumar, Tillotma Kar, Amit Raj

The 84th Annual Conference of All India Ophthalmological Society

Hyde Park Session - II

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room L-03

1. [FP299] - Compliance with Spectacle Wear and Reasons for Non-Compliance Among Children with Refractive Errors

Chief & Presenting author : Shruti Hegde (H13607), Anshuman Pattnaik, Prakrati Jain

2. [FP496] - Clinical Profile and Systemic Associations in HLA-B27 Uveitis at a Multidisciplinary Hospital

Chief & Presenting author : Apoorva V (A30862), Soumya Kanta Mohanty, Shovna Dash, Manmath Kumar Das

3. [FP526] - Atypical Presentation of Vogt-Koyanagi-Harada Syndrome in a Pediatric Patient: A Case Report

Chief & Presenting author : Vijay Kumar Maurya (M28215), Ram Lolarakh, Vinod Kumar Singh

4. [FP814] - Uveitis – a red flag

Chief & Presenting author : Smitha Jasper (S22698), Deepa Jose, Sheeja John

5. [FP882] - Toxoplasmic Neuroretinitis: Recognizing an Underdiagnosed Cause of optic Disc Edema with Macular Star.

Chief & Presenting author : Ishita Moudgil (I29477)

6. [FP927] - Enhancing Effective Cataract Surgery Rate - Possible Solutions

Chief & Presenting author : Kuldeep Dole (D10501), Rahul Deshpande, (Wg Cdr) Khurshed M. Bharucha

7. [FP1024] - Challenges in Implementing a Free Spectacle Distribution Program in a Government Geriatric Hospital

Chief & Presenting author : Prabu A. (P19079), Rajvin Samuel Ponraj

8. [FP1229] - Hidden Parasite, Blinding Threat: A Rare Case of Unilateral Ocular Toxocariasis in a Young Male.

Chief & Presenting author : Vidhya Bhoopathy (V29919), Kiruthiga D A

9. [FP1262] - Burden of refractive errors in school-going children in tribal populations of northern Telangana.

Chief & Presenting author : Abhinay Sakani (S30906), Mallikarjuna C, Parashu Ram Sakani, Adarsh Reddy

10. [FP1504] - Fungal corneal ulcers recalcitrant to treatment - burn it

Chief & Presenting author : Shishir Agrawal (A06083), Tushar Agrawal, Jaya Agrawal

11. [FP1762] - Vogt-koyonagi-harada disease v/s Active Choroiditis: a diagnostic dilemma

Chief & Presenting author : BHAVYA ANEJA, Meenakshi Thakar, Urvashi Kala, Bhumika Sharma

12. [FP2182] - An assortment in a case of congenital unilateral partial aniridia.

Chief & Presenting author : Niharika Batra (N30380), Divya Goyal, Akshita Sharma, Pramod Kumar Sahu

13. [FP2325] - scleral abscess leading to sympathetic ophthalmitis - an uncommon presentation

Chief & Presenting author : Radhika Thundikandy (R21364)

The 84th Annual Conference of All India Ophthalmological Society

14. [FP2376] - TOXOPLASMA RETINITIS-ALWAYS A CLINICAL DIAGNOSIS

Chief & Presenting author : Subhadip Sarkar (S17958), Subhadip Sarkar

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Cornea - II

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room L-04

Co-Chairperson : Rakesh Porwal

1. [FP54] - A pilot study on slit lamp and ASOCT based effect of topical losartan on corneal opacity

Chief & Presenting author : Puja Jha (P17205)

2. [FP60] - Comparison of CLassisted CXL vs hypoosmolar CXL in pediatric keratoconus patients with thin corneas

Chief & Presenting author : Gahan Annadevula (A27719), Avani Hariani, Isha Gupta, Parul Jain

3. [FP156] - Changes in corneal endothelium in patients of chronic kidney disease at tertiary care hospital

Chief & Presenting author : Manpreet Kour (M25357)

4. [FP215] - "Taming the Cone: Visual and Structural Outcomes of Toric ICL After CXL"

Chief & Presenting author : Reshika Annamalai Somasundram (R25460), Vivek Velumani

5. [FP233] - Efficacy and Safety of Topical Losartan in Patients with Corneal Opacities: A Prospective Study

Chief & Presenting author : Seema Kumari (S19287), Vireshwar Prasad

6. [FP463] - Topographic and Aberrometric Changes After CXL in Keratoconus with minimum pachymetry of 400 µm

Chief & Presenting author : Sandton J S Raj (S25079), Swapna Nair

7. [FP484] - Topical Insulin: Novel corneal epithelial regeneration Ally.

Chief & Presenting author : Pankaj Choudhary (C08132)

8. [FP516] - "Tilted Dreams, Warped Corneas: How Sleep Posture May Shape Keratoconus"

Chief & Presenting author : shubhangi sharma , Renu Meena, Jaishree Singh

9. [FP558] - Ray-tracing Guided Customized Laser Ablation for Progressive Keratoconus.

Chief & Presenting author : Prabhjot Singh (S26439), Rohit Shetty, Pooja Khamar

10. [FP662] - Efficacy of Mini-Scleral Lenses in Visual Rehabilitation of Corneal Disorders

Chief & Presenting author : Sumit Goyal (G23488), Ankita Singh, Jaya Kaushik

11. [FP1331] - Bowman's Layer Onlay Grafting in Advanced Keratoconus

Chief & Presenting author : Aayushi Singhal (A30975), Dharamveer Choudhary

12. [FP1446] - Controlled Immunomodulation Enhances Collagen Integrity and Corneal Stability in Keratoconus

Chief & Presenting author : Pooja Khamar (K17849), Swaminathan Sethu, Arkasubhra Ghosh

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1893] - Intrastromal Voriconazole versus Topical 5% Natamycin alone in deep seated mycotic keratitis

Chief & Presenting author : Shashi Agarwal (A07000), Navidha Shrivastava, Anamika Dwivedi, Aashi Jain

Maharashtra Ophthalmological Society : Clinical Utility of CRISPR-based RID-MyC Assay in Smear and Culture-Negative Fungal Keratitis - Sujay Jaju (J27104)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Glaucoma - II

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room L-05

Co-Chairperson : Neeraj Khunger

Convenor : Jaishri Murli Manohar

Co-Convenor : Mohammad Abid Shamshad

1. [FP152] - Effect of antiglaucoma medications on the lacrimal drainage system a prospective case-control study

Chief & Presenting author : Manju M (M23393), Sindhuja Murugesan, Prem Anand Chandran

2. [FP194] - The Knowledge-Practice Paradox in Glaucoma Management: A Tertiary Care Centre Study in Central India

Chief & Presenting author : Yog Agrawal (A29264), Aditya Suresh Dutt Sharma

3. [FP231] - Efficacy of SLT in treating patients with open-angle glaucoma and ocular hypertension

Chief & Presenting author : Sunayana N MURTHY (S23344), Perna Garg, Suneeta Dubey

4. [FP261] - Ocular Surface Disease in POAG: The Hidden Burden of Therapy

Chief & Presenting author : Kavita Rajan Bhatnagar (B09257), Nikhil Agrawal, Kirti Jaisingh

5. [FP380] - Factors contributing to Non - adherence to follow - up : A Deep dive into childhood glaucoma

Chief & Presenting author : Sabarinath A (A27828)

6. [FP461] - Assessment of OCULAR SURFACE ALTERATIONS in patients of POAG on TOPICAL ANTI-GLAUCOMA AGENTS

Chief & Presenting author : Reetoja Das (R27088), Md. Nazarul Islam

7. [FP731] - TO COMPARE DEPRESSION IN GLAUCOMA PATIENTS VS GENERAL POPULATION ATTENDING A TERTIARY EYE CENTRE

Chief & Presenting author : Rashmirita Kakoty (R23844), Akshay Umare, Annamalai O., Rengaraj Venkatesh

8. [FP810] - Outcomes of Bleb Revision Following Ahmed Glaucoma Valve Implantation: A Retrospective Analysis

Chief & Presenting author : Amrita Pugalenth (A25761), George Ronnie J.

9. [FP892] - Enhancing Patient Compliance: Validation of a novel tool through Motivational Interviewing session

Chief & Presenting author : Anandhi D. (A13097), Kiruthika N, Aarthi Priyadharshini

10. [FP1020] - Effect of glaucoma medication on lipid layer thickness in patients with newly diagnosed glaucoma

Chief & Presenting author : Pradeep Balam (B21329), Mayuri Totli Kuruba

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

11. [FP1137] - Stress Meets Sight: Exploring Plasma Cortisol as a Marker of Glaucoma Severity

Chief & Presenting author : ADWITIYA BISWAS (B25861), Tanuj Dada, Thirumurthy VELPANDIAN, Ekta SHAW

12. [FP1381] - “Beyond IOP: OCTA-Based Microvascular Changes in POAG, PACG & NTG”

Chief & Presenting author : Rachel Joseph (J14460), Apoorva N

Odisha State Ophthalmological Society : Comparison of Retinal Nerve Fibre Layer in Alcoholic Liver Disease Patients Vs Age - Matched controls - Sujata Priyamabada (P12681)

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Community Social Ophthalmology

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room U-02

Judge : Laxman Singh Jhala

1. [FP205] - Barriers to Effective Community Eye Care: Insights from a Rural Outreach Initiative in Assam

Chief & Presenting author : Sauvik Barua (B23841), Harsha Bhattacharjee

2. [FP505] - Macular function tests Vs B - scan in mature cataracts: A study in a Tertiary eye hospital in India

Chief & Presenting author : Niharika Singri (N26206), Anuradha G, Meena Gopinath Menon

3. [FP525] - To measure retinal nerve fibre layer thickness in thalassemia major and compare with healthy control

Chief & Presenting author : Puspa KUMARI (P21432)

4. [FP561] - Quantifying Glaucoma Prevalence Through Retrospective Clinical Data: Evidence from South Coast India

Chief & Presenting author : Dr. Adithya Puthalath (P30859), K. Kalaivani

5. [FP903] - UNDERSTANDING EYE HEALTH PATTERNS IN THE ELDERLY :A SURVEY OF OCULAR ISSUES IN OLD AGE HOMES .

Chief & Presenting author : Sfurti Tripathi (S30142), Vijay Bhaisare

6. [FP1126] - Multimodal strategies for Community Awareness for Diabetic Retinopathy

Chief & Presenting author : Lokesh Jain (J09551), Kshemya Jain, Garima Jain

7. [FP1389] - Ocular Morbidity and Health Seeking behavior in patients attending eye camp during Rath Yatra

Chief & Presenting author : Bhumika Rath (B22717), Nandhakumar, Dr. Pratistha Rath

8. [FP1470] - Comparative Evaluation of AI Chatbots for Pediatric Eye Care: A Multidomain Expert Analysis

Chief & Presenting author : Shweta Dhiman (S19443), Prolima Thacker, Savleen Kaur, Chitaranjan Mishra

9. [FP1571] - A study evaluating the effectiveness of preventive measures in sports-related ocular injuries.

Chief & Presenting author : Anchal Tripathi (A21678), Mohini Agrawal, Atul Bhirud, Avinash Mishra

10. [FP1586] - Comparison of trends & patterns of Retinopathy of prematurity in rural & urban centres in Karnataka.

Chief & Presenting author : Priyamvada Jain (P22124), Sherine M Dsouza, Anand Vinekar

11. [FP1859] - How Aware Are Patients With Systemic Diseases About Glaucoma? A Cross-Sectional Study

Chief & Presenting author : Aishwarya Polisgowdar B (A27032), Vandhana Sundram, Shruthi Tara Vasudev, Geetha G.

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Cornea

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room U-03

1. [FP368] - TENON'S PATCH GRAFT – A KNIGHT IN SHINING ARMOUR

Presenting author : Kripakaran Ganapathy (G27875), Chief author : *Balamurugan Ramnata*, Saranya Santhosh

2. [FP764] - Analysis of Changes in Aberration dynamics Post Collagen Cross- Linking in Patients with Keratoconus

Chief & Presenting author : Debasmitta Bera (D21421), Raj Shekhar Paul, Mona Bhargava

3. [FP842] - Assessment of Netarsudil 0.02% on Corneal Endothelial Cell Density Following Phacoemulsification

Chief & Presenting author : Apoorv Gupta (A29331), Nidhi Sharma, Gautam Jain, Rajendra Singh Chauhan

4. [FP901] - Incidence and Subtype Classification of Dry Eye Disease in a Tertiary Indian Eye Clinic

Chief & Presenting author : Asav Patel (P24658), Vasavada Abhaykumar Raghukant, Vandana C. Nath, Lajja Shastri

5. [FP1174] - The Silent Split: Descemet Membrane Detachment Detection using AS-OCT in MSICS done by PGTs

Chief & Presenting author : Shreyashi Singh (S28689), Piyali Sarkar

6. [FP1258] - Epithelial Remodeling Post Corneal Allogenic Intrastromal Ring Segment Implantation in Keratoconus

Chief & Presenting author : Pravallika Pamulapati (P27552), Jagadeesh Kumar Reddy K., Vandhana Sundram

7. [FP1447] - Corneal melt: Insights into clinicoetiological profile and treatment response

Presenting author : Mary Ann Justin (M30287), Chief author : *Shubashree Karat*, Suneetha N Lobo, Samah Bermawer

8. [FP1507] - Study of Clinical profile and Management of Blepharokeratoconjunctivitis with Corneal Perforation.

Chief & Presenting author : Sanjana Sahoo (S29055), Punyaslok Mohanty

9. [FP1944] - OUTCOMES OF FEMTOLASER ASSISTED DEEP ANTERIOR LAMELLAR KERATOPLASTY FOR ANTERIOR CORNEAL PATHOLOGIES

Chief & Presenting author : Preeti Suman (P30894), Nibha Gupta, Uma Sridhar

10. [FP1945] - Beyond the stitch: Unveiling the dynamic remodelling of transplanted cornea.

Chief & Presenting author : GAURAV VERMA (V28674), Prabhu Vijayaraghavan

11. [FP2173] - "Targeting the Deep: Penetrating Voriconazole Therapy in Recalcitrant Fungal Keratitis"

Chief & Presenting author : Sree Vinya Avula (S30937), Sowmya Peri, Nasrin

12. [FP2190] - Visual Acuity Correlation with Aberrations and Epithelial Remodeling Post CXL in Keratoconus

Chief & Presenting author : Gagan Deep Kaur (G28986), Neha Pathak, Amit Mishra, Virendra Agrawal

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Diabetic Retinopathy & Medical Retina

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:45
Hall :	Meeting Room U-05

1. [FP145] - A Clearer Future: Ranibizumab Biosimilars in Focus

Chief & Presenting author : Eshani (E27255)

2. [FP577] - GC-IPL and RNFL profile across Diabetic Retinopathy severity and their Correlation with Blood Marker

Chief & Presenting author : Soumya H.V. (S10736)

3. [FP703] - CRP and Diabetic Retinopathy: Decoding Inflammatory Signals

Chief & Presenting author : Vivek Goyal (G30885), Anju Kochar, Ankita Singh, Amita Agarwal

4. [FP791] - Retinal Fluid Dynamics in DME: Anti-VEGF Efficacy in Mumbai

Chief & Presenting author : Swapnil Modak (M25564)

5. [FP854] - Cost of care: Financial impact of Anti-VEGF therapy in DME and nAMD

Chief & Presenting author : Manavi Deokrishna Sindal (S11035), Aparna C S, Sudha Lam, Pawan Garde

6. [FP1231] - Retinal neurodegeneration in children with Type 1 diabetes without diabetic retinopathy

Chief & Presenting author : Seema Meena (M18467), Kirti Jaisingh, Manjari Tandon, Kavita Rajan Bhatnagar

7. [FP1309] - DISTRIBUTION OF MICROANEURYSMS IN PATIENTS WITH DR AND ITS CORRELATION WITH CHOROIDAL THICKNESS

Chief & Presenting author : Nibha Gupta (N30874), Charu Tandon, Preeti Suman, Shahana Mazumdar

8. [FP1416] - THE EFFECT OF INTRAVITREAL RANIBIZUMAB INJECTION ON RNFL THICKNESS IN DIABETIC RETINOPATHY PATIENTS

Chief & Presenting author : Sachin Singh (S30957), Arhan Dasgupta

9. [FP1474] - Retinal nerve fibre layer thickness in different anemia

Chief & Presenting author : Rahul Nath (N30646), Bharati Deori Boruah

10. [FP1816] - "Eye on the Kidney-Decoding Diabetic Macular Edema Through Urine Protein-Creatinine ratio"

Presenting author : SUGANTHI ,Chief author : Parvatha Sundari Natarajan, Esakki Rajeswari

11. [FP2188] - Comparative safety and outcomes of diabetic vitrectomy in lasered versus lasernaiveeyes

Chief & Presenting author : Kopal Mithal (K12511), Mithal Sandeep, Charu Mithal

The 84th Annual Conference of All India Ophthalmological Society

Today's PG Education – Are We doing it right ? - Session 3

Date :	11-03-2026 (Wednesday)
Time :	11:30-12:30
Hall :	Atlantiis 1

Moderator : Kirti Singh

Panelists :

Kasturi Bhattacharjee, Leila Mohan, Sheetal Savur, D. Sundar,
Mahadevan K, Diva Kant Mishra, Rajesh Joshi, Dinesh Balakumar

1. Panel Discussion on ' Today's PG Education – Are We doing it right ? - 20 mins
2. Audience Interaction - 20 mins

Keynote Lectures

1. Radhika Tandon - Ingredients of successful teaching – The RPC way - 10 mins
2. Girish Rao - Artificial Intelligence – How it can transform Ophthalmic Education - 10 mins

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC Open House Leadership Development

Programme - Session 3

Date :	11-03-2026 (Wednesday)
Time :	11:45-13:00
Hall :	Meeting Room L-06 & 07

Chairperson : Lingam Gopal

Co- Chairperson : Maya Hada

Moderator : Tinku Bali

1 Lingam Gopal - A picture perfect : from astitue clinician to a marathon runner - 12 min

Debate 9

Aditi Pujari Watve - Science & research makes even an individual practice wholesome - 3 Min

Reshu Malhotra - Leave science and research to the institutions - 3 Min

Debate 10

Anu Malik - Can introverts be better leaders than extroverts? - YES - 3 Min

Sukriti Gupta - Can introverts be better leaders than extroverts? - NO - 3 Min

2 Sri ganesh - Building market for a niche speciality - 12 min

Debate 11

Niraj Kumar Yadav - Can AI ever replace human leadership? - YES - 3 Min

Shweta Bhalsing - Can AI ever replace human leadership? - NO - 3 Min

Debate 12

Pranamita Pujari - Jack of all , master of none - One should know all - 3 Min

Kanishk Singh - Jack of all , master of none - One should master one thing - 3 min

3 Introduction of New LDP Batch 2024-25 - 15 min

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - Session 4

Date :	11-03-2026 (Wednesday)
Time :	12:00-13:00
Hall :	Meeting Room U-01

Chairperson : Dinesh Garg

Co-Chairperson : Kshetrapal Arun

Moderator : Kasturi Bhattacharjee

Judge : Ragini Hasmukhray Parekh, Nitin Nema, Rajesh Goyal, Neeraj Khunger, Bibhuti Prassan Sinha

1. [PGT14] - A PROSPECTIVE RANDOMIZED CLINICAL TRIAL COMPARING HYBRID ACRYLIC AND COLLAMER POSTERIOR CHAMBER PHAKIC INTRAOCULAR LENSES FOR HIGH MYOPIA

Chief & Presenting author : Gaurav Pande (P26013)

2. [PGT23] - Widefield Optical Coherence Tomography Study of Pediatric Retinal Detachment Before and 6 Weeks After Retinal Reattachment Surgery

Chief & Presenting author : Akarsh Agarwal (A29149)

3. [PGT27] - STUDY OF MACULAR VESSEL DENSITY CHANGES USING OCTA IN CHILDREN UNDERGOING STRABISMUS SURGERY

Chief & Presenting author : Devika Vasudevan (D27195)

4. [PGT43] - Visual and Safety Outcomes of 2mm Manual Small Incision Cataract Surgery

Chief & Presenting author : Avantika GAUR (A29170)

5. [PGT47] - Comparison of Toric intraocular lens alignment with intraoperative image guided system and conventional manual marking method in cataract surgery-A randomized clinical trial

Chief & Presenting author : AMIT NANDAN TRIPATHI (T28047)

6. [PGT64] - Minimally Invasive Strabismus Surgery versus the conventional surgical technique for the Inferior Oblique muscle

Chief & Presenting author : Tushit Dhar (D27774)

7. [PGT87] - TO PROPOSE A NEW CLASSIFICATION FOR OPEN GLOBE INJURIES AND ANALYSE ITS MANAGEMENT OUTCOMES

Chief & Presenting author : Bristi Majumdar (B26308)

8. [PGT92] - Clinical Outcomes of Gamma Knife Radiosurgery and Ruthenium Plaque Brachytherapy in the treatment of uveal melanoma

Chief & Presenting author : Aruja Gangwani (A25837)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Assessing the Residents & Trainees - Session 4

Date :	11-03-2026 (Wednesday)
Time :	12:30-13:30
Hall :	Atlantiis 1

Moderator : Natasha Radhakrishnan

Panelists : Shrinivas Joshi, Sharmistha Behera, K Rajashekar,
Mahesh Babu, Purvi Bhagat, Hemanandini, Girish Rao

1. Panel Discussion on ' Assessing the Residents & Trainees - 20 mins
2. Audience Interaction - 20 mins

Special Lecture

1. Namrata Sharma - Gender Blunders in PG Education - 10 mins
2. Chinmay Mahatme - Life of a PG – From the Horse's mouth - 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Neuro Ophthalmology - I

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room L-01A

Convenor : Sudhir Singh

Co-Convenor : Vineet Pradhan

1. [FP143] - Outcomes in Anti-MOG Positive Optic Neuritis: Prognostic Insights and Management Strategies

Chief & Presenting author : Bhoomika Jayesh Nisar (B30361), Vidhya N., D. Ramamurthy, Muralidhar Rajamani

2. [FP226] - Evaluating the Diagnostic Accuracy of Red Flag Signs in Early Detection of Pediatric CVI

Chief & Presenting author : Harshika (H26645), Atul Mishra, Vedpal

3. [FP411] - Utility of Pattern ERG as adjunct to Visual Evoked Potential in Ethambutol induced optic neuropathy

Chief & Presenting author : Deepika Ranganathan (D27474), Mahesh Kumar, Rupa A.

4. [FP729] - OCT and Visual Function Assessment for Early Detection of Ethambutol-Induced Ocular Toxicity

Chief & Presenting author : Astha Thakur (A30625), Eva Rani Tirkey

5. [FP742] - A Fast-Track Tool for Assessing Functional Vision – The cerebral visual impairment range

Chief & Presenting author : Soveeta Souravee Rath (R16806), Ms Amrita Sharma , Suma Ganesh

6. [FP781] - Role of pentoxifylline, cilostazol, and methylcobalamin in ethambutol-induced optic neuropathy

Chief & Presenting author : Perwez Khan (K11232)

7. [FP811] - Functional and Psychosocial Effect of Various Neuro Ophthalmic Diseases

Chief & Presenting author : Madhumita Gopal (M21204), Nidharshana Rajasekar, Nirmala Devy Krishnan Kutty Nair

8. [FP1436] - Paediatric ocular myasthenia in tertiary eyecare centre - clinical features and treatment modalities

Chief & Presenting author : W. Leenu Jeris (J17015)

9. [FP1482] - Seeing Through Divides:Geographic, Socioeconomic disparities in Optic Neuritis(ON) in South India

Chief & Presenting author : SANGAVI SAMRITHA SELVI , Virna Shah

10. [FP1632] - Assessment of Vision-Related Quality of Life in Patients with Ethambutol-Induced Optic Neuropathy

Chief & Presenting author : Ekta (E19728), Suma Ganesh, Soveeta Souravee Rath, Shailja Tibrewal

11. [FP1674] - Structure-Function Correlation in Chiasmal Lesions: A Retrospective Imaging Based Study

Chief & Presenting author : Rajeshwari Kapoor (R29676), Madhumita Gopal

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

12. [FP1689] - A STUDY ON THE CLINICAL PROFILE OF TOXIC AND NUTRITIONAL OPTIC NEUROPATHY

Chief & Presenting author : Punyaslok Mohanty (M29054), Sanjana Sahoo

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Pediatric Ophthalmology - I

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room L-02

Co-Chairperson : Yogesh Shukla

Convenor : Ashok Kumar Meena

Moderator : Shrutakirty Parida

1. [FP320] - MACULAR THICKNESS FOLLOWING CHEMOREDUCTION IN RETINOBLASTOMA

Chief & Presenting author : Usha Singh (U05383), Kavita, Manu Saini, Deeksha Katoch

2. [FP612] - Macular morphology and choroidal thickness in treated/spontaneously regressed ROP:OCT perspectives

Chief & Presenting author : Chaitanya Yv KRISHNA (K21765), Sushil Bhatt, Ayush, DEEKSHA KATOCH

3. [FP1138] - Intravitreal Biosimilar Ranibizumab in ROP : A Real-World Case Series from Eastern India

Chief & Presenting author : Santosh Mahapatra (M10205), Rohit Chavan, Raj Kenia

4. [FP1181] - I-PEER: Indian Pediatric Eye Evaluation for RNFL (Retinal Nerve Fiber Layer) norms- Part 1

Chief & Presenting author : Shah Chintan Mukeshkumar (K20664), Sweetie, Rajat Kapoor, Pradhnya Wasule

5. [FP1237] - A Cross-Sectional Genotyping Study of Indian patients with Microphthalmia, Anophthalmia and Coloboma

Chief & Presenting author : Shailja Tibrewal (T11947), Ria Ratna

6. [FP1458] - Improving Management of Aggressive ROP in extremely low birth weight babies In North-East India

Chief & Presenting author : Nilutpal Borah (B07914), Ronel Soibam, Sandeep Bora

7. [FP1846] - Orbital tumors in children – Clinical Spectrum and Outcome

Chief & Presenting author : Ruju Unadkat (R26855), Farnaz YAZEER, Santosh G. Honavar

8. [FP2231] - Intravitreal bevacizumab in management of traction without detachment in Retinopathy of Prematurity

Chief & Presenting author : Bhavik Panchal (P16991), Tapas Padhi, Harshitha K M, Marina Ger

9. [FP2273] - Paediatric Behcet's – a case series from a tertiary care eye centre in South India

Chief & Presenting author : Aneena Thomas (A25533), Sai Bhakti Sukla, Ankush Kawali

10. [FP2304] - Red Flags in the Blood: Early Predictors of ROP Severity.

Chief & Presenting author : Divya Katiyar (D29191), Vibha Singh, Aparajita Chaudhary

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Karnataka Ophthalmological Society : Three muscle Vs Three muscle surgery for Large angle XT - Sowmya R (S11824)

Tamil Nadu Ophthalmic Association : Clinical and Demographic Study of Posterior Deformational Plagiocephaly(PDP)in Paediatric Patients - Anupama Janardhanan(A20042)

Haryana Ophthalmological Society : A clinical comparison of patching and dichoptic therapy : Neha Mittal

The 84th Annual Conference of All India Ophthalmological Society

Hyde Park Session - III

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room L-03

1. [FP68] - Mucous Membrane Graft in Symblepharon: A Case of Socket Reconstruction

Chief & Presenting author : Shalini Kumari (S11779)

2. [FP186] - Enhanced Outcomes in Fungal Keratitis with Systemic Antifungal Therapy

Chief & Presenting author : Somil Goyal (G28522), Swati Tomar

3. [FP232] - Prevalence and pattern of ocular diseases among paediatric patients attending a tertiary care centre

Chief & Presenting author : Sangita Das (S30769), Sankha Subhra Chaudhuri

4. [FP245] - "TRAUMATIC OPTIC NERVE INJURY" - A CASE OF VISUAL COMPROMISE

Presenting author : J Lekshmy (J30779), Chief author : Lavanya S.R., Anubha A J, Sarnitha Rajendran, Akshata Chandaki

5. [FP251] - A CASE OF BILATERAL RETINOBLASTOMA WITH OPTIC NERVE INVOLVEMENT

Presenting author : Shweta Lakamaji (S30780), Chief author : Akshata Chandaki, Radhika, Gajanan D C

6. [FP637] - Clinical Spectrum of Familial Marfan Syndrome in a Rural North Indian Family.

Chief & Presenting author : Ankita Singh (A30876), Anju Kochar, Amita Agarwal, Vivek Goyal

7. [FP988] - Morphometric changes in cornea in axial myopia

Chief & Presenting author : Karan Veer Singh (S30186), Nabab Ali Khan, Yatendra Keshav Panwar, Shweta Kaswa

8. [FP1018] - Bilat Uveal Effusion with Exudative RD : A Rare Manifestation of Gestational Trophoblastic disease

Chief & Presenting author : Atul Gupta (G10438), Rashmi Akshikar, Panos Gartaganis

9. [FP1314] - Occulospodiosis- A case series in a family

Chief & Presenting author : Smitarani Mahanta (S30849), Meghna Samantaray

10. [FP1374] - Eye Spy: Unraveling Ocular Clues in a Complex Pediatric Neurological Disorder

Chief & Presenting author : Abinaya Valliappan (A24895), Janani Sreenivasan, Kavitha Natarajan

11. [FP1983] - Descemet's Membrane detachment post Nd:Yag Laser Peripheral iridotomy: A rare phenomenon.

Chief & Presenting author : Annie Anna ABRAHAM (A29166)

12. [FP2029] - Third Nerve Palsy with Pupil Involvement as a Sign of Ruptured ICA Aneurysm and Terson Syndrome

Presenting author : Rahila Rukzana P P (R31454), Chief author : Parvatha Sundari Natarajan, Esakki Rajeswari

13. [FP2245] - The hidden dome : Unmasking hidrocystoma

Chief & Presenting author : Shivani T (S29834), Soundaria S

The 84th Annual Conference of All India Ophthalmological Society

14. [FP2269] - Post-traumatic persistent corneal epithelial defect associated with overuse of topical steroids

Chief & Presenting author : Monalisa Pati (M25458), Arkaprava RAY, Sindhu Nandini Sahoo, Shiva Prasad Sahoo

15. [FP2311] - Pseudo-Foster Kennedy Syndrome – A Diagnostic Challenge in Neuro-Ophthalmology

Chief & Presenting author : Vidhya Verma (V19830), Samendra Karkhur, Saroj Gupta, Priti Singh

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Comprehensive Ophthalmology

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room L-04

Judge : Mahendra Paliwal, Monika Gupta, Mukesh Patil

1. [FP282] - Structure Function correlation of FAZ, mGCIPL by OCTA and VF sensitivity in POAG comparative study

Chief & Presenting author : S. Sujata (S07234), M.Prathiba, Amjad Salman

2. [FP313] - Genetic Evaluation of Patients with the Dead Bag Syndrome: Identifying risk factors for the disease

Chief & Presenting author : Shail Vasavada (V13188), Vasavada Abhaykumar Raghukant, S Rajkumar, Vaishali Abhaykumar Vasavada

3. [FP382] - EFFECTS OF TYPE 2 DIABETES MELLITUS ON CENTRAL CORNEAL THICKNESS (CCT)

Chief & Presenting author : Tathagata De (D06599)

4. [FP716] - Restoring Clarity: The Role of Intraocular Lens Exchange in Managing IOL Opacification

Chief & Presenting author : Gautam Jain (J23519), Apoorv Gupta, Jyoti Deswal, Rajendra Singh Chauhan

5. [FP1404] - Comprehensive Ophthalmology: Am I a traffic police?

Chief & Presenting author : Ningthoujam Linthoingambi (N15482), Kamson Anthony

6. [FP1418] - Ectopia lentis caused by Traboulsi Syndrome- Report of 3 cases with its genetic implications

Chief & Presenting author : Lekha T. (L08802), Neena R, S.J. Saikumar

7. [FP1672] - Atypical Retinitis Pigmentosa with Homozygous CWC27 Mutation: A Rare Syndromic Association

Chief & Presenting author : Harsha Tak (H30800), Mily Mandal

8. [FP1791] - Megalopapilla mimicking Normal tension Glaucoma- A diagnostic dilemma – A case report

Presenting author : Sivasangari V (S31414), Chief author : Parvatha Sundari Natarajan, Esakki Rajeswari

9. [FP1794] - A Comparison of Intraocular Lens Power Calculation Formulas

Chief & Presenting author : Ishani Gupta (I30967), Sadaf Khan, Ruchika Agarwal, Namrata

10. [FP1825] - Tear film parameters and meibography in eyes of children with vernal keratoconjunctivitis

Chief & Presenting author : Satyabrata Jena (J24418), Gayatri Devi Palo

11. [FP1865] - Vitamin D and ARMD: Uncovering a Potential Link

Presenting author : Rohini Choudhary, Chief author : Ananta Raina, Ananta Raina

12. [FP1993] - Benford's Law Application for Data Integrity Assessment in Ophthalmic Clinical Research

Chief & Presenting author : Pranesh Ravi (R20456)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

13. [FP2384] - When the Heart Sinks !

Chief & Presenting author : Priksha Lakhlan (P26617), Avnindra Gupta, Lalit Verma, Bhanu Priya

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Trauma - I

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room L-05

Chairperson : Gerald R. Schultz

Co-Chairperson : Bhavana Sharma, Suresh Kumar Gupta

Moderator : Neha Pathak

1. [FP56] - Post-traumatic iris cyst: A Case series

Chief & Presenting author : Prasanna Venkataraman (V17875)

2. [FP58] - Bacterial Isolates in Open Globe injury

Chief & Presenting author : Abhijnan Ghosh (G27332), Purban Ganguly, Asim Kumar Ghosh

3. [FP230] - My way to repair Large Cyclodialysis Clefts

Chief & Presenting author : Manisha Agarwal (A07736)

4. [FP452] - OCULAR INJURIES CAUSED BY LATEX OF CALOTROPIS PROCERA-PROGNOSTIC FACTORS

Chief & Presenting author : Shobhana Rath (S26458), Shobhana Rath

5. [FP523] - Posterior Undulations on AS-OCT : A Possible early marker of Traumatic Endothelial Injury

Chief & Presenting author : Manushree Gautam (G18624), Preeti Rawat, Niharika Arya

6. [FP536] - Title: Efficacy of Intralesional 5-Fluorouracil in Post-Traumatic Scar Management

Presenting author : Priyanka Nirwani (P30327), Chief author : *Raghuraj Hegde*, Sundeep, Kiran Kumar L.

7. [FP747] - Calotropis Crisis Averted: Rapid Corneal Recovery in 10 Cases of Acute Latex Keratopathy

Chief & Presenting author : Shivani Porwal (S30931), Ashok Kumar Meena

8. [FP913] - A STUDY ON THE INCIDENCE OF GLAUCOMA IN OCULAR TRAUMA

Chief & Presenting author : Rs Mayuri (R28832), Prasanta Kumar Nanda

9. [FP1173] - Anterior Segment Imaging in Sclero-corneal Trauma: Does AS OCT make a difference?

Chief & Presenting author : Aishwarya Menattamai (A30902), M. Hemanandini

10. [FP1858] - "Eyelid Trauma: A 14-Year Review of Patterns, Pediatric Insights, and Surgical Challenges"

Chief & Presenting author : Nikita Balani (N28443), Priyanshi Gandhi, Shreya Shah

11. [FP2100] - Ultrasound Biomicroscopy(UBM) in the management of ocular trauma with diagnostic dilemma

Chief & Presenting author : Vaidehi Bhatt (V23059), Deepak Bhatt, Rakesh K. Barot, Mihir Trilok Kothari

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

12. [FP2350] - Outcomes of Delayed Repair in Traumatic Iris Prolapse: A Retrospective Cohort Study

Chief & Presenting author : Srijandeep Kumar (K27523), Latif Abdul

Jharkhand Ophthalmological Society : Permanent eclipse that leaves scars deeper than skin – Blindness as a result of chemical attacks -

Anamika Chowdhury (A29120)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Squint

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room U-02

1. [FP242] - Rerouting the oblique-Inferior oblique anteronasal transportation for severe IOOA

Chief & Presenting author : Mahathi Vankireddi (M16224), Divya Bhargavi.B, Vijayabhaskar Gajjala

2. [FP511] - Unilateral Versus Bilateral Horizontal Rectus Muscle Surgery For Correcting Alternating Exotropia

Chief & Presenting author : Manjima Banerjee (M28608), Manjima Banerjee, Soumi Mallick

3. [FP609] - Long-term changes in refractive, motor & clinical outcomes in fully refractive accommodative esotropia

Chief & Presenting author : Sejal Gambhir (S30804), Nisha Beniwal, Kanika Gupta, Geetha Srinivasan

4. [FP826] - SD AS-OCT Imaging of Horizontal Extra-Ocular Muscles post Strabismus Surgery

Chief & Presenting author : Hari Bhadari Anand (A26696), Sivaraja Gowthaman Anbarasu, Anjali Khadia, Mouttapa Fredrick

5. [FP875] - TO STUDY INDICATIONS AND TYPES OF SURGERY FOR MONOCULAR ELEVATION DEFICIENCY SYNDROME (MEDS)

Chief & Presenting author : Darshan Shah (S29421), Bhumi Chandarana, Hemlata Bakolia, Shreya Shah

6. [FP876] - Horizontal Strabismus Correction : Clinical Outcomes in a Tertiary Care Center in central India

Chief & Presenting author : Richa Verma (R30631), Shivani Shadangi

7. [FP1923] - Vertical Palpebral Fissure Changes After Supramaximal Horizontal Muscle Surgery: A Clinical Analysis

Chief & Presenting author : Neenet Jose (N24324), Meena Chembil Kakkitampara

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Refractive Surgery

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room U-03

1. [FP265] - First Indian results of SmartSight with the Schwind ATOS for Myopia and myopic astigmatism

Chief & Presenting author : Ashok Kumar (K13689), Ishita Pandey

2. [FP302] - Navigating the Refractive Frontier: Clear Lens Exchange in High Hyperopia and High Myopia

Chief & Presenting author : Anita Kumawat (A23813), Maj Gen J.K.S. Parihar

3. [FP1377] - Assessment of Anterior Corneal Asphericity in Various Refractive Errors Using Corneal Topography

Chief & Presenting author : Neha Patil (N27953), Medha Mahendra Bhagat, SHRUTI CHANDEL, Anureet Gill

4. [FP1405] - Visual Outcomes in High Myopia: ICL vs Refractive Lens Exchange – A Comparative Clinical Study

Chief & Presenting author : Prerna Madeshia , Sonakshi Singh , Suman Meena, Santosh Kumar

5. [FP1656] - Flap Relift for Vision-Compromising Interface Bleed After Femto-LASIK: A Case Report

Chief & Presenting author : Akshra Pahuja (A25872), Priyadarshana Bardoloi, Manpreet Kaur

6. [FP1719] - Role Of Phakic Intraocular Lens In Stable Corneal Ectatic Disorders

Chief & Presenting author : Tanveer Alam Khan (K22408)

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Ocular Pathology / Ocular Oncology and Tumors

Date :	11-03-2026 (Wednesday)
Time :	12:45-14:00
Hall :	Meeting Room U-05

1. [FP458] - Echoes From The Past - Late Recurrence of Retinoblastoma

Chief & Presenting author : Aravind Krishna (K27980), Meghana Tanwar

2. [FP562] - Proptosis due to rare orbital malignancies with significant bone erosion

Presenting author : Seema Kashyap (K08579), Chief author : *Archana Singh*, Archana Singh, Neelam Pushker, Rachna Meel

3. [FP584] - Tumor in the Blink of an Eye: A Retrospective Study of Meibomian Gland Carcinoma

Chief & Presenting author : Sai Meghana Ravi (S29812), Modini Pandharpurkar

4. [FP825] - The Medial Menace: Recurrent Basal Cell Carcinoma Invading the Orbit

Chief & Presenting author : Lavina Paryani (L30024), Trupti Kadam

5. [FP925] - Clinicopathological Profile of Eyelid Tumours: A Retrospective Study

Chief & Presenting author : Shweta Kaswa (S30911), Nabab Ali Khan, Yatendra Keshav Panwar, Karan Veer Singh

6. [FP1067] - OCULAR COMPLICATIONS POST RADIOTHERAPY IN HEAD AND NECK REGION

Presenting author : Simran Raichandani (S26326), Chief author : *Stephen Sudhakar*

7. [FP1667] - Choroidal Tubercle Mimicking Optic Disc Duplication in TB-HIV Patient: A Diagnostic Challenge

Chief & Presenting author : Gunica Gupta (G31296), Dipti Srivastava

8. [FP2015] - Intraocular mass mimicking retinoblastoma with surprising histological finding.

Chief & Presenting author : Tapashree Ghosh (T25855), Bhavna Chawla

9. [FP2077] - Stormy extraocular retinoblastoma: Rescued with autologous stem cell transplantation

Chief & Presenting author : Kavita (K25398), Pooja, Manu Saini, Usha Singh

10. [FP2236] - Aggressive retinoblastoma in an infant: Intra-arterial chemotherapy (IAC) rescue.

Chief & Presenting author : Pooja (P26388), Kavita, Manu Saini, Usha Singh

11. [FP2365] - Search should continue beyond the Nevi

Chief & Presenting author : Piyush Bajaj (B19161)

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - Session 5

Date :	11-03-2026 (Wednesday)
Time :	13:00-14:00
Hall :	Meeting Room U-01

Chairperson : Malay Chaturvedi

Co-Chairperson : GULAM ALI KAMDAR

Moderator : Deepak Mishra

Judge : Tulika Ghoshal, Waris Abdul, Sharmistha Behera, Sucheta Parija, Jatinder Bali, Lakshmi Kuniyal

1. [PGT7] - COMPARISON OF OCTA FEATURES IN NEPHROPATHIC VERSUS NON-NEPHROPATHIC PATIENTS WITH DIABETES MELLITUS

Chief & Presenting author : Sidrah Imran (S31338)

2. [PGT12] - Evaluation of the Role of Oral Vitamin B12 and Folate Supplementation in Open Angle Glaucoma

Chief & Presenting author : Abha Gupta (A27168)

3. [PGT18] - Structure-Function Correlation in Glaucoma Suspects and Primary Open Angle Glaucoma of varying severity using Optical Coherence Tomography and Humphrey Visual Field parameters.

Chief & Presenting author : Rishabh Narula (N26808)

4. [PGT37] - Factors affecting geographical disparity in the prevalence of Diabetic Retinopathy in South India

Chief & Presenting author : Sujay Jaju (J27104)

5. [PGT73] - EFFECT OF PRESERVATIVE FREE TRAVOPROST ON PROXIMAL LACRIMAL DRAINAGE SYSTEM USING ASOCT- A CLINICAL STUDY

Chief & Presenting author : Poorva Dige (P28663)

6. [PGT88] - A Prospective Observational Study to Determine the Correlation of Serum Vitamin D3 with Ocular Surface Parameters and Disease Severity in VKC Patients at IGIMS Patna

Chief & Presenting author : Annu Rai (A26779)

7. [PGT91] - Cost-effectiveness analysis of Strabismus surgery.

Chief & Presenting author : Charul Mittal (C29239)

8. [PGT94] - OUTCOMES OF FEMTOLASER ASSISTED DEEP ANTERIOR LAMELLAR KERATOPLASTY FOR ANTERIOR CORNEAL PATHOLOGIES

Chief & Presenting author : Preeti Suman (P30894)

<https://www.facebook.com/AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC Open House Leadership Development

Programme - Session 4

Date :	11-03-2026 (Wednesday)
Time :	13:45-15:30
Hall :	Meeting Room L-06 & 07

Chairperson : Gullapalli N Rao

Co- Chairperson : Vishal Agrawal

Moderator : Kasturi Bhattacharjee / Satyajit Sinha

1. Gullapalli N Rao - Interactive session - 30 min

Debate 13

Sweta Patro - Is society more critical of female leaders than male leaders - YES - 3 Min

Gonugunta Vishnu Teja - Is society more critical of female leaders than male leaders-NO - 3 Min

Debate 14

Sauvik Barua - Profession is important than family : for - 3 Min

Kavita Lohiya Dangra - Profession is important than family : Against - 3 Min

2 Usha Kim - Breaking the shell - 12 min

Debate 15

Aswathy Unnithan (A15883) Should leaders always tell the truth, even when it hurts? - YES 3 Min

Subodh Saraf (S13648) Should leaders always tell the truth, even when it hurts? - NO 3 Min

Debate 16

Ashu Agarwal - ork life balance leads to mediocrity – Against - 3 Min

Charuta Puranik - Work life balance leads to mediocrity - For - 3 Min

3 Kamal Bandhu Kapur - Life beyond Ophthalmology - 12 min

4 Introduction of New LDP Batch 2024-25 - 15 min

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Orbit & Oculoplasty - I

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room L-01A

Co-Convenor : Ravi Ranjan

1. [FP42] - Evaluation of flap vascularity by Doppler Flowmetry in tissue expansion by balloon of silicone catheter

Chief & Presenting author : Salil Kumar Mandal (M12531), Asrik Mukhopadhyay, Swasti Sarkar, Sarbaraj NAG

2. [FP252] - CLINICAL PROFILE OF ORBITAL INFECTIONS AND FACTORS AFFECTING VISUAL OUTCOME OF ORBITAL INFECTIONS

Chief & Presenting author : M. Rita Heps Rani (R14671), Mathivadhani Lenin

3. [FP305] - Primary Orbital Mucormycosis: A Case Series Highlighting Diagnostic Challenges

Presenting author : Aishwarya A (A30650), Chief author : *Raghuraj Hegde*, Sundeep, Kiran Kumar L., Shruthi MK

4. [FP488] - Pattern of Orbital Fractures in patients with Cranio-maxillofacial Trauma: Descriptive

Chief & Presenting author : Shalini Ranjan (S29117), Surbhi Jaiswal, Manas Ribhu

5. [FP489] - Presentation Pattern and treatment outcome of Ophthalmic Cysticercosis at a Tertiary Care Center.

Chief & Presenting author : Zainab Nahid (Z27391), Manas Ribhu, Surbhi Jaiswal, Shalini Ranjan

6. [FP580] - Orbital Myositis: A Pandora's Box

Chief & Presenting author : (Brig) K. Shyamsundar (S06584), Sankalp Seth, Lt Col Deepesh Unni, Bhupesh Bhatkoti

7. [FP632] - When the Eye Speaks: Ocular Clues to Granulomatosis with Polyangiitis

Chief & Presenting author : Sanjana Bhatia (S30445), Teena Mariet Mendonca

8. [FP1110] - Retracting Eyelid, Revealing Cancer: A Paraneoplastic Puzzle

Chief & Presenting author : Rohit Kumar (K30936), Ram Singh, Ankita Raj, Lalmani Singh

U.P. State Ophthalmological Society : Lesions of the eyelid- Beyond what meets the eye - Shreya Keshari(S26253)

Kerala Society of Ophthalmic Surgeon (Joint) : Outcomes of Socket Reconstruction involving multiple surgical interventions - Marian Pauly (P13465)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Comprehensive Ophthalmology - I

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room L-02

Chairperson : Sandeep Vijay

Convenor : Bairwa Ashok Kumar

Co-Convenor : Manju R. Pillai

Moderator : Shruti Hegde

Judge : Dharmendra Nath

1. [FP19] - Validation of Betadine Sign for Intraoperative Wound Leak Detection Using Intraoperative OCT

Chief & Presenting author : Avadhesh Oli (O13081)

2. [FP81] - From X-Y Plane To X-Y-Z Space: Transforming Visual Field Reports Into Engaging 3D Learning Tools

Chief & Presenting author : Prasanna Venkatesh Ramesh (R19173), Pavithra Pannerselvam

3. [FP131] - 27-gauge MIVS assisted scleral fixation of intraocular lens: An AS-OCT guided study

Chief & Presenting author : Ashish Markan (M19049), Manasi Tripathi

4. [FP435] - From Confusion to Calculation – OcuCalc Delivers

Chief & Presenting author : Pushkar Rangari (R30432), Avinash Pradhan , Parul Jain

5. [FP1108] - Study of Ocular Complications in Head and Neck Cancer Patients Undergoing Radiotherapy

Chief & Presenting author : Lipa Mohanty (M09783), AAKANKSHA BINDAL, Govind Prakash, Kaushambi Ranpara

6. [FP1288] - Accuracy of an Indigenous Large Language Model on Standardized Test Questions in Ophthalmology

Chief & Presenting author : Amey (K29992), Paritosh Arvind Kamdar, Priti Paritosh Kamdar, Miti Dwijen Bhatt

7. [FP1295] - AI-Driven Glaucoma Screening: Leveraging History and Basic Examination for Early Detection.

Presenting author : Archeesha Vyas (A30510), Chief author : Surinder S Pandav, Akanksha Sharma, Kamal Kishore

8. [FP1370] - Ultra-Widefield Imaging with Blend Function for Multifocal Choroiditis: Emerging Alternative to FAF

Presenting author : Aayush Majumdar (M25817), Chief author : MOUSUMI BANERJEE, Aayush Majumdar, Pradeep Venkatesh, Shorya Vardhan Azad

9. [FP1892] - Improve patient work flow speed using AI driven automated diagnoses of ultra widefield fundus images

Chief & Presenting author : Shreya SARAOGI (S28846), Tejal S.J., Chaitra Jayadev

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

10. [FP1937] - LidCure: A novel Micro exfoliator to treat Blepharitis

Chief & Presenting author : Nikhil Balakrishnan (B20247), Tanya Balakrishnan, Nitin Balakrishnan, Pavitra Patel

11. [FP2069] - LUMIRING – A Novel Glow-in-the-Dark, 3D-Printed instrument Identification Device

Chief & Presenting author : Prithvi Chandrakanth (C22539), Chandana Prabhakar , Brinda K, Shishir Verghese

12. [FP2217] - Quantitative Assessment of Aqueous Humor Outflow pathways by Aqueous Angiography in PACG

Chief & Presenting author : Nitika Beri (N21224), Anand Naik Bukke, Ekta SHAW, Anuja Patil

The 84th Annual Conference of All India Ophthalmological Society

Hyde Park Session - IV

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room L-03

1. [FP107] - A Surgical treatment for a case of Uveitic Glaucoma with Complicated cataract

Chief & Presenting author : Divya Kesarwani (D15756), Renukha J, Tareeta Biswas, Zeba Khanam

2. [FP125] - Evaluation of other antiglaucoma drugs with prostaglandin analogs as firstline therapy in moderate O.A.G

Chief & Presenting author : Adhikari Apurba (A07199)

3. [FP280] - TO AT OR NOT: CLINICAL RELEVANCE

Chief & Presenting author : Achal Singhal (S28901), Jasleen Dhillon, Swarnali Sen, Ramanjit Sihota

4. [FP323] - Effectiveness & Affordability of AADI in Refractory Glaucoma Management: Prospective Interventional study

Chief & Presenting author : Hari Kumar Sreerangam (S26891), Vikas Sharma, Atul Kumar Singh

5. [FP429] - A case of Iridocorneal Endothelial syndrome managed by Ahmed Glaucoma Valve implantation surgery

Chief & Presenting author : Piali Mondal (P28021)

6. [FP547] - Complications Beyond the Iris: Vitreous Prolapse After Laser Peripheral Iridotomy (LPI)

Presenting author : Sheel Meshram (S28657), Chief author : Bhawesh Saha, Zeba Khanam

7. [FP570] - Glaucoma Prevalence Among Patients with Autoimmune Disorders A Cross-Sectional Study

Chief & Presenting author : Ayan Bhattacharjee (B30910), Pampa Halder

8. [FP1094] - Spectrum of Pseudoexfoliation: Clinical and OCT features in unilateral vs bilateral eyes

Chief & Presenting author : AARTHI A, Mohan K., Saranya V

9. [FP1208] - A rare Dual Anomaly: Megalocornea with Anterior segment dysgenesis (Angle Dysgenesis with DMD)

Chief & Presenting author : Aishwarya BIRLA (A28406), Akanksha Dabas, Vandana Arora, Neel Vala

10. [FP1506] - Phacomorphic Glaucoma: When do we require long-term anti-glaucoma measures postoperatively?

Chief & Presenting author : Tushar Agrawal (A28843), Meghna Mathur, Jaya Agrawal, Shishir Agrawal

11. [FP1708] - KNOWLEDGE ATTITUDE & SELF CARE PRACTICES AMONG GLAUCOMA PATIENTS PRESENTING TO A TERTIARY CARE CENTER

Chief & Presenting author : Mohan Prasad Bathala (B28952), Madhuri Akella, Lubna Khan

12. [FP1710] - Through the Haze: Unmasking Bilateral Congenital Glaucoma in an Infant with Unilateral Cloudy cornea

Chief & Presenting author : Aditya P. Deo (D19881), Varada Gokhale

13. [FP1847] - Assessment of Knowledge Attitude Practice towards Glaucoma in patients in a tier 3 city eye clinic

Chief & Presenting author : Pranamita Pujari (P12785)

The 84th Annual Conference of All India Ophthalmological Society

14. [FP1860] - “Phacomorphic Glaucoma: Is Cataract Surgery Alone Enough? A Comparative Surgical Perspective”

Chief & Presenting author : Monika Arora (M24847), Mayank Ojha

15. [FP2046] - Disease Progression and IOP reduction in PACS: A Comparison of Early Cataract Surgery and YAG PI

Chief & Presenting author : Abhishek Shah (S22047), George Ronnie J., Baskaran Mani

16. [FP2052] - Comparative evaluation of IOP using four tonometry methods and their correlation.

Chief & Presenting author : Sanskriti Pandey (S30952), Nibha Gupta, Neha Dhayal, Dushyant Kumar Sharma

17. [FP2159] - Schlemm Canal Dilatation and Intraocular Pressure Correlations post iStent Inject using AS-OCT

Chief & Presenting author : Sadananda S. Shetty (S18481), Sanket Bhatnagar, Prashanth Ranganath

18. [FP2318] - Managing choroidal effusion post trabeculectomy in a case of JOAG

Chief & Presenting author : Manpreet Kaur (M21286), Anjali Bhambhu

The 84th Annual Conference of All India Ophthalmological Society

Best Free Papers AIOC 2025 – I

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room L-04

Panelists : Somasheila Murthy, Jatinder Singh Bhalla, Pradip Kumar Mohanta, Piyush Bansal, Vardhaman Kankaria, Amit Porwal, .Fairouz Puthiyapurayil Manjandavida

1. Capsule Phimosis & Retinitis Pigmentosa:role of Capsular Tension Ring, Polishing & Biomarker Analysis (Sante Vision Award) : Tanmoy Vaidya
2. Prevalence of Blindness and Visual Disabilities Among 50 Years and Older Population of Nepal (RAAB) (Community / Social Ophthalmology) : Parikshit Gogate
3. Variations in Genes, Genetics & Possible Repair Indian Community Perspective (Comprehensive Ophthalmology Award) : Poornachandra B
4. Interplay of Tear Cytokine Levels and Confocal Microscopy in Progressive Keratoconus (Cornea Award) : Rashmi Deshmukh
5. Impact of Consanguinity in Prevalence, Severity, and Socioeconomic Burden in Retinal Dystrophies (Rema Mohan Award) : Aaditi Anilkumar
6. Auricular Cartilage Grafting for Entropion Correction in Cicatricial Ocular Surface Pathologies (K.C. Singhal Award) : Obaidur Rehman
7. Characterization of Peters Anomaly with Glaucoma:Clinical and UBM Perspectives (D B Chandra Disha Award) : Manik Sardana
8. DCR Failed: Nothing to Worry (Lacrimal Award) : Ravi Ranjan
9. Optic Nerve Meningioma Vs Glioma A Clinico-Radiological Diagnosis? (S D Athawale Award) : Farnaz Yazeer

(Each presentation is 05 mins)

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Diabetic Retinopathy & Medical Retina - I

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room L-05

Moderator : Yusuf Khan

1. [FP84] - Treat and extend regimen for the management of delayed onset Vitreous Cavity Haemorrhage.

Chief & Presenting author : Kanwaljeet Harjot Madan (M13586), Jaswant Singh Thind, Sangeet Mittal

2. [FP96] - Role of Neutrophil, Monocyte, and Platelet to Lymphocyte Ratios in Grading Diabetic Retinopathy

Chief & Presenting author : Soumyadip Mondal (M27867), Sanjay Kumar Daulat Thakur

3. [FP112] - Methotrexate to the Rescue: Overcoming Anti-VEGF Resistance in in refractory macular edema,

Chief & Presenting author : Simran (S28255), Urmila Rawat, Suresh Ramchandani

4. [FP304] - Role of Brain derived neurotropic factor(BDNF) in DR

Chief & Presenting author : Waris Abdul (A05794)

5. [FP343] - RETINAL CAPILLARY MACROANEURYSM IN DIABETIC MACULAR EDEMA- RESPONSE TO VARIOUS TREATMENT MODALITIES

Chief & Presenting author : Maradula Gangawar (M25049)

6. [FP369] - Outcomes of Diabetic Vitrectomy and factors affecting the outcomes-A Prospective Observational Study

Chief & Presenting author : Amit Kumar Deb (D17383)

7. [FP735] - ILM Peeling vs miOCT-Guided Membrane Removal in Diabetic TRD-Impact on Epiretinal Membrane Formation

Chief & Presenting author : Divya Chauhan (D24307), Ramandeep Singh

8. [FP997] - Artificial Intelligence for Fundus Analysis: Real-World Clinical Validation

Chief & Presenting author : Ravinaini Kosti (R26800), Veera Venkata Satyanarayana Kunchu, V.V. Lakshmi Narasimha Rao

9. [FP1357] - Subthreshold Micropulse Laser vs Conventional Modified Grid Laser for Non-Centre Involving DME: RCT

Chief & Presenting author : Anisha Agrawal (A29621), Anand Rajendran, Aditya Maitray, Puja Maitra

10. [FP2289] - To assess serum levels of Annexin A1, Annexin A2 and Annexin A5 in patients of diabetic retinopathy

Chief & Presenting author : Vikas Kanaujia (K07367), Pradeep Verma, Ankita Ranjan

11. [FP2389] - Real-World Experience of Faricimab in Diabetic Macular Oedema at HHFT, UK

Chief & Presenting author : Monisha Meena (M10312)

12. [FP2390] - Association between Diabetic Retinopathy and Use of Metformin: A Cross-sectional Study

Chief & Presenting author : Poorvaprabha Patil (P28428), Shailaja S., Yogish S. Kamath

<https://www.facebook.com/AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Optics / Refraction / Contact Lens

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room U-02

Judge : Jai Singh Bhati

1. [FP49] - RNFL Changes in Myopia: Correlation with Axial Length and it's role in OCT Interpretation

Chief & Presenting author : Pooja Sri (P29487), Arthi K., S. Sozhamadevi, Srinivasan L.

2. [FP906] - Gender Specific Oculometric Predictors of Visual Acuity in Adults (18-35 years)

Presenting author : Kota Manimala (M30826) ,Chief author : *Shovna Dash*, Saswati Sen, Nibedita Sahoo

3. [FP1419] - Comprehensive Myopia Control Using Scleral Contact Lenses and Myocare Spectacles in an 11-Year-Old

Chief & Presenting author : Nidhi Patwardhan (P15889), Sourabh Patwardhan

4. [FP1728] - INFLUENCE OF PARENTAL MYOPIA ON MYOPIA AMONG SCHOOL AGED CHILDREN:A CROSS SECTIONAL STUDY.

Chief & Presenting author : Samruddhi S Shetty (S30529), Pavana Krishnaraj Acharya, Sandeep K., Kavitha C. V.

5. [FP2158] - Systemic Correlates of Refractive Errors in Adolescents: A Study from Eastern India

Chief & Presenting author : Soumya Kanta Mohanty (M23029), Aajay, Saswati Sen, Shovna Dash

6. [FP2308] - An investigation on the effect of Myocare lenses in the Myopia Management – 6 month cohort study

Chief & Presenting author : Sourabh Patwardhan (P11250), Nidhi Patwardhan

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Cataract

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room U-03

Judge : Lipa Mohanty, Preetilal

1. [FP39] - EVALUATION OF SAFETY PROFILE OF ANGLED CHOPPER AND DIALLER

Chief & Presenting author : (Brig) Gaurav Kapoor (K09014), Sankalp Seth, Nidhi Kalra

2. [FP67] - Use of Toric Intraocular Lenses in Pediatric Cataract with Astigmatism: Outcomes and Challenges

Chief & Presenting author : Kanchan Saran , Pankaj Soni, RAM CHANDER, Lokesh Kumar Singh

3. [FP432] - REDUCING POST PHACOEMULSIFICATION TREATMENT BURDEN- Single Dose SCTA versus Topical Steroid eyedrops

Chief & Presenting author : (Wg Cdr) Khurshed M. Bharucha (B05942), Rahul Deshpande, Pooja Kedia, Atul Hegade

4. [FP467] - Impact of Cataract Surgery on Depression and Cognitive Impairment in Elderly Patients

Chief & Presenting author : Sucheta Parija (S09161), Utkarsh Agarwal

5. [FP721] - Risk Factors and Associations of Pre Senile Cataract in 18-40 years age group - A Case Control Study

Chief & Presenting author : Prabhu Krishna (K26411), Rengaraj Venkatesh, Swati Upadhyaya

6. [FP894] - Influence of Axial Length on Refractive Predictability in Cataract Surgery

Chief & Presenting author : Jash BAVISHI (B26428), Asav Patel, Vandana C. Nath, Lajja Shastri

7. [FP968] - Central Corneal Thickness in Phaco and Small incision cataract surgery in Diabetic and Non-Diabetic

Chief & Presenting author : Yatendra Keshav Panwar (P29251), Nabab Ali Khan, Shweta Kaswa, Karan Veer Singh

8. [FP1056] - Visual outcome after manual small incision cataract surgery in patients with PEX

Chief & Presenting author : Smrutiranjana Dhar (D30958), Sabita Devi, Sarita Panda

9. [FP1099] - Clinical Profile and Inventory Gaps Following Extreme Power Intraocular Lens Implantation

Chief & Presenting author : Arkaprava RAY (R26941), Monalisa Pati, Shiva Prasad Sahoo, Chitaranjan Mishra

10. [FP1552] - Nd:YAG Laser Impact on Capsular Convexity & Capsulorrhexis in Intumescent Cataracts: AS-OCT Study

Chief & Presenting author : Vaibhav Vishal (V25237), P. Rohitha Nayak, Naren Shetty

11. [FP2150] - The Surgical Tightrope: Intraoperative Challenges in Pseudoexfoliation Cataracts"

Chief & Presenting author : Priyanka Basuri (P30462), Monisha Barik

12. [FP2239] - Evaluation of the effect of topical NSAID therapy on SFCT using EDI-OCT after phacoemulsification

Chief & Presenting author : Anshukita Anshukita (A24165), Deepayan Sarkar, Samendra Karkhur, Saroj Gupta

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Glaucoma

Date :	11-03-2026 (Wednesday)
Time :	14:00-15:15
Hall :	Meeting Room U-05

1. [FP20] - Phacoemulsification versus Laser PI in Primary Angle Closure: A Prospective Comparative study

Chief & Presenting author : Vaibhav Kumar Jain (J17112)

2. [FP272] - Unmasking Obstructive Sleep Apnoea-Glaucoma connections: a cross-sectional study.

Chief & Presenting author : Sutanaya Saha (S27066), Purban Ganguly, Kalishankar Das

3. [FP417] - Impact of preservatives in latanoprost on meibomian gland's structure and function.

Chief & Presenting author : Meenakashi Pathania (D18936)

4. [FP528] - Etiopathogenesis and Clinical Outcomes of Traumatic Glaucoma: A Tertiary Hospital-Based Study

Chief & Presenting author : Sam Isaac J, Saranya V, Sharmila

5. [FP531] - Comparative Analysis of Post-Keratoplasty Glaucoma in Lamellar vs Penetrating Corneal Transplants

Chief & Presenting author : Rathina MURARE (M27681), Kasthuri Bai Hariharasubramanian

6. [FP567] - Comparative SD-OCT Analysis of NTG and POAG: Macular and RNFL Insights

Chief & Presenting author : Mallavika Ganesh (M28688), M.R.Chitra

7. [FP905] - Double trouble: Compromised Airways, Silent Sight Loss? Glaucoma Risk in Obstructive Lung Disease

Presenting author : Pallavi Garg (P30228), Chief author : *Teena Mariet Mendonca*, Gladys Rodrigues, Ajay R. Kamath

8. [FP962] - Breaking the ICE with Preserflo

Chief & Presenting author : Neelima Aron (A18146)

9. [FP1113] - Unclassified Anterior Segment Dysgenesis with Adult-Onset Buphthalmos in Type 1 ARS - A Case Report

Chief & Presenting author : Aditya Sharma (S23851), Shrishti Lakhera, Nisha Sinha

10. [FP1287] - Longterm outcomes of Phacoemulsification(PE) with Endoscopic Cyclophotocoagulation Vs PE in PACG

Chief & Presenting author : Anuja Patil (A22314), Dewang Angmo, Namrata Sharma, Adithi

11. [FP1349] - Dual Gains: Outcomes of Phacoemulsification combined with KDB goniotomy in Advanced Glaucoma

Chief & Presenting author : Devanshi Halwai (D26842), Anugya Sharma

12. [FP1915] - In vivo evaluation of anatomical variations of the Schlemm's canal in healthy and glaucomatous eyes

Chief & Presenting author : Arnav Panigrahi (P25912), Prof. Viney Gupta, Shikha Gupta

The 84th Annual Conference of All India Ophthalmological Society

Eyeshala - Session 3 - Retina and Uvea

Date :	11-03-2026 (Wednesday)
Time :	14:15-15:15
Hall :	Meeting Room L-01

Chair : Lalit Verma, Padmamalini Mahendradas, Taraprasad Das

Moderator : Dinesh Talwar

Conveners : Farnaz Khan, Mahima Kaushal

14:15 - 14:30 - Vitreoretinal Interface Disorders - Lalit Verma - 15 min

14:30 - 14:45 - Diabetic Retinopathy - Preferred Practice - Dinesh Talwar - 15 min

14:45 - 15:00 - Infective Retinal and Choroidal Disorders - Diagnosis and Management - Padmamalini Mahendradas - 15 min

15:00 - 15:15 - Endophthalmitis - Current Management Protocol - Taraprasad Das - 15 min

The 84th Annual Conference of All India Ophthalmological Society

Problem Student - Session 5

Date :	11-03-2026 (Wednesday)
Time :	14:15-15:30
Hall :	Atlantiis 1

Moderator : Saravana Bhava

Panelists :

Tinku Bali, Ameya Kulkarni, Akshay Nair,

Parikshit Gogate, Chinmay Mahatme

1. Panel Discussion on "Problem Student" - 30 mins
2. Q & A - 25 mins

Keynote Lecture

1. Vanathi M - Nurturing the Budding Researchers in PG Training - 10 mins
2. Divakant Mishra - What YOSI is doing for Residents in Training - 10 mins

Special Lecture

1. Upreet Dhaliwal - Art at the heart of learning- Role of Storytelling and Poetry in Medical Teaching - 15 Mins

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC PG Thesis Competition (Young Researcher Award) - (Finals)

Date :	11-03-2026 (Wednesday)
Time :	15:00-16:30
Hall :	Meeting Room U-01

Chairperson : Debashish Bhattacharya

Co- Chairperson : Aniruddha Maiti

Moderator : Kasturi Bhattacharjee

Judges :

1. T. P. Lahane
2. J. S. Titiyal
3. Sanjay Kumar Mishra
4. Chitra Ramamurthy
5. Gaurav Kapoor

The 84th Annual Conference of All India Ophthalmological Society

Eyeshala - Session 4 - Oculoplasty and Squint

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-01

Chair: Akila Ramkumar, Ashok K Grover, Mukesh Sharma, Rashmin Gandhi

Moderator: Ankur Sinha

Conveners: Ashwitha Alva, Rolika Bansal

15:15 - 15:30 - Congenital Ptosis - Evaluation and Management - Ashok K Grover - 15 min

15:30 - 15:45 - Approach to Orbital Tumors - Mukesh Sharma - 15 min

15:45 - 16:00 - Logical Approach to a Patient with Disc Edema and Pallor - Rashmin Gandhi - 15 min

16:00 - 16:15 - Complex Strabismus - An Overview - Akila Ramkumar - 15 min

16:15 - 16:30 - Surgery for Strabismus - A Conceptual Approach - Ankur Sinha - 15 min

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Vitreo Retinal Diseases - I

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-01A

Chairperson : Vinod Kumar Sharma

Co-Chairperson : Avadhesh Oli

Co-Convenor : Manish Joshi

1. [FP179] - Longitudinal changes in FAZ size on OCTA and vision post treatment in Ischaemic vs Nonischaemic CRVO

Chief & Presenting author : Shroff Rahul Ashok (S05342), Shroff Ashok C., Anand A. Shroff

2. [FP541] - Fibrin glue-assisted repair in recurrent retinal detachment following post-viral retinitis

Chief & Presenting author : Vikas Ambiya (A20150), (Brig) Gaurav Kapoor

3. [FP653] - Real-World Outcomes of Faricimab for Retinal Vein Occlusion (RVO) in Indian Eyes (FARVO STUDY)

Chief & Presenting author : Dinesh Rungta (R22644), Shouvik Dan, Debdulal Chakraborty

4. [FP1242] - Rapid return of foveal contour- extreme measures for extreme epiretinal membranes

Chief & Presenting author : Apoorva A.G. (A15802), Giriraj Vibhute, Shrinivas M. Joshi, A.S. Guruprasad

5. [FP1444] - OCT-angiography (OCT-A) guided single-day intense prone positioning in macular hole (MH) surgery

Chief & Presenting author : Boral Subhendu Kumar (B09751), Soumen Mondal

6. [FP1757] - Operculum-Guided Macular Hole Repair: Enhancing Closure and Visual Outcomes

Chief & Presenting author : Awaneesh Upadhyay (U22183), Zakia Anwer, Deependra Vikram Singh, ABHISHEK UPADHYAYA

7. [FP1830] - Perfluoro carbon liquid as a tamponade in Retinal detachment surgery

Chief & Presenting author : Bharadwaj K (K24975), S. Sivaranjani

8. [FP1869] - RRD in Keratoprosthesis: Risk Factors, anatomical and functional outcomes of treatment(RAFT study)

Chief & Presenting author : Khushboo Chauhan (K23929), Rajeev Kumar Reddy P., Sayan Basu, Mudit Tyagi

9. [FP2076] - TPA- Assisted management of sub retinal hemorrhage : The new kid on the block in retinal rescue

Chief & Presenting author : Manav Setiya (S10809), Ruchi Setiya

10. [FP2128] - Efficacy and Outcomes of 42-Band Scleral Buckling in Rhegmatogenous Retinal Detachment

Chief & Presenting author : Shashi Tanwar (S22508), Sumanth Kr. Aladahalli Mahalingappa, Muralidhar N.S., Hemanth Murthy

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

11. [FP2181] - Unfurling Technique: Subretinal BSS-Assisted Macular Remodelling in Epiretinal Membrane Surgery

Presenting author : Muthu Krishnan Vallinayagam (V12212) ,Chief author : *K. Naresh Babu*, Kim Ramasamy, Muthu Krishnan Vallinayagam, Athul S Puthalath

12. [FP2204] - Functional and Anatomical outcomes in complex RRD managed by retaining PFCL tamponade for 2 weeks .

Chief & Presenting author : Yogitha Manapadi (Y28593), MADHUKUMAR.R

13. [FP2361] - Preoperative Intravitreal Viscocohesive Injection (PIVOT) to Optimize Surgery in RRD with CD

Chief & Presenting author : Devesh Kumawat (K18457), Pradeep Venkatesh, Ritweez Sahu

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Uvea

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-02

Convenor : Rabindra Kumar

Moderator : Kartikey Kothari

1. [FP139] - Complement mediated Innate Immunity in Tubercular Serpiginouslike choroiditis: A targeted NGS study

Chief & Presenting author : Reema Bansal (B11127), Vishali Gupta, Prateek Bhatia, Payal Bajaj

2. [FP247] - Controlling the Flame: Experience with Biologics in Refractory Uveitis at a Tertiary Eye Care Centre

Chief & Presenting author : Mohini Agrawal (M22545), Jyotirmay Biswas

3. [FP328] - Imaging characteristics of TB retinitis- a new phenotype

Chief & Presenting author : Manu Sharma (S17099), Vishali Gupta, Mohit Dogra, Atul Arora

4. [FP739] - Idiopathic Retinal vasculitis, aneurysms and neuroretinitis syndrome- CASE SERIES

Chief & Presenting author : Ayushi Verma (A24467), Saravanan VR, Anuradha Vadakke Kanakath

5. [FP1337] - Role of OCTA in Evaluating Retinal Microvascular Changes in Rheumatoid Arthritis(RA)

Chief & Presenting author : Gargee Deshmukh (G26503)

6. [FP1578] - Ocular Manifestations of SSPE: A Case Series from a Tertiary Centre in North India

Chief & Presenting author : Tanya Jain (T19190), Sachit Mahajan, Pallavi Goel, Lagan Paul Mutreja

7. [FP1673] - Is PCR effective in guiding ATT initiation in ocular TB? A 7-year retrospective study

Chief & Presenting author : Pawan Garde (G24138), S. Bala Murugan

8. [FP1909] - Two mg intravitreal triamcinolone acetonide therapy in Serpiginous-like choroiditis

Chief & Presenting author : Ankush Kawali (K13705), Padmamalini Mahendradas, Sai Bhakti Sukla, Anupama S

9. [FP2083] - Predictive modelling for diagnostic vitrectomy in uveitis using Automated machine learning

Chief & Presenting author : Shristi (S22319), Mohit Dogra, Reema Bansal, Vishali Gupta

10. [FP2124] - Detection and Management of Mixed MTB and NTM Infections in Tubercular Uveitis: A Prospective Study

Presenting author : Ronnie Abhishek Talluri (T30983), Chief author : Anup Kelgaonkar, Himanshu Sekhar Behera, Vishal Jadhav

11. [FP2360] - Demographic and clinical profile of Post fever retinitis

Chief & Presenting author : Sandhya Dharwadkar (H13485), Shubhratha S. Hegde

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Hyde Park Session - V

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-03

1. [FP176] - Secondary subretinal neo vascular membrane -various etiologies and response to Anti VEGF injection

Chief & Presenting author : Kapil Barange (B13142)

2. [FP185] - Incidence of Aggressive ROP in VLBW Infants in a Level 3 NICU: A Report from Western India

Chief & Presenting author : Gulshan Barwar (B24266)

3. [FP371] - Role of subthreshold micropulse 532 nm green laser for persistent macular edema secondary BRVO.

Chief & Presenting author : Vikas Sharma (S18853), (Brig) Gaurav Kapoor, Vipin Rana, Vikas Sharma

4. [FP524] - Outcomes of Injection Intravitreal Ranibizumab Therapy in CNVM Patients A retrospective case series

Chief & Presenting author : Aliya Mansuri (A28507), Nilesh V. Parekh

5. [FP589] - EVALUATION OF RETINAL NERVE FIBRE THICKNESS IN DIABETES AS AN EARLY PREDICTOR OF RETINAL DAMAGE

Chief & Presenting author : Sayantani Mandal (S30858), Khandkar Fariduddin

6. [FP714] - Effect of silicone oil tamponade on neurosensory retina: an optical coherence tomography study

Chief & Presenting author : Kajal Bansal (K28664), Pradeep Sagar, Ravi Shankar H.N.

7. [FP761] - Comparing Outcomes in Early vs. Late SO Removal after Rhegmatogenous Retinal Detachment surgery

Chief & Presenting author : Isha Agarwal (I20561), Dipanjana Das, Manisha Agarwal

8. [FP1177] - EYES REVEAL THE SYSTEMIC SECRETS - Diverse presentations and associations of retinal vein occlusions

Chief & Presenting author : Sushritha S (S30093), Deeksheka D, Lily Daniel

9. [FP1333] - Analysis of Diabetic macular edema in patients with and without uncontrolled hypertension using OCT

Presenting author : Saranya ANBARASAN (S28230), Chief author : Kavitha K, E. Indhumathi

10. [FP1403] - DOUBLE TROUBLE: MACULAR HOLE WITH MACULAR BRVO

Chief & Presenting author : Ritu Singh (R22512), Sanjiv Kumar Gupta

11. [FP1630] - Race Against Time: Aqueous Tap in Young Female with CRAO Dr.Simran ,Dr.Vipin ,Dr.Naman ,Dr.Aditi

Chief & Presenting author : Simran Singh (S30298), Aditi PACHAURI, Naman Sahni, Vipin Sahni

12. [FP1663] - Etiology and break patterns of rhegmatogenous retinal detachment in eastern India

Chief & Presenting author : PRIYAMBADA SUBUDHI (P25247), Rakesh Kumar Khandelwal, Anita Misra

13. [FP1691] - Bardet-Biedl Syndrome: A Clinical Overview Through Two Cases

Chief & Presenting author : Nabatika Mohanty (N27095), Vishal Prakash NANDESHWAR, Mousam MOHANTY, Adyasha Dash

The 84th Annual Conference of All India Ophthalmological Society

14. [FP1729] - Roth spots, a saviour for incidental B cell ALL in patient of upper respiratory tract infection

Chief & Presenting author : Lohith Rambarki (R18973), Palimar Vasudeva, Dasam Srilakshmi, C. V. Gopala Raju

15. [FP1896] - CORRELATION BETWEEN OCT FINDINGS AND HEMATOLOGICAL PARAMETERS IN DIABETIC RETINOPATHY PATIENTS

Chief & Presenting author : Harshitha C (H29664), Sangeetha. T

16. [FP2235] - Rhegmatogenous retinal detachment in chorio-retinal coloboma: finding the key to the keyhole

Chief & Presenting author : Koyel Chakraborty (K22752), Grace Lhinghoithem Haokip, Ravita Kapoor, Abhishek

The 84th Annual Conference of All India Ophthalmological Society

Best Free Papers AIOC 2025 – II

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-04

Panelists : Somasheila Murthy, Jatinder Singh Bhalla, Pradip Kumar Mohanta, Piyush Bansal, Vardhaman Kankaria, Amit Porwal, .Fairouz Puthiyapurayil Manjandavida

1. Novel Insights Into Choroidal Osteoma: Redefining the Natural History and Morphological Zones (Ocular Pathology / Ocular Oncology and Tumors Award) : Niroj Kumar Sahoo
2. Changes in Accommodative Facility with Varying Accommodative Demand (Optics/ Refraction / Contact Lens Award) : Sourabh Patwardhan
3. Comparison of Frontalis Flap and Sling with Fascia Latain Severe Blepharoptosis Using Image (Sujatha Savitri Rao Award) : Sruthi R S
4. Genotype-Phenotyping of Indian CFEOM Cohort with Imaging Correlations & Management Strategies (Om Prakash Award) : Shweta Chaurasia
5. Spherical Monofocal Vs Aspherical Monofocal vs Enhanced Monofocal Iol: Intermediate Vision Comparison (Shiv Prasad Hardia Award) : Anargh V
6. Superior Oblique Tuck Vs Inferior Oblique Anterionasal Transpositionin Managing Congenital so Palsy (Prem Prakash Disha Award) : Kalyani Malasane
7. Comparison of Outcomes of Single Versus Multiple Surgeries in Open Globe Injuries (Trauma Award) : Bristi Majumdar
8. Adalimumab in Pediatric NIU: Efficacy & Compliance Single Centre Experience in Central India (Narsing A Rao Award) : Samendra Karkhur
9. New Safe Avastin Puncture Assist Device (APAD) S Natarajan Award : Ajay Aurora

(Each Presentation is 05 mins)

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - External Eye & Ocular Surface Disease - I

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room L-05

Convenor : Kavita Rajan Bhatnagar

Co-Convenor : Rajendra Kumar

1. [FP31] - Prevalence of dry eye in patients with psoriasis attending in tertiary care hospital in Maharashtra

Chief & Presenting author : Kanchan bala Rathore (R14761)

2. [FP483] - Diagnostic accuracy of AI - based tool in detecting malignancy in ocular surface lesions

Chief & Presenting author : Gopika R Nair (G28186), Jeyanth Rose

3. [FP1197] - The Blink App: A Novel Artificial Intelligence Based Dry Eye Imaging and Management Modality

Chief & Presenting author : Rushad Shroff (S14772), Apoorva Agrawal, Mathew Kurian

4. [FP1440] - Isotretinoin's hidden price: A cross sectional look at ocular effects.

Chief & Presenting author : JUHI (J28207)

5. [FP1712] - AI-Driven Big Data Analysis of Ocular Surface Parameters and Tear Biochemical Changes

Chief & Presenting author : Abha Shah (A28865), Deepthi Rh

6. [FP1835] - Corneal Topography and Aberration Shifts in Pterygium: A Scheimpflug-Based Call for Early Surgery.

Chief & Presenting author : Parul Mittal (P26238), Priyanka, Bhavana Sharma

7. [FP1897] - Enhanced Blink Analysis Alone With Novel Device Can Detect Dry Eye Disease Accurately

Chief & Presenting author : Bhaskar Ray Chaudhuri (R07085), Jyothi Damani, Sangwan Virender S., Neha Kapur (Nee Verma)

8. [FP2084] - A red eye with systemic roots—demanding a multidisciplinary approach

Chief & Presenting author : Pradeep (P26863), Prabhu Shanker M.

9. [FP2106] - Trehalose as an Autophagic Bioprotectant in Dry Eye Disease Management A Randomized Controlled Trial

Chief & Presenting author : priya sisodiya (P22106)

The 84th Annual Conference of All India Ophthalmological Society

Teachers of Tomorrow (Prelims)

Date :	11-03-2026 (Wednesday)
Time :	15:15-17:45
Hall :	Meeting Room U-02

Coordinator : Prafulla Kumar Maharana, Krishna Prasad R., Anu Malik, Nilima Khochikar

1. [TOT1] - CFS Retina, Delhi

IOL power calculation formulas

Keratomalacia

: **Lalit Verma**

: **Priksha Lakhlan**

: **Bhanu Priya**

2. [TOT2] - Academic Avengers

IOL biomaterials – optics and biocompatibility

Trabeculectomy

: **Mamta Singh**

: **Praggya Mishra**

: **Manish Agarwal**

3. [TOT3] - Bagurumba

Anatomy of Angle

Dropped Nucleus

: **Chandana Kakati**

: **Surabhi Prasad**

: **Rashmi Rekha Bungrung**

4. [TOT4] - THE VISIONARY INSIGHTS

ROP Staging

Malignant Glaucoma

: **Ashok Kumar Meena**

: **Anushka Gupta**

: **Shivani Porwal**

5. [TOT5] - The Eyeconics

Yoke Muscles

Pars plana vitrectomy

: **Abhishek Kumar Tripathi**

: **Disha Shree**

: **Akanksha Dass**

6. [TOT6] - VANQUISHERS

Tests of stereopsis

DALK

: **J S BHALLA**

: **Vidush Ratan**

: **Debadari Haldar**

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

7. [TOT7] - Oculus Reparo

Anatomy and actions of extraocular muscles

TASS

: Prabhakar Singh

: Ravita Kapoor

: Anjali Choudhary

8. [TOT8] - THE VISIONCRAFT TEAM

Visual pathway and visual field defects

Multifocal IOL

: Yavana Rani J

: Kiruthiga D A

: Vidhya Bhoopathy

9. [TOT9] - MentorBeam & Protégé Pair- The Insight Circle

FFA

DMD

: Tanisha Singh

: Divya Gunjyal

: Firdous Jahanl

10. [TOT10] - The wizards of eyesight

Management of DME

Corneal Laceration Repair

: Raksheeth Nathan Rajagopal

: Bhoomika Jayesh Nisar

: Alisha Porwal

11. [TOT11] - The INS Eye-tanic

Specular Microscopy

Management of Acute anterior Uveitis

: Tejaswi Prasad P V

: Eshwar Rajesh

: Shanmathi Thiagarajan

12. [TOT12] - The Inner Coat Consortium

Management of neurotrophic ulcer

Basics of electrophysiology

: M. Hemanandini

: Neel Kavediya

: Aishwarya Menattamai

13. [TOT13] - The Eyeconics

Management of PCR

OCT Angiography

: Shubhratha S. Hegde

: Kondeti Nava Manojna

: Bhaskara Kudatini

The 84th Annual Conference of All India Ophthalmological Society

14. [TOT14] - Aiiims Raipur

Applanation tonometry

Management of Pseudophakic Corneal Edema

: Vijaya Sahu

: Priyanshi Pandey

: Bhavana Meena

15. [TOT15] - AVENGERS AIIMS BHUBANESWAR

Management of Exposure Keratopathy

Anatomy of Macula

: Sucheta Parija

: Tejaswini Palla

: Shreyas Gokhale

16. [TOT16] - EYE teach

Gonioscopy

Management of OSSN

: Kowsalya Akkayasamy

: Umanshi Lall

: Neethu Lakshmi N

17. [TOT17] - Vision mentors

Corneal scrapping

Management of Retinoblastoma

: Meena Gopinath Menon

: Meenakshi Dogra

: Arya Shaikant Pandey

18. [TOT18] - Eye Openers

Anatomy and embryology of Lens

Management of Filamentary Keratitis

: Tania Ray (Bhadra)

: Rishab Bairagi

: Sushmita Deshmukh

19. [TOT19] - Vision Vanguard

Management of Scleritis

Vision assessment in children

: Muthu Krishnan Vallinayagam

: Samarth Kacker

: Raghav Gupta

20. [TOT20] - Vision Vanguard

Management of optic neuritis

Color coding of cornea

: Urmil Chawla

: Jahnvi Katoch

: Payal Kashyap

The 84th Annual Conference of All India Ophthalmological Society

21. [TOT21] - Kalinga

Hess Chart

Management of intermediate Uveitis

: Soumya Behera

: Somya

: Snehil Sharma

22. [TOT22] - NEUROVISTA

Amsler Chart

Management of acute graft rejection

: Shrutakirty Parida

: Apoorva V

: Vandana

23. [TOT23] - The eye-lluminati

Management of orbital cellulitis

Tests for dry eye

: Antony Arokiadass Baskaran

: Shravanth R

: Divisha Mehta

24. [TOT24] - The Eye-Q Squad

Management of ROP

Amniotic membrane grafting

: Kasturi Bhattacharjee

: Akanksha Waldia

: Vidushi Dixit

25. [TOT25] - Chalk champions

Microperimetry

Management of Acanthamoeba Keratitis

: Rajesh Prabu V

: Suganya Sampath

: Aishwarya Polisgowdar B

26. [TOT26] - MARGDARSHAK

Tests of color vision

Management of thyroid eye disease

: Soumya Kanta Mohanty

: Kota Manimala

: Reshma S M

27. [TOT27] - Team EyeQ

Diplopia Charting

Management of Fungal Keratitis

: Santosh Mahapatra

: Prachi Saraogi

: Soumya Sucharita Ota

The 84th Annual Conference of All India Ophthalmological Society

28. [TOT28] - The Eye expert - Your Ocular Guru.

Management Of Dropped nucleus

Low Vision Aids

: Shruti Shirwadkar

: SURABHI KUMAR

: Shital Kadam

29. [TOT29] - The NEXTlens

Ocular viscoelastics

Management of VKC

: Pragati Gupta

: Aparajita

:

30. [TOT30] - The Pupil Squad

Interpretation of Visual Field

Posterior Polar Cataract

: Haimanti Choudhury

: Mrunal Thangan

: Rahul Yadav

31. [TOT31] - THE SEEING SQUAD

Retinoscopy

Age-related macular degeneration – management strategies

: D.N. Prakash

: AISHWARYA Y S

: Akshata Kulkarni

32. [TOT32] - 20/20 Visionaries

Hess Chart

Iridofundal Coloboma

: Kaushik Murali

: Disha Agarwal

: Swikrity Chakraborty

33. [TOT33] - The VisionSmiths

Corneal Transparency

BCC of Lid

: Vedhanayaki Rajesh

: Ashwathi Deepak

: Manesha Govardhanan

34. [TOT34] - Warriors for Blind-free Bihar

Chemical eye injuries – acute and long-term management

Ultrasound B-scan – principles and indications

: Ajit Kumar Poddar

: Ruhi Raina

: Ashish Kumar

The 84th Annual Conference of All India Ophthalmological Society

35. [TOT35] - The EyeVengers

Belin Ambrosio Enhanced Ectasia Map
Management of CSCR

: **Deepti P.**
: **Nishanth S**
: **Risheka Prakash**

36. [TOT36] - Duo of vision

Prescription of glasses in children
Management of BRVO

: **Parvatha Sundari Natarajan**
: **SUGANTHI**
: **Rahila Rukzana P P**

37. [TOT37] - Idea Igniters

Management of CRAO
Corneal Collagen Cross Linking

: **Vandana Sharma**
: **Tanmay Gaidhani**
: **Anurag Singla**

38. [TOT38] - Mentoratus Educatorum

6th nerve Palsy
Lid lacerations repair

: **Sharma Ashok Kumar**
: **Tapan Sharma**
: **Kankesh Mahajan**

39. [TOT39] - Stereosquad

Limbal stem cell deficiency – concepts and diagnosis
Management of Senile Ptosis

: **Athul S Puthalath**
: **Taniya Nazeer**
: **Shobhana U**

40. [TOT40] - Team RIOTina

Interpretation of Visual Field
Management of cataract with pseudoexfoliation

: **Abhishek Anand**
: **Manish Kumar Karn**
: **ISHA**

41. [TOT41] - I for an Eye

4th Nerve palsy
Malignant Glaucoma

: **(Mrs.) Seema Shriniwas Lele**
: **Gayatri Lele**
: **Darshita Pandey**

The 84th Annual Conference of All India Ophthalmological Society

42. [TOT42] - Lens of Wisdom

Immunomodulators in Dry Eye

Management of CRVO

: Amit Raj

: Renukha J

: Priyanka Mohanty

43. [TOT43] - Renuka's A-V pattern

3rd Nerve palsy

Limbal Dermoid

: Renuka Barki

: Arpitha V Babu

: Vindhya Prakash

44. [TOT44] - Visionaries

Nystagmus

DSAEK

: Manisha Rathi

: Vaishali

: Mansi Rana

45. [TOT45] - SGN PANDITS

Cataract surgery in small pupil

Vision assessment in children

: Mangesh Dhobekar

: Jagruti Gulhane

: Prajakta Bhansali

46. [TOT46] - CORE VISION

Diplopia Charting

DMEK

: Parvatha Sundari Natarajan

: Sivasangari V

: Preethi Subramani

47. [TOT47] - Sankara Eye Hospital

Management of PACG

Indirect Ophthalmoscopy

: Akanksha Sinha

: Peenal Satra

: Sana Khan

48. [TOT48] - Eyeconic Teachers

Exophthalmometry

Management of Amblyopia

: Dewang Angmo

: ADWITIYA BISWAS

: Keerthana Kasi

The 84th Annual Conference of All India Ophthalmological Society

49. [TOT49] - Sight shapers

Corneal Donor Preservation Media

Management of Diabetic Macular Edema

: Thasneem Suraiya

: Nivetha Ramaswamy

: Vinitha Jayaraman

50. [TOT50] - NETRA

Corneal Biomechanics

Accommodation and presbyopia

: Ashutosh Kumar Gupta

: Shailaza Tripathi

: Abhay Solanki

51. [TOT51] - Kanpur GEMS

BETT classification of Ocular trauma

Management of Neovascular glaucoma

: Mohan Shalini

: ROHIT GUPTA

: Rakesh gupta

52. [TOT52] - The sight Ignitors

Corneal Suturing Techniques

Management of Pars planitis

: Devendra Maheshwari

: Kalyani singh

: Apurva Kumbhar

53. [TOT53] - TEAM NETRA

Congenital Glaucoma

Management of keratoconus – stage-wise approach

: Abhay Solanki

: Shailaza Tripathi

: Abhay Solanki

54. [TOT54] - Awesome Assam

Anatomy of Orbit

Congenital nasolacrimal duct obstruction – management

: Abhijit Kumar Handique

: Jagruti Khudania

: Rebecca Ramhlimum

55. [TOT55] - Cyclo-Destroyers

Surgical Anatomy of Limbus

Pediatric Cataract Surgery

: K. Subashini

: Arpit Gupta

: Sneha Prakash

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Orbit & Oculoplasty + Lacrimal

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room U-03

Judge : Chandana Chakraborti

1. [FP121] - Beyond systemic therapy: Localised retrobulbar amphotericin B for orbital mucormycosis.

Chief & Presenting author : Preeti Thallapally (P30051), Siddharam Janti, Kavuri Deepika

2. [FP140] - NO MESSING WITH THE MESH: NOVEL USE OF TITANIUM MESH IMPLANTS IN ORBITAL FRACTURE REPAIR

Chief & Presenting author : Sagarika Choudhury (S28622)

3. [FP178] - "THE PEARLY TALES"---PAEDIATRIC ORBITAL LESIONS--PRESENTATION, DYNAMICS AND MANAGEMENT

Chief & Presenting author : Mayuri Borah (M25634)

4. [FP307] - Three Faces of Orbital Pseudotumor: A Case Series and Review of Clinical Challenges.

Chief & Presenting author : Anugya Deep (A30806), Rupal Verma, Sonia Sharma, Anupam Singh

5. [FP512] - Peril at the Lacrimal Gate

Chief & Presenting author : Shailesh Kanwar (K22354), Mandeep Singh Bajaj, Deepsekhar Das

6. [FP838] - Factors influencing outcome of Orbital Fractures in multispecialty hospital - Retrospective Analysis

Chief & Presenting author : Vinita Ramnani (R09767), Sakshi Ramnani, Divya Trivedi

7. [FP1234] - Evisceration Surprises: 10-Year Review of Occult Intraocular Masses Uncovered Post-Surgery

Chief & Presenting author : Priyanka Saini (P25346), Sonam Nisar, Kirthi Koka, Md. Shahid Alam

8. [FP1302] - The Eye That Spoke First: Orbital Metastasis Revealing Undiagnosed Leiomyosarcoma

Chief & Presenting author : Alexander Ebenezar (E23899), Kripakaran Ganapathy, Shaun Maria Dacosta, Mohan E. Ravindra

9. [FP1606] - Post-Traumatic Vision-Threatening Orbital Hematoma: Clinical Features and Management

Presenting author : Saurabhi Jha (S31093), Chief author : Saroj Gupta, Samendra Karkhur, Vidhya Verma, Priti Singh

10. [FP1645] - Cincinnati Procedure for Limbal Stem Cell Deficiency in Behçet's Disease: A Vision-Saving Strategy

Chief & Presenting author : Sonalika Gautam (S30601), Amir Munshi

11. [FP1920] - LACRIMAL SAC ROSAI-DORFMAN DISEASE MASQUERADING AS ENCYSTED MUCOCELE

Chief & Presenting author : Swain Ankita (S29600), Omega PRIYADARSHINI

12. [FP2070] - Diagnostic Journey of Epiphora :Evaluation of the Lacrimal Drainage System in Clinical Practice

Chief & Presenting author : Aditi TRIPATHI (A27617), Rakesh Porwal

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

13. [FP2101] - Canalicular laceration(Trauma)using MINI MONOKA stent

Chief & Presenting author : Utkarsh Singh (S30362)

14. [FP2102] - “Surgical Management of Symblepharon and Ocular Surface Damage Post-Caustic Soda Injury”

Chief & Presenting author : Soumya Grover (S30783), Radhika Paranjpe

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Vitreo Retinal Diseases

Date :	11-03-2026 (Wednesday)
Time :	15:15-16:30
Hall :	Meeting Room U-05

1. [FP166] - Phenotype – Genotype Correlation of Autosomal Recessive Best Disease (ARB) in South India

Chief & Presenting author : Vivek Velumani (V24281), Reshika Annamalai Somasundram, U Sanjana Rao, George J. Manayath

2. [FP1213] - A Retrospective Analysis of Encircling Narrow Band Scleral Buckling in 50 Retinal Detachment Cases

Chief & Presenting author : Abhishek Dixit (D17133), Mansi Pankaj

3. [FP1363] - Long-Term Outcomes in Adult-Onset Coats Disease: A 5-Year Retrospective Study

Chief & Presenting author : Geeta Gaikwad (G30594), Ezhil Arul, S. Sivaranjani

4. [FP1822] - Visual results in patients with Massive submacular haemorrhage (SMH)

Chief & Presenting author : Shweta Singh (S26750), Bhanu Priya, Avnindra Gupta, Lalit Verma

5. [FP1832] - Importance of Late Immunomodulatory therapy in Vogt Koyanagi Harada Disease

Chief & Presenting author : Vishal Prakash NANDESHWAR (N26134), Muskan Jagwani, Heena Debbarma, Nabatika Mohanty

6. [FP1894] - Subretinal cysticercosis-a diagnostic dilemma.

Chief & Presenting author : Samridhi Akanksha (S23974), Deepesh Mourya

7. [FP1927] - To assess OCT parameters and their correlation with vision in post-fever retinitis in Bihar

Presenting author : Ruhi Raina (R28500), Chief author : *Kumari Priyanka Verma*, Ruhi Raina, Sumit Randhir Singh, Nishtha Mishra

8. [FP2061] - Pars Plana Lensectomy & Sutured-Scleral Fixated Intraocular Lens for Bilateral Microspherophakia

Chief & Presenting author : Zakia Anwer (Z22320), Deependra Vikram Singh, ABHISHEK UPADHYAYA, Awaneesh Upadhyay

9. [FP2114] - HYPERVIT WITH MICRODOSE INJECTION TECHNIQUE FOR SAFE INJECTION OF SURETINAL TPA

Presenting author : Ruchi Setiya (R24331), Chief author : *Manav Setiya*, Manav Setiya

10. [FP2139] - Shadows in the Fog: Diagnostic Dilemma in Atypical Posterior Uveitis in an Immunocompetent Child

Chief & Presenting author : Priyanka Patel (P30649), Prabhu Shanker M.

11. [FP2315] - Visual Recovery in Submacular hemorrhage: Role of tPA & Vitrectomy Based on Timing of Presentation

Chief & Presenting author : K PRANAV SAI RAMAN (R28620), Swyambhu Prosad Ghosh, Debasis Bairagi

12. [FP2379] - Effect of Vitamin D on DME - an cross sectional study

Presenting author : Roja R (R31543), Chief author : *Ravi Vaishnavi*, Roja R

The 84th Annual Conference of All India Ophthalmological Society

AIOS-ARC Open House Leadership Development

Programme - Session 5

Date :	11-03-2026 (Wednesday)
Time :	15:30-17:00
Hall :	Meeting Room L-06 & 07

Chairperson : Radhika Tandon

Co- Chairperson : Sreeni Edakhlon

Moderator : Anagha Heroor

1. Radhika Tandon - Women as a leader of premier institute - my journey - 12min

Debate 17

Ankit Gupta - One should be contented with one hospital - 3 Min

Sagnik Surya Das - Expand : need multiple hospitals - 3 Min

Debate 18

Sameer Chaudhary - Leadership is inborn - 3 Min

Ankur Singh - Leadership can be groomed - 3 Min

2 Himanshu Mehta - Dealing a VIP patient - 10 min

Debate 19

Mahathi Vankireddi - Females are better leaders - 3 Min

Prabhakar GV - Males are better leaders - 3 Min

3 Introduction of New LDP Batch 2024-25 - 15 min

The 84th Annual Conference of All India Ophthalmological Society

Think Under The Apple Tree Session - (Final)

Date :	11-03-2026 (Wednesday)
Time :	15:30-16:30
Hall :	Meeting Room U-06

Chairperson : Gullapalli N Rao

Co- Chairperson : Lingam Gopal

Moderator Srinivas Joshi

Judges:-

1. Rengaraj Venkatesh
2. Girish Rao
3. Jagadeesh Kumar Reddy K
4. Raju S
5. Usha R. Kim

The 84th Annual Conference of All India Ophthalmological Society

Debates in Ophthalmic Education - Session 6

Date :	11-03-2026 (Wednesday)
Time :	15:45-16:15
Hall :	Atlantiis 1

Chairpersons : Anagha Heroor, Namrata Sharma, Leila Mohan,
K Subhashini, Rajesh Joshi

1. Debate No 1

Apoorva Ayachit - There is no need of Faculty Lectures - 05 mins

Purvi Bhagat - Faculty Lectures are needed - 05 mins

2. Debate No 2

Kaushik Murali - Teaching Ophthalmology today is easier - 05 mins

Sheetal Savur - Teaching is tough at present - 05 mins

The 84th Annual Conference of All India Ophthalmological Society

Panel Discussion on 'Surgical Training of Residents'

Date :	11-03-2026 (Wednesday)
Time :	16:15-16:30
Hall :	Atlantiis 1

Moderators : Kaushik Murali, Krishnaprasad

Panelists : Deepak Mishra , Sheetal Savur, Kirti Singh, D. Sundar, Ameya Kulkarni, Ragini Parekh, Dinesh Balakumar

Prashant Bawankule - Concluding Remarks - 05 mins

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Vitreo Retinal Diseases - II

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room L-01A

1. [FP1441] - Persistent Avascular Retina in Retinopathy of Prematurity - Ultra Wide Field Imaging Features

Chief & Presenting author : Simar Rajan Singh (S16917), Deeksha Katoch, Rishika Rathore

2. [FP1683] - HIDDEN IN PLAIN SIGHT: ATYPICAL PRESENTATIONS OF INHERITED RETINAL DISORDERS

Chief & Presenting author : Purva Kavishwar (P30007), Rajeshwari Kapoor, Manan Mistry, Puja Maitra

3. [FP1697] - From Bloodstream to Retina: The Hidden Impact of Sepsis on Retinal Vascular Development of neonates.

Presenting author : Arpitha V Babu (A30824) ,Chief author : *Ajay Hatti*

4. [FP1764] - Do Inherited Retinal Diseases achieve complete diagnosis in India?Assessment of completion rates

Chief & Presenting author : Akshata Kalshetty (A25158), Anuprita Ghosh, Poornachandra B., Deepika C P

5. [FP1989] - MULTICOLOUR IMAGING IN EVALUATION AND MONITORING OF INHERITED RETINAL DYSTROPHIES

Chief & Presenting author : Shubhangi Tripathi (S30175), Naresh Kumar Yadav, Priya Srinivasan

6. [FP2007] - Clear corneal SFIOL: Our Customised technique for managing Aphakia

Chief & Presenting author : Aashya Modi (A30232), Dhaivat Shah

7. [FP2055] - Founder Mutation Effect Seen By CERKL Gene Mutation: Retinal Dystrophy in Agarwal Indian Population

Chief & Presenting author : Mayank Bansal (B13779)

8. [FP2109] - Inter-Sibling Disparity in ROP Severity and Risk Profiles Among Preterm Twins

Chief & Presenting author : Dimple Nehra , Nagendra Shekhawat, Khushbu Jindal

9. [FP2223] - A FAMILY AFFAIR: EXPLORING THE MULTIGENERATIONAL ROOTS OF HEREDITARY MACULAR DYSTROPHY

Chief & Presenting author : Reha Vijay (R22283), Mukesh Porwal

Rajasthan Ophthalmological Society : Perfluor liquids in Vitreo Retinal Surgery: Comparative analysis on intra operative visualisation -

Ayushi Gupta (A24668)

Uttarakhand State Ophthalmological Society : Acute retinal necrosis following intraocular foreign body removal: A diagnostic challenge -

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Lacrimal

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room L-02

Convenor : Badri Vishal Snehi

Co-Convenor : MARIAN PAULY

1. [FP30] - Early Endonasal vs Delayed External Dacryocystorhinostomy for Acute Dacryocystitis – ENDEAR Trial

Chief & Presenting author : Shalin Shah (S23274), Uday Gajiwala, Nutan Shah

2. [FP77] - Role of Maximum Intensity Projection (MIP) in CT-Dacryocystography (CT-DCG) in Dacryology.

Chief & Presenting author : Raghuraj Hegde (H14510), Ullas V. Acharya, Prithvi Vishwanath

3. [FP342] - Traumatic Dacryocystitis with Pyoceles – Case series

Chief & Presenting author : Gyan Bhaskar (B07871), Dristi KUMARI, Annu Rai, Priyashi

4. [FP553] - Comparative Study Of External DCR using MMC alone versus MMC soaked in Abgel in patients of PANDO

Chief & Presenting author : Namrata Chaudhary (N30718), Hare Ram Ojha

5. [FP604] - "Success is not final, failure is not fatal": Evaluation & revision of failed DCR

Chief & Presenting author : Arnab Mandal (M23699)

6. [FP1773] - Bilateral Dacryocel Meets Infection: A Neonatal Emergency Unfolds

Chief & Presenting author : Tuhina Mishra (T27954), SHIYALE SHRUSHTI UTTAM, Virendra Tarhale

7. [FP1801] - Retrospective Analysis of 1100 CBCT DCG Cases Correlated with FDDT and Lacrimal Irrigation

Chief & Presenting author : Khare Mukesh (K06861)

8. [FP2143] - Effect of preservative free Travoprost on proximal lacrimal drainage system using ASOCT

Chief & Presenting author : Poorva Dige (P28663), Usha M, Kamala Subramanian, Mahesha S

9. [FP2221] - Extent of Lacrimal gland Prolapse and clinical correlation with Thyroid-associated Ophthalmopathy.

Chief & Presenting author : Siddharth Mishra (M29192), Monika Barik

10. [FP2334] - EFFICACY OF STEROID SPARING ANTI INFLAMMATORY AGENT IN KIMURA'S DISEASE.

Chief & Presenting author : NEHA SINGH (N29620), Gopal Krushna Das

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Ocular Pathology / Ocular Oncology and Tumors

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room L-03

Co-Chairperson : Seema Kashyap

Convenor : Sonali V. Kumar

Moderator : Sahil Agrawal

1. [FP85] - Retinal Astrocytic Hamartoma with/without Tuberous Sclerosis: Analysis by multimodal imaging

Chief & Presenting author : Dibya Prabha (D21447), Vishal Raval

2. [FP297] - Microneedle scleral patch: A transscleral drug delivery study for retinoblastoma

Chief & Presenting author : Vishal Raval (R21236), Venkata Vamsi Krishna Venuganti

3. [FP309] - Liquid Gold – Blood-Based Liquid Biopsy in Retinoblastoma: Our Experience So Far

Chief & Presenting author : Chhavi Gupta (C22112), Sima Das, Aman Verma, Ria Ratna

4. [FP365] - Study of Sebaceous Gland Carcinoma with Special Emphasis on Diagnostic IHC Markers&Neoadjuvant Chemo

Chief & Presenting author : Prerna Chaudhary (P30349), Vaishali Kashyap, Sneha Gupta

5. [FP794] - Pre-chemotherapy Oxidative stress level in patients of Sebaceous Gland Carcinoma Eyelid

Chief & Presenting author : Shubhangi Gupta (S29014), Pranjuli Tyagi, Shivangi singh, Anuj Yadav

6. [FP950] - Therapeutic Versatility of Ru-106 Plaque Brachytherapy for Invasive OSSN: A Single-Centre Experience

Presenting author : Chhavi Gupta (C22112), Chief author : Erika Gupta, Namita Kumari, Chhavi Gupta

7. [FP1082] - MOLECULAR AND HISTOPATHOLOGICAL INSIGHTS FROM THE LENS CAPSULE OF IRIDOCORNEAL ENDOTHELIAL SYNDROME

Chief & Presenting author : Abhijay Luthra (L27695), Shristi Lakhera, Nisha Sinha

8. [FP1153] - Cut freeze cure: Winning the battle against OSSN with precision surgical margins

Presenting author : Sree Vinya Avula (S30937), Chief author : Sowmya Peri, Sree Vinya Avula, Bhanu Boddi, Nasrin

9. [FP1933] - Optical Coherence Tomography in Retinoblastoma: Uncovering the disease at its dawn

Chief & Presenting author : Anureet Kaur (A25710), Sima Das, Chhavi Gupta

10. [FP2351] - Orbital Lymphoma- A Large Case Series

Chief & Presenting author : Mahima Kaushal (M28643)

The 84th Annual Conference of All India Ophthalmological Society

Videos - General Segment

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room L-04

1. [VT76] - Eye Mount 360 - Revolutionising Surgical Training!

Chief & Presenting author : Aravind Krishna (K27980), Smrithi Sony THAMPI, Athul S Puthalath

2. [VT115] - Management of Disseminated cysticercosis with intraocular communicating cyst

Chief & Presenting author : Anirudh Kapoor (K23653), Pradeep Venkatesh, Devesh Kumawat, Shorya Vardhan Azad

3. [VT165] - OPTHALMOPRENEUR: AN OPTHALMIC ENTREPRENEUR INNOVATING AND MAKING OUR PRACTICE EASY

Chief & Presenting author : Sanket Bhatnagar (B16754), Neeraj Israni

4. [VT182] - Small incision: Less stitches- Minimally invasive Optic Nerve Sheath Fenestration (ONSF)

Chief & Presenting author : Jyoti Matalia (M10661), Sheetal Achyut Munde

5. [VT223] - “Oil’s Well that Ends Well” – Addressing elevated intraocular pressure in Silicone oil filled eyes.

Chief & Presenting author : Rishika Lakshminarayana (R24588), Shruthi S., Sathi Devi A.V., Zia Sultan Pradhan

6. [VT270] - Lateral Rectus Y-Split In Duane Retraction Syndrome with Upshoot

Chief & Presenting author : Sanjay Kumar Dhar (D12867), (Brig) Gaurav Kapoor, Tanmay Mohapatra, Prakhar Kumar Singh

7. [VT273] - Strabismus surgical training model

Chief & Presenting author : Manish Tijare (M27272), Shah Chintan Mukeshkumar, Kuldeep Kumar Srivastava, Pradhnya Wasule

8. [VT441] - Documented: A Rare Case of Paediatric Ocular Myasthenia Gravis

Chief & Presenting author : Suprabha Chandran (S26727)

The 84th Annual Conference of All India Ophthalmological Society

Videos - Posterior Segment

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room L-05

1. [VT132] - Innovative Surgical Strategies for Recurrent RD's: Targeted SRF Management and SO Optimization

Chief & Presenting author : Annaji Kota (K23062), Krishna Teja Palla, TALABHAKTULA KRISHNA, Ajay Sharma

2. [VT145] - BENEATH THE SURFACE : Managing Submacular haemorrhage

Chief & Presenting author : Tejaswita Verma (T27170), Malvika Singh, Rohan Jain, Manish Nagpal

3. [VT166] - Time Lapse Tomography (TLT): AI-Enhanced Visualization of Retinal Disease Progression on OCT

Chief & Presenting author : Athul S Puthalath (P21667), Kim Ramasamy, K. Naresh Babu

4. [VT258] - COLOBOMA-RD- FIX series – 4 seasons!

Presenting author : Zakia Anwer (Z22320), Chief author : *Deependra Vikram Singh*, Zakia Anwer, Awaneesh Upadhyay, Raja Rami Reddy P.

5. [VT260] - Taming the Traumatized Eye: Navigating Intraoperative Surprises in Posterior Segment Trauma

Chief & Presenting author : Atul Arora (A20832), Ashutosh Kumar Gupta, Vishali Gupta

6. [VT315] - Internal limiting membrane – Peeling in various scenarios other than macular hole

Chief & Presenting author : Ramandeep Singh (S10100), Basavaraj Tigari

7. [VT379] - The Resurgery report- Vitreoschisis-induced vitreous cortex remnants

Chief & Presenting author : Aayesha Khanum (A23753), Venu Gopal Reddy Yeramala Chinna

8. [VT396] - Traumatic Cataract Panorama

Chief & Presenting author : M. Ravishankar (R11675), Arthi M

9. [VT463] - CHORIORETINECTOMY IN PDR SURGERY

Chief & Presenting author : Bidisha Panjjyok (B25213), Saravanan VR

10. [VT464] - When Medical Management Falls Short: Tailored Surgical Strategies in Acute Retinal Necrosis

Chief & Presenting author : Keerthana Kasi (K30938), Siddhartha Rao B.S., Nawazish Shaikh

11. [VT498] - "Cut, Burn, Tie: A Tailored Surgical Strategy for Retinal Angiomas in VHL Disease"

Chief & Presenting author : Ashish Markan (M19049), Manasi Tripathi

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - External Eye & Ocular Surface Disease

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room U-03

1. [FP204] - Shifting Paradigms: Mitomycin-C as Standalone Therapy in OSSN – Insights from a Case Series

Chief & Presenting author : Anshuman Pattnaik (P23323), Prateek JAIN

2. [FP647] - Allergic Rhinitis and Ocular Allergy: A Correlative Study of allergic biomarkers

Chief & Presenting author : Ankita Singh (A22223), Anushree C M, Sunandan Bhatta, Jaya Kaushik

3. [FP818] - A study on the effect of Tacrolimus in the treatment of VKC.

Chief & Presenting author : Meghna Samantaray (M25246), Rutayani Dash, Prativa Behera

4. [FP862] - TEAR FILM DYNAMICS AND INTRAOCULAR PRESSURE VARIATIONS IN PREGNANCY

Chief & Presenting author : Nikita Sharma (S18864), Harshit BUDHWAR, Mitasha Baweja

5. [FP1106] - A Tale of Large Naevus on Ocular Surface

Chief & Presenting author : Ridham Nanda (R22592), Ridham Nanda

6. [FP1367] - Diagnostic Conundrum- Pseudotumour disguised as orbital cellulitis

Presenting author : Jebin K Shihana, Chief author : *Anam Ansari*, Anam Ansari, Aarushi Saini, Subhash Dadeya

7. [FP1385] - Impact of Smoking on MG and Ocular Surface Conditions in Age-Related Cataracts: A Case-Control Study

Chief & Presenting author : POSINA SRI SATVIKI, Inchara Nagaraj

8. [FP1823] - When the Lid Leaves a Mark: Scar-Induced Filamentary Keratitis Post Ptosis Repair

Chief & Presenting author : Kak Ishita (K28329), Nikita nupur, Piyush Bajaj, Tulika Chauhan

9. [FP1856] - THE EFFECT OF VITAMIN D SUPPLEMENTATION ON DRY EYE DISEASE (DED) WITH VITAMIN D DEFICIENCY

Chief & Presenting author : Harshada Borker (H27050), Vivek S. Naik, Dipti Srivastava

10. [FP2000] - PREVALENCE OF DRY EYE IN PATIENTS WITH THYROID DISORDER IN A TERTIARY CARE CENTRE IN WESTERN ODISHA

Chief & Presenting author : Arati Biswal (A25013), Sasmita Sahu

11. [FP2056] - Symptom–Sign Discordance in Type 1 Diabetes: Evaluating Tear Meniscus and Schirmer’s Response

Chief & Presenting author : Aakash Sharma (S21640), Sharad Bajpai, Sangeeta Shukla

12. [FP2074] - Resolution of Scleral Melt with Mycophenolate Mofetil Monotherapy: A Case Report

Chief & Presenting author : Priya Desai (D16875)

The 84th Annual Conference of All India Ophthalmological Society

Poster Podium Presentation - Pediatric Ophthalmology

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room U-05

Judge : Ashok Kumar Meena

1. [FP310] - Longterm outcomes following primary IOL implantation: Beyond a decade

Chief & Presenting author : Samaresh Srivastava (S13187), Shail Vasavada, Vaishali Abhaykumar Vasavada, Deepa Agrawal

2. [FP809] - PFV-The Primary Cause for Unilateral Congenital Cataract

Chief & Presenting author : Leila Mohan (M13437), Roohi M, SHABEEBA KANNAMBALATH, Sharika Erikapatil Mangad

3. [FP1078] - Profile & Outcomes of Pediatric Cataract at a Tertiary Care Institute of Western Rajasthan

Chief & Presenting author : Jyoti Shakrawal (S18507), Nikhil Agrawal, Kavita Rajan Bhatnagar

4. [FP1285] - Evaluation of macular microvascular changes in patients with amblyopia using OCTA

Chief & Presenting author : Mayank Gupta (G29566), Lanalyn Thangkhiew, Tanie Natung

5. [FP1324] - Conventional Occlusion v/s Occlusion with Physical Exercises in Treatment of Amblyopia in Adults

Chief & Presenting author : Padma, Swarna Nishu, Vaishali Tomar, Subhash dadeya

6. [FP1345] - Spotlight on Risk: Uncovering Maternal and Neonatal Triggers for Retinopathy of Prematurity

Presenting author : Sourabh K S (S30354), Chief author : *Ksheeraja.Y*

7. [FP1714] - DECODING THE DIAGNOSTIC DILEMMA OF OPTIC NEURITIS IN CHILDREN: DESCRIPTION OF TWELVE CASES

Presenting author : Vidushi Dixit (D28203), Chief author : *Phinrikerbha Blah*, Phinrikerbha Blah

8. [FP2018] - Outcome of pediatric cataract surgery - a fifteen year retrospective study at a tertiary eye centre.

Chief & Presenting author : Kavitha V. (K09541), Kajal Bansal, Mallikarjun M. Heralgi, Shrini Jogalekar

9. [FP2164] - Orthoptek Digital Therapy: A New Horizon in Active Amblyopia Management

Chief & Presenting author : SAKTHI SHRI.S, Sivakumar Hemachandran, Anchal Arora, D Thamizhselvi

10. [FP2211] - Outcomes of OPK in High-Risk Pediatric Glaucomatous Eyes: Case Series with AS-OCT Evaluation

Chief & Presenting author : Anchal Thakur (T15528), Amit Gupta, Sushmita Kaushik, Sonam Yangzes

11. [FP2266] - Genetic Spectrum of Congenital Corneal Opacities in Indian Children: A Tertiary Center Study

Chief & Presenting author : Sonam Yangzes (Y16805), Jitender, Anchal Thakur, Chintan Singh (Malhotra)

12. [FP2283] - Focusing on the Future: Enhancing Visual Horizons with EDOF IOLs in Pediatric Cataract Surgery

Chief & Presenting author : Adil Majeed Mir, Raashid Wani

The 84th Annual Conference of All India Ophthalmological Society

When the going gets tough ! the tough gets going !! - Prelims

Date :	11-03-2026 (Wednesday)
Time :	16:30-17:45
Hall :	Meeting Room U-06

Chairman : Harshul Tak

Judge : Minu M. Mathen, Sourabh Patwardhan, Kumar Doctor, Naren Shetty, Suvira Jain

Coordinator : Vanashree Nair

Chief Judge: Namrata Sharma

1. [TUF1] - Labyrinthine Convalescence Achieved Utilizing Best Indian Innovations

Chief & Presenting author : Arvind Kumar Morya (M17612)

2. [TUF3] - Trouble of the bubble

Chief & Presenting author : Abhishek Kumar (K25916)

3. [TUF5] - Crack open the hard case- Phacoemulsification in hypermature calcified capsule cataract

Chief & Presenting author : Bala Saraswathy (B24921)

4. [TUF9] - Second chances: Phaco after TPK

Chief & Presenting author : Samrat Chatterjee (C07146)

5. [TUF10] - NAVIGATING CHALLENGES IN CATARACT SURGERY

Chief & Presenting author : Vipin Rana (R19241)

6. [TUF12] - Double Whammy in case of a traumatic mature cataract

Chief & Presenting author : Bajaj Asheesh (B08179)

7. [TUF16] - How hard can a toric IOL redialling be ?

Chief & Presenting author : Prasanna Venkataraman (V17875)

8. [TUF17] - Traumatic cataract with iridodialysis

Chief & Presenting author : Anujeet Paul (P23406)

9. [TUF27] - IOL Scaffold technique for phacoemulsification in a morgagnian cataract

Chief & Presenting author : Aditi Singh (S16943)

10. [TUF29] - Phaco Surgery After RK With Zonular Instability

Chief & Presenting author : Abhinav Sinsinwar (S19499)

The 84th Annual Conference of All India Ophthalmological Society

11. [TUF30] - OH DEAR-HOOK ME PLEASE

Chief & Presenting author : Jayanta Kuila (K12656)

12. [TUF38] - From Slips to Skills: The Resident Phaco Journey

Chief & Presenting author : Mehak Gupta (M30326)

13. [TUF39] - confidence thrills but over confidence kills

Chief & Presenting author : Amit Kumar Mahajan (M11746)

14. [TUF44] - Triple Procedures - Challenges During Lens Management

Chief & Presenting author : Karan Bhatia (B15311)

15. [TUF45] - Haptic Heartbreak – IOL exchange following haptic fracture in posterior polar cataract

Chief & Presenting author : Sameer Chaudhary (C27089)

16. [TUF49] - Under the golden glow : Chandelier-Assisted Cataract Surgery Through a Corneal Scar

Chief & Presenting author : Oishwarya Chakraborty (O25604)

17. [TUF50] - Traumatic Subluxated Cataract

Chief & Presenting author : Sugato Paul (P18775)

18. [TUF53] - Traumatic Cataracts Unlocked: Surgical Excellence in Action

Chief & Presenting author : Varsha Chauhan (V30552)

19. [TUF66] - IOL in the Bag Subluxation

Chief & Presenting author : Siddhartha Ghosh (G10373)

20. [TUF68] - "Beyond the Blast . From Injury to Insight..a story of hope (A tale of firecracker injury)

Chief & Presenting author : Himani Chatterjee (H24905)

21. [TUF69] - Crossing the Precipice: Managing bag instability with surgical precision

Chief & Presenting author : Prashanth Ranganath (R11585)

22. [TUF72] - ICL Explantation and Phaco Surprise

Chief & Presenting author : Raksheeth Nathan Rajagopal (R21536)

23. [TUF80] - Paracentesis turns Problematic : A rare post cataract fistula

Chief & Presenting author : Gaurav Pande (P26013)

24. [TUF84] - DOUBLE RINGS TO PREVENT SINK

Chief & Presenting author : John Sarkar (S15573)

25. [TUF85] - Managing a Stuck Toric IOL Using a 2.2 mm Microkeratome in Cataract Surgery

Chief & Presenting author : Zakir Hussain (H25922)

The 84th Annual Conference of All India Ophthalmological Society

26. [TUF87] - Taming the Zonules - A Marfan's Rescue

Chief & Presenting author : Bindu S. AJITH (B21454)

27. [TUF90] - A CASE WITH 2 CHALLENGES !

Chief & Presenting author : Vanashree Nair (V22968)

28. [TUF93] - A RENT, A SURGEON GROWING STRONGER

Chief & Presenting author : Sohini Ghosh (G15722)

29. [TUF94] - PCR RESCUE

Chief & Presenting author : Mrunal Neve (M30614)

30. [TUF97] - MANAGING BROWN CATARACT IN CASE OF ZD WITH IRIS COLOBOMA WITH LENS COLOBOMA

Chief & Presenting author : Sahu Shafali (S25048)

31. [TUF101] - Curtainless Windows: Surgical Challenges faced in Aniridia with Mature Cataract

Chief & Presenting author : Himani Chatterjee (H24905)

32. [TUF103] - When the Window of Light is Wide Open: Managing Pre-Existing PC Rent

Chief & Presenting author : Nilesh Kumar (K20052)

The 84th Annual Conference of All India Ophthalmological Society

IC557 - The OCT Master-class: See More, Diagnose Superior, Treat Better

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Ballroom

Chief Instructor: Indranil Saha

Optical Coherence Tomography (OCT) is a non-invasive, non-contact, high resolution, real time imaging, versatile diagnostic technique that renders an in vivo cross sectional view of ocular structures. Once believed to be a fancy gadget, the OCT is now an indispensable tool in modern day eye care services. The diagnostic efficacy of OCT is not only limited to vitreoretinal diseases but have also found an indispensable role in treating anterior segment diseases and glaucoma, rendering early and favorable treatment outcomes in our patients. This Instruction Course through its seasoned faculty aims to elaborate on the nuances of OCT and provide an in depth understanding of the Role of OCT in Modern Day Ophthalmology.

No.	Topic	Speaker	Min
1.	1. Evolution of OCT and its spectrum	Raveesh Bindal	10
2.	Seeing more of the Cornea, beyond the Slit Lamp	Ashwini H.	10
3.	An OCT analysis of the Silent thief- Glaucoma	Nidhi Tomar	10
4.	Diving into Depths of Vitreo-retinal diseases	Indranil Saha	10
5.	Beyond the retina: The not so subtle Choroid	Priyanka Gupta (AGARWAL)	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC45 - Biometry Conundrums: Demystifying IOL power calculation in difficult situations

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room L-01

Chief Instructor: Rushad Shroff

This Instruction course shall elucidate how to decide on IOL power calculation in different scenarios. Newer IOL power formulae and optimizing A constants shall be discussed. We will help the surgeon decide the ideal formula to use in a given situation. Deciding the right IOL power in long and short eyes shall be discussed in detail. How to decide the right IOL power in cases of Multifocal and EDOF lenses shall also be discussed with participants. IOL power calculation in eyes with Keratoconus, prior radial keratotomy, prior corneal transplant and post laser vision correction shall be highlighted with case examples. Panelists will discuss how to manage cases of irregular corneas with cataract and whether to do refractive surgery to regularize the cornea first or do cataract surgery followed by corneal regularization procedures. By the end of the session attendees will have a clear overview of biometry in different situations.

No.	Topic	Speaker	Min
1.	True K, Total K, EKR etc- Applications of different concepts in IOL power calculation	Reshma Ranade	8
2.	Conquering the cone: IOL Power Calculation in Ectatic eyes	Rushad Shroff	8
3.	Generation X - IOL power calculation in post refractive surgery eyes	Tushar Grover	8
4.	Prior Radial Keratotomy - Getting biometry right in the most challenging cases	Ikeda	8
5.	Topsy Turvy: Biometry in the post transplant eye	Bhupesh Singh	8
6.	Corneal Customization before and after Cataract Surgery - How do I achieve the best outcome?	Pooja Khamar	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC258 - All about Tissue Plasminogen Activator (tPA) in retinal diseases

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room L-01A

Chief Instructor: Bibhuti B. Kashyap

Tissue Plasminogen Activator (tPA), a drug primarily used for cardiovascular diseases, has been a relatively recent addition to the ophthalmology armamentarium for treatment of retinal diseases. There still however, exists a variety of doubts regarding its use, with respect to choice of tPA, it's procurement, preparation of tPA, indications of use, dosages, various routes of administration, methods and instrumentation for administration, the post administration follow up care and the cost factors. This Instruction course aims at alleviating those doubts and be of help to those who wish to incorporate tPA in their retina practice hassle-free.

No.	Topic	Speaker	Min
1.	tPA - Introduction, types and logistics of use	Bibhuti B. Kashyap	8
2.	Intravitreal route of administration of tPA - when and how ?	Subijay Sinha	8
3.	Subretinal route of administration of tPA - when and how ?	Aniruddha Maiti	8
4.	Delivering subretinal tPA, my way - a self designed subretinal injector	Sangeet Mittal	8
5.	My journey of tPA use - Beginner's block, initial concerns and subsequent experiences	Devesh Kumawat	8
6.	Non conventional indications of tPA use.	Bibhuti B. Kashyap	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Community / Social Ophthalmology - II + Semi Finals

Date :	12-03-2026 (Thursday)
Time :	08:00-09:20
Hall :	Meeting Room L-02

Chairperson : Krishna Kumar Kanjolia

Co-Chairperson : Parag Mukhopadhyay, Rajesh Malpani

Convenor : Rajendra Verma

1. [FP55] - Improving Environmental Sustainability in Ophthalmology: Strategies used in a Tertiary Eye Hospital

Chief & Presenting author : Nishwath BALAKRISHNAN (B28529), Kowsalya Akkayasamy

2. [FP108] - Opportunistic screening of children's eyes using red reflex test in the pediatrician's office.

Chief & Presenting author : Mihir Trilok Kothari (K08617), Gouravi Upadhye

3. [FP240] - Revolutionizing Care: Effectiveness, Economic Viability and Patient Perception of Teleophthalmology

Chief & Presenting author : Md Afroz Alam (A28183), Ajit Kumar Poddar

4. [FP241] - What Drives the Gift of Sight? Exploring Motivational Factors Among Families of Eye Donors

Chief & Presenting author : Shubhratha S. Hegde (H14526), Sandhya Dharwadkar

5. [FP244] - Driving Fitness and Visual Fields: Rethinking the Licensing Protocol

Chief & Presenting author : Mamta Singh (M12137), Bibhuti Prassan Sinha

6. [FP246] - Revolutionizing Myopia Screening with Artificial Intelligence and Digital Retinoscopy

Chief & Presenting author : Harsha Saxena (H21557)

7. [FP374] - When Customs Delay Cure: Impact of Native Eye Medication use in Infective Keratitis

Chief & Presenting author : Aishwarya Akolkar (A23629), Sankalp Singh Sharma, Prajna N.V.

IC551 - Make Buckling great again: Rediscovering Scleral Buckling

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room L-05

Chief Instructor: Himadri Choudhury

Scleral buckling was for decades the only surgical procedure for the treatment of Rhegmatogenous retinal detachment. However, now it has taken a back seat and is being substituted by pars plana vitrectomy even in situations where it would be the better surgery. Lack of adequate training and perceived lower success rate is being cited as the reason for this shift. In this instruction course a new generation of retina surgeons share their experiences as they buck the trend and show the versatility of the procedure. Novel techniques for simplifying the procedure may indeed help us save this endangered species from extinction.

No.	Topic	Speaker	Min
1.	Scleral Buckling : Conventional Technique	Sharat Hegde	8
2.	The first choice for all primary rhegmatogenous retinal detachment?	Himadri Choudhury	10
3.	Chandelier Assisted Scleral Buckle	Vaibhav Sethi	8
4.	Scleral buckling in paediatric retinal detachment	Awaneesh Upadhyay	8
5.	Scleral Buckling in complex retinal detachment	Jayant Kumar	8
6.	Why has Scleral buckling fallen out of vogue?	Diva Kant Misra	8

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC495 - Posterior Chamber Iris Claw IOL Implantation: A Practical Surgical Approach

Date :	12-03-2026 (Thursday)
Time :	08:00-08:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Sukriti Gupta

This session explores the evolution of iris claw intraocular lenses (ICIOs), focusing on advancements in design, materials, and biomechanical properties. This surgical-focused session compares anterior chamber and retropupillary fixation techniques for iris claw lens implantation. Through case-based discussions, surgical videos, and outcome data, participants will gain a comprehensive understanding of the technical nuances, indications, and contraindications for each approach. While iris claw lenses are generally safe, complications such as disencapsulation, iris trauma, and endothelial decompensation can occur. This session focuses on identifying risk factors, intraoperative prevention strategies, and effective management of postoperative complications. Attendees will benefit from expert tips, surgical pearls, and case-based rescue techniques to improve patient outcomes.

No.	Topic	Speaker	Min
1.	Advances in Iris Claw Lens Design and Materials	Kritika Singh	8
2.	Surgical Techniques for Iris Claw Lens Implantation: Anterior vs. Retropupillary Fixation	Sukriti Gupta	8
3.	Iris Claw Lenses in the Management of Aphakia	Neha Malik	8
4.	Pediatric and High-Risk Patients: Special Considerations for Iris Claw Lens Use	Kritika Singh	8
5.	Complications and Management Strategies in Iris Claw Lens Implantation	Sukriti Gupta	8
6.	Future Directions: Foldable Iris Claw Lenses and Combined Procedures	Mrityunjay Singh	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC392 - The “Never Go Wrong” Matrix in Phakic IOL

Date :	12-03-2026 (Thursday)
Time :	08:00-08:55
Hall :	Meeting Room U-01

Chief Instructor: Sandton J S Raj

In this era where a myriad of options is available in providing ‘spectacle-less vision’, this instruction course shall help the ophthalmologist determine the right candidature for Phakic IOL. It covers the do’s and don’ts of Phakic IOL surgery beginning from the patient workup till management of complications. The faculty consists of established surgeons of national repute who would discuss in detail regarding patient selection, preliminary workup, surgical technique and tackling difficult situations. The audience would take home a comprehensive understanding of the indications and limitations of such procedure.

No.	Topic	Speaker	Min
1.	Phakic IOL Patient Selection: Risk, Reward, and the Right Call	Sandton J S Raj	8
2.	Perfecting the Post-Operative Vault	Rajesh Sinha	8
3.	Piggyback Phakic IOL	Swapna Nair	8
4.	Phakic IOL in Keratoconus	Aadithreya Varman	8
5.	Presbyopic Phakic IOL	Sandton J S Raj	8
6.	Mastering Complication Management in Phakic IOLs	Swapna Nair	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC436 - Demystifying beginner Phaco Refractive practice - a Guide for young ophthalmologist

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room U-01 A

Chief Instructor: Tanmay Gupta

With this course we would like to simplify the approach to a good phaco refractive set up with availability of multiple piece of equipment chasing the same result along with addressing routine clinical and surgical scenarios that a young ophthalmologist would face, consecutively adopting newer technologies and complicated cases .

No.	Topic	Speaker	Min
1.	Setting up a Phaco refractive clinic	Arnav Singh Saroya	8
2.	Obstacles in cataract Refractive surgery	Inder M. Rustagi	8
3.	Complicated cataract - simplified approach	Harsh Vardhan Gupta	8
4.	Mastering toric IOLs	Ankur K Shrivastava	8
5.	Managing unhappy patients	Manisha Rathi	8
6.	Adopting phakic IOL	Tanmay Gupta	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC259 - Secondary IOL implantation: Mastering the art of aphakia correction

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room U-02

Chief Instructor: Soumava Mandal

Though there has been a tremendous improvement in cataract surgical techniques in the last decade, a significant number of eyes has to be kept aphakic. Other than post cataract surgery, traumatic aphakia remains a challenge for surgeons. Secondary IOLs are the saviour for those eyes. There has been a significant change in the design and techniques of secondary IOLs from ACIOL, rigid SFIOL, iris claw, MPIOL placement with different techniques (yamane, X-NIIT, glued) to recently developed CMT flex IOL which is a foldable SFIOL. No one IOL design or technique is absolutely perfect. So it needs a wise decision making in choosing secondary IOLs according to clinical situation. In this instruction course we will discuss every aspect and every type of secondary IOLs in detail from basic to advance for the beginner and also for the advanced learners.

No.	Topic	Speaker	Min
1.	Introduction of the secondary IOL family	Soumava Mandal	5
2.	ACIOL - The 'old-fashioned' grandfather	Soumava Mandal	5
3.	Rigid SFIOL - Father who is 'proven but passe'	Antarlin Ghosal	7
4.	Iris claw - The 'street-smart' younger brother	Aniruddha Maiti	7
5.	Sutureless SFIOL - Family's 'prized possession'	Shouvick Dan	7
6.	YAMANE modification of sutureless SFIOL - The brother who 'eclipsed the rest'	Sourav Santra	7
7.	CMT flex IOL - 'A fresh face with untapped potential'	Soumava Mandal	7
8.	Aniridia SFIOL and its modifications - 'The crisis manager'	Boral Subhendu Kumar	7

Panel Discussion : 3 mins

The 84th Annual Conference of All India Ophthalmological Society

IC212 - Refractive Surgery Conundrums: Solving the toughest cases

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Meeting Room U-03

Chief Instructor: Tushar Grover

The primary challenge in refractive surgery lies more in decision-making and case selection than in the surgical procedure itself. This instructional course addresses the grey areas where consensus and clear guidelines are lacking, posing challenges for both beginners and experienced surgeons. The course will be entirely case-based and discussion-based.

The course will explore unusual case scenarios with innovative solutions. Topics such as suspect topography, enlarged mesopic pupil size, corneal epithelium's masking effect, and the role of associated ocular and systemic conditions will be discussed. The course will also cover strategies for managing unexpected outcomes, such as undercorrections and overcorrections and handling dissatisfied patients despite good visual results.

No.	Topic	Speaker	Min
1.	Look before you leap: Navigating suspect topography	Divya Manohar	8
2.	Optimal Case selection: Choosing the right procedure for the right patient	Tushar Grover	8
3.	The Unseen Challenges: Large Mesopic pupil, Epithelial Irregularities and more	Rushad Shroff	8
4.	Refractive Surgery in Patients with Ocular & Systemic Conditions	Pooja Khamar	8
5.	Revisions & Enhancements: When & How?	Madhu Uddaraju	8
6.	Perfect Results, Imperfect Reactions: The Patient's Perspective	Bhupesh Singh	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC421 - Human Amniotic Membrane: Preparation and Applications

Date :	12-03-2026 (Thursday)
Time :	08:00-08:55
Hall :	Meeting Room U-05

Chief Instructor: Soham Basak

Human Amniotic Membrane Transplantation (hAM-T) is a Very Versatile Tool for the Ocular Surface Surgeons. Ham-T Provides Tectonic Support and Has Anti-Inflammatory and Growth Factors Which Help in Restoration of Compromised Ocular Surface. Ham-T Finds Use in Acute Conditions Like Chemical or Thermal Burn and Stevens-Johnson Syndrome; as Protective Cover Over Surface Epithelial Defects, and as an Adjunct in Other Surface Procedures Like Pterygium Excision, Limbal Cell Transplantation, Conjunctival Mass Excision and Bleb Repair. Objective: at the Conclusion of This Video-Based Course, the Surgeon Will Able to Describe (1) How to Process and Prepare Ham from Human Placenta, (2) Different Types of Ham Available, (3) Various Indications of Ham-T in Ocular Surface Surgery and (4) Various Surgical Techniques of Ham-T.

No.	Topic	Speaker	Min
2.	Amniotic Membrane Transplantation in Acute Conditions	Tuhin Chowdhury	10
3.	Amniotic Membrane Transplantation for Ocular Surface Healing	Aditya Pradhan	10
4.	Amniotic Membrane as Adjunct to Ocular Surface Surgeries	Nidhi Gajendragadkar	10
10.	Course Introduction and How to Prepare Human Amniotic	Soham Basak	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC3 - What's new in Glaucoma Diagnostics

Date :	12-03-2026 (Thursday)
Time :	08:00-08:55
Hall :	Atlantiis 1

Chief Instructor: Mithun Thulasidas

Glaucoma, the leading cause of irreversible blindness, requires timely diagnosis and monitoring. Despite advancements, diagnosing glaucoma remains complex. However, recent innovations offer exciting opportunities to enhance diagnostic accuracy and help clinicians assess glaucoma progression and risk more effectively. This course is a gateway to understanding the groundbreaking developments in glaucoma diagnostics. We will explore cutting-edge technologies, including home-based IOP measurement, novel visual field platforms, OCT and OCTA-based analysis, ERG, AI applications, and genetic testing. That said, integrating new methods may require changes in clinic workflows, and challenges such as equipment portability, standardisation, reproducibility, and costs must be addressed. By the end of this course, attendees will gain a better understanding of recent diagnostic modalities in glaucoma, how to apply them in clinical practice, and whether they merit the excitement seen in literature.

No.	Topic	Speaker	Min
1.	Advances in intraocular pressure (IOP) measurement	Meenakshi Dogra	6
2.	Virtual reality perimetry and advancements in standard perimetry	Mithun Thulasidas	7
3.	Applications of Optical Coherence Tomography (OCT) in Glaucoma	Mahesh Bharathi	6
4.	How to use Optical Coherence Tomography Angiography (OCTA) in Glaucoma?	Rinal PANDIT	6
5.	Electroretinogram – Does it have a role in Glaucoma?	Pradeep Balam	6
6.	The Artificial Intelligence (AI) Revolution	Prasanna Venkatesh Ramesh	7
7.	Integrating Genetics in Glaucoma screening	Sagarika Patyal	7

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC167 - Mastering the Vitreoretinal Interface: Surgical Pearls

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Atlantiis 2

Chief Instructor: Sharat Hegde

This intensive course is designed for vitreoretinal surgeons seeking to master the complexities of the vitreoretinal interface. Through a dynamic blend of didactic lectures and surgical video analysis, leading experts will share their invaluable "surgical pearls." Participants will delve into advanced surgical techniques, including interface vitrectomy, ILM peeling, and complex retinal detachment repair. The curriculum focuses on practical, evidence-based strategies to manage challenging cases and prevent complications. This course will empower you to refine your surgical technique, enhance your decision-making, and ultimately improve patient outcomes by mastering the critical maneuvers at the vitreoretinal interface.

No.	Topic	Speaker	Min
1.	Vitreomacular Traction (VMT) Syndrome	Sharat Hegde	8
2.	Myopic Traction Maculopathy (MTM)	Chitaranjan Mishra	8
3.	Epiretinal Membrane (ERM)	Shishir Verghese	8
4.	Lamellar Hole-associated Epiretinal Proliferation (LHEP)	Bhavik Panchal	8
5.	Macular hole	Awaneesh Upadhyay	8

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC504 - The Essentials of Managing Childhood Myopia: A First Look

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Trade Room 1

Chief Instructor: Akshya P

Childhood myopia management is beyond just prescribing glasses. It's a progressive condition that can have significant short-term and long-term consequences, impacting a child's quality of life and increasing the risk of serious eye health problems later in life.

Hence it is imperative for ophthalmologists to understand childhood myopia and its management. This IC will cover topics such as Understanding fundamentals like emmetropization and normal ocular growth, importance of myopia control, axial length as a key factor, impact of life style, association of binocular vision and myopia; Examination and assessment of myopia progression; Myopia correction and control strategies including newer ones like orthokeratology, redlight therapy and combination therapy; Case by case approach including identification of non-axial and syndromic myopia; Setting up a myopia clinic.

No.	Topic	Speaker	Min
1.	Normal ocular development, Linking life style, axial length& binocular vision to progressive myopia	Akshya P	8
2.	Examination and assessment of myopia and myopia progression	Padma Priya G.K	8
3.	Myopia correction, control strategies including latest advances	Srikanth R.	8
4.	Identification of non-axial and syndromic myopia	Padma Priya G.K	8
5.	Setting up a myopia clinic	Srikanth R.	8
6.	Case by case approach to myopia	Akshya P	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC138 - Back to Basics in Pediatric Cataract: What Every Surgeon Should Know

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Trade Room 2

Chief Instructor: Aditya Sethi

Pediatric cataract management demands clarity, precision, and timely decision-making. This instruction course revisits the fundamental principles that form the backbone of successful outcomes—from early diagnosis, biometric challenges, and timing of intervention to IOL power selection, surgical techniques, and amblyopia management. We will address practical questions every surgeon faces: When to operate? What IOL to choose? How to ensure visual rehabilitation? Whether you're starting your journey in pediatric ophthalmology or seeking to refine your skills, this course distills complex concepts into straightforward, actionable strategies. Through case-based discussions and expert insights, attendees will leave equipped with essential knowledge and confidence to handle pediatric cataracts with care and competence.

No.	Topic	Speaker	Min
1.	Clinical Evaluation & Timing of Surgery	Shruti Nishanth	7
2.	Biometry & IOL Power Calculation in Children	Aditya Sethi	7
3.	Surgical Techniques: From Capsulorrhexis to IOL Placement	Sumita Agarkar	7
4.	Choosing the Right IOL: Aphakia vs. PCIOL	Vaishali Abhaykumar Vasavada	7
5.	Postoperative Management & Amblyopia Therapy	Ketaki Shashank Subhedar	7
6.	Complications & Re-surgeries: What Can Go Wrong and How to Fix It	Jitendra Nenumal Jethani	7
7.	What's New in 2025: Latest Advances in Pediatric Cataract Surgery	Kanwal Nischal	7

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC408 - Simple Innovative Tips in Your Operation Theatre for Optimal Outcomes - a Video-Based Course

Date : 12-03-2026 (Thursday)

Time : 08:00-08:55

Hall : Trade Room 4

Chief Instructor: Pooja Khamar

An individual eye is as unique as a fingerprint – why should our approach be so monotonous and routine? In this course, we acquaint the listeners with the concept of ‘customization’ in refractive surgery – whether it is treating the distinctive optical aberrations along with the refractive error in laser-based corneal surgeries; optimizing the size and functionality of ICLs and intraocular lenses based on ocular parameters and patient profiles as well as lifestyles; bringing back the era of surface procedures while eliminating the common complications such as pain and haze that contributed to their descent into disrepute; and improving immediate outcomes with lenticule-based procedures that are notorious for their longer visual recovery periods. With well-defined, systematic and tested approaches applicable in the operation theatre, and display of their intra-operative utilisation in surgical videos, we offer a comprehensive study of the subject.

No.	Topic	Speaker	Min
1.	Back to the Surface: Perfecting the art of PRK	Nishanth Madhivanan	7
2.	Ray Tracing LASIK: Personalizing Vision with Precision Optics	Apurva Bansod	7
3.	Perfecting the art of lenticule surgery in 2026	Pooja Khamar	7
4.	Customized Lasers for the Normal and Complex Cornea	Rushad Shroff	7
5.	Choosing the Right Fit in Phakic IOL's	Tushar Grover	7
6.	Premium IOL's post Refractive Surgery - When, Why and How	Nikunj Tank	7
7.	Ocular Surface Challenges After Refractive Surgery: Diagnosis to Treatment	Abha Shah	7

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC526 - Phacoemulsification - What will you do situations

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Ballroom

Chief Instructor: Ragini Hasmukhray Parekh

Phacoemulsification is the preferred method for cataract surgery but there are situations when even experienced phaco surgeons have to refresh their skills . Increased awareness among patients have changed the practice pattern in last few years . Demand of topical surgeries and faster recovery has taken the front sit . Providing perfect results even in difficult scenarios needs a surgeon who has mastered his skills . This session is focused on simple ways to manage difficult cases and tips to improvise your surgical outcomes . Course will be majorly videos based and interactive session with experienced surgeons . We try to cover wide spectrum yet common situations in day today life of phaco surgeon .

No.	Topic	Speaker	Min
1.	Given away rhexis - What will you do	Ragini Hasmukhray Parekh	10
2.	My interesting cases - lessons	Keiki R. Mehta	10
3.	Hard cataract - what will you do	Shirish Vishwasrao Thorat	10
4.	Polar cataract - what not to do	Ragini Hasmukhray Parekh	10
5.	Subluxated lens - What anterior segment surgeon can do	Lahane Tatyrao Pundlikrao	10
6.	Posterior capsular rupture - what will you do	Navneet Shamsundar Toshniwal	10

Panel Discussion : 10 mins

IC69 - The YIN & YANG of Retinal Imaging : The 3 Questions Answered Series

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room L-01A

Chief Instructor: R. Unnikrishnan Nair

The strides in development in retinal imaging has sparked scientific minds to discoveries and interpretation of new retinal findings. Subsequently leading to enhanced understanding of pathogenesis and pathology of retinal disease. This heightened awareness has lead to better utilization of retinal imaging in all facets of disease management. Hence we can safely assume that in a Yin Yang sort of way where imaging reflects pathology and pathology understanding deciphers imaging. In this instruction course we aim to bring out a better understanding of retinal diseases in a unique format by answering 3 quintessential questions in diseases like Geographic atrophy, nvAMD, Mactel, Pachychoroid spectrum diseases DME and VM interface diseases. The faculty will attempt to enlighten us of this unique relationship between imaging and pathology by answering these significant questions. By the end of the course, we aim to provide focused insights into the disease understanding of these conditions.

No.	Topic	Speaker	Min
1.	3 Questions answered about Geographic atrophy (Manifestations / Edge characteristics / Progression)	R. Unnikrishnan Nair	10
2.	3 questions answered about neovascular AMD (Imaging features / Recurrence / Prognosticators)	Abhishek Kothari	10
3.	3 questions answered about Pachychoroid spectrum (Causative pathology / Manifestations / Variants)	George J. Manayath	10
4.	3 questions answered about MacTel (Progression / NV Prediction / Vision correlation)	Jay Sheth	10
5.	3 questions answered about DME (Imaging correlates of Poor vision/Poor response/Systemic features)	Parveen SEN	10
6.	3 questions answered about VM interface anomalies (VMT Effects/Negative Prognosticators/Metrics)	Sunil Ganekal	10

How ultra-widefield imaging is shifting diagnosis toward peripheral disease detection and prognostic biomarkers - Gopal S. Pillai - 8 Mins

Panel Discussion : 2 mins

IC51 - Ocular Trauma Management-Lessons learned from Armed Forces Standard Operating Procedures (SOPs)

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room L-04

Chief Instructor: Sandeep Gupta

Armed Forces is the largest employer with a unique job profile & high incidence of trauma ranging from IED blasts, retained IOFB & high impact injuries. Compounding the injuries is remote locations, inhospitable terrains, open sea & underwater injuries.

AF work on preset guidelines with standard, repeatable and evidence based protocols. These include high quality telemedicine in periphery, high quality and robust transfer system to tertiary, multi specialty integrated management approach at higher centers, meticulous record keeping to final rehabilitation.

This IC will review these SOPs in the context of Multi organ trauma, segmental ocular trauma and how it can help all states and institutions to provide standard and best possible care to its patients.

The CI and all the instructors are all trained in ocular sub specialties and have experience of serving in high conflict zones and have been instrumental in formulating the guidelines and SOPs in setting of Armed Forces.

No.	Topic	Speaker	Min
1.	Introduction and ocular injuries management in the setting of multi organ trauma	Sandeep Gupta	10
2.	Ocular injuries specific to Armed Forces	Vinod Kumar Baranwal	10
3.	Management of Orbital and adnexal trauma	RISHI SHARMA	10
4.	Management of Corneo scleral trauma	Vijay Kumar Sharma	10
5.	Management of lens and angle injuries	(Brig) Gaurav Kapoor	10
6.	Management of Posterior segment trauma and conclusion	Sanjay Kumar Mishra	10

IC289 - ENIGMA OF REFRACTIVE ERROR MANAGEMENT IN CHILDREN

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room L-05

Chief Instructor: Yogesh Shukla

Management of refractive errors in children is not only difficult but also enigmatic. As children grow, so does the changes in refractive error occurs. Not only the type of refractive error has different approach in growing children, but also their acceptance and further management is controversial. Each type of refractive error has different approaches, and therefore it is necessary to understand which type needs what type of correction. Knowledge and proper understanding and treatment is of utmost importance as miscalculations can land into deep amblyopias. Further, what type of spectacles is required for particular error is little known to ophthalmologists. This part will also be dealt in detail.

No.	Topic	Speaker	Min
1.	Management of Refractive errors in children	Yogesh Shukla	40
2.	Surgical management of refractive errors	Virendra Agrawal	15

Keynote Address (8') : Pharmacological Intervention for Myopia Control: Current Evidence and Future Directions - Rahul Bhola

Panel Discussion : 15 mins

IC164 - “MIGS Mavericks-Innovation, Strategy, Science and Solutions” The Cutting Edge advances in MIGS

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room L-06 & 07

Chief Instructor: Devendra Maheshwari

This Course brings together the sharpest minds in glaucoma surgery to decode the rapidly evolving landscape of Minimally Invasive Glaucoma Surgery. This course explores the full MIGS spectrum with video-assisted talks from basics to advanced—from mastering the balance between MIGS, tubes, and trabs to deploying the ideal tool from the MIGS toolbox. Unlock the power of AS-OCT and OCT-A in revealing post-op mysteries unseen at the slit lamp. Navigate MIGS in complex, high-risk eyes with pearls from real-world warriors. When MIGS fails, learn if it’s time to bleb it, burn it, or bridge it. We’ll also deep-dive into unspoken complications, unexpected curveballs, and management strategies. Finally, witness the future unfold with AI-powered guidance and next-gen MIGS tech. This course is a must-attend for both emerging surgeons and seasoned experts seeking to stay ahead of the MIGS revolution.

No.	Topic	Speaker	Min
1.	MIGS-Tube -Trab Balancing Art: When to Scale Up or Scale Back	Sathyan Parthasarathi	8
2.	“The MIGS Toolbox”: Scrape, Slice, Stent or Slide - KDB goniotomy,BANG ,iStent	Amit Porwal	10
3.	MIGS in Complex Eyes: High-Risk, High-Reward Scenarios - In failed trabeculectomy and Post GDD	Devendra Maheshwari	10
4.	“MIGS Mysteries Unveiled: What AS-OCT & OCT-A Know That You Don’t”	Madhavi Ramanatha Pillai	8
5.	“When MIGS Fails”: Bleb It, Burn It or Bridge It?	Nimrita Gyanchand Nagdev	8
6.	“MIGS & Mayhem: Complications They Don’t Warn You About”	Siddharth Dikshit	10
7.	Next-Gen MIGS – Emerging technologies and Futuristic AI	Suneeta Dubey	8

Keynote Address (8') : SLT experience in black African - Tarela Frederick Sarimiye

Panel Discussion : 13 mins

The 84th Annual Conference of All India Ophthalmological Society

IC96 - Mastering Secondary IOL Fixation: Algorithm to Technique in Complex Aphakia

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Meeting Room U-01

Chief Instructor: Rahul Mayor

In eyes without capsular support, selecting the optimal secondary IOL technique is crucial for long-term visual and structural success. This instruction course begins with an algorithmic approach to decision-making and moves through established and evolving surgical techniques including glued IOL (X-NIT), single-point fixation, flapless sutureless methods, and customized options like CMT-flex. The session also covers anterior chamber and iris-claw lenses, and surgical strategies in ectopia lentis. Each speaker will present case-based pearls, complications, and technique modifications, offering a real-world surgical guide for aphakia management.

No.	Topic	Speaker	Min
1.	Algorithmic Approach to Secondary IOL Selection in Aphakia	Pratik Shenoy	5
2.	Glued IOL – X-NIT Technique: Pearls and Pitfalls- Dr Rahul Mayor	Rahul Mayor	7
3.	Single-Point Scleral Fixation: Simplified Technique and Indications	Gaurav Mohan Kohli	7
4.	Sutureless, Flapless Indigenous SFIOL technique and Alternative ways to correct IOL-in-situ	Pawan Puneet Malhotra	7
5.	CMT Flex IOL: Role, Technique, and Outcomes in Aphakia	Aman Khanna	7
6.	Iris-Claw and ACIOL: Where They Still Fit in the Algorithm	Prakhar Kumar Singh	7
7.	Surgical Challenges in Ectopia Lentis: Fixation Strategies That Work	Tanya Jain	7

Keynote Address (8') : Surgical treatment of lens diseases in pediatric patients - Lyubomyr Lytvynchuk

Panel Discussion : 28 mins

The 84th Annual Conference of All India Ophthalmological Society

IC205 - Developmental Corneal Abnormalities: A Systematic Approach to Unravelling the Diagnosis

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Meeting Room U-01 A

Chief Instructor: Muralidhar Ramappa

This course presents a systematic approach to diagnosing and managing developmental corneal abnormalities in children. It will cover updated classification, clinical and imaging-based evaluation (including EUA, AS-OCT, and UBM), and differential diagnosis of primary and secondary anomalies, such as Peters anomaly, sclerocornea, CHED, and associated syndromes. Participants will learn to identify structural and systemic clues, select appropriate medical and surgical interventions (PK, DSEK, GDDs), and apply tailored visual rehabilitation strategies. The role of genetics, molecular testing, and multidisciplinary care will be emphasised. Through case-based discussions and expert insights, the course aims to enhance diagnostic precision, improve surgical planning, and support lifelong functional vision in children affected by the condition.

No.	Topic	Speaker	Min
1.	Structural Corneal Changes in CYP1B1-Related Congenital Glaucoma: Recognition of Intracorneal Clefts	Muralidhar Ramappa	12
2.	CYP1B1 and MYOC variants in neonatal-onset versus infantile-onset primary congenital glaucoma	Sushmita Kaushik	10
3.	Posterior Polymorphous Corneal Dystrophy in Children: Early Diagnosis, Clinical Features&Management	Sunita Chaurasia	12
4.	Pediatric Keratoplasty: Navigating the Nuances from Indication to Outcome	M. Vanathi	10
5.	Axenfeld-Rieger Syndrome: A Diverse Clinical Spectrum	Mandal A.K.	10
6.	The Pediatric cornea in health and disease: Clinico-pathologic of Specific Disorders	Edward Deepak Paul	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC135 - What Went Wrong? Lessons Learnt from Ophthalmic Surgical Complications

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room U-02

Chief Instructor: rajesh joshi

This instruction course will explore real-life surgical complications across the spectrum of ophthalmology — from cataract, refractive, oculoplastic, and vitreoretinal surgeries to the medicolegal consequences that may follow. By presenting curated cases where outcomes deviated from expectations, expert panelists will dissect the intraoperative decisions, missed warning signs, and postoperative management challenges. The aim is not just to highlight what went wrong, but to derive actionable lessons that can enhance surgical safety, optimize outcomes, and reduce litigation risk. Special emphasis will be placed on recognizing red flags, modifying techniques, and maintaining clear documentation. Attendees will gain insights into both clinical refinements and medicolegal preparedness. The session will be interactive, case-based, and relevant for trainees and experienced surgeons alike.

No.	Topic	Speaker	Min
1.	Capsular Blowout to Bag Dialysis – Avoidable Pitfalls in Cataract Surgery	Rajiv Choudhary	10
2.	The Biometry Battleground – Winning the War on Refractive Surprises	Mohan Rajan	10
3.	Post-LASIK Ectasia and Interface Infections – What Could We Have Done Differently?	rajesh joshi	10
4.	Toric IOL alignment: Lesson learnt from my experience	Ashish Sapkal	8
5.	Retinal Detachment After Intravitreal Injections: When Routine Goes Wrong	Manoj Khatri	10
6.	Ptosis Overcorrection and Lacrimal Surgery Complications: Learning from Failure	Milind Changole	10
7.	From OT to Courtroom – Navigating Medical Negligence Allegations	Viral Shah	10

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC500 - Visual Disability Certification: All you need to know

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Meeting Room U-03

Chief Instructor: Puja Hingorani - Bang

The authors have been running a disability board and a PWD certification board for 6 years. Numerous pitfalls and challenges must be considered when evaluating a case of visual disability, including visual impairment and legal blindness. From the threadbare basics to the more complicated decisions, this IC aims to provide the general ophthalmologist, the post-graduates, as well as the clueless ophthalmic medical officer, with some insights and tricks for navigating this complex topic with ease.

No.	Topic	Speaker	Min
1.	Introduction	Puja Hingorani - Bang	8
2.	Visual Acuity Criteria	Sagarika Snehi	8
3.	Visual Field Criteria	Rajesh Pattebahadur	8
4.	Calculating Disability and Function	Kanishk Singh	8
5.	Role of electrophysiology in Disability certification	Vandana Akshay Iyer	8
6.	Dealing with Challenges. Read... Malingering	Anand Deshpande	8

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC253 - Precision Approaches to Severe VKC. Taming the old foe !

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Meeting Room U-05

Chief Instructor: Bhavana Sharma

Vernal keratoconjunctivitis present a significant challenge in pediatric age group due to chronic, recurrent nature&potential for severe complications.IC offers a comprehensive, case-based approach to nuanced management of VKC, from initial diagnosis to complex sequelae,classification&staging& guiding therapeutic decisions. It includes evidence-based medical management, surgical interventions for refractory cases& vision-threatening complications, with coexistent keratoconus&limbal stem cell deficiency as long term complication, outlining diagnostic criteria & treatment paradigms, including limbal stem cell transplantation.Through interactive case based discussions, we intent to deliver practical skills in formulating individualized management, recognizing red flags,& optimizing long-term outcomes for patients with VKC. The chief instructor and co instructors are enriched with vast academic &clinical expertise in managing VKC, frequently encountered in clinical practice.

No.	Topic	Speaker	Min
1.	From Signs to Scores: Diagnosis and Severity Classification in Vernal Keratoconjunctivitis.	Mamta Singh	10
2.	Pharmacological Management of Vernal Keratoconjunctivitis: What Works and What's Next?	Radhika Tandon	10
3.	When Drops are not enough. Surgical management in Refractory VKC.	Bhavana Sharma	10
4.	Inflamed and Ectatic :The complex overlap of VKC and KC.	Sunita Chaurasia	12
5.	Managing Limbal Stem Cell Deficiency in Vernal Keratoconjunctivitis: Challenges and Strategies	Sujata Das	12
6.	Severe VKC – My Approach, My Experience: A Case-Based discussion	Gokhale Nikhil Sharad	15

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC465 - NAVIGATING YOUR WAY THROUGH CATCH 22 SITUATIONS

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Meeting Room U-06

Chief Instructor: Nitin Balakrishnan

For Somethings, There is Always a Grey Area(neither Black nor White). We Delve Into Such Borderline Controversial Topics and Ask the Experts Their Take on Them. This One of a Kind Instruction Course Covers the Hottest Topics in Refractive Cataract Surgery Today, Ranging from Implantation of Mfiol's in difficult Situations, Choosing the Right Refractive procedure in challenging cases to Different Modes of Multifocality in cases with pre morbidities. This Ic is a One Stop Solution for all Your Dilemmas Regarding Refractive Cataract Surgery.

No.	Topic	Speaker	Min
1.	Choice of IOL in a post CxL stable Keratoconus patient	Wavikar Chandrashekhhar Murlidhar	7
2.	Choice of IOL following PCR, with Trifocal Toric IOL in contralateral Eye	Sujatha Mohan	7
3.	Refractive Surgery in a 25 yr old myope with well controlled Glaucoma	Nitin Balakrishnan	7
4.	REFRACTIVE SURGERY IN 10yr OLD ANISOMETROPIC AMBLYOPIC CHILD WITH A HIGH REFRACTIVE ERROR OF -9D	Shilpa Kodkany	7
5.	Retinal Detachment 1 week post ICL surgery - Treatment Choices for Contralateral Eye	Nikhil Balakrishnan	7
6.	Ref Surgery in 25 year old -6D myope with Normal Topo with H/O Keratoconus in Sibling	Kareeshma Wadia	7
7.	Refractive Surgery in Unilateral Scleral Buckle Induced Myopia	Sandeep Nagvekar	7

Keynote Address (8') : Surgical Nightmare: Unmasking IOL complications - Prakash Chowdhury

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC542 - Mission Possible: Phacoemulsification, Femto-Laser & Zepto Assisted Phaco in Challenging Cases

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Atlantiis 1

Chief Instructor: Suresh K. Pandey

This Video-Based Course Will Highlight Phacoemulsification and Femto-Laser and Zepto-Assisted Phaco in Complex Cataracts. Surgical Techniques Will Be Presented for Managing Soft to Rock-Hard Cataracts, White, Traumatic, Subluxated Cataract, Pediatric Cataract, Pseudoexfoliation Syndrome, Zonular Dehiscence, Small Pupil, Floppy Iris, Posterior Polar Cataract, Phaco in Corneal Opacities, and Glued Iol/suture-Less Secondary IOL Fixation. Management of Difficult Cases of Cataracts by Femto-Laser and Zepto-Assisted Phacoemulsification Will Be Discussed. Attendees Will Become Familiar with Technical Nuances in Handling Complex Phaco Surgery as Well as Learn How to Manage Challenging Situations Like Small Pupil, Pediatric Cataract, Floppy Iris, Ultra-Dense Cataract, Traumatic Cataract with Torn, Fibrotic Capsule, Pseudo-Exfoliation Syndrome with Weak Zonules, Posterior Polar Cataract, Suture-Less Secondary IOL Fixation, Etc.

No.	Topic	Speaker	Min
1.	Pearls for Phacoemulsification in Small Pupil and Floppy Iris Syndrome	Suresh K. Pandey	10
2.	Surgical Pearls for Managing Complex Pediatric Cataract Cases	Jagat Ram	10
3.	Pearls for Phacoemulsification in Corneal Opacities	Namrata Sharma	10
4.	Managing Challenging Cataract Cases Using Femto-Laser Assisted Phaco Surgery	Partha Biswas	10
5.	Hydissect: Managing the Complex Posterior Polar Cataract	Rajendra Prasad	10
6.	Pearls for Phacoemulsification in Black and White Cataract Cases	Harshul Tak	10

Keynote Address (8') : Mastering Rhexis in White Intumescent Cataracts: Prevention and Management of the Argentinian Flag Sign -
Prakash Chowdhury

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC161 - Basic Course for beginners in the journey of refractive surgery!

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Atlantiis 2

Chief Instructor: Sudipta Mitra

When starting the journey as a refractive surgeon, detailed knowledge of case selection & decision making for the correct procedure is a prerequisite. Preoperative workup and its correct interpretation have to be strictly adhered for successful outcome. LASIK (Laser-Assisted In Situ Keratomileusis) has improvised over the years in precision and technology. Phakic Intraocular lenses have also emerged as a game changer in refractive surgery. This instruction course deals with detailed work up for proper case selection and overview of different refractive procedure with their advantages for helping a young surgeon choose the best for his patients amongst all the procedures available for pursual!

No.	Topic	Speaker	Min
1.	Perfect case selection in early phases of refractive surgery practice	Prafulla Kumar Maharana	10
2.	SBK LASIK , my comfort zone	John Sarkar	10
3.	Precision & Customization with Femto LASIK	Subhrangshu Sengupta	10
4.	Beyond Laser vision corrections with phakic IOL s	Sudipta Mitra	10
5.	Keynote Address : Finding more reasons for SMILES	Rupal Samir Shah	15

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC302 - Precision and Practice: Imaging and Injection in Retinal Vascular Disorders

Date : 12-03-2026 (Thursday)

Time : 09:00-10:10

Hall : Trade Room 1

Chief Instructor: Manavi Deokrishna Sindal

This instruction course offers a comprehensive overview of intravitreal injection therapy and imaging in retinal vascular diseases, focusing on diabetic macular edema (DME) and neovascular age-related macular degeneration (nAMD). It integrates diagnostic imaging and therapeutic strategies, providing practical, evidence-based insights for day-to-day clinical decision-making. The course covers interpretation of multimodal imaging, key biomarkers that guide treatment, and individualized injection protocols. Emphasis is placed on optimizing outcomes, recognizing non-responders, and managing real-world challenges. The final session details safe and effective injection techniques, including tips to minimize complications. Designed for retina specialists and general ophthalmologists, this course aims to enhance precision, safety, and efficacy in managing two of the most prevalent causes of vision loss.

No.	Topic	Speaker	Min
1.	Visualising the unseen - Decoding DME through advanced imaging	Madanagopalan V. Govindarajan	10
2.	Optimizing Vision: The Art and Science of Intravitreal Injections in DME	Manavi Deokrishna Sindal	10
3.	Framing the depths of AMD: Imaging insights	Prabu Baskaran	10
4.	The Injection Equation: Intravitreal injections in AMD	Manoj Khatri	10
5.	The Perfect Shot: Mastering Intravitreal Injection Technique	Piyush Bansal	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC401 - "Practice made Perfect! A quick guide for VR Newbies"

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Trade Room 2

Chief Instructor: Santosh Gopi Krishna Gadde

This course will discuss practical challenges faced by new vitreoretinal surgeons as they embark on their career. Both young and seasoned VR specialists are instructors and they will touch upon important aspects of starting a VR practice and sustaining it. Speakers come from varied backgrounds - stand alone VR set ups, group practices, private hospitals and tertiary care institutes. An ample discussion time will allow participants to interact and imbibe key points.

No.	Topic	Speaker	Min
1.	Setting up an independent VR practice	Ruchi Vala	10
2.	Is it important to be an all rounder?	Neha Sudhakar Peraka	10
3.	Tackling surgical hurdles at first	Santosh Gopi Krishna Gadde	10
4.	Secondary IOLs - which best for the beginner	Nagesha Chokkahalli Krishnappa	10
5.	Taking the next big surgical step	Rekha Singhal	10
6.	Making the most of new technology	Chaitra Jayadev	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Updates - Managing Cataract in eyes with primary angle closure disease spectrum

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Trade Room 3

Reena Manchanda Choudhry

Cataract often coexists with primary angle closure in Indian eyes. The course will highlight role of imaging in primary angle closure disease eyes to establish the benefits of cataract surgery. Role of YAG Laser peripheral iridotomy will be discussed. Case based scenarios will be presented of all the stages of primary angle closure disease spectrum (PACS, PAC, PACG and AAC) and when and how should cataract surgery be performed will be discussed. The challenges of cataract surgery in such eyes and how to do a safe surgery will be discussed . The aim of the course would be to help general ophthalmologists make the appropriate decision in such cases.

1. Role of imaging in planning lens extraction in primary angle closure disease spectrum - Aparna Rao - 12 Mins
2. Cataract surgery in eyes with primary angle closure suspect (PACS) and Primary angle closure (PAC) - Reena Manchanda Choudhry - 12 Mins
3. Cataract in eyes with Primary angle closure glaucoma (mild to moderate) - Meenakshi Yadav Dhar - 12 Mins
4. Cataract in eyes with Acute angle closure - Rita Hansaria - 10 Mins
5. Making cataract surgery safe in eyes with primary angle closure disease - Reena Manchanda Choudhry - 10 Mins

Total duration(include panel discussion : 19)

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - Phaco Challenges Brain Storming

Date :	12-03-2026 (Thursday)
Time :	09:00-10:10
Hall :	Trade Room 4

Hardik Shroff

At times, cases needing cataract surgery, may have many issues which need to be addressed before surgery. They may have history of Laser refractive surgery done, Glaucoma, Corneal Abnormalities, Diabetic Retinopathy, Silicone Oil Filled Eyes etc. These cases may need proper examination and counseling regarding IOL Power Calculation and Selection of IOL which may not match patients' expectation. Moreover, there may be some intra and post operative issues for which we should make patients understand as there may be slightly poor visual recovery, longer post op. recovery period etc.

In this course, apart from Phaco experts, there will be panel of Glaucomologist, Corneal Surgeon, Vitreo-Retinal Surgeon also. Moreover, the entire course will be in panel discussion format (20 Questions rather than just lectures). So that attendees also can interact at any point.

1. Introduction - Hardik Shroff
2. Phaco Surgeon - Harbansh Lal
3. Phaco Surgeon - Rajiv Choudhary
4. Corneal Surgeon - Quresh B. Maskati
5. Vitreo-Retinal Surgeon - Vatsal Shyamlal Parikh
6. Glaucomologist - Manish Shantilal Shah
7. Phaco Surgeon - Shroff Ashok Pranjivandas

The 84th Annual Conference of All India Ophthalmological Society

AIOC Theatre - E-Poster (Cataract + Cornea + External Eye & Ocular Surface Disease)

Date :	12-03-2026 (Thursday)
Time :	09:00-10:15
Hall :	AIOC Theatre - 1

Panelist : Abhishek Onkar, Raashid Wani, Santosh Kamble

1. [FP12] - Seasonal Variation of Microsporidial Keratitis in Eastern Uttar Pradesh: Retrospective Observational Study

Chief & Presenting author : Akanksha Dass (A30685), Smriti Gaur, Anshupa Patnaik

2. [FP91] - VISUAL OUTCOME IN PATIENTS UNDERGOING MANUAL SMALL INCISION CATARACT SURGERY AT DISTRICT HOSPITAL

Presenting author : Vishal Jagtap (J28157), Chief author : Mahesh Bajantri, priyadarshini, Damayanti Suranagi

3. [FP99] - From Challenges to Mastery: 12 Years of Phacoemulsification in Small Pupils

Chief & Presenting author : Raashid Wani (W16640), Ishfaq Ahmad Sofi

4. [FP177] - IMPACT OF VISUAL REHABILITATION ON QUALITY OF LIFE IN PATIENTS AFTER CATARACT SURGERY

Chief & Presenting author : Santosh Kamble (K17136)

5. [FP277] - Ten-Year Real-World Outcomes using 3 real world strategies in Acute Post-Cataract Endophthalmitis

Chief & Presenting author : Tejal Rao (T30852), Rabia NAAZ, Harsh JAIN, Kelkar Aditya Shreekanth

6. [FP689] - Wings of Fumes: Pterygium in Wood and Coal users- a Case Series

Chief & Presenting author : Abhishek Onkar (O15373)

7. [FP706] - Shifting to tele-consultation as a substitute of routine 1st week follow up post M-SICS surgery

Chief & Presenting author : Swarnima Basu (B19097), Sagar Basu

8. [FP748] - Role of Limbal Stem Cell Transplantation in Ocular Chemical Injury Sequelae

Chief & Presenting author : Irshad Khan (K30399), Vishal Kumar

9. [FP850] - Intraocular lens opacification : A case series

Chief & Presenting author : Aditi Sen (A30453), Arvind Ram, Avirupa Kansha Banik

10. [FP979] - Adjunctive Use of Amniotic Membrane Graft after Primary Pterygium Excision: Safety and Recurrence

Presenting author : Prashant (A28270), Chief author : Suryaprakash A.V., Asfa Khaleel

11. [FP1169] - CHONDROID SYRINGOMA: A rare case report

Chief & Presenting author : Bibekananda Sahu (S30834), Gayatri Devi Palo, Sabita Devi, Dash Suchitra

12. [FP1182] - Evaluation of tear film and ocular surface changes in patients with thyroid disorders

Chief & Presenting author : Bhavana Tottireddy , P.A.S. Chalapati Reddy

IC533 - Planning cataract surgery in a patient with retinal pathology? – The must know points

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Ballroom

Chief Instructor: Shrinivas M. Joshi

Current cataract surgeries are an epitome of sophistication and are considered at par with refractive surgeries. Planning in difficult cases or facing complications can be challenging, many a times requiring intervention from vitreoretinal surgeons. This IC will try and help cataract surgeons to be better prepared for such scenarios from the planning stage till the best possible outcome stage.

No.	Topic	Speaker	Min
1.	Planning a Premium IOL in Patient with Macular Pathology: Should You Do It?	Shrinivas M. Joshi	8
2.	Diabetic retinopathy and cataract: Timing is the key	Kelkar Aditya Shreekant	8
3.	Post cataract surgery cystoid macular edema : What, Why and How to manage	Vishal Agrawal	8
4.	Day 2 post cataract surgery, 1 mm hypopyon seen: Is it TASS or Endophthalmitis- how to manage?	Apoorva A.G.	8
5.	Secondary IOL options: What do VR people do?	Giriraj Vibhute	8
6.	Anterior vitrectomy: When, how and how much?	A.S. Guruprasad	8
7.	Pigmentations on IOL: Why, How to avoid & What to do?	K V Satyamurthy	8

Panel Discussion : 19 mins

The 84th Annual Conference of All India Ophthalmological Society

Redefining Refractive Freedom with Phakic IOLs

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room L-01

Chairperson : Kashinath Ganpatrao

1. Enhanced Refractive Outcomes with Next Gen SST OCT - Samaresh Srivastava
2. IPCL - One step solution for all refractive errors - Aditya Desai
3. IPCL: One Step for all Refractive Solution - Shreyas Ramamurthy
4. IPCL Toric outcome and rotational stability - Partha Biswas
5. My 1st 10 IPCL Presbyopic outcome - Rahul Shukla

IC115 - "Mastering Challenging Cataracts: Practical Pearls for Safer, Smarter Phacoemulsification"

Date : 12-03-2026 (Thursday)

Time : 10:15-11:25

Hall : Meeting Room L-01A

Chief Instructor: Suhas Haldipurkar

This instruction course focuses on elevating cataract surgical skills beyond the basics. Through a case-based, technique-focused approach, we highlight intermediate phacoemulsification strategies that enhance safety and efficiency. Key topics include managing hard cataracts, dealing with small pupils and crowded anterior segments, handling zonular instability with support devices, and navigating intraoperative surprises where small details make big differences. The session will offer practical tips, device selection guidance, and real-world scenarios to help surgeons refine their approach and improve outcomes in complex cataract cases.

No.	Topic	Speaker	Min
2.	"Beyond the Basics: Intermediate Phacoemulsification Skills for Efficiency and Safety	Sandeep Nagvekar	10
2.	Phaco surgery- small things make big difference	Vinod Mehta	10
3.	".Handling Hard Cataracts: Techniques for Dense, Mature, and Brunescant Lenses"	Anagha Heroor	10
4.	.Managing Small Pupils and Complex Anterior Segments in Cataract Surgery	Tanvi Haldipurkar	10
5.	"Zonular Weakness Demystified: Surgical Approaches and Support Devices"	Suhas Haldipurkar	10

Keynote Address (8') : Tackling difficult cataract cases: Strategies for success. - Tetsuro Oshika

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC89 - The ABC of Ocular Trauma

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room L-04

Chief Instructor: (Brig) K. Shyamsundar

Ocular trauma may present as an emergency and can involve any part of the eye or adnexa, needing thorough evaluation and management. Morbidity can be devastating if appropriate and timely intervention is not done. It is also important to be aware of updated classifications. Treatment protocols have to be strictly adhered to, for maximizing results. Recent surgical techniques have contributed in no small measure to improving outcomes. An in-depth knowledge of ongoing trends and referral to relevant subspecialties is mandatory. This course will deal with varied manifestations of ocular trauma as well as pearls and pitfalls that help determine the end result and enhance clientele satisfaction. General ophthalmologists will benefit from experts elaborating on various aspects of ocular trauma, pertinent investigations as well as evidence based management and video based learning where necessary. Panel discussion will address best practices in vogue.

No.	Topic	Speaker	Min
1.	Classification and Overview of Ocular Trauma	(Brig) K. Shyamsundar	8
2.	Corneal Trauma : Maximizing results	Maj Gen J.K.S. Parihar	12
3.	Traumatic Cataracts: When and how to intervene	Bhupesh Bhatkoti	10
4.	Glaucoma Secondary to Trauma – A long journey	Vineet Ratra	10
5.	Posterior segment trauma - Myriad manifestations	Dhanashree Ratra	10
6.	Orbital and Adnexal Injuries	Vinod Kumar Baranwal	10
7.	Preventive and Medicolegal Aspects	Sandeep Gupta	10

Panel Discussion : 5 mins

IC171 - All about Intravitreal Injections

Date : 12-03-2026 (Thursday)

Time : 10:15-11:25

Hall : Meeting Room L-05

Chief Instructor: Mukesh Porwal

Intravitreal Injections form a big part of any Retina practice. The aim of this course is to run through the different categories of intravitreal injections with representative examples of each. Along with specific indications. The course will also discuss the Indian preferred practice patterns on this subject.

No.	Topic	Speaker	Min
1.	Introduction of the topic and the faculty	Mukesh Porwal	5
2.	Innovator molecules	Himanshu Shukla	10
3.	The Biosimilars	Umesh Bhammarkar	10
4.	Multimodal agents	Raunaq Poonia	10
5.	Antibiotics	Ravi Dharamdasani	10
6.	Steroids	Mukesh Porwal	10
7.	Antimetabolites	Reha Vijay	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC295 - Secondary Glaucomas- Unraveling Complexities with Strategies for Challenging Cases

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room L-06 & 07

Chief Instructor: Mona Khurana

Secondary glaucomas are often challenging to diagnose and manage. Since multiple ocular and systemic pathologies may co exist, a multidisciplinary approach is often needed. This course will equip participants with the knowledge and skills necessary to accurately diagnose, effectively manage, and prevent vision loss associated with these challenging conditions through engaging talks, case based discussions, and practical insights. The speakers are well experienced in managing these complex glaucomas. The course will cover a wide spectrum of secondary glaucomas, and have interactive case based discussions with audience participation. We aim to provide the audience optimum insights into the nuances of management of these complex cases.

No.	Topic	Speaker	Min
1.	Beyond the Flare: Managing Uveitic Glaucoma	Rathini David	9
2.	Demystifying Aqueous Misdirection	Shantha Balekudaru	9
3.	The Silent Thief's New Guise: Neovascular Glaucoma and Post VR Surgery Glaucoma	Mona Khurana	9
4.	Glaucoma: The Retinal Surgeon's Angle	Pradeep Susvar	7
5.	Pressure After the Perfect Vision: Managing Glaucoma Post-Corneal and Refractive Surgery	Shweta Tripathi	9
6.	The Hidden Connection: Orbital Disease, Episcleral Venous Pressure, and Glaucoma	Sripriya Krishnamoorthy	9
7.	Glaucoma in Orbital Disease: Beyond IOP, the Orbital Surgeons's Perspective	Sonam Nisar	7

Panel Discussion : 16 mins

IC14 - Busting the small pupil phobia

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room U-01

Chief Instructor: Manish Wankhade

Small pupil is a big challenge for every cataract surgeon, while planning the surgery in view of gaining refractive outcomes. This Course will guide, refresh and improve the various techniques, tips and tricks while managing small pupils in cataract surgery. Surgical video based demonstration of managing the small pupil cataract surgery, without using any pupil expansion devices, managing small pupil with the various available devices right from rings to hooks. Managing the small pupil in special cases of floppy iris and post uveitis synechiae. A complete and comprehensive approach for managing complicated pupil in every practical situation of day to day cataract cases.

No.	Topic	Speaker	Min
1.	Need to know about small pupil	Subodh Purohit	12
2.	Small Pupil Management with various available pupil expansion devices	Shon Vasantrao Chinchole	15
3.	How to safely manage the small pupil without the use of any pupil expansion devices	Rahul Bahekar	12
4.	Managing Post Uveitis small pupil and synechiae , with the promise for premium IOL	Manish Wankhade	12
5.	Managing the Floppy iris is Easy	Ankur Suresh Sancheti	12

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

Subs-Speciality Day Pediatrics Session - I (Strabismus)

Date :	12-03-2026 (Thursday)
Time :	10:15-11:15
Hall :	Meeting Room U-01 A

Chairs - PK Pandey, Jyoti Matalia, Sumita Agarkar

Moderator- Jitendra Jethani

Co-moderator- Akhila Ramkumar

Each talk 8 mins, questions 2 mins

1. Timing of surgery in Intermittent Exotropias – sooner the better vs later the better - Akila Ramkumar vs Sumitha Muthu
2. Infantile esotropia management in 2026 - Suma Ganesh
3. Management of Dissociated vertical deviations - Rishikesh Mayee
4. Inferior oblique surgery - Arun Samprathi
5. Iatrogenic strabismus - case based approach - Manju Bhate
6. Tips to prevent complications when teaching Strabismus surgery - Maria Navarro

The 84th Annual Conference of All India Ophthalmological Society

IC336 - Six Steps in Critical Domains which will help Ophthalmologists Safeguard their Patient and Practice

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room U-02

Chief Instructor: Samina F Zamindar

This instruction course offers a simplified six-step framework to help ophthalmologists. It will address key areas including infection control, medication safety, adverse events prevention, medicolegal awareness, and risk management.

As eyecare professionals, our first duty is to “do no harm” to our patients. This course is tailor-made for every practising ophthalmologist, with a goal of helping them to enjoy a good night’s sleep.

It takes an innovative, hands-on, practical approach. Participants will have a pretest and a posttest to help reinforce key concepts in a better way. Each attendee will also receive a document consisting of the salient features of the course referencing current best-practice guidelines. Instructors for the course are senior ophthalmologists who are subject matter experts working in the field of safe eye care practices, and they will deliver insights in a simple and crisp manner to help you safeguard your practice.

No.	Topic	Speaker	Min
1.	6 Key Strategies to Prevent the Most Common Adverse Events in Eye Hospitals	Samina F Zamindar	10
2.	6 Non-Negotiable Protocols to Eliminate Infections in Your Eye Hospital	Uday Gajiwala	10
3.	6 Proven Protocols to Prepare Your Team for Medical Emergencies	Sriram Ramalingam	10
4.	6 Critical Areas to Strengthen Communication in Your Hospital	Nazia	10
5.	6 Essential Steps to Keep Your Practice Medicolegally Protected	Nirmal Fredrick T.	10
6.	6 Crucial Monitoring Areas to Keep Your Patients Safe	Chandrasekhar D	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC266 - Strategies for Diagnosing Glaucoma in a "Resource-Limited" Clinical Establishment

Date : 12-03-2026 (Thursday)

Time : 10:15-11:25

Hall : Meeting Room U-03

Chief Instructor: Supriya Singh

Glaucoma is a leading cause of irreversible blindness and many individuals in resource-challenged peripheral centres lack access to the standard diagnostic tests and equipment needed for its timely detection and management. Without access to tonometry or perimetry, clinicians must rely on a comprehensive eye examination and at times, this may lead to misdiagnosis / underestimation of the disease. The aim of this course is to equip participants with a systematic approach to glaucoma diagnosis through proper history, comprehensive eye examination and ONH assessment. Utilization of portable, low-cost technologies such as smartphone-based retinal imaging and artificial intelligence-assisted optic nerve head analysis will also be discussed.

No.	Topic	Speaker	Min
1.	Introduction	Supriya Singh	2
2.	History and Slit Lamp Examination: What to look for?	A. Parivadhini	12
3.	Angle assessment and IOP: Tonometry and Alternatives	Arijit Mitra	12
4.	Optic Nerve Head Evaluation	Alokesh Ganguly	12
5.	Plan of Treatment: When to "Initiate" & When to "Refer"	Shantha Balekudaru	12
6.	Innovative Solutions: Role of Telemedicine and Smart phone based Retinal Imaging	Supriya Singh	12

Panel Discussion : 13 mins

The 84th Annual Conference of All India Ophthalmological Society

IC147 - Nuts and Bolts of successful private practice

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Meeting Room U-05

Chief Instructor: Kamal Bandhu Kapur

In our medical curriculum, we are taught to become great clinicians full stop. But nothing about the journey to start a private practice, which is almost imperative to most of the graduates. The challenges of this do not end with post-graduation but rise much after it. The process of setting up a practice, increasing demands of standards of patient care, unhappy patients, litigations, and the growing mandate for accreditation from agencies cannot be dismissed. In this digital age, when healthcare has been accepted as a service, merely being a good clinician is insufficient. However, building a team and medico-legal precautions, digital outreach to increase footfalls, and ways to improve patient satisfaction, in addition to good OPD patient handling skills, can take a small business to the next level. As a group that has seen these difficulties and has managed to rise from the ashes to multiple centers across India, we want to share our experiences on the issues that matter in real

No.	Topic	Speaker	Min
1.	Solo, Group, corporate or institutional practice pros and cons	Karthikeya R	10
2.	How to build a team and retain them ?	Sonu Goel	10
3.	Efficient patient management in clinic, enhancing patient delight	Rahul Bhatia	10
4.	Enhancing patient delight and to build patient referrals	Anjani Khanna	10
5.	"Amplifying your Presence " riding the social media	Vineet Sehgal	10
6.	How to wow your unhappy patients?	Kamal Bandhu Kapur	13
7.	Medico-legal aspects planning and Documentation	Pooja A Angadi	10

IC219 - KNOW IT FROM EXPERTS.....

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Atlantiis 1

Chief Instructor: Mayuri B. Khamar

The treatment of glaucoma, relies on timely diagnosis and monitoring. As technologies/therapies continue to evolve clinical practice must individualized treatment, integrating diagnostic, therapeutic, and prognostic considerations to maximize visual function preservation / quality of life. This IC will discuss the latest advances in diagnostics focusing on technologies for early detection/progression monitoring, and personalized treatment strategies. Currently, artificial intelligence-based tools are being explored to enhance glaucoma detection, monitoring, prediction of treatment response The course will cover topics including advanced imaging techniques like optical coherence tomography (OCT) with AI integration, novel visual field testing, and role of AI in glaucoma diagnosis and management. Participants will gain insights into the practical application of these tools and learn how to integrate them into their clinical practice for improved patient care.

IC249 - Pathological Myopia: The less known Secrets and Enigmas

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Trade Room 1

Chief Instructor: Parveen SEN

“Pathological Myopia: The Less Known Secrets and Enigmas” is an advanced IC designed to enhance the understanding of one of the most challenging conditions in ophthalmology. While the structural complications of high myopia—such as staphyloma and myopic maculopathy, are well-documented, several subtle and emerging aspects remain underrecognized. This course explores the overlooked associations of myopia like ROP and IRD as well as shows innovative management strategies of the complicated issues like myopic tractional retinopathy as well as staphyloma associated rhegmatogenous retinal detachment. Through a combination of clinical case reviews, as well as video presentation of challenging surgeries, and interactive discussions, participants will uncover personalized treatment strategies in this rapidly evolving field. The course is tailored for retina specialists, general ophthalmologists, and clinical researchers aiming to stay ahead of the curve in understanding pathological myopia.

No.	Topic	Speaker	Min
1.	Ultra wide field and multimodal Imaging in pathological Myopia	Sunil Ganekal	8
2.	Dome Shaped maculopathy, Focal Choroidal excavation& pachychoroid association in High Myopia	Daraius Shroff	8
3.	How to recognize ROP induced myopia in adults	Parveen SEN	8
4.	Don't miss inherited Retinal dystrophy associated with Myopia	Ranjana Mathur	8
5.	Management of tractional myopic maculopathy	R. Unnikrishnan Nair	8
6.	Innovative strategies to manage staphyloma associated rhegmatogenous retinal detachment.	Sangeet Mittal	8
7.	Update and management of myopic CNV	Sachin Mahuli	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

MOS - AIOS Debate Session

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Trade Room 2

Total Duration: 75 minutes

Format: 4 min per speaker + 4 min discussion

Each Debate: 12 mins

Chairpersons: Piyush Bansal, Parikshit Gogate, Jignesh Taswala, Santosh Bhide, Atul Kadhane, Viral Shah, Rajesh Joshi, Ajay Lohiya

Topic Title Debate Theme Debate Name Speakers (2) Duration

1. EDOF vs Multifocal IOLs - Premium IOLs – Depth vs Diversity - The Power of Focus - Anagha Heroor/ Gopal Arora - 10 mins
2. Anterior Approach vs Posterior Approach - The Ptosis surgery Dilemma - The Oculoplasty Divide - Adit Gupta / Akshay Nair - 10 mins
3. KLEX vs LASIK Refractive Edge – Old vs New - Battle of the Beams - Jeevan Ladi / Sangeeta Wagh - 10 mins
4. Trabeculectomy vs MIGS - Glaucoma Surgery Evolution - Pressure Point: Old Guard vs New Wave - Priti Kamdar/ Pooja Bhomaj - 10 mins
5. SB vs MIVS - Retinal Reattachment Techniques - The Big Fix Showdown - Prashant Agnihotri / Saumil Sheth - 10 mins
6. Atropine vs Myopia Control Glasses - Pediatric Myopia Management - The Future in Focus - Prasad Walimbe – Quresh Maskati - 10 mins

Discussion - 10 Mins

The 84th Annual Conference of All India Ophthalmological Society

IC482 - "Confluence of LASIK machines: steering Challenges and Growth"

Date :	12-03-2026 (Thursday)
Time :	10:15-11:25
Hall :	Trade Room 3

Chief Instructor: Praveen Subudhi

LASIK is the most commonly performed refractive procedure. However, the selection of appropriate LASIK equipment presents a considerable challenge for surgeons, given the numerous technologies available on the market. Each machine offers unique features and performance capabilities, making comprehensive knowledge of each essential for optimal patient outcomes. Moreover, the operational logistics associated with these machines cannot be overlooked. Surgical centers must consider factors such as maintenance, ease of use, and patient throughput when integrating new technologies. By evaluating the advantages and disadvantages of each LASIK machine, surgeons can navigate the complexities of equipment selection, ensuring that their choice aligns with both clinical objectives and the needs of their patients, thereby optimizing the overall quality of care.

No.	Topic	Speaker	Min
1.	An Overview of Laser Vision Correction Procedures	Praveen Subudhi	5
2.	Cost and Logistics Preparation for New Machine installation	Shishir Verghese	12
3.	Alcon Contoura LASIK: a revelation in the field of LASER vision correction	Praveen Subudhi	12
4.	TENEO 317 Model 2 M2 excimer system: A technology par excellence	Nikhil Gandhi	12
5.	Zeiss MEL 90 : Embodiment of creativity	Shishir Verghese	12
6.	My satisfactory experience with Allegretto Q LASIK	Sean Socrates Dsilva	12

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC227 - Mastering unusual scenarios of IOL implantation & explantation

Date : 12-03-2026 (Thursday)

Time : 10:15-11:25

Hall : Trade Room 4

Chief Instructor: Soumya Ganesh Nanaiah

This instruction course explores advanced techniques and decision-making in the management of complex intraocular lens (IOL) scenarios. Beginning with nuances of hydro implantation, the course delves into surgical strategies for repositioning or replacing malpositioned and flipped IOLs & implantable collamer lenses (ICLs). It further addresses fixation techniques for IOLs in complex eyes, including those with weak zonules or capsular compromise. Attendees will also gain insights into cutting-edge IOL cutting and explantation devices, as well as the rare but significant “Dead Bag Syndrome.” Rich with surgical pearls, case videos, and real-world problem-solving, this course is designed for anterior segment surgeons aiming to expand their skills in managing challenging IOL situations.

No.	Topic	Speaker	Min
1.	Nuances of Hydro Implantation & management of flipped IOLs	Soumya Ganesh Nanaiah	10
2.	Surgical strategies for malpositioned & flipped ICLs	Mathew Kurian	10
3.	Dislocated in the Bag IOLs – when to refixate & when to remove	Sudeep Das	10
4.	IOL explantation & fixation in Complex situations	Sri Ganesh	10
5.	Innovations in IOL Cutting & removal devices	Neha DHOLAKIA	10
6.	Dead Bag syndrome	Samaresh Srivastava	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

AIOC Theatre - E-Poster (Glaucoma + Comprehensive Ophthalmology + Optics / Refraction / Contact Lens)

Date :	12-03-2026 (Thursday)
Time :	10:15-11:30
Hall :	AIOC Theatre - 1

Panelist : Shabari Pal, Divya Gupta, Manpreet Kour

1. [FP115] - From Non resolving Conjunctivitis to infective Posterior Scleritis and Choroiditis with granuloma.

Chief & Presenting author : Nisarg Shah (S28054), Vivek Chaitanya, Rajesh Prabu V

2. [FP348] - To evaluate bevacizumab efficacy in pterygium before surgical excision with bare sclera technique

Chief & Presenting author : Manpreet Kour (M25357)

3. [FP546] - Evaluating Refractive Errors in Children with Strabismus: Insights from a Tertiary Care Hospital.

Chief & Presenting author : Sukhnoor Kaur (S30470), Tarun Soni

4. [FP727] - Comparing NCT, RBT & GAT Across IOP Ranges and Age Groups in a Tertiary Care Centre in Central India

Chief & Presenting author : Meghana Kandi (M27497), Puja Hingorani - Bang

5. [FP757] - COMPARISON OF PRE AND POST-OPERATIVE ANT. AND POST. CORNEAL ASTIGMATISM ANALYSIS IN PHACO SURGERY"

Chief & Presenting author : Anubhav Yadav , Aparajita Chaudhary

6. [FP829] - YAG Laser Cystotomy in Recurrent Iris Cyst Obstructing Vision: A Conservative Strategy

Chief & Presenting author : Soumya Sucharita PANDA (S26862)

7. [FP910] - Efficacy of Selective Laser Trabeculoplasty in reducing intraocular pressure in POAG and OHT patient

Chief & Presenting author : Neha Dhayal (N30736), Dushyant Kumar Sharma, Rita Hansaria

8. [FP964] - D-Lightful Vision: Is Vitamin D the Missing Lens in Myopia?

Chief & Presenting author : Shrinal Priyadarshi (P29426), Asif Shahnawaz

9. [FP1006] - Combined endocyclophotocoagulation and phacoemulsification in the treatment of aniridic glaucoma

Chief & Presenting author : Shabari Pal (P16913), Alpana Lele, Goel Upsham

10. [FP1219] - Retinal Pigment Epithelial Detachment Following Travoprost Therapy: A Case Series

Chief & Presenting author : Meghana Narapareddy (M29634), Mohamed Anjum Iqbal

11. [FP1410] - A Marked Face, A Silent Threat: Case of Sturge-Weber Syndrome

Presenting author : Prerna Ahuja (P28514) ,Chief author : Rajesh Nayak, Teena Mariet Mendonca, Ajay R. Kamath, Gurudutt Mulky Kamath

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

12. [FP1457] - WAARDENBURG SYNDROME: A RARE SHADE OF GREY

Presenting author : Chitra N (C30989) ,Chief author : *Yavana Rani J*, Timy Francis Chandy

13. [FP1476] - Efficacy of phacoBANG compared with standalone phaco in PACG patients with cataract

Chief & Presenting author : Shireen Gupta , Arshi Singh, Kriti Nausaran, Kirti Singh

14. [FP1540] - RNFL AND IOP CHANGES AFTER TOPICAL CORTICOSTEROID USE IN VERNAL KERATOCONJUNCTIVITIS

Chief & Presenting author : Divya Gupta (D22516), Ritu Singh

15. [FP1644] - A Comparative Evaluation Of "Phaco-Goniotomy" VS "Trab" In Young Onset PACG (YO-PACG) Patients

Chief & Presenting author : PRANNYA ARORA , Shikha Gupta, Anand Kumar PATHAK, Prof. Viney Gupta

16. [FP1774] - Efficacy of 0.01% Atropine in Myopic Children: A Prospective Interventional Study

Chief & Presenting author : Jyothsna Duvvada (J30860), Venkata Sujatha Ratna Bhagavtula, RAJA RAJESWARI, MANASA

17. [FP1921] - Refractive Predictability in Cataract Surgery: A Comparative Study of Optical and Immersion Biometry

Chief & Presenting author : Harlalka Rashk (H30866), Venkata Sujatha Ratna Bhagavtula, MANASA, Raja Rajeswari Malladi

18. [FP2151] - Detecting Occludable Angles in Refractive Errors in Eastern Bihar: Are Hypermetropes at Higher Risk?

Chief & Presenting author : Sharayu Kathar (S29852), Ishita Moudgil

19. [FP2165] - Comparison of AI based disc photography with clinical assessment of optic disc cupping.

Chief & Presenting author : Rahul (R30947), Priya Saraf, Kirti Singh, Annu Joon

20. [FP2196] - Analysis of RNFL Thickness, GCC, and IOP in Patients with Obstructive Sleep Apnea

Chief & Presenting author : Harini Tiruvengada Krishnan (T29950), Ravi Vaishnavi

21. [FP2247] - Ophthalmic Complications In Children With Nephrotic Syndrome On Corticosteroid Therapy

Chief & Presenting author : Tannabi Deka (T28136), Shubhra Das

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Optics / Refraction / Contact Lens

Date :	12-03-2026 (Thursday)
Time :	10:40-12:00
Hall :	Meeting Room L-03

Chairperson : SUBHANKAR HOME

Co-Chairperson : D.D. Verma, Sarda Rahul

Convenor : Kavita Bansal

Moderator : Md Afroz Alam, Karishma Goyal

1. [FP446] - The IOL and the Pupil. Are they Relatives? Or just neighbours?

Chief & Presenting author : Puja Hingorani - Bang (P12274), Samarpita Dhar, Anusua Kar, Lavina Paryani

2. [FP509] - Efficacy of manual versus software-based vision therapy in accommodative insufficiency.

Chief & Presenting author : Shrutakirty Parida (S20252), Soumya Kanta Mohanty, Snehalata Dash, Das Matuli

3. [FP955] - Efficacy of five types of myopia control glasses among Indian children

Chief & Presenting author : Sneha Batra (B17213), SHYAMAL SAHA, Swarup Kumar Roy, Bandyopadhyay Supratik

4. [FP1239] - Multimodal AS-OCT imaging for management of mature cataracts with differing intralenticular changes

Chief & Presenting author : Sanket Bhatnagar (B16754), Dishitha Rathod, Prashanth Ranganath

5. [FP1460] - COMPARATIVE ANALYSIS OF MYOPIC TRENDS IN TYPE 1 DIABETIC AND NON DIABETIC CHILDREN

Chief & Presenting author : Sangeetha. T (S19904)

6. [FP1718] - More than a Lenticular Deformity: Exploring Corneal Curvature in Posterior Lenticonus

Chief & Presenting author : Nikita Yadav (N25136)

7. [FP2092] - Evaluation of non-strabismic binocular vision functions in pediatric age group of Malnad region

Presenting author : Shrini Jogalekar (S28665), Chief author : Kavitha V., Poorva Dige, Mallikarjun M. Heralgi, Kavitha V.

8. [FP2195] - Changes in accommodation before and after SMILE for moderate to high myopia correction.

Chief & Presenting author : Himani Chatterjee (H24905), Partha Biswas, Mrunal Neve, Preeyam Biswas

9. [FP2256] - To assess pre and post operative accommodative vergence status in patients undergoing SMILE.

Presenting author : Preeyam Biswas (P19766), Chief author : Himani Chatterjee, Mrunal Neve

10. [FP2317] - Evaluation of vergence changes before and after SMILE: A comparative study

Chief & Presenting author : Mrunal Neve (M30614), Himani Chatterjee, Preeyam Biswas

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Vitreo Retinal Diseases - III + Semi Finals

Date :	12-03-2026 (Thursday)
Time :	10:45-12:05
Hall :	Meeting Room L-02

Co-Chairperson : Saravanan VR

Convenor : Sharad Shegaonkar

1. [FP1618] - Retinochoroidal Manifestations in Patients with IIH using Multimodal Imaging Techniques

Chief & Presenting author : Sreelakshmi P (P18860), George J. Manayath

2. [FP1833] - Peripheral Clues: Evaluating Fundus in Hematological Disorders Using Ultra-Widefield Retinal Imaging

Chief & Presenting author : Samendra Karkhur (K16065), Saroj Gupta, Vidhya Verma, Priti Singh

3. [FP1913] - Evaluation of effects of intravitreal anti-VEGF agents on renal function tests

Chief & Presenting author : Arjun Bamel (B18552), Rajalakshmi R, Manisha Agarwal, Sachit Mahajan

4. [FP2021] - From ovulation to ocular complication - A rare case of Letrozole maculopathy

Chief & Presenting author : Sarab Chhabra (C28943), Rubie Malhotra, Ziaul Haq Yasir

5. [FP2134] - Correlation between 360° photoreceptor grading and functional outcome in idiopathic macular holes

Chief & Presenting author : Deependra Vikram Singh (S09689), Abhimanyu Sharma, Raja Rami Reddy P., Tejasvini Chandra

6. [FP2162] - Etiology and Prognosis of Choroidal Folds: A Tertiary Eye Care Center Analysis

Chief & Presenting author : Sanjana Ahuja (S30112), S. Bala Murugan, Girish Velis

7. [FP2208] - Subretinal application of Thermal laser to treat Choroidal hemangioma

Chief & Presenting author : Pradeep Kumar (K12927), Vipin Rana, Ashutosh Kumar Gupta, Sanjay Kumar Mishra

8. [FP2250] - Barriers to Diabetic Retinopathy Screening in Rural Populations: A Questionnaire-Based Study

Chief & Presenting author : Mallikarjuna C (C28653), Nishad Nowsheen, Farkunda Tahareem S, Rashmi P Patil

9. [FP2309] - Blue light vs Autofluorescence: Which Finds MacTel Better?

Chief & Presenting author : Vijayalakshmi A (V30263), Janani Sreenivasan

10. [FP2341] - Microbial Spectrum and Emerging Antibiotic Sensitivity Patterns in Explanted Scleral Buckle elements

Chief & Presenting author : Muthu Krishnan Vallinayagam (V12212), Keya Chakrabarti, K. Naresh Babu, Kulsum Sayyad

Guest Talk : Managing dislocated IOL and dropped nucleus - Anil Solanki

The 84th Annual Conference of All India Ophthalmological Society

Uvea subspecialty day Session -II - MASQUERADES AND NON-INFECTIOUS INFLAMMATIONS

Date :	12-03-2026 (Thursday)
Time :	10:50-12:15
Hall :	Atlantiis 3

Chairs – Elisabetta Miserocchi, Rathinam Sivakumar, Dipankar Das, Mallika Goyal

Moderator- Sayali Karande

Co-moderator- Kopal Mittal

CASE (5 mins presentation, 2 mins discussion)

1. The Double Masquerade- Atypical Drusens with Posterior vitreous detachment - Pooja Bansal
2. Retino-choroid biopsy: a game changer - Pawan Puneet Malhotra
3. Intraocular Tumors Masquerading as Uveitis - Kushal Agarwal
4. Intermediate Uveitis or Primary Intra-Ocular Lymphoma? - Amruta More

CASES CONTINUED: NON-INFECTIOUS INFLAMMATIONS (5 MINS PRESENTATION, 2 MINS DISCUSSION)

5. Post- Ant-VEGF inflammation and vasculopathy - Mallika Goyal
6. The Eyes see it before the SKIN feels it (SLE) - Reema Bansal
7. Vasculitis with RD - Hitashree Rajanna
8. Posterior scleritis or something else? - Mudit Tyagi
9. Retinitis in Autoimmune Polyendocrinopathy Syndrome Type 1 - Smitha Abraham
10. KEY NOTE(8 mins) - Uveitis and genetic diseases: when the boundaries are not clear - Elisabetta Miserocchi

The 84th Annual Conference of All India Ophthalmological Society

Subs-Speciality Day Pediatrics Session - II (Pediatric potpourri)

Date :	12-03-2026 (Thursday)
Time :	11:15-12:15
Hall :	Meeting Room U-01 A

Chairs - Manju Bhate, Suma Ganesh , Jaspreet Sukhija

Moderator- Shailja Tibrewal

Co-moderator- Alok Shah

Each talk 7 mins, questions 1 min

1. Ectopia Lentis update - Sumita Agarkar
2. Managing special situations in Pediatric cataract - Jaspreet Sukhija
3. Pediatric Corneal diseases: classification - Ken Nishchal
4. Inherited retinal diseases update - Deepika CP
5. Myopia management in 2026 - Rohit Saxena
6. Amblyopia therapy- What's new - Kavita Porwal
7. TBA - Minakshi Jain

The 84th Annual Conference of All India Ophthalmological Society

Section 2: COMMON OCULOPLASTY SURGERIES- VAST SESSION

Date :	12-03-2026 (Thursday)
Time :	11:15-12:15
Hall :	Atlantiis 2

Chairman: Anitha Sethi

Co-Chairman: Mukesh Sharma

Moderator: Rwituja Thomas Grover

1. Approach to a patient with Epiphora - Alexandria Levitt - 10 Mins
2. Pediatric Lacrimal Drainage Disorder - Richa Dharap - 8 Mins
3. Eyelid Malpositions - Anita Sethi - 8 Mins
4. Eyelid reconstruction – Flaps and Grafts - Joyeeta Das - 8 Mins
5. Dacryocystorhinostomy- External Vs Endoscopic - Ruchi Goel - 8 Mins
6. Ptosis- precision and function - Mukesh Sharma - 8 Mins
7. Orbit- Surgical Insights - Raman Mittal - 8 Mins

Q &A Panel Discussion by Rwituja- 10 minutes

IC241 - It has gone viral!!

Date : 12-03-2026 (Thursday)

Time : 11:30-12:40

Hall : Meeting Room L-01

Chief Instructor: Uma Sridhar

Viral infections of the anterior segment of the eye can cause significant morbidity and loss of vision. Adenoviral keratoconjunctivitis, Herpes simplex viral keratitis spectrum, Varicella zoster, cytomegalovirus are the major players. Others such as Epstein Barr, measles, picorna virus and HIV infections may also wreck havoc. This IC aims to give detailed synopsis of the viral infections mainly of the anterior segment, their clinical manifestations, latest in diagnostic modalities and management strategies. Role of imaging in diagnosis and management of viral keratitis will also be discussed. Conditions masquerading as viral keratitis will be discussed. Case based discussions will be the mainstay of the course.

No.	Topic	Speaker	Min
1.	Adenoviral keratoconjunctivitis	Paras Mehta	12
2.	Herpes simplex virus infection of the anterior segment	Sumana Chatterjee	12
3.	Varicella zoster infection of the anterior segment	Rama Rajagopal	12
4.	Cytomegalovirus infection of anterior segment	Uma Sridhar	10
5.	Role of imaging in viral infections of the anterior segment	Sridevi Nair	12

Panel Discussion : 17 mins

The 84th Annual Conference of All India Ophthalmological Society

IC68 - Retina Round-Up : What Changed in Our Practice?

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room L-01A

Chief Instructor: Debdulal Chakraborty

To provide a focussed review of key clinical updates, innovations and shifts in retina practice over the past year. The course will cover newer advances in diagnostic modalities, treatment of wet ARMD, diabetic macular edema, geographic atrophy, discuss on newer biosimilars; their impact on treating retinal vascular disease and lastly on newer advances, techniques and instrumentation in vitreoretinal surgery. The course will help attendees assimilate new research into day to day patient care, with special reference to constraints and difficulties of providing quality retina care in the developing world. A 25 minute interactive discussion with the participating audience will be the highlight of the course.

No.	Topic	Speaker	Min
1.	Introduction	Debdulal Chakraborty	2
2.	Imaging Innovations in Retina – OCT Biomarkers, OCTA and AI	R. Unnikrishnan Nair	8
3.	Biosimilars in Retina – Adoption, Evidence, and Ethical Integration	Ashish Sharma	8
4.	The Anti-VEGF Landscape for wet AMD in 2025 – What's New, What Works, What's Waning	Debdulal Chakraborty	8
5.	DME Management: anti VEGFs and beyond	Rupak Kanti Biswas	8
6.	Geographic Atrophy – From Passive Observation to Active Intervention	Aniruddha Maiti	8
7.	Surgical Retina in 2025 – What's New in the OR?	Boral Subhendu Kumar	8

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

Simulation-Based Education (SBE) for Cataract and Anterior Segment Surgical Training (Ophthalmology Foundation)

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room L-04

A Course by the Ophthalmology Foundation

Coordinators :

- Prashant Garg
- Parikshit Gogate
- Avinash Pathengay
- Meena Swaminathan
- Akshay G Nair
- Namrata Sharma

Synopsis

Background: For decades, ophthalmic surgical training has relied on the apprenticeship model—effective but increasingly challenged by heightened expectations for patient safety, reduced training hours, greater surgical volume pressures, and the need for preparedness for rare intraoperative events. These forces have created an urgent need for complementary training approaches that accelerate skill acquisition while reducing risk.

Main body: Simulation-based education (SBE) offers a structured, safe, and learner-centered method for building surgical competence. It provides guided, reproducible experiences that mimic critical elements of real procedures without exposing patients to risk. Learners can deliberately practice both routine and complex steps, receive immediate feedback, and progress at an individualized pace.

Widely adopted in aviation and other high-stakes industries, SBE has demonstrated clear benefits in medicine—including enhanced psychomotor skills, reduced complication rates, improved decision-making, and greater learner confidence. In ophthalmology, rapid advances in cataract and anterior segment simulators now allow educators to design standardized, measurable, and research-informed skill-building programs.

This course will provide a comprehensive overview of SBE for cataract and anterior segment surgery, including educational theory, curricular design, simulator selection, integration strategies, and real-world experiences from international educators.

Format: A mix of short lectures, demonstrations, case-based discussions, audience polling, and interactive Q&A.

Course Overview

- Duration: 70

The 84th Annual Conference of All India Ophthalmological Society

minutes

- Audience: Ophthalmologist-educators, fellowship directors, simulation lab leads, and surgical trainers with an interest in cataract and anterior segment surgery
- Goal: Equip participants to integrate effective, evidence-based simulation training into residency and fellowship programs by understanding theory, curriculum design, assessment tools, and implementation strategies.

Learning Objectives

By the end of this course, participants will be able to:

1. Explain the theoretical foundations and evidence supporting simulation-based surgical education.
2. Identify and compare simulation platforms relevant to cataract and anterior segment training.
3. Design or refine a competency-based simulation curriculum using best-practice models.
4. Apply principles of deliberate practice and mastery learning to improve trainee outcomes.
5. Implement strategies for assessment, feedback, and research within simulation programs.

Course Outline

1. Introduction (3 min)

- Why SBE matters now: global surgical volumes, patient safety, competency-based training
- What SBE can—and cannot—replace in surgical education

2. Foundations of Simulation-Based Education (12 min)

- Educational theories supporting SBE (Deliberate Practice, Mastery Learning, Feedback Models)
- Advantages: skill transfer, safety, standardization, assessment
- Limitations & challenges: cost, faculty training, curriculum integration
- Evidence of effectiveness in surgical training

3. Simulators for Cataract Surgery Training (12 min)

- Overview of available simulators, physical models, and hybrid platforms
- Strengths, limitations, cost considerations
- Mapping simulation modules to key steps of cataract and anterior segment surgeries
- Defining a structured “scope of skilling”

4. Designing a Model SBE Curriculum for Cataract Surgery (12 min)

- Competency milestones and progression pathways
- Integrating SBE into residency timelines
- Assessment tools
- Faculty roles and feedback strategies

5. Building a Research-Informed Learning Program (12 min)

- Aligning curriculum with education theory
- Using data and VR metrics to guide training

The 84th Annual Conference of All India Ophthalmological Society

IC48 - Digital Screen Time and Digital Eye Strain : The Emerging Threat

Date : 12-03-2026 (Thursday)

Time : 11:30-12:40

Hall : Meeting Room L-05

Chief Instructor: Vinod Kumar Baranwal

With the exponential rise in screen time due to work, education & entertainment, Digital screen time(DST) with consequent digital eye strain has emerged as a modern day issue affecting millions globally. Global smartphone use has increased from 21.6% in 2014 to 69% in 2023. Average daily screen time globally is 6-7 hrs. Children's digital devices overuse is leading to adverse effects on their eyes, 26% increase in myopia and vergence abnormalities as well as physical, social and emotional growth. Thus DST poses a public health challenge necessitating a collective approach from health professionals, technology designers and employers to alleviate its detrimental issues and promoting both preventive and therapeutic strategies to safeguard visual well-being in the digital age. This IC has experienced ophthalmologists who will cover different facets of DST and digital eye strain, thus facilitating an effective response to this under diagnosed emerging pandemic.

No.	Topic	Speaker	Min
1.	Introduction and digital eye strain present scenario	Vinod Kumar Baranwal	9
2.	Effects of Digital Screen Time	Avinash Mishra	9
3.	Digital screen time and myopia	(Brig) K. Shyamsundar	10
4.	Prevention and management	Nidhi Kalra	9
5.	Myths related to Digital Devices Screen Time	Sandeep Gupta	9
6.	The Way Forward	Mohini Agrawal	9
7.	Take home points & Conclusion	Maj Gen J.K.S. Parihar	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC520 - 'Real world applications of Corneal Diagnostics': A case based approach

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room L-06 & 07

Chief Instructor: Amit Gupta

Diagnostic modalities of the cornea have expanded exponentially in the last few years. In addition to the well-established role of corneal topography/tomography, anterior segment OCT and specular microscopy, newer modalities include swept source ASOCT, corneal epithelial thickness mapping, advanced imaging and quantification of the tear film, corneal biomechanics measurements and ray tracing aberrometry. With an ever increasing number of corneal and lens based surgeries being performed worldwide, component keratoplasty replacing full thickness transplants, and advances in the management of keratoconus/other ectatic diseases, each of these diagnostic modalities can play a specific role in enhancing patient outcomes. This course will aim to demonstrate the clinical applications of these diagnostic modalities in the 'real world' scenario through a case based approach with ample time being provided for audience interaction

No.	Topic	Speaker	Min
1.	Why all Ophthalmologists Need to Sensitise Themselves to the Newer Technology	Amit Gupta	5
2.	Ray Tracing Aberrometry (iTrace) for Corneal and Lens-Based Refractive Surgeries	Anchal Thakur	12
3.	Elevation Based Tomography with the Pentacam Axl: Expanding Indications	Amit Gupta	12
4.	Swept Source ASOCT: Applications for the Anterior Segment Surgeon	Chintan Singh (Malhotra)	12
5.	Corneal Biomechanics-When and Why!	Sonam Yangzes	12
6.	Tear Film Diagnostics: Lipiview and Lipiflow!	SK Basak	12

The 84th Annual Conference of All India Ophthalmological Society

IC184 - CODE RED IN VR SURGERIES

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room U-01

Chief Instructor: Aniruddha Maiti

This is a video based instruction course showing different surgical scenarios of complication faced or difficult situation during Vitreo Retinal surgeries . The IC will show the complication and its solution & outcome . It will also highlight few tips to avoid such situations. We have a very well experienced & knowledgeable team of faculties to share their experience. At the end of the course attendees will be able to improve their surgical planning , predict intra operative difficulties and tackle any sort of similar situations.

No.	Topic	Speaker	Min
1.	Management of post cataract haemorrhagic CD	Soumava Mandal	7
2.	Management of complications managing IOFB	Krishnendu Nandi	7
3.	Solving the quintuple GRT Hypotony macular hole PVR RE RD in Coloboma case	Kelkar Aditya Shreekant	7
4.	Double trouble while repairing Iridodialysis	Sangeeta Roy	7
5.	Intra operative macular hole formation & management of supra-choroidal haemorrhage	Boral Subhendu Kumar	7
6.	Management of intra-operative surprises in severe ocular injuries & intra-operative BRAO management	Aniruddha Maiti	7
7.	Management of intra-operative bleeding	Rupak Kanti Biswas	7
8.	Managing complication of paediatric RD surgery	Debdulal Chakraborty	7

Panel Discussion : 19 mins

IC426 - Complicated situations in Cataract surgery

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room U-02

Chief Instructor: Murthy Somasheila I.

Cataract surgery need precision and practice to achieve excellent outcomes. However some of the most important steps if not performed well can lead into complications. This course is designed to enhance their skills in performing important steps in cataract surgery and also deal with complex types of cataract such as cataract associated with uveitis or combined with corneal transplants. In addition, we will also through a series of high-quality videos, interactive presentations, and expert-led discussions, enable practical insights into managing challenging scenarios and crises.

No.	Topic	Speaker	Min
1.	Rhexis conundrums	Arup Chakrabarti	10
2.	Push and Flip technique to avoid mishaps in soft cataracts	Rishi Swarup	10
3.	Cataract crises management	Shail Vasavada	10
4.	Combined cataract and keratoplasty: double trouble	Kavya Chandran	10
5.	Operating on uveitic cataracts: not than simple	Murthy Somasheila I.	10
6.	Surgery for difficult patients with multiple systemic comorbidities	Mekhla Naik	10

Keynote Address (8') : Cataract surgery with corneal pathology - Harminder Dua

The 84th Annual Conference of All India Ophthalmological Society

IC191 - Glaucoma in pregnant and lactating women

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room U-03

Chief Instructor: Sood Devindra

Glaucoma, predominately a geriatric disease, is commonly being seen in women in the childbearing age group – pre existing glaucoma which originally began in childhood (i.e. congenital glaucoma or anterior segment dysgenesis), or glaucoma secondary to uveitis, diabetes, etc. The treatment of glaucoma in and around pregnancy offers the unique challenge of balancing the risk of vision loss to the mother with potential harm to the fetus or newborn.

Here, we will discuss the management of glaucoma in and around pregnancy. Special consideration will be given to the pre-conception period, stage of pregnancy, and lactation period. Additionally, the unique risks of medical and surgical glaucoma treatment will be discussed, as will therapeutic alternatives to, and modifications of, standard medical treatment.

No.	Topic	Speaker	Min
1.	Course introduction	Sood Devindra	1
2.	Natural history of raised IOP with / without glaucomatous damage during pregnancy	Divya Rajsrinivas	5
3.	Pros and Cons of Medication in Pregnancy - 1	Sagarika Patyal	6
4.	Pros and Cons of Medication in Pregnancy - 2	Sood Devindra	6
5.	SLT in pregnancy	Chandrima Paul	5
6.	Surgical considerations in pregnant and lactating mothers	Mayuri B. Khamar	6
7.	Case discussion 1: Choose medication after analyzing the risks and benefits	Bhagat Purvi Raj	5
8.	Case discussion 2: Perspectives in choosing laser therapy	Jatinder Singh Bhalla	5
9.	Case discussion 3: Emphasizing surgical considerations in pregnant and lactating mothers	Divya Rajsrinivas	5
10.	Concluding remarks	Sood Devindra	1

Panel Discussion : 30 mins

The 84th Annual Conference of All India Ophthalmological Society

IC489 - “Contamination Alert: Sterilization Matters” / “Reuse with Care”: Protocol is Key”

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Meeting Room U-05

Chief Instructor: Kumaran Murugesan

"Disinfection and sterilization are crucial for preventing the transmission of infectious pathogens through medical and surgical instruments. However, there's a significant knowledge gap in monitoring sterilization processes and troubleshooting failures. The increasing reuse of Single-Use Devices (SUD) in ophthalmic surgeries heightens the risk of adverse events like Toxic Anterior Segment Syndrome (TASS). This course provides comprehensive insights into sterilization failures, TASS prevention protocols, and safe SUD reuse practices. By mastering these critical topics, ophthalmic care professionals can significantly reduce complications and improve patient outcomes, ultimately ensuring the success of their hospital's sterilization process."

No.	Topic	Speaker	Min
1.	Troubleshooting sterilization failures and Validation of Sterilization	Nirmal Fredrick T.	15
2.	TASS overview and prevention protocols	Kumaran Murugesan	15
3.	Safe practices in Single use Devices (SUD) Reuse and Sharing of consumables- Step by step protocols	Gagan Dudeja	15
4.	Disinfecting Systems: Your CSSD command center: Building system that never fails	Niranjan Karthik	15

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Asia pacific strabismus and pediatric ophthalmology session

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Atlantiis 1

Chairperson - T.S.Surendran

Moderators – Sumita Agarkar and Jaspreet

Panel – All speakers

1. Opening remarks – T.S.Surendran - 2 minutes
2. Keynote speaker Ken Nischal - My top pearls to be a good researcher while being a busy clinician in pediatric ophthalmology - 12 minutes
3. Pearls on how to make surgical plans in strabismus for beginners - Rohit Saxena- 8 minutes
4. Pearls in pediatric cataract surgery for beginners Sujata Guha 8 minutes
5. Pearls in dealing with strabismus cases which keep you awake – Sandeep Thirumalai UAE 7 minutes
6. Pearls in restrictive strabismus – Manjushree Bhate – 7 minutes
7. Pearls in traumatic cataract surgery in children – Sumita Agarkar – 7 minutes
8. Pearls to Manage paralytic strabismus- Jaspreet Sukhija – 7 minutes
9. Pearls in patient counselling - Siddharth Kesarwani – 7 minutes

Panel discussion 20 minutes

The 84th Annual Conference of All India Ophthalmological Society

Electrophysiology Simplified for Ophthalmologists: Core Concepts Made Easy

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Atlantiis 4

Chairpersons : Subhadra Jalali, Muna Bhende, Parveen Sen, Dhanashree Ratra, Goura Chattannavar

Moderators : Poornachandra B, Deepika C Parameswarappa

Talks

1. Electroretinogram(ERG): Where Do ERG Signals Come From? - Subhadra Jalali - 8 Mins
2. Demystifying Full-Field ERG for Clinicians – When to order and what to look for? - Poornachandra B - 8 Mins
3. Extended Electrophysiology Protocols: Expanding Diagnostic Accuracy – Parveen Sen - 8 Mins
4. Beyond Full-Field ERG: The Role of multifocal ERG and pattern ERG – Neha Goel - 8 Mins
5. Electro-oculogram Simplified: Technique, Interpretation, and Clinical Use – Srikanta Kumar Padhy - 8 Mins
6. Visual Evoked Potentials: Exploring the Visual Pathway and Its clinical utility – Simar Rajan Singh - 8 Mins
7. Ruling in and ruling out a disease by connecting all the electrophysiology tests – Deepika C Parameswarappa - 8 Mins
8. Interesting cases : Two cases (4 Mins)

*Discussion: 10 minutes

The 84th Annual Conference of All India Ophthalmological Society

IC493 - Surface Ablation and Phakic IOLs: A Perfect Pair in the Refractive Surgery Armamentarium

Date : 12-03-2026 (Thursday)

Time : 11:30-12:40

Hall : Trade Room 1

Chief Instructor: Anil Kumar Srivastava

Surface ablation techniques (PRK, TransPRK, epi-LASIK) and phakic IOLs (EVO ICL, IPCL) are often seen as alternatives to LASIK or SMILE—but they are much more than backups. This course presents them as essential and complementary options in the modern refractive surgeon's toolbox, without looking for any further investment in lenticule based surgery or femto/ keratome based laser vision correction. In fact these two are better for patients with thin corneas, high myopia and borderline topographies. We will discuss patient selection, refraction refinement, pre op work up, surgical pearls, decision-making algorithms, complication management, and long-term outcomes. Attendees will gain confidence in selecting and mastering these modalities for superior visual results.

No.	Topic	Speaker	Min
1.	1 introduction- do we need anything else in refractive suite if we have trans PRK and Phakic IOL	Deepesh Mourya	10
2.	refinement of refraction is a key to succeed in any refractive surgery	Anil Kumar Srivastava	10
3.	eye examination including retina evaluation	Deepesh Mourya	5
5.	surgical pearls in trans PRK	Anil Kumar Srivastava	10
6.	Phakic IOLs (ICL, IPCL): Planning, Sizing, Vault, and Pearls	Sudhir Srivastava	10
7.	Complications and Enhancements in Both Modalities	Navendu Rai	10
8.	audience interaction with questions	Abhishek Chandra	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC323 - Suprachoroidal Triamcinolone for Refractory Macular Edema: Targeted Corticosteroid Delivery

Date : 12-03-2026 (Thursday)

Time : 11:30-12:40

Hall : Trade Room 2

Chief Instructor: Sarita Beri

Despite major advancements in anti-VEGF therapy, a significant proportion of patients with macular edema remain refractory or have sub optimal response. This session discusses the burden of refractory macular edema, reviews the limitations of current intravitreal therapies, and highlights the inflammatory component of macular edema that is not adequately addressed by VEGF inhibition alone. We will discuss the rationale behind corticosteroid use, the need for compartmentalized drug delivery, and how suprachoroidal delivery offers a promising solution.

Attendees will also learn the step-by-step protocol, including device preparation, proper positioning, scleral engagement, injection angle, and post-injection monitoring. Key technical challenges and troubleshooting tips will be addressed. Safety considerations and recognising early signs of complications will be emphasised.

No.	Topic	Speaker	Min
1.	Introduction: Refractory Macular Edema and rationale for corticosteroid therapy	Neha Chawla Guliani	10
2.	Suprachoroidal anatomy and microneedle delivery system	Aditya Sharma	10
3.	Clinical Evidence and Outcome	Rahul Bhatia	10
4.	Injection Technique and Safety Consideration	Sarita Beri	10
5.	Complications and their management	afsana	5
6.	Clinical Integration and Treatment Algorithm	Bharti Arya	10
7.	Future Direction and ongoing Trials	Amita	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Videos - Anterior Segment - I

Date :	12-03-2026 (Thursday)
Time :	11:30-13:30
Hall :	Trade Room 3

1. [VT37] - World's smallest Manual Small Incision Cataract Surgery (MSICS)

Chief & Presenting author : Sohel Irfan Mohd. Khan (K12514)

2. [VT74] - Phacoemulsification after Bowman's membrane transplantation for peripheral corneal perforation

Chief & Presenting author : Sudesh Kumar Arya (A06388), Tanu Singh, Sonia Bariya

3. [VT90] - From Dislocation to Clarity: Managing old Traumatic Anteriorly dislocated IOL and Corneal Bullae

Chief & Presenting author : Nibedita Das (D11893), Nibedita Das

4. [VT107] - Turn Your Slit Lamp into a Paparazzi Pro with AUMI View AS – Because Every Eye Deserves a selfie

Chief & Presenting author : Dhruval Khurana (K27707), Aditya Maitray, Anand Rajendran

5. [VT142] - Rhexis difficulties in a patient with glaucoma and how to manage them

Chief & Presenting author : Alka Pandey (P11885), Sanjay Chaudhary

6. [VT148] - Bleed Blue: Dye Today to Evaluate the Effectiveness of Ab-Interno Glaucoma Surgeries

Chief & Presenting author : Rengaraj Venkatesh (V08940), Saloni Joshi, Swati Upadhyaya

7. [VT167] - Phaco with Low IOP (20mmHg) in RK, glaucoma and diabetic patient

Chief & Presenting author : Mishra Gaurav (M08074)

8. [VT185] - Repair of lower lid coloboma- recreating the lid

Chief & Presenting author : Nitin Vasant Vichare (V09759)

9. [VT231] - Fluorescein and the Ocular Surface: Why It Stains, Where It Stains, and Where It Doesn't?

Chief & Presenting author : Amirtha Varshini Venkata Subramanian (A29249), Shweta Agarwal

10. [VT261] - X-Nit Technique of SFIOL

Chief & Presenting author : Bajaj Asheesh (B08179)

11. [VT281] - Lenticulorrhesis with SILK

Chief & Presenting author : Niteen C. Dedhia (D03694), Rohan Dedhia

IC143 - The Most Cost - Effective Eye Hospital Model to Provide Best Clinical Services With Supreme Results

Date :	12-03-2026 (Thursday)
Time :	11:30-12:40
Hall :	Trade Room 4

Chief Instructor: Arvind Kumar Morya

For the beginners as well as for the established Ophthalmologists who wants to upgrade eyecare services at their centre - the heavy cost of modern ocular equipments and their high maintenance cost is the biggest challenge. So in this instruction course we will cover all possible aspects and tricks on how to gain maximum return by following these simple affordable and sustainable eye - hospital model applicable for all budding Ophthalmologists who wants to open their new eye - hospital. Through this IC they will learn which machines are best and yet available at most economical prices, how to upgrade an average microscope with minor affordable accessories and achieve excellent surgeon's view with maximal resolution while recording. It will also highlights easily accessible surgical techniques, how to do better counselling. This model will be a path breaking for the clinical eye - practitioners for developing countries.

No.	Topic	Speaker	Min
1.	Role of Counselling In The Modern Era - Listen More To Get Happiest Patients	Manisha Rathi	10
2.	The very Art of MSICS In The Premium IOL Implantation	Rakesh Shakya	10
3.	How To Develop Economical Subspecialty Clinic of Amblyopia to Make More Bucks	Arvind Kumar Morya	10
4.	My Innovative Ways of Premium IOL Implantation in Hard Intumescent Cataract	Rajendra Prasad	10
5.	When The Investment is Huge - Group Practice is The Best Choice	K.S. Santhan Gopal	10
6.	Most Cost Effective Video Recording System to Grow and Learn	Rajan Gupta	10

Panel Discussion : 15 mins

AIOC Theatre - E-Poster (Neuro Ophthalmology + Pediatric Ophthalmology)

Date :	12-03-2026 (Thursday)
Time :	11:30-12:45
Hall :	AIOC Theatre - 1

Panelist : Sherine M Dsouza, Abhilasha Parkhe, Mariam Mercy Varghese

1. [FP117] - Papilloedema with Abducens nerve palsy: An uncommon initial presentation in Neurobrucellosis

Chief & Presenting author : Mariam Mercy Varghese (M24247), Fadia Musallam Said Al Maashani

2. [FP267] - Occurrence of a rare late onset ROP in a preterm infant with primary combined immunodeficiency.

Chief & Presenting author : Sherine M Dsouza (D07880), Anand Vinekar,

3. [FP284] - It's everything about Leber's Hereditary Optic Neuropathy

Chief & Presenting author : Amol Jambhulkar (J26958)

4. [FP457] - Acute Bilateral Optic Neuritis in a Pediatric Patient with MOGAD Disease

Chief & Presenting author : Shamli Zalke (S29715), Preeti Thallapally, Raghavendra Rao Kolavali

5. [FP502] - The Pigment Puzzle: Normal Iris with Foveal aplasia in a child with oculo-cutaneous albinism

Chief & Presenting author : Somya (S30873), Lita PRAGNYA, Shrutakirty Parida, Nibedita Sahoo

6. [FP587] - Neuro-Ophthalmic Manifestations in Tuberous Sclerosis: A Case of Esotropia with Papilledema

Chief & Presenting author : Shagun Gaur (S30202), Neha Singh

7. [FP590] - DISTRIBUTION&VISUAL OUTCOME IN PEDIATRIC TRAUMATIC CATARACT IN TERTIARY CARE HOSPITAL IN EAST INDIA

Chief & Presenting author : Debalina Bhattacharjee (D27285)

8. [FP783] - ORBITAL INFARCTION SYNDROME- A RARE COMPLICATION AFTER PERCUTANEOUS EMBOLISATION OF JNA

Chief & Presenting author : Archana Singh (A29156), Madhuri Akella

9. [FP897] - From Squint to Scleroderma: A Pediatric IRVAN Case with Systemic Surprises

Chief & Presenting author : Roohi M (R25707), Prakash V.S., Leila Mohan, Kavitha Mohankumar

10. [FP941] - "Unmasking Neuroophthalmic disorders : Clinical clues and visual field insights"

Chief & Presenting author : Shalaka Kumaraswamy (S30792), Vidhya C.

11. [FP1039] - Post treatment macular microvascular changes in children with anisometropic amblyopia using OCTA

Chief & Presenting author : Bharti Ekka (B29653), Arti Singh

The 84th Annual Conference of All India Ophthalmological Society

12. [FP1183] - Ocular Morbidity in Children: A Hospital-Based Cross-Sectional Analysis of Patterns and Risk Factors

Chief & Presenting author : KATEPOGU JYOTHSNA , P.A.S. Chalapathi Reddy

13. [FP1485] - "Brighter Tomorrows: Impact of Timely Screening and Management on ROP Outcomes"

Chief & Presenting author : Kavisha Agarwal (K30921), Shivcharan Lal Chandravanshi, Nikhila Yadav

14. [FP1498] - Silent stroke of eye : understanding Bilateral Non Arteric Anterior ischemic optic neuropathy

Chief & Presenting author : Dr. Sindhu E (S31025), Athulya Arun, Afrin Neeha Shaik, S. Sozhamadevi

15. [FP1499] - Gestational age as a determinant in the development and severity of Retinopathy of prematurity

Chief & Presenting author : Pallavi K , Hima Bindu Yadiki, P.A.S. Chalapathi Reddy

16. [FP1525] - Abnormal retinal vasculature in an infant with congenital heart disease and Down Syndrome

Chief & Presenting author : Rhea Wason (R30941), Parijat Chandra, Meghna Ganesh

17. [FP1604] - In the Line of Sight: The Cranial Nerve That Lost Its Way-Think Beyond The Usual Suspects

Chief & Presenting author : Dr. Aelia Sadvika (A31612), Dr. Sindhu E, B. Jayaprakash, R. Rajeshkannan

18. [FP2053] - A rare case of Traboulsi syndrome- presenting with bilateral lens subluxation and facial dysmorphism

Chief & Presenting author : Supriya Jayagopal (S29999), Y V Gowthami, Tanushree V.

19. [FP2155] - Spectrum of Eye Diseases in Children Aged 0-3 Years at a Tertiary Eye Care Hospital in South India

Chief & Presenting author : Gokulvasanth D , Anjali Khadia, Mouttapa Fredrick, Veena Kannusamy

20. [FP2176] - Marfan's Syndrome with Bilateral Temporal Subluxation of Lens in a 9-Year-Old: A Case Report

Chief & Presenting author : Gourab , Patel Virendra Mohanbhai

21. [FP2369] - OMG Unmasked: The Chameleon of Diagnoses

Chief & Presenting author : Abhilasha Parkhe (P17687), Rahul Deshpande

The 84th Annual Conference of All India Ophthalmological Society

Free Paper - Neuro Ophthalmology - II + Semi Finals

Date :	12-03-2026 (Thursday)
Time :	12:05-13:25
Hall :	Meeting Room L-03

Co-Convenor : Sunil Chaturvedi

Moderator : Anubhuti Vyas, Maya Hada

1. [FP132] - Decoding the Impact of BMI in IIH: A Comprehensive Structural and Functional Ocular Analysis

Chief & Presenting author : A. Balraj (B19536), Akshay Wagh, Hari Bhadari Anand

2. [FP593] - When Immunity Blurs Vision: A Rare Case of Post-Rabies Vaccine Induced Papillitis

Chief & Presenting author : Shrishti Sancheti (S30788), Saiteja Kothapally, Nizzi S N , Virna Shah

3. [FP641] - OVARY-DEPENDENT OPTICS

Chief & Presenting author : Mariya Banu Ranjini SRIDHARAN (M27145), Barath Arjun, Venkatesh S.

4. [FP643] - Multi-color imaging (MCI) modality detection rate of various retinal folds in papilledema

Chief & Presenting author : Sweksha Priya (P18571), Md. Shahid Alam, Anuradha Sen, Sujata Guha

5. [FP712] - Breaking the Bias: Optic Nerve Sheath Meningioma in Men

Chief & Presenting author : Saakshi Kole (S30789), Nivetha R, Karthik Kumar Mani

6. [FP1338] - Idiopathic intracranial hypertension(IIH) without disc edema: Diagnostic Insights from a case series

Chief & Presenting author : Pratibha Panmand (P19885), Nitya Raghu

7. [FP1387] - PAPILLEDEMA LED THE WAY: A SURPRISING CASE OF FAHR'S SYNDROME REVEALED THROUGH VISUAL SYMPTOMS

Chief & Presenting author : Manisha Harikumar (M30943), krutin shah, Karthik Kumar Mani

8. [FP1600] - The Emotional Retina: OCTA Biomarkers Reveal Subclinical Distress in Young Adults

Chief & Presenting author : Yedula Venkata Rohith Reddy (V28959), Harshitha C, Sangeetha. T

9. [FP1769] - An Unusual Case of Acute Brainstem Dysfunction Resembling Bickerstaff Encephalitis

Chief & Presenting author : Varada Gokhale (G13385), Aditya P. Deo

10. [FP1836] - Eyes on the Scale: BMI-Based Diet & Exercise in Idiopathic Intracranial Hypertension—A Pilot study

Chief & Presenting author : Shobhana U (S30091), Priyanka Krishnakumar

11. [FP1879] - Sisters at the Crossroads: Familial Cerebellopontine Angle Tumors Revealing Hidden Genetic Threads

Chief & Presenting author : Kasturi Dabhole (K30942), Anju Jose

The 84th Annual Conference of All India Ophthalmological Society

Uvea subspecialty day Session - III - POSTERIOR UVEITIS – VIRAL, TOXO, SYPHILITIC INFECTIONS

Date :	12-03-2026 (Thursday)
Time :	12:15-13:20
Hall :	Atlantiis 3

Chairs – Peter Mc Cluskey, Jyotirmay Biswas, Vishali Gupta

Moderator- Mayur Morekar

Co-moderator- Anup Kelgaonkar

KEY NOTE(8 mins) - Ocular syphilis: the great pretender - Peter Mc Cluskey

KEY NOTE(8 mins) - Viral retinitis - Iliara Testi

CHALLENGING CASES (5 MINS PRESENTATION, 2 MINS DISCUSSION)

1. Bilateral ARN with bilateral uveal effusion - Girish Veils
2. ARN treated with a foscarnet injection - Priyanka Gupta
3. Viral uveitis TORCH infection in newborns - Subhadra Jalali
4. Atypical multifocal retinitis due to HSV retinitis in immunocompetent - Rajashree
5. From Viral Illusion to Syphilitic Reality: A Case of Retinal Deception - Samendra Kharkur
6. Recalcitrant macular retinochoroiditis secondary to toxoplasma - Arthi Mohankumar
7. Pediatric Post fever retinitis: double the trouble - Reesha Jhitesh

The 84th Annual Conference of All India Ophthalmological Society

IC450 - Complicated Scenarios Post-Keratoplasty: Diagnosis, Decision-Making & Management

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room L-01

Chief Instructor: Charuta Puranik

Post-keratoplasty patients often face complex visual and structural challenges that extend beyond graft clarity. This instruction course addresses a spectrum of complications encountered after both penetrating and lamellar keratoplasty, with a special focus on timely diagnosis, refractive rehabilitation, and long-term graft survival. Experts will share step-by-step clinical approaches to graft rejection, infection, and glaucoma, and discuss refractive surgical options tailored to the altered corneal anatomy. Real-world case scenarios, evidence-based algorithms, and practical tips will help participants improve outcomes in these high-stakes eyes. An interactive panel discussion will consolidate learning and encourage audience engagement.

No.	Topic	Speaker	Min
1.	Intruduction to courtse and Topic 1 Graft Rejection: Early Signs and Management Algorithm	Charuta Puranik	10
2.	Infectious Keratitis PostKeratoplasty Diagnosis 2Decision Pearls in fungal and interface infection	Rajat Jain	10
3.	Refractive Surgical Options Post-Keratoplasty: Challenges, Techniques & Decision-Making	Rupak Kumar Reddy Kondreddy	10
4.	Managing Complicated Post-PKP Glaucoma	Meena Thotakura	10
5.	5. Graft Failure After Endothelial Keratoplasty: Etiologies & Salvage 6. AUDIENCE QUIZ with prizes	Charuta Puranik	20

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC309 - Mastering skills from Virtual simulations to real life applications in Ophthalmology

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room L-01A

Chief Instructor: Usha A Johari

Advancements in technology have transformed medical education particularly in the field of Ophthalmology. The integration of virtual simulations into training programs offers an immersive risk-free environment for learning intricate ophthalmic procedures. From diagnostic techniques to complex microsurgeries like phacoemulsification or retinal repair, simulation platforms provide real-time feedback, repetition opportunities and skill refinement before encountering actual patients. The ultimate goal is seamless translation of virtual proficiency into real-life competence ensuring patient safety and improved surgical outcomes. By combining modern simulation tools with traditional mentorship and real-world exposure, ophthalmologists can master essential skills effectively and efficiently. This blended model represents the future of ophthalmic education - Safe, structured and skill-driven.

No.	Topic	Speaker	Min
2.	Simulated Surgery to Surgical Mastery in Ophthalmology	Quresh B. Maskati	8
3.	Sharpening vision -Virtually and clinically	Bhagat Purvi Raj	8
4.	Training the Ophthalmic Hand through technology	Sujata Sanjay Chahande	8
5.	Virtual practice to real world ophthalmic excellence	Madhav Dinkar Ambekar	8
6.	Eyeing Perfection - Simulation based learning for Ophthalmologists	Karobi Rani Lahiri	8

The 84th Annual Conference of All India Ophthalmological Society

IC159 - Surgical management of Pterygium, simple and difficult cases

Date : 12-03-2026 (Thursday)

Time : 12:45-13:55

Hall : Meeting Room L-04

Chief Instructor: Santanu Mitra

Pterygium is often a sight threatening problem frequently encountered in tropical countries. Conjunctival autografting is currently the most accepted surgical procedure for primary and recurrent pterygium. It has a low recurrence rate, good cosmesis and no fatal complications. This video assisted course will demonstrate the different conjunctival autografting techniques along with various graft fixations. The judicious use of adjunctives like MMC, AMT and other newer modalities are also illustrated. At the end of the course, the comprehensive ophthalmologist will be able to appreciate the indications and reproduce the management techniques of different methods of simple as well as complex pterygium.

No.	Topic	Speaker	Min
1.	Introduction	Santanu Mitra	6
2.	Conjunctival autografting in simple pterygium, technique of CAG and its variations	Kushal Banerjee	16
3.	Hurdle of Double pterygium management	Bhartendu Bhushan	16
4.	Recurrent Pterygium management, a different ball game	Padmawati Bhattacharya	16
5.	Newer advances in management of pterygium	Santanu Mitra	10

Panel Discussion : 11 mins

The 84th Annual Conference of All India Ophthalmological Society

IC518 - Paediatric uveitis

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room L-05

Chief Instructor: Khosla Amit

The IC will highlight the various presentations of uveitis in children and their management . With the use of early immunosuppressives vision can be saved and complications like cataract and glaucoma avoided . Aim is to educate the paediatric ophthalmologist of its treatment since they are the first service providers to the. Children with uveitis/ cataract.

No.	Topic	Speaker	Min
1.	Introduction to Paediatric Uveitis	Khosla Amit	5
2.	Epidemiology and etiology	Parthoprattim Dutta Majumder	7
3.	Paediatric Anterior uveitis	Manisha Agarwal	10
4.	Intermediate Uveitis	Sanjeev Gupta	10
5.	Posterior Uveitis	Parthoprattim Dutta Majumder	10
6.	Management of Paediatric Uveitis	Khosla Amit	12
7.	Case discussion	Khosla Amit	9

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC75 - Spotting Glaucoma Masqueraders : Multi-Subspecialty Focus

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Chandrima Paul

This course will provide practical guides on how to identify glaucoma masqueraders on optical coherence tomography (OCT) and Automated Perimetry (AP). The discussion will focus on findings that mimic glaucoma, from common artifacts to retinal and neuro-ophthalmological conditions that affect the optic nerve cupping, thinning of retinal nerve fiber layers and corresponding visual field changes. Attendees will be able to recognise (1) pathognomonic findings of real disease (2) understand the pathophysiology of the optic nerve cupping from glaucoma, retinal and neurological conditions, (3) spot common OCT and Visual Field artifacts that mimic glaucoma, (4) detect common neurological conditions causing optic nerve cupping with OCT and Visual field findings that mimic glaucoma and (5) differentiate between glaucoma and common retinal conditions that cause glaucomatous-like OCT and visual field abnormalities.

No.	Topic	Speaker	Min
1.	Novel OCT & Perimetry Findings to detect glaucoma	Amit Porwal	10
2.	Pathophysiology of the optic nerve cupping from glaucoma, retinal and neurological conditions	Jatinder Singh Bhalla	10
3.	Glaucoma Artifacts in OCT and Visual field	Chandrima Paul	10
4.	Neurological findings on OCT and Visual Field that mimic glaucoma	Subhrangshu Sengupta	10
5.	Retinal conditions that cause glaucomatous-like OCT & Visual field abnormalities.	Anujeet Paul	10
6.	Take home Pearls	Chandrima Paul	5

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC163 - Success Pearls for Challenging & Complex Macular Holes' Surgery

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room U-01

Chief Instructor: Paritosh Arvind Kamdar

Complex macular holes (MH) include very large(>1200micron) MH, recalcitrant MH, chronic MH, high myopic eyes +/- posterior staphyloma+MH +/- schisis +/- RD, MH+PVR RD, DRD+MH, Mactel+MH - amongst others. While management of small to moderately large Macular holes has met with good success - complex MH are challenging to repair. During this video based IC, Past masters in the field would dish out their 'pearls' about how to succeed in the management of these seemingly unsurmountable "Bad" MHs.

No.	Topic	Speaker	Min
1.	Introduction	Paritosh Arvind Kamdar	5
2.	Applied surgical Patho anatomy and prognostication	Sharad Bhomaj	9
3.	Management of MH in high myopia +/- schisis/RD	Lalit Verma	9
4.	MH in PVR RD	Paritosh Arvind Kamdar	9
5.	Management of DR, Mactel & other vascular anomalies with MH	K. Naresh Babu	9
6.	Management of Pediatric & Large irregular Traumatic MH	Karobi Rani Lahiri	9
7.	Management of Recurrent /Recalcitrant MH & When to bridge, push, plug, stuff?	Dhanashree Ratra	9
8.	'Eventful' MH Surgeries & Management of Complications of MH surgery	P. Mahesh Shanmugam	9

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC183 - A to Z in toric IOLs : A beginners guide to toric IOL implantation

Date : 12-03-2026 (Thursday)

Time : 12:45-13:55

Hall : Meeting Room U-02

Chief Instructor: Bharathi Megur

Toric IOL's are indispensable in modern day cataract surgery practice. Many of the practising eye surgeons are intimidated of incorporating Toric IOLs in their practice fearing technical difficulty in marking, IOL power calculation and costly gadgets for pre-op evaluation, intra operative difficulties etc. This course aims to dispel these misconception about Toric IOLs. This course we will be sharing practical tips and tricks regarding the technicalities like Pre op work up, Pre op marking, smart phone apps to confirm the reference marking and intra op alignment. During the course attendees will be taught how to start toric IOL practice with bare minimum investment. Managing residual post op residual cylinders and difficult case scenarios like Torics in small pupils will be highlighted.

No.	Topic	Speaker	Min
1.	Toric IOLs : Pre operative evaluation for Toric IOLs , understanding SIA and the formulae	Bharathi Megur	10
2.	Corneal Markings for Torics, -slit lamp marking ,Smart phone app usage	Deepak Megur	10
3.	Digital marker less system , Intra operative alignment of toric IOL	Nidhi Patwardhan	10
4.	Toric IOLs in the presence of pc tear	Vaishali Vasavada	10
5.	Realigning a rotated Toric IOL: Principles and technique	Haripriya Aravind	10
6.	Toric IOLs in difficult situations	Rishi Swarup	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC300 - RETROPUPILLARY IRIS CLAW LENSES FOR COMPREHENSIVE OPHTHALMOLOGIST

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room U-03

Chief Instructor: S.P. Singh

Cataract surgery is portrayed as the easiest and the fastest surgery. But it is not always true. A trainee, or even an experienced surgeon in complicated cataract surgery can end up doing posterior capsular rent. Management of PCR requires expertise in anterior vitrectomy, as well as meticulous planning of placement as well as choice of IOL. The choice of IOL lies between anterior chamber IOL, sulcus fixated IOL and Iris Claw IOLs. The ACIOLs are associated with complications like uveitis, glaucoma and corneal decompensation. The Sulcus Fixated IOLs are till date a domain of posterior segment surgeons. So, the choice left to anterior segment surgeon is Iris Claw Lenses. The complications associated with it are very few e.g. ovalisation of pupil, mild uveitis etc. With the ease of availability of these lenses, they should be the first choice in situation of deficient capsule.

No.	Topic	Speaker	Min
1.	Approach to a patient of deficient posterior capsule & surgical options : Dr. Arti Singh	Arti Singh	10
2.	ICL Implantation : Surgical technique	Shivangi Singh	10
3.	Retropupillary Iris claw versus Scleral Fixated IOL	Kamaljeet Singh	10
4.	Combined Iris reconstruction & Retropupillary iris claw Implantation : Dr.S.P. Singh	S.P. Singh	10
5.	Nucleus drop management with ICL implantation	Vinod Kumar Singh	10
6.	Glaucoma Post ICL Implantation	Jagriti Rana	8
7.	COMPLICATIONS ASSOCIATED AND HOW TO PREVENT	Jitendra Singh	8

Panel Discussion : 9 mins

The 84th Annual Conference of All India Ophthalmological Society

IC175 - Bollywood Calling - A2Z of All That You Need to Record and Present in High Definition

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Meeting Room U-05

Chief Instructor: Debashis Dutta

Transparency and Evidence based medicine is the need of the day. Documentation and dissemination of Knowledge calls for VIDEO recording of surgeries. Modern day video recording envisages judicious usage of advanced gadgetry. Dedicated commercially available devices cost a fortune.

One need to improvise to stay on a budget but still get professional quality .High definition has become a must as our screens have grown bigger. The entire gamut of capturing and editing equipment will be described at length.

1. Choosing the beam splitter
2. The video adaptor as per the sensor size
3. Focus & stop
4. Choosing the Camera (Surveillance/Mirrorless/dedicated)
5. Connecting the camera to the recorder/video overlay, SDI/HDMI
6. Different recorders - game recorder, desktop, laptop,
7. Recording in microSD, SD card, SSD, Magnetic HDD
8. Choosing the Display device
9. Editing Software & equipment configuration
10. Heads up 3D viewing

The attendee can set up a recording and editing system at home all by oneself.

No.	Topic	Speaker	Min
1.	Overview of the recording and editing process	Debashis Dutta	2
2.	Different Cameras and their pros and cons	Ayan Mohanta	10
3.	Using the CELLPHONE to record at the slit lamp and OT microscope	John Davis Akkara	10
4.	Heads up 3D viewing system and 4k recording	Sourabh Patwardhan	10
5.	Nuances of recording a fine vitreo retinal surgery	Raju S.	10
6.	Archiving and Editing of videos to its logical conclusion , teaching and presenting	Deepak Megur	10
7.	Summing up the Indigenous recording system	Debashis Dutta	3

IC228 - Perfecting the art of Small incision Cataract surgery (SICS)

Date : 12-03-2026 (Thursday)

Time : 12:45-13:55

Hall : Meeting Room U-06

Chief Instructor: Kamaljeet Singh

SICS is the most widely practiced cataract surgery in India, offering speed and quality outcomes—especially vital in high-volume settings. This advanced course is designed for experienced SICS surgeons and focuses on tackling complex cases where cataract coexists with conditions like corneal opacity, uveitis, glaucoma, subluxation, pterygium, and astigmatism. Through practical tips and innovative techniques, the expert faculty will demonstrate how to optimize outcomes and minimize complications in these challenging scenarios.

No.	Topic	Speaker	Min
1.	SICS in Hard cataract	Malik K.P.S	8
2.	SICS in Glaucoma	Ruchi Goel	8
3.	SICS in Corneal disease	Lahane Tatyrao Pundlikrao	8
4.	SICS in small pupil	S.P. Singh	8
5.	SICS in Subluxated Cataract	Ragini Hasmukhray Parekh	8
6.	SICS in Astigmatism	Pranav Saluja	8
7.	Modifications in SICS	Kamaljeet Singh	8

(ECLA & JCLS Joint Session) - Contact lens is not a piece of plastic: Back to the future

Date :	12-03-2026 (Thursday)
Time :	12:45-13:55
Hall :	Atlantiis 1

Session description :

Recent advancement and diversification in contact lenses are remarkable. Nowadays, contact lenses are not merely correcting tools for refractive errors, becoming therapeutic modalities for various diseases.

Learning Objectives :

Upon completion of this session, participants will be able to

1. Outline current advances in contact lens.
2. Demonstrate the role of contact lens as useful tools in management of eye diseases.
3. Understand that contact lenses can be used for more than correction of refractive error.

Moderators : Shizuka Koh, Vishal Jhanji

Speaker Information: Timed Agenda 60 minutes (10 min talk x 5)

Introduction and opening remarks: 2min

1. Aspherical curve RGP/contact lens - Gaku Kiuchi (Japan)
2. Contact lens keratitis - Sonal Tuli (USA)
3. Multifocal soft contact lenses for myopia control - Shizuka Koh (Japan)
4. Contact lens for corneal ectasia - Vishal Jhanji (USA)
5. Drug eluting contact lens - Prashant Garg (India)

Overall Q&A 10 minutes

IC567 - Managing Challenging Situations in Macular Surgery

Date : 12-03-2026 (Thursday)

Time : 12:45-13:55

Hall : Atlantiis 4

Chief Instructor: Mallika Goyal

Macular Surgery constitutes a large proportion of a retina surgeon's work. While many cases are straightforward, others present significant challenges and require specific instruments, equipment and techniques for successful management.

In this course management of challenging & refractory situations in macular surgery will be demonstrated and discussed by highly experienced surgeons with the help of surgical videos.

Adequate time will be allocated for panel discussion and delegate interaction after each talk

No.	Topic	Speaker	Min
1.	Refractory Macular Holes	Mudit Tyagi	10
2.	Management of Epimacular Membranes	Tinku Bali	10
3.	Optic Disc Pit Maculopathy	P. Mahesh Shanmugam	10
4.	Intraoperative OCT in Macular Surgery	Rajeev Kumar Reddy P.	10
5.	Large Sub-macular Haemorrhage	Lalit Verma	10
6.	Platelet Rich Plasma (PRP) for Difficult Macular Holes	Mallika Goyal	10

Panel Discussion : 10 mins

IC262 - Grab 'Em by The Eyeballs!

Date : 12-03-2026 (Thursday)

Time : 12:45-13:55

Hall : Trade Room 4

Chief Instructor: Tulika Ghoshal

There are numerous courses for all the theoretical aspects of Ophthalmology for post-graduate students and newcomers. BUT guidance for extra-curricular skills often falls by the wayside. This instruction course will pilot these rookies to absorb some essential credentials so that they may forge their own pathways in their ophthalmological journey of life.

The essential abilities of creating a killer presentation, an informative but artistic video, an eye catching poster and most of all, the art of public speaking to be able to present these to an audience are not easily acquired. These skills have to be acquired during their busy post-graduate lives.

No.	Topic	Speaker	Min
1.	Introduction	Tulika Ghoshal	5
2.	How to Make an Interesting Poster	Aditya Pradhan	13
3.	How to Make a Killer PPT	Tulika Ghoshal	13
4.	How to Make An Eye Catching Video	Anurag Mishra	13
5.	How to Present a Presentation with Presence	Doel Biswas	13

Panel Discussion : 18 mins

Chairs – Ken Nischal, Parikshit Gogate, Ramesh Kekunnaya

Moderator- Ankur Sinha

Co-moderator- Shruthi Nishanth

Each talk 7mins, questions 1 min

1. Myopia research update - Rahul Bhola
2. Implications of duration of deprivation and reversal of vision in congenital cataract - Ramesh Kekunnaya
3. Community-based approaches in pediatric research-the way forward - Parikshit Gogate
4. Innovations in pediatric ophthalmology & strabismus - Jitender Jethani
5. StrabNet CQ in Strabismus research - Savleen Kaur
6. MAC (micro-ophthalmia, anophthalmia, coloboma disorders) - Shailja Tibrewal

The 84th Annual Conference of All India Ophthalmological Society

Section 4: ORBIT and OCULAR ONCOLOGY

Date :	12-03-2026 (Thursday)
Time :	13:15-14:15
Hall :	Atlantiis 2

Chairman: Santosh Honavar

Co-chairman: Sima Das

Moderator: Rolika Bansal

1. Orbital Trauma- Management Pearls - Senthil Nathan - 10 Mins
 2. Current Management of Thyroid Eye Disease - Fatemeh Rajaii - 8 Mins
 3. Proptosis – Steps to Open Pandora - Sima Das - 8 Mins
 4. Orbital infections- Common and Uncommon - Tarjani Dave - 8 Mins
 5. Inflammations of the Orbit- An Overview - Marian Pauly - 8 Mins
 6. Neoplasias- recognising the red flags - Mritika Sen - 8 Mins
 7. Principles and Protocols in Ocular Oncology- Evolution - Santosh G Honavar - 8 Mins
- Q & A Panel Discussion by Rolika Bansal- 10 minutes

The 84th Annual Conference of All India Ophthalmological Society

Uvea subspecialty day Session - IV OCULAR TUBERCULOSIS

Date :	12-03-2026 (Thursday)
Time :	13:20-13:55
Hall :	Atlantiis 3

Chairs – Vishali Gupta, Reema Bansal, Mudit Tyagi

Moderator- Bhavik Panchal

Co-moderator- Radhika

CHALLENGING CASES (5 MINS PRESENTATION, 2 MINS DISCUSSION)

1. Ocular TB From Whisper to Roar: A Disease's Escalation Over Two Years - Sameeksha Agrawal
2. My challenging case of the year - Nitin Kumar Menia
3. Pediatric POTB with corneal involvement - Sayali Karande
4. Is it Toxo? ARN? Or TB? - Neethu
5. Retinal vasculitis: surgical management - Kopal Mittal

IC511 - SICS - The gold standard technique optimisation with newer technology

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Ballroom

Chief Instructor: Lahane Tatyrao Pundlikrao

This instruction course focuses on optimizing Small Incision Cataract Surgery (SICS) through integration of advanced technologies to enhance surgical precision and outcomes. Key innovations include image-guided systems for superior incision planning and axis marking, as well as the use of premium intraocular lenses (IOLs) to improve postoperative visual quality. The course will cover practical adaptations of these tools within the SICS workflow, including toric alignment, biometry refinement, and incision architecture. Emphasis will be placed on balancing cost-efficiency with technological upgrades to bring the benefits of modern advancements to high-volume SICS practice.

No.	Topic	Speaker	Min
1.	Topical SICS – are we there ?	Lahane Tatyrao Pundlikrao	10
2.	The TWO minute SICS	Rakesh Shakya	10
3.	SICS in corneal opacity	Ragini Hasmukhray Parekh	10
4.	Image guided SICS	Lahane Tatyrao Pundlikrao	10
5.	The black and white with SICS	Santosh Bhide	10
6.	PCR management in SICS - case based	Parikshit Gogate	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC156 - Breaking the Deadliest of all Formation of Complex Cataract with Innovative Surgical Techniques

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Meeting Room L-01

Chief Instructor: Rajendra Prasad

This video based course will demonstrate stepwise innovative surgical techniques to manage the deadliest surgical situations in difficult and complex cataract cases. Videos will highlight how to prevent and manage more commonly encountered complications such as the runaway or incomplete capsulorhexis, trouble shooting the failed chop, managing associated zonular weakness and management of PC disruption. The choice of phaco settings, variation of fluidics, phaco tips, new chopping methods will be vividly shown and discussed. A unique blunt olive tip chopper good enough to hold and crack hardest of hard cataracts in Terminal Chop technique will be discussed. The use of capsule staining techniques, sewing needle microcapsulotomy, capsular bag stabilization devices and pupil expanding devices will be demonstrated.

No.	Topic	Speaker	Min
1.	Innovative way to deal with challenging case of uveitis cataract	Rakesh Shakya	8
2.	Challenging cataract for premium IOL management with Zepto nanopulse technology	Suresh K. Pandey	8
3.	Trouble shooting failed chop with innovative surgical technique	Rajendra Prasad	10
4.	Innovative approach to Posterior Polar Cataract with hard nucleus and strategies to prevent P C tear	Satanshu Mathur	8
5.	Subluxated cataract management with new suture ring fixation technique	Sudhank Bharti	10
6.	Perioperative antibiotic prophylaxis during cataract surgery an innovative approach	Arvind Kumar Morya	8
7.	Prenuclear emulsification PCR management with innovative approach	Anurag Badhani	8

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC188 - Case based approach in acute corneal emergencies :

How to optimize outcomes?

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Meeting Room L-01A

Chief Instructor: Rama Rajagopal

The course aims to address key points in careful assessment, early diagnosis and management, do's and don't's .role of ancillary imaging and other investigations relating to ACUTE CORNEAL EMERGENCIES resulting in acute vision loss including perforations, trauma , infections with comorbidities and chemical injuries . It also reviews essential pointers in the differential diagnosis and highlights how a structured STEP LADDER approach in these conditions can optimise outcomes.

A CASE BASED ALGORITHMIC approach in this course is aimed to help understand these entities in detail to improve the anatomic and functional outcome

No.	Topic	Speaker	Min
1.	Corneal perforations: Assessment , role of Investigations and management algorithms	Rama Rajagopal	15
2.	Corneal trauma : Strategy for assessment and successful management	Radhika Natarajan	15
3.	Clinical pointers to the diagnosis and management of acute corneal infections with comorbidities	Revathi Rajaraman	15
4.	Managing acute chemical injuries -Do"s and Dont"s	Uma Sridhar	15

The 84th Annual Conference of All India Ophthalmological Society

IC531 - Mastering Epiphora: The A-to-Z Toolkit for Optimal Results"

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Meeting Room L-04

Chief Instructor: Jayanta Kumar Das

Though nasolacrimal duct obstruction is the most common cause of epiphora, pathologies involving the punctum and canaliculi also play a crucial role. This video-based course will cover key topics including indications, various surgical techniques, potential complications, newer aetiologies, and recent advancements in the field. The course will provide detailed, step-by-step demonstrations of different procedures through operative videos and relevant clinical photographs. It will also highlight some hidden and often overlooked causes of tearing. By the end of the course, participants will have an updated, evidence-based understanding of lacrimal drainage disorders, including insights into newer aetiologies and the latest management approaches.

No.	Topic	Speaker	Min
1.	Key Landmark and Relevant Insight	Amrita Sawhney	8
2.	. Optimising Outcomes in Punctal and Canalicular Trauma.	Shaloo Bageja	8
3.	. Extent of Disease in the Community	Nilanjan Kaushik Thakur	10
4.	Conjunctival DCR: Advances and Newer Approaches	Shreya Shah	10
5.	. Membranectomy Combined with DCR: A Novel Perspective on the Etiopathogenesis of Lac Sac Mucocele"	Jayanta Kumar Das	10
6.	Emerging Trends in Management	Ashok Kumar Grover	10

Panel Discussion : 18 mins

The 84th Annual Conference of All India Ophthalmological Society

Indian Association of Ophthalmic Pathology session: A Clinicopathological crosstalk

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Meeting Room L-05

Moderator: Saumya Jakati

Chair(s): Deepak Paul Edward and Jyotirmay Biswas

Synopsis: Clinicopathological correlation can help in precise diagnosis, improve patient care and gives insights to the possible pathogenetic mechanisms of ophthalmic diseases. Herein, we plan to highlight the importance of such correlation with a unique clinicopathological case presentation by an ophthalmologist followed by cyto or histo-pathological interpretation by an ophthalmic pathologist.

Keynote address - 1: Real-Time Digital Communication in Ophthalmic Pathology: The Educational and Clinical Utility of Social Platforms
- Deepak Paul Edward, University of Illinois, Chicago, USA - 20 minutes

Potpourri of Ophthalmic lesions:

Case 1: A case of orbital lesion- Dipankar Das and Kasturi Bhattacharjee - Sankara deva Nethralaya, Gauhati, Assam- 8 minutes

Case 2 : A case of intraocular tumor- Saumya Jakati and Vishal Raval – L V Prasad Eye Institute, Hyderabad, Telangana- 8 minutes

Case 3 : A case of lid tumor- Bageshri Gogate and Parikshit Gogate - Smt. Kashibai Navale Medical College and General hospital, Pune, Maharashtra – 8 minutes

Case 4 : A case of conjunctival lesion – Shanthi Radhakrishna and Tejaswi Prasad - Aravind Eye Care

Case 5 : A case of orbital infection - Shruthi M Krishna and Raghuraj S Hegde -Narayana Nethralaya and Manipal Hospitals, Bengaluru, Karnataka - 8 minutes

Keynote address - 2: Histopathology, immunohistochemistry and molecular biologic correlation of end-stage uveitic retinal vasculitis and scleritis - Jyotirmay Biswas, Sankara Nethralaya, Chennai, India- 15 minutes

IC224 - Optimising Outcomes in Aqueous Drainage Implant Surgery

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Meeting Room L-06 & 07

Chief Instructor: Puthuran George

This course will cover a number of practical issues involved in Aqueous drainage implant surgery (AGV, AADI, ACP, PGI) in refractory adult and paediatric glaucoma. Wet lab training to perfect a safer surgery system for tubes will be discussed. After description of the basic methods of implantation, modifications in implantation techniques needed for sulcus placement, pars plana tube insertion and a repeat tube will be covered. Early and late post-op hypotony, hypertensive phase and tube and plate related complications will be reviewed and management strategies with special emphasis on prevention will be discussed. At the end of the course, the attendee will be able to (1) Understand the surgical technique and role of aqueous drainage implants in the management of refractory glaucoma, (2) Recognise problems encountered with the procedure, and (3) Be able to institute appropriate measures to resolve them.

No.	Topic	Speaker	Min
1.	Clinical implications of Tube RCT's: Which GDD to use and when	Krishna Das R.	10
2.	Training your fellow in a safer surgery system for tubes	A. Vijayalakshmi	10
3.	Preventing / Managing early post-op complications: Hypotony, Tube obstruction, Hypertensive phase	Ramesh S.Ayyala	10
4.	Preventing / Managing late post-op complications: Tube cornea touch, Tube exposure, Tube retraction	Puthuran George	10
5.	Tubes in Childhood Glaucoma: Special Considerations	Sirisha Senthil	10
6.	Tubes in complex situations: Existing corneal graft / scleral buckle and previous failed GDD	Ramesh S.Ayyala	10

Keynote Address (8') : Combined Deep sclerectomy -Trabeculotomy for primary congenital glaucoma - Sadiq Mohammed Abdullahi

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC565 - Astigmatism Management at the Time of Cataract Surgery

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Meeting Room U-01 A

Chief Instructor: Ashu Agarwal

Instruction Course will present the techniques available for astigmatism management at the time of cataract surgery using a didactic and video based approach. With Cataract surgery increasingly being considered a refractive surgery, astigmatism control has become a very important component for achieving “Target Emmetropia”. Techniques covered in the course include modulation of phacoemulsification incisions (size, placement and opposite clear corneal incisions), incisional techniques like LRIs (Limbal Relaxing Incisions- Manual and Femto laser LRIs), Toric IOLs and the use of newer intraoperative Image Guided Systems for enhanced results. Course participants will be able to understand the concepts and techniques for astigmatism control in cataract surgery and be able to incorporate them in their practices.

No.	Topic	Speaker	Min
1.	Optimizing Phacoemulsification Incisions to Minimize Astigmatism	Ashu Agarwal	15
2.	Incisional Techniques to Reduce Pre-existing Astigmatism- LRIs & AK (Manual & Femto Laser Based)	Sudhank Bharti	15
3.	Toric IOLs- An Elegant Way to Control Astigmatism	Purendra Bhasin	15
4.	Intraoperative Image Guided Systems for Enhanced Results in Astigmatism Control	Saurabh Choudhry	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC111 - Strategies and Pearls for Phacoemulsification in Difficult Situations

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Meeting Room U-02

Chief Instructor: Ayan Mohanta

This instruction course will explore a wide array of complex cataract cases that go beyond the routine. Such cases can often pose significant challenges, particularly for budding surgeons, and may require deviation from standard surgical protocols.

Through a series of curated video demonstrations, the course will present strategic approaches to managing hypermature, intumescent, and rock-hard cataracts. It will also address the nuances of cataract surgery in post-refractive surgery eyes, cases with extreme axial lengths, subluxated lenses, and posterior polar cataracts. In addition, techniques for handling various forms of small pupil scenarios will be discussed.

By the end of this course, participants will gain a clear, practical understanding of surgical strategies to effectively manage complicated cataract cases, enhancing their confidence and preparedness in real-world clinical practice.

No.	Topic	Speaker	Min
1.	Introduction	Ayan Mohanta	3
2.	Managing White Intumescent Cataracts and Difficult Capsules	Sugato Paul	10
3.	Pearls to Deal with Rock Hard Cataracts	Shouvick Dan	10
4.	Cataract Surgery in Post Refractive surgery and Extremes of Axial Length	Debashis Dutta	10
5.	Efficient management of Subluxated Cataracts	Arup Bhaumik	10
6.	Dealing with Uveitic and other Small Pupils	Sanjib Banerjee	10
7.	Posterior Polar Cataracts	Ayan Mohanta	10

Keynote Address : Seeing more, doing better : Does 3D Visualization improve Cataract surgery - S Bandopadhyay - 8 Mins

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC337 - Oops in Ophthalmic Plastic Surgery!

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Meeting Room U-03

Chief Instructor: Raghuraj Hegde

This distinctive course shines a spotlight on the often-overlooked yet crucial topic of complications in routine ophthalmic plastic surgery. Esteemed faculty from leading institutes and private practice will bring their clinical acumen and surgical wisdom to interactive, case-based sessions. The program will address managing complications in ptosis repair, blepharoplasty, socket reconstruction, orbitofacial trauma, dacryology, and ophthalmic oncology. Designed to be both practical and enriching, the course caters to seasoned oculoplastic surgeons seeking to refine their techniques, as well as early-career ophthalmologists aiming to build confidence in tackling complex surgical scenarios. Attendees will leave with valuable insights, improved surgical judgment, and enhanced readiness to handle real-world challenges.

No.	Topic	Speaker	Min
1.	Eyelid lift and repair, end your despair: Managing Complications of Ptosis Repair	Mukesh Sharma	10
2.	Tricky cases to finicky faces: managing complications of blepharoplasty	Akshay Nair	12
3.	Eye for an Eye: Managing Socket Complications!	Raghuraj Hegde	10
4.	From badly hit to fighting fit: Navigating sub-optimal orbito-facial reconstructions	Tarjani Dave	12
5.	Drip, drop, drip, drop, this clock must be stopped: Revision Dacryocystorhinostomy (DCR)	Rwituja Thomas	10
6.	Ophthalmic Oncology: Complications and the Complicated!	Raghuraj Hegde	12

Guest Talk : Virtual planning and 3D printing in orbital reconstructions - Priti Udhay (7 mins)

Panel Discussion : 9 mins

Uveitis Society (India) Session: 5 Clinical Pearls in Uveitis

Date :	12-03-2026 (Thursday)
Time :	14:00-16:25
Hall :	Meeting Room U-05

Five reasons clinicians should attend:

- Crisp, practical clinical pearls you can apply immediately in your practice
- Keynote lectures by international faculty, followed by discussions with eminent experts
- Interact through the 'i-Connect' platform—post your queries and receive live responses
- Win exciting prizes in the Think & Click mobile quiz
- A ready reckoner for these topics

Chair : Vishali Gupta, Sudha K Ganesh, and Padmamalini Mahendradas.

Moderator: Tanya Jain & Parthoprattim Dutta Majumder

Keynote address 1: The many faces of sympathetic ophthalmia - Alessandro Marchese (10 minutes)

5 Pearls to Avoid Misdiagnosis in Anterior Uveitis: Manisha Agarwal (7 minutes)

5 Red Flags You Should Never Miss in Pediatric Uveitis: Sudha K Ganesh (7 minutes)

5 Practical Tips to Diagnose TB Uveitis in Real-world Clinics: Vishali Gupta (7 minutes)

'Think & Click' Quiz

5 Pearls to Manage a Case of Scleritis: VedhaNayagi (7 minutes)

5 Clinical Clues to Diagnose Posterior Uveitis Correctly : Mudit Tyagi (7 minutes)

Keynote address 2: Ocular TB Management: Decisions That Shape Outcomes - Rina La Distia Nora (10 minutes)

5 Lab Tests Every Uveitis Clinic Should Use Daily: Abhilasha Baharani (7 minutes)

5 Clinical Signs That Hint at an Infectious Etiology: Reema Bansal (7 minutes)

'Think & Click' Quiz

5 Warning Signs of Masquerade Syndromes: Sudharshan S (7 minutes)

5 OCT/OCTA Pearls Every Ophthalmologists Should Know: Padmamalini Mahendradas (7 minutes)

5 Uveitis Emergencies Where You Must Act Fast: Alok Sen (7 minutes)

5 Steroid-Sparing Strategies That Work: Vipin Rana (7 minutes)

IC54 - Novel Methods for Suspending and Stabilizing Dislocated Intraocular Implants

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Meeting Room U-06

Chief Instructor: Keiki R. Mehta

Course will cover the essential steps for surgically stabilizing a dislocated lens. It will teach you how to evaluate a case pre-surgery, apply various techniques using capsular tension rings (CTRs), capsular segments, and capsular clips, and employ new suturing methods. You'll learn to use Prolene sutures with the buried Canabrava technique and tissue glue to ensure the capsule is securely stabilized.

No.	Topic	Speaker	Min
1.	Introduction to the course. Prolene loop dumbbell based Scleral fixation of secondary IOL's	Keiki R. Mehta	10
2.	Newer Techniques of Scleral Fixation of IOL – Modified Four Flange Technique.	Sri Ganesh	10
3.	Managing a Subluxated Lens with a Femto.	Mahipal S. Sachdev	10
4.	Glued IOL and looping techniques	Agarwal Amar	10
5.	Managing Post Traumatic Dislocated Lens Bag Complex.	Suhas Haldipurkar	10
6.	Dislocated Bag and IOLs. What Next?	Kumar Doctor	10
7.	A New Technique of Suturing a Subluxated Lens to the Sclera.	Cyres Keiki Mehta	10

The 84th Annual Conference of All India Ophthalmological Society

IC361 - Save Thyself: Tackling the toughest iatrogenic complications of the year

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Atlantiis 1

Chief Instructor: Kumar Doctor

Course will cover a variety of iatrogenic complications with case based analysis on why it occurred and how it was salvaged. Advanced video instruction course including wound leaks, anterior capsule puncture during wound creation, CCC run off & extension during hydro, early PCR in phaco, bag dialysis, CCC/ PC tear in I/A, entrapped haptic in IOL cartridge, misaligned/mispositioned IOLs will be covered along with tips and tricks for management. This advanced video instruction course will help and guide beginners and intermediate surgeons to know what is to be done in iatrogenic complications and salvage the situation for the best visual outcome

No.	Topic	Speaker	Min
1.	Save thyself: Toughestest iatrogenic complications of the year	Kumar Doctor	10
2.	What not to do: Management of iatrogenic complications	Mohan Rajan	10
3.	How to save yourself: Sticky iatrogenic cataract complications and management	Agarwal Amar	10
4.	Hail Mary of surgery: Tackling intraoperative mishaps in cataract surgery	Deepak Megur	10
5.	The Dangling cataract: How to mange intraoperative subluxation of cataract	Gaurav Luthra	10
6.	Save me I am drowning: Management of intraoperative sinking nucleus	Chitra Ramamurthy	10
7.	Help the drowning hand: How to save yourself from iatrogenic mishaps	Sri Ganesh	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

Odisha State Symposium - Ophthalmology at Cross Fire-A Debate Session

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Atlantiis 3

Chairperson : Sucheta Parija, Sabyasachi Pattnaik, ST Muralidhar

Convener : H.K.Rajguru, G.S.Das, Srimanta Behera

Co-convener : Ashok Nanda, Santosh Mohapatra , B.N.R. Subudhi

Moderator : Anurag Mishra, Shashwat Behera

1. Introduction to speakers - Prof Sucheta Parija, Chairman Scientific Committee, OSOS
2. Cornea Topical steroids in bacterial keratitis: friend or foe? - Shikha Mishra, Namrata Majhi
3. Retina and Uvea Laser barrage of lattice before refractive surgery- Yes/No - Priyadarshini Mishra, Sweta Patro
4. Paediatric Ophthalmology, Strabismus & Neurophthalmology Myopia Progression - Treat with Lenses or Drops - Vivek U Warkad, Shweta Dhiman
5. Oculoplasty Who will be the saviour in dysthyroid optic neuropathy? Drugs Vs scalpel !!! - Suryasnata Rath, Monalisha Pattnaik
6. Glaucoma Refractory glaucoma in eyes with vision-GDD Vs Micropulse diode CPC mTSCPC - Sangeeta Basantray, Pranamita Pujari
7. Cataract Subluxated IOL managed by Scleral fixed IOL / Iris claw IOL - Chittaranjan Mishra, Sanghamitra Kanungo

EXPERT PANELISTS: Panel discussion of 5 mins after each debate

Anita Panda, J C Das, Prasanna Mohanty, Sumita Mohapatra, P K Nanda, Subal Kar,

R C Meher , Subhabrata Parida, Sujata Das, Shrutakirty Parida, Aravind Roy, Bhagabat Nayak, Bruttendu Maharana, Puspha Kumari,

Sameer Patra , Siba Sahoo,

Pramod Sharma, Ramamani Dalai, Tarun Panda

The 84th Annual Conference of All India Ophthalmological Society

IC447 - Artificial Intelligence in Ophthalmology: Clinical Applications, Innovations and Ethical Perspectives

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Atlantiis 4

Chief Instructor: Chawla Gajendra

This instruction course unites top specialists from leading eye institutes of India and abroad, sharing their field experiences and real-world applications of artificial intelligence in ophthalmology. From the evolution of diabetic retinopathy screening—starting with manual models, moving to teleophthalmology, and now AI-driven outreach in rural communities—to AI’s role in glaucoma, ARMD, and systemic diseases (oculomics), the course presents a practical, future-ready perspective. Attendees will also explore how vision-language models and AI agents are empowering patients like never before. The session concludes with a deep dive into the legal and ethical aspects, essential for the responsible use of AI. Whether you're a general ophthalmologist or a retina specialist, this course offers transformative insights from pioneers shaping the AI revolution in eye care.

No.	Topic	Speaker	Min
1.	Emerging Role of Vision Language Models in Eye Care	Aashul Chawla	8
2.	Evolving from Teleophthalmology to AI-Based Retinal Screening in Rural Communities	Chawla Gajendra	8
3.	Leveraging AI for Diabetic Retinopathy and glaucoma Detection	Kim Ramasamy	8
4.	Role of AI in Detecting and Managing Age-Related Macular Degeneration	Prabu Baskaran	8
5.	AI applications using retinal images for screening: Eye and beyond	Divya Rao	8
6.	Enhancing Patient Engagement through AI-Powered Assistive Tools	Rajiv Raman	8
7.	Legal and Ethical Considerations in the Use of AI in Ophthalmology	G. Mahesh	8

JHARKHAND OPHTHALMOLOGICAL SOCIETY

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Trade Room 1

SYMPOSIUM: Cracking the code in complex cataract situation- Surgical and IOL challenges

CHIEF COORDINATOR: Dr.Bharti Kashyap (K06544)

Expert Panel: Mahipal Sachdev, Jagat Ram, Lav Kochgaway, Mohan Rajan, Priya Narang

Speakers:

PAEDIATRIC TRAUMATIC LENS SUBLUXATION

Only CTR - Seema Kumari

CTR with scleral fixation device- Neha Shivam Madan

TRAUMATIC CATARACT

Simultaneous Wound Repair and Cataract Surgery- Sunil Kumar

Wound Repair and Deferred Cataract Surgery- Nidhi Gajendragadkar

PSEUDO EXFOLIATION CATARACT WITH ASTIGMATISM AND
GLAUCOMA

Phaco Trab with Toric IOL – Bharti Kashyap

Phaco Trab with Non-Toric Monofocal IOL – Nilendu Mishra

50 YEAR OLD WITH CLEAR LENS, WANTS SPECTACLE INDEPENDENCE

Presbyopic IPCL – Bibhuti Bhushan

Clear Lens Extraction – Ajay Gupta

KERATOCONUS WITH CATARACT

RGP Contact Lens with Monofocal IOL– Pooja Kumari

Toric IOL – Sujoy Samanta

(Duration: 75 Mins, 6 Mins Each Speaker, Expert Panel 3 Mins Each)

The 84th Annual Conference of All India Ophthalmological Society

IC340 - Masterclass in IOL implantation in cases with a Compromised Capsular bag

Date :	12-03-2026 (Thursday)
Time :	14:00-15:10
Hall :	Trade Room 2

Chief Instructor: Suvira Jain

What do you do when the capsular bag doesn't behave?

In this instructional course, we will explore a range of scenarios involving a compromised capsular bag.

From PCRs to subluxated lenses to unstable capsules —we dive into the toughest surgical moments where the capsular bag is compromised.

We will cover the full spectrum of decision-making and IOL placement strategies in eyes with inadequate capsular support.

Led by a panel of highly experienced surgeons, each scenario will focus on the “how” and “why” of surgical choices.

Practical pearls. Surgical clarity. Better outcomes.

Join us and take your surgical confidence to the next level.

No.	Topic	Speaker	Min
1.	A Surgeon's Guide to IOL implantation in PCRs	Suvira Jain	15
2.	Zonular weakness & IOL strategies: From Support to Stability	Venkatesh Sugantharaj	15
3.	Iris & Angle Supported IOLs in the Absence of Capsular Bag Support	Minu M. Mathen	15
4.	Sutured or Sutureless? From Traditional Sutures to Innovative Sutureless SFIOLs	Sudeep Das	15
5.	Elite Vision, Fragile Foundations: Premium IOLs in Compromised Capsular Bag	Om Parkash Rohit	15

The 84th Annual Conference of All India Ophthalmological Society

IC491 - STRABISMUS SIMPLIFIED FOR THE GENERAL OPHTHALMOLOGIST

Date : 12-03-2026 (Thursday)

Time : 14:00-15:10

Hall : Trade Room 4

Chief Instructor: Arun Samprathi B.S.

Strabismic Amblyopia is one of the important causes of childhood blindness. Hence it is necessary for all general ophthalmologists to manage strabismus to prevent permanent visual loss. Strabismus is perceived as the most difficult Sub-specialty in Ophthalmology by General ophthalmologists. Infact it is the only subspecialty which does not require huge investments to start the practice. It involves simple Physics & Maths and is the most logical sub specialty in ophthalmology. In this course we would like to give a simplified approach to the evaluation, proper diagnosis & management options, which can be mastered by any ophthalmologist. We have a team of Eminent Strabismologists who would simplify strabismus with the help of videos, flow charts & panel discussions.

No.	Topic	Speaker	Min
1.	Evaluation of Strabismus is not difficult	Vidhya C.	12
2.	Horizontal strabismus is simple to manage	Kavitha V.	12
4.	vertical strabismus should not be missed	Sowmya R.	12
5.	Nystagmus needs methodical approach	Muralidhar Rajamani	12
6.	Principles of Strabismus surgery	Arun Samprathi B.S.	15

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

AIOC Theatre - E-Poster (Diabetic Retinopathy & Medical retina + Uvea + Ocular Pathology / Ocular Oncology and Tumors)

Date :	12-03-2026 (Thursday)
Time :	14:00-15:15
Hall :	AIOC Theatre - 1

Panelist : Archana Singh, Sakshi Kumar

1. [FP133] - Idiopathic Relapsing Panuveitis : A Therapeutic Tightrope in a Resource-Constrained Reality

Chief & Presenting author : Preethi K (P30355), Vandana Akshay Iyer

2. [FP224] - ACUTE BILATERAL RETINAL VASCULITIS AS THE INITIAL MANIFESTATION OF SYSTEMIC LUPUS ERYTHEMATOSUS.

Presenting author : Vaibhav Aggarwal (A29273), Chief author : Roopa Rokhade

3. [FP339] - Lacrimal gland adenocarcinoma mimicking as IgG4 related orbital disease

Chief & Presenting author : Archana Singh (A19346), Neelam Pushkar, Rachna Meel

4. [FP424] - Iris and Choroidal Metastases Presenting as Hypopyon Uveitis with Response to Systemic Chemoradiation

Chief & Presenting author : Ananya Kaginalar (A25529), Anirudh Kapoor

5. [FP566] - A SURVEY OF KNOWLEDGE AND ATTITUDES TOWARD GENETIC EYE DISEASES, TESTING, AND GENE THERAPY

Chief & Presenting author : R.SHAGILA , Pratyusha Ganne

6. [FP586] - Assessing the Safety of Posterior Subtenon Triamcinolone Injections in ocular inflammation

Chief & Presenting author : Rakhi Yadav (R29381), Dipankar Das

7. [FP656] - Multimodal Diagnosis and Treatment of Perifoveal Exudative Vascular Anomalous Complex.

Chief & Presenting author : Anusha S Madyal (A28357), Vivek Chaitanya, Geetha G., Prabhu Shanker M.

8. [FP666] - SAFETY AND EFFICACY OF TOPICAL 1% 5FU AS PRIMARY TREATMENT OF OCULAR SURFACE SQUAMOUS NEOPLASIA

Chief & Presenting author : Soma Sarkar (S28710), Bhaduri Anirban

9. [FP713] - Eye as a window to TB : A case of ocular tuberculosis without pulmonary symptoms

Chief & Presenting author : Rik Chakraborty (C30901), Salil Kumar Mandal

10. [FP907] - A Rare Case of Untreated Bacillary Layer Detachment Recovery in CRVO

Chief & Presenting author : Mishika Jain , Pratyusha Ganne

The 84th Annual Conference of All India Ophthalmological Society

11. [FP911] - Unmasking APMPE : A Diagnostic Challenge in Posterior Uveitis

Chief & Presenting author : Sakshi Kumar (S24719), Priyanka Mishra, AMIT SINGH

12. [FP1068] - Effect of growth hormone levels on diabetic retinopathy severity and progression

Chief & Presenting author : Swarna Biseria Gupta (G03786), Yogita Chaurasia

13. [FP1167] - Choroidal mass in a suspected case of Tuberculosis

Chief & Presenting author : Geetanjali Chhaparia (G29539), Santosh I Kumar, Vinod Kumar Singh

14. [FP1205] - Clinical Correlation Between Severity of Pre-Eclampsia/Eclampsia and Ocular Findings

Chief & Presenting author : Munagala Amrutha , P.A.S. Chalapathi Reddy

15. [FP1366] - EVALUATION OF ANTERIOR CHAMBER INFLAMMATION IN CORNEAL OPACITIES USING ANTERIOR SEGMENT OCT

Chief & Presenting author : Vishnuraj M , Lathika Vasu Kamaladevi

16. [FP1415] - A SUGAR COATED PUFFY PUZZLE

Chief & Presenting author : Athulya Arun , MARIMUTHU BALASUBRAMANIAM

17. [FP1579] - A Clinical Study of Patients with Rheumatoid Arthritis and their ocular manifestations

Chief & Presenting author : Tushar Jain (J31384), Manushree Gautam

18. [FP1693] - PAINLESS YET PERSISTENT - A SLOWLY PROGRESSIVE ORBITAL SCHWANNOMA IN A MIDDLE-AGED FEMALE

Chief & Presenting author : Vavilikolanu Sowmya (V30988), Modini Pandharpurkar

19. [FP1733] - NEUROLOGICAL MANIFESTATION OF UVEITIS: RETROSPECTIVE STUDY

Chief & Presenting author : Gogul Arthanareeswaran (A29679), Radha K. Annamalai

20. [FP1759] - Efficacy of Interferon Alpha 2B in treatment of Ocular Surface Squamous Neoplasia (OSSN)

Chief & Presenting author : Akash Khiyani (K30360), Apoorva Ojha

21. [FP2089] - Drug-Induced Bilateral Anterior Uveitis Mimicking Migraine: A Case Series

Chief & Presenting author : Rakesh Kumar Khandelwal (K30999), Shobhana Rath, Kshyanaprava Priyadarshini, Balakrushna Samantaray

22. [FP2115] - Contrasting Presentations of Optic Disc Pit Maculopathy: A Two-Case Series

Presenting author : Roshinee Kantamneni (R29010) ,Chief author : *Vinay Dastikop*, Amulya K G S

23. [FP2160] - Comparing conventional treatment vs focal laser in CSC using microperimetry and multifocal ERG

Chief & Presenting author : Shailly Tyagi (S30363)

The 84th Annual Conference of All India Ophthalmological Society

24. [FP2169] - Unilateral APMPEE Mimicking Choroiditis in a Young Female: A Diagnostic Challenge

Chief & Presenting author : Kalyani singh (K29412), Ashit Handa

IC82 - The myopia pandemic and your prudent ophthalmologist.

Date : 12-03-2026 (Thursday)

Time : 14:15-15:10

Hall : Atlantiis 2

Chief Instructor: Gayatri Ahuja

Myopia has become a pandemic and as per WHO the prevalence is expected to reach 3.3 billion by 2030.

Our lifestyle has a major role to play in this . Early detection is the key and when detected all means should be offered to prevent progression.

In our IC we will be covering lifestyle modifications in the prevention and control of myopia ,latest trends in the management of myopia and optical corrective measures in myopia management.

Damaging effects of phones/ screens in the development of myopia and associated personality changes will be discussed

There has also been a surge in the number of young patients with Keratoconus and we will be paying special emphasis on the challenges faced in managing paediatric Keratoconus .

Retinal changes in myopia lead to a lot of morbidity and vision threatening complications, these will also be discussed in the IC .

No.	Topic	Speaker	Min
1.	Introduction to the IC	Gayatri Ahuja	5
2.	Lifestyle modifications in prevention and control of myopia	Gayatri Ahuja	8
3.	How your phones make introverts and myopes out of your children	Neelima MEHROTRA	8
4.	Optical corrective measures for myopia in children	Jeenu Priya S. Tyagi	8
5.	Retinal changes in myopes	Lakshmi Kuniyal	8
6.	Paediatric Keratoconus challenges	Neera Agrawal	8

IC2 - Manual SICS - The Art, the Craft & the Science

Date : 12-03-2026 (Thursday)

Time : 15:15-16:25

Hall : Meeting Room L-01A

Chief Instructor: DHALI WAL RANJIT SINGH

IC begins with a brief overview of Manual SICS followed by describing the Crafting of the Perfect Incision.

The Key to Success in Small Incision Cataract Surgery is the Construction and Architecture of the Tunnel. Its location & difficulties in tunnel making & control of astigmatism would be discussed.

It will be followed by management of the Capsule in MSICS to discuss various Capsulorhexis types. The art of Hydro procedures in crafting successful nuclear prolapse in MSICS would follow.

Mastering of Nucleus delivery in Manual SICS and difficulties in nucleus management would be described.

Then will come VAST presentations by the Masters, showing various methods of SICS & their results. Temporal SICS technique would be shown in detail by a Master of SICS. What all is new in Manual SICS would be highlighted, described and discussed in detail in the end.

No.	Topic	Speaker	Min
1.	Manual SICS - A Surgery for all Reasons, A Surgery for all Seasons: An Introduction	DHALI WAL RANJIT SINGH	7
2.	Crafting the Perfect Incision: The Key to Success in Small Incision Cataract Surgery.	Gurvinder Kaur	7
3.	Management of the Capsule in Manual SICS.	Ravi Trehan	7
4.	The art of hydroprocedures in crafting successful nuclear prolapse in Manual SICS	Manisha Nagpal	7
5.	Difficulties in Nucleus Management and Mastering Nucleus Delivery.	Mita Joshi	7
6.	Temporal SICS.	Shakeen Singh	7
7.	What's new in Manual SICS?	Karamjit Singh	7

Panel Discussion : 26 mins

The 84th Annual Conference of All India Ophthalmological Society

IC220 - Fine tuning for visual outcome in cataract surgery - Beyond surgical skill

Date : 12-03-2026 (Thursday)

Time : 15:15-16:25

Hall : Meeting Room L-04

Chief Instructor: Rajiv Choudhary

Cataract surgery is one of the most performed surgery in ophthalmology. Now a days it becomes more toward refractive surgery rather than just removal of lens and IOL implantation. To accomplish cataract surgery beyond surgical skill many factors impact on final fine visual outcome. Recent advancement in technology and newer IOL's leading to improve fast recovery and precise vision. All preoperative workup and thorough counseling regarding visual outcome and patient need are the key factors for fine vision and patient satisfaction. In this instruction course we are discussing about enhancement of vision after surgery and how to make patient happy.

No.	Topic	Speaker	Min
1.	IOL power calculation - Precise outcome	Shroff Ashok Pranjivandas	7
2.	Newer generation IOL's in current scenario	Harbansh Lal	7
3.	Toric IOL power calculation -Astigmatism management	Rakesh Shakya	7
4.	Dysphotopsia and management	rajesh joshi	7
5.	Femtolasers advancement in cataract surgery	Mahipal S. Sachdev	7
6.	Role of iTrace and topography in cataract surgery	Rajiv Choudhary	7
7.	Role of counseling in cataract surgery	Urvija Choudhary	7

The 84th Annual Conference of All India Ophthalmological Society

The Evolving Landscape of Ocular Genetics: Global Insights and Future Directions

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room L-05

The Global Eye Genetics Consortium (GEGC) session at AIOC 2026 will present a comprehensive overview of advances in ocular genetics through a global lens. Experts from multiple countries will discuss recent developments in gene discovery, genotype–phenotype correlations, and the clinical application of next-generation sequencing in inherited eye diseases. The session will emphasize ethnic and population-specific genetic variability and its implications for diagnosis, variant interpretation, and patient management. Through focused talks and illustrative case discussions, the session aims to highlight current nuances in genetic testing and foster international collaboration between clinicians and researchers to advance care for patients with inherited ocular disorders.

Chairpersons: S Natarajan, Namrata Sharma, Raj Ramesar

Co-Chairpersons: Sundaresan, Sandeep Grover, Vanita Kumar (vanita.humangenetics@gmail.com)

Moderator: Shailja Tibrewal

1. Shailja Tibrewal - Update of GEGC activities - 5 mins
2. Raj Ramesar - A Genomic Perspective of Inherited Retinal Diseases in South Africa - 10 mins
3. Rajarshi Pal - Induced pluripotent stem cell-derived retinal cells for therapeutic applications - 10 mins
4. Sandeep Grover - Role of Gene Testing in Retinal diseases - 10 mins
5. P Sundaresan - Exploring mito-nuclear genetic factors in Leber's Hereditary Optic Neuropathy - 10 mins
6. Fulya Tuncay - Familial Exudative Vitreoretinopathy: From Bedside to Bench - 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC285 - Clues to Navigate the maze of medical management of glaucoma

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room L-06 & 07

Chief Instructor: (Col) Madhu Bhaduria

Medical Management of Glaucoma is the sheet anchor of Glaucoma treatment. Revival of old medications, introduction of new molecules, new preservatives, new packaging and delivery systems have left ophthalmologists totally confused. This IC will focus and help in optimizing glaucoma treatment. It will help in incorporation of newly available knowledge and modalities of treatment methods. Side effects, drug interaction, summation and deletion of therapeutic drugs will be given due place. In the end learner will have clarity of thought as to when to use, what to use, how to use and modify and when not to use. The current status of ocular blood flow neuroprotection and preservation of ocular surface will help in minimizing side effects. The fine tuning of available drugs will help in maximizing IOP reduction in least amount of drugs used. When to switch to lasers or surgery too will be included.

No.	Topic	Speaker	Min
1.	Introduction and current armamentarium	(Col) Madhu Bhaduria	12
2.	Rationale of Therapy when to initiate change or switch	Kirti Singh	11
3.	The world of Ocular Blood flow Neuroprotection- Where are We?	Sagarika Patyal	10
4.	New molecules and delivery Systems	Monika Arora	10
5.	Intra ocular AGMs, Administration, Effect and side effects	Suneeta Dubey	10
6.	New Preservatives and protection of Ocular surface.	Arshi Singh	10

Keynote Address (8') : Mirtogenol Supplementation and Changes in Ocular Perfusion and Retinal Nerve Fibre Layer Thickness in POAG:

A Study from Cipto Mangunkusumo Hospital, Jakarta, Indonesia - Astrianda Suryono

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC232 - VISUAL ELECTROPHYSIOLOGY - STEP BY STEP

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room U-01

Chief Instructor: Birendra Prasad Kashyap

Once poorly understood, Visual Electrophysiology has gained its popularity because of newer computer applications. Electrophysiology is being used for confirmation and prognostication of many diseases. People shy away from incorporating electrophysiology in their practice as they consider it to be complicated and tedious. However, once the basics of the testing and reporting are understood electrophysiology opens up more avenues of diagnosis and prognostication of diseases.

Our Instruction course will take you through the basics of Electrophysiology step by step and also guide on its implementation in routine practice.

At the end of this Instruction Course, you will be able to make the judgement of choosing the correct electrophysiological test, read the report, correlate and will be confident to start Electrophysiology testing at your centre.

No.	Topic	Speaker	Min
1.	Introduction to Visual Electrophysiology	Bibhuti Bhushan	10
2.	Knowing the machine and electrodes	Rahul Prasad	10
3.	Full Field ERG and Multifocal ERG	Birendra Prasad Kashyap	15
4.	Pattern ERG	Bibhuti B. Kashyap	10
5.	Tips on EOG	Bharti Kashyap	10
6.	VEP	Nidhi Gajendragadkar	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC514 - Amniotic membrane - The new biological in ophthalmology .

Date : 12-03-2026 (Thursday)

Time : 15:15-16:25

Hall : Meeting Room U-01 A

Chief Instructor: Ritu Arora

The amniotic membrane (AM) has gained considerable attention for its therapeutic potential due to its unique properties. This presentation delves into the applications, benefits, and prospects of amniotic membrane grafts (AMG) in ophthalmology. The course covers the fundamental principles of amniotic membrane grafting, followed by a comprehensive overview of AMG use in both anterior and posterior segment ocular pathologies. We will explore the application of AMG as an inlay or overlay in managing chemical injuries, corneal melts, and persistent epithelial defects. Additionally, the role of AMG in ocular surface reconstruction for cases of ocular surface squamous neoplasia (OSSN) and recurrent pterygiums will be discussed. We will highlight the techniques for harvesting AMG and its innovative use in treating recurrent macular holes and optic disc pits. We aim to provide a detailed understanding of the current and emerging uses of amniotic membrane grafts in ophthalmology.

No.	Topic	Speaker	Min
1.	The Science and Clinical Potential of Amnion Membrane Grafts in ophthalmology	Sandeep Kumar	10
2.	Inlays and outlay- Amniotic membrane grafting in corneal pathologies	Rushad Shroff	10
3.	Amniotic Membrane grafting in ocular surface reconstruction	Ritu Arora	10
4.	Amniotic membrane grafting in recurrent macular holes	Daraius Shroff	10
5.	Amniotic membrane grafting in optic disc pit maculopathy	Gagan Bhatia	10

Guest talk (8') : Closing the Macular Hole: The Diverse Choices - Abhijit Chattopadhyay (C06838)

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC304 - Dead Bag Syndrome: Recognizing and Managing a Silent Threat in Cataract Surgery

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room U-02

Chief Instructor: Siddhartha Ghosh

Dead Bag Syndrome(DBS) refers to a pathological state of the capsular bag in which the bag loses its elasticity and may become diaphanous and floppy, despite an uneventful initial surgery. These changes can lead to delayed IOL decentration, loss of effective lens position, visual disturbances, and even IOL dislocation.

This instruction course delves into the etiopathogenesis of DBS, highlights imaging and slit-lamp signs for early diagnosis, and presents surgical techniques for management. Emphasis will be placed on intraoperative measures to prevent DBS, particularly in high-risk eyes or with premium IOLs.

Learning Objectives:

- To understand the pathophysiology and risk factors for Dead Bag Syndrome.
- Identify early clinical and imaging signs suggestive of DBS.
- Explore preventive techniques during cataract surgery
- Learn surgical options for management
- Analyze real-world case scenarios

No.	Topic	Speaker	Min
1.	Introduction to Dead Bag Syndrome: Definition and Clinical Importance	Siddhartha Ghosh	4
2.	Pathophysiology and Risk Factors for Dead Bag Syndrome	Debashis Dutta	10
3.	Clinical Signs and Diagnostic Imaging in Dead Bag Syndrome	Ayan Mohanta	10
4.	Preventive Surgical Techniques in Dead Bag Syndrome	Arup Bhaumik	10
5.	Management Options for Dead Bag Syndrome	Abhijeet Desai	10
6.	DBS - Real World Scenarios	Kumar Doctor	10
7.	DBS in high risk eyes or with Premium IOLs	Siddhartha Ghosh	8

Panel Discussion : 13 mins

The 84th Annual Conference of All India Ophthalmological Society

IC256 - Target 20/20 in cataract surgery

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room U-03

Chief Instructor: Jatinder Singh Bhalla

With the advancements , Cataract surgery has become truly a Refractive surgery with patient's expectations zooming sky high. This course helps understand the various aspects one needs to master in order to meet these high expectations. This facilitates the delegates to be able to achieve a perfect result and a happy patient outcome in any situation during Cataract Surgery. At the end of the course ,Surgeon would have enough confidence to promise his/her patient a 20/20 vision.

No.	Topic	Speaker	Min
1.	PERFECT BIOMETRY	Jatinder Singh Bhalla	12
2.	PERFECT SURGERY - CONSISTENT & REPRODUCIBLE RESULTS	Santosh Bhide	10
3.	Achieving 20/20 with PCR : Dr.Manchanda Neeraj : 10 Mins ,	Manchanda Neeraj	10
4.	Optimising Toric IOL Accuracy	Parul M. Sharma	10
5.	Targeting the Astigmatism & reshaping the cornea where we are off Target	Piyush Kapur	10
6.	CATARACT SURGERY IN POST RETINAL SURGERY EYES	Sachin Mahuli	10

Panel Discussion : 13 mins

The 84th Annual Conference of All India Ophthalmological Society

IC95 - NEW AGE MYOPIA PRACTICE: ARE YOU READY?

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Meeting Room U-06

Chief Instructor: Neena R

Pediatric Myopia is poised to be the next global pandemic. There has been a paradigm shift in pediatric myopia management with focus on controlling progressive myopia, enabling practitioners to predict myopia onset more accurately and aiming towards personalized interventions to individual patients. With a focus on both established and emerging treatments, this IC aims to update the changing trends in myopia practice as well as highlight the growing importance of diagnostics, environmental, pharmacological and optical strategies in myopia management. Armed with a panel of experts from various premier ophthalmic institutes of India, the IC offers a wealth of insights into latest technological, pharmacological, optical and genetic advancements aimed at tackling myopia progression and mitigating risks. Eye-care practitioners can offer a more holistic & personalized approach to the growing global health challenge of myopia by integrating these targeted interventions in to their practice.

No.	Topic	Speaker	Min
1.	Myopia; Not just a Refractive error but a Global Pandemic	Leila Mohan	12
2.	From ATOM to LAMP; What Do We Know About Low Dose Atropine in Myopia Control?	Neena R	12
3.	All About the Next Generation Spectacle Lenses for Myopia Control(DIMS/HALT/CARE)	ROHIT SAXENA	12
4.	Understanding Myopia Controlling Contact Lenses(Multifocal, Dual focus, EDOF, Ortho K)	Sumitha Muthu	12
5.	The Future of Myopia Control: Exciting New Technologies on the Cards	Jitendra Nenumal Jethani	12
6.	Real World Scenario of Progressive Myopia: A Case Based Panel Discussion	Neena R	10

Keynote Address (8') : DIT Therapy in Myopia - A very new Technology to treat Myopia - Rupesh Agrawal

Panel Discussion : 5 mins

IC60 - Small Pupils, More than What Meets the Eye

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Atlantiis 1

Chief Instructor: Suven Bhattacharjee

This video based course will provide comprehensive instructions on strategies, devices and techniques to tackle pre operative and intraoperative small pupil in SICS, Phacoemulsification & Femto phaco. Topics will include: Assessment of small pupil & co-morbidities, Pseudoexfoliation, Fluidics, Viscomydriasis, Iris Hooks, Pupil expansion rings (B-HEX, B-OCTA & others). Stepwise instructions for each of these devices will be provided. Anticipation, recognition and management of IFIS will be specially emphasized. At the conclusion of this course, the attendee will be able to distinguish the elastic small pupil of IFIS from the non-elastic small pupil due to other causes and also develop a clear strategy to deal with a non dilating or constricting pupil with or without a floppy and prolapsing Iris, with judicious use of fluidics, viscoelastics and devices like Iris hooks and rings.

No.	Topic	Speaker	Min
1.	Non device options in Small Pupil	J. S. Titiyal	8
2.	IFIS	Arup Chakrabarti	8
3.	Iris Hooks	Sudeep Das	8
4.	Pupil Expander Rings - B-HEX, B-OCTA & others	Suven Bhattacharjee	8
5.	Shallow AC and Small Pupil	Sourabh Patwardhan	8
6.	Pseudoexfoliation and Small Pupil	Deepak Megur	8
7.	SICS in Small Pupil Eyes	Minu M. Mathen	8

Panel Discussion : 19 mins

The 84th Annual Conference of All India Ophthalmological Society

IC563 - Management of comorbidities in Cataract surgery

Date : 12-03-2026 (Thursday)

Time : 15:15-16:25

Hall : Atlantiis 2

Chief Instructor: Elankumaran Pasupathi

Cataract often coexists with anterior and posterior segment diseases, making coordinated management vital for optimal outcomes. This session brings expert surgeons together to share practical, condition-specific approaches for tackling complex cataract scenarios. Emphasis is placed on holistic evaluation, reducing surgical burden through thoughtful combined or sequential plans, improving refractive accuracy by treating coexisting disorders, and enhancing long-term patient satisfaction. The program provides actionable insights to help ophthalmologists deliver safer surgeries, smoother recoveries, and superior visual results.

No.	Topic	Speaker	Min
1.	Management of Glaucoma with cataract - combined procedures	Sandhya R.	10
2.	Management of Cataract in post refractive surgery eyes	Priyank Solanki	10
3.	Management of Dry eyes with cataract	Elankumaran Pasupathi	10
4.	Management of pterygium with Cataract	Elankumaran Pasupathi	10
5.	Tips & Tricks Intravitreal injections and cataract	Subhash Prasad	10
6.	Management of Diabetic macular oedema with cataract	Ashok Kumar M.	10
7.	Management of Corneal Opacities with cataract	Shahbaaz Mohd	10

Panel Discussion : 5 mins

UKSOS Session - Innovative Nuances in Ophthalmology

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Atlantiis 3

Chairpersons : B. K. Oli, A. K. Gupta

Co-Chairpersons : Sanjeev K. Mittal, Satanshu Mathur

Convenor : Sunil Chaturvedi

Panelist : Vinod Arora

Panelist : Gaurav Luthra

Panelist : Amit Singh

Panelist : Tarannum Shakeel

Moderators : Kanika Agrawal, Dr Ashima Grover

Speakers:

Each Talk 7 minutes

1. Bridging the Divide: The Ophthalmic and Psychiatric Disorders - Sanjeev K Mittal
2. Cracking the Rock : Phaco in hard cataract - Satanshu Mathur
3. Why PRK still shines in the refractive Landscape - Ashima Grover
4. Lifitegrast 5 percent Ophthalmic solution: Is it a game changer in the management of DED? - Sunil Chaturvedi
5. Small pupil, Big problem! - Vinod Arora
6. Sciborg: Perfecting ICL outcomes using AI and deep learning - Gaurav Luthra
7. Anti vegf injection vs Vitrectomy a paradigm shift in retina practice for tier 2 cities. A financially Viable option! - Rahul Sharma
8. Utilizing donor cornea stored in MK media beyond three days: optimizing utilization of scarce resources - Tarannum Shakeel
9. Expanding the Role of the Forus ROP Camera: From Screening to Real-Time Guidance in Laser Management of ROP - Kanika Agrawal
10. Frontalis Flap technique in congenital ptosis - Vishal Sharma

IC374 - Situations in glaucoma surgery making the surgeon 'pink'

Date : 12-03-2026 (Thursday)

Time : 15:15-16:25

Hall : Atlantiis 4

Chief Instructor: Shikha Gupta

- This video assisted course will show some unpredictable moments during the different glaucoma surgeries, which usually leave the surgeons perplexed intra-operatively.
- These scenarios and their on-the -spot management will enrich the audience regarding what to anticipate and how to deal with such unexpected situations wisely.

No.	Topic	Speaker	Min
1.	The 'Sandy' eye that went for trabeculectomy	Harsh Kumar	10
2.	The GDD that failed to drain	Prof. Viney Gupta	10
3.	The suture which wasn't going right into the Schlemm's	Shikha Gupta	10
4.	The angle that never stopped to bleed red	Julie Pegu	10
5.	The anterior chamber which remained collapsed	Shikha Gupta	10
6.	The bleb that never survived	Gazella Bruce Warjri	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC393 - Subluxated Crystalline Lens: Decoding Challenges and Mastering Management

Date : 12-03-2026 (Thursday)

Time : 15:15-16:30

Hall : Trade Room 1

Chief Instructor: Vijay Sharma

The course aims to equip anterior segment and cataract surgeons with practical, case-based knowledge to successfully manage subluxated crystalline lenses of varied etiologies - developmental, traumatic, or iatrogenic. Through real-world surgical video demonstrations and expert discussion, the course will address preoperative assessment strategies including zonular status evaluation, imaging, and surgical planning. It will cover tools for capsular support and zonular stabilization such as CTRs, Cionni rings, capsule retractors, and hooks. Experts will present stepwise phacoemulsification approaches in eyes with subluxation, highlighting intraoperative pearls and safety maneuvers to preserve capsular integrity. Various intraocular lens fixation options will be discussed—ranging from in-the-bag IOLs with stabilization devices to scleral-fixated lenses. The course will also focus on recognizing and managing intraoperative complications, ensuring predictable visual outcomes.

No.	Topic	Speaker	Min
1.	Preoperative evaluation and surgical planning in subluxated lenses	Manik Sardana	10
2.	Zonular and capsular support techniques	Gaurav Gupta	15
3.	Phacoemulsification in subluxated lens: Techniques and video pearls	Jagat Ram	20
4.	Intraocular lens fixation and complication management	Vijay Sharma	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC357 - When to Say No!

Date :	12-03-2026 (Thursday)
Time :	15:15-16:25
Hall :	Trade Room 2

Chief Instructor: Parul Sony

In the pursuit of excellence in ophthalmic care, knowing when not to intervene is as crucial as knowing when to act. This instruction course aims to equip ophthalmologists with the clinical acumen and confidence to say “No” judiciously in specific scenarios where interventions may do more harm than good or yield suboptimal outcomes. Through case-based discussions, the course will highlight key situations across refractive surgery, cataract, and glaucoma management where restraint is the best approach.

No.	Topic	Speaker	Min
1.	Saying No to LASIK	Anchal Gupta	10
2.	Saying No to Multifocal IOLs	Parul Sony	10
3.	Saying No to Toric IOLs	Deepa Gupta	8
4.	Saying No to OCT diagnosed Glaucoma	Parul Sony	10
5.	Saying No to YAG PI in Angle Closure Glaucoma	Surbhi Arora	8
6.	Saying No to AntiVEGF Injections	Ashish Lall	8

Panel Discussion : 20 mins

13. [FP1573] - TO ASSESS THE LEVELS OF SERUM URIC ACID IN HYPERTENSIVE RETINOPATHY

Chief & Presenting author : Pooja Kapadia (P28113), Anita Rani

14. [FP1730] - Retinopathy of Prematurity in a Tertiary Care Centre in Western Rajasthan: An Observational Study

Chief & Presenting author : Yamini Kanwat , Kavita Rajan Bhatnagar, Kirti Jaisingh, Manjari Tandon

15. [FP1977] - Post-Fever Retinitis: A Case Series of Delayed Vision Loss

Chief & Presenting author : Aastika GAUTAM (A28405), Mansi Sharma, Manendra Singh

16. [FP2121] - Role of ILM peeling in vitrectomy for primary macula off rhegmatogenous retinal detachment

Chief & Presenting author : Sonal Paliwal (S19596)

17. [FP2123] - Beyond the Golden Gleam: The Silent Spiral of Straatsma Syndrome

Chief & Presenting author : Anju Bansal (A26061), Apoorv Grover, Tanya Jain

18. [FP2130] - Retinal Angioma in a Young Female: A Diagnostic Suspicion of Von Hippel-Lindau Syndrome

Chief & Presenting author : Priyank Sonani , Patel Virendra Mohanbhai

19. [FP2133] - Best's Maculopathy with CNVM: Rapid Vision Gain After single dose Anti-VEGF Injection

Chief & Presenting author : Suprava Sahu (S30655), Apan Kumar Saha, Plavani Priyadarshini, Sumita Mohapatra

20. [FP2185] - "Unmoved and Unchanged: Choroidal Hemangioma Showing No Progression or Treatment Response"

Chief & Presenting author : Rajeshwari Chitti (R30006), Ranjitha C S

21. [FP2252] - Vitamin Supplementation Adjunctive therapy in Macular Edema due to Hyperhomocystinemia induced BRVO

Presenting author : Soumyadeep Majumdar (M17588) ,Chief author : Madhurima Kumar

22. [FP2312] - A case of pioglitazone induced persistent severe diabetic macular oedema

Chief & Presenting author : Shraddha Mahadik , Pradeep Tekade

23. [FP2319] - THROUGH THE LOOKING GLASS :RETINAL MANIFESTATIONS IN HIV

Chief & Presenting author : Venkata Sai Sweeya Donepudi (V27801), Radha K. Annamalai

24. [FP2337] - CMV retinitis in a young adult with acute lymphoblastic leukemia

Chief & Presenting author : Iekshiytha K , Ashi Gupta

The 84th Annual Conference of All India Ophthalmological Society

Young WOS (YWOS) Session of Women Ophthalmologists Society

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room L-01

Chairs : Madhu Bhaduria, Mohita Sharma, Suneeta Dubey

Co Chair : Swati Tomar

Convener : Divakant Mishra

Co Convener : Sonal Kalia

Moderators : 1. Ridhima Bhagali, 2. Rakhi D Cruz, 3. Sonali Sahoo, 4. Nupur Goel

About WOS and YWOS Wing : Mohita Sharma- 7 min

5 Pearls for success for young ophthalmologists- Swati Tomar- 5 min

Each talk- 3 min, Expert comments- 3 min

1. Moms guilt Speaker : Rakhi D Cruz

Expert comments : Doel Biswas, Pooja Sinha

2. Back after a break Speaker : Nupur Raina

Expert comments :Gursimran Kaur, Sonal Kalia

3. Working hours Speaker : Arshi Singh

Expert comments : Ragini Parekh, Poonam Jain

4. Facing an Interview Speaker : Sruthi RS

Expert comments :Aditi Agarwal, Manisha Rathi

5. Negotiating for an equipment Speaker : Sunandini Bose

Expert comments : Bharti Kashyap, Keya Burman

6. Setting up a practice Speaker : Richa Gupta

Expert comments : Rinku Das, Dr Divakant Mishra

7. Corporate work etiquettes Speaker : Lipi Mittal

The 84th Annual Conference of All India Ophthalmological Society

IC77 - Let Us Make Unhappy Patient SMILE Even After Uneventful Phaco Surgery

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room L-01A

Chief Instructor: Shroff Ashok Pranjivandas

In spite of reasonably good phaco surgery, many times patients complain of some disturbing symptoms like pain, watering, foreign body sensations. Moreover, they do not have clear vision as it was explained to them before surgery. And they are really concerned about it when premium IOL has been used. We as surgeons, remain concerned as what has going wrong after otherwise good phaco surgery. There may be various reasons like Corneal Oedema, Raised IOP, Inflammation, Infection, Residual Refractive Error or even Misalignment of IOL. Thorough examination and sympathetic approach with properly managing the issue will certainly bring smile on patient's face. Super specialist faculties will explain to ascertain the cause and will discuss the management, so that your patient comes back to you for fellow eye, rather than going elsewhere.

No.	Topic	Speaker	Min
1.	Introduction	Shroff Ashok Pranjivandas	5
2.	Disturbing Symptoms	Urvija Choudhary	8
3.	Corneal Issues	Shobita Nair	8
4.	Elevated IOP	Mayuri B. Khamar	8
5.	Refractive Surprises	Harbansh Lal	8
6.	Mal Positioned IOLs	Shroff Ashok Pranjivandas	8
7.	Vitreo Retinal Issues	Vinit Shah	8

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC238 - Building skills and confidence in DCR : Breaking the Fear Barrier

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room L-04

Chief Instructor: Nilanjan Kaushik Thakur

Even after decades as the gold standard for treating NLD obstruction, External DCR remains underused by many ophthalmic surgeons. This hesitation is often fueled by concerns about the surgical learning curve, complications and cosmetic outcomes. By addressing the most cited “allegations” against DCR head-on, this session will demystify the procedure and offer practical tips, technical refinements, and confidence-building strategies. A panel of experienced DCR surgeons will address these allegations in video assisted interactive discussions in a mock trial manner.

- a) Punctum to NLD-Clarity of surgical Anatomy: Dr Jayshree Baruah(10 min)
- b) Work up before surgery: Dr Krishnapriya J Kaimal(10 min)
- c) Managing congenital Dacryocystitis : Dr Jayanta Kumar Das(10min)
- d) Conventional DCR: Dr Nilanjan Kaushik Thakur(10 min)
- e) Overall Tips and Tricks in Lacrimal surgery from Master: Dr Ashok Kumar Grover(10 min)
- f) Approaching Failed DCR : Dr Rituwja Thomas Grover(10 min)

Discussion 15 min

No.	Topic	Speaker	Min
1.	Punctum to NLD: Clarity of Surgical Anatomy	Jayashree Baruah	10
2.	Work up before Surgery	KRISHNAPRIYA J KAIMAL	10
3.	Managing congenital Dacryocystitis	Jayanta Kumar Das	10
4.	Conventional DCR	Nilanjan Kaushik Thakur	10
5.	Overall Tips and Tricks in Lacrimal surgery from Master	Ashok Kumar Grover	10

IC19 - Parasitic eye diseases: Case based course

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room L-05

Chief Instructor: Dipankar Das

Parasitic eye diseases are prevalent in India. Clinico-pathological correlations are very important to diagnose them completely. Anterior segment, posterior segment, orbital and adnexal ophthalmic parasites will be dealt in the course. A relatively newer entity like diffuse unilateral subacute neuroretinitis will be covered here. Ocular parasites may cause numerous complications in the eye including choroidal neovascularization by dead worms will be presented. Highlights of the course includes various nuances in ancillary investigations such as fluorescein angiography, optical coherence tomography on posterior segment parasitic diseases; in-vivo and in -vitro live imaging of the ocular parasites; newer staining methods on the diagnosis of parasites; histopathology; advanced/ scanning electron microscopy and spectroscopy studies. The course will be beneficial for ophthalmic postgraduates, fellows and ophthalmic pathologist-microbiologists.

No.	Topic	Speaker	Min
1.	Introduction	Dipankar Das	5
2.	Anterior segment parasitic eye diseases-Case based	Dipankar Das	12
3.	Posterior segment parasitic diseases- Case based	Jyotirmay Biswas	12
4.	Parasitic diseases of orbit and adnexa-Case based	Yashdeep Das	12
5.	Diffuse unilateral subacute neuroretinitis- Case Based	Reema Bansal	12
6.	Complications of parasitic eye diseases- Case based	Debdulal Chakraborty	12

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC388 - Significance of Macular Evaluation in all stages of Glaucoma

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room L-06 & 07

Chief Instructor: Sumita Mohapatra

Damage to the macula has been recognised to be more common in patients with glaucoma than previously thought. Macular evaluation is crucial in comprehensive glaucoma management particularly for early detection, providing complementary information to other diagnostic tools, monitoring progression and overcoming limitations of optic nerve head assessment. Such evaluation can identify progression when Nerve Fiber Layer measurements plateau. Macular OCT scans are more reproducible than other methods. Early micro-vascular changes detected by OCT Angiography can be a marker of glaucomatous damage. While glaucoma is often associated with peripheral vision loss, damage to macula can significantly impact central vision which is crucial for daily tasks of patients making macular evaluation quintessential to preserving patient's quality of life. Through this instruction course, importance and methodologies of macular evaluation across glaucoma stages will be discussed by an experienced panel.

No.	Topic	Speaker	Min
1.	Introduction to the course	Sumita Mohapatra	3
2.	Macular Evaluation in Glaucoma – Why it is necessary?	Prasanta Kumar Nanda	7
3.	Understanding the anatomy of macula and how it relates to glaucoma	Bhagabat Nayak	8
4.	Central Visual Field Defects in early glaucoma	Tutul Chakravarti	12
5.	Macular Optical Coherence Tomography imaging in glaucoma	Deepak Mishra	12
6.	Role of Optical Coherence Tomography Angiography (OCTA) of Macula	Sanghamitra Kanungo	11
7.	Structure-function relationship in macular evaluation for glaucoma	Sumita Mohapatra	10

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC92 - Managing the most dreaded complication- Ocular Hypotony !

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Meeting Room U-01

Chief Instructor: Manisha Agarwal

There are several reasons for the intraocular pressure to be low in an eye and this increases the risk of subsequent phthisis bulbi which is the most dreaded complication for any Eye surgeon.

This course highlights what is ocular hypotony and it's various causes such as post traumatic- wound leakage, cyclodialysis cleft/choroidal detachment/retinal detachment, ciliary shutdown, chronic uveitis with ciliary membranes, anterior PVR in chronic retinal detachment, post surgical etc. Experts will deal with the assessment of the cause of ocular hypotony with the help of various diagnostics and management strategies including cyclodialysis cleft repair, dissection of ciliary membranes, draining the serous choroidal detachment and when is the best time to instill silicone oil

No.	Topic	Speaker	Min
1.	1. Risk factors for Ocular hypotony early and late	Mohit Dogra	8
2.	Management of Post-surgical hypotony	R. Unnikrishnan Nair	8
3.	Repairing cyclodialysis clefts	Manisha Agarwal	8
4.	Managing Choroidal detachments	Sangeet Mittal	8
5.	Dealing with Tractional hypotony	Parveen SEN	8
6.	Atrophic hypotony secondary to chronic uveitis	Vishali Gupta	8

Panel Discussion : 27 mins

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - Dry Eye Syndrome: Evolving Diagnostics and Care

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Meeting Room U-01 A

Lakshmi Kuniyal

Dry eye was once seen as a single entity. With time we have seen the evolution of this disease from single entity to a syndrome. The varied spectrum of presentation has brought up the nomenclature of Dry Eye Syndrome (DES). DES has now become a concern for premium IOL surgery, refractive surgeries and make up a good chunk of our regular OPD profile. In this Instruction Course we aim to touch various aspects of diagnostics, preventive and evolving treatment measures. We aim to cover the journey from preventive aspect to treatment to follow up.

1. Introduction - Lakshmi Kuniyal - 5 Mins
2. Impact of lifestyle challenges on ocular surface - Lakshmi Kuniyal - 12 Mins
3. Non invasive ocular surface assessment - Gayatri Ahuja - 12 Mins
4. Management of severe dry eye beyond eye drops - Neera Agrawal - 12 Mins
5. IPL therapy in dry eye - Jeenu Priya S. - 12 Mins
6. Optimization of treatment with methodical clinical assessment and follow up - Neelima MEHROTRA - 12 Mins

Total duration(include panel discussion : 10)

IC513 - My Mistake -You Learn: Managing Peropeartive Challenges and Complications During Phacoemulsification

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Meeting Room U-02

Chief Instructor: Sugato Paul

In This Video based Instruction Course, the Instructors will analyse different Per-operative complications faced during Phacoemulsification by the anterior segment surgeons and how to manage them in a safe and efficient way. This course will include Managing wound related complications, Rhexis Run Out, IOL related complications, Tackling Iris injury, Intraoperative Zonular Dehiscence, Posterior Capsule Rent, Intraoperative Hard eyes , Ifis and Peroperative Small Pupil.

No.	Topic	Speaker	Min
1.	Introduction to the course	Sugato Paul	3
2.	Tackling Faulty Wound Construction During Phacoemulsification	Anujeet Paul	7
3.	Managing Rhexis Extension During Phacoemulsification: Tips and Tricks to Complete the Surgery	Rudra Prosad Ghosh	7
4.	Intraoperative Hard Eye: Surgeons Nightmare	SWATI AGARWAL	7
5.	Managing Intra Operative Ifis and Small Pupil	Nitin G Dhira	7
6.	PCR in different stages of phacoemulsification - managing safely	Sugato Paul	7
7.	Managing IOL Related Complications	Ayan Mohanta	7
8.	Managing Intraoperative Zonular dehiscence	Arup Bhaumik	7
9.	Intraoperative Iridodialysis Repair : Beginners Guide	Arup Bhaumik	7

Panel Discussion : 16 mins

The 84th Annual Conference of All India Ophthalmological Society

IC469 - Multimodal Approach to Astigmatism Management During Cataract Surgery (MSICS & Toric IOL)

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Meeting Room U-03

Chief Instructor: Narendra Singh Verma

Astigmatism is a common refractive error that can significantly impact visual quality.

This course focuses on the comprehensive management of astigmatism during various types of cataract surgeries.

Topics will include:

Preop Assessment:

Examination techniques, evaluation & tips for accurately assessing the magnitude, axis, and type of astigmatism. Video-based demonstrations of various IOL power calculators and SIA calculators.

Astigmatism Correction Methods:

An overview of techniques including MSICS, LRI, OCCI, Toric IOL implantation, and FLACS.

Demonstration of various corneal marking techniques and the use of image-guided systems for enhanced precision.

Intraoperative Tips:

Step-by-step procedural guidance with surgical tips, along with a discussion of the pros and cons of each approach.

Postoperative Management:

Examination protocols, monitoring strategies, and management of residual refractive error using diagnostic tools and IOL realignment formulas.

No.	Topic	Speaker	Min
1.	Introduction	JAGANNATH BORAMANI	5
2.	Pre-op assessment, IOL Power & SIA calculation & surgical planning.	Narendra Singh Verma	10
3.	Construction of ergonomically safe scleral tunnel incision	Neeta Dodwad	10
4.	2 mm MSICS (Targeting the untargeted)	Amulya Nath Sahu	10
5.	Customised incision cataract surgery (CICS)	JAGANNATH BORAMANI	10
6.	Easy, error free marking of steep axis & Toric IOL axis alignment.	Narendra Singh Verma	10
7.	Evaluation of post-op results & recent advances	Narendra Singh Verma	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC278 - Micro Innovations, Macro Impact: Transformative Breakthroughs in Cataract and Refractive Surgery

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Meeting Room U-05

Chief Instructor: Samaresh Srivastava

The Field of Ophthalmology Has Always Been at the Forefront of Medical Innovation, Continuously Evolving to Incorporate the Latest Technological Advancements and Surgical Techniques. While Large-Scale Industry Innovations Often Capture the Spotlight, It is Frequently the Small, Individual Breakthroughs That Bring About Profound Changes in Everyday Clinical Practice. This Instruction Course Aims to Shine a Light on These Pivotal Contributions.

This Course Will Gather a Group of Esteemed Ophthalmologists Who Have Made Significant, Individual Contributions to Cataract and Refractive Surgery. . This Format is Designed to Foster an Interactive and Collaborative Learning Environment, Encouraging Participants to Think Creatively and Consider How They Can Implement Similar Innovations in Their Practices.

No.	Topic	Speaker	Min
1.	AUTODROP - A Bluetooth enabled application based eyedrops to improve compliance in patients	Neeraj Israni	10
2.	Novel IOL design for Aphakia: A seven year journey	Nivean M	10
3.	See the Unseen : Making your own imaging systems	Samaresh Srivastava	10
4.	Innovations in refractive surgery	Rohit Shetty	10
5.	Beyond Boundaries: the Key to Innovation	Sri Ganesh	10
6.	Old is Gold : Posterior Polar Cataract revisited	Deepak Megur	10

IC490 - Diabetic Macular Edema: Asking the Unasked, Answering the Overlooked

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Meeting Room U-06

Chief Instructor: Alok Sen

With the widespread availability of anti-VEGF agents and easy access to intravitreal injections, more and more comprehensive ophthalmologists are independently treating diabetic macular edema. However, key questions about diagnosis, timing, alternatives, and long-term management often remain unasked and unanswered. This instruction course is designed as a panel-based, case-driven discussion rather than a lecture series, focusing on real-world DME scenarios. The panel will tackle practical but under-discussed dilemmas—when not to inject, how to select patients for laser, how to optimise steroid use, and what investigations are essential. Audience participation will be encouraged to create an engaging, thought-provoking session that will clarify what every comprehensive ophthalmologist must know before reaching for the injection.

No.	Topic	Speaker	Min
1.	Recognising the Suitable DME: Who Really Needs an Injection?	Alok Sen	8
2.	When is Anti-VEGF Not the Right Choice? Looking Beyond the Needle	Lalit Verma	8
3.	Anti-VEGF loading phase over? What next if fluid persists?	Dinesh Talwar	8
4.	Cataract and DME: Timing Surgery, Injection, and Expectations	Pawan Puneet Malhotra	8
5.	Steroids in DME: Which Patient, Which Steroid, and When?	Amruta Vijay More	8
6.	Investigating DME: What's Truly Essential and What's Optional in 2025?	Pranav Saluja	8
7.	DME and Focal Laser: Are We Forgetting When It Still Works?	Smriti Gahalain	8

Panel Discussion : 19 mins

IC130 - Over coming Intraoperative Challenging situations

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Atlantiis 1

Chief Instructor: Santosh Bhide

With advances in technology and surgical techniques, cataract surgery is one of the safest procedure

Sometimes all of a sudden , there are challenging situations like sudden detachment of Descemet's membrane, aqueous misdirection and high IOP, Zonular dialysis, PCR and IFIS

Expert speakers will share their experiences in how to avoid and handle such situations

This IC is going to help cataract surgeons in managing intraoperative tricky situations efficiently

No.	Topic	Speaker	Min
1.	Introduction	Santosh Bhide	5
2.	Descemet's Detachment during cataract surgery - Tips for prevention and management	Vikas Mittal	12
3.	Aqueous misdirection and rock hard eye	J. S. Titiyal	12
4.	Zonular Dialysis	Sourabh Patwardhan	12
5.	Prevention and Management of PCR	Deepak Megur	12
6.	IFIS	Santosh Bhide	7

IC242 - Ocular Trauma Demystified: A Practical Course for every Ophthalmologist!!

Date :	12-03-2026 (Thursday)
Time :	16:30-17:40
Hall :	Trade Room 1

Chief Instructor: Sonal Vyas

Ocular Trauma is one of the leading causes of monocular blindness especially in children and in young adults. Ophthalmology practice today is more sub specialty driven, but ocular trauma cuts across all specialties. Learning the correct management of ocular trauma by comprehensive Ophthalmologists is a great contribution on their part in preventing the debilitating consequences. This 'direct from the masters' course is a step by step mentoring in all clinical aspects of trauma. Right from basics of lid and orbital trauma, we will address essential principles of corneal and scleral wound repair. Controversies of posterior segment injuries, endophthalmitis prevention and management will be discussed. Newer revealing research on traumatic glaucoma and traumatic optic neuropathy will also be covered. This largely video based course will give an "evidence based" update on ocular traumatology. The whole course will be delivered in an easy to grasp way and will be interactive.

No.	Topic	Speaker	Min
1.	Ocular Trauma Classification And Its Prediction - The Latest Update!!	Tanmay Gupta	8
2.	Cornea & Scleral Injury - The Right Technique To Repair!!	Sonal Vyas	8
3.	Traumatic Cataract Management - Learn It From Masters!!	Rajesh Sinha	8
4.	Angle Recession Glaucoma : How To Diagnose , When To Treat?	Dilip Lalwani	8
5.	Management Of Traumatic Endophthalmitis - Nothing Is Impossible	Vijaya Sahu	8
6.	Step By Step - Lid And Canalicular Repair	Gunjan Saluja	8
7.	Trauma And Posterior Segment - A Lot To Save !!	Santosh Singh Patel	8

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC299 - Corneal Perforations- A stitch in time saves 24-but better late than never. And never say never!

Date : 12-03-2026 (Thursday)

Time : 16:30-17:40

Hall : Trade Room 2

Chief Instructor: Swati Tomar

Corneal perforation mostly results from infection, but can also be from non-infectious causes like xerosis and collagen vascular disease. It is an acute ophthalmic emergency and requires immediate intervention. Our aim is to enable every practising ophthalmologist to handle such contingency with the best possible resources at hand. The course will outline importance of diagnosing impending perforations, preventing them and managing medically. The surgical management of a perforation is based on the size, location, underlying pathology, skill of the surgeon and availability of corneal tissue. Small perforations can be sealed with tissue adhesive and bandage contact lens. If available an amniotic membrane graft can be a useful adjunct. Larger perforations can be temporarily sealed by tenon's patch graft or conjunctival hooding-if cornea is unavailable. Definitive management is a corneal transplant-either therapeutic or tectonic-technique of which will be simplified with surgical videos.

No.	Topic	Speaker	Min
1.	Prevention is better than cure-Impending perforations / Tissue adhesive and BCL	Swati Tomar	10
2.	A stitch in time saves nine – Amniotic membrane and Tenon to the rescue-	Sujata Das	10
3.	Ask not what is lost : Work to preserve what is left – Therapeutic Penetrating Keratoplasty	Srivalli Kaza	10
4.	There's still hope-Never give up! – Tectonic Keratoplasty with other surgeries	Paras Indravadan Mehta	10
5.	Recent Advances and innovative modalities in Corneal Perforation management	Eeshita Agarwal	10

Panel Discussion : 25 mins

IC471 - Conquering the Contracted Socket: Surgical Strategies, Innovations, and Aesthetic Rehabilitation

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Ballroom

Chief Instructor: Yamini Maniktala

This comprehensive instruction course addresses the multifaceted challenges of managing anophthalmic contracted sockets, with focus on pediatric and adult populations. The session begins with an overview of socket growth and conformer therapy in children, highlighting compliance barriers and strategies for long-term success. Faculty will discuss staged reconstruction techniques for severely contracted sockets and re-intervention strategies in recalcitrant cases. Surgical complications such as implant migration and extrusion will be explored, tips to prevent and manage them. Emphasis will also be on achieving aesthetic symmetry through meticulous socket reconstruction and prosthetic planning. Finally, course introduces future directions in socket surgery, including bioengineered scaffolds and tissue substitutes. Through case based discussions, surgical videos, clinical pearls, attendees will gain a practical framework for restoring function and aesthetics in challenging socket scenarios.

No.	Topic	Speaker	Min
1.	Anophthalmic Socket in Children: Growth, Compliance, and Conformer Therapy Challenges	Raj Anand	8
2.	Managing the Recalcitrant Contracted Socket: Strategies for Re-Intervention	Nidhi Pandey	8
3.	Dealing with Implant Migration and Extrusion in the Anophthalmic Orbit	Aditi Pujari	8
4.	Eyelid Harmony in the Anophthalmic Orbit: Form, Function, and Fit	Yamini Maniktala	8
5.	From Socket to Symmetry: Achieving Aesthetic Excellence in Anophthalmic Patients	Sachin Gupta	8
6.	Bioengineered Scaffolds and Tissue Substitutes in Socket Reconstruction: The Next Frontier	Tarjani Vivek Dave	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC368 - Bridging the Gap Between National Accreditation Policies and the Needs of Community Ophthalmology

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room L-01

Chief Instructor: Neeraj Shah

Community ophthalmology in India plays a critical role in the elimination of avoidable blindness by reaching underserved populations through outreach camps, satellite centers and Operating rooms catering hundreds of patients every day.

These high-volume services demand consistent infection control and quality assurance especially in preventing vision-threatening complications like postoperative endophthalmitis and surgical site infections (SSIs).

This instruction course addresses a pressing need to bridge national accreditation standards—such as NABH and NPCB guidelines—with ground-level realities of community ophthalmology. The course brings together a multidisciplinary panel of six experts, each with practical experience in delivering safe, high-quality care in outreach settings. Participants will explore scalable infection control strategies, pre- and post-operative workflows, surveillance models, and compliance documentation.

No.	Topic	Speaker	Min
1.	Preoperative Protocols for Infection Prevention in High-Volume Outreach Camps	Kaushik Murali	8
2.	Microbiological Surveillance and Lab Support in high volume Surgical Setups	Saishruti	8
3.	Designing Sterile and Compliant OTs in Community Eye Setups	Geeta Fulari	8
4.	Training Frontline OT Staff in Sterility, Instrument Handling and SSI Prevention	Nisha Ahuja	8
5.	Intraoperative and Postoperative Strategies for Preventing Endophthalmitis	Neeraj Shah	8
6.	Postoperative Surveillance and SSI Audits in Rural Eye Programs	SENTHILRAJA	8

The 84th Annual Conference of All India Ophthalmological Society

IC538 - Corneal Tomography: Basics to Beyond

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room L-01A

Chief Instructor: Urvija Choudhary

This course on Corneal Tomography offers a comprehensive overview of modern corneal imaging. Its designed for ophthalmologists and refractive surgeons who wants to start building up there refractive practice. It covers tomography principles, map interpretation, early keratoconus detection, new frontiers in tomography integration with AI and, tomography guided treatment planning and trouble shooting the tomographic artifacts. it will be case based learning and simplified approach aiming to enhance clinical decision-making and patient safety in anterior segment practice.

No.	Topic	Speaker	Min
1.	Understanding Tomography	Sumeet Lahane	7
2.	Tomography Integration in Refractive surgery screening	Urvija Choudhary	7
3.	Interpreting tomography & Detecting Red flags	Arushi Garg	7
4.	Beyond Ectasia - Tomography in other clinical scenarios	Himanshu Matalia	7
5.	New Frontiers- AI , Machine learning and Tomography integration	Pooja Khamar	7
6.	Tomography guided treatment planning in keratoconus & Irregular corneas	Sharadini Vyas,	7
7.	Trouble-shooting Tomographic Artifacts - when not to trust the map	Aarti Agrawal	7

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC222 - Refractive Surgery Panaroma

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room L-02

Chief Instructor: Shreyas Ramamurthy

Rapid advancements have ensued in the field of Refractive surgery over the past decade, with progress in investigative and treatment modalities. The course will begin with a discussion of various complex situations that require choosing appropriate preoperative investigative and management strategies. Management of intraoperative complications like flap related disasters and suction loss will be discussed. Subsequent management of postoperative complications like epithelial ingrowth and topoguided ablations in fixing the irregular corneas will be dealt with. Newer advances in refractive surgery including various KLEX platforms will be highlighted. Challenges in astigmatic correction using cyclotorsion compensation in KLEX and complex situations in toric Phakic intraocular lenses will be elucidated with appropriate case examples. This interactive case based panel discussion is aimed at providing the audience with a panoramic view of tackling various challenges in Refractive surgery.

No.	Topic	Speaker	Min
1.	Recent advances in Diagnostic modalities	Ritin Goyal	7
2.	Handling challenges during flap making	Ritika Sachdev	7
3.	Topoguided ablations - When & When not?	Shreyas Ramamurthy	7
4.	Recent Advances in KLEX procedures	Sri Ganesh	7
5.	Toric Phakic IOLs in Irregular corneas	Shreesha Kumar K.	7
6.	Managing Epithelial Ingrowth	Chitra Ramamurthy	7
7.	Different approaches to enhancement - how do we chose?	Himanshu Matalia	7

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC41 - Simple Tips To Make Phaco Easy

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Meeting Room L-03

Chief Instructor: Naren Shetty

This advanced level course aims to tell the attendees about simple tips and tricks to make routine to advanced phacoemulsification easier to achieve the best possible outcomes in all case scenarios with the help of experienced, high volume surgeons. This course is for all beginners to advanced phacoemulsification surgeons as it contains nuances in phacoemulsification which are not discussed routinely.

No.	Topic	Speaker	Min
1.	Pearls in Dense Brown Cataract Management	Naren Shetty	10
2.	Pearls In Soft Cataract Management	Amulya Punati	10
3.	Pearls In Cataracts With Compromised Corneas	Aishwarya	10
4.	Pearls In Iris Management during Phacoemulsification	Ravi Krishna Kanaradi	10
5.	Pearls on PCR management	P. Rohitha Nayak	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC485 - Diabetic Vitrectomy Demystified: A Practical Surgical Compass

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room L-04

Chief Instructor: Aswin P R

This instruction course offers a comprehensive, stepwise approach to diabetic vitrectomy—from preoperative planning to postoperative care. It begins by emphasizing the importance of careful case selection, recognizing clinical and imaging cues in the OPD that predict surgical complexity. This is followed by a deep dive into vitrectomy machine fluidics and how optimized settings can enhance safety during dissection. Core surgical steps including delamination and segmentation are discussed with video-based guidance. Advanced techniques such as bimanual vitrectomy, chandelier-assisted dissection, and PFCL use are demonstrated. The course addresses challenging scenarios like combined retinal detachment with atrophic retina and concludes with practical strategies to prevent and manage postoperative complications. The session emphasizes surgical planning, stepwise execution, and real-world troubleshooting in diabetic vitrectomy.

No.	Topic	Speaker	Min
1.	It All Starts in OPD: Predicting Trouble Before the First Port	Malavika G	8
2.	Fluidics First: Commanding Your Vitrectomy Machine	Aswin P R	8
3.	Slice, Peel, Preserve: Mastering the Fundamentals of Diabetic Membrane Removal	Ashad Sivaraman	8
4.	Call for Backup: Chandelier, PFCL, and the Bimanual Advantage	R.Ram SUDARSHAN	8
5.	Walking the Tightrope: Tackling Combined RD and RD with Ischemic or Atrophic Retina	Sivadarshan Muralidharan	8
6.	Better Safe Than Sorry: Preventing and Managing Postoperative Complications	Joseph Babu	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC487 - The Keratitis Conundrum: Diagnostic and Therapeutic Advances Through a Case-Based Approach

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Meeting Room L-05

Chief Instructor: Divya Manohar

This instruction course offers a case-based, practical approach to diagnosing and managing infectious keratitis, with emphasis on timely sampling, accurate diagnostics, and rational therapy. It guides clinicians on when to scrape or swab, how to interpret slit-lamp signs, and use a structured checklist to suspect key pathogens. Through interactive clinico-pathological correlation, participants learn to identify organisms like *Pseudomonas*, fungi, *Nocardia*, and *Microsporidia* and match them with appropriate microbiological media. The course demystifies MIC interpretation and introduces tools like PCR, confocal microscopy, and MALDI-TOF. Special focus is given to interface keratitis and post-refractive infections. Designed for real-world application in high-volume or resource-limited settings, the course fosters collaboration between ophthalmologists and microbiologists, especially in culture-negative or non-resolving cases.

No.	Topic	Speaker	Min
1.	Spot the Signs: Clinical Clues to Common Keratitis Pathogens	Divya Manohar	8
2.	Guess the Bug: A Microscopy Mystery	Sujata Das	8
3.	Breaking the MIC Code & Beyond the Culture Plate	Lalitha Prajna	10
4.	Viral Keratitis Reloaded: Preventing the Next Flare	Ashish Kumar	8
5.	Blurred Lines: Tackling Keratitis After Refractive Surgery	Namrata Sharma	8
6.	Under the Interface: When Keratitis Turns Critical	Manpreet Kaur	8

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC346 - The Post PG Dilemma

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Mrunmayee Ambekar

Any one immediately post results of passing of Post Graduation is extremely happy The major hurdle of PG is over. But the immediate next question arises, what after this?

What we don't realise is is an end of the beginning or the beginning of the end as we are going to continue this profession as passion all through our life which is going to make or break our own self. It's completely a new journey without any shade of protection on our head straight into this world. At times many of us are not ready for what is coming in next.

This Ic will help the fresher to have out of the box thinking and build the confidence by giving the evils and hurdles into the various type of practice set up such as individual practice , doctor owned group practice, corporate or trust set up, or super specialty practice and location related matters.

The social and financial aspects of the all type of business models shall be discussed.

No.	Topic	Speaker	Min
1.	The fellowship Dilemma	Sunaina Malik	8
2.	Private practice in a small town v/s in a metro	Swanand Kulkarni	8
3.	Joining a institute or going into a group practice	Vrinda Dalwani	8
4.	The aspects of financial management	Madhav Dinkar Ambekar	8
5.	The aspects of social management	Amit Kumar Mahajan	8
6.	The confidence to start a single handed practice immediate post pg	Mrunmayee Ambekar	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC338 - MANAGEMENT OF VARIOUS COMPLICATED CATARACT AND PEDIATRIC CASES INCLUDING PEDIATRIC KERATOPLASTY

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room U-01

Chief Instructor: Sushil Ojha

AUTHOR WANT TO PRESENT MANAGEMENT OF APHAKIA AND DIFFICULT PEDIATRIC CATARACT CASES

No.	Topic	Speaker	Min
1.	INTRODUCTION	Nitesh Kumar	5
2.	MANAGEMENT OF APHAKIA WITH OLD TRADITIONAL AND NEWER SUTURE SFIOL TECHNIQUE	Sushil Ojha	8
3.	MANAGEMENT OF CHALLENGING PAEDIATRIC CATARACT WITH SUBLUXATION	Jagat Ram	8
4.	SUTURELESS SFIOL : A GLUELESS, FORCEPS FREE TECHNIQUE USING 3.2 mm CORENAL INCISION	Pawan Puneet Malhotra	8
5.	PAEDIATRIC CORNEAL TRANSPLANT AND MANAGEMENT OF CATARACT IN SUCH SCENERIOS	Ashok Sharma	8
6.	MANAGEMENT OF TILTED SFIOLs, SUBLUXATED FOLDABLE IOLs INCLUDING MULTIFOCAL/TORIC IOLs	Ananta Raina	8

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC316 - From Click to Clinic to Citation: A Journey Through Ophthalmic Imaging

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room U-01 A

Chief Instructor: Athul S Puthalath

This instruction course walks the learner through the complete journey of ophthalmic imaging—from capturing quality images to interpreting them across subspecialties, and finally transforming them into academic output. Using a storyline-based flow, it highlights essential techniques in anterior and posterior segment imaging, with emphasis on practical tips and pitfalls. Real cases will illustrate how multimodal imaging guides diagnosis and management, especially in retina and uveitis. The session concludes with strategies to convert clinical imaging into impactful conference presentations and publications. The course is ideal for postgraduates, fellows and practicing ophthalmologists aiming to master image-based documentation, sharpen diagnostic skills, and amplify academic productivity. Emphasis will be placed on commonly available tools, high-yield techniques, and avoiding common errors.

No.	Topic	Speaker	Min
1.	The First Click: Basics of Good Imaging & Core Modalities	Athul S Puthalath	9
2.	Peering Through the Front Window: Anterior Segment Imaging Demystified	Prasanna Venkatesh Ramesh	9
3.	Into the Depths: Posterior Segment Imaging in Retinal Disorders	Shishir Verghese	9
4.	Unmasking the Hidden: Imaging in Uveitis and Masquerade Syndromes	Rajashree Ezhilan	9
5.	From Clinic to Citation: Using Images for Publication & Presentation	Sameer Chaudhary	9

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC549 - Aesthetic approaches to Ocular tumors

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Meeting Room U-02

Chief Instructor: Nupur Goel

This Instruction course aims at educating ophthalmologists and ocular oncologists regarding the most optimal aesthetic considerations and surgical techniques in managing ocular tumors, emphasizing preservation of appearance and function. The course includes discussion about management approaches for lesions involving eyelid, lacrimal, orbit, surface as well as the intra-ocular tumors. This course specifically aims to enhance skills in providing comprehensive care for patients with ocular tumors, focusing on both functional and aesthetic outcomes.

No.	Topic	Speaker	Min
1.	Approach to Eyelid tumors	Nupur Goel	10
3.	Approach to intra ocular tumors	Sruthi R S	10
4.	Approach to Orbital tumors	Rolika Bansal	10
5.	Approach to Surface tumors	Puneet Jain	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC37 - MIGS - The Untold Story (Surgery & Beyond) / A Video-Based Conglomeration For Ticket To Excellence

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room U-03

Chief Instructor: Prasanna Venkatesh Ramesh

This pedagogical course highlights a step-by-step video overview of various MIGS procedures, such as iStent Inject W, Suture GATT, ECP, BANG & KDB; along with their untold story (i.e. intraoperative gonioscopy challenges, procedural complications, new techniques on the horizon and special situations).

This course also focuses on aqueous angiography-guided MIGS, the role of MIGS in paediatric glaucoma, and how to proceed when MIGS fails, along with a live demonstration of the 'MIGS Holographic MetaVerse Simulator' for enhancing skills development.

Other highlights of this IC are as follows:-

- 1) Video-Based Non-Theoretical Tips
- 2) MIGS In Closed Angles
- 3) Intraoperative Predictors For Success
- 4) Stand Alone MIGS Vs Combining With Cataract
- 5) Mixing MIGS Procedures
- 6) Transformative Guidance Coaching Towards Newer MIGS

At the end of the course, the attendees will be given focal notes as handouts with QR codes of the IC content to guide MIGS practice when faced with difficulty

The 84th Annual Conference of All India Ophthalmological Society

No.	Topic	Speaker	Min
1.	MIGS - Techniques (Trabecular Cutting Vs Device MIGS) & Indications - An Overview	Shivani Dixit	6
2.	Intraoperative Gonioscopy - The Algorithm, Optimal Visualisation, Challenges, & MetaVerse Training	Prasanna Venkatesh Ramesh	7
3.	Mixing MIGS, Stand Alone Vs Combined MIGS & New MIGS On Horizon (Gonio Scrubber, Tanito Hook, etc.)	Vanita Pathak Ray	7
4.	Unconventional Indications - MIGS In Angle Closures, Paediatric Glaucomas & Refractory Glaucomas	Nimrita Gyanchand Nagdev	6
5.	Keeping An Eye On Intraoperative Predictors & Aqueous Angiography Guided MIGS - The Way Forward	Nitika Beri	6
6.	"Does Less Invasive Mean Less Risky - A Global Perspective With Data & Review Of Literature?"	Arshi Singh	6
7.	Rescuing A Complicated MIGS Sx & What Next If MIGS Fails - Current Status & Future Directions	Siddharth Dikshit	7

Panel Discussion : 10 mins

IC427 - Ocular trauma: Expert guided approach to diagnosis and management

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Meeting Room U-05

Chief Instructor: Piyush Kohli

Ocular trauma is one of the major causes of blindness in the country. These conditions are sight threatening and require emergent recognition and treatment to preserve vision. Patient's expectations are unrealistic when they bear high costs for these complex surgeries even after knowing the unpredictable outcomes. The course will focus on the presentation, pathogenesis and the management of the common manifestation of ocular trauma that may present to any ophthalmologist, comprehensive or subspecialist.

The attendees will also learn the pearls to safe guard themselves from any subsequent medico legal issues. The course will be a video-based presentation where the tips and tricks of managing these cases will be discussed. At the conclusion of this course the attendees should be able to handle these trauma cases with greater ease and confidence and understand mechanisms of pathology, provide emergent treatment and prepare the patients

No.	Topic	Speaker	Min
1.	Corneo-scleral injuries: The 5-point principles	Mano Ranjan Das	7
2.	Traumatic cataract and lens subluxation: Rings and hooks comes to rescue	Madhu Shekhar	7
3.	Management of traumatic glaucoma	Sharmila Rajendiran	7
4.	Posterior Segment manifestations of Blunt Trauma I	Piyush Kohli	7
5.	Posterior Segment manifestations of Blunt Trauma II	Obuli N. Ramachandran	7
6.	Managing traumatic optic neuropathy: Nothing is impossible	Mahesh Kumar	7
7.	Naresh Babu	K. Naresh Babu	7

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC126 - BAILOUT OPTIONS IN CATARACT SURGERY

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Meeting Room U-06

Chief Instructor: Shamanth Shetty

CATARACT SURGERY HAS BECOME MORE OF A CUSTOMIZED REFRACTIVE SURGERY WITH HIGH EXPECTATIONS FROM THE PATIENTS IN THIS ERA .WE WISH TO ADDRESS THE PROBLEMS FACED BY PATIENTS IN THIS COURSE AND AIM AT THE APPROPRIATE STEP BY STEP DIAGNOSIS AND MANAGEMENT STRATEGY WE CAN DO TO MINIMIZE THE ISSUES AND HAVE A HAPPY PATIENT.

WE WILL BE APPROACHING THIS ISSUE IN A VERY DETAILED MANNER FROM ANTERIOR SEGMENT PATHOLOGY PROBLEMS ,INTR OP ISSUES,POST OPERATIVE SURPRISES AND POSTERIOR SEGMENT PATHOLOGIES INVOLVED.

No.	Topic	Speaker	Min
1.	INTRODUCTION	Shamanth Shetty	4
2.	TACKLING DESCEMET'S MEMBRANE DETACHMENT	Aparna Nayak	7
3.	POST CATARACT SURGERY RESIDUAL REFRACTIVE ERROR SURPRISE WHAT NEXT	Krishna Prasad Kudlu	7
4.	IOL EXCHANGE AND EXPLANT SITUATIONS : DEMYSTIFIED	Shamanth Shetty	7
5.	ABC TECHNIQUE –ARTIFICIAL BAG WITH OPTIC CAPTURE FOR IOL FIXATION	Sunil Ganekal	7
6.	SECONDARY IOLS:WHEN AND HOW	Vikram Jain	7
7.	SUPRACHOROIDAL HEMMORHAGE – HOW TO MANAGE	Sharat Hegde	7

Panel Discussion : 9 mins

The 84th Annual Conference of All India Ophthalmological Society

IC94 - Glaucoma Surgical Trials Decoded: From Trabeculectomy to MIGS

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Atlantiis 1

Chief Instructor: Venipriya Sigamani

The expanding landscape of glaucoma surgery demands a critical appraisal of clinical evidence to guide surgical decision-making. This instruction course aims to distill key insights from landmark glaucoma surgical trials—including trabeculectomy (CIGTS, TAGS, FFSS), tube shunt studies (TVT, PTVT, ABC, AVB, AADI), and emerging MIGS evidence (iStent, Hydrus-HORIZON, XEN, GATT, PRESERFLO)—into an actionable framework for clinical practice. Participants will explore the evolution of surgical strategies. Using an algorithmic approach supported by real-world case discussions, this course will help attendees personalize surgical options for diverse clinical scenarios, including POAG, PACG, NTG, and secondary glaucomas. Designed for glaucoma surgeons, general ophthalmologists, and residents, the session will offer clarity on when to choose conventional versus novel surgical approaches, while enhancing confidence in evidence-based decision-making.

No.	Topic	Speaker	Min
1.	Setting the Stage: Surgical Evolution in Glaucoma	Priyadarshini Parthasarathi	8
2.	Foundational Trials on Trabeculectomy: What We Learned	Shubhra Alankrita LAKRA	8
3.	Tubes Unplugged: Choosing the Right Glaucoma Drainage Device (GDD)	Venipriya Sigamani	8
4.	The MIGS Movement: Where Do We Stand Now?	Jeevitha Jagannathan	8
5.	Decision Tree in Action: Evidence-Based Surgical Algorithm	Sai Dheera Mulasthanam	8
6.	Translating Evidence into Practice: Case-Based Learning	Venipriya Sigamani	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC288 - Respond Right: Emergency Protocols in Ophthalmic Practice - Standards & Strategies for best outcomes

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Atlantiis 2

Chief Instructor: Niranjan Karthik

Medical emergencies in ophthalmic settings, though infrequent, can escalate rapidly—especially given the vulnerable patient population, often elderly and with systemic comorbidities. Timely and appropriate response is critical not only to clinical outcomes but also to patient trust and institutional credibility. This instruction course outlines practical and implementable strategies to enhance emergency preparedness in eye hospitals and clinics. It covers the development of standard operating protocols (SOPs), infrastructure requirements, team-based simulation training, and periodic audits, with reference to NABH and national guidelines. Real-world video scenarios and case studies will illustrate key response mechanisms for common emergencies— anaphylaxis , syncope and code blue situations.

Attendees will gain a structured approach to readiness, response, and recovery—helping reduce medico-legal risks, improve patient safety, and empower ophthalmic teams to respond right.

No.	Topic	Speaker	Min
1.	Introduction to medical emergencies and how to sense and save a sinking patient in eye centres	Nirmal Fredrick T.	7
2.	Equipment and training required for emergencies and code blue drill	Chandrasekhar D	7
3.	How I managed medical emergencies in my eye center?	Kumaran Murugesan	7
4.	How to Assess a patient planned for daycare eye surgery	Niranjan Karthik	7
5.	Managing the PPP - Public, Press, and Police during emergency and medicolegal crisis	Nirmal Fredrick T.	7
6.	NABH standards and preparation to tackle Medical emergencies	Senthil Kumar Jayabalan	7
7.	Panel discussion	K. Kavitha Lakshmi	7

Panel Discussion : 6 mins

Ophthalm Practice Development - MOST PROFITABLE BUSINESS OPPORTUNITIES IN OPHTHALMOLOGY

Date :	13-03-2026 (Friday)
Time :	08:00-12:40
Hall :	Atlantiis 4

Session Coordinator - T Senthil

SESSION SCHEDULE

8:40 – 8:50 AM | Opening & Session Introduction - T Senthil

8:50 – 9:05 AM | The LASIK Opportunity in India – Now & Next - Rahil Chaudhary

9:05 – 9:20 AM | Tele-Ophthalmology & AI – New Business Opportunities - T Senthil

9:20 – 9:35 AM | Setting Up Training & Fellowship Programs - Sourabh Patwardhan

9:35 – 10:05 AM | PANEL DISCUSSION 1 – Ophthalmpreneur Stories: From Skill to Scale

Coordinator : Debasis Bhattacharya

Panelists: Ashwin Bafna, Smitesh Shah, Hitesh Cheda, Sourabh Patwardhan

10:05 – 10:20 AM | Setting Up a Dry Eye Clinic – Finances & Operations - Rajesh Fogla

10:20 – 10:35 AM | Group LASIK Centers – The Chain Model - M. S. Ravindra

10:35 – 10:50 AM | Strategies to Boost Your Practice to 3X Revenues - Shourav Das

10:50 – 11:00 AM | Tea / Networking Break

11:00 – 11:30 AM | FIRE SIDE CHAT – What Value Does My Practice Really Get?

Mahipal Sachdev, Ramamurthy, Saumil Sheth, T Senthil

11:30 – 11:45 AM | Overseas Visiting Surgeon Opportunities - Anand Parthasarathy

11:45 – 12:00 PM | Medical Tourism – The Booming Market in Eye Care -

The 84th Annual Conference of All India Ophthalmological Society

Joshua

12:00 – 12:25 PM | PANEL DISCUSSION 2 – Digital Technologies You Cannot Ignore

Moderator: Deepak Garg

Panelists: Sudhir, Paras Mehta, Mohit Maniar

12:25 – 12:35 PM | Ask Anything About Insurance – Ophthalmology Edition - Harikrishnan Vannadil

12:35 – 12:40 PM | Closing Remarks & Key Takeaways - T Senthil

IC180 - Lets know all about infective uveitis

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Trade Room 1

Chief Instructor: Neethu Latiff

Infectious uveitis is the leading cause of uveitis in developing countries, involving a diverse range of microorganisms and their unique clinical presentations. Some of these infectious causes are well-established, while others are newly emerging on the global ophthalmic world. Infectious uveitis can closely resemble immune-mediated uveitis, a thorough understanding of the clinical features of different infectious uveitis types, along with the strategic use of molecular diagnostics to pinpoint the infectious agent, is essential for effective management. We offers an overview of the identification, treatment, and potential complications linked to various forms of uveitis caused by viral, bacterial, fungal, helminthic, and parasitic infections.

No.	Topic	Speaker	Min
1.	Approach to infective anterior uveitis	Reesha K.R.	10
2.	Approach to infective posterior uveitis	Neethu Latiff	10
3.	Role of multimodal imaging in infective uveitis	Lekha T.	10
4.	Molecular diagnostics and medical management for infective uveitis	Parthoprattim Dutta Majumder	15
5.	Surgical management for infective uveitis	G. Mahesh	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC384 - The Astigmatism Solution: Integrating Diagnostics & Surgical Techniques for Cataract Patients

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Trade Room 2

Chief Instructor: Sanket Bhatnagar

With about 87% of patients with cataract having astigmatism, its management in cataract surgery not only yields an improved unaided visual acuity and image quality but also higher patient satisfaction. This course aims to cover comprehensive strategies for managing astigmatism in a cataract patient. We'll delve into accurate preoperative diagnostics, including topography and biometry, emphasizing the crucial role of posterior corneal astigmatism and newer concepts like Integrated K and AI in toric calculation. We will also encompass a step-by-step approach to toric planning in both typical and atypical corneas will. We also aim to address the surgical aspect of toric axis marking and IOL implantation and discuss post operative assessment and post op rotational stability of toric lenses. This course furthermore intends to explore the role of ray tracing technology and femtosecond laser applications; all aimed at further refining astigmatism correction and maximizing patient satisfaction

No.	Topic	Speaker	Min
1.	The Biometer Bake-Off: Picking Your Perfect Toric Partner	Dishitha Rathod	8
2.	Beyond the sphere: The Art & Science of Toric IOL Calculation	Sanket Bhatnagar	8
3.	The Missing Pieces: Mastering PCA, Epithelial thickness & Integrated K for Perfect Toric Outcomes	Chaithra Dembala Aroor	8
4.	Precision Placement: Perfecting axis marking and post operative IOL rotation	Prashanth Ranganath	8
5.	The Astigmatism Anomaly: Conquering Complex Toric IOL Planning	Sneha Brijkishor Gupta	8
6.	The Next Chapter: Unlocking the Future of Toric IOL Planning	Neeraj Israni	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC245 - Diabetic vitrectomy - BOOT CAMP

Date :	13-03-2026 (Friday)
Time :	08:00-08:55
Hall :	Trade Room 3

Chief Instructor: Awaneesh Upadhyay

Proliferative diabetic retinopathy is one of the major causes of treatable blindness in India, with the advancement of newer surgical techniques (bimanual/ 3D) , use of anti-vegf injections prior to surgeries, use of intra - operative OCT, PFCL, membrane peeling techniques ,the surgical outcomes have improved leaps and bounds .In order to achieve good anatomical and functional outcomes, meticulous instrumentation and surgical approach is required along with good hands on. In this IC young retina surgeons (5-8 years in practice) will describe surgical approaches and techniques in diabetic vitrectomy in various case scenarios to achieve good surgical outcomes. The instructors will present case based videos(1-2 cases) on different scenarios describing and highlighting their techniques followed by panel discussions. The instruction course is apt for young retina surgeons as well as fellows who would want to improve their surgical skills and excel in difficult case scenarios.

No.	Topic	Speaker	Min
1.	BASICS - Diabetic vitrectomy	Diva Kant Misra	8
2.	Bimanual surgeries in diabetic vitrectomy	Shishir Verghese	8
3.	Flat Neovascularizations and proliferations in proliferative diabetic retinopathy	Awaneesh Upadhyay	8
4.	Choice of tamponade in diabetic vitrectomy	Bhavik Panchal	8
5.	Post op day 1 PRH (Pre retinal haemorrhage)- Observe or Intervene	Chitaranjan Mishra	8
6.	Resurgeries in proliferative diabetic retinopathy - causes, approach and techniques	Sharat Hegde	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC351 - Planning the Best Refractive outcomes for your cataract surgery patient

Date : 13-03-2026 (Friday)

Time : 08:00-08:55

Hall : Trade Room 4

Chief Instructor: Vanashree Nair

With advances like phaco emulsification and femto laser assisted cataract surgery, the refractive outcomes after cataract surgery have become quite predictable. Patients desire to have unaided clear vision and spectacle freedom at different levels. Choosing the right IOLs and understanding surgical nuances has become a necessity to give best possible outcome to the patients. TORIC IOLs have been in market for more than a decade, however we see a hesitancy among surgeons to offer Toric IOLs to their patients. Using a premium IOL without addressing astigmatism gives suboptimal results. In this instruction course we will discuss different aspects of planning and trouble-shooting outcomes with TORIC AND PREMIUM IOLS.

No.	Topic	Speaker	Min
1.	Understanding Astigmatism for cataract surgery, Biometry pearls, Toric IOLs n other measures	Vanashree Nair	10
2.	PREOPERATIVE and INTRA OPERATIVE TIPS FOR TORIC IOLS	Rajesh Sinha	10
3.	EDOF AND TRIFOCAL IOLS : WHAT NOT TO MISS IN PLANNING AND EXECUTION	Sandhya Nair	10
4.	TROUBLE SHOOTING REFRACTIVE SURPRISE with TORIC IOLs	Harshul Tak	10
5.	Toric IOLs in special situations -corneal ectasia, post keratoplasty and post refractive surgery	Tushar Grover	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC40 - Phaco in Challenging Situations: Simplifying the Complex

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Ballroom

Chief Instructor: Mahipal S. Sachdev

Pars Plana Vitrectomy for the Anterior Segment Surgeon Will Be Simplified Using Step by Step Videos and Its Use in the Management of Posterior Capsular Rupture, Phacomorphic Glaucoma and Crowded Anterior Chambers Will Be Showcased. Tackling the Small Pupil with Pupil Expanders and Management of Iris Defects Through Innovative Pupilloplasty Techniques Will Be Discussed. the Use of Chandelier Illumination to Enhance Visualization Through the Hazy Cornea to Tackle Cataract in Cases of Corneal Opacity and Use of Capsular Support Devices in Cases with an Unstable Bag Will Be Illustrated Through Surgical Videos. the Implantation of IOL in Cases of Deficient Capsular Support and Various Options- Sulcus Implantation, Glued Scleral Fixation and Iris Claw IOLS Will Be Elaborated. the Application of Newer Technologies Such as the Femtosecond Laser Platform in Complex Cases Will Be Discussed.

No.	Topic	Speaker	Min
1.	Femtosecond Laser Assisted Cataract Surgery in Complex Cases	Mahipal S. Sachdev	8
2.	Management of the Deficient Capsule	D. Ramamurthy	8
3.	Managing the Hard Nut	Kumar Doctor	8
4.	Phaco in Posterior Polar Cataracts	Purendra Bhasin	8
5.	Phacoemulsification in Hazy Corneas	Shreyas Ramamurthy	8
6.	Pupil and Iris Issues – Expanders and Reconstruction	Gaurav Luthra	8
7.	The Third Hand: Pars Plana Instrumentation for the Cataract Surgeon	Hemlata Gupta	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC339 - Peripheral Ulcerative Keratitis (PUK)- An Enigma for Clinicians

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room L-01

Chief Instructor: Sangwan Virender S.

Peripheral Ulcerative keratitis is a rare but serious ocular condition with local and systemic implications. In the eye it presents with peripheral corneal thinning with an overlying epithelial defect and can rapidly progress to a perforation if not dealt with in time. Additionally, it can have grievous systemic consequences, PUK heralding its presence. PUK management involves both local and systemic components that also involve delving into the territory of immunomodulation drugs that many ophthalmologists are not comfortable with. PUK needs a multi-pronged approach and in-depth knowledge of the etiopathogenesis, which this instruction course will focus on.

No.	Topic	Speaker	Min
1.	Introduction	Sangwan Virender S.	5
2.	Peripheral cornea: Immunohistological aspects	Isha Chaudhari	10
3.	Immunopathogenesis and differential Diagnosis	Murthy Somasheila I.	10
4.	Clinical Presentation and investigations	Isha Chaudhari	5
5.	Medical management with discussion on immunomodulators	Jayesh Vazirani	15
6.	Surgical Management	Sangwan Virender S.	15

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - Real World Impact of Biomarkers in Diabetic Retinopathy- Necessity, Research tool or a Gimmick?

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room L-01A

Shorya Vardhan Azad

Biomarkers, both direct and indirect, are vital indicators of disease activity and progression in diabetic retinopathy. Systemic markers like blood pressure, blood sugar, and lipid profiles have long aided in assessing disease status. In ophthalmology, IOP, VA, and clinical exams remain essential for diagnosis and monitoring. Recently, interest has grown in systemic (circulating) biomarkers for early detection and risk assessment in DR. Parallel advances in retinal imaging have identified numerous imaging biomarkers valuable for early diagnosis, prognostication, and identifying suboptimal treatment responses. Modalities like fundus photography, FAF, OCT, OCTA, and angiography reveal structural changes in retinal and choroidal layers. Additionally, artificial intelligence has expanded interpretative capabilities in DR, though it also contributes to information overload. This course aims to distill current knowledge and explore its practical application with clarity in patients with DR.

1. What are biomarkers in Diabetic Retinopathy? - Ritweez Sahu - 10 Mins
2. Systemic Biomarkers in Diabetic Retinopathy - SHREYAS T S - 10 Mins
3. Imaging biomarkers in Diabetic Retinopathy - Brijesh Takkar - 10 Mins
4. Role of Artificial Intelligence in Diabetic Retinopathy - Rajiv Raman - 15 Mins
5. Real world impact of biomarkers in DR - Research to Practice - Shorya Vardhan Azad - 15 Mins

Guest Talk : Role of endocrinologist–ophthalmologist collaboration in DR care - Pushpita - 8 Mins

Total duration(include panel discussion : 10 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC473 - Ocular Trauma – what is new

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room L-02

Chief Instructor: Supriya Dabir

Ophthalmic trauma is an important cause of morbidity and disability worldwide. A group of knowledgeable and skilled ophthalmologists in their subspecialties assemble to share their experience in treatment of Ocular Trauma in terms of newer technologies. This instruction course will embrace the lessons gained from clinical practice and research. The target audience will include both general ophthalmologists and subspecialists. AT the end of the course, the attendees will : 1) take home pearls of wisdom from these experts, 2) Familiarize themselves with the latest evidence-based techniques for management of ocular injuries and 3) Implement it in daily practice.

No.	Topic	Speaker	Min
1.	Role of imaging in Ocular Trauma	Arthi M	10
2.	Management of intraocular foreign bodies	Supriya Dabir	10
3.	Managing retinal incarceration with minimally invasive vitrectomy	Santosh Gopi Krishna Gadde	10
4.	Vitrectomy in eyes with opaque corneas secondary to ocular trauma	Rajeev Kumar Reddy P.	10
5.	Trauma in infants	Karobi Rani Lahiri	10
6.	Salvaging the unsalvageable	S.Natarajan	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

International Agency for the Prevention of Blindness (IAPB)

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room L-03

1. Welcome Remarks - Rohit
2. Objective of the meeting - Partha Biswas
3. Using the Case for Investment for Advocacy IAPB - Vision Atlas - Overview of the Value of Vision, Case for Investment
Overview and example of case for investments evidence using Vision Atlas
Global Summit for Eye Health 2026: Overview & Engagement Pathways - Update on Summit objectives, expected outcomes, and opportunities for government and partner engagement
Shaping the Global Eye Health Compact - Brief introduction to the purpose and structure of the Compact and examples of country/stakeholder engagement on 3 thematic Actions (Act, Allocate, Accelerate): (1) priority actions for the Compact, (2) examples of credible commitments, (3) perceived barriers and enablers.
4. Key Notes - Hon, Health Secretary, MOHFW, India - 10 Mins
5. Q & A - 10 Mins
6. Roundtable discussion with AIOS Dignitaries and MOH representatives, Professional Body Representatives - 20 Mins
7. Closing Remarks - 5 minutes - IAPB/AIOS Dignitaries

The 84th Annual Conference of All India Ophthalmological Society

IC61 - Characteristics, Evaluation and Management of Cerebral visual impairment in children

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Meeting Room L-04

Chief Instructor: Suma Ganesh

Cerebral visual impairment (CVI) is vision loss as a result of damage to the retrogeniculate pathway of the visual system in the absence of any ocular pathology. It is becoming one of the leading cause of profound visual impairment in children especially with the increased survival of the preterm babies. The course will demonstrate how to diagnose a child with CVI, associated important characteristics and once diagnosed the tools to be used for functional and cognitive assessments. The course shall discuss specialized refraction techniques to assess refractive error, accommodation anomalies and binocular anomalies. The course will help us understand the co- relation of higher visual deficits and associations with other neurodevelopmental disorders. There shall be presentation of case scenarios and how they were managed , videos of the various early intervention strategies used and finally importance of a multidisciplinary approach in management of these children .

No.	Topic	Speaker	Min
1.	Introduction to CVI , Visual Characteristics of CVI children and Red Flags in diagnosis	Divya Choudhary	10
2.	The newer tools in CVI for vision, field assessment and advances in functional vision assessments	Soveeta Souravee Rath	10
3.	Co-relation of MRI findings with higher visual deficits in CVI	Sujata Guha	10
4.	Optical, Accommodation anomalies and Low vision management in children with CVI	preeti sharma	10
5.	Early intervention and rehabilitative support therapy for maximizing visual development in CVI	Ms Amrita Sharma	10
6.	Strabismus surgery in CVI children - Case scenarios and Outcomes	Suma Ganesh	10

Keynote Address (8') : Neuro-ophthalmic examination in children - Satoshi Kashii

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC154 - Decision Making in the Management of Keratoconus: Queries-Based Solution

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Meeting Room L-05

Chief Instructor: Rajesh Sinha

Keratoconus is a mysterious disease, and there is a lot of confusion in the minds of people in terms of decision-making in its management. The course will aim at sorting out all the queries that come to the minds of the clinicians. Queries like when to do CXL, whether CXL can be done in a particular case, how to handle thin corneas, whether oxygen supplementation is useful, choice between conventional or accelerated, whether contact lenses should be used, when and how the intracorneal ring segment works, when to do keratoplasty, and which type of graft in different cases will be discussed. Whether to put gas or combine with sutures in hydrops and achieving optimal outcome in cataract surgery in these eyes with accurate IOL power calculation will also be discussed. All these will be discussed in the form of answers to queries with active participation of the panelists and the audience.

No.	Topic	Speaker	Min
1.	Should all cases of keratoconus be cross-linked: Different case scenarios	Vijay Kumar Sharma	7
2.	CXL in Thin Corneas, Additive Keratoplasty & Oxygen Supplemented CXL	Rajesh Sinha	7
3.	ICRS: when to do in keratoconus and when to combine with simultaneous or sequential CXL	Swapna Nair	7
4.	Customized PRK in Keratoconus: When & When Not	ANAND PARTHASARATHY	7
5.	Contact Lens Designs for Keratoconus: Corneal and Minislcleral	Rathi Varsha Madanlal	7
6.	Anterior Lamellar Keratoplasty: Big Bubble or Layer by layer	Namrata Sharma	7
7.	IOL Power Calculation in Eyes with Keratoconus	Amit Gupta	7

Keynote Address (8') : Global Consensus on Keratoconus and Ectatic Diseases - Daniel H. Scorsetti

Panel Discussion : 21 mins

The 84th Annual Conference of All India Ophthalmological Society

IC243 - Common Clinical Dilemmas in Glaucoma Management ; Practical Pearls

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room L-06 & 07

Chief Instructor: Dilip Lalwani

Glaucoma management is rarely straightforward. Clinicians frequently encounter complex, nuanced scenarios where standard treatment algorithms may fall short. This instructional course is designed to address real-world dilemmas and provide practical, evidence-based guidance tailored to individual patient factors—such as disease severity, age, systemic comorbidities, and treatment adherence.

The course will cover a broad spectrum of challenges, including Ocular hypertension, Normal tension glaucoma, Post-YAG PI IOP Rise, progressive glaucoma, and the evolving role of newer modalities such as MIGS (Minimally Invasive Glaucoma Surgery)—all of which can present confusing clinical situations for the general ophthalmologist.

Emphasizing a flexible, individualized approach, the course aims to equip participants with the tools to make thoughtful, patient-centric decisions. Delivered in an interactive and easy-to-understand format, it promises to be both engaging and clinically enriching.

No.	Topic	Speaker	Min
1.	Ocular Hypertension: When should treatment be initiated?	Lipi Chakrabarty	10
2.	Advanced Glaucoma: Fixed-dose combinations vs Custom regimens?	Vinita Ramnani	10
3.	From Missed to Managed Glaucoma ; Treatment Pathways in Late Detected Glaucoma	Dilip Lalwani	10
4.	IOP Rise After Phaco-MIGS: Management and Preferred drug options	Suneeta Dubey	10
5.	Evaluate & Manage late-onset Post-YAG PI IOP elevation?	Parag	10
6.	Normal-Tension Glaucoma (NTG): Treatment strategies ?	Alokesh Ganguly	10

Keynote Address (8') : Glaucoma drainage devices : Learning from challenges - Mohammed Alhemyari

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC306 - X-treme Retina: A course on challenging vitreo-retinal surgeries

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room U-01

Chief Instructor: Jayanto Shekhar Guha

Vitreoretinal surgery has advanced far in the last decade, coming to a modern era of instrumentation and better approaches from the retinal surgeon, making the procedure easier to perform, thus contributing to a better recovery from the disease. This course aims to provide a comprehensive overview of challenging retinal surgeries. It will consist of video presentations followed by a panel discussion. The video presentations will cover the latest techniques and technologies used in challenging retinal surgeries. The panel discussion will provide an opportunity for participants to ask questions and engage in a dialogue with experts in the field. The course will also cover the management of complications that may arise during challenging retinal surgeries. By the end of the course, participants will have gained a deeper understanding of challenging retinal surgeries and the latest advancements in the field.

No.	Topic	Speaker	Min
1.	Extreme cases of Retinal Trauma	Jayanto Shekhar Guha	10
2.	Extreme cases of Retinal Surgery Miscellaneous	Sangeet Mittal	10
3.	Extreme Cases of Macular Surgeries	Boral Subhendu Kumar	10
4.	Extreme cases of Advanced Diabetic Retinopathy	Shashank Rai Gupta	10
5.	Extreme cases of Retinal Complications in Cataract Surgery	Divyansh Mishra	10
6.	Extreme cases of retinal detachment with PVR	Deependra Vikram Singh	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC301 - FROM INFLAMMATION TO INTERVENTION- DEMYSTIFYING TASS

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Meeting Room U-01 A

Chief Instructor: Reshma Jhaveri

THIS COURSE PROVIDES AN IN-DEPTH UNDERSTANDING OF TOXIC ANTERIOR SEGMENT SYNDROME (TASS)-A STERILE INFLAMMATORY REACTION THAT CAN OCCUR IN THE IMMEDIATE POST OPERATIVE PERIOD FOLLOWING CATARACT SURGERY. PARTICIPANTS WILL LEARN TO IDENTIFY THE CLINICAL SIGNS OF TASS, UNDERSTAND HOW TO DIFFERENTIATE IT FROM INFECTIOUS ENDOPHTHALMITIS, AND EXPLORE THE KEY DIFFERENCES IN THEIR PRESENTATIONS. THE COURSE WILL ALSO EMPHASIZE EVIDENCE - BASED PREOPERATIVE PROTOCOLS AND PREVENTIVE STRATEGIES TO MINIMISE THE RISK OF TASS. FINALLY, THE PRINCIPLES OF EFFECTIVE MANAGEMENT AND TIMELY INTERVENTION WILL BE DISCUSSED TO ENSURE OPTIMAL PATIENT OUTCOME.

No.	Topic	Speaker	Min
1.	PREVENTING TASS: PROTOCOLS, PITFALLS, AND PRECAUTIONS	Madhu Shekhar	10
2.	CLINICAL CLUES AND EARLY DETECTION OF TASS AFTER UNEVENTFUL PHACO SURGERY, A CASE PRESENTATION	Archana Chowdhry	10
3.	DMEK AND 4 THROW PUPILLOPLASTY IN A CASE OF TASS - A SURGEON'S NIGHTMARE	Reshma Jhaveri	10
4.	THE GREAT IMITATOR : TASS VS ENDOPHTHALMITIS DECODED	Preetam Samant	10
5.	PRINCIPLES OF TASS MANAGEMENT : WHAT EVERY SURGEON SHOULD KNOW	Suvira Jain	10
6.	PREPARING FOR THE UNEXPECTED : COUNSELLING A TASS PATIENT THROUGH THE CALM BEFORE THE STORM	Himanshu Rasiklal Mehta	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC50 - Learning lessons in uveitis practice

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Meeting Room U-02

Chief Instructor: Reema Bansal

Uveitis poses a significant challenge in terms of both diagnosis and management. Often these patients are subjected to a battery of laboratory tests, overlooking important clinical clues. The sight-threatening nature of uveitis motivates the treating physician to administer a prompt empirical therapy that may at times be catastrophic, especially in infectious uveitis. Poor response to conventional therapy or an atypical presentation should alert us regarding masquerade syndromes. Through this course, uveitis experts aim to provide clinical pearls and key teaching points to the comprehensive ophthalmologists by showing 2-3 case examples of clinical clues and possible errors in clinical practice so that the diagnosis is made simple. The case presentations will be followed by a panel discussion with audience participation.

No.	Topic	Speaker	Min
1.	Introduction	Reema Bansal	5
2.	Horror stories in infectious uveitis	Jyotirmay Biswas	10
3.	Twists in the tale: Late diagnostic revisions in uveitis	Alok Sen	10
4.	Unfolding the unknown: Rare causes of uveitis	Padmamalini Mahendradas	10
5.	When to suspect parasitic cause of uveitis?	Dipankar Das	10
6.	When to suspect inflammatory CNVM?	Chekitaan Singh	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC150 - Neuro-ophthalmology for the Neophyte

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room U-03

Chief Instructor: Digvijay Singh

Neuro-ophthalmology is a perplexing field for the general ophthalmologist. Overlapping symptoms and clinical signs produce a diagnostic dilemma, compounded by an overload of investigations. This course describes the protocols for a neuro-ophthalmic exam in light of various clinical conditions and provides a roadmap for management. Starting from basic neuro-ophthalmic examination, the course will proceed to cover specific topics such as examination of a patient with disc edema and disc pallor and an eye having vision loss with a normal fundus. It will discuss the position and role of various investigations (OCT, visual fields, electrophysiology, radio-imaging). The course will be conducted in a case-discussion style with interactive sessions having ample audience participation. The panel of renowned experts will help answer all audience queries. At the end of the course, the attendees would be able to examine, investigate and diagnose common neuro-ophthalmic disorders.

No.	Topic	Speaker	Min
1.	The basic neuro-ophthalmic exam	Ankur Sinha	8
2.	Clinical application of OCT in neuro-ophthalmology	Dipankar Das	8
3.	Visual Fields: A GPS for the neuro-ophthalmic lesion	Rashmin Gandhi	8
4.	Choosing the appropriate radio-imaging	Swati Phuljhele	8
5.	Decoding electrophysiological changes	Satya Karna	8
6.	Approach to Vision Loss with normal fundus	Digvijay Singh	8
7.	Pale and swollen discs: what to look for?	ROHIT SAXENA	8
8.	Neuro-ophthalmology cases: Rapid Fire	Digvijay Singh	8

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC356 - EXPOLRING CORNEAL BIOMECHANISM IN GLAUCOMA MANAGEMENT

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room U-05

Chief Instructor: Maj Gen J.K.S. Parihar

Corneal biomechanics has emerged as a crucial indicator of the influence of corneal structure and physiology on the diagnosis and management of keratoconus, glaucoma, and refractive laser vision correction surgeries. The role of corneal biomechanism, such as hysteresis and corneal resistance factor, especially in glaucoma management, deserves due attention.

The proposed instruction course is intended to highlight anatomical, functional, and generalised factors linked with the corneal biomechanism in cases of glaucoma. The factors influencing corneal biomechanism, such as age, systemic diseases, environmental factors, as well as the impact of post-refractive and post-LASIK status, directly affect the Corneal Mechanism, and its subsequent effect on Glaucoma management will also be highlighted. The role of investigative tools, such as the Ocular Response Analyser (Corvis) and non-destructive, contactless techniques, will also be discussed.

No.	Topic	Speaker	Min
1.	Introduction: Corneal biomechanism and its clinical relevance	(Brig) K. Shyamsundar	8
2.	Anatomical consideration	Vinod Kumar Baranwal	8
3.	Biomechanical properties of cornea	Ashwini Kumar Singh Parihar	8
4.	Factors Influencing Corneal Biomechanism	Jaya Kaushik	8
5.	Association of CCT,CH, and CRF with Glaucoma Risk and Progression:	Maj Gen J.K.S. Parihar	8
6.	Application of Corneal Biomechanism on Intraocular Pressure Measurement	(Brig) Gaurav Kapoor	8
7.	Conclusion	Maj Gen J.K.S. Parihar	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

Plenary session with President's Guests Lecture

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Meeting Room U-06

Chairpersons : Partha Biswas, Jeewan S Titiyal, Ava Hossain

Co-Chairpersons : Samar Basak, Mohan Rajan

Convenors : Santosh Honavar, Manoj Mathur, Vanathi M, Prashant Bawankule, Krishna Prasad Kudlu

Moderator : Namrata Sharma

1. Welcome : Jeewan S Titiyal
2. Introduction : Durval M Carvalho Jr
3. IOL Centration Without Capsular Support (15 mins) : Durval M Carvalho Jr
4. Introduction : Parag Majmudar
5. Paradigm shift in Corneal Endothelial Disease : Parag Majmudar
6. Prevalence of Vision Impairment in Bangladesh: Strategies for Improvement : Ava Hossain
7. Congenital cataract surgery: Separating myths from facts - Tetsuro Oshika

The 84th Annual Conference of All India Ophthalmological Society

IC366 - Aesthetic socket surgery

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Atlantiis 1

Chief Instructor: Ruchi Goel

A visually deprived microphthalmic eye or anophthalmic socket results in social embarrassment and negatively impacts the self-esteem of the affected individual. The condition may occur secondary to trauma, infection and ocular tumours or may be congenital. The standard rehabilitation procedures aim towards fitting a customised ocular prosthesis. The prosthesis can be fitted on the existing globe or implant. Correctly sized, appropriate implant is critical for good cosmetic outcome. Many patients require concomitant repair of orbital fracture, lid deformities, lacrimal drainage obstruction, contracted socket or ptosis correction. In this instructional course, a step-by-step approach to choosing the surgical procedure, type of implant, and fitting of ocular prosthesis will be discussed in detail.

No.	Topic	Speaker	Min
1.	Evaluation of a case for fitting ocular prosthesis	Ruchi Goel	10
2.	Modifications in evisceration technique in phthisis bulbi	Shalin Shah	10
3.	Myoconjunctival technique of enucleation for improved ocular motility	Shaloo Bageja	10
4.	Complex reconstructions	Ruchi Goel	10
5.	Prevention and management of implant extrusion	Raj Anand	10
6.	Management of contracted socket	Namita Kumari	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC234 - IOL Options from Basic to Advanced in cases with poor / Absence of Capsular Support – a Video Course

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Atlantiis 2

Chief Instructor: K V Satyamurthy

When there is poor or no capsular support in a case where you have promised an IOL these bailout options come to your rescue. There are a lot of developments in these techniques. This video course displays not only the various currently popular techniques but also latest advancements in these methods. This course is aimed at discussing the nuances of different techniques, giving a lot of practical tips to the delegates and enable them to perform them with ease.

No.	Topic	Speaker	Min
1.	Course Introduction	K V Satyamurthy	3
2.	IOL Implantation In A Case Of Large PC Rent	Krishna Prasad R.	8
3.	Iris Claw IOL Implantation In Special Situations	Shreesha Kumar K.	8
4.	Scleral Fixation Of IOL with poly propylene suture - Standard Technique	Shamanth Shetty	8
5.	4 Point Scleral Fixation Of IOL With poly propylene Suture	K V Satyamurthy	8
6.	Scleral Fixation Of IOL With Expanded PTFE Suture	Meena Chakrabarti	8
7.	Intra Scleral IOL Fixation with Advanced Techniques	Shrinivas M. Joshi	8
8.	SF IOL in Pediatric Patients	Prafulla Kumar Maharana	8

Panel Discussion : 11 mins

IC508 - Diabetic macular edema - Comprehensive guiding pearls in its management

Date : 13-03-2026 (Friday)

Time : 09:00-10:10

Hall : Trade Room 1

Chief Instructor: Manisha Nada

In this IC we cover the complexities encountered as roadblocks in the management of DME in day today practice .The IC will delve into the clinical presentations,biomarkers,imaging ,intravitreal therapies,lasers and surgical options .At the end of the IC the participants will have an overview of management of DME(Basics and Advancements) and will have the clarity on the subject in a simplified manner .Experiences will be shared by our expert team .The participants will have their existing know- how scaled up.They can then bestow effectively an updated care vital to the patients through an organised approach of thoughts.This IC would equip the participants with foundational knowledge in managing seemingly difficult DME patients.

No.	Topic	Speaker	Min
1.	DME- Introduction and review of DME in nutshell with Interesting clinical snippets	Rouli Sud	10
2.	Role of Biomarkers in DME in Diabetic Retinopathy	Manisha Nada	10
3.	Retina Imaging- Advances helpful in DME in myriad of clinical scenarios-My Experience	Neeraj Sanduja	10
4.	Recalcitrant and Refractory DME-What best can be offered now!	Sumeet Khanduja	10
5.	Antivegfs-What is prevalent and most preferred in DME-Current Practices	Jitender Kumar	10
6.	Surgery in DME- Chronicles with interesting videos	Chekitaan Singh	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC59 - Never be afraid of Epiphora: THE DCR PATHSHALA

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Trade Room 2

Chief Instructor: Ravi Ranjan

DCR is a common oculoplastic surgery to relieve epiphora by creating an anastomosis between the lacrimal sac and the nasal mucosa. This course aims to help ophthalmologists hesitant about DCR due to flap creation and failure rates. It features video and graphics to improve understanding. Topics will include the anatomy and physiology of the lacrimal system, non-infectious and infectious causes of epiphora for better case selection, and techniques to perform DCR with minimal instruments. Repeat DCR will also be discussed.

No.	Topic	Speaker	Min
1.	Introduction	Ravi Ranjan	5
2.	Anatomy and physiology of EYE.	Amitabh Singh	10
3.	Non-infectious Causes of Tearing	Amit Raj	8
4.	Infectious cause of Epiphora	Ajay Kumar Sinha	8
5.	Step by step External .DCR	Sudhir Kumar	9
6.	Repeat DCR made simple	Ravi Ranjan	10
7.	LASER and Endoscopic DCR	Sunil Kumar Singh	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC499 - End of endophthalmitis – Hot topics in Hospital infection control

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Trade Room 3

Chief Instructor: Haimanti Choudhury

Hospital infection control practices and protocols has seen a sea change in the recent years. With NABH giving more insight into ideal hospital infection control practice, this course is designed to give the latest requirement regarding the practical aspects of Endophthalmitis management. Prevention strategies, importance of documentation, medicolegal aspect will be discussed by experts. Specifications of an ideal OT, OT etiquettes and surveillance will also be dealt with. Choosing the right autoclave to sterilization validation and OT cleaning procedures will be video demonstrated. This course would benefit surgeons in solo practice as well as in institutional practice. Some common controversies in endophthalmitis management will also be debated upon.

No.	Topic	Speaker	Min
1.	Perioperative measures to control endophthalmitis	Satanshu Mathur	8
2.	Ideal ophthalmic operation theatre	Haimanti Choudhury	10
3.	Operation theatre surveillance & etiquettes	Jayashree Baruah	10
4.	Autoclaves – which one to choose	Sudipta Mitra	8
5.	Managing endophthalmitis with FC vision – Intravitreal antibiotics	Himadri Choudhury	10
6.	Managing endophthalmitis with FC vision- Early vitrectomy	Ajay Aurora	10
7.	NABH perspective in hospital infection control	Jalpa D. Vashi	8

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC321 - Fighting the Corneal Blindness- Eyebanking and Keratoplasty

Date :	13-03-2026 (Friday)
Time :	09:00-10:10
Hall :	Trade Room 4

Chief Instructor: Rajendra Singh Chauhan

There is inadequate infrastructure and resources to combat the corneal blindness in the country due to lack of knowledge about THOTA and NOTTO (The Organ Transplantation Act) and establishment of eye banks, eye retrieval centers and cornea transplantation centers and the surgical techniques for the optimal rehabilitation of corneal blindness in India. The instruction course aims at the organizations, institutions, ophthalmologists and NGOs for the proper establishment of Eye Banks and Cornea Transplantation Centers and different techniques of keratoplasty.

No.	Topic	Speaker	Min
1.	Establishment of Eye Banks, infrastructure, manpower and functions.	Ashok Rathi	20
2.	Corneal tissue retrieval, evaluation and storage.	Gautam Jain	15
3.	Types of Keratoplasty techniques	Rajendra Singh Chauhan	20
4.	Post-op visual rehabilitation and challenges and their remedies.	Jyoti Deswal	15

The 84th Annual Conference of All India Ophthalmological Society

AIOC Theatre - E-Video (Anterior Segment - I)

Date :	13-03-2026 (Friday)
Time :	09:00-10:15
Hall :	AIOC Theatre

Panelist : Rajesh Kapoor, Preeti Gupta, Prolima Thacker

1. [VT4] - Bilateral Toric IOL Subluxation in a High Myope Following Cataract Surgery.

Chief & Presenting author : Rajesh Kapoor (K13520), Snehal Gade

2. [VT6] - Resilient Small pupil- Phacoemulsification

Chief & Presenting author : Bala Saraswathy (B24921), Kalpana Narendran

3. [VT14] - Eye under pressure – Solving the enigma of intraoperative positive pressure

Presenting author : Nayantra M (N24105), Chief author : Prasanna Venkataraman

4. [VT32] - Aurodropsmart - anything that can be measured, can be improved!

Chief & Presenting author : Deepa R (D21831), Neethu Mohan

5. [VT34] - unforeseen circumstances out of the blue unanticipated, unlooked, surgical audacity

Chief & Presenting author : Dodum Tara Tech (T24280), Shahinur Tayab, sauvik barua, Shivam Gupta

6. [VT43] - Iris Hooks and Rings: When the Pupil Refuses to Cooperate

Chief & Presenting author : Manorama S. Baheti (B17406), Nupur Pednekar

7. [VT46] - A novel adjunct Autograft tissue to rescue an overfiltering bleb

Chief & Presenting author : Aseera Momin (A22855), Nischala B, Anand Balasubramaniam, Meena Gopinath Menon

8. [VT53] - "Managing shallow chambers and irregular irises: Cataract surgery in Chronic PACG with patent PI"

Chief & Presenting author : Nupur Pednekar (N21411), Manorama S. Baheti

9. [VT84] - Silicone Oil causing Raised Intraocular Pressure: "Oil's well that ends well."

Chief & Presenting author : Shruthi S. (S17056), Rishika Lakshminarayana, Sathi Devi A.V., Zia Sultan Pradhan

10. [VT93] - Tiny Eyes, Big Challenges: Mastering Posterior Capsulorhexis in Pediatric Cataracts

Chief & Presenting author : Prolima Thacker (T15237), Gayathiri Ravikumar, Himali Agarwal, Richa Agarwal

11. [VT135] - The Art of Expression: Nucleus Delivery & Troubleshooting in MSICS

Presenting author : Anju A.J (A22471), Chief author : Aswin P R, Aswin P R

12. [VT171] - "Ocular Intruder: Surgical Removal of an Embedded Intrasccleral Insect"

Chief & Presenting author : Preeti Gupta (G13360), Saxena Naman, Indu Maurya, Prolima Thacker

The 84th Annual Conference of All India Ophthalmological Society

Uveitis Unmasked: From Diagnosis To Immunomodulation (College Of Ophthalmologists of Sri Lanka Session)

Date :	13-03-2026 (Friday)
Time :	09:15-10:25
Hall :	Atlantiis 3

1. Cracking the Uveitis Code: A Practical Diagnostic Work-Up from First Visit to Final Diagnosis - Shakira Banu
2. Intermediate Uveitis: A Stepwise Therapeutic Strategy - Chamara Kumarage
3. Imaging in Uveitis: Choosing the Right Tool at the Right Time - B.M.I.U. Mendis
4. When It's Not Uveitis: Common Masquerades and Costly Misdiagnoses - Sampath Ranaweera
5. Immunosuppressive Therapy in Non-Infectious Uveitis – When, What and How - Sidesh R. Hendawitharana
6. Retinal Vasculitis Demystified: Clinical Patterns, Systemic Clues and Management Pearls - Duleepa Baranage

The 84th Annual Conference of All India Ophthalmological Society

IC364 - Horror Show in Cataract Surgery

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Ballroom

Chief Instructor: Partha Biswas

This course deals with of extreme grades of difficulty in cataract surgery and the innovation options managed by the surgeons. The Co-Instructors will present a four minute video on such extreme situations and panel will discuss in the subsequent 6 minutes the possibilities of alternate situations in this particular scenario. The importance of preoperative evaluation and intra operative tips and tricks, innovative management and the improvement of outcomes in such situations will be discussed at length and breadth.

No.	Topic	Speaker	Min
1.	Tough Pediatric Cataract	Lav Kochgaway	8
2.	Extreme Hard Cataract	J. S. Titiyal	8
3.	Chalky White Cataract	Sonu Goel	8
4.	Subluxated Cataract	Gaurav Luthra	8
5.	Traumatic Cataract	Partha Biswas	8
6.	IOL Dislocations	D. Ramamurthy	8
7.	Posterior Capsular Rupture	Himani Chatterjee	8

Keynote Address (8') : New Technologies for Cataract Surgery - Durval M. Carvalho Jr

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC375 - Panel Discussion: Recent Concepts and Trends to Optimize Intraocular Lens (IOL) Power Calculation

Date : 13-03-2026 (Friday)

Time : 10:15-11:25

Hall : Meeting Room L-01

Chief Instructor: Arup Chakrabarti

This Masterclass on IOL power calculation will adopt the panel-discussion format, highlighting the current status of state-of-the-art biometry, newer formulae/calculators, and standard operating procedures for achieving optimal refractive outcomes. Panellist's opinion on commonly encountered special situations where IOL calculations require customised approach – Toric IOLs, secondary and piggyback IOLs, high myopia/hypermetropia, posterior segment pathologies and vitrectomised eyes, post-refractive surgery eyes, etc., will be sought. Take-home pearls summarising the course contents will be highlighted. At the end of this innovative Panel-Discussion-based Masterclass, attendees will have learned about the latest concepts of IOL power calculation and how to optimise refractive outcomes in frequently encountered special situations and advanced technology IOL situations

No.	Topic	Speaker	Min
1.	Introduction	Arup Chakrabarti	5
2.	Cutting Edge Tools & Newer Horizons in Biometry	Ramesh Dorairajan	10
3.	Preferred Practice Pattern to Optimize Toric IOL Outcomes	K V Satyamurthy	10
4.	Best Biometric Device and Accurate Formulas in Post Refractive Surgery Situations	Atul Kadhane	10
5.	Biometry of Choice & Best Formula for Common Posterior Segment Pathologies	Meena Chakrabarti	10
7.	Newer Biometric Strategies and Advanced Formulas to Optimise Outcomes in the Extremes of AL	Suven Bhattacharjee	10
8.	Summing It Up	Nirupama Kasturi	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

UP State Ophthalmological Society Session

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Meeting Room L-01A

Chairpersons: Shashank Srivastava, SP Singh, Kamaljeet Singh, Malay Chaturvedi

Moderator: Shalini Mohan

Speakers & Topics: 8 mins each

1. Abhishek Chandra: Direct SLET in Management of LSCD
2. Madhu Bhadauria: Anterior Segment Imaging: Why, When & What?
3. Puneet Gupta: OCTA- A new dimension in Ocular Imaging
4. Mohita Sharma: Laser Rhexis in Cataract Surgery
5. Mohit Khattri: Unsteady Pupils, Steady Hands: Navigating IFIS during Cataract Surgery
6. Shalini Mohan: Tackling Complicated Glaucoma with GDD
7. Smita Agarwal: Cutting Edge Pterygium Care: Techniques Shaping the Future
8. Sakshi Kumar: Central Retinal Artery Occlusion in Young: A unique Case

Discussion : 6 Mins

Panelists: Arun Sharma, Abdul Waris, Deepak Mishra, Shefali Mazumdar

The 84th Annual Conference of All India Ophthalmological Society

IC237 - Mastering Scleral Fixated IOL (SFIOL):

Techniques, Troubleshooting, Tips and Tricks

Date : 13-03-2026 (Friday)

Time : 10:15-11:25

Hall : Meeting Room L-02

Chief Instructor: Chitaranjan Mishra

The Evolution of SFIOL Techniques Significantly Enhanced Outcomes in Traumatic and Surgical Aphakia. This IC Aims at Discussing and Demonstrating Various Surgical Methods of SFIOL, Highlighting the Transition from Sutured to Sutureless Techniques and Foldable IOLS.

Panelists Will Discuss the Rationale Behind Each Modification, Focusing on Improving Durability, Minimizing Complications, and Enhancing Surgical Ease. Techniques Covered

Include Sutured SFIOL Using Pp and Ptfе Sutures, the Hoffman Technique,

Sutureless SFIOL with Scleral Flaps Like the Glued IOL and Flapless Methods. The

The Course Will Also Delve Into the Novel Technique of Using Foldable SFIOL in Cases Where

Scleral Tunnel is Unfeasible, Such as with Thin Sclera, or to Avoid Large Tunnels for

Secondary IOL Reducing Astigmatism and Promoting Faster Wound Healing.

Attendees Will Learn to Select Appropriate Techniques Based on Patient-Specific Factors,

Ensuring Optimal Visual Rehabilitation and Reducing Complications.

No.	Topic	Speaker	Min
1.	Sutured SFIOLS- The String to Strength	Krishnendu Nandi	10
2.	Four Point Fixation technique of SFIOL- The Masterstroke of Stability	Shweta Dhiman	10
3.	Glued IOL: Indications and Techniques	Obuli N. Ramachandran	10
4.	Tuck in the Tunnel or Make a Bulb Without Flap: A Time Saving Alternative for SFIOL	Gauri Khare	10
5.	Sutureless-Glueless-Flapless Foldable SFIOL: The modified Gabor Scharioth Technique	Chitaranjan Mishra	10
6.	Foldable SFIOL- The New Player in Ophthalmic Arena: Indications, Techniques & Possible Complications	Santosh Mahapatra	10

Keynote Address (8') : When Explantation Was Not an Option: Creative Refixation of Dislocated IOLs in Severely Traumatized Eyes -

Siddiqur Rahman

Indian ROP Society Session - National ROP Awareness

Mission

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Meeting Room L-03

Chair : Rajvardhan Azad

Co-Chair : Mangat Dogra

Moderator : Anand Vinekar

1. IROP's role in national awareness: An introduction - Rajvardhan Azad - 5
2. Prof Michael Trese Oration - Sucheta Kulkarni - 15
3. Why is ROP awareness important - Mangat Dogra - 10
4. Creating Awareness as an NGO in the community - Kirti Jain - 10
5. ROP Awareness: Policy for a nation-wide program - Snehal Bavaskar - 10
6. ROP Awareness; Implementation Strategies - Rekha Singhal - 10
7. iROP Awareness Activities through the Ambassador Program - Karobi Lahiri - 10
8. ROP awareness: Indicators for assessment - Praveen Vashisht - 10
9. The way forward: Closing remarks - Subhadra Jalali - 5

IC248 - Difficult Strabismus Entities; Tips to diagnosis and management

Date : 13-03-2026 (Friday)

Time : 10:15-11:25

Hall : Meeting Room L-04

Chief Instructor: Pramod Kumar Pandey

Certain congenital and acquired motility disorders pose formidable diagnostic and therapeutic challenges. Such conditions may include congenital cranial dysinnervation disorders as well as acquired motility disorders like thyroid eye disease, blow out fractures, Myasthenia gravis to name a few. Riding piggy back are supranuclear disorders like Skew deviations that may rub shoulders with entities like superior oblique palsies and congeal the presentations and management. It is of utmost import to carry out appropriate work up like evaluation of fundus torsion, imaging, muscle function tests. Surgical approach , surgical techniques outcomes and prognosis may not be as rewarding. This IC will address diagnostic and surgical challenges of host of such entities, most appropriate surgical approach, alternative surgical procedures and the outcomes.. The IC will be interactive and will help attendees diagnose and treat such complex motility disorders with ease.

No.	Topic	Speaker	Min
1.	Introduction	Pramod Kumar Pandey	5
2.	Managing myopic strabismus	Pradeep Sharma	10
3.	Skew Deviations	Pramod Kumar Pandey	10
4.	Tips and Tricks in DRS management	Shubhangi Bhawe	10
5.	Thyroid Eye Disease	shreya shah	10
6.	Horizontal gaze palsy with progressive scoliosis	Pramod Kumar Pandey	10
7.	Monocular Elevation Deficiency	Subhash dadeya	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC429 - Upgrading Machines: A Logical Approach to Technology, Cost, and Practice Sustainability

Date : 13-03-2026 (Friday)

Time : 10:15-11:25

Hall : Meeting Room L-05

Chief Instructor: Arup Bhaumik

In the current era of rapid technological advancement, every cataract surgeon faces a crucial question “Which machine should I upgrade to?”

While high-end, costly phaco machines with advanced features are available, investing in such technology may not always be practical, sustainable, or financially viable for every surgeon or practice setting.

This Instruction Course aims to provide a logical framework to help cataract surgeons:

Categorize available phaco machines according to features, cost, and practice requirements.

Understand the real-world benefit of premium technologies vs standard machines.

Evaluate financial implications—initial cost, maintenance, consumables, and hidden expenses.

Learn strategies for financial recovery and ROI (Return on Investment) from machine purchases.

Discuss the balance between clinical excellence, technological advancement, and financial prudence.

No.	Topic	Speaker	Min
1.	Different Phaco Machines : Advantages , limitations and cost burden	Arup Bhaumik	15
2.	OCT MACHINES: VALUE FOR MONEY	Siddhartha Ghosh	10
3.	MICROSCOPE : A LONG TERM INVESTMENT: WHAT SHOULD LOOK FOR	Anujeet Paul	10
4.	CHOOSE YOUR BIOMETRY MACHINE	Ayan Mohanta	10
5.	FINANCIAL EXERCISE AND PLANNING	Debasish Bhattacharya	15

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC190 - Mastering Endophthalmitis: Tackling the Loch Ness Monster

Date : 13-03-2026 (Friday)

Time : 10:15-11:25

Hall : Meeting Room U-01

Chief Instructor: Kelkar Aditya Shreekant

Endophthalmitis, though infrequent, poses a significant risk of irreversible eye damage. This course explores post-cataract surgery, intravitreal injection, and traumatic endophthalmitis management. Prevention strategies, medicolegal aspects, and challenging cases will be discussed, empowering participants to apply insights in their clinical practice.

No.	Topic	Speaker	Min
1.	How to Prevent Endophthalmitis	Shishir Verghese	10
2.	Post Cataract Surgery Endophthalmitis	Kelkar Aditya Shreekant	10
3.	Post Intravitreal Injection Endophthalmitis	Maneesh Bapaye	10
4.	Traumatic Endophthalmitis	Vishal Agrawal	10
5.	Steps in preserving corneal health in Endophthalmitis	Namrata Sharma	10
6.	Medicolegal Aspects of Endophthalmitis	Shrinivas M. Joshi	10

Panel Discussion : 10 mins

IC172 - CLINICAL CONUNDRUMS IN PAEDIATRIC NEUROPTHALMOLOGY

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Meeting Room U-03

Chief Instructor: Leila Mohan

Neurological problems in children often present with vague or atypical symptoms and are challenging to diagnose early. Some are mimickers of neurologic disease. Various congenital anomalies of the disc may confound the diagnosis. Optic disc in a child may present with suspicious oedema and diagnosis may be challenging. Often disc palor is diagnosed clinically when it may be normal. To investigate for the same is crucial. Paralytic strabismus in children is not uncommon. Many cranial disinnervation syndromes present during early childhood. Often they need assertion before surgical correction. Childhood ocular myaesthesia can sometimes be missed since it mimics other oculomotor pathology. Neurodevelopmental issues of cerebral vision impairment are often to be taken up as a multidisciplinary approach. A case based evaluation of each of these perplexing situations is discussed in this session by a panel of experts in the field.

No.	Topic	Speaker	Min
1.	Congenital anomalies of the optic disc	Prakash V.S.	10
2.	Is this disc oedematous? Case based discussion.	ROHIT SAXENA	11
3.	Is this disc palor significant?	Leila Mohan	11
4.	Is this an acquired paralytic strabismus?	Neena R	11
5.	Can childhood ocular myaesthesia be missed?	Nayana G	11
6.	Unraveling the mysteries of cerebral vision impairment	Suma Ganesh	11

Panel Discussion : 5 mins

IC170 - Complications in cataract surgery A 2 Z - Innovative & practical tips in management

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Meeting Room U-05

Chief Instructor: Satanshu Mathur

Synopsis

This video based instruction course will highlight common complications in cataract surgery where most experienced national faculty will showcase their strategies to tackle these complications like extended rhexis, intra operative floppy iris , PCR, & vitreous loss, zonular dialysis . Highlight would be innovative & practical tips of decision making to achieve good results .Iris claw lens , sulcus fixated IOL"s for no capsular support , intra ocular lens exchange for unhappy patients & damaged IOL"s techniques would be demonstrated . Do not worry be cool we have remedies for each complication in operation theatre . Panel discussion after each video will have a take home message for participants.

No.	Topic	Speaker	Min
1.	Capsularhexis extended – what to do	Kamal Bandhu Kapur	8
2.	While chopping when the cataract does;t crack –what do I do	Rajendra Prasad	8
3.	Zonular dialysis - it's Prevention & management	Sourabh Patwardhan	8
4.	intra operative Floppy Iris Management	Deepak Megur	8
5.	Posterior capsular rent – All is not lost –Dr.Nivean	Nivean M	8
6.	No capsular support – My Choice - Mastering Sulcus fixated iol	Satanshu Mathur	8
7.	IOL damaged / unhappy pt – IOL Exchange made easy	Neha DHOLAKIA	8

IC470 - Sailing through the storm

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Trade Room 1

Chief Instructor: Subhash Prasad

Phacoemulsification though preferred and very safe surgery for cataract, can sometimes encounter unexpected challenging situations intraoperatively, requiring change in plan. It could be rhexis run off, making the subsequent steps of phaco difficult and even requiring conversion to SICS. Intraoperative miosis makes phaco very challenging. Intraoperative hard eye though uncommon, warrants immediate attention and cause great difficulty in completing the procedure. Similarly sudden deepening of anterior chamber is another situation, which demand extra expertise. Intraoperative zonular dehiscence, if not, managed well, may lead to changing the plan. PCR can occur with most experienced surgeons at any stage of nucleotomy, cortex aspiration or IOL implantation. It can lead to dropped nucleus and all sorts of complications. Many times situations demand changing the planned IOLs and placement once PCR happens. This course will highlight how to manage these complications and sail through these storms.

No.	Topic	Speaker	Min
1.	CCC runoff	Sonali Prasad	8
2.	Intraoperative miosis	Bibhuti Prassan Sinha	8
3.	Intraoperative hard eye	Subhash Prasad	8
4.	Sudden deepening of anterior chamber	Satyajit Sinha	8
5.	Intraoperative Zonular dehiscence	Amit Raj	8
6.	Posterior capsule tear	Vidhata V	8
7.	IOL in deficient capsular support	Elankumaran Pasupathi	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

Updates - Management of intraocular retinoblastoma- what, when and how?

Date :	13-03-2026 (Friday)
Time :	10:15-11:25
Hall :	Trade Room 4

Rachna Meel

This is an intermediate level instruction course for retinoblastoma management covering all the aspects of intraocular retinoblastoma management including diagnosis, imaging, staging and treatment.

A guide is provided to the standard and latest treatment for intraocular retinoblastoma including indications for systemic chemotherapy, focal treatment measures and newer targeted treatment like intra arterial chemotherapy and intravitreal chemotherapy. This IC is customized to the limitations typical to a developing world scenario like India and takes into account the recently published ICMR consensus document for Retinoblastoma management. It aims to guide the ocular oncologist in such settings on how to avoid missing a case and treating and/or referring these based on facilities available with them, in order to achieve optimal outcomes in terms of life and ocular salvage.

Case based teaching will be used for understanding each aspect of intraocular retinoblastoma management.

1. When to suspect retinoblastoma and how to evaluate it? - Deepsekhar Das - 10 Mins
2. when and how to enucleate and eye for retinoblastoma? - Maya Hada - 10 Mins
3. When and how of the focal treatment measures and targeted treatments for IORB? - Rachna Meel - 10 Mins
4. What to look for in an enucleated eye and decide further management- A pathologist's perspective - Seema Kashyap - 10 Mins
5. Role of EBRT in eye salvage in the current era - Renu Madan - 10 Mins
6. Problems with and benefits of IAC- real time Scenario in LMIC - Suyash Kulkarni - 10 Mins
7. Brachytherapy in retinoblastoma- when and how? - Neiwete Lomi - 10 Mins

The 84th Annual Conference of All India Ophthalmological Society

AIOC Theatre - E-Video (Anterior Segment - II)

Date :	13-03-2026 (Friday)
Time :	10:15-11:30
Hall :	AIOC Theatre

Panelist : Aakanksha Raghuvanshi, Abhinav Sinsinwar

1. [VT212] - Transconjunctival compression sutures-A novel technique to combat post Trab hypotony and CD

Chief & Presenting author : Neetu Negi (N27985)

2. [VT242] - Leaving It Behind: Haptic Amputation in IOL exchange

Chief & Presenting author : Abhinav Sinsinwar (S19499)

3. [VT318] - A Rare Case of Valproate-Induced Downbeat Nystagmus in a Young Adult: A Video Report

Chief & Presenting author : Nitya Raghu (N24343), Pratibha Panmand

4. [VT345] - Muscle transplantation surgery in strabismus

Chief & Presenting author : Aakanksha Raghuvanshi (R18464), Vaishali Tomar, Subhash Dadeya, Kanchita Pandey

5. [VT373] - TRIPLE HYDROPROCEDURE -HYDRODISSECTION, PROLAPSE, EXPRESSION IN MSICS- INNOVATIVE & NOVEL TECHNIQUE

Chief & Presenting author : Arthy Govindasamy (A30439), Janani V.S

6. [VT452] - Struggles of a novice phaco surgeon-learning from mistakes.

Chief & Presenting author : Poulami Pal (P23319), Rakesh Shakya

7. [VT532] - Conquering the Soft Cataract – The Power of Delineation

Chief & Presenting author : Libin Nal Dev (D25684), Vivekanandan V R

8. [VT536] - Tips and Tricks: Retropupillary Iris Claw Lens Implantation

Chief & Presenting author : Pragya Garg (P19656)

9. [VT538] - "From Complication to Control: Stopping Bleeding in BANG Surgery"

Presenting author : Preethy Modepalli (P25110), Chief author : Ashok Vardhan, Keerthi Gayam, Upendra Babu Manchala, Preethy Modepalli

10. [VT539] - A case of Neovascular Glaucoma managed by primary GATT

Presenting author : Avilasha Mohapatra (A25422), Chief author : Sushmita Kaushik, Surinder S Pandav, Vyshak A S

11. [VT545] - DSAEK After Failed Penetrating Keratoplasty : A Challenging Scenario In A One Eyed Patient

Chief & Presenting author : Piyush Adchitre (A30216), Prafulla Kumar Maharana

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

12. [VT594] - Calming the Storm: Anterior Chamber Maintainer in Phacoemulsification!

Presenting author : Jashaswini Nanda (J25315) ,Chief author : *Siddharth Dikshit*

13. [VT598] - A Beginner's Guide to Tug of War in Strabismus.

Chief & Presenting author : Pooja Patel (P23042), Shailja Tibrewal

<https://www.facebook.com/AIOSSC>

The 84th Annual Conference of All India Ophthalmological Society

Chhattisgarh State Society Symposia

Date :	13-03-2026 (Friday)
Time :	10:30-11:40
Hall :	Atlantiis 3

Theme: Ocular Trauma 360° – From Impact to Insight

The Ocular Trauma Symposium aims to bridge the gap between theory and practice through focused, time-efficient talks covering the entire spectrum—from anterior to posterior segment injuries. Expert speakers will share evidence-based updates, surgical pearls, and real-world management strategies for improving visual outcomes in traumatic eye injuries. The session concludes with a dynamic panel discussion, “Saving Sight After Trauma — What Matters Most,” encouraging interactive dialogue and take-home insights for every ophthalmologist.

Chairperson : Subhash Mishra

Co-Chairperson : Deepshikha Agrawal

Moderators : Soma Roy, H. R. Prasad

Convener : Lipi Chakrabarty

Scientific Agenda

Each talk 5 min ,followed by 10 min panel discussion total time 55 min

1. Ocular Trauma Classification – The Latest Update - Tanmay gupta
2. Emergency Management and Imaging Pearls -Harshvardhan Gupta
3. Lid and Canalicular Laceration: Aesthetic and Functional Restoration - Ankur Srivastava
4. Corneoscleral Injury: Principles of Primary Repair - Sonal Vyas
5. Traumatic Cataract and Lens Management - L. C. Madheria
6. Iris and Pupil Injuries: Cosmetic and Functional Repair - Anupam sahu
7. Angle Recession Glaucoma: Diagnosis and Long-Term Management - Dilip Lalwani
8. Traumatic Endophthalmitis: From Despair to Vision Salvage - Santosh Singh Patel
9. Posterior Segment Trauma: When the Retina Fights Back - Anand saxena

The 84th Annual Conference of All India Ophthalmological Society

Cornea subspecialty day Session - II (Surgical Cornea – Current Concepts & Techniques (video based)

Date :	13-03-2026 (Friday)
Time :	11:25-12:35
Hall :	Atlantiis 1

Chairs : Sonal Tuli, Vishal Jhanji, Anil Radhakrishnan

Moderator : Ratnesh Sharma

ALL TALKS ARE 8 MINS TALK TIME AND 2 MINS Q&A

1. Hemi ALK: techniques and indications : Sunita Chaurasia - 8+2 Mins
2. Intraoperative OCT in Corneal Surgery: From Visualization to Precision-guided Keratoplasty - Ritu Arora - 8+2 Mins
3. Cliffhangers in DALK - Ritu Arora - 8+2 Mins
4. Management of post-PK cataract -Swati Tomar - 8 + 2 Mins
5. Corneal crosslinking in thin cornea : Ingemar Gustafsson - 8+2 Mins
6. Corneal Neurotization : Vishal Jhanji - 8+2 Mins-
7. Management of congenital alacrimia: surgical technique Anil Radhakrishnan - 8+2 Mins
8. Guest Talk : Comparative analysis of clinical and functional results of different variants of posterior lamellar keratoplasty in fuchs dystrophy - Maksim Sinitsyn

The 84th Annual Conference of All India Ophthalmological Society

IC23 - PHACONIGHTMARES & WORST CASE SCENARIO

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Ballroom

Chief Instructor: Agarwal Amar

The course tends to showcase complications in cataract surgery. The course will highlight worst case scenarios and tips to handle such cases judiciously. The course will also showcase newer surgical techniques to handle such complications.

No.	Topic	Speaker	Min
1.	Phaconightmares & disasters	Agarwal Amar	12
2.	Flap motility & Anterior capsular disasters	Om Parkash Rohit	12
3.	Subluxations & disasters	Narang Priya	12
4.	Dropped Nucleus & IOL: Meeting the challenges	Ashvin Agarwal	12
5.	Corneal challenges in Phaco complications	Namrata Sharma	12

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC110 - ADVANCED IOL DECISION MAKING STRATEGY IN COMPLEX OCULAR SITUATIONS

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-01

Chief Instructor: Krishna Prasad Kudlu

Intraocular lens (IOL) selection in complex ocular cases requires a strategic, patient-specific approach that balances anatomical, refractive, and functional considerations. Advanced decision-making integrates cutting-edge diagnostics, surgical planning, and individual risk factors to optimize visual outcomes and minimize complications.

In this course we take you through IOL selection in a detailed strategy from corneal pathology ,post refractive cases,challenging anterior segment situations,glaucoma ,high myopes,pediatric cataract and retinal conditions .

No.	Topic	Speaker	Min
1.	introduction	Krishna Prasad Kudlu	5
2.	Navigating IOL Decisions in corneal pathology	Aparna Nayak	8
3.	Lens Implantation in Developing Eyes: IOL Strategies in Children	H.M. Ravindranath	10
4.	Adapting IOL Choices In Complex Anterior Segment challenges	Shamanth Shetty	10
5.	Post Refractive surgery - IOL planning	Krishna Prasad Kudlu	10
5.	Avoiding Pitfalls: IOL Planning in High Myopia	Chinnappa Ganapathi	8
6.	Optimizing Intraocular Lens Choice in Glaucomatous Eyes	Vikram Jain	8
6.	Retinal Comorbidities and Their Impact on IOL Planning	Sharat Hegde	10

Panel Discussion : 1 mins

The 84th Annual Conference of All India Ophthalmological Society

OSWB symposium - "Survivors of the storm" overcoming difficult situations in Ophthalmic surgery

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-01A

Chairpersons : Partha Biswas , Subhasish Nag

Panelist : Swaraj Bhattacharjee, Haimanti Choudhury, Pinaki Nag ,Swati Agarwal, Sagnik Surya Das

Moderator: Sugato Paul & Aniruddha Maiti

Speakers :

1. Rupak Kanti Biswas : Divide & Conquer - 8 Mins
2. Rudra Prosad Ghosh : Taming an Argentinian flag - 8 Mins
3. Amitabh Kumar : Management of sympathetic ophthalmia - 8 Mins
4. Sudipta Mitra : PC Rent going Amiss - 8 Mins
5. Debashis Chakraborty : Tackle the stent, A lot has been spent! - 8 Mins
6. Anil Mandal : Improved surgical technique for Newborn Glaucoma with Axenfeld- Rieger Anomaly - 8 Mins

Panel Discussion : 20 Mins

The 84th Annual Conference of All India Ophthalmological Society

IC207 - Mastering Advanced Strabismus Surgery: Techniques, Challenges, and Clinical Pearls

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-02

Chief Instructor: Jitendra Nenumal Jethani

Strabismus management has evolved significantly, with surgical techniques now extending beyond conventional recession–resection procedures. Advanced strabismus surgery involves a spectrum of nuanced approaches for challenging deviations, reoperations, and complex anatomical scenarios.

The course will focus on surgical decision-making, advanced techniques like adjustable sutures, posterior fixation sutures (Faden), muscle transpositions (including vertical rectus transposition), augmented surgeries, and innovative approaches for addressing incomitant deviations. Emphasis will also be placed on preoperative planning, intraoperative adjustments, and the role of imaging etc in surgical planning.

Participants will benefit from step-by-step surgical videos, interactive case discussions, and expert tips for avoiding common pitfalls. This course is designed for ophthalmologists already performing strabismus surgeries who wish to expand their capabilities in managing challenging cases.

No.	Topic	Speaker	Min
1.	Adjustable Faden (The Scott's Procedure)	Jitendra Nenumal Jethani	9
2.	Loop Myopexy for the so called Heavy Eye Syndrome	Aditya Sethi	10
3.	Inferior oblique surgeries	Shah Kalpit Pravinbhai	11
4.	Chicken suture for weakening superior oblique	Suma Ganesh	10
5.	Transposition of LR to MR in third nerve palsy	Ankur Sinha	10
6.	Resurgeries in Strabismus	ROHIT SAXENA	11
7.	Miniplication for Minimum Angles	Jitendra Nenumal Jethani	9

The 84th Annual Conference of All India Ophthalmological Society

IC13 - PHAKIC IOL: LEARN IT FROM THE MASTERS

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-03

Chief Instructor: Purendra Bhasin

Phakic lens surgery has been and is a well-established and ever-evolving refractive surgery in the present times. Masters and Pioneers of Phakic Lens surgery come to share their experiences in this most sought-after video-assisted course. The experienced faculty is going to share the step-by-step approach for proper case selection, pre-operative workup, pearls for proper surgical technique, and meticulous postoperative care in an optimum and simple way. Because of its safety and excellent visual outcome, it is now a reliable and well-established refractive procedure. The attendees will be encouraged to ask questions from the faculty freely. All this will give the best patient satisfaction, enhancing their confidence in this surgery. The attendee will go back with confidence in the procedure and understand the minutest nuances of the technique. The course is being successfully conducted in AIOC.

No.	Topic	Speaker	Min
1.	Introduction of the course and overview of Phakic IOL	Purendra Bhasin	3
2.	Preoperative Planning & Workup of Phakic IOL	Purendra Bhasin	10
3.	The Correct Way to do ICL and Toric ICL	Partha Biswas	10
4.	Challenging situations of Phakic IOL	D. Ramamurthy	10
5.	Intra-operative and early post- operative complications in Phakic IOL and their management	Mahipal S. Sachdev	10
6.	Long-term results and issues of Phakic IOL	Sudhank Bharti	10
7.	Experience of Presbyopic Phakic IOLs	J. S. Titiyal	10

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC418 - Mastering Phacoemulsification In Difficult Eyes

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-04

Chief Instructor: Neeraj Khunger

Phacoemulsification is the most commonly performed surgical procedure worldwide. However, a successful phacoemulsification surgery may be difficult in some eyes due to various pre-existing or anatomical conditions. Few such scenarios include vitrectomized eyes, high myopic eyes, high hypermetropic eyes, and nanophthalmic eyes. Each of these conditions poses significant challenges during surgery due to anatomical variations, changes in phacodynamics and increased risk of complications. Our instruction course focuses on various pre-operative and intraoperative nuances that can help surgeons achieve optimal outcomes in these challenging cases. This instruction course will include case-based examples and provide the delegates with an insight into management approaches for phacoemulsification in these difficult conditions.

No.	Topic	Speaker	Min
1.	Introduction to the IC Phacoemulsification In Vitrectomized Eyes	Neeraj Khunger	20
2.	Phacoemulsification In High Myopic Eyes	Bhargava Sorabh	15
3.	Phacoemulsification In High Hypermetropic Eyes	Tanveer Alam Khan	15
4.	Phacoemulsification In Nanophthalmic Eyes	Prakhyat Roop	15

Keynote Address (8') : Contemporary full-visual range IOLs having led the first clinical trial on enVista Envy - Adam Muzychuk

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC117 - Managing Ocular and Orbital Trauma in Maxillofacial Injuries: Challenges and Approaches

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-05

Chief Instructor: Santosh Mahapatra

This instruction course brings together ophthalmologists, maxillofacial and sometimes ENT and Nuero surgeons to explore the challenges of managing ocular and orbital trauma in in presence of facial and head injury patients, especially in settings without dedicated eye care facilities. Areas covered are addressing globe injuries (e.g. ruptures, perforations, traumatic cataracts) in non ophthalmic OT's, management of associated orbital fractures and floor repairs, deciding between globe-saving and globe-removing surgeries with optimal cosmetic outcomes, timing of orbital fracture repairs, and counseling polytrauma victims on visual prognosis and rehabilitation. The course also addresses the medicolegal importance of documentation, consent, and communication in trauma cases. Emphasis is on emergency improvisation, inter-specialty collaboration, and holistic care planning for complex trauma scenarios optimising final visual and cosmetic outcomes

No.	Topic	Speaker	Min
1.	Challenges of On-Site Ocular Trauma Management in Non-Ophthalmic Trauma Center	Santosh Mahapatra	12
2.	Decision-Making in Globe-Saving vs. Globe-Removing Surgeries	Shweta Dhiman	12
3.	Management of Associated Orbital Fractures and Floor Repairs	Shibani Das	12
4.	Management of complex ocular trauma, counseling and rehabilitation in Polytrauma Victims	S.Natarajan	12
5.	Medicolegal and Documentation Aspects of Trauma Care	Pattanayak Sabyasachi	12

Keynote Address (8') : Cranio-Orbitotomy - My Experience - Danie Briscoe

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Cornea Refractive Surgery in the Modern Era

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room L-06 & 07

1. Zeimer Z8 in Corneal procedures - Vikas Mittal
2. Spectacle Independence Starts with Astigmatism Correction- Rajesh Bhatia
3. My experience with Schwind AMARIS 1050 RS- Mahipal S Sachdev
4. Ziemer Z8 CLEAR SUPRA results - Prakhyat Roop
5. My experience with Ziemer Z8 Neo at multi location and high volume centres - Sri Ganesh
6. My results with Schwind ATOS Smart Sight Nova - C.M. Wavikar
7. My Results of SmartSight Nova with Schwind ATOS - Kishore Raj Pradhan
8. Personalized Precision : Redefining Refractive outcomes with Digital Eye Twin Technology : Pooja Khamar

The 84th Annual Conference of All India Ophthalmological Society

IC74 - Stabilising the wobbly ones- managing subluxated cataracts and decentered IOLs.

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room U-01

Chief Instructor: Minu M. Mathen

Managing subluxated cataracts and decentered IOLs are some of the most difficult surgical situations any cataract surgeon can face. This video based course presented by highly experienced faculty will deal with mild to severe subluxation of cataracts and IOLs showcasing techniques to perform successful surgery using capsule stabilising devices like capsular hooks, capsule tension rings & segments including their suture fixation techniques and customised phaco techniques and parameters. Different techniques of sutured and non-sutured fixation of decentered IOLs will be demonstrated including techniques for IOL exchange and fixating a different IOL with and without sutures, in cases of severe subluxation. Techniques of anterior vitrectomy will also be detailed. The attendees will gain knowledge and become more confident of the specialised and advanced surgical skills required to tackle these difficult situations.

No.	Topic	Speaker	Min
1.	1. Overview of capsular bag stabilisation devices & pre-op evaluation. 2. Nuances in iris claw IOL	Shivkumar Chandrashekharan	10
2.	Surgical techniques in mild to moderate subluxation	Suvira Jain	8
3.	Extreme subluxation: Phaco techniques and capsular bag fixation	Haripriya Aravind	8
4.	Recentering decentered IOLs	Naren Shetty	8
5.	IOL explantation techniques	Minu M. Mathen	8
6.	Perfecting the sutureless intrascleral haptic fixation technique	Mathew Kurian	8
7.	Sutured SFIOLs & using new design CMT Flex IOL	Sudeep Das	8

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC311 - Vitrectomy: Basic to Advanced - Learn from the Masters

Date : 13-03-2026 (Friday)

Time : 11:30-12:40

Hall : Meeting Room U-01 A

Chief Instructor: Rajender P. Singh

This instructional course is designed to take ophthalmic surgeons, particularly those in fellowship training or with intermediate experience, through the various nuances of vitreoretinal surgery, to help improve their outcomes. It focuses specifically on vitrectomy procedures in complex and challenging situations such as posterior capsular rupture, nucleus or IOL dislocation, and in the management of retinal diseases including vitreous hemorrhage and retinal detachment.

By the end of this course, participants will gain the theoreticla and practical knowledge from expert vitreo-retinal surgeons to navigate both basic and advanced vitreoretinal procedures. The course emphasizes safety, precision, and decision-making in real-time, ensuring that surgeons are prepared for the intricacies of these critical surgeries.

No.	Topic	Speaker	Min
1.	Anterior vitrectomy in posterior capsular rupture	Shilpa Singh	10
2.	Vitrectomy in nuclear fragment or IOL dislocation	Ashish Krishnan	10
3.	Vitrectomy in vitreous hemorrhage and endophthalmitis	Amishi Khanna	10
4.	Post vitreous detachment (PVD) induction in macular hole surgery	Rajender P. Singh	10
5.	Vitrectomy in Retinal Detachment	Shruti Bhattacharya	10

Guest Talk : Outcomes of Pars Plana Vitrectomy in Haemorrhagic retinal detachments - Nishant Radke

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC561 - Ophthalmic Trauma

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room U-02

Chief Instructor: S.Natarajan

Ophthalmic trauma refers to any injury affecting the eye or its surrounding structures, ranging from minor abrasions to severe globe ruptures and orbital fractures. It is a significant cause of visual impairment and blindness worldwide. Trauma can be classified as blunt, penetrating, or chemical, and may affect the anterior or posterior segment of the eye. Common presentations include pain, vision loss, and redness, swelling, or bleeding. Diagnosis relies on a thorough clinical examination, imaging (CT, ultrasound), and visual acuity assessment. Prompt management is crucial to preserve vision and may include medical therapy, surgical repair, or urgent referral. Preventative strategies and protective eyewear play a vital role, especially in occupational and sports settings. Ophthalmic trauma requires a multidisciplinary approach and long-term follow-up to monitor complications such as infection, scarring, or retinal detachment.

No.	Topic	Speaker	Min
1.	Fine art of repairing trauma passionately	S.Natarajan	12
2.	Traumatic Corneal repair	Madhuvanthi Mohan	12
3.	Traumatic cataract	Mohan Rajan	12
4.	Traumatic dislocated IOL	Smit Bavariya	12
5.	Traumatic Endophthalmitis	Manoj Khatri	12

Keynote Address (8') : Tectonic DSAEK in corneal perforations - James Myerscough

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC151 - Misdiagnosed Cases in Neuro-Ophthalmology

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Meeting Room U-03

Chief Instructor: Kumudini Sharma

In this instruction course we will teach how to evaluate and diagnose correctly Neuro-Ophthalmology cases. The art of clinical diagnosis will be our main focus, but various investigation modalities and imaging will also be discussed. There will be interesting illustrations and case-based discussion. This course will help the attendees to avoid misdiagnosis in Neuro-Ophthalmology.

No.	Topic	Speaker	Min
1.	Do not miss the diagnosis in Neuro-Ophthalmology	Kumudini Sharma	15
2.	Case based discussion with Neuro-imaging	Vikas Kanaujia	10
3.	Diagnostic dilemma in optic neuritis	Sucheta Parija	10
4.	Tips and tricks to solve Neuro-Ophthalmology puzzles	PRIYADARSHINI MISHRA	10
5.	Case of bilateral disc edema: What to do next?	Satya Karna	10
6.	Catch the correct signs in time	Arun Kumar Singh	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC98 - PCR, Loose Bag or Dead Bag : A Teaching Guide to IOL fixation

Date : 13-03-2026 (Friday)

Time : 11:30-12:40

Hall : Meeting Room U-05

Chief Instructor: Meena Chakrabarti

Methods for IOL repositioning and repair for rehabilitating eyes with decentred or dislocated IOLs have evolved as surgeons seek the simplest, safest, and most efficient way to restore vision for these patients. This course will cover the various surgical options to be considered in this situation. PC IOL repositioning into the ciliary sulcus with optic capture to stabilise the decentred IOL, iris fixation, management of Dead Bag syndrome, in-the-bag dislocation of bag-IOL-CTR complex and suture less intrascleral haptic fixation techniques will be covered in detail. The indications for these procedure as well as the IOL types which can be safely relocated by each of these techniques will be emphasised. Intra and postoperative complications associated with each of these procedures and their management options will be covered in detail.

No.	Topic	Speaker	Min
1.	Introduction	Meena Chakrabarti	3
2.	Sulcus fixation of PCIOL with Optic Capture	Arup Chakrabarti	10
3.	Anterior Chamber IOL: Villain or Saviour?	Meena Chakrabarti	10
4.	Sutureless Intrascleral Haptic fixation	Keya Chakrabarti	10
5.	Sutured scleral Fixation for IOL Relocation	Meena Chakrabarti	10
6.	Iris Fixated IOLs	K V Satyamurthy	10

Panel Discussion : 17 mins

Retina subspecialty day Session - I (Imaging)

Date :	13-03-2026 (Friday)
Time :	11:30-12:25
Hall :	Atlantiis 2

Chairperson : Karobi Lahiri

Co Chairpersons: Rodney Morris, Abhishek Kothari, Vatsal Parikh, Ajay Aurora

Moderator: Divyansh Mishra, Divakant Misra

Expert Panel: Shane Mathew, Ajay Dudani, Pallavi Singh, Abhishek Anand, Supriya Dabir, Anand Rajendran

1. OCT/ OCTA patterns that change management: Chaitra Jayadev
2. UWF imaging: Vinod Agarwal
3. When to do ERG in retinal diseases? Sandeep Grover
4. Clinical Applications of Electrophysiological Tests (interactive joint lecture with my colleague Ramez Tawashi): Mhd Maher Alloush
5. Inherited Retinal Dystrophies: Electrophysiological Insights and the Emerging Promise of Gene Therapy in India : Poornachandra B
6. Keynote Address : Multimodal imaging for posterior segment tumours - Peter Hadden

The 84th Annual Conference of All India Ophthalmological Society

IC312 - TORIC IOL'S UNLOCKED: FROM PLANNING TO PERFECTION

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Trade Room 1

Chief Instructor: Atul Kadhane

THE CATARACT SURGERY IS NOW REFRACTIVE CATARACT SURGERY .PATIENT EXPECT 6/6 AND N6 POST OP. THE GREATEST HINDERANCE IN ACHIEVING THIS GOAL IS ASTIGMATISM. NOW A DAYS , IN THIS COMPETATIVE WORLD,IN ORDER TO GIVE PATIENT SATISFACTION , EVEN 1 DIOPTER OF ASTIGMATISM SHOULD ALSO BE ADDRESSED. THIS IC DEALS WITH ALL NUANCES WHILE PERFORMING TORIC IOL SURGERY FROM PLANNING TO PERFECTION.THIS IC WILL REMOVE BLOCKS FROM MIND OF NOVICE SURGEON ABOUT TORIC IOL. EVEN WITH BASIC SET UP WE CAN DO TORIC IOL PRACTICE

No.	Topic	Speaker	Min
1.	PATIENT SELECTION & CALCULATION IN TORIC IOL PRACTICE	Archana Chowdhry	10
2.	SURGICAL PLANNING & MARKING TECHNIQUES	Reshma Jhaveri	10
3.	SURGICAL TECHNIQUE FOR TORIC IOL IMPLANTATION	Nikhil Nasta	10
4.	POSTOPERATIVE CARE & TROUBLE SHOOTING	Tanvi Haldipurkar	10
5.	ADVANCES & FUTURE TRENDS IN TORIC IOL	Rajiv Brahmane	10
6.	GETTING BEST OUT OF TORIC IOL AT BASIC SET UP	Atul Kadhane	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC265 - SUPER SENSATIONAL COMPLICATED VR SURGERIES

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Trade Room 2

Chief Instructor: Karobi Rani Lahiri

THIS IC SHOWCASES SEVERAL VIDEOS SHOWING DIFFICULT SITUATIONS REQUIRING SKILLED EXECUTION AND A METICULOUS PATIENT APPROACH SOMETIMES THINKING OUT OF THE BOX TO EFFECTIVELY DEAL WITH THE SAME . CASES OF TRAUMA,PVR,PDR,MACULAR HOLES,PARASITES, IOFB,,ROP ANDENDOPHTHALMITIS WILL BE SHOWCASED

No.	Topic	Speaker	Min
1.	DIFFICULT PDR SURGERIES	Supriya Dabir	8
2.	DIFFICULT PVR	Vatsal Shyamlal Parikh	8
3.	SURGERIES FOR POLYTRAUMA AND ROP	Karobi Rani Lahiri	8
4.	SURGERIES FOR CRAO,DISLOATED LENSES AND IOLS	Saumil Sheth	8
5.	DIFFICULT MACULAR HOLES AND ENDOPHTHALMITIS	Vaidya Ashish R.	8
6.	POT POURRI NIGHTMARES	Paritosh Arvind Kamdar	8

IC11 - Corneal Perforations: Glue, Grafts, and Beyond – A Stepwise Surgical Approach

Date : 13-03-2026 (Friday)

Time : 11:30-12:40

Hall : Trade Room 3

Chief Instructor: Karan Bhatia

Corneal perforations are a frequent surgical emergency in cornea practice, with management dictated by size, location, and etiology. This instruction course provides a stepwise, practical approach to the evaluation and management of corneal perforations. Topics covered include clinical assessment, cyanoacrylate glue techniques, use of amniotic membrane and Tenon patch grafts, non-keratoplasty surgical options like conjunctival & Gundersen flaps, and indications for therapeutic penetrating keratoplasty. Case examples, surgical videos, and expert pearls will guide participants in managing both simple and complex perforations effectively. The course will also emphasize decision-making in resource-limited settings, tips for preventing globe collapse, and strategies for optimizing anatomical and visual outcomes, making it relevant for both routine and high-risk clinical scenarios.

No.	Topic	Speaker	Min
1.	Clinical Evaluation & Decision-Making	Bhupesh Singh	12
2.	Cyanoacrylate Glue: Pearls & Pitfalls	Karan Bhatia	12

The 84th Annual Conference of All India Ophthalmological Society

YOSI Session 2 : Conference Craft: Building Award-Winning Abstracts, Posters, Videos & Talks

Date :	13-03-2026 (Friday)
Time :	11:30-12:40
Hall :	Trade Room 4

Chairpersons: Vishwendra Pratap Singh, Zain Khatib

Panelists: Rutayani Dash, Deepa Ramamoorthy, Bharat Mehta

Moderator: Gunjan Budhiraja

1. Writing the perfect Abstract for free paper : crafting from Idea to Submission - Rakhi D Cruz - 10 mins
2. Designing Prize-Winning E-Posters: Visual Impact and Scientific - Rolika Bansal - 10 mins
3. Cracking the Code: How to Win Travel Grants and Conference Sponsorships - Prasanna V Ramesh - 10 mins
4. Polishing Your Presentation: Speaking Like a Star Faculty - Rwituja Thomas - 10 mins
5. Creating Award-Winning Videos: Tips for Surgical and Educational Video Competitions - Shishir Varghese - 10 mins

Discussion 25 mins

AIOC Theatre - E-Video (Posterior Segment + General)

Date :	13-03-2026 (Friday)
Time :	11:30-12:45
Hall :	AIOC Theatre

Panelist : Monalisa Mohapatra, Rajiv Gandhi

1. [VT18] - Fixating the Future: SFIOL Approaches in Complex Ocular Situations

Chief & Presenting author : Mani Sachdeva (M21424), Chetna Saini, Deepa Sharma

2. [VT40] - The Surgical Balancing Act: Handling various cases of Trauma-Induced Cataracts with Precision

Chief & Presenting author : Ananta Raina (A28460), Neeraj Saraswat, Sushil Ojha

3. [VT121] - BRIDGING THE GAP:AUTOLOGOUS RETINAL TRANSPLANT(ART)FOR REFRACTORY MACULAR HOLE,A SINGLE STEP SURGERY

Chief & Presenting author : Sourav Santra (S19453)

4. [VT130] - Unveiling Cerebral Visual Impairment: Bridging Vision and Neurology

Chief & Presenting author : Monalisa Mohapatra (M13745), Vivekanand Warkad

5. [VT146] - TAMING THE CHOROIDALS

Chief & Presenting author : Rohan Jain (J30411), Malvika Singh, Tejaswita Verma, Manish Nagpal

6. [VT154] - Retinal Detachment Secondary to Globe Perforation

Chief & Presenting author : Malvika Singh (M23766), Rohan Jain, Tejaswita Verma, Manish Nagpal

7. [VT290] - ILM peeling in traumatic retinal detachment with macular hole : A case based approach

Chief & Presenting author : Aashul Chawla (C27340), Nida Khan, Aditi Joshi, Chawla Gajendra

8. [VT322] - The Art and Science of Corneal Sensitivity Testing in Clinics

Chief & Presenting author : Sai Lahari Balireddi (S25779), Muralidhar Ramappa, Sunita Chaurasia

9. [VT400] - Aniridic SFIOL for Visual Rehabilitation and Photophobia Relief in Post-Traumatic eye

Chief & Presenting author : Avaniben Bhavsar (A30986), Dhaivat Shah

10. [VT418] - "Perseverance Turns Struggles Into Triumph."

Chief & Presenting author : Rajiv Gandhi (G16366)

11. [VT428] - Chandelier to the rescue

Presenting author : R.Ram SUDARSHAN (S25107), Chief author : Jeet Patel, Jeet Patel

12. [VT524] - Tailored Techniques in Large Macular Hole Repair: From Conventional to Complex

Chief & Presenting author : Shweta Jagdeesh (J22727)

The 84th Annual Conference of All India Ophthalmological Society

13. [VT548] - UVEOSCOPE : A Smart App for Screening and Investigating Uveitis

Chief & Presenting author : Anju Kuriakose (A20102), Neethu Pradeep, John Davis Akkara

Retina subspeciality day Session - II (Medical Retina)

Date :	13-03-2026 (Friday)
Time :	12:25-13:20
Hall :	Atlantiis 2

Chairperson: S Natarajan

Co Chairpersons: R K Sharma, Manisha Agarwal, , debdulal Chakraborty, Mukesh porwal, Shalabh Sinha

Moderator: Natasha Radhakrishnan

Expert Panel: Harshit Vaidya, Divya Agarwal, Ashish Mahobia, Rahul Mayor, Santosh Mahopatra, Pooja Sinha, Pradeep Thakurela,

1. Beyond Idiopathic: Reasoning of Unknown: Kartikeya Singh
2. Chronic CME post RVO: Handling tough situations: Pranav Saluja
3. How do we treat diabetic macular edema in 2026 ? : Ali Erginayi
4. Predicting anti VEGF response: Dhanashree Ratra
5. Predicting CAD and stroke from retinal images: Gopal Pillai
6. Pachychoroid disorders: George Manayath
7. Keynote Address : Similar isn't the same: Evidence Counts – Lalit Verma (10 mins)

The 84th Annual Conference of All India Ophthalmological Society

Cornea subspeciality day Session - III (Case-based Learning – Clinical & Surgical Dilemmas)

Date :	13-03-2026 (Friday)
Time :	12:35-13:55
Hall :	Atlantiis 1

Chairs : Samrat Chatterjee, Rishi Swarup

Moderator : Swapnali Sabhapandit

1. Post- collagen cross linking scar management - Rishi Swarup - 8 Mins
2. Difficult surgical situations in DMEK: case based - Rushad Shroff - 8 Mins
3. Endothelial keratoprosthesis: early results of phase 3 trial - Lional Raj - 8 Mins
4. Ocular Rhinosporidiosis: a lesser-known entity Sujata Das - 8 Mins
5. Challenging cases in infectious keratitis - Samrat Chatterjee - 8 Mins
6. Viral keratitis-solving the enigma: a case-based discussion - Sunandini Bose - 8 Mins
7. Peripheral ulcerative keratitis: case-based discussion - Swapnali Sabhapandit - 8 Mins
8. Guest Talk : Our experience of intrastromal corneal rings implanting using a «digital twin» of the cornea - Elena Solodkova - 8 Mins
9. Guest Talk : Microbial Keratitis after corneal collagen cross- linking for corneal ectasia - Meenu Chaudhary - 8 Mins

Discussion - 8 Mins

Glaucoma subspecialty day Session - II (Understanding Glaucoma)

Date :	13-03-2026 (Friday)
Time :	12:40-13:30
Hall :	Atlantiis 3

Panelist: Benjamin Xu, Tutul Chakravarti, Krishna Prasad R, Priti Paritosh Kamdar

Moderator: Amit Porwal

1. Catching PACG Before It Strikes: Rationale and Roadmap - Benjamin Xu - 10 Mins
2. Latest updates in pediatric glaucoma - Dewang Angmo - 8 Mins
3. Understanding NTG, OHT & POAG - Shayana Bhumbra - 8 Mins
4. How do you manage a suspicious disc and diagnose pre-perimetric glaucoma? - Vinoth Arunachalam - 8 Mins
5. Target IOP : factors that you take into account - Saumendr Nath Ghose - 8 Mins
6. Discussion - 8 Mins

The 84th Annual Conference of All India Ophthalmological Society

IC67 - IOL FIXATION TECHNIQUES – MANAGING DECENTERED DISLOCATED DANGLING IOLS

Date : 13-03-2026 (Friday)

Time : 12:45-13:55

Hall : Ballroom

Chief Instructor: Mohan Rajan

This video-based Master Class shows IOL fixation techniques when capsular support is lacking. Experts make these complex surgeries look simple when they are really not. In this interactive course, each step will be critically analysed, questions asked and the logic behind each manoeuvre clarified so that correct surgical decisions are made. Attendees will learn a methodical way of planning for and performing IOL fixation surgery. The various options of IOL implantation in the absence of capsule support including glued IOL's and Retro Iris fixated IOL's will be discussed. We will also discuss and demonstrate with the help of videos the management of a dropped nucleus and dropped IOL.

No.	Topic	Speaker	Min
1.	AFTER PCR WHAT NEXT	Mohan Rajan	12
2.	SUTURED SCLERAL FIXATION AND MANAGEMENT OF SUBLUXATED IOLS	Sujatha Mohan	12
3.	GLUED IOL – TIPS AND TRICKS	Agarwal Amar	12
4.	FLANGED IOL & YAMANE TECHNIQUE	Chee Soon Phaik	12
5.	IRIS CLAW AND CM T FLEX IOL	Nivean M	12

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC72 - The Dilemmas in Cataract Surgery and IOL selection

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room L-01

Chief Instructor: Bharti Kashyap

Adult and Paediatric Cataract with Co-existing pathologies and unique scenarios: Challenges in opting various surgical options, timing and Intraocular lens selection. We face lot of intriguing situations when we are in dilemma which surgical option and IOL to use. There are complex situations like 50yr old clear lens patient wants spectacle independence, Keratoconus patient with cataract whether to use pinhole pupilloplasty or Toric IOL, Pseudoexfoliation patient needing Toric IOL and Paediatric Lens Subluxation and Traumatic cataract surgery various options. Attendees will learn implementing a new paradigm in practice.

No.	Topic	Speaker	Min
1.	PAEDIATRIC LENS SUBLUXATION - Preservation of bag	Jagat Ram	6
2.	PAEDIATRIC LENS SUBLUXATION - SFIOL	Mohan Rajan	6
3.	KERATOCONUS WITH CATARACT - Monofocal IOL with Pinhole Pupiloplasty	Narang Priya	6
4.	KERATOCONUS WITH CATARACT - Toric IOL-	Om Parkash Rohit	6
5.	TRAUMATIC CATARACT - Simultaneous wound repair and cataract surgery	John Sarkar	6
6.	TRAUMATIC CATARACT - Wound repair and deferred cataract surgery:	Lav Kochgaway	6
7.	PSEUDO EXFOLIATION CATARACT WITH ASTIGMATISM & OPEN ANGLE GLAUCOMA - Phaco Trab with Toric IOL	Bharti Kashyap	6
8.	PSEUDO EXFOLIATION CATARACT WITH ASTIGMATISM & OPEN ANGLE GLAUCOMA - Phaco Trab with Monofocal IOL	Birendra Prasad Kashyap	6
9.	50 YEAR OLD PATIENT WITH CLEAR LENS WANTS SPECTACLE INDEPENDENCE - Clear Lens Extraction	Nidhi Gajendragadkar	6
10.	50 YEAR OLD PATIENT WITH CLEAR LENS WANTS SPECTACLE INDEPENDENCE - Presbyopic IPCL	Narang Priya	6

Kerala Society of Ophthalmic Surgeon - Asepsis – Protocols and Methods

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room L-01A

Chairman- Mahesh Gopalakrishnan, Co Chairman- Rajiv Sukumaran,
Moderator- Bastin V A

Synopsis :

In the field of healthcare, every procedure—no matter how small—carries the responsibility of preventing infection. Asepsis is not just a set of rules; it is a culture of safety that protects both patients and healthcare professionals.

This course, “Asepsis: Protocols and Methods,” is designed to provide a comprehensive understanding of the principles and practices that ensure a sterile environment. Through this program, participants will explore the scientific basis of asepsis, learn standardized protocols, and master the methods essential to maintain infection-free procedures in clinical and surgical settings.

1. OP Disinfection protocols- Lathika Vasu Kamaladevi- 7 mts
2. Hand Hygiene techniques – Gopal S Pillai- 7 mts
3. OT Disinfection Protocols- Prakash V S- 7 mts
4. Instruments – Cleaning Packing – Bastin V A- 7 mts
5. Sterilisation & validation- Rajiv Sukumaran- 7 mts
6. NABH Protocols – HIC- Devin Prabhakar- 7 mts
7. Cluster Endophthalmitis- What Next? Thomas Cherian- 10 mts

Video assisted Panel Discussion- 18 mts

Panelists- Rajiv Sukumaran, Radha Ramanan, Mahesh Gopalakrishnan, Leila Mohan, Bastin V A, Thomas George T, Marian Pauly

IC144 - From Blur to Bright: Challenges and Advances in Pediatric Cataract Management

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room L-02

Chief Instructor: Deepti P.

Pediatric cataracts, a leading cause of childhood blindness, may be congenital, developmental, or traumatic. Congenital cataracts are present at birth and often linked to genetic, metabolic, or intrauterine infections. Developmental cataracts appear later due to systemic diseases or idiopathically. Traumatic cataracts result from blunt or penetrating ocular injuries. Nystagmus may develop in early-onset or neglected cases, indicating visual deprivation. Early diagnosis through red reflex screening is vital. Management includes timely surgical intervention, preferably before 6–8 weeks in bilateral and earlier in unilateral cases, followed by optical correction with intraocular lenses, glasses, or contact lenses. Amblyopia therapy and long-term follow-up are essential for optimal visual outcomes. Delay in treatment can lead to irreversible vision loss and sensory nystagmus. Multidisciplinary care and parental counseling play a key role in successful rehabilitation

No.	Topic	Speaker	Min
1.	IOP power calculation	Deepti P.	8
2.	Management of Congenital Cataract with Sensory Nystagmus	Sujata Guha	8
3.	Management of complex Pediatric cataract	Sudarshan Kumar Khokhar	8
4.	Management of complications after cataract surgeries in paediatric age group	Sumita Agarkar	8
5.	Management of Traumatic Cataract in Pediatric age group	Shreya Shah	8
6.	Secondary Lens implant in Paediatric age group	Kalpana Narendran	8
7.	Management of amblyopia, strabismus, and BSV after cataract surgery	Manjushree Bhate	8

IC107 - A STITCH IN TIME SAVES NINE

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room L-04

Chief Instructor: Vaishali Abhaykumar Vasavada

This practical, video-based instruction course will showcase common mishaps that every cataract surgeon faces. Each speaker will showcase one complication, and follow it up with remedial measures to avert the disaster in future; more so, the speaker will also show how the surgical outcome can be salvaged when the complication occurs. At the end of the course, the attendee will go with useable tips that he / she can apply to their daily practice and help achieve consistent outcomes.

No.	Topic	Speaker	Min
1.	Reigning in the Runaway Rhexis	Bharathi Megur	10
2.	Nucleus Rotation – tackling the snag in successful phacoemulsification	Prakash Chowdhury	10
3.	The case of the Ubiquitous incisional descemet's detachment	Vandana C. Nath	10
4.	When the Vitreous mixes with the aqueous–Tips for anterior vitrectomy in posterior capsule rupture	Vaishali Abhaykumar Vasavada	10
5.	Successfully Navigating a posterior polar cataract with an open posterior capsule	Tushya Om Parkash	10

Revolutionizing Cataract Surgery with Advanced Retinal Equipment - Saumil Sheth - 8 Mins

IC24 - TACKLING POSTERIOR CAPSULE RUPTURE & IOL IMPLANTATION: VIDEO COURSE

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Narang Priya

The course tends to focus on various aspects of complications following a posterior capsule rupture from the perspective of anterior and posterior segment surgeon. Method to perform safe and adequate vitrectomy from both limbal and pars plana site will be showcased. Method to convert a posterior capsular tear to posterior capsulorhexis will be demonstrated. IOL subluxations and dislocations in cases with posterior rupture and its management will be showcased and appropriate selection of IOL's will be highlighted.

No.	Topic	Speaker	Min
1.	Posterior capsulorhexis & IOL placements in PCR	Shail Vasavada	15
2.	Complex cases & PCR management	Narang Priya	15
3.	IOL dislocation & subluxations	Rajesh Sinha	15
4.	Worst case scenarios	Agarwal Amar	15

The 84th Annual Conference of All India Ophthalmological Society

Updates - Importance and benefits of patient communication and counselling in eye care.

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room U-01

Atul Hegade

Good communication is a process in which health care providers provide information and advice to patients about their medical condition, treatments available, medications and other aspects of their health. According to many surveys patients and relatives perceive lack of involvement and feel neglected and unempowered in knowing the diagnosis and its treatment and care options. Proper counselling in a busy practice is the need of the hour. So role of health care workers to know importance, skills and stages of communication and counselling and its different aspects is very necessary. Good communication is a team effort involving ophthalmologist, optometrists, nurses and counsellors and so it is necessary for everyone to know proper communication skills. This course will provide health care workers with in depth knowledge about how to manage uncooperative patients, how to handle difficult situations preventing violence through effective communication and managing patient expectations.

1. Importance and stages of communication - Atul Hegade - 12 Mins
2. Essential communication skills - Kuldeep Dole - 12 Mins
3. Preventing violence through effective communication and breaking bad news - Kshirsagar Sucheta - 12 Mins
4. Handling uncooperative patients, difficult situations and resolving complaints - Sil Asim Kumar - 12 Mins
5. Managing patient expectations and disclosure of medical error - Shalinder Sabherwal - 12 Mins

Total duration(include panel discussion : 10 Mins)

The 84th Annual Conference of All India Ophthalmological Society

Updates - Wet lab setup and practice

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room U-01 A

Vijayalakshmi Maneparambil

This IC is intended for the purpose of acquainting new and existing cataract surgeons to hone their surgical skills in the wet lab setup. We have elaborately described how to set up a wet lab and train oneself with basic and advanced techniques and usage of devices to aid a smooth cataract surgery. We aim to minimize our intra-op.

1. SETTING UP OF WETLAB - Divya Nair - 12 Mins
2. LID SUTURING - Indu B Narayanan - 12 Mins
3. CORNEAL SUTURING - Vijayalakshmi Maneparambil - 12 Mins
4. Implantation of CTR, iris & capsular hooks, iris claw IOL - Sugandha Sinha - 12 Mins
5. Pupilloplasty and iridoplasty - Seen A. C. - 12 Mins

Total duration(include panel discussion : 10 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC9 - Infectious uveitis-practical challenges in diagnosis and management: a case based approach

Date : 13-03-2026 (Friday)

Time : 12:45-13:55

Hall : Meeting Room U-02

Chief Instructor: Jyotirmay Biswas

Infectious uveitis accounts approximately 50 % of all uveitis cases in our country. They often cause significant diagnostic and therapeutic challenges to general ophthalmologists, even uveitis specialists. Astute clinical observation, planned approach with appropriate ancillary and laboratory tests can distinguish from noninfectious uveitis and make a precise etiological diagnosis of this blinding disease. Uveitis stalwarts with more than 15 years of experience will provide the tips and tricks with case examples in this instruction course.

No.	Topic	Speaker	Min
1.	TB or not TB - a perennial question	Sudha Ganesh	10
2.	Syphilitic uveitis- reemergence of an age- old disease	Mudit Tyagi	10
3.	Many face of Toxoplasma uveitis	Amala Elizabeth George	10
4.	. Viral retinitis- real emergency in uveitis	Vinita Girish Rao	10
5.	Post fever retinitis -can we find the cause and bring back vision	Suchitra Pradeep	10
6.	. Laboratory tests in infectious uveitis- when to order, what to order,what best we can get	Jyotirmay Biswas	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC463 - Which, when & how- choosing the right technique for optimum outcomes

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room U-03

Chief Instructor: Ritu Aurora

As a phaco surgeon we are faced with a myriad different types of cataract- soft, hard, white, posterior polar. each of these needs a different approach and technique in order to deliver the best results. in order to tackle these challenging cases we need to be versatile and be masters of different techniques. This instruction course will elaborate on each and guide the attendees through detailed videos to master all situations so that one can adopt the best from the masters and avoid the the complications.

No.	Topic	Speaker	Min
1.	Surfing the white challenge- Phaco in white cataract	Ritu Aurora	10
2.	My technique for soft cataract	Sethi Anita	10
3.	Tackling hard cataracts- the easy way	Arjun Aurora	10
4.	Posterior polar cataract- the safe way out	Jatinder Singh Bhalla	10
5.	Exploring different techniques for nucleus management	Ritu Aurora	10

Panel Discussion : 20 mins

IC43 - Phakic lenses !! ensuring perfect outcomes

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room U-05

Chief Instructor: Sonu Goel

The course has been a full house and most sort after trouble shooter platform for young and practising members . The course details from basics of material design and varieties of phakic lenses in the market to accurate size calculation , from AI based tools and formulas to latest diagnostic tools .with the most experienced surgeon in Indian ophthalmology speaking in the course with their two decades of experience on safety and long term .outcomes to surgical skills The most educating in the course is the archives of videos show casing the right surgical skill . Course outlines the post op management regime with Long term vault and complication management . Nightmares intaoperative educate the attendees to avoid the disasters and ensuring perfect outcomes

No.	Topic	Speaker	Min
1.	Acrylic vs collamer setting the right expectation	Sheetal Brar	8
2.	Sizing!! my 2 decades experience	Sanjay Chaudhary	8
3.	Right patient and perfect surface	Pooja Khamar	8
4.	Video assisted near live, getting it right	Sonu Goel	10
5.	Vault how much is safe, tips for safe limits	Partha Biswas	8
6.	Managing nightmares ,longterm outcomes	Gaurav Luthra	8
7.	Setting up phakic Lense practise how to build up ,looking back 20 years	Kamal Bandhu Kapur	8

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

IC560 - My Approach to Treatable Macular Disorders

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Meeting Room U-06

Chief Instructor: Lalit Verma

Macula is the seat of vision & Macular disorders are one of the most common cause of profound visual loss in our day to day practice.

Although lot of advances have taken place in the diagnosis & treatment of macular disorders – there is lack of consensus . This course aims to provide tips to the general ophthalmologist about the features, imaging & management of common macular disorders with the help of our own cases.

No.	Topic	Speaker	Min
1.	Introduction	Lalit Verma	5
2.	My Approach to Chronic CSR with Central Leak	Raju S.	10
3.	My Approach to Subfoveal CNVM	Dinesh Talwar	10
4.	My Approach to Centre Involving DME	Anand Rajendran	10
5.	My Approach to Retinal Vein Occlusion	Mallika Goyal	10
6.	My Approach to XL Macular Holes	Avnindra Gupta	10

IC472 - Questioning the effectiveness & relevance of certain Glaucoma management procedures in today's world

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Trade Room 1

Chief Instructor: Arijit Mitra

The management of glaucoma has undergone myriad changes over the past few decades. The efficacy of certain procedures have been questioned & some have lost their relevance over time. At present we follow certain guidelines and procedures but this IC tries to question the efficacy & relevance of some of these techniques. It starts by questioning the relevance of laser iridotomy & iridoplasty & looks to specifically identify the patients in whom these procedures should be done. SLT has stood the test of time but we want to look at the relevance of this as a primary procedure versus medications in POAG. MIGS has emerged as a primary surgical procedure in certain cases. We explore the role of the "stripping MIGS" - KDB, BANG & GATT in glaucoma management today. We then look at the "stenting MIGS" procedures – iStent and Hydrus & question their effectiveness versus economics. We end by looking at the latest kid on the block – Intracameral implants – & see if they really are the future in glaucoma management.

No.	Topic	Speaker	Min
1.	Role of YAG PI & Laser Iridoplasty in today's world- Who really needs it? Selecting the right patient.	Arijit Mitra	12
2.	The role of SLT as a primary treatment option versus medications in Primary Open Angle Glaucoma	Mona Khurana	12
3.	The stripping MIGS procedures– exploring the role of KDB ,BANG and GATT in glaucoma management today	Siddharth Dikshit	12
4.	The stenting MIGS procedures – exploring the effectiveness versus economics of i-Stent and Hydrus!	Prasanna Venkatesh Ramesh	12
5.	Intracameral implants in Glaucoma –Are they the future? Will they really work?	Lipi Chakrabarty	12

The 84th Annual Conference of All India Ophthalmological Society

A Surgical Medical Trick Presence of Mind Saved The Day

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Trade Room 2

Convenor : Arvind Kumar Morya

Judge : Mohan Rajan, Malay Chaturvedi, Jagdeep M. Kakadia, Arup Chakrabarti, Rajendra Prasad, Satish Shet, Bhavana Sharma, Maurya R. P.

1. [SMT9] - Revisiting The Optic Flip - Special OT Specs for Eye Surgeons having High Myopia!

Chief & Presenting author : DHALIWAL RANJIT SINGH (D02785)

2. [SMT10] - New Patented Version 2 of Scleral Tuck IOL

Chief & Presenting author : Partha RANA (R19147)

3. [SMT17] - Dare to bare to make it fare

Chief & Presenting author : Gautam Singh Parmar (P13631)

4. [SMT19] - No-Tilt MIGS: Breaking Barriers for Low Resource Settings

Chief & Presenting author : Nilesh Kumar (K20052)

5. [SMT21] - Embracing change in cataract surgery: The last minute conversion

Chief & Presenting author : Prasanna Venkataraman (V17875)

6. [SMT22] - The Great Flip : a smart manoeuvre that changed everything

Chief & Presenting author : Gunjan Budhiraja (G22817)

7. [SMT58] - Easy way to insert Capsular Tension Ring (CTRS) for Beginners

Chief & Presenting author : Rakesh Shakya (S13665)

8. [SMT59] - All's well that ends well: Story of a blast injury victim

Chief & Presenting author : Shrinivas M. Joshi (J12259)

9. [SMT63] - Traumatic Cataract and Iris Hooks- Handy Saviour

Chief & Presenting author : Sucheta Parija (S09161)

10. [SMT65] - No PPV Setup? No Problem - A One-Stab Vitrectomy Trick for IOL Rescue

Chief & Presenting author : Karan Bhatia (B15311)

11. [SMT67] - Repairing the Haptic

Chief & Presenting author : Sugato Paul (P18775)

The 84th Annual Conference of All India Ophthalmological Society

12. [SMT79] - DOUBLE FLANGE TECHNIQUE FOR SUBLUXATED CAPSULAR BAG FIXATION

Chief & Presenting author : Sumit Varshney (V19295)

13. [SMT84] - Sangam of Complications Following Eye Trauma

Chief & Presenting author : Sameeksha Agrawal (S20207)

14. [SMT86] - THE PTOSIS THAT WASN'T A COMPLICATION

Chief & Presenting author : K. Subashini (S08794)

15. [SMT87] - Game of Broken Haptics

Chief & Presenting author : Srishti Khullar (S24271)

The 84th Annual Conference of All India Ophthalmological Society

NZOS Session

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Trade Room 3

Chairpersons : Satanshu Mathur , Suresh Kumar Gupta , Karamjit Singh , Gaurav Luthra , Vinod Arora

Inder Mohan Rustogi , Manisha Nada

Panelists : Ajay Sharma, Amit Gupta , Jitender Rudkee, Sheikh Sazzad Ahmad

1. Macular Hole Surgery - No gas, No positioning, No problem : Sangeet Mittal
2. SICS direct stab tunnel : Ramlal Sharma
3. Ptosis : Myths Busted...! : Raman Mittal
4. Canalicular obstruction Newer modalities of management : Urmil Chawla
5. Dsek in challenging conditions : Shakeen Singh
6. Managing cataract in medically unfit patients : Soniya Bariya
7. Bridging the gap Strategies to prevent late presentation of glaucoma in rural areas : Madhu sharma
8. Phaco with trab : Suresh Kumar Gupta
9. Realizing full potential of Ashphei IOLs based on Asphericity of Cornea and IOL : Arun Kumar Jain

Each talk is 07 Minutes

The 84th Annual Conference of All India Ophthalmological Society

IC6 - SICS-affordable, optimum surgery, in any cataract, anytime with minimal cost

Date :	13-03-2026 (Friday)
Time :	12:45-13:55
Hall :	Trade Room 4

Chief Instructor: Manisha Rathi

Cataract remains the leading cause of treatable blindness globally. The ideal cataract surgery requirements are-no risk of complications, optimum unaided vision postoperatively at minimal cost. Phacoemulsification and SICS are the 2 leading surgeries for cataract extraction. In India, a majority of the patients present late, with advanced/ white/ hard cataract and affordability is an important factor. SICS does not require expensive equipment/ machines, which need expensive maintenance. SICS has a shorter learning curve and is suitable for any type of cataract, with any intraocular lens. Minimizing surgically induced astigmatism is the need of the hour as patients require good unaided postoperative vision. In a study done in our institute, the Chevron incision led to minimal astigmatism, comparable with phacoemulsification. In this course, we will focus on the techniques required to achieve the best postoperative results in SICS.

No.	Topic	Speaker	Min
1.	The no-pain technique-ideal anesthesia for SICS	Ruchi Dabas	13
2.	Customizing and creating the perfect incision and tunnel of vision in SICS	Manisha Rathi	13
3.	Conquer the capsule-dealing with capsulorrhexis challenges	Monika Dahiya	13
4.	Nucleus delivery, cleanup of cortex and PCIOL insertion	Sumit Sachdeva	13
5.	When the going gets tough, the tough tackle problems in SICS	Arvind Kumar Morya	13

IC409 - Rehabilitation of aphakic eyes

Date :	13-03-2026 (Friday)
Time :	14:00-15:15
Hall :	Ballroom

Chief Instructor: Malik K.P.S

Inadequate capsular support may occur secondary to complicated intraocular surgery or trauma. A thorough preoperative evaluation is mandatory to identify concomitant anterior and posterior segment complications. Options for intraocular lens(IOL) implantation in these cases include anterior chamber, iris fixated and scleral fixated IOLs. In this instruction course, different techniques of secondary IOL implantation will be discussed by expert faculty. Also, management of complications such as refractory glaucoma, iris defects and retinal tears will be demonstrated using videos.

No.	Topic	Speaker	Min
1.	Preoperative evaluation	Malik K.P.S	5
2.	Single loop fixation and my modification of suture burial in scleral fixated IOL	Malik K.P.S	10
3.	Glue fixated SFIOL	Agarwal Amar	8
4.	My technique of secondary IOL	Lahane Tatyrao Pundlikrao	8
5.	Iris fixated IOLS	Pranav Saluja	8
6.	Combined pars plana vitrectomy and transcleral 4-point suture fixation of foldable IOL	Neha Goel	8
7.	Combined Secondary IOL with AGV	Ruchi Goel	8
8.	SFIOL in aniridia	Ruchi Goel	5

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC417 - Tumors of the Ocular Surface Decoded

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room L-01

Chief Instructor: Santosh G. Honavar

Ocular surface tumors have a diverse spectrum. These are often misdiagnosed as simulating conditions, resulting in inappropriate management. This course will provide a systematic overview of clinical manifestations of conjunctival tumors and discuss recent concepts in diagnosis, management, and prognosis. Clinical evaluation of a patient with a conjunctival tumor and typical and atypical manifestations will be demonstrated with cases. Anterior segment imaging techniques such as OCT, OCTA, and UBM will be highlighted. Evidence-based treatment protocols will be elaborated. Indications for and outcome of newer treatment modalities, such as topical immunotherapy, chemotherapy and plaque brachytherapy, will be discussed. Standard surgical procedures will be demonstrated with vivid videos. This course is designed to enable participants to accurately diagnose, triage and appropriately manage common conjunctival tumors and optimize the outcome.

No.	Topic	Speaker	Min
1.	Evaluation of a Patient with an Ocular Surface Tumor	Mrittika Sen	8
2.	Congenital Lesions of the Ocular Surface	Sima Das	8
3.	Epithelial and Stromal Tumors of the Ocular Surface	Fairooz Puthiyapurayil Manjandavida	8
4.	Pigmented Tumors of the Ocular Surface	Vikas Menon	8
5.	Management of Ocular Surface Tumors	Santosh G. Honavar	15
6.	Interactive Case Presentations	Rolika Bansal	8

Panel Discussion : 15 mins

IC136 - Incomitant Strabismus: Diagnostic Precision and Surgical Nuance”

Date : 13-03-2026 (Friday)

Time : 14:00-15:10

Hall : Meeting Room L-03

Chief Instructor: Shreya Shah

Incomitant strabismus refers to ocular misalignment that varies with gaze direction, often resulting from mechanical restrictions, neurological causes, or trauma. Unlike comitant strabismus, its management requires individualized assessment and targeted interventions. This session delves into the complex etiology, diagnostic strategies, imaging, surgical planning, and postoperative considerations. With advances in imaging and surgical techniques, improved functional and cosmetic outcomes are increasingly achievable. Multidisciplinary collaboration is key to successful management.

No.	Topic	Speaker	Min
1.	Introduction incomitant strabismus	Shreya Shah	5
2.	Clinical evaluation and diagnostic techniques, including imaging	Jitendra Nenumal Jethani	8
3.	Non-surgical management of incomitant strabismus	Subhash Dadeya	8
4.	Paralytic strabismus	Shubhangi Bhawe	8
5.	Restrictive strabismus	Leila Mohan	8
6.	CNS causes and systemic associations- incomitant strabismus	Pramod Kumar Pandey	8
7.	Newer modalities in the Management of complex, recurrent cases of incomitant strabismus	Pradeep Sharma	8

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC80 - One case, two solutions- Solving Quadratic Equation in Strabismus.

Date : 13-03-2026 (Friday)

Time : 14:00-15:10

Hall : Meeting Room L-04

Chief Instructor: Shubhangi Bhawe

The beauty of Strabismology lies in the fact that many of the strabismus entities have at least two ways to correct it. As a result, every case is unique and needs a structured approach based upon subtle clinical clues and experience in the hands of the surgeon. The present course is a showcase of different and common strabismus entities which have different surgical approaches to get the desired result. All the presenters are experienced strabismus surgeons who have performed a variety of such surgeries. They shall share the advantages and drawbacks of each approach in a given strabismus entity. The audience can take home a lot of points which shall be a value-addition for better patient management.

No.	Topic	Speaker	Min
1.	Acute Concomitant squints- Botulinum toxin and Surgery	Suma Ganesh	12
2.	Intermittent Exotropia- Recess-resect and bilateral recession	Rishikesh Mayee	12
3.	Monocular elevation deficit- VRT and Nishida's procedure	Shubhangi Bhawe	12
4.	Strengthening procedures- Resection and Plication	Ramesh Kekunnaya	12
5.	Management options in third nerve palsy- R-R and transplantation	ROHIT SAXENA	12

IC284 - In-depth insight in Indirect Ophthalmoscopy

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room U-01

Chief Instructor: Pooja Sinha

Indirect Ophthalmoscopy is the single most important diagnostic tool for the complete evaluation of the posterior segment of the eye. This instruction course is a step by step approach to the basics of indirect ophthalmoscopy. Medical Retina Experts share the technique of doing indirect ophthalmoscopy, scleral indentation, color coding and fundus drawing. Candidates will actually draw and color in their fundus charts simultaneously which will be provided in the educational kits given to each delegate free of cost. The last part of the course will be a "hands on" training and simultaneous interactive session with individual co-instructors using indirect ophthalmoscopes and dummy eyes.

No.	Topic	Speaker	Min
1.	Parts of indirect ophthalmoscope and its optical principle	Vishal Kishore	10
2.	Technique of Indirect ophthalmoscopy and scleral indentation	Pooja Sinha	10
3.	Applications of Indirect ophthalmoscopy ; why choose indirect over direct	Deepak Agrawal	10
4.	Fundus drawing and color coding	Shalabh Sinha	10
5.	How to over come the difficulties faced during indirect ophthalmoscopy	Satya Prakash Tiwary	10
6.	Correlating Indirect Ophthalmoscopy findings warranting advanced diagnostics	Preetam Samant	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC132 - Do's and Don't in Ocular Trauma : How to maximize Outcome?

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room U-01 A

Chief Instructor: Amit Raj

with advancement in infrastructure and industrialization incidence of ocular trauma is increasing significantly. ocular trauma may present as isolated or as part of polytrauma. During review of these cases, it is found that prognosis in many cases can be improved if initial management at primary or secondary level has followed standard management protocol.

Stepwise management approach gives good outcome even in worst cases. Initial intervention at primary and secondary level as well approach to manage these cases of ocular trauma affects the final outcome.

Complex cases of ocular trauma like Canalicular injury, orbital trauma, Complex corneal perforation with lenticular injury and posterior segment trauma can be referred to a tertiary centre after primary management.

In this instruction course, instructors will discuss how to approach these traumatic ocular cases for better outcome and when to avoid intervention and refer these cases to specialized centre in complex cases.

No.	Topic	Speaker	Min
1.	Management of Eyelid Lacerations	Sudhir Kumar	8
2.	Management of Canalicular lacerations	Ravi Ranjan	8
3.	Management of Corneal perforation	Prabhakar Singh	8
4.	Management of Traumatic Cataract	Amit Raj	8
5.	Management of Traumatic Glaucoma	Subhash Prasad	8
6.	Management of Posterior Segment Trauma	Abhishek	8
7.	Management of Orbital Trauma	Gyan Bhaskar	8

Panel Discussion : 14 mins

IC81 - Explanting Iols and Implanting Secondary Iol's - Recent Strategies

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room U-02

Chief Instructor: Cyres Keiki Mehta

Objectives of This Course -Are to Teach the Intermediate Cataract Surgeon How to 1.Explant an IOL by a "Cut or Roll " Strategy Through a Small Incision . 2.Perform Secondary IOL Implantation Employing- A.Flangeing B.Intrascleral Haptic Fixation C.Retropupillary Fixation D.Transirideal Suspension-New!

Description of the Course - Explanting and IOL and Re Inserting the Correct Secondary IOL with the Appropriate Lens Fixation Strategy is Important for the Intermediate Level Cataract Surgeon. Which is the Best Technique to Remove Each IOL for Eg "Pac Man", Rolling, hemisection, intraocular Cutters, Will Be Taught. Which is the Right Technique to Employ for Which Secondary IOL Will Be Taught,for Eg How to Flange in a Multifocal IOL. These Are Important Skills in the Surgeons Armamentarium and Will Be Taught by the Experts.

No.	Topic	Speaker	Min
1.	Explanting Iol,s and Flangeing Lenses-New Techniques	Cyres Keiki Mehta	14
2.	Disc Dumbelling Technique and Transirideal Fixation	Keiki R. Mehta	10
3.	Secondary IOL Implantation Glueing Vs Yamane	Mahipal S. Sachdev	10
4.	5 Years Follow up Experience with Cmt Flex	Nivean M	10
5.	Retropupillary Vs Flangeing Based Fixation	Harshul Tak	10
6.	Secondary IOL's - Medley	Dudani Ajay Indur	10

Panel Discussion : 6 mins

IC410 - WHAT AFTER RESIDENCY? FELLOWSHIPS, FRCS, FRCOphth, TRAINING ABROAD AND CAREER OPTIONS

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room U-03

Chief Instructor: Devendra Venkatramani

After residency, newly-minted ophthalmologists are faced with a plethora of options - fellowships in India, international examinations, private practice, or further international training. One may find it difficult to choose the right career path. This instruction course simplifies matters for trainees: from maximising their training by accessing the right resources, foreign qualifying exams, observerships overseas, the options beyond ophthalmology, and how to choose what's best for you. The speakers panelists are from premier ophthalmology institutes across the country and are actively involved in ophthalmology education, with first-hand experience on the topics allotted to them. Now in its 9th consecutive year, this course not only analyses the benefits of different career paths, but also objectively discusses how to maximise the opportunities available, making it a unique course that every young ophthalmologist must attend.

No.	Topic	Speaker	Min
1.	Nuts and Bolts of FRCS examinations	Devendra Venkatramani	10
2.	Ophthalmology Foundation - Examinations and Fellowships	Rolika Bansal	10
3.	FRCOphth - How to Prepare and Excel	Devesh Kumawat	8
4.	FRCOphth - My Experience as a Candidate and an Examiner	Pranita Sahay	8
5.	UK Training and Opportunities	Rohan Sawant	10
6.	Surgical Training Opportunities Abroad	Akshay Nair	10
7.	Career options beyond Ophthalmology	Rashmin Gandhi	10

IC178 - Challenging the Challenges in Phacoemulsification Surgery – A guide to a perfect outcome

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Meeting Room U-05

Chief Instructor: Swaraj Bhattacharjee

All cataract cases behave differently , so only by doing routine Phaco surgery in challenging cases may not suffice for achieving a satisfactory outcome . Taking count of the situations which lead to intra operative stress & managing the situations both pre & intra operative demands the Adequate planning , Armamentarium , skill & immediate decision of the surgeon which will definitely qualify & quantify the outcome . Situation of Cloudy Cornea , Small Pupil , White Cataract , Rift in the Post Capsule ,Dangling Lens , Higher end Biometry results , Post Vitrectomised Eyes , all needs careful pre operative & every step intra operative assessment for adequate visual results . Here in this instruction Course , the experience Phaco surgeons will deal with the subject with VAST & interactive discussions.

No.	Topic	Speaker	Min
1.	Cloudy Cornea – how to go ahead	Arundhati Tamuli	8
2.	Pupil not dilating –puzzling out the conundrum	Jayashree Baruah	8
3.	All white Cataract – Belt wearing in the right way	Swaraj Bhattacharjee	8
4.	Dangling Lens –Holding up to the end for the last smile	Manas Nath	8
5.	Higher end Biometry results –figure out & managing	Mayur Dutta Bharali	8
6.	Rift in the Posterior capsule –Applying Brakes in time & Manage	Nilanjan Kaushik Thakur	8
7.	Phaco in Vitrectomised Eyes	Abhijit Kumar Handique	8

IC197 - Retinopathy of Prematurity - All you need to know

Date : 13-03-2026 (Friday)

Time : 14:00-15:10

Hall : Atlantiis 1

Chief Instructor: Subhadra Jalali

Retinopathy of prematurity continues to be a burning subject of importance in India. Considering the widespread presence of ROP, every ophthalmologist may be required to examine and diagnose the condition correctly. There is a need to understand the risk factors, changing spectrum of the disease, newer classification, practice patterns, and controversies in the management. Laser Vs anti VEGF protocols are evolving. Over the years there is a change in the pathoanatomy of advanced stages and the role of lens sparing vitrectomy Vs scleral buckling needs to be delineated. The limitations and role of surgery for stage 5 ROP needs to be understood. Newer imaging modalities are now available for ROP. This instruction course is well rounded covering the fundamentals of examination, injection and laser techniques, and all the way to management of advanced disease. We believe that the course is useful for novice and experienced ophthalmologists involved in the care of retinopathy of prematurity.

No.	Topic	Speaker	Min
1.	Introduction	Subhadra Jalali	1
2.	Risk factors, Examination and Screening protocols	Gopal Lingam	10
3.	Lasers in ROP	Anand Vinekar	10
4.	Anti-VEGF injections in ROP	Mangat Ram Dogra	10
5.	Management of Stage 4 ROP	Subhadra Jalali	10
6.	Management of Stage V ROP	Parijat Chandra	10
7.	Controversies in Management of ROP	Karobi Rani Lahiri	10

IC400 - Penetrating Eye Trauma - Correct Practices

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Atlantiis 4

Chief Instructor: Shalabh Sinha

Penetrating trauma of the eye can have devastating effects often leading to blindness if not appropriately managed in time.

This course will attempt to stress on accurate diagnosis, terminology and how to score according to Ocular Trauma Society scoring. 5 minutes video based pearls of management of a) corneal rupture, b) corneoscleral / scleral rupture, c) combined corneal trauma with lens rupture, d) secondary management including cataract and iris trauma e) lens dislocation or subluxation in posterior segment f) iris repair techniques will be shown and finally g) visual rehabilitation with scleral lenses. Each of the topics will be open to discussion after each presentation so as to clear all doubts of all participants.

No.	Topic	Speaker	Min
1.	Accurate Diagnosis, Terminology and Scoring of Ocular trauma	Pallavi Sinha	7
2.	Corneal Rupture Management	Abhishek Ranjan	7
3.	Corneoscleral and Scleral rupture management	Abhishek Kumar	7
4.	Corneal rupture along with traumatic cataract management	Shalabh Sinha	7
5.	Iris Trauma & Secondary Cataract Management	Abhishek Anand	7
6.	Post Traumatic Lens Subluxation / Dislocation Management	Santosh Kumar	7
7.	Pupil Repair	Shalabh Sinha	7
8.	Visual rehabilitation with scleral lenses	Ashish Kumar	7

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC298 - Changing Paradigms in Managing Ocular Surface Squamous Neoplasia

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Trade Room 1

Chief Instructor: Paras Indravadan Mehta

Ocular surface squamous neoplasia (OSSN) encompasses a wide and varied spectrum of diseases involving abnormal growth of dysplastic squamous epithelial cells on the surface of the eye. It needs a clinical acumen to diagnose them and treat them with a newer modalities of management options. This IC will cover various clinical presentations, diagnostic modalities including interpretation of imaging. We will discuss newer concepts of chemotherapy and immunomodulation and surgical tips for simple and complex cases. Lastly will also cover differentials and management and role of plaque brachytherapy in invasive tumors. All the talks will be case based with video assisted surgical tips with clear take home points for the participants.

No.	Topic	Speaker	Min
1.	Introduction	Paras Indravadan Mehta	2
2.	Different Clinical Presentations with key points for clinical diagnosis: Case Based	Paras Indravadan Mehta	10
3.	Medical Management: Key Points	Uma Sridhar	10
4.	Importance of Imaging and Interpretation	Rama Rajgopal	10
5.	Key points of Surgical Management including complex cases	Geetha Iyer	10
6.	Role of Plaque Brachy therapy in various clinical cases and it's outcomes	Shalin Shah	10

Panel Discussion : 18 mins

The 84th Annual Conference of All India Ophthalmological Society

IC308 - Low Vision Basics

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Trade Room 2

Chief Instructor: Sanjiv Desai

This basic level instruction course focuses on imparting appropriate skills in clinical low vision. It begins by defining low vision, its etiology and epidemiology and the cardinal treatment principles, followed by exploring various types of optical & non-optical LVA available in the Indian market to enhance visual performance, their optics, their advantages and disadvantages and how to use the appropriate LVA in various situations. The next section deals with light, glare and contrast management. Then special IOLs, retinal prosthesis, and strides made in optogenetics are highlighted. Finally, the course is wound up by discussing how to assess a low vision patient in the clinic, the assessment tools required and how to source and dispense low vision aids. At the conclusion of the course, participants will become proficient in identifying, assessing and treating low vision cases in their day-to-day practice, thus, integrating low vision care into their clinical practice.

No.	Topic	Speaker	Min
1.	Epidemiology	GULAM ALI KAMDAR	8
2.	Principles of Treatment	Mayank Sharma	8
3.	Types of LV Devices	Raj Shri Hirawat	8
4.	Light, Glare & Contrast	Sanjiv Desai	8
5.	Prescribing LVA	Sanjiv Desai	8
6.	Pediatric Considerations	Sanjiv Desai	8
7.	Whats New ?	Sanjiv Desai	8

IC244 - WHAT NEXT ? Situations in day to day OPD of a General Ophthalmologist

Date :	13-03-2026 (Friday)
Time :	14:00-15:10
Hall :	Trade Room 3

Chief Instructor: Mallikarjun M. Heralgi

Every Ophthalmologist faces one or the other challenges in his or her day to day clinical practice. They encompass a wide range of issues including revisiting the diagnosis and navigating the management plan and addressing unique needs of patients in various settings. This Instruction course throws light on such few common problems faced by General Ophthalmologists and gives clinical insights in diagnosing them and practical tips to manage them well.

No.	Topic	Speaker	Min
1.	1. Started treatment for a corneal ulcer. After 2 days patient comes with perforation , What to do?	Mallikarjun M. Heralgi	12
2.	3. A patient comes with a small lid lesion , How to go about ?	Usha M	12
3.	5. Childhood myopia, can i start on low dose Atropine ? how and when	Kavitha V.	12
4.	Small corneal lesion with redness, What to do next	Y. Umesh	12
5.	4. An adult patient comes with shallow AC with significant cataract, How to deal it?	Meena Gopinath Menon	12

IC377 - Complex Ptosis: The Eternal Conundrum!

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room L-01

Chief Instructor: Ashok Kumar Grover

This course explores the multifaceted challenges of managing ptosis beyond routine presentation. The session delves into controversial and complex scenarios, including whether transnasal wiring is essential in Blepharophimosis Syndrome, the unilateral versus bilateral debate in Marcus Gunn ptosis, and strategies to achieve functional and aesthetic success in patients with ocular motility disorders. We will discuss revision techniques in previously failed surgeries and the nuanced management of traumatic ptosis. In acquired cases, we will focus on anticipating and correcting the dreaded complication of overcorrection. Each focused talk will offer practical insights, surgical pearls, and decision-making strategies, culminating in an interactive panel discussion aimed at consolidating approaches to these enduring dilemmas in eyelid surgery.

No.	Topic	Speaker	Min
1.	Blepharophimosis Syndrome: To wire or not?	Kasturi Bhattacharjee	10
2.	Marcus Gunn Ptosis Surgery : Unilateral or bilateral surgery?	Ashok Kumar Grover	10
3.	Achieving success in a patient with Ocular motility limitations!	Shaloo Bageja	10
4.	Conquering a previous failure!	Amrita Sawhney	10
5.	Trap of traumatic Ptosis	Mukesh Sharma	10
6.	Acquired Ptosis : Navigating the over correction bugbear!	Rwituja Thomas	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC5 - A practical guide to Manage Corneal perforations: A case-based and video-assisted course!

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room L-01A

Chief Instructor: Ashok Sharma

Corneal perforations are ophthalmological emergencies those can have serious and detrimental outcomes. Corneal perforations may occur following infective, neurotrophic, and autoimmune corneal disorders. Corneal perforations may also occur following trauma and chemical injuries. Referrals to the tertiary care centres indicate that corneal perforations are either missed or treated inappropriately.

Ophthalmologists should have high index of suspicion and perform Seidel's test to detect corneal perforations early.

Choice of treatment option is determined by the size, location and underlying aetiology of perforation. Small and medium sized corneal perforations are amenable to cyanoacrylate, fibrin glue and AMG. However, patch grafts, conjunctiva pedical grafts and therapeutic grafts are needed for large perforations. Case based presentations augmented with videos of techniques will give attendees a real time experience of managing corneal perforations.

No.	Topic	Speaker	Min
1.	Aetiology, clinical diagnosis, workup and medical treatment of corneal perforation	Ashok Sharma	7
2.	Cyanoacrylate adhesive in treatment of corneal perforations: Basic technique & challenging cases.	Ashok Sharma	10
3.	Fibrin glue and amniotic membrane grafts for treatment of corneal thinning and corneal perforations	Chintan Singh (Malhotra)	10
4.	Management of severe corneal thinning and perforations in advanced PUK patients using Banana-grafts.	Amit Gupta	10
5.	Therapeutic penetrating keratoplasty for management of corneal perforations	Namrata Sharma	10
6.	Management of corneal perforations in severe acute chemical injuries.	Tuhin Chowdhury	10
7.	Conjunctival Pedical Grafts in the management of Corneal Perforations	Arun Kumar Jain	10

IC42 - 6/6 but Still Unhappy? — Case-Based Lessons from Cataract Clinics

Date : 13-03-2026 (Friday)

Time : 15:15-16:25

Hall : Meeting Room L-02

Chief Instructor: Shweta Walia

Cataract surgery has evolved into a refractive procedure with rising patient expectations. Yet, many patients walk away with perfect vision on paper — 6/6, N6 — but dissatisfaction in real life. This case-based instruction course, brings forth real-world scenarios where visual outcomes were good, but the patients weren't happy. From toric troubles to dry eye dilemmas, this session uncovers the blind spots in planning, counseling, and follow-up. Every case ends with a “What I'd do differently from today” reflection. Practical, relatable, and rich in take-home pearls — this session is designed to resonate with every practicing cataract surgeon.

Course Objectives:

- * Understand the disconnect between visual acuity and patient satisfaction
- * Learn through real cases where things didn't go as expected
- * Apply pearls in counseling, IOL selection, ocular surface care, and postoperative troubleshooting

No.	Topic	Speaker	Min
1.	But You Promised Me Clear Vision!	Mita Joshi	8
2.	Dry Eye Diaries	Anshu Khare	8
3.	Toric Troubles	Sudhir J. Mahashabde	8
4.	Dysphotopsia Drama	Rajiv Choudhary	8
5.	The Retina Strikes Back!	Chawla Gajendra	8
6.	Angle Confusion	Shweta Walia	8
7.	The Glaucoma Ghost	Vinita Ramnani	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC30 - Tale of Torics- Advanced learnings in Toric IOL placement and optimising outcomes

Date : 13-03-2026 (Friday)

Time : 15:15-16:25

Hall : Meeting Room L-03

Chief Instructor: Anurag Mishra

Toric IOLs now have become the need of both basic and advanced Cataract Surgery. In this IC, we will focus on Toric IOL placement in certain atypical situations where often the surgeon chooses to abandon the original plan of placing a Toric IOLs. Apart from that, we will also deep dive into the effect of uncorrected corneal astigmatism despite doing everything right, including, at times a Toric IOL placement and aligning it perfectly. Pre operatively encountered surgical challenges, Intra operative undesirable episodes and post operative surprises, all will be covered in the various topics covered by eminent surgeons who routinely implant Toric IOLs in their practice.

No.	Topic	Speaker	Min
1.	Toric IOL placement in extremes of Axial length- planning, calculation and outcomes	Rajesh Sinha	12
2.	Toric IOLs in Paediatric Cataracts-Where/Where not/Own experience with outcomes	Naren Shetty	12
3.	Toric IOLs in small pupils-strategies in non dilating pupils and intra operative miosis	Om Parkash Rohit	12
4.	Toric IOL placement in the presence of PCR/Zonular weakness/Incomplete CCC- unfavourable to perfect	Shail Vasavada	12
5.	Post operative astigmatic surprises, their effects and causes, with and without Toric IOL implant	Anurag Mishra	12

Panel Discussion : 10 mins

IC56 - Navigating the Storm: Tackling difficult Cataracts with confidence

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room L-04

Chief Instructor: Anagha Heroor

"Challenging Cases in Cataract Surgery" is a dynamic instruction course that dives deep into real-world complexities beyond routine practice. From rock-hard nuclei and subluxated lenses to IOL exchanges and posterior capsular rupture, we present surgical strategies and decision-making pearls through compelling, case-based learning. The highlight is our **interactive expert panel**—‘What Would You Do?’—where complex scenarios are dissected, diverse approaches debated, and grey zones clarified.

Through this unique discussion format, attendees are encouraged to actively participate, challenge conventional thinking, and gain practical insights that go beyond textbook teaching. The course aims to simulate the real-time thinking process of experienced surgeons when faced with high-stakes intraoperative surprises. Join us for an engaging, high-yield journey through the cataract surgeon's most difficult moments—decoded, debated, and demystified. The aim is to give a clear Take Home message!

No.	Topic	Speaker	Min
1.	Cracking the Tough Nut: Hard Cataracts Decoded!	Mahipal S. Sachdev	10
2.	IOL Exchange: Redo, Refine, Restore!	Gaurav Luthra	10
3.	"What would you do?": Grand Rounds!	Anagha Heroor	20
4.	Shaky Grounds: Surgical Strategies for subluxated Cataracts!	Om Parkash Rohit	10
5.	When the Curtain falls: Turning PCR panic into precision!	Suhas Haldipurkar	10

IC155 - What Next Situations in Cataract Surgery

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room L-05

Chief Instructor: Sreeni Edakhlon

This instruction course focuses on the recognition and management of complex intraoperative and postoperative complications in cataract surgery. Topics include challenges with topical anesthesia, hard nucleus disassembly, posterior capsular rupture with retained nucleus, iatrogenic zonular dialysis, IOL delivery failures, and capsulorhexis run-off during in cases in which premium IOL implantation was planned. Postoperative issues such as striate keratopathy, severe inflammation, dysphotopsia, and dry eye syndromes are also covered. Expert faculty will present real cases, step-by-step strategies, and practical tips to guide decision-making under pressure. The course aims to equip cataract surgeons with actionable insights for managing unexpected complications and optimizing patient outcomes.

No.	Topic	Speaker	Min
1.	Topical Anaesthesia Phacoemulsification turns Stormy - What Next?	Sreeni Edakhlon	6
2.	Posterior Plate of Hard Nucleus Doesn't Separate – What Next	Y. Umesh	6
3.	Nucleus Becomes a Bowl / Cheese Wires During Phacoemulsification – What Next?	Prabhu Shanker M.	6
4.	Posterior Capsule Tear with Nearly Entire Nucleus in the Bag – What Next?	Prabhu Shanker M.	6
5.	Iatrogenic Zonular Dialysis – What Next?	Jagadeesh Kumar Reddy K.	6
6.	Premium IOL Implantation planned, but Capsulorhexis Run-Off Occurs – What Next?	Arup Bhaumik	6
7.	IOL Stuck in Cartridge / Damaged During Implantation – What Next	Sreeni Edakhlon	6
8.	Severe Striate Keratopathy / Descemet's Membrane Detachment on Day 1 – What Next?	M. Vanathi	6
9.	Severe Postoperative Inflammation on First Post-op Day – What Next?	Kaushik Murali	6
10.	Very Disturbing Dysphotopsia and/or Photic Phenomena After Cataract Surgery – What Next?	Jagadeesh Kumar Reddy K.	6
11.	Meibomian Gland Dysfunction & Related Symptoms Post-Cataract Surgery – What Next?	Y. Umesh	6

IC176 - Errors to Expertise : Decoding Phacoemulsification Mistakes

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room L-06 & 07

Chief Instructor: Om Parkash Rohit

Our interactive video based instructional course will showcase comprehensive analysis of each mistake encountered during phacoemulsification. Participants will learn to identify errors with their warning signs, understand the impending catastrophe, and rectify errors with correct decision making through detailed case scenarios, videos, and panel interaction. Course will cover errors in case selection, biometry, incision, capsulorhexis, hydroprocedures, fluid dynamics, nuclear emulsification, posterior capsule rupture and complications, vitrectomy, Irrigation and Aspiration, IOL placement, and post operative management. Errors in managing overly soft cataracts, posterior polar cataracts, white cataracts, brunescant cataracts, subluxated cataracts, and pseudoexfoliation syndrome will be covered. Theoretical concepts, practical applications, and surgeons root cause analysis approach will show problem solving skills and help turning mistakes into valuable learning opportunities.

IC564 - OCT for the Comprehensive Ophthalmologist

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room U-01

Chief Instructor: Dinesh Talwar

OCT Has Emerged as One of the Most Important Tools for the Diagnosis and Management of Various Retinal Disorders. It is a Versatile Tool and is Also Being Increasingly Used for Glaucoma and Anterior Segment Pathologies. This Basic Course Aims to Familiarise the General Ophthalmologist About : How to Read an OCT and Understand the OCT Findings and Carry Out Their Interpretation in Common Retinal Disorders. Usefulness of OCT as an Adjunctive Tool

In Glaucoma and Various Anterior Segment Pathologies Will Also Be Discussed as Also the Practical Utility in the Day to Practice of a Comprehensive Ophthalmologist. the Course Will Also Acquaint Delegates with the Recent Innovations Like OCT Angiography and Their Role in Medical Practice.

No.	Topic	Speaker	Min
1.	Anterior Segment OCT : What all Information Can It Give?	Hemlata Gupta	10
2.	Role of OCT in Glaucoma	Sagarika Patyal	10
3.	How to Read a Normal Retinal OCT ; Various Layers and Their Clinical Relevance	Purnima Sood	10
4.	Pathological Changes in OCT in Various Retinal Disorders	Dinesh Talwar	10
5.	OCT Angio : a New Dimension - What all Can It Reveal ?	Naresh Kumar Yadav	10

Microvascular Biomarkers on OCTA: Early Detection of DR & Systemic Disease - Avnindra Gupta - 8 Mins

Panel Discussion : 20 mins

IC4 - TAMING THE INFERIORS-TREATING INFERIOR OBLIQUE OVERACTION.

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room U-01 A

Chief Instructor: Sanjay Kumar Dhar

Strabismus presents itself in various forms, the understanding and evaluation of which like any other subspecialty comes with time and practice. It is very common that a significant number of strabismus cases presenting in OPD are associated with inferior oblique overaction. This can be a part of normal comitant strabismus or as a result of secondary overaction. It is imperative to evaluate and treat such cases in an optimal manner to achieve best results. The knowledge regarding inferior oblique surgeries is still not very common. It is important to create awareness regarding the same, so that more and more ophthalmologists both fresh and old evaluate this type of strabismus meticulously and provide optimal surgical correction to the patient. With that background this topic has been chosen and thought to be discussed in easy-to-understand subtopics related from evaluation to surgical procedures. For the better understanding of the topic maximum use of videos will be done.

No.	Topic	Speaker	Min
1.	Introduction	Sanjay Kumar Dhar	5
2.	FAMILARISING INFERIOR OBLIQUE	Tanmay Mohapatra	10
3.	DECIPHERING THE OBLIQUE MUSCLE OVERACTION AND THE PATTERN	Prakhar Kumar Singh	11

IC137 - I have a Degree.. I am well trained... No one Knows me...How To Tell Patients I Exist?

Date : 13-03-2026 (Friday)

Time : 15:15-16:25

Hall : Meeting Room U-02

Chief Instructor: Quresh B. Maskati

A common Dilemma faced by young ophthalmologists starting their careers, especially if they choose a new town or city to set up private practice is how do they ethically spread the word that they are available and capable of delivering high quality eye care at affordable rates? My co-instructors are youngsters and not so young ophthalmologists who made it successfully. They share their insights into use of social media, like Linked In, Face book, reels, instagram, You tube and other means, including good old word of mouth publicity to attract more patients to your doorstep. This course is essential for all youngsters about to start practice and those in practice since some time but getting frustrated with poor patient footfalls at their doorstep

No.	Topic	Speaker	Min
1.	Introduction to the course.	Quresh B. Maskati	3
2.	Is word of mouth enough? Will satisfied patients bring patients?	Quresh B. Maskati	12
3.	You tube, live surgery.. does it help getting referrals?	Zain Khatib	12
4.	Are News letters of any help?	Aditya Sethi	12
5.	REELS, INSTAGRAM, FACE BOOK.. WHAT TO POST AND HOW	Tushar Grover	12

IC86 - Innovations & Integrative Strategies in Glaucoma: From Genomics & AI to Next-Generation Management

Date : 13-03-2026 (Friday)

Time : 15:15-16:25

Hall : Meeting Room U-03

Chief Instructor: Mohan Shalini

This instruction course provides a comprehensive overview of emerging paradigms in glaucoma care, focusing on polygenetic risk profiling, AI applications, novel drug delivery systems, and innovative surgical techniques. Attendees will explore the clinical utility of polygenic risk scores for early detection and risk stratification, along with AI tools for diagnosis and predictive modeling of disease progression. Advances in diagnostics will also be discussed, including OCT angiography, novel visual function tests, and AI-powered imaging analysis. The course reviews sustained-release drug delivery platforms aimed at improving adherence and compares modern surgical options. It also covers telemedicine, home monitoring, and patient-centered approaches to enhance long-term outcomes. Real-world case discussions will integrate these themes, helping clinicians deliver personalized, technology-driven care and reshape their approach to this multifactorial disease.

No.	Topic	Speaker	Min
1.	Introduction	Mohan Shalini	3

IC319 - Medicolegal Challenges: Sight, Rights, and Legal Fights

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room U-05

Chief Instructor: Nirmal Fredrick T.

Ophthalmologists increasingly face complex medicolegal challenges that demand awareness, preparedness, and compliance. This instruction course equips practitioners with practical insights into statutory requirements, effective informed consent practices, and the nuanced role of an expert witness. Faculty will share proactive strategies to manage legal risks and present real-world case studies to highlight avoidable pitfalls. Designed for both private and institutional settings, this session aims to strengthen legal safeguards, improve documentation, and foster a culture of ethical and compliant care in ophthalmology.

No.	Topic	Speaker	Min

IC105 - Target Emmetropia – Refractive Cataract Surgery

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Meeting Room U-06

Chief Instructor: Sri Ganesh

Cataract surgery today has become a refractive procedure with patients expecting emmetropia and freedom from glasses. The success of cataract surgery is measured by its refractive outcome which is one of the main indicators for patient's satisfaction. This course which has very experienced instructors will touch upon all the available biometry devices, newer generation formulae, accuracy for toric IOL implantation and special situations like post refractive cataract surgery. Management of refractive surprises after cataract surgery will also be covered. This course will help both the beginning cataract surgeon and the advanced specialist to obtain better results after cataract surgery.

No.	Topic	Speaker	Min
1.	Biometry Basics - Overview & nuances of various Biometry devices	Shreyas Ramamurthy	10
2.	IOL Formulae - Which & When ?	Gaurav Luthra	10
3.	Surgical evaluation & preoperative work up for premium IOLs	Pereira Savio	10
4.	Mastering Toric IOL implantation	Sri Ganesh	10
5.	IOL Power calculation in special situations [post refractive surgery, RK, KC & post graft]	Sushmitha Samak S	10
6.	Managing post-operative refractive surprises	Supriya Sriganesh	10
7.	Intelligent Optic Design – New-Age Trifocal	Naren Shetty	8

Panel Discussion : 2 mins

The 84th Annual Conference of All India Ophthalmological Society

IC254 - The Terrific Longest Day in My Retina Practice!

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Atlantiis 1

Chief Instructor: Boral Subhendu Kumar

A Vitreoretinal Surgeon shouldn't hope for a perfectly smooth day every time. Unexpected mishaps, series of hiccups, and obstacles can arise, even in cases that appear straightforward, which may prolong the surgical procedure and sometimes make the prognosis unpredictable. This video-based instructional course will cover these kinds of unanticipated hurdles when dealing with cases of both fresh and chronic retinal detachments, intraoperative sudden kissing choroidal detachment, PDR with membrane proliferations, macular holes, vitreomacular tractions, large retained intraocular foreign bodies, scleral fixation of IOL, and glued IOL surgery, among others. Attendees will benefit from learning about the turning points that may complicate a simple case, thereby helping them anticipate and understand potential solutions and the best management strategies.

No.	Topic	Speaker	Min
1.	Subretinal silicone oil..a nightmare	Kelkar Aditya Shreekant	7
2.	Intraoperative suprachoroidal haemorrhage & RD, Intraop surprise in a severely traumatised eye	Aniruddha Maiti	7
3.	A simple vitreous haemorrhage turned into a nightmare, Not all simple RDs are simple!	Debdulal Chakraborty	7
4.	Subretinal gas removal Intraop choroidal detachment, choroidal hemorrhage and subretinal hemorrhage	Raja Rami Reddy P.	7
5.	Misplaced infusion- case corally PFCL infusion under air	Vishal Agrawal	7
6.	Mysterious Macular Hole Intraop IOL Drop	Shouvick Dan	7
7.	Kissing Suprachoroidals Humongous Foreign Body	Boral Subhendu Kumar	7

Keynote Address (8') : Macular hole different strategies to close - Abdulrahman Abdulkader Ali Noman

Panel Discussion : 21 mins

The 84th Annual Conference of All India Ophthalmological Society

EVER Society - Controversies in the diagnosis and treatment of retinal disorders in three continents

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Atlantiis 2

1. Maciej Gawęcki (Dobry Wzrok Ophthalmological Center , Gdansk, Poland) - Current Recommendations for the treatment of central serous chorioretinopathy
2. Adrain Smędowski - (Medical University of Silesia, Katowice, Poland) - FAS pathway modulators and serotonin reuptake inhibitors - the new applications of known drugs in ischemic retinal diseases
3. Vivek Dave - Dual Inhibition in AMD - how does it help?
4. Ali Erginayi - (Ophthalmology Department, Lariboisière Hospital, Paris, France) - UWF -OCTA in diagnostics of retinal diseases. Up-date
5. Lyubomir Lytvynchuk (University of Giesen, Germany) - Subretinal hemorrhages: conventional and novel treatment approaches

The 84th Annual Conference of All India Ophthalmological Society

Medico Legal Symposium - Legal Aspects of Medical Tourism in India

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Atlantiis 4

Chairman : Deshpande A.A

Co-Chairman : Manoj Chandra Mathur

Moderator : Quresh Maskati

Convener : Viral Shah

1. Nirmal Fredrick T - Role of NABH Accreditation in Medical Tourism - 12 Mins
2. Manoj Chandra Mathur - Insurance coverage to doctor, Hospital and Patient In Medical Tourism in India - 12 Mins
3. Deshpande A.A - Legal Liabilities in Ophthalmic Medical Tourism - 12 Mins
4. Quresh Maskati - Management of death in Medical Tourism - 12 Mins
5. Viral Shah - Economics of Ophthalmic Medical Tourism in India - 12 Mins

Panel discussion - 20 min

Panelists: Deshpande A.A., Quresh Maskati, Manoj Chandra Mathur, Nirmal Fredrick T, Viral Shah.

IC140 - THE 11 PEARLS IN PREMIUM CATARACT SURGERIES

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Trade Room 1

Chief Instructor: Nanda Ashok Kumar

Of late the cataract surgery has been widely regarded as refractive cataract surgery where we try to ensure the best visual restoration to our patient. New technologies and updates are coming in leaps and bounds, our role is to understand them, sort them and provide the best to our patients. This IC would try its best to justify the purpose.

Our intent is to bring a perfect blend of academic and clinical experience in the discussion of premium cataract surgery. We are trying to cover almost all the aspect of premium cataract surgery to give optimum outcome , starting from biometry to surprise in post operative outcome or a dissatisfied patient.

No.	Topic	Speaker	Min
1.	The 11 pearls in biometry while planning a premium cataract surgery	Chitra Ramamurthy	10
2.	The 11 pearls to ensure optimal outcome in Toric IOL implantation	Nanda Ashok Kumar	10
3.	The 11 pearls to consider before choosing the best EDOF IOL for a patient	Nitin G Dhira	10
4.	The 11 pearls to focus on the Surgery part of Premium Cataract surgery	Gaurav Luthra	10
5.	The 11 pearls to understand the science and make of EDOF / Trifocal IOLs	Anurag Mishra	10
6.	The 11 pearls to understand and address the unhappy patients after Premium Cataract surgery	Sugato Paul	10

Keynote Address : Cumulative Dissipated Energy(CDE) : The new Surrogate marker for PHACO Efficiency - S Bandopadhyay - 8 Mins

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC97 - Macular Pathology Decoded: Interpretation of various imaging modalities

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Trade Room 2

Chief Instructor: Krishnendu Nandi

Macular imaging modalities in the present era enable us to diagnose and treatment a lot of vitreoretinal diseases. Still, we often miss lot of clues due to misinterpretation. As technology advances, it will exponentially increase potentiality to diagnose retinal disorders. Advanced diagnostic procedure generates high quality images and improves visualization of retinal and choroidal pathology. The method with which these images can be acquired has modified the diagnostic strategy. In this IC we will explore the application of different diagnostic modalities in macular pathologies. Autofluorescence, FFA and Widefield Angiography, ICG, SD-OCT, OCT A, Electrophysiology will be dealt in solving diagnostic dilemmas. Assessment and interpretation activity involve both technical dimension and an intellectual aspect. This Instruction Course will help clinicians to know logical method of analysis and interpretation of the clinical images.

No.	Topic	Speaker	Min
1.	Autofluorescence in Macular Pathologies	Soumen Mondal	10
2.	Fundus Fluorescein angiography in Macular Diseases	Santosh Mahapatra	10
3.	ICG in Macular Diseases	Krishnendu Nandi	10
4.	SD OCT in Macular Pathologies	Sudipta Das	10
5.	OCT A in Macular Diseases	Vedang Shah	10
6.	Electrophysiology in Macular Pathologies	Aniruddha Maiti	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC83 - "Exogenous Endophthalmitis: An Ophthalmic Emergency – Etiology, Diagnosis, and Management"

Date : 13-03-2026 (Friday)

Time : 15:15-16:25

Hall : Trade Room 3

Chief Instructor: Mehul Shah

Endophthalmitis is a severe, sight-threatening intraocular inflammation, typically infectious, constituting an ophthalmic emergency. It arises exogenously (post-surgery like cataract, trauma, injections) or endogenously (hematogenous spread). Symptoms include acute pain, vision loss, redness, swelling, photophobia, floaters, hypopyon, and vitritis. Diagnosis relies on clinical evaluation supported by vitreous/aqueous sampling for microscopy/culture/PCR. Immediate, aggressive treatment is critical: intravitreal antibiotics (antifungals if indicated), systemic antibiotics for endogenous cases, and often pars plana vitrectomy to remove infected material. Common pathogens include *Staphylococcus* spp. (*epidermidis*, *aureus*), *Streptococcus* and *Candida*. Prognosis depends on pathogen virulence, host immunity, and especially intervention timeliness; delays risk irreversible vision loss or eye loss. Early treatment improves outcomes; surgical prevention is key.

No.	Topic	Speaker	Min
1.	Introduction	Mehul Shah	2
2.	Clinical features and diagnosis	Kushal Delhiwala	8
3.	Microbial work up and relevance	Paritosh Arvind Kamdar	8
4.	Non Surgical Management of Endophthalmitis	Vadivelu Jaya Prakash	8
5.	Management of Post Operative Endophthalmitis	Vatsal Shyamlal Parikh	8
6.	Management of Fungal Endophthalmitis	Girish Shiva Rao	8
7.	Surgical Management of post trauma management	Mehul Shah	8
8.	Late Onset Endophthalmitis and New emerging Organisms of Endophthalmitis	K. Naresh Babu	8

Panel Discussion : 12 mins

IC66 - BLACK WHITE BROWN RED AND MORE CATARACTS

Date :	13-03-2026 (Friday)
Time :	15:15-16:25
Hall :	Trade Room 4

Chief Instructor: Sujatha Mohan

Performing cataract surgery in patients with extremely dense rock-hard cataracts is very challenging. These highly dense opaque cataracts makes perioperative visualization of the capsule difficult. These lenses are hard to maneuver and typically occupy a larger volume. The lens capsule is thin and fragile, zonules are weak. This type of cataract requires longer phaco times and higher energy levels. Some of them are associated with small pupils and other situations like zonular dialysis. To get favourable outcomes in these patient often a combination of technique and technology is required. This video based course will highlight the important tips to overcome the hurdles and get the best outcome.

No.	Topic	Speaker	Min
1.	SMALL PUPIL IN HARD CATARACTS	Sujatha Mohan	10
2.	MANAGEMENT OF HARD CATARACT USING FEMTO	Mohan Rajan	10
3.	MANAGEMENT OF SUBLUXATED HARD CATARACTS	Haripriya Aravind	10
4.	MANAGEMENT OF MATURE WHITE CATARACTS	Nitin Balakrishnan	10
5.	CHOPPING TECHNIQUES	Nivean M	10
6.	POSTERIOR POLAR CATARACT	Madhuvanthi Mohan	10

Panel Discussion : 10 mins

4. Priti Udhay - Restoring corneal sensation via keyhole neurotisation - direct vs indirect series
5. TBD - Managing Dry Eye effectively
6. Merle Fernandes - Pediatric Corneal Transplant : Surgical nuances

The 84th Annual Conference of All India Ophthalmological Society

IC10 - Unpleasant to Elegant look

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room L-01A

Chief Instructor: Salil Kumar Mandal

Lid reconstruction is a useful procedure when lid affected with tumor, trauma and burn .Most of the patient suffers from psychological upset. In this instruction course we intend to discuss the cost, safety, surgical outcome and efficacy of cutler beard eyelid reconstruction utilizing various materials e.g. autogenous auricular cartilage, artificial tarsal plate, silicon plate and others for tarsal plate replacement in the repair of 70-100% eyelid defects following excision of large malignant tumors. Use of expander in lid reconstruction, tenzel flap, skin grafting in trauma and burn. Doppler flowmetry study in lid reconstruction surgery and also discuss the complication. Surgical correction of mucormycosis by novel procedure Eye lash spairing orbital exenteration. We will demonstrate and discuss the possible complication .This instruction course is video based presentation and discussion. At last discuss the management of upper and lower lid retraction correction by Novel FKPF in TED

No.	Topic	Speaker	Min
1.	Applied Anatomy of eye lid and FACE Scoring	Sarbaraj NAG	10
2.	Upper and lower lid Tenzel rotational flap , Double Z plasty	Raka Chatterjee	12
3.	Doppler flowmetry study to evaluate flap vascularity and wound healing with tissue expander	Sankha Subhra Chaudhuri	12
4.	Modified CutlerBeard procedure with auricular cartilage in maggots infested large tumor	Purban Ganguly	12
5.	Lid Reconstruction by Novel silicone plate, Novel tissue expander, Novel FKPF spacer material in TED	Salil Kumar Mandal	18

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC474 - Beyond the Basics: Tackling Complex and Unusual Retinal Surgeries

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room L-02

Chief Instructor: Poornachandra B.

Retinal surgery often presents scenarios that challenge even the most experienced surgeons. While standard cases of retinal detachment or vitreous hemorrhage may follow well-defined protocols, complex and unusual retinal pathologies demand a more nuanced approach, advanced surgical skill, and real-time decision-making.

This instruction course is designed to take participants beyond textbook techniques, focusing on real-world surgical dilemmas and their effective management. It aims to bridge the gap between basic surgical training and the intricate reality of advanced vitreoretinal practice

No.	Topic	Speaker	Min
1.	Complicated diabetic tractional detachments	Poornachandra B.	10
2.	Chronic and recurrent retinal detachments	Rupak Kanti Biswas	10
3.	Retinectomy in Proliferative Vitreo-Retinopathy	Anand Rajendran	10
4.	Pediatric retinal detachments	Vishal Agrawal	10
5.	Macular holes with retinal detachment	Vinod Kumar	10
6.	Intraocular foreign bodies and trauma	Sachin Mahuli	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC239 - Ocular Trauma Toolkit: A Comprehensive Guide for Practicing Ophthalmologists

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room L-03

Chief Instructor: Sonal Kalia

Ocular trauma continues to be a significant cause of visual morbidity across all age groups. Its diverse presentations often require urgent, well-informed clinical decisions that span anterior and posterior segment care, oculoplastic management, and medicolegal preparedness. This instruction course offers a stepwise, multidisciplinary approach to ocular trauma tailored for general ophthalmologists in daily practice. The course begins with initial assessment of trauma and the interpretation of essential imaging modalities. It then transitions into surgical strategies for managing corneal and scleral tears, traumatic lens complications, and posterior segment injuries. Dedicated sessions will also cover adnexal repair with a focus on eyelid lacerations. Importantly, the course concludes with a critical session on medicolegal aspects of trauma care. This course is ideal for ophthalmologists seeking to strengthen their trauma management capabilities in both solo and institutional settings.

No.	Topic	Speaker	Min
1.	Initial Evaluation of Ocular Trauma: A Stepwise Clinical Approach	Sonal Kalia	8
2.	Optimizing the use of radiological modalities ,from B-scan and X-rays to CT, for accurate diagnosis.	Nupur Goel	8
3.	Corneal and Scleral Tear Repair: Mastering the Techniques in Real-World Scenarios	Gunjan Budhiraja	8
4.	Lens Management in Trauma: Practical Approaches Across Varied Presentations	Karan Bhatia	8
5.	Posterior Segment Trauma: Diagnostic & Surgical Pearls for Comprehensive Ophthalmologists	Awaneesh Upadhyay	8
6.	Managing Eyelid Lacerations: & Orbital Trauma : A Functional and Aesthetic Perspective	Swati Agarwal	8
7.	Medicolegal Aspects in Ocular Trauma: What Every Ophthalmologist Should Know	Koushik Tripathy	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC360 - OCT Beyond Borders: Mastering Structural Insights in Glaucoma

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room L-04

Chief Instructor: Priti Paritosh Kamdar

OCT, with its promise of early damage detection & fancy printouts has become a favourite diagnostic tool in glaucoma diagnosis & management.

However, incorrect understanding of OCT has had clinicians advising even surgery based on OCT reports.

“OCT Beyond Borders: Mastering Structural Insights in Glaucoma” is a comprehensive and interactive instructional course designed to deepen the clinician’s understanding and application of Optical Coherence Tomography (OCT) in glaucoma diagnosis & management.

Learning is a dialogue.

Through a blend of lectures, real-case discussions, with 30 minutes dedicated to audience participation, participants will learn to confidently interpret OCT data, distinguish glaucomatous damage from mimickers & integrate OCT findings into clinical decision-making across all stages of the disease. The course also offers a glimpse into emerging technologies like AI-assisted analysis and deep learning tools, setting the stage for future-ready glaucoma care.

No.	Topic	Speaker	Min
1.	Introduction to the course & speakers	Sania Sayed	5
2.	OCT 101: Light, layers & Limits	Amey	10
3.	Inside the nerve: Structural clues before field loss	Priti Paritosh Kamdar	8
4.	RNFL Vs GCC: Who wins & When?	Roopali Rahul Nerlikar	10
5.	Tech Forward: AI, Deep learning & future of OCT	Sachin Dharwadkar	10
6.	OCT in the real world: Matching the numbers to the picture. Case Discussion.	Priti Paritosh Kamdar	20

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC263 - Seeing the Invisible: Diagnosing Afferent Visual Pathway Lesions

Date : 13-03-2026 (Friday)

Time : 16:30-17:40

Hall : Meeting Room L-05

Chief Instructor: Swati Phuljhele

This instruction course is designed to provide the audience with a practical, evidence-based discussion on how to approach and manage important neuro-ophthalmological conditions, which are of contemporary interest to the general as well as neuro-ophthalmic audience.

Upon completion of this session, participants should be able to: (1) Understanding the differential diagnosis of Disc oedema (2) classify and manage MOG and NMO related optic neuritis as per updated international criteria, (3) Understand the role of various treatment modalities in IIH, (4) early diagnosis of toxic optic neuropathy (5) recent developments in Hereditary Optic Neuropathy

No.	Topic	Speaker	Min
1.	Deceptive Disc oedema	Rebika	10
2.	Clues to Atypical Optic Neuritis	Swati Phuljhele	10
3.	Best approach to deal with IIH	ROHIT SAXENA	10
4.	Toxic Optic Neuropathy: What can we do	Ankur Sinha	10
5.	Hereditary Optic neuropathy: An update:	Manjushree Bhate	10
6.	Approach to optic atrophy	Digvijay Singh	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

House on Fire

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room L-06 & 07

Moderators - Anurag Mishra, Doel Biswas

Debaters :

1. Chitra Ramamurthy VS D Ramamurthy
2. Mohan Rajan VS Sujatha Mohan
3. Vardhaman Kankaria VS Shrutika Kankaria
4. Himangshu Matalia VS Jyoti Matalia
5. Bibbhuti Kashyap VS Nidhi Kashyap

Panelists :

1. Jeetendra Jethani and Monika Jethani
2. Amit Porwal and Kavita Porwal
3. Satyajit Sinha and Pooja Sinha
4. Samaresh Srivastava and Vaishali Vasavada

IC562 - DMEK - Made Simple for the Beginners: Step-By-Step

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-01

Chief Instructor: SK Basak

The Incidence of Pseudophakic Corneal Edema/ Bullous Keratopathy is Increasing. We Also See Large Number of Fuchs' Dystrophy Cases, Because of Better Diagnostic Tools. so, We Have to Do Lots of Endothelial Keratoplasty (Ek). Descemet Membrane Endothelial Keratoplasty (DMEK) is Now Preferable Over Dsek/dsaek Because It is Perfectly Anatomical with Faster Rehabilitation and with 20/20 Vision in Most Cases. but Learning Curve of Dmek is Relatively Steep.

This Video-Assisted Instruction Course Will Highlight Dmek Step-By-Step and In-Depth. It Includes: Donor Dm-Roll Preparation; Descemet Scoring and Stripping; Donor Insertion Techniques and Unfolding; and Air Management, Etc. It Will Also Deal with Case Selections; Indications, Contraindications, Complications with Their Management.

At the End of the Course, the Attendee Will Learn Dmek Procedures Step-By-Step in a Simplified Manner Which is Relevant to Indian Scenario.

No.	Topic	Speaker	Min
1.	Introduction, Case Selection and Work up in DMEK	Soham Basak	10
2.	DM-Graft Preparation and DMEK Basics: Step-By-Step	SK Basak	15
3.	Different Insertion Techniques in DMEK and Unfolding of Graft	Rajesh Fogla	15
4.	IOCT Guided DMEK	Namrata Sharma	15
5.	Complications and Management in DMEK	Revathi Rajaraman	15

Keynote Address (8') : Pearls for endothelial keratoplasty - Parag Majmudar

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - SURGICAL DILEMMA IN CATARACT SURGERY

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-01 A

Vijay Shetty

Cataract surgery presents multiple scenarios where various options can be employed. Preoperative decisions about surgical techniques, devices, and implants can be challenging. Unexpected events during surgery may further complicate adherence to the preoperative plan. This instruction course (IC) addresses tough choices regarding surgical techniques, such as SICS, PHACO, and FLACS. Instructors will discuss the management of small pupils with and without devices, along with the selection of premium intraocular lenses (IOLs) based on individual patient conditions. Finally, the course will cover critical decision-making during unexpected intra-operative situations, specifically the dilemma of whether to proceed with the planned IOL or to change the IOL intra-operatively.

1. "CHOP" or "SICS" - what to do in advanced cataract - Ketan Nikam - 12 Mins
2. "Light" or "Sound" for Action: FLACS versus Phaco in complicated cataract - Janhvi Mehta - 12 Mins
3. To D or Not to D: No Devices versus Dilating Devices in Small Pupil - Bhosale Seema - 12 Mins
4. Game of Zones: Choosing Trifocal Versus EDOF for a patient - Abhishek Hoshing - 12Mins
5. IOL: Implant or Leave (Decoding Dilemma) - Vijay Shetty - 12 Mins

Total duration(include panel discussion : 10 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC1 - The War of Flaps!

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-02

Chief Instructor: Vinod Kumar Arora

Refractive ophthalmic surgery enables permanent, safe, effective, and reliable correction of refractive errors, with minimal complications. Surgeons now have a variety of refractive surgical options for tailoring treatments to individual patient needs. Nevertheless, a debate persists regarding the preference for using a microkeratome, Femto, a no-flap SMILE approach, or the recently introduced no-flap, no-cap advanced surface ablation techniques for corneal refractive surgery. All these techniques have seen significant enhancements and none have become obsolete. The objectives of this interactive course are for attendees to • Familiarise themselves with the various techniques for correcting refractive errors of the human eye, • Understand the indications for each method according to accepted Refractive Surgery guidelines, • Inform patients about contraindications and potential complications associated with each technique.

No.	Topic	Speaker	Min
1.	Introduction to the course and the experts	Vinod Kumar Arora	3
2.	Microkeratome is still the gold standard.	Monika Jethani	12
3.	Femtosecond : Safer Lasik	Dhami G.S.	12
4.	Smile all the way!	ANAND PARTHASARATHY	12
5.	Contoura- Vision for your eyes	Wavikar Chandrashekhar Murlidhar	12
6.	How advanced is the ' Advance Surface Ablation'	Vinod Kumar Arora	12

Panel Discussion : 7 mins

IC290 - Changing Trends Of Practice Management

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-03

Chief Instructor: Madhav Dinkar Ambekar

The practice paradigm has changed from small single solo practitioner to corporate and chain hospitals in last couple of years and more over the new generation doesn't want to go through the hassles of management of hospital but still we need to get adapted to the new systems and with lot of new government medical colleges coming up there is a trend to be in secure set up of public health or medical education.

This IC will take into account the overall changing trends and what would be future of practice pattern and is the solo practitioner going to survive and how to go with positive note at beginning, or what problems are faced by second generation and on long term basis the doctor owned practice is better or corporate owned are better, which will help for new comers as well as midlife consultants for going into amalgamation or to follow some different business model.

The guidelines for startups for self development and practice development, along with mid life blues to get solved.

No.	Topic	Speaker	Min
1.	The Paradigm change of practice Trends	Madhav Dinkar Ambekar	12
2.	The necessity of Fellowship Post PG how far mandatory	Sujata Sanjay Chahande	12
3.	To be into foot steps of previous generation or be independent.	Mrunmayee Ambekar	12
4.	Limited Equipment and or Operation Room Sharing What should be the strategy	Quresh B. Maskati	12
5.	Midlife Blues , The challenges of Expansion faced after few years of Practice	Usha A Johari	12
6.	The dilemma of merger and Acquisition into chain hospital	Santosh Bhide	12

Guest Talk (8') : ECO 2nd Edition Standards, aimed at creating awareness (8) - Neeta

The 84th Annual Conference of All India Ophthalmological Society

IC177 - Deciphering the Medico-Legal Conundrum for Ophthalmologists.

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-05

Chief Instructor: Viral Shah

The legal landscape for medical professionals is evolving rapidly. With the introduction of Bhartiya Nyaya Sanhita 2024, amendments in the Consumer Protection Act, pivotal court judgments, and emerging domains like tele-ophthalmology, AI, and insurance reforms, ophthalmologists face increasing medico-legal scrutiny.

Today's patients are more aware, less tolerant, and more litigious than ever before. Whether in private practice or institutions, ophthalmologists must stay updated to safeguard themselves and their practice.

This Instruction Course provides practical insights and critical updates to help navigate today's complex medico-legal challenges with confidence and clarity.

No.	Topic	Speaker	Min
1.	Welcome & Introduction to the Course	Viral Shah	3
2.	CPA 2019 Simplified for Ophthalmologists	Santosh Bhide	10

The 84th Annual Conference of All India Ophthalmological Society

Women ophthalmologists society- Quality- Session 2

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Meeting Room U-06

Quality in practice

Chair : Samina Zamindar

Co Chair : Suneeta Dubey

Convener : Maya Hada

Co Convener : Ranjana Kumar

Moderator : Gursimran Kaur

1. Cost of Poor Quality & Why Patient Safety Matters- Prerana Matta - 10 min
2. Hospital Infection Control: The Foundation of Patient Safety- Samina Zamindar- 15 min
3. Processes that protect: SOPs, Communication & Risk Mitigation- Nazia 15 min
4. Learning from mistakes: Adverse Event Reporting Culture- Chandrashekhar - 15 min
5. Measurement for Improvement: KPIs, PREM/PROM & Audits- Suneeta Dubey- 15 min

The 84th Annual Conference of All India Ophthalmological Society

UNPLANNED CUT - "When Things Don't Go as Planned" - A Video-Based Complications Management Session

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Atlantiis 1

A high-impact, interactive video-based complications management session focusing on real-world surgical challenges, decision-making under pressure, and practical take-home learning.

The session emphasizes transparency, learning from mistakes, and expert panel insights to improve patient outcomes.

- Total Case Scenarios: 8
- Time per Case: 8 minutes

For each case:

- Surgical Video Presentation – 4 minutes
- Moderator Cross-Questioning – 1 minute
- Expert Panel Discussion – 2 minutes
- Audience Interaction – 1 minute

Session Objectives

- To analyze unexpected intraoperative complications
- To discuss step-by-step management strategies
- To highlight decision-making during unplanned events
- To encourage audience participation and critical thinking
- To promote a non-judgmental, learning-focused environment

Hosts & Moderators

(Main Coordinators for the Session)

- Manoj Khatri
- Viral Shah

Co-Convener - Rahul Tiwari

Judges & Expert Panel

- Amar Agrawal
- Partha Biswas
- J. S.

The 84th Annual Conference of All India Ophthalmological Society

Titiyal

- Namrata Sharma
- Lalit Varma
- Mahipal Sachdev
- T. P. Lahane
- Santosh Honavar

Unique Features of the Session

- Real, unedited surgical videos
- Practical, experience-based learning
- Rapid-fire expert inputs
- Active audience engagement
- Focus on “what to do next” rather than hindsight criticism

The 84th Annual Conference of All India Ophthalmological Society

IC113 - An Introduction to Genetic Testing for Ophthalmologists

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Atlantiis 2

Chief Instructor: Sushmita Kaushik

This introductory course on genetic testing is designed specifically for ophthalmologists, providing a foundational understanding of the role genetics plays in diagnosing and managing inherited eye diseases. The course covers key concepts, including the genetic basis of ocular conditions, testing methodologies, the interpretation of genetic results, and their clinical implications. Emphasis is placed on integrating genetic testing into routine ophthalmic practice, improving diagnostic accuracy, and guiding personalized treatment plans. The course instructors are experienced clinicians with a special interest in genetics, who have incorporated genetic testing as a part of their routine workup in selected patients. By the end of the course, participants will be better equipped to identify candidates for testing, understand test outcomes, and collaborate effectively with genetic counsellors and specialists.

No.	Topic	Speaker	Min
1.	Introduction to the course	Sushmita Kaushik	4
2.	Basic Terminology to understand and remember	Sushmita Kaushik	5
3.	What is to be conveyed during genetic counselling before ordering testing?	Goura Chattannavar	6
4.	What genetic tests are available and how do we decide what to order	Sirisha Senthil	6
5.	Breakdown the report: What does it all mean Variant interpretation and inheritance	Arif KHAN	10
6.	Post-test: What do we convey	Shailja Tibrewal	6
7.	a) How genetic testing helped in diagnosis	Jaspreet Sukhija	6
8.	b) How genetic testing helped in treatment	Sushmita Kaushik	6
9.	c) How genetic testing helped the family	Deeksha Katoch	6

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

ACOIN Session - I (Reach The Unreached)

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Atlantiis 4

Convenor : Maya Hada

Chairpersons : Lalit Nepalia, Awadh Dubey, B N R Subudhi, Lakesh Madharia, Sudhir Mahashabde,
Kavita Bhatnagar, Lalit Srivastava, B N Gupta

Moderator : Tejinder Singh Ahluwalia

1. Preamble : Swapan Kumar Samanta (2 Mins)
2. Introduction : Satanshu Mathur (3 Mins)
3. FOCUS TALK : Awadh Dubey (8 Mins)
4. Key Note Speaker : Sushil Rungta (8 Mins)

Speakers : (6 Mins Each)

5. Ultrathin DESK in the Era of DMEK - John Sarkar
6. Periocular Dog Bite Injuries : A Community Health Menace - Urmil Chawla
7. Orbital Cysticercosis : A challenger for ophthalmologists, neuro ophthalmologists and general practitioners - Chandana Chakraborti
8. Improvement of Isolated Abducent Nerve Palsy with Dilated CSF Spaces - Anupama Biswas
9. Chemical Injury - Satanshu Mathur
10. Screening - key to preventing glaucoma blindness - Purvi Bhagat
11. Ocular anaphylaxis - management and clinical outcome after corneal bee sting - Vidya Bhushan
12. Concluding Address : Kavita Bhatnagar
13. Take Away Message (3 Mins) : Vikash Kumar Gupta

The 84th Annual Conference of All India Ophthalmological Society

Indian Society of Ocular Oncology (Eye Can India)

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Trade Room 1

President : S. Natarajan

Hon. Secretary : Bhavna Chawla

Panelists : Kasturi Bhattacharjee, Purnima, Usha Singh, Suganeswari

1. Bhavna Chawla : Introduction to Eye Can India
2. Jyotirmay Biswas : Primary Vitreoretinal Lymphoma: Challenges in Management
3. Vishal Rawal : Choroidal melanoma biopsy: When and how?
4. Vikas Menon : Topical 5FU in OSSN
5. Puneet Jain : Conjunctival melanoma: Current concepts
6. Akshay Nair : Orbital tumors: Imaging n customized planning
7. Parveen Mongre : Salivary gland like carcinoma of lacrimal drainage system
8. Seema Sen : Pathology Pearls
9. Sumit Grover : Strategies for Community Awareness
10. S. Natarajan : Vision for the Future

The 84th Annual Conference of All India Ophthalmological Society

IC55 - -Role of UWF Retinal Imaging in day to day practice with comparison of available technologies.

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Trade Room 2

Chief Instructor: Prabhudesai Nitin Govind

With the availability of UWF Imaging technology diagnosis & management of Vitreoretinal diseases is becoming more precise & predictable . The far peripheral retina which was hereto not available to be imaged and documented is now under our purview adding a new dimension to our diagnostic & management approach. However as with any newer technology there is always a scepticism regarding its true value in day to day practice. In this IC senior Vitreoretinal consultants who are currently using different UWF technologies in their individual practices will highlight practical benefits of using these technologies in day to day practice & will guide the attendees in choosing the technologies they would like to pursue.

No.	Topic	Speaker	Min
1.	Colour , Redfree & Choroidal UWF imaging with Optos technology	Prabhudesai Nitin Govind	10
2.	Redfree & Choroidal UWF imaging with Optos technology	Apurva Prabhudesai	10
3.	UWF Imaging by Mirante technology	PRASHANT BAWANKULE	10
4.	UWF Autofluorescence imaging with Optos technology	Manoj Saswade	10
5.	UWF technology comparison between Optos & Heidelberg Spectralis	Sharad Bhomaj	10
6.	Combined UWF Retinal imaging with UWF OCT - how it is changing my perspectives of Retinal Diseases	Vatsal Shyamlal Parikh	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC268 - Right IOL for the Right Patient: A Stepwise Guide to Personalized IOL Selection

Date : 13-03-2026 (Friday)

Time : 16:30-17:40

Hall : Trade Room 3

Chief Instructor: K. Kavitha Lakshmi

Choosing the right IOL for the right patient begins with thorough preoperative evaluation and accurate biometry. This instruction course provides a structured approach to IOL selection—balancing patient needs and ocular parameters. Learn how to match visual goals with the right technology: monofocals for reliability, monofocal plus for enhanced intermediate, toric IOLs for astigmatism correction, EDOF IOLs for balanced contrast and range, and trifocals for complete presbyopia correction. Clinical case scenarios, practical algorithms, and VAST modules will be used to enhance clinical understanding and surgical decision-making. We'll also address managing patient expectations, counseling strategies, and red-flag scenarios to avoid. It is important for surgeons to understand the lenses better to guide patients in making informed and right decisions. Ideal for surgeons aiming to optimize outcomes with personalized IOL solutions.

No.	Topic	Speaker	Min
1.	Precision Starts Here: Mastering Biometry and Preop Evaluation for Perfect IOL Outcomes	Niranjana Karthik	12
2.	Clear the Blur: Astigmatism Management with Toric IOLs Made Simple	K. Kavitha Lakshmi	12
3.	MONOFOCAL PLUS & EDOF IOLs: Striking the Right Balance Between Vision Range and Contrast	Kumaran Murugesan	12
4.	OPTIMISING VISUAL OUTCOMES WITH TRIFOCALS & TRIFOCAL TORICS	Nirmal Fredrick T.	12
5.	Beyond the lens: Managing Patient expectations	Soundaram M	12

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC566 - Glaucoma and Preventable Blindness

Date :	13-03-2026 (Friday)
Time :	16:30-17:40
Hall :	Trade Room 4

Chief Instructor: Inder M. Rustagi

Glaucoma is a leading cause of preventable blindness while its damage cannot be reversed, early detection and timely treatment can significantly slow or halt its progression. Community-based care can prevent vision loss. An approach ; strategy and continuum care in the right direction will help in achieving the role and prevent blindness.

No.	Topic	Speaker	Min
1.	Glaucoma screening - An essential part of community eye care in India	Inder M. Rustagi	8
2.	Glaucoma screening - our experience in a tertiary institute	Manisha Rathi	8
3.	Integrated eye care for tackling blindness due to glaucoma - A community centric approach	Neetu Negi	8
4.	Glaucoma screening and role of private set ups	Malvika Bansal	8
5.	Role of Advanced treatment modalities in community glaucoma prevention	Ameeta Koul	8
6.	Integrating Corneal Transplant Services and Glaucoma Control to Reduce the Global Burden of Blindnes	Rakesh Shah	8
7.	Role of AI in glaucoma screening ;detection and treatment	Sean Socrates Dsilva	8
8.	Conclusive Remarks	Inder M. Rustagi	5

IC559 - Biometry: The Fine Line Between Clarity and Complaint!

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Ballroom

Chief Instructor: Lakshmi K S Murthy

Biometry is the backbone of precision in modern cataract surgery. This instruction course explores its role across varied clinical scenarios—from comparing conventional and optical biometry to tackling tricky cases. We'll cover pediatric eyes where accurate ELP is key to avoiding amblyopia, post-refractive surgery patients prone to surprises, and eyes with advanced glaucoma, whether long, short, open or closed angle. We'll also decode which of the latest IOL formulae deliver the most accurate outcomes. Join us to sharpen your biometry skills, minimize surprises, and maximize patient satisfaction because in cataract surgery, precision is everything.

No.	Topic	Speaker	Min
1.	Old Lens, New Tricks: Why Conventional Biometry Still Matters in Modern Cataract Surgery	Ramya Nayak	9
2.	Measure Twice, Implant Once: Unlocking the Secrets of Optical Biometry	Dinesh Balakumar	9
3.	ELP in the Little League: Biometry Tricks for the Young Eye	Lakshmi K S Murthy	9

IC554 - Intraocular tumors – What we MUST know - general ophthalmologist perspective

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-01

Chief Instructor: Sumeet Lahane

Intraocular lesions constitute one of common and yet neglected part of ophthalmology curriculum. Despite of available advanced imaging technology ophthalmologist find difficulty in diagnosis of certain intraocular lesions. Early and accurate clinical diagnosis is key in diagnosis of any intraocular tumor specially malignant ones. Many cases in their late stages present as neovascular glaucoma, painful blind eye leading to a masquerade and a diagnostic challenge. In this instruction course we will focus on tips to diagnose commonly seen intraocular tumors and approach of ophthalmologist to such cases.

No.	Topic	Speaker	Min
1.	Choroidal nevus and melanoma – whose who	Mrittika Sen	8
2.	Pediatric intraocular tumors – Retinoblastoma and differential diagnosis	Sumeet Lahane	8
3.	Black lesions of retina	Puneet Jain	8
4.	Colors speak – choroidal metastasis	Shaifali Chahar	8
5.	Vascular retinal lesion (Angioma , VPRT , Hemangioma)	Sameeksha Tadeipalli	8
6.	VR Lymphoma	Santosh G. Honavar	10

IC507 - Plugging the hole : Algorithmic Approach to the Management of Corneal perforations

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-01A

Chief Instructor: Pratima Vishwakarma

Corneal perforation is a vision- and globe-threatening emergency that requires prompt and appropriate intervention. This instruction course will provide a comprehensive approach to the diagnosis and stepwise management of corneal perforations, ranging from small leaks to large tissue loss. Topics will include use of tissue adhesives, bandage contact lenses, amniotic membrane grafts, tenon patch, and corneal patch graft. Through case-based discussions and surgical videos, the course aims to enhance clinical decision-making and equip participants with practical strategies to manage this critical condition effectively.

No.	Topic	Speaker	Min
1.	Introduction	Prabhat Nangia	6
2.	TA-BCL application	Sandhya Jeria	6
3.	Tenons patch graft	Ananya Nibandhe	6
4.	Amniotic membrane grafting	Kavya Chandran	6
5.	Corneal patch graft	Pratima Vishwakarma	6
6.	Tectonic large graft	Priya Srinivas	6

IC349 - Precision to go : Cost Effective Portable Perimeters for Early Glaucoma Diagnosis

Date : 14-03-2026 (Saturday)

Time : 08:00-08:55

Hall : Meeting Room L-02

Chief Instructor: Prachi Grover

Portable perimeters are gaining clinical relevance due to their ease of use, affordability, and diagnostic reliability. This talk presents current evidence on their performance compared to standard perimetry, integration into routine ophthalmic workflows, and potential to extend care in under-resourced areas. Practical considerations for implementation will also be addressed. Doing Private Practice, so investing in any machine is always a concern. So came across this Portable devices. Basic aim of this IC is to aware beginners for this device. Results of this device is comparable with HVF

No.	Topic	Speaker	Min
1.	"From Clinic to Couch: Visual Field Testing in the Palm of Your Hands	Prachi Grover	10
2.	AI Meets VF : The Rise of Portable, Intelligent Perimeters	Sandal Kotawala	10
3.	The Future is Portable: Innovations in Perimetry Technology	Rashda Rahman	10

IC240 - Vitreoretinal Surgery - Beyond the conventional cuts and peels

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-03

Chief Instructor: Shishir Verghese

Welcome to “Vitreoretinal Surgery: Beyond the Conventional Cuts and Peels”—a high-octane instruction course crafted for the modern retinal surgeon. From edge-of-your-seat membrane dissections in "Peel It Like It's Hot", to gut-check moments in "Oops in the Vitreoretina OR", we explore real cases that challenge reflexes and rethink routines. "The Retina Diaries" takes you through a rollercoaster year of rare cases and bold decisions. Master the art of ambidexterity in "Double Trouble", and survive the unexpected in "Slip, Snap and Sink", our SF-IOL complications survival guide. Finally, embrace the future with "Surgical Disruptors", showcasing innovations pushing the boundaries of conventional vitrectomy.

This isn't just another surgical course—it's a curated experience of mistakes, miracles, and mastery. Whether you're new to VR surgery or a seasoned expert, this course promises to sharpen your instincts, expand your repertoire, and reignite your love for the craft.

No.	Topic	Speaker	Min
1.	Peel it like its hot - Video based tour of challenging membrane dissections	Awaneesh Upadhyay	8
2.	Oops in the vitreoretina OR - Learning from near misses and complications	Chitaranjan Mishra	8
3.	The Retina Diaries - One wild year in the vitreoretina OR	Sharat Hegde	8
4.	Double Trouble - Bimanual Vitrectomy Powerplay	Shishir Verghese	8

IC85 - Invisible cuts with visible outcomes: MISS in today's era

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-04

Chief Instructor: Aakanksha Raghuvanshi

Minimally invasive strabismus surgery is a surgical technique that involves 2 subsets: one that includes a keyhole-sized conjunctival opening and another that minimizes muscle manipulations in strabismus surgery. These reduce conjunctival congestion and chemosis, perimuscular tissue scarring, and preserve perilimbal episcleral vessels. It helps in improving postoperative cosmesis, reducing discomfort, and promoting faster recovery without compromising motor alignment. Through this instruction course, we are highlighting various MISS techniques with their outcomes. We aim to emphasize the indications and techniques of MISS in both routine and complex strabismus. Case-based discussion, surgical videos, and expert tips will help the delegates in incorporating MISS into daily practice. This course is prepared keeping in mind the evolving patient cosmetic expectations and faster recovery postoperatively.

No.	Topic	Speaker	Min
1.	Basics of MISS with types of incisions	Mittali Khurana	7
2.	MISS for horizontal recti- outcomes and pitfalls	Aarushi Saini	7
3.	Targeted inferior oblique weakening with MISS	Subhash Dadeya	7
4.	Fine tuning in MISS with Mini-tenotomy and mini plication	Aakanksha Raghuvanshi	7
5.	Half Minimally invasive strabismus surgery- A brief focus	Vaishali Tomar	7
6.	When not to go mini: surgical scenarios best left conventional.	Kanchita Pandey	7
7.	Evaluating the true impact of MISS in strabismus management	Anam Ansari	7

IC369 - Starting Strong: How to Set Out as an Independent Surgeon – First-Timers Guide Across Subspecialties

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-05

Chief Instructor: Rakhi P Dcruz

Stepping into independent surgical practice is a crucial yet challenging transition for young ophthalmologists. Whether in anterior segment, retina, oculoplasty, glaucoma, or pediatric ophthalmology, the initial phase of surgical independence often brings technical, practical, and psychological hurdles.

This Instruction Course is specifically designed for first-time surgeons, fresh consultants, fellows, and senior residents preparing to take their first confident steps in independent surgical practice. From selecting your first cases wisely, setting up your surgical workflow, managing complications, to building confidence in decision-making and patient communication, this course will provide a 360° practical speciality specific guide for early-career surgeons. The course also addresses setting up private practice, navigating early-career stress, and using mentorship and networks effectively.

No.	Topic	Speaker	Min

IC123 - CATARACT COMORBID CAPSULE

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Shail Vasavada

Management of cataract with other comorbidities is often complex and challenging. Today with a better understanding of these comorbidities, we can join hands and collaborate with our subspecialty colleagues in managing such comorbid eyes. This course will discuss and highlight commonly encountered comorbidities with cataract like uveitis, corneal disorders, ocular trauma, retinal disorders and glaucoma with special emphasis on the combined approach. This course will boost confidence and enhance surgical skills of the attendee in managing such complex cases and help them efficiently plan the right strategy and optimize the surgery outcome

IC484 - Pediatric Cataract - Concepts and Considerations

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room U-01

Chief Instructor: Venkatesh Nathiya

Pediatric cataract is a major cause of blindness in children. It can have a severe impact on the individual, family and society if left untreated. Pediatric cataract management is a complex and continuous process. It requires early diagnosis, timely and appropriate surgery, effective rehabilitation, parental motivation, regular follow up, complication detection and management, and multidisciplinary collaboration of ophthalmologist, optometrists, and parents. By attending this instruction course, the participants will be able to enhance their knowledge and skills in pediatric cataract management. They will learn about the latest developments and best practices in the field, and how to apply them in their own clinical settings. They will also have the opportunity to interact with experts and peers and share their experiences and challenges. This instruction course will ultimately contribute to the prevention and treatment of childhood blindness.

No.	Topic	Speaker	Min
1.	Basics of Pediatric Cataract	Sudarshan Kumar Khokhar	8
2.	Pre-operative Workup in Pediatric Cataract	Ms. Aishwarya Rathod	8
3.	Surgical Management of Pediatric Cataract	Deeksha Rani	8
4.	Postoperative Care and Rehabilitation	Venkatesh Nathiya	8

IC383 - A STAIRCASE TO CONQUERING RESIDENCY- FOR THE RESIDENTS, BY THE RESIDENTS

Date : 14-03-2026 (Saturday)

Time : 08:00-08:55

Hall : Meeting Room U-01 A

Chief Instructor: Hirika Gosalia

Teaching methods in residency programs play a crucial role in shaping competent and skilled ophthalmologists. Effective teaching not only imparts knowledge but also fosters critical thinking, clinical skills, and professional development. This instruction course reflects various innovative learning methods for residents other than routine classroom teaching, it emphasizes on resources other than the standardized textbooks. Incorporating a variety of teaching methods in ophthalmology residency programs ensures a well-rounded education, preparing residents to provide high-quality care to patients. It encourages critical thinking, problem-solving, and decision-making skills. Activities like Journal clubs help residents stay updated, grand rounds are an opportunity to present complex cases, Conferences provide networking opportunities with experts. They foster a culture of continuous learning and professional development, which is crucial in a constantly evolving field like ophthalmology.

IC399 - Surgical X Files in Retina

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room U-02

Chief Instructor: Diva Kant Misra

Retinal surgeries can present unexpected challenges. To attain optimal anatomical and functional results, a meticulous approach to instrumentation and surgical techniques is imperative. In this instructional course (IC), our instructors will elucidate surgical strategies and methodologies for managing intricate case scenarios in order to achieve exceptional surgical outcomes. The instructors will showcase 1-2 case-based videos, each illustrating different scenarios, and emphasize their techniques, which will be followed by panel discussions. This instructional course is tailored for retinal surgeons and fellows aspiring to enhance their surgical skills and excel in challenging case scenarios, beyond routine retinal surgeries.

No.	Topic	Speaker	Min
1.	The Coloboma Conundrum: Tackling RD and the Re-Detachment Dilemma	Apoorva A.G.	6
2.	The Red Files : Management Options in Sub-retinal Haemorrhage	Abhishek Anand	6
3.	ILM flap repair for iatrogenic foveal dehiscence and sub-foveal PFCL in TRD	Awaneesh Upadhyay	6
4.	What lies beneath - Bubble trouble : The PFCL struggle	Vaibhav Sethi	6
5.	Macular Levitation : Macular buckle in a complex case of Myopic Retinoschisis	Chintan Desai	6
6.	Retinal Invaders : The Challenge of Intraocular Foreign Bodies	Diva Kant Misra	6
7.	Managing the double trouble : Staged surgery in RRD with CD	Chitaranjan Mishra	6

The 84th Annual Conference of All India Ophthalmological Society

IC494 - Spectrum of Ocular Toxoplasmosis: Classical to Atypical Forms, Imaging and Treatment Protocols

Date : 14-03-2026 (Saturday)

Time : 08:00-08:55

Hall : Meeting Room U-03

Chief Instructor: Anup Kelgaonkar

Ocular toxoplasmosis is the most common cause of infectious posterior uveitis. While classically described as “headlight in a fog,” advances in clinical knowledge and multimodal imaging have revealed a broader spectrum, including atypical forms, macular involvement, and presentations in immunocompromised individuals. This instruction course will explore classical and emerging variants, complications, and treatment strategies using a case-based “Just-a-slide” format. Emphasis will be on imaging modalities such as Autofluorescence, Swept-Source OCT, En-face OCT, OCT-A, FA, and ICGA for accurate diagnosis and follow-up. The course will also highlight evidence-based approaches, including combination therapy for macular disease. Attendees will gain practical tools for real-world management of this sight-threatening condition.

No.	Topic	Speaker	Min
1.	Classical Ocular Toxoplasmosis: Clinical Features & Imaging Characteristics	Sayali Amol Karande	12
2.	Treatment Approaches and Protocols for Macular Toxoplasmosis	Anup Kelgaonkar	12
3.	Atypical ocular toxoplasmosis and how to diagnose them	Vishal Jadhav	12
4.	Ocular Toxoplasmosis in Immunocompromised Hosts.	Ronnie Abhishek Talluri	12

Panel Discussion : 7 mins

IC204 - Innovision: Artificial intelligence & the new age of Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Meeting Room U-05

Chief Instructor: Srishti Khullar

Ophthalmology is uniquely positioned at the intersection of medicine and technology. Among all medical specialities, it has consistently adopted innovations early, whether in diagnostic imaging, microsurgical techniques, or telemedicine. The current decade has witnessed a rapid transformation driven by artificial intelligence, machine learning, robotics, virtual and augmented reality, and smart diagnostics. These technologies are not just enhancing precision and efficiency but are also reshaping clinical decision-making, patient engagement, and surgical outcomes.

This instruction course aims to provide a comprehensive, yet practical overview of AI and cutting-edge innovations across various subspecialties & community ophthalmology, designed to enhance awareness, adoption, and integration of next-generation technologies in eye care. The course spans clinical AI, smart diagnostics, and educational transformation to enhance adoption and prepare for the future that's already here.

No.	Topic	Speaker	Min
1.	Introduction and overview	Srishti Khullar	2
2.	Innovations in Cataract surgery	Sanjay Kumar Mishra	7
3.	Innovations and Artificial Intelligence in Glaucoma	(Brig) Gaurav Kapoor	7
4.	Innovations and Artificial Intelligence in Retina	Vikas Ambiya	7
5.	Innovations in Cornea Diagnostics and Surgery	Vijay Kumar Sharma	7
6.	Role of Artificial intelligence in Cornea	Alok Sati	7
7.	Innovations and artificial intelligence in Refractive surgery	Prabhjot Singh	7
8.	Community Ophthalmology & Telemedicine	Srishti Khullar	5

The 84th Annual Conference of All India Ophthalmological Society

IC363 - Clinic-Ready OCTA+AI: Fix Artefacts, Segment Smart, Key Metrics, Widefield Fusion, Better Decisions

Date : 14-03-2026 (Saturday)

Time : 08:00-08:55

Hall : Meeting Room U-06

Chief Instructor: Ankur Singh

Ophthalmic diagnostics is undergoing a seismic reset: Optical Coherence Tomography Angiography (OCTA)—now turbocharged by advanced AI—is rewriting acquisition, analysis and decision-making. This Instruction Course distills basic to latest breakthroughs into workflows you can deploy on Monday morning. We start by demystifying OCTA physics, artefact biology and segmentation repair, then move to widefield/multimodal fusion, layer-specific vascular metrics, perfusion maps and longitudinal change analysis in diabetic retinopathy and vascular occlusions, declutter AMD/PCV interpretation with treatment-trigger flow cues; push into the “uncharted” posterior uveitis space where OCTA is eclipsing ICG; and decode what AI truly delivers—denoising, auto-slab selection, microvascular quantification and report automation—while flagging pitfalls and ethics. Expect rapid-fire image sprints, checklists and flowcharts that lock learning in, so you read faster, quantify confidently and manage smarter.

No.	Topic	Speaker	Min
1.	Read OCTA Right: From Basics to Imaging—Quick Artefact Fixes, Clear, Confident Reads	Devesh Kumawat	10
2.	OCTA Vs FA : Diabetic Retinopathy and Retinal Vascular Pathologies	Vinod Kumar	10
3.	Beyond FA: OCTA Clarity in AMD & PCV	Bhuvan Chanana	10
4.	Macula to Periphery: Cracking MacTel to Widefield OCTA	Pradeep Kumar	10
5.	Uveitis Unveiled: OCTA as the New ICG	Ankur Singh	10
6.	AI x OCTA: What Actually Works	Nikita Gupta	10

IC145 - Economics of Retina Practice in India: Balancing Passion, Patients & Profitability

Date : 14-03-2026 (Saturday)

Time : 08:00-08:55

Hall : Atlantiis 1

Chief Instructor: Puneet Gupta

Retina practice in India is a high-investment, high-effort subspecialty that often struggles with limited profitability due to costly infrastructure, underpriced procedures, and poor insurance or government reimbursements. This instruction course explores the economic challenges at various stages of a retina specialist's career—from setup and sustainability to expansion and succession. Through real-life experiences, it addresses viability in solo practice, realistic pricing models, insurance limitations, and scaling strategies. The course aims to equip practitioners with practical, India-specific insights to balance professional passion with financial survival.

No.	Topic	Speaker	Min
1.	Vitreo -Retinal Sub speciality Practice : Hobby or Profession ?	Puneet Gupta	7
2.	Setting Up a Retina Practice : The High Cost Barrier	Divya Agarwal	7
3.	Running to Stay Afloat: Is Retina Practice Financially Viable?	Ruchir Tewari	7
4.	Death by Discount: Insurance, Packages, and Government Schemes	Vishal Agrawal	7
5.	Crossroads in Growing a Retina Practice - Which road to take ?	Raju S.	7
6.	Premium Retina Practice: Does it exist ?	Garodia Vinay Kumar	7

IC550 - Keratitis decoded : a microscopic guidance!

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Trade Room 1

Chief Instructor: Kavya Chandran

This instruction course offers a comprehensive overview of microbiological techniques crucial for diagnosing and managing corneal infections. Key topics include corneal scraping and biopsy procedures, interpretation of microbial smears, culture assessment, and differentiation of true pathogens from artifacts. The course also covers antifungal and antibacterial susceptibility testing, emphasizing its clinical relevance in guiding therapy. In addition, the role of PCR in identifying microbial pathogens will be discussed. Through case-based discussions and practical insights, participants will gain enhanced diagnostic precision and confidence in managing infectious keratitis.

No.	Topic	Speaker	Min
1.	Basics of smear and culture examination	Ananya Nibandhe	7
2.	Clinico microbiological correlation - case based understanding	Kavya Chandran	7
3.	Antimicrobial susceptibility profile and its relevance	Pratima Vishwakarma	7
4.	Understanding Molecular diagnostics in microbial keratitis	Joveeta Joseph	12
5.	From the Laboratory to clinics : our learnings so far!	Bhupesh Bagga	12

Panel Discussion : 10 mins

IC153 - Presbyopia Decoded: Lasers, Lenses & Logic

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Trade Room 3

Chief Instructor: Zain Khatib

Presbyopia is one of the most common and challenging conditions we face in refractive practice. With more patients seeking freedom from glasses at all distances, it's important to understand and offer reliable treatment options. This course will cover the full range of presbyopia solutions available today. We'll start with laser-based approaches; the science of blended vision techniques, which is considered a gold standard in Presbyopia management. A new tool—the ZOOM simulator—will be introduced to help plan customized laser treatments for both myopic and hyperopic patients. Lens-based option PRELEX will be discussed, with tips on choosing the right patient and IOL. Interesting real-world cases will be shared to highlight what works—and what doesn't. Lastly, we'll cover the science behind the ever reliable monovision, how to test it, when to recommend it, and how to maximize its outcomes. The goal is to give the audience an overview to confidently manage presbyopia in own clinic.

No.	Topic	Speaker	Min
1.	Binocular Balance with Blended Vision: Science Behind Modern Laser Presbyopia Correction	Aadithreya Varman	8
2.	Beyond Algorithms: Customizing Laser Correction for Presbyopia Using the ZOOM Simulator	Zain Khatib	8
3.	PRELEX Today: Choosing the Right Lens, Patient and Protocol	Tanvi Haldipurkar	8
4.	Lessons from the Clinic: Challenging Cases in Presbyopia Management	Sourabh Patwardhan	8
5.	Monovision Mastery: Principles, Refraction Techniques, and Patient Selection	Vardhaman Kankaria	8

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC187 - Allergic Eye Disease - An Enigma for Ophthalmologists

Date :	14-03-2026 (Saturday)
Time :	08:00-08:55
Hall :	Trade Room 4

Chief Instructor: Ikeda

Ocular allergies are common disorders that severely affect the quality of life. Allergic eye diseases are important due to their chronic nature and varied presentations. They are often missed or may mimic other ocular surface pathologies, sometimes even infections. The treatment is usually prolonged and challenging as the response to the therapy can be highly variable. In this course, we will present a series of cases depicting the various common and uncommon manifestations of different types of allergic eye diseases. We will also discuss the common conditions that mimic ocular allergy. A stepwise approach will describe the management including the role of systemic immunomodulation as well as surgical options. At the end of this instruction course, attendees will be able to differentiate various forms of ocular allergies and formulate a logical stepwise treatment plan.

No.	Topic	Speaker	Min
1.	Overview of Allergic Eye Diseases: Differentiating the spectrum of allergy in the clinic	Alok Sati	10
2.	Mimickers of Ocular Allergy	Ikeda	10
3.	Medical management: The Drugs available in our Armamentarium	Namrata Sharma	10
4.	Surgical management in Allergic Eye Disease: Indications and Procedures	Murthy Somasheila I.	10
5.	Complications of ocular allergy and their management	Murthy Somasheila I.	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC49 - A video symposium on complex & complicated cataract surgeries

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Ballroom

Chief Instructor: D. Ramamurthy

Though cataract surgery has progressed exponentially & in routine surgeries a successful outcome is achieved by most surgeons most often, we do come across challenging & complex situations which test the decision making & surgical skills of the surgeon. It's in these situations that surgeon's dexterity & experience makes a difference. In this highly interactive video symposium, where every presentation of 5 minutes will be followed by 5 minutes of discussion by an experienced panel, practical points to deal with such situations will be brought out.

No.	Topic	Speaker	Min
1.	Lesson learnt, and overcompensated	Anurag Mishra	10
2.	Phaco in post vitrectomised eye	Chitra Ramamurthy	10
3.	Elevating complicated Cataract Surgery with Posterior Segment intervention	Mahipal S. Sachdev	10
4.	Phaco in run off rhexis	D. Ramamurthy	10
5.	Posterior capsular rent	Naren Shetty	10
6.	Post refractive phaco and compromised endothelium	J. S. Titiyal	10
7.	Rescuing aborted cataract surgeries	Gaurav Luthra	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC27 - Surgical management of pediatric cataract - Video-based learning

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room L-01

Chief Instructor: Jagat Ram

Course will cover the steps of pediatric cataract surgery for a novice surgeon, IOL power calculation simplified, when and where to place the IOL in children, management of pediatric subluxations, surgical tips and tricks for complicated pediatric cataract surgeries

No.	Topic	Speaker	Min
1.	Introduction to changing paradigms of pediatric cataract surgery	Jagat Ram	5
2.	When to suspect systemic disease in pediatric cataract?	Ramesh Kekunnaya	10
3.	Basic steps of pediatric cataract surgery for a novice pediatric surgeon	Parul Chawla Gupta	10
4.	Intraocular lens implantation in children- when and where to place?	Jaspreet Sukhija	10
5.	IOL power calculation simplified	Savleen Kaur	10
6.	Surgical tips and tricks for complicated pediatric cataract surgeries	Jagat Ram	10
7.	Management of pediatric subluxations	Lav Kochgaway	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC63 - Comprehensive Management of Diabetic Retinopathy

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room L-01A

Chief Instructor: Ajit Babu Majji

Main Objective is to educate PGs and GPs regarding Management of DR and help them, contribute towards Prevention of Blindness due to DR. Patients with PDR and DME associated with deranged systemic parameters. Details will be presented. Clinical presentation and classification, especially, Various grades of DR will be shown, so that audience can orient for an appropriate clinical staging. Role of diagnostic modalities in various grades of DR will be dealt with. Clinical examples to help attendees, identifying various Biomarkers and counsel for prognosis. PRP is the standard of care for PDR. The procedure, complications, follow-up and supplemental photocoagulation will be discussed. Role of Anti VEGFs and Steroids will be detailed along with pros and cons. Surgery is an option for advanced PDR and recalcitrant DME. Results and beneficial effects of Surgery will be discussed. By the end of the IC, the delegates will be confident in Management of DR at a Peripheral Center.

No.	Topic	Speaker	Min
1.	Systemic Parameters and Their Management In DR	Muthu Krishnan Vallinayagam	10
2.	Clinical presentation and classification in patient of DR	Ajit Babu Majji	10
3.	Diagnostic evaluation in DR and DME	Vishali Gupta	10
4.	Bridging the Gap: From controlled trials to Real world outcomes in DME management	Anubhav Upadhyay	10
5.	Lasers in DR and DME, management of recurrences	Ajay Aurora	10
6.	Role of Anti VEGFs and Steroids in PDR and DME	Chaitra Jayadev	10
7.	Surgical management of DR	Sangeet Mittal	10

The 84th Annual Conference of All India Ophthalmological Society

IC457 - Glass prescription in children

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room L-02

Chief Instructor: Meenakshi Ravindran

Refractive error is the most common cause for visual impairment and encompasses a significant amount of ocular morbidity all over the world. With increase in screen time, due to online classes, social media and gaming among the pediatric population, refractive errors, especially myopia has been on a rise. Prematurity and increased survival rates in preterm babies also add to the existing number of refractive errors. Furthermore, pediatric refractive correction is different from that of adults. The speakers will present an overview of refractive errors, general guidelines for glass prescription in children, management of special situations and update on recent advances in myopia management.

No.	Topic	Speaker	Min
1.	Introduction to refractive error	Bhavya Annadevula	10
2.	Clinical practice guidelines for prescribing glasses in children	Akila Chandrasekaran	15
3.	Glass prescription in special situations	Anjali Khadia	15
4.	Lens and frame selection for spectacles in children	Veena Kannusamy	12
5.	Recent advances in myopia management	Meenakshi Ravindran	12

Panel Discussion : 11 mins

The 84th Annual Conference of All India Ophthalmological Society

IC435 - One Goal, Many Strategies: Tailoring Lower Eyelid Aesthetic Interventions

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room L-04

Chief Instructor: Tarjani Dave

The lower eyelid plays a pivotal role in periocular aesthetics, and its rejuvenation demands a nuanced, individualized approach. This instruction course will explore the spectrum of surgical and non-surgical options available to address common lower eyelid aesthetic concerns—ranging from tear trough deformity and lid laxity to lower eyelid fat bags and festoons. Faculty will discuss the anatomical considerations, patient selection, and the art of combining techniques such as fillers, blepharoplasty, and canthopexy. Through case-based discussions and surgical videos, attendees will gain insights into bespoke treatment strategies for natural-looking outcomes. Whether in younger patients seeking enhancement or older individuals pursuing rejuvenation, this course emphasizes that while the goal remains consistent, the solutions must be diverse and customized. Ideal for oculoplastic surgeons, this session bridges artistry and precision in lower eyelid aesthetics.

No.	Topic	Speaker	Min
1.	Tailored Aesthetics: Assessment to Algorithm in Lower Eyelid Rejuvenation	Doctor Sumer Kumar	10
2.	Scarless Precision: Transconjunctival Fat Excision Techniques	Tarjani Dave	10
3.	Restoring Volume Harmony: Fat Repositioning Through a Conjunctival Route	Tarjani Dave	10
4.	Beyond the Lid: Transcutaneous Blepharoplasty with Midface Elevation	Kasturi Bhattacharjee	10
5.	Filling the Gap: Mastering Tear Trough Rejuvenation with Fillers	Akshay Nair	10
6.	Framing the Eye: Canthal Support in Aesthetic Lower Eyelid Surgery	Adit Gupta	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Beyond Monofocals - Presbyopia correction in Cataract Surgery

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room L-05

1. Naturo: Fulfilling patients need and desire - Krishna Prasad Kudlu
2. Femto Cataract with Naturo IOL - Blade free & Specs free - Gopal Arora
3. Refractive trifocal IOL (Auro Lab) - TBD
4. Triphobic-Continuous Range of Vision with the Triphobic HD IOL - Sorabh Bhargav
5. Magnificent Plus - Extended Range, Exceptional Clarity - Kamal B Kapoor
6. Magnificent Plus - To Meet the Need & Desire of the Patient - Sourabh Patwardhan
7. Empowering Vision: Transforming lives with Next-Gen IOL - Arulmozhi Varman
8. Beyond Standard Monofocal – The Smart Technology Shift (8') - Sartaj Grewal

Hall :	Meeting Room L-06 & 07

The 84th Annual Conference of All India Ophthalmological Society

IC539 - Retina Essentials for the General Ophthalmologist

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room U-01

Chief Instructor: Tinku Bali

This Session focuses on retinal issues pertinent to General Ophthalmologists, providing a comprehensive overview of common Retinal Conditions encountered in clinical practice. Emphasis would be placed on equipping General Ophthalmologists with the practical knowledge and skills necessary to effectively identify, diagnose, and manage retinal issues. Each talk will highlight useful practical tips, show illustrative case scenarios and emphasize clear take home messages.

No.	Topic	Speaker	Min
1.	OCT - What every anterior segment surgeon should know ?	Tinku Bali	8
2.	Screening the peripheral retina : How important is it before anterior segment surgery ?	Chaitra Jayadev	8
3.	How to recognise and manage Vein Occlusions ?	Mallika Goyal	8
4.	Diabetic retinopathy for the anterior segment surgeon	Tinku Bali	8
5.	Common macular pathologies you should not miss before cataract surgery	Anisha Seth Gupta	8
6.	Common posterior segment inflammatory conditions	Neha Mohan	8
7.	Cataract with uveitis -What to do ?	Abhilasha Baharani	8
8.	Intravitreal injections - How anterior segment surgeons can add to their practice ?	Ashish Lall	8

Panel Discussion : 11 mins

The 84th Annual Conference of All India Ophthalmological Society

IC530 - Rewriting the CXL Playbook: Protocols Beyond Dresden and Other CXL applications

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room U-01 A

Chief Instructor: Chintan Singh (Malhotra)

This instruction course will aim at discussing protocols in corneal cross linking which involve either (i) a different approach to traditionally accepted practices e.g. TGPRK followed later by transepithelial CXL instead of the simultaneous TGPRK + CXL approach (ii) evaluate the utility of newer riboflavin solutions e.g. Vit E TPGS (iii) explore the use of higher UVA fluence and oxygen in TECXL (iv) compare published results of the sub 400 CXL protocol for thin corneas with our own (v) alternative uses of CXL i.e. PACK CXL for keratitis. The emphasis will be to present our own clinical experience garnered through prospective, randomized, studies or well documented clinical scenarios. The aim of this IC is to encourage the audience to relook, rethink and weigh the pros and cons of the traditional vs the newer (potentially) transformative approaches such that they may explore these further and take informed decisions in their own clinical practices.

No.	Topic	Speaker	Min
1.	Introduction to the course	Chintan Singh (Malhotra)	5
2.	'Reversing the Sequence': TGPRK Followed by TECXL : A Paradigm Shift in Keratoconus Management ?	Deeksha Sharma	10
3.	The Vitamin E TPGS Advantage: A Gamechanger for Trans Epithelial CXL ?	Chintan Singh (Malhotra)	10
4.	Tailored UV for thin corneas: The Sub 400 CXL protocol	Amit Gupta	10
5.	High Fluence TECXL with O2 supplementation for Keratoconus: Clinical and ultrastructural outcomes	Divya Vani Challa	10
6.	Beyond Cross Linking for Ectasia: PACK CXL in Infectious Keratitis	Anchal Thakur	10

Keynote Address (8') : Crosslinking techniques: are we there yet? - Dalia Said

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC210 - All you want to know about the optic nerve: the window to glaucoma and neuro-ophthalmic disorders!

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Meeting Room U-02

Chief Instructor: Sushma Tejawani

Optic nerve is not only a window to ocular disorders but also to the systemic diseases. In this instruction course we will be discussing on one hand 'glaucoma' as an ocular disease and on the other hand 'neuro-ophthalmology' covering systemic disorders, where optic nerve is the key to the diagnosis. The course objective is to help general ophthalmologist develop the clinical skills to identify the various glaucoma and neuro-ophthalmology related issue commonly seen in routine practice, with appropriate tips using case examples, to clinch the diagnosis.

Further, this course also highlights the importance of ancillary tools like perimeter, optical coherence tomography and ultrasound for assessment of optic nerve for not only diagnosis, management planning but also monitoring the progression or regression. With the aid of ample glaucoma and neurological clinical examples, the course will enable the audience in decision making for reaching the diagnosis in glaucoma and neuro-ophthalmology.

No.	Topic	Speaker	Min
1.	Approach to unilateral and bilateral disc edema with management protocols	Jyoti Matalia	15
2.	Optic nerve evaluation in glaucoma: The DDLS and Masquerades in glaucoma	Sushma Tejawani	15
3.	When imaging comes to rescue – Use of OCT, Perimetry and B-scan, MRI in neuro-ophthalmology	Jyoti Matalia	15
4.	The Nerve fibre layer and the scotomas: Using OCT and perimetry in glaucoma	Sushma Tejawani	15
5.	Evaluating disc pallor: Is it glaucoma or neuro-ophthalmology	Jyoti Matalia	10

Panel Discussion : 5 mins

IC413 - Artificial Intelligence for better patient care and research

Date : 14-03-2026 (Saturday)

Time : 09:00-10:10

Hall : Meeting Room U-05

Chief Instructor: Dhanashree Ratna

Artificial Intelligence (AI) is rapidly transforming ophthalmic care by improving diagnostic accuracy, workflows, and enabling research. This instruction course is designed for junior ophthalmologists to explore the practical applications of AI in medical retina, glaucoma, cornea, and uvea with special emphasis on imaging, and clinical decision-making. Through interactive talks, participants will learn how AI algorithms interpret images, and other multimodal data, assist in early detection of diseases and support personalized treatment planning. The course will also highlight AI's role in research facilitating data analysis, biomarker discovery, and predictive modeling. A hands-on demonstrations of AI tools useful for research and thesis will be given. And ethical considerations will be integrated to ensure a balanced learning experience. By the end of the session, attendees will be equipped to evaluate and incorporate AI technologies into their practice and research.

No.	Topic	Speaker	Min
1.	AI in Glaucoma	Vineet Ratna	12
2.	AI in Corneal diseases	Namrata Sharma	12
3.	AI for Uveitis	Rupesh Agrawal	12

IC389 - Refractive Surgery Essentials: From Fundamentals to Frontiers

Date : 14-03-2026 (Saturday)

Time : 09:00-10:10

Hall : Meeting Room U-06

Chief Instructor: Virendra Agrawal

This instructional course provides a concise yet comprehensive overview of the current landscape of refractive surgery.

Participants will gain a structured understanding of the major refractive surgical options—PRK, LASIK, Keratolenticular Extraction, ICL, and Refractive Lens Exchange—through expert-led presentations, case reviews, and interactive discussions.

Emphasis will be placed on patient selection, pre-operative assessment, surgical planning, and post-operative management. Attendees will be able to understand when to operate, when not to operate and when to wait for refractive surgery. Attendees will explore the latest advances in laser technology, and learn how to optimize outcomes and manage common complications.

This course will deliver practical, evidence-based insights that can be immediately applied in clinical practice.

No.	Topic	Speaker	Min
1.	Pre-operative assessment, Case selection and Surgical planning	Neha Pathak	10
2.	Surface ablation : Relavance in current era	Mayank Agarwal	10
3.	Flap based procedures: LASIK, FemtoLASIK	Sandeep Vijay	10
4.	Keratolenticular Extraction: Recent advances	Virendra Agrawal	15
5.	Not fit for LASIK: What next?	Amit Mishra	10
6.	Refractive lens exchange: Are we near the holy grail?	Amit Mishra	10

IC62 - “Retinoblastoma 360°: From Diagnosis to Innovations in Globe Salvage and Survivorship”

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Atlantiis 1

Chief Instructor: Usha R.

Retinoblastoma (RB) is the most common intraocular malignancy in children, with significant implications for vision, survival, and quality of life. A multidisciplinary, stage-based, and individualized treatment approach is essential. This instruction course offers a comprehensive update on RB management across eight key areas: (1) Epidemiology and genetic basis, (2) Clinical presentation and early diagnosis, (3) Imaging techniques for diagnosis and staging, (4) Mimickers and differential diagnosis, (5) Systemic chemotherapy protocols and surgery, (6) Local therapies including intra-arterial/intravitreal chemotherapy, (7) Long-term follow-up, survivorship, and rehabilitation, and (8) Future directions including AI applications, gene therapy and outreach models. Attendees will gain enhanced skills in early detection, diagnostic precision, treatment planning, and long-term care coordination for children with RB.

No.	Topic	Speaker	Min
1.	Understanding the Epidemiological and Genetic Basis of Retinoblastoma	Usha R.	9
2.	Clinical Presentation and Early Diagnosis of Retinoblastoma	Anupam Singh	9
3.	Imaging Modalities in Retinoblastoma: Diagnostic and Prognostic Roles	Muthu Krishnan Vallinayagam	9
4.	Not All That Glows is Retinoblastoma: Differentials and Diagnostic Pitfalls	Indranil Saha	9
5.	Chemotherapy in Retinoblastoma: Indications, Protocols, Challenges and surgical management	Usha Singh	9
6.	Local and Advanced Ocular Treatments for Retinoblastoma	Renu Puthenvilayil Rajan	9
7.	Survivorship, Long-term Follow-up and Family counselling	Bharadwaj Lakkimsetty	9

IC186 - Controlling Myopia progression - what every practitioner must know

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Atlantiis 4

Chief Instructor: (Col) Shrikant Waikar

Myopia prevalence is increasing at an alarming rate. All Ophthalmic practitioners need to incorporate the myopia control measures into clinical practice to tackle the epidemic of Myopia. A number of modalities for myopia control are available for clinical use. Experienced instructors would cover all modalities in complete details. This would include myopia control strategies, lifestyle modifications, optical control such as bifocal contact lens, special glasses for myopia control eg Stellast, miyosmart and myocare glasses and pharmacotherapy including atropine. The role of Orthokeratology would be covered in details. In the end there would be a panel discussion and questions from course participants would be taken to clarify any doubts.

No.	Topic	Speaker	Min
1.	Myopia Epidemic and Concept of Myopia Control	(Col) Shrikant Waikar	10
2.	Natural history of Myopia and myopia control strategies.	Jitendra Nenumal Jethani	10
3.	Life Style Modulation for Myopia Control	Sagarika Patyal	10
4.	Pharmacological Control of Myopia Progression	Jaspreet Sukhija	10
5.	Optical Control of Myopia Progression	Rishikesh Mayee	10
6.	Role of Overnight Orthokeratology in Controlling Myopia Progression	(Col) Shrikant Waikar	10

Panel Discussion : 15 mins

IC456 - Keratopigmentation - When Science Meets Aesthetics

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Trade Room 1

Chief Instructor: Kunjal Sejpal

Corneal opacity and corneal decompensation in non seeing eyes, is a common cause of cosmetic concern amongst several young and elderly adults. Keratopigmentation procedure to enhance cosmesis, in disfigured corneas has been known for long. However, in the past few years, several new techniques have been introduced to improve the outcomes. We believe, that keratopigmentation procedure has a significant role in improving the cosmesis and self confidence in patients, not keen on using prosthetic contact lenses. It also has a functional role in reducing glare in case of large iris defects. The instruction course aims to discuss the patient selection criteria, various surgical techniques and dyes used, and management of complications of keratopigmentation procedure

No.	Topic	Speaker	Min
1.	Indications for keratopigmentation and dye selection	Priya Srinivas	8
2.	Surface pigmentation techniques	Kunjal Sejpal	8
3.	Intrastromal pocket techniques	Rishi Swarup	8
4.	Keratopigmentation using the Tattoo gun & innovative pocket technique	Aditya Pradhan	10
5.	Conjunctivoplasty with keratopigmentation	Quresh B. Maskati	8
6.	Keratopigmentation with Automated lamellar keratoplasty	Prateek Gujar Gujar	8
7.	Complications & Management	Kunjal Sejpal	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC359 - A to Z of Scleral Fixated IOLs Under One Roof

Date :	14-03-2026 (Saturday)
Time :	09:00-10:10
Hall :	Trade Room 2

Chief Instructor: Swapna Nair

Course aims to familiarise surgeons with the best pre and intra operative practices for optimal visual outcomes and longterm stability with SFIOLs alongwith tips to negotiate complicated situations. The various methods of implantation in current practice are elaborated. With each technique, the typical learning curve and tips to climb it smoothly are dealt with. How to manage complex situations in an already compromised eye that might have been subject to previous trauma or extreme manoeuvres, with the right kind of preparation and finally the tools required to manage complications that may arise in the course of the procedure is dealt with in this course. The faculty consists of experienced surgeons of international repute with years of experience in this field.

No.	Topic	Speaker	Min
1.	Introduction	Swapna Nair	5
2.	My Journey through scleral fixation of IOLs – adapting the procedure for a cataract surgeon	Agarwal Amar	15
3.	Sutured scleral fixated IOL A retina surgeon's perspective	Shishir Verghese	10
4.	Glued SF IOL classic method and drawbacks	Sandton J S Raj	10
5.	SFIOLs rejuvenated Yamane technique	Rajesh Sinha	10
6.	A novel method of scleral fixation of IOL	Swapna Nair	10

IC122 - Cataract Surgery Crisis Management 101

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room L-01

Chief Instructor: Vasavada Abhaykumar Raghukant

Present-day cataract management requires surgeons to not only incorporate newer technologies but also update their skills in managing complications. This course aims to identify complicated situations that any surgeon may encounter during or after cataract surgery and provides pearls to effectively manage such crises. It will illustrate critical management of issues such as posterior capsule rupture, phacoemulsification in challenging ocular environments, and dissatisfied premium IOL patients. Objective To provide troubleshooting pearls for successful management of different intraoperative and postoperative complications during cataract surgery. The attendees shall learn from the instructors' video case demonstrations and interactive discussion.

No.	Topic	Speaker	Min
1.	Cataract Surgery in eyes following VR surgery	Vasavada Abhaykumar Raghukant	10
2.	IOL Troubles	Samaresh Srivastava	10
3.	The Iris Issues	Lajja Shastri	10
4.	Challenging cases	Rushad Shroff	10
5.	Challenging cases	Shreyas Ramamurthy	10
6.	Dealing with Toric Troubles	Shail Vasavada	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC497 - Retina for residents

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room L-01A

Chief Instructor: Subina Narang

Residents are usually not very comfortable when they begin their journey into retinal diseases. A resident is expected to be proficient in a range of retinal investigations and also basic clinical skills. The instruction course will give essential knowledge, and tips and tricks for clinical skills by video demonstrations and interactive case presentations. Besides covering the basics of, it will cover modern imaging techniques. By the end of the course, the resident will identify normal retinal anatomy and will be confident in evaluating common retinal disorders.

1. Identifying anatomical landmarks and retinal zones; Tips and tricks of ophthalmoscopy 15 min
2. Reading an OCT scan 12min
3. Interpretation of Fundus fluorescein angiography 12 min
4. Multimodal imaging: need of the day 12 min
5. Common retinal conditions & their interpretation(interactive) 15min

No.	Topic	Speaker	Min
1.	Identifying anatomical landmarks and retinal zones; Tips and tricks of ophthalmoscopy	Subina Narang	15
2.	Reading and interpreting an OCT scan	DEEKSHA KATOCH	12
3.	Interpretation of Fundus fluorescein angiography	Subina Narang	12
4.	Multimodal imaging: need of the day	DEEKSHA KATOCH	12
5.	Common retinal conditions & their interpretation(interactive)	Mangat Ram Dogra	15

The 84th Annual Conference of All India Ophthalmological Society

IC200 - Congenital Anomalies of the Orbit and Adnexa – Simple to Complex!

Date : 14-03-2026 (Saturday)

Time : 10:15-11:25

Hall : Meeting Room L-02

Chief Instructor: Neelam Pushker

Congenital anomalies of the orbit and adnexa are a rare presentation. Oculoplastic surgeons primarily manage these conditions; however, general ophthalmologists should also be familiar with them. This not only facilitates timely referral and saves vision but also aids in the detection and management of systemic associations. The common congenital orbital anomalies are in patients with craniosynostosis, Tessier clefts, and microphthalmia/anophthalmia. Among adnexal anomalies, full-thickness eyelid defects, lid margin abnormalities, and anomalies of palpebral aperture/folds are frequently encountered.

A multidisciplinary approach is essential, and referral to a pediatrician for genetic analysis and systemic associations is important. The rarest of rare entities are experienced once in a lifetime. Through this interactive video-assisted course, we will share our experience on the varied clinical presentations of congenital entities.

No.	Topic	Speaker	Min
1.	Applied Embryology & Anatomy – Basics Help!	Saurbhi Khurana	10
2.	Common Congenital Anomalies – What & When?	Sahil Agrawal	10
3.	Rare Congenital Entities – Dwelling deep?	Rachna Meel	10
4.	Interesting Cases – Not to be missed!	Maya Hada	10
5.	Emergency case scenarios	Neelam Pushker	10
6.	Rarest of Rare Cases– Lifetime Opportunity!	Neelam Pushker	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC109 - Courtroom Drama

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room L-03

Chief Instructor: G. Mahesh

General outline: Part 1: Where it all starts – how to respond to a legal notice. Legal notice discussion points

1. What is it? - Still in the pre-litigation stage
2. What should I do?
3. Can I reply by myself without a lawyer?
4. How should I reply?
5. Should it be detailed or should I summarily reject all claims?
6. What if I do not reply?

Part 2: Enacting an actual case that is currently in the state medical commission Endophthalmitis

Part 3: Learning from judgements –

1. Limitation period for filing cases and maintaining records?
2. Why file in the national commission?
3. Does treating a differential diagnosis amount to negligence?
4. Is error of judgement negligence?
5. Bolam test and Bolithos test. Scenario in Indian courts.
6. Now how can I prove that I am right?
7. When does the court constitute a medical board?
8. How is compensation calculated?
9. Will I win this case?

Conclusion: Judgement of Part 2 and Q&A from audience

No.	Topic	Speaker	Min
1.	Where it all starts	G. Mahesh	10
2.	Directing court room drama	Ashok Nataraj	15
3.	Directing court room drama	Anand Vinekar	10
4.	Enacting court room drama	Gopal S. Pillai	10
5.	Enacting court room drama	Sreeni Edakhlon	10

IC149 - The Oculoplastics secrets –‘Decoded’

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room L-04

Chief Instructor: Mukesh Sharma

We intend to present an IC where emphasis will be given to step by step teaching of complex oculoplastic conditions with the help of Video demonstration . We have included some of the most puzzling Oculoplastics surgical procedures like Neurofibromatosis , Blepharophimosis Syndrome, Malignant lacrimal Gland tumours , Craniosynostosis and Complex orbital trauma. All our presenters have extensive teaching experience & are highly trained in the subject . We aim to create a true classroom environment in our IC , where every step of these baffling surgical procedures will be simplified & explained in a manner that all attendee can absorb them in their clinical practice. Our primary emphasis will be on highlighting the intricacies of these entities and providing with their solution with the help of Video based skill transfer . We have also kept 3 minutes of discussion after each talk to clear all possible doubts.

No.	Topic	Speaker	Min
1.	Neurofibromatosis -demystified	Fairooz Puthiyapurayil Manjandavida	9
2.	Blepharophimosis Syndrome - Management pearls	Mukesh Sharma	9
3.	Craniosynostosis -Decoded	Kasturi Bhattacharjee	9
4.	Tackling Complex orbital trauma - Dr A. K. Grover	Ashok Kumar Grover	9
5.	Malignant Lacrimal Gland Tumours -A systematic approach	Santosh G. Honavar	9
6.	Complicated Socket reconstruction	Sethi Anita	9

Hot Topics in Glaucoma : The Grand Glaucoma Debate of AIOS 2026

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room L-06 & 07

Panelist : Tarek Shaarawy, Benjamin Xu, Shamira Perera, Mohammed Alhemyari

Moderator : Amit Porwal

Each talk: 4 minutes duration.

Debate summary: 2 minutes duration.

Comment by Panelist: 4 minutes duration.

1. Escalating treatment in eyes with OCT-RNFL progression alone without visual field deterioration: YES - Riddhi Shah Dharia. (AIOS Membership No: S16595)

Escalating treatment in eyes with OCT-RNFL progression alone without visual field deterioration: NO – Saumendranath Ghose.

Debate Summary: Escalating treatment in eyes with OCT-RNFL progression alone without visual field deterioration. – Alokesh Ganguly.

2. Medically uncontrolled moderate glaucoma: MIGS. – Sasmita Das.

Medically uncontrolled moderate glaucoma: Trabeculectomy. – Vijay Shetty.

Debate summary: Medically uncontrolled moderate glaucoma: MIGS vs Trabeculectomy. – Deshpande Nitin Suhas.

3. Trabecular bypass: Stenting is better. – Reena Manchanda Choudhry.

Trabecular bypass: Cutting is better. – Aparna Rao.

Debate summary: Trabecular bypass: Stenting vs Cutting. – Dipanjan Pal.

4. GATT 360 Degrees Is the Most Effective Trabecular MIGS – Dr Madhavi Ramanatha Pillai.

Limited Angle Surgery [KDB/BANG] Is a Better Option Than GATT- Dr Dodum Tara Techhi.

Debate Summary: GATT 360 Degrees vs. Limited Angle Surgery – Dr Devendra Maheshwari.

5. Progressive normal tension glaucoma, is there a role for surgery? Yes. – Dr Arnav Panigrahi.

Progressive normal tension glaucoma, is there a role for surgery? No. – Dr Gazella Bruce Wajri.

Debate Summary: Progressive normal tension glaucoma, is there a role for surgery? Yes / No. – Dr Shantha Balekudaru.

IC440 - Diabetic Retinopathy(DR) Key Concepts: Brick by brick: Basics till 2026: with AI and newer DRCR data

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room U-01

Chief Instructor: Ajay Aurora

India is amidst an epidemic of Diabetes Mellitus with larger number of DR and VTDR (VisionThreatening DR) patients .This course will present a stepwise approach in managing DR from the basics to recent developments.You will learn about:

- 1) Clinical tips of early diagnosis of DR, PDR & role of Multimodal Imaging
- 2) Pathophysiology of DR, importance of metabolic control and upcoming VTDR biomarkers with point of care tests
- 3) Learnings from the Clinical Trials and recent data of DRCR.net
- 4) Antivegf: Which, Why and When?
- 5) Role of Steroids: When to administer, routes of delivery
- 6) Role of Lasers (Conventional, Micropulse, Navilas) with Pros & Cons
- 7)Vitrectomy in DR: Indications,timing & technique
- 8) Nuances of Cataract Surgery in DR
- 9) How AI is shaping our approach & future role in DR?

This will be a practical case based course with multimodal Imaging , videos & take home messages.

We will share an algorithmic approach with handouts enabling attendees manage DR confidently

IC522 - High Volume Experience of Femtosecond Laser Assisted Cataract Surgery: Our Learnings.

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Meeting Room U-02

Chief Instructor: Himanshu Rasiklal Mehta

We aim to showcase our leanings for using the Femtosecond Laser for Cataract Surgery.

What to do if you have a posterior polar cataract?

What to do in a Brown or a white Cataract?

How to take advantage of this laser in a small pupil?

When not to use the Femtosecond Laser for your cataract surgery?

Our high volume experience will showcase various case based examples to understand the concept better.

The attendee will be more confident on how to make use of the Femtosecond Laser in difficult cases.

At the end of the course, the attendee will have in depth knowledge about how and when to use the Femtosecond Laser for Cataract Surgery.

No.	Topic	Speaker	Min
1.	FLACS in Posterior Polar Cataract - Pearls & Pitfalls	Rohan Mehra	10
2.	FLACS in Black/Brown Cataracts - Addressing the condundrum	Himanshu Rasiklal Mehta	10
2.	Using FLACS for Astigmatism Correction	Om Parkash Rohit	10
4.	Patient selection in FLACS - The most important step	Pooja Mehta	10
5.	Guide to opening the FLACS incisions: Pearls and Pitfalls	Shail Vasavada	10
6.	When not to use FLACS - Contraindications learnt over the years	Partha Biswas	10

The 84th Annual Conference of All India Ophthalmological Society

IC291 - Future of ophthalmology practice in India- future imperfect

Date : 14-03-2026 (Saturday)

Time : 10:15-11:25

Hall : Meeting Room U-05

Chief Instructor: Rajesh Sahay

Healthcare is at crossroads today . There are two extreme thoughts. First is that ,it is a “commodity to be sold” while second is that it's “a basic social right” . The reality lies some where in between . Policy makers cannot deny that the doctor has a right to livelihood while the doctor cannot deny that medicine cannot be just another profession. In this IC , we will navigate the challenge of perception by the policy makers, society and the challenge being faced by ophthalmologist. The ophthalmologist in future is going to face growing challenges from govt welfare schemes, NGOs , corporates, Artificial intelligence, social media , ethical dilemmas and a cynical public.

No.	Topic	Speaker	Min
1.	Long and short term affect of Ayushman, ABPMJY, Corporates in middle rung towns	Anita Ambasta	10
2.	Future of ophthalmologic training	Abhijit Chattopadhyay	10
3.	How AI and social media affect ophthalmology as a whole and practice in particular	Rajesh Sahay	10
4.	Drug trials - a complex ethical landscape	Prasad Nagendra	10
5.	Deciphering the prospects of new generation ophthalmologists- do they need to reinvent	(Mrs.) Indu Pandey	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Hoya - Masters Film Festival

Date :	14-03-2026 (Saturday)
Time :	10:15-11:45
Hall :	Meeting Room U-06

Chairperson : Noshir Minoo Shroff

Moderator: Namrata Sharma

Distinguished Panel:

J S Titiyal

S. P. S. Grewal

Sri Ganesh

D. Ramamurthy

1. Namrata Sharma - Welcome and Introduction - 7 Mins
2. Durval M. Carvalho Jr - Real live vision of my patient across lighting condition - 10 Mins
3. Supriya Sriganesh - Defining Visual Quality and spectacle freedom - 10 Mins
4. Sartaj Gerewal - Key Innovations Transforming My Cataract Surgery Outcome - 10 Mins
5. Ashvin Agarwal - Precision in IOL Implantation for Better Outcomes in Complex Eyes - 10 Mins
6. Namrata sharma - Helping you along the path to ophthalmic surgical mastery - 10 Mins
7. Namrata Sharma - Discussion and Close - 5 Mins

The 84th Annual Conference of All India Ophthalmological Society

IC424 - A video bouquet of tough retinal surgeries

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Atlantiis 1

Chief Instructor: A.S. Guruprasad

Retinal Surgery Frequently Entails Tough Situations Such as Adherent Membranes in Diabetic Vitrectomies and Pvr Surgeries, Tenacious Vitreous, Thin Atrophic Retinas and Refractory Macular Holes, to Name a Few. This Ic is a Completely Video- Based Show on Tough Surgical Situations and the Ways to Navigate Them in Various Types of Surgeries. We Will Show-Case Diabetic Tractional and Combined Retinal Detachments, Surgeries for Severe Pvr, Pediatric Retinal Surgeries, Refractory Macular Holes and Management of Membranes Under Silicon Oil. The Speakers Are Astute Vitreoretinal Surgeons with Decades of Experience in the Field of Vitreoretina.

No.	Topic	Speaker	Min
1.	Combined Retinal Detachments- Tips and Tricks	A.S. Guruprasad	12
2.	Resurgery, Re-Re Surgery and Re-Re-Re Surgeries in Cases	Sachin Mahuli	12
3.	An Approach to Re Detachments Under Silicon Oil	Apoorva A.G.	12
4.	management of refractory macular holes	Shrinivas M. Joshi	12
5.	Challenges in Pediatric Retinal Detachments	Apoorva A.G.	12

Keynote Address (8') : Surgical challenges in diabetic TRD patients - Tariq Reza Ali

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC415 - FIX THE MUSCLE – All About Iris

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Atlantiis 4

Chief Instructor: M. Ravishankar

Patients with partial or total iris loss, whether from congenital, traumatic or other causes, suffer from varying amounts of visual disability. The visual dysfunction may vary from mild to severe and includes glare, photophobia, reduced visual acuity and contrast sensitivity loss. In addition, significant cosmetic issues may also be present, especially when the patient has a light-colored iris. The repair options available to the surgeon depend upon the extent of iris tissue loss. This can conveniently be described in terms of clock hours or quadrants of loss. It can be managed by a simple suture technique such as McCannel or Siepser technique. Larger defects can be managed by Iris prosthesis. Abnormalities of pupil size, shape and location may also be reasons for pupil reconstruction. Abnormalities of pupil size range from an absent pupil to a large unresponsive pupil. These can be managed by iris encirclage or by using artificial iris devices.

No.	Topic	Speaker	Min
1.	MANAGEMENT OF IFIS	Mohan Rajan	15
2.	MANAGEMENT OF ANIRIDIA	Sujatha Mohan	15
3.	SMALL PUPIL - EASY STRATEGIES	M. Ravishankar	15
4.	SINGLE PASS FOUR-THROW PUPILLOPLASTY AND PINHOLE PUPILLOPLASTY	Nivean M	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC29 - From Blindness to Brightness: SLET's Journey of Hope...

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Trade Room 1

Chief Instructor: Tuhin Chowdhury

Acquired Limbal Stem Cell Deficiency (LSCD) is on the rise because of more industrialisation and mostly due to chemical or thermal injuries—particularly chuna (lime)—and some inflammatory ocular surface diseases. For patients who cannot access or afford laboratory-based cultured limbal stem cell therapies (CLET), Simple Limbal Epithelial Transplantation (SLET) has emerged as a practical, cost-effective, single-staged and sight-restoring alternative both in unilateral or bilateral LSCD.

This course, led by experienced SLET surgeons, offers a comprehensive, video-based, step-by-step guide to mastering the procedure. It will highlight the technical nuances, intra-operative pearls, postoperative strategies, and how to navigate challenges unique to different SLET variants. Whether you're just starting out or looking to refine your skills, this session will equip you with the tools to perform SLET more confidently and successfully.

No.	Topic	Speaker	Min
1.	Brief overview of LSCD and its spectrum of management	Paras Mehta	8
2.	Pre-operative evaluation and patient selection for SLET	Ashok Sharma	10
3.	The Classical way of doing SLET and its modification	Tuhin Chowdhury	15
4.	Different Complications of SLET and their management	Vikas Mittal	15
5.	Different variants of SLET and its use in conditions other than chemical injuries	Vinay S.	12

Guest Talk (8') : Short-term outcomes of corneal epithelial reconstruction in patients with bilateral limbal stem cell deficiency using paralimbal oral mucosal epithelial transplantation - Aslan Geliastanov

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

YOSI session 3 : GPS for your Greatness-You are in the driver seat

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Trade Room 2

Chairpersons: Sonal Kalia, Nupur Goel

Panelists: Nilesh Kumar, Arshi Singh, Samhitha HR

Moderator: Sunandini Bose

1. Building a resume that stands out for fellowship/job interviews-5 simple step - Gunjan Budhiraja - 8 mins
2. From Nervous to Hired-how to ace any job interview - Mainak Bhattacharyya - 8 mins
3. Blue prints for success:rising through the ranks in medical education - Prateek Nishant - 8 mins
4. Serving with purpose:unlock your full 'potential in semi-charitable hospital career - Sameer Chaudhary - 8 mins
5. White Coats and Big Leagues:succeeding in corporate Healthcare - Harshal Sahare - 8 mins
6. Pooling Skills,sharing success:Team Based Ophthalmic Practice Models - Anujeet Paul - 8 mins
7. Career planning tips and tricks - Gaurav Gupta - 8 mins

Discussion 19 mins

The 84th Annual Conference of All India Ophthalmological Society

MAGIC OF SICS 2

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Trade Room 3

Chairperson : Amulya Sahu

Co chairpersons : Lalit Verma, Barun Nayak

Conveners : BNR Subudhi, Santosh Bhide

Moderator : Jayashree Baruah

Discussants : Mohan Rajan, Inder Mohan Rustagi, Satish Premchandani, Ashok Nanda

1. Introduction - Amulya Sahu - 2
2. SIA to SCA in SICS: My journey - Manisha Rathi - 6
3. Dr Sahu's 2mm MSICS: My Experience - Karamjit Singh - 6
4. Wound Ergonomics of 2 mm MSICS - Nilutparna Deori - 6
5. Decoding Dr Rajeev Raut's Smart SICS: Technique & Technology - Jagdeep Kakadia - 8
6. MSICS in Complex Situations - Deepak Megur - 6
7. MSICS: A saviour for Phacosurgeon - Suhas Haldipurkar - 6
8. Excellence in IOL Surgery - Ramesh C Shah - 6
9. Optimising Phakic IOL Surgery - Anagha Heroor - 6
10. Secondary IOL Options after MSICS - M Nivean - 6
11. Discussion - 17

The 84th Annual Conference of All India Ophthalmological Society

ACOIN Session - II (Reach The Unreached)

Date :	14-03-2026 (Saturday)
Time :	10:15-11:25
Hall :	Trade Room 4

Convenor : Satanshu Mathur

Chairpersons : Lalit Nepalia, Awadh Dubey, Sushil Rungta, B N Gupta, B N R Subudhi,

Lakesh Madharia, Sudhir Mahashabde, Sarita Agrawal, Kavita Bhatnagar,

Tejinder Singh Aluwalia, Urmil Chawla

Moderator : J K S Parihar

Preamble : Swapan Kumar Samanta (8 Mins)

Introduction : Satanshu Mathur (5Mins)

FOCUSTALK : Awadh Dubey (20 Mins)

Key Note Speaker : Asim Kumar Sil (15Mins) : Understanding the eye care need of the Community

1. Addressing Cataract Blindness in India: Challenges and Strategies - G V Davakar
2. Praveen Vashist :
3. Community eye Health Scenario in the Gangtritic Delta of South Bengal- Billeswar Samanta
4. Teleophthalmology-Reaching the Unreached Rural Villages- Sanjay Daulat Thakur
5. Netra Antyodaya - Reaching For The Unreachable in India- Arvind Morya
- 6 . Awareness and screening for Diabetic Retinopathy-Role of Teleophthalmology - B N R Subudhi

Concluding Address : Lakesh Madharia (3 Mins)

Take Away Message : Suresh Raman Rao (2Mins)

The 84th Annual Conference of All India Ophthalmological Society

Telangana Ophthalmological Society (TOS)

Date :	14-03-2026 (Saturday)
Time :	10:30-11:40
Hall :	Atlantiis 3

Chairpersons : Santosh Honavar, Manoj Mathur

Conveners : Rishi Swarup, Rajalingam Vairagyam

1. Primary Congenital Glaucoma: My 35 year experience - Anil K. Mandal - 6 min
 2. Canalicular tears management - Modini P - 6 min
 3. Oscillating Eyes: What next? - Y. Raman - 6 min
 4. EDOF: Understanding the Hype around trending IOLs - Poojitha V.K. - 6 min
 5. Repurposing Topical Insulin for corneal scars - Charuta Puranik - 6 min
 6. Intumescent Cataract - Never lose a rhexis again - Rishi Swarup - 6 min
 7. DMEK in ICE syndrome - Prabhakar - 6 min
 8. Management of Fungal Keratitis - Srinivas Prasad - 6 min
 9. Peri-operative antibiotic endophthalmitis prophylaxis - Arvind K Morya - 6 min
 10. Progressive lenses and limitations - Katta S. V - 6 min
- All - Discussion - 10 min

The 84th Annual Conference of All India Ophthalmological Society

Physician , Heal Thyself: Caring for the Caregiver

Date :	14-03-2026 (Saturday)
Time :	10:30-11:30
Hall :	Glassroom (Atlantiis)

Chairperson : Ashok Singh

Co Chairperson : Rama Dubey

Moderator : Poonam Jain

Panelists : Sailesh Lodha, Anshu Kabra, Kavita Verma

1. Protect your Heart: A Cardiologist's Guide for Ophthalmologists - Anshu Kabra - 15 Mins
2. Diabetes in Doctors: Prevention and Management - Sailesh Lodha - 15 Mins
3. Managing Weight and Lifestyle Diseases through Diet - Kavita Verma - 15 Mins

Discussion 15 minutes

The 84th Annual Conference of All India Ophthalmological Society

PP - External Eye & Ocular Surface Disease

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Rahul Bhargava, Aditi Sood, Tulika Ghoshal, Nasrin, Indu Pandey

1. [FP21] - TO ASSESS THE RELATIONSHIP BETWEEN GRADE OF PINGUECULA AND DRY EYE

Chief & Presenting author : Bimalesh Ojha (O25208)

2. [FP146] - Role of skin prick test in Allergic eye diseases-an overlooked modality

Chief & Presenting author : Deergha Pareek (D23659), Neeraj Shah

3. [FP174] - SPECTRUM OF OCULO-AURICULO-VERTEBRAL ANOMALIES: A GOLDENGHAR SYNDROME CASE SERIES

Chief & Presenting author : Prolima Thacker (T15237), Richa Agarwal, Preeti Gupta, Shikha Agarwal

4. [FP208] - Crab Lice Off Course: A Case Report of Ectopic Pthirus pubis Infestation

Presenting author : Saxena Naman (N27877), Chief author : Prolima Thacker, Vineet Kumar Harihar Yadav, Himali Agarwal, Gayathiri Ravikumar

5. [FP254] - “The Tale the Tail Left Behind: A Rare Meibomian Encounter”

Chief & Presenting author : Brinda K (B29986), Chandrakanth K.S., Prithvi Chandrakanth

6. [FP293] - Dermoid cyst of the Caruncle :A Case Report

Chief & Presenting author : Neeraj Kumar (K30771), Nishant Kumar

7. [FP392] - Evaluating the role of argon laser on pterygium surgery: Report of 46 patients

Chief & Presenting author : Dhrubojyoti Sarker (S18247)

8. [FP529] - Simple Oral Mucous Membrane Epithelial Transplantation (SOMET)

Chief & Presenting author : Mariya Doctor (M24930), Sayan Basu

9. [FP694] - Optimising keratopigmentation results: Analysing 3 years' successes and pitfalls

Chief & Presenting author : Raj Shekhar Paul (P20239)

10. [FP788] - Role of Lid Margin Mucous Membrane Grafting in Managing Stevens-Johnson Syndrome Sequelae

Chief & Presenting author : Prabhakar Singh (P17805)

11. [FP1081] - Conjunctival Lymphangiectasis - a rare Photo Presentation.

Chief & Presenting author : DHALIWAL RANJIT SINGH (D02785), Kunwar Vikram Singh Dhaliwal

12. [FP1140] - PEEL,SEALand HEAL:Post operative course and Interventions in Conjunctival autograft with Autoblood

Chief & Presenting author : Madhuri Parande (P17089), Raghavendra Ramappa

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1259] - OCULAR DIROFILARIASIS- CASE REPORT OF A RARE MALADY

Chief & Presenting author : Mayur Aitwar (A27238), Anureet Gill, AJAY KUMAR SHUKLA, Smita Singh

14. [FP1273] - Autoimmune Bilateral sclerokeratitis :A case report highlighting Autoimmune ocular Associations

Presenting author : Sruthi Malkapuram (S31317) ,Chief author : *Thasneem Suraiya*

15. [FP1334] - Title: Ocular manifestation of IFAP syndrome in a 7 year old male:A rare case report

Chief & Presenting author : Chandrima Dasgupta (C27362), SUSHMA S

16. [FP1462] - AI-Enhanced Stratification of Tear Film Biomarkers for Subclinical Dry Eye Detection.

Chief & Presenting author : Pooja Khamar (K17849), Swaminathan Sethu

17. [FP1473] - Itchy Eyes, Itchy Scalp : Unveiling Ocular Changes in Scalp Psoriasis.

Presenting author : Pranav Prabhu (P28467) ,Chief author : *Ksheeraja.Y*, Vidya J

18. [FP1950] - Tear Talk : Spotting Early Ocular Surface Changes in Diabetes

Chief & Presenting author : Barath Arjun (A27144), Mariya Banu Ranjini SRIDHARAN, Venkatesh S.

19. [FP1973] - Peripheral ulcerative keratitis systemic association and visual outcome: A case series

Presenting author : Tareeta Biswas (T29609) ,Chief author : *Amit Raj*, Nimish Singh

20. [FP2125] - TO ASSESS DRY EYE STATUS IN T2 DM AND ITS INTERCONNECTION WITH SEVERITY OF DIABETIC RETINOPATHY

Chief & Presenting author : Pragma Prathama (P28592), Monika Barik

21. [FP2187] - Demographic profile and clinical spectrum of Ocular Stevens Johnsons Syndrome-A Retrospective Study.

Chief & Presenting author : Surbhi (S26200), Nisha Jha, Rakhi Kusumesh

The 84th Annual Conference of All India Ophthalmological Society

PP - Trauma

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Birendra Prasad Kashyap, Partha RANA, Raj Kumar Sharma, Jyoti

1. [FP37] - Impacted wooden foreign body in deep orbit survive eyeball and vision in children: A case series

Presenting author : Sarbaraj NAG (N27509), Chief author : *Salil Kumar Mandal*, Salil Kumar Mandal

2. [FP212] - Spectrum, Management, and Prognosis of Open Globe Injuries: Insights from a 101-Case Series

Chief & Presenting author : Anupam Singh (S24626), Nidhi Tomar

3. [FP341] - THE EYE THAT VOTED – UNUSUAL CASE OF INDELIBLE INK OCULAR INJURY

Chief & Presenting author : Shirley Felishya (S30015), Sadhasivam Nehru, Loganathan M., S. Arumuga Nainar

4. [FP354] - Eyelid Injury Pattern & Management Outcome in A Tertiary Care Centre

Chief & Presenting author : Neha Kumari (N21013), Rashmi Kumari, Anita Ambasta, Gyan Bhaskar

5. [FP376] - Managing Corneal Perforations During COVID-19: Real-World Strategies from a Tertiary Centre in India

Chief & Presenting author : Karan Bhatia (B15311), (Col) Madhu Bhaduria, Prasanna Venkatesh Ramesh, Nikunj Tank

6. [FP583] - AN UNUSUAL CASE OF PARTIAL SUPERIOR ORBITAL FISSURE SYNDROME WITHOUT ORBITAL FRACTURE

Chief & Presenting author : Anushree Tripathi (A30615), Eva Rani Tirkey

7. [FP607] - Sequential Surgical Approach in a Case of Penetrating Ocular Trauma with Intraocular Foreign Bodies

Chief & Presenting author : Gayatri Lele , Neha Desai

8. [FP1071] - Orbital cellulitis post-traumatic lower lid full thickness laceration

Chief & Presenting author : Manu Priya (M25794), Renukha J, Dev Kant, Sony Sinha

9. [FP1248] - Paediatric Ocular Trauma: A Silent Threat to Vision in the Developing Eye

Chief & Presenting author : Ankita Aishwarya (A20469)

10. [FP1318] - Adjacent Iris & Scleral cyst with secondary glaucoma: Unmasking old wounds

Chief & Presenting author : Adarsh Keshari (K25995), Abhijay Luthra

11. [FP1362] - From Hook to Healing: Approach for a Penetrating Fish Hook -Eye Injury

Chief & Presenting author : Sibendu Maharana (M29872), Ramamani Dalai, Shalini kumari

12. [FP1650] - CLINICAL STUDY OF OCULAR MANIFESTATIONS OF BLUNT TRAUMA IN TERTIARY CARE CENTRE RANCHI

Chief & Presenting author : Md Nasir Khan (K30689), Rashmi Tirkey

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1770] - From entry to exit: Clinical course of intraocular foreign body in a case series.

Chief & Presenting author : Pinank Kharkande (K26087), Saravanan VR, Palmeera D'Souza

14. [FP1876] - Sympathetic Ophthalmitis

Chief & Presenting author : Arpita Mondal (A30797), Pratyush

15. [FP1958] - A CASE REPORT ON SYMPATHETIC OPHTHALMITIS

Chief & Presenting author : Ashima Mehndiratta (A27586), Madhav Goel, Silka Gupta

16. [FP1985] - Management of bee sting injury.

Chief & Presenting author : Bruttendu Moharana (M17311)

17. [FP1997] - OCULAR TRAUMA FOLLOWING RTAs : A TERTIARY CARE PERSPECTIVE

Chief & Presenting author : Purba Nath (P30812), Debarnab Dey, Tultul Das, Tanveer Ahmed

18. [FP2033] - CORNEAL CATASTROPHE AVERTED : A TALE OF TIMELY CHEMICAL BURN MANAGEMENT

Chief & Presenting author : Mahmudul Hassan (H30809), Tultul Das, Mohammad Saleem, Ankur Baruah

19. [FP2086] - Study of Blunt Ocular Trauma in a Teaching Hospital: Retrospective Review of 226 Cases.

Chief & Presenting author : Pranjuli Tyagi (P30367), Shivangi Singh, Shubhangi Gupta, Anuj Yadav

20. [FP2209] - Cricket Ball to Macular Fall: Surgical Rescue in Traumatic Macular Hole

Chief & Presenting author : Abhijeet Sahoo (S30991), Elisa Nanda, Anita Misra, Tarun Kumar Panda

The 84th Annual Conference of All India Ophthalmological Society

PP - Comprehensive Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Choudhary Kashinath Ganpatrao, Sanjay Mishra, P Ravi Kumar, Mukesh Kumar Taneja

1. [FP40] - WAARDENBURG SYNDROME TYPE 3: A RARE CASE REPORT

Chief & Presenting author : V. Ramana Murthy (R22399)

2. [FP167] - Comparison of peribulbar and subtenons block for macular surgeries

Chief & Presenting author : Arthi M (M17884), Mohan Rajan

3. [FP329] - Faricimab in Recalcitrant Choroidal Neovascular Membrane- A Real World Scenario

Chief & Presenting author : Rishab Bairagi (B28610), Debasis Bairagi

4. [FP837] - Novel Local Exhaust Ventilation System(nLEVS) for reducing patient expired air contamination of OR

Chief & Presenting author : Ajay Aurora (A03243), Ayushree Yadav, Arjun Aurora, Ritu Aurora

5. [FP878] - Flip side of coin - Low dose atropine(0.01%) in Digital Eye Syndrome(DES)

Chief & Presenting author : Prasad Nagendra (N06837), Ankit Prasad

6. [FP933] - Seropositivity of Blood borne viral infections and their risk factors in patients of Ocular Surgery

Chief & Presenting author : Lipi Chakrabarty (C13692)

7. [FP1070] - Seeing the Unseen: Multimodal Imaging of an Asymptomatic Iris Cyst

Chief & Presenting author : Mekhla Naik (N18166)

8. [FP1236] - Sharp Realities: Analyzing Needle Stick Injuries at a tertiary eye-care hospital

Chief & Presenting author : Disha Agarwal (D25720), Shalini, Sheena Sonkhiya, Meenakshi Dogra

9. [FP1395] - Effectiveness of Video versus Verbal Counselling with 'Teach-back' in Oculoplastic Surgery Patients

Chief & Presenting author : Nishant Maindargi (M26432), Dayakar Yadalla, Jayagayathri Rajagopalan

10. [FP2154] - Intriguing Ocular "Bleeding": A Rare Presentation of Munchausen Syndrome

Chief & Presenting author : Rouli Sud (R23639), Savita Chahal, Sumeet Khanduja

11. [FP2314] - A study of ocular manifestations of rheumatoid arthritis in a tertiary care hospital in East India

Chief & Presenting author : Udbuddha Dutta (D22142)

12. [FP2378] - Ikshana- Revolutionising Post-Graduate Ophthalmology Training

Chief & Presenting author : Bina John (J07631)

<https://www.facebook.com/AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

PP - Cataract

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Sandepan Bandopadhyay, Madhusmita Das, DHALI WAL RANJIT SINGH, Ramlal Sharma, Dharmendra Nath

1. [FP43] - EFFECT OF OPPOSITE CLEAR CORNEAL INCISION v/s STEEP MERIDIAN INCISION ON PRE EXISTING ASTIGMATISM

Chief & Presenting author : Vinayak Damgude (D16462), Pavan Vijaykumar Lohia

2. [FP203] - 2% Rocuronium addition with lignocaine in peribulbar block for cataract surgery

Chief & Presenting author : Rajneesh Singh (S24545)

3. [FP217] - A Novel Contact Lens-Shell Technique for Endothelial Safety in High-Risk Cataract Surgeries.

Chief & Presenting author : Dineshkumar Nathalal Maru (M15363)

4. [FP422] - COMPARATIVE ANALYSIS OF KA, TCRA & IMPACT OF PCA IN LOW& HIGH ASTIGMATISM FOR TORIC IOL OPTIMIZATION

Chief & Presenting author : Nawab Zishan Farooqui (F13772), (Mrs.) Kiran Bhanot

5. [FP479] - Anterior Lenticonus Unmasks Alport Syndrome in a Female with CKD

Chief & Presenting author : Priyanka Yadav (P29438), Tarun Soni

6. [FP503] - Assessment of surgical and visual outcomes in cases of posterior polar cataract.

Chief & Presenting author : Mahak Bansal (M29481), Ashish Chander, Priye Suman Rastogi

7. [FP651] - "Scleral Tuck and Iris Tie: A Cionni-Free Fixation in Grossly Subluxated Cataracts"

Chief & Presenting author : Navaneeth Saggam (S28102)

8. [FP692] - Reversal of Fortune: Managing a flipped IOL induced glaucoma crisis

Chief & Presenting author : Md Alban Uddin (U27218), Madhu Shekhar

9. [FP772] - Comparison of Visual Outcomes Between Extended Depth of Focus and Advanced Mono-focal IOLs

Chief & Presenting author : Disha Chetani (D30816), Amit Gupta, Anjali Gupta, Sonam Yangzes

10. [FP1027] - Total Cataract in congenital Aniridia: A Rare Novel PAX6 Variant in an Indian Male

Chief & Presenting author : Ritika singh (R26012)

11. [FP1139] - A Rare Presentation of Acute Corneal Hydrops after Phacoemulsification Surgery

Chief & Presenting author : Vaibhav Namdev (N24718), J. S. Titiyal, Manpreet Kaur

The 84th Annual Conference of All India Ophthalmological Society

12. [FP1330] - Early v/s late nepafenac for post phacoemulsification CME prophylaxis: A Randomised clinical trial

Chief & Presenting author : Mithila Joshi (M30008), Deepak V, Haripriya Aravind

13. [FP1556] - A comparison between sub tenons block and peribulbar block for small incision cataract surgery

Chief & Presenting author : Nishanth S (S28088), Anupama A.K.

14. [FP1726] - SYNDERMATOTIC CATARACT- A SAGA OF SJOGREN-LARSSON SYNDROME

Chief & Presenting author : Virendra Tarhale (T27152), Tuhina Mishra

15. [FP1752] - ICL EXPLANTATION WITH FEMTOSECOND LASER ASSISTED CATARACT SURGERY IN A HIGH MYOPE

Presenting author : Shweta Samuel (S24775), Chief author : *Sri Ganesh*, Shweta Samuel, Akanksha Sharma, Sushmitha Samak S

16. [FP1756] - A case series on outcome of phacoemulsification in patients of irido-fundal coloboma.

Presenting author : Renukha J (R29222), Chief author : *Amit Raj*, Amit Kumar, Tilottama Kar

17. [FP1935] - A RARE CATASTROPHE: POSTERIOR GLOBE PERFORATION FROM PERIBULBAR ANESTHESIA

Chief & Presenting author : Shruti Bisen (S28990), Misbah Deshmukh, SHIYALE SHRUSHTI UTTAM, Apurva Hajare

18. [FP1953] - Accuracy of Intraocular lens power calculation in traumatic cataracts

Chief & Presenting author : Shivkumar Chandrashekharan (S07258), Sherin Haroon M.

19. [FP2174] - Phacoemulsification vs SICS in Chorioretinal Coloboma : Visual Outcomes and Surgical Challenges

Chief & Presenting author : Asmita Rastogi (A30106), Abhishek Kumar Tripathi, Monika Arora

20. [FP2194] - Utility of Toric Intraocular Lenses for Scleral Fixation

Chief & Presenting author : Abhishek Shah (S28121), P. Rohitha Nayak, Nagesha Chokkahalli Krishnappa

21. [FP2219] - Ocular Surface Immune Status in Cataract Patients With vs Without Prophylactic Steroid Use

Chief & Presenting author : Amulya Punati (A24155)

22. [FP2272] - Evaluating the Impact of CTR and haptic alignment on IOL-posterior capsule contact via iOCT

Chief & Presenting author : Vinita Yadav (V24079), P. Rohitha Nayak

23. [FP2313] - Breaking the Mould: Multifocal IOLs Through MSICS — Expanding the Boundaries of Cataract Surgery

Chief & Presenting author : Ankeeta Thali (A23685), Tulasi Meda, Deepthi Meda, M.S. Ravindra

The 84th Annual Conference of All India Ophthalmological Society

PP - Glaucoma

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : M. Shiraz Ali, Sushil Ojha, Sanjay Kumar Daulat Thakur, Pranamita Pujari, Lipi Chakrabarty

1. [FP61] - 6-months Outcomes of Sutureless Trabeculectomy with Manual Phaco (SICS)

Chief & Presenting author : Shakun Gupta (G09913)

2. [FP94] - Pediatric Pigmentary Glaucoma (PG)

Chief & Presenting author : Lalitha K.J. (L17044), Niharika Singri

3. [FP238] - OPTIC DISC CUPPING IN SPASTIC CEREBRAL PALSY: A POTENTIAL MIMICKER OF GLAUCOMATOUS CUPPING?

Chief & Presenting author : Venipriya Sigamani (V15531)

4. [FP397] - A case of rare secondary glaucoma managed well by newer AADI 250 valve

Chief & Presenting author : Saumendra Nath Ghose (G11293), Singhal Prashant Kumar

5. [FP423] - From Routine to Red Alert: Eight-Ball Hyphema Post-Laser PI in a Patient with Undiagnosed ITP

Chief & Presenting author : Eshwar Rajesh (R29988), Faiza Ibrahim , R. Sharmila

6. [FP605] - Outcomes of Trabeculectomy in silicon oil filled eyes: A Retrospective Study

Chief & Presenting author : Smita Panda (P16507), Rathini David, Baskaran Mani, Trupti Patil

7. [FP698] - Clinical and Systemic Profile of Normal Tension Glaucoma Patients: A Cross-Sectional Study

Chief & Presenting author : R Gayathri (G26873), Usha Tejaswini S, Annamalai O., Kavitha S.

8. [FP737] - Misleading Angles: Unmasking Uveal Effusion in a Nanophthalmic Eye

Chief & Presenting author : Tosha Gujarathi (T28747), R. Sharmila

9. [FP798] - Assessment of Adherence to Topical Anti-glaucoma Medications among Glaucoma Patients

Chief & Presenting author : Rucha Godbole (R23544), Usha Tejaswini S., S. Kavitha

10. [FP969] - Congenital Ectropion Uvae: A Case Series emphasizing Ocular and varied Extraocular Associations

Presenting author : Shalu Bhagat (S29610) ,Chief author : Bhawesh Saha, Zeba Khanam

11. [FP1136] - Timely Trabeculectomy in Neovascular Glaucoma Secondary to CRAO with Cilioretinal Sparing

Chief & Presenting author : Barkha Chaudhary (B29613), Nikita Gupta, Swati Singh

12. [FP1146] - Morphometric optic nerve head parameters in ocular hypertension vs glaucoma on Spectral Domain-OCT

Presenting author : Anjali Choudhary (A30210) ,Chief author : Subodh Lakra, Anjali Choudhary

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1246] - Outcome of high dose MMC(40 40µg)augmented bleb needling in failing/failed filtering procedure

Chief & Presenting author : Nidhi Tomar (N24627), Madhavi Ramanatha Pillai

14. [FP1249] - Study to compare the rate of change of BMO-MRW parameters between NTG, PACG and POAG at target IOP.

Chief & Presenting author : Ravi Kumar (K23400), Bhawesh Saha

15. [FP1323] - A rare case of Axenfeld-riege syndrome

Presenting author : Tania Chakraborty (T27346), Chief author : *Debotosh Ghosh*, Debdatta Chatterjee, Tania Chakraborty, Radhakrishna Mandal

16. [FP1421] - Green Glaucoma Care: Can Glaucoma Surgery decrease medication related Carbon Footprint ?

Chief & Presenting author : Mona Khurana (K14203), Pooja S, George Ronnie J.

17. [FP1608] - A Comparative Evaluation of Surgical Outcomes of GATT vs KDB vs Tanito trabeculotomy in Indian eyes

Chief & Presenting author : Anamika Paul (A25109), Madhuri Manapakkam Butchi, Neethu Mohan, Prasanna Venkataraman

18. [FP1616] - Correlation Between Central and Peripheral Macular GCL Thickness and Retinal Sensitivity in Glaucoma.

Presenting author : Bhawesh Saha (S16436), Chief author : *Rashmi Kumari*, Pankhudi Verma, Neha Kumari, Barkha Singh

19. [FP1664] - Clinical characteristics and management outcomes of uveitic glaucoma

Chief & Presenting author : Srishti Agarwal (S24900), Ramandeep Singh, Faisal T. T., Surinder S Pandav

20. [FP2064] - Early Wins, Long Battles: A study of surgical success in Neovascular Glaucoma.

Presenting author : Chris Pius (C25034), Chief author : *Neethu Mohan*, Anusha Sammeta, Neethu Mohan

21. [FP2088] - "From Angle Closure to Scleral Melt : Evolving Ocular Signs in Traboulsi Syndrome"

Chief & Presenting author : Rishika Lakshminarayana (R24588), Shruthi S., Sathi Devi A.V.

22. [FP2220] - Correlation of VFI, MD, PSD and its applicability in Staging POAG Severity using HFA

Presenting author : maitri patel (M29005), Chief author : *Bhagyajyothi B. K.*, Shubhra Bhargava, Shivanand Bubanale, maitri patel

23. [FP2227] - Ocular surface disease, vision-related QoL, and psychological status in glaucoma patients

Presenting author : Kumara Dharshini V M (D29136), Chief author : *Geeta Behera*, Karthikeyan Mahalingam, K. Subashini

24. [FP2244] - Two Year Outcomes of Gonioscopy-Assisted Transluminal Trabeculotomy (GATT) in Pediatric Glaucoma

Presenting author : Anchal Gera (A25242), Chief author : *Sushmita Kaushik*, Anchal Gera, Manik Sardana, Vyshak A S

25. [FP2260] - Quantitative analysis of angle parameters with AS-OCT in pseudophakic POAG and PACG eyes

Chief & Presenting author : Jasleen Dhillon (J07653), Swarnali Sen, Samiksha Choudhary, Ramanjit Sihota

26. [FP2282] - Platelet Activation as a Potential Markers in High Tension Primary Open-Angle Glaucoma

Presenting author : Navidha Shrivastava (N30761), Chief author : *Shashi Agarwal*, Pankaj Choudhary, Charudatt Chalisgaonkar, Vandana Narwariya

The 84th Annual Conference of All India Ophthalmological Society

27. [FP2324] - Clinico-demographic profile of patient <40 yrs of age at Glaucoma tertiary centre in North India.

Chief & Presenting author : Ram Lolarakh (L28310), Vijay Kumar Maurya, Jagriti Rana

28. [FP2327] - Persistent IOP rise following YAG laser capsulotomy: How would you manage?

Chief & Presenting author : Aastha Agarwal (A25789)

29. [FP2353] - "Effect of Trabeculectomy on BMO–MRW and Peripapillary RNFL Thickness Measured Using Spectralis OCT"

Chief & Presenting author : Sivaranjani , Drishti

The 84th Annual Conference of All India Ophthalmological Society

PP - Diabetic Retinopathy & Medical retina

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Vinod Biala, Santosh Kumar, Avadhesh Oli, Soma Roy

1. [FP87] - Diagnostic dilemma in a case of Multifocal CSR

Chief & Presenting author : Debarun Sharma (D22366), Himanshu Garkoti

2. [FP494] - SEEING BEYOND THE BLOOD COUNT : RETINOPATHY IN SEVERE MEGALOBlastic ANEMIA

Chief & Presenting author : Aishwarya Nehra (A30449), Ashish Chander, Priye Suman Rastogi

3. [FP615] - Optimising Diabetic Macular Edema Therapy: Synergistic impact of Timolol-Dorzolamide and Bevacizumab

Chief & Presenting author : Neel Kavediya (K29776), M. Hemanandini

4. [FP624] - Peripheral Blood biomarkers as predictors in Diabetic Retinopathy and macular edema

Chief & Presenting author : Swati Kumari (S30724), Samiksha Kumari, Ashish Bharti, Rahul Prasad

5. [FP657] - Presumed bilateral viral maculopathy in a post-febrile adolescent - a rare case report

Presenting author : Prachi Singh (P30918), Chief author : Prateek Nishant, Shivani Sinha, Manish Kumar Karn, Abhishek Anand

6. [FP717] - Retinal Imaging & Deep Learning for Non-Invasive Prediction of NCD Risk in Eastern India population

Chief & Presenting author : Shreya Koul, Anindya Anuradha, Dibya Prabha

7. [FP1079] - Successful Resolution of Multifocal CSR with Focal Laser and Anti-VEGF: A Dual-Modality Approach

Chief & Presenting author : Anushree NAIDU (A21360), Charu Gupta

8. [FP1445] - Effect of Corticosteroids on Diabetic Retinopathy Progression: A Comparative Observational Study

Presenting author : Abishek, Chief author : Narayanan Balakrishnan

9. [FP1753] - OCT Biomarkers Predicting Early Resistance to Anti-VEGF Therapy in Retinal Vein Occlusion (RVO)

Chief & Presenting author : Arushi Aggarwal (A27883), Sudesh Kumar Arya, Alisha Kishore, Subina Narang

10. [FP1789] - Role of vitreoretinal interface status in treatment outcomes for DME treated with anti-VEGF

Chief & Presenting author : Sujata Lakhtakia (L10398), Dorilal Reddy Mavuri, Eva Rani Tirkey, Shivani Yadav

11. [FP1946] - Comparing response of intravitreal injections in Diabetic Macular Edema and retinal vein occlusions.

Presenting author : Bhavya Bajaj (B30286), Chief author : Sherina Thomas, Vaishnavi Rao, Suneetha N Lobo

12. [FP2051] - Resolution of Macular Edema in Gyrate Atrophy Secondary to Hyperornithinemia in a Young Girl

Chief & Presenting author : Smile, Vinod Kumar

The 84th Annual Conference of All India Ophthalmological Society

13. [FP2177] - VISUAL DISTURBANCES IN PREGNANCY- A CASE OF CENTRAL SEROUS CHORIORETINOPATHY

Chief & Presenting author : Tejaswi Mandadi (T30987), Sriram Simakurthy

14. [FP2207] - Unilateral Cataract with High Myopia and Retinal Detachment in a Child with Angelman Syndrome

Chief & Presenting author : Sourav Bairagi , Rohan Chawla, Adithi

15. [FP2293] - PEVAC- A rare disease entity: Case Report

Chief & Presenting author : Payal Mukherji (P21719), Nabatika Mohanty, Vishal Prakash NANDESHWAR, Sugyani Kumari Satapathy

16. [FP2362] - Imaging the Elusive Mizuo Phenomenon in Oguchi Disease: A Study in Indian Cohort

Chief & Presenting author : Debolina Deb (D21510)

<https://www.facebook.com/AIOSSC>

<https://www.youtube.com/@AIOSSC>

<https://www.aios-scientificcommittee.org>

The 84th Annual Conference of All India Ophthalmological Society

PP - Community / Social Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Rudra Prosad Ghosh, Aneeta Jabbar, Jayashree Baruah, Mahesha S

1. [FP123] - Diabetic Eye Disease Awareness: Retinopathy vs. Cataract in Northwestern Indian Diabetics

Chief & Presenting author : Anita Kumari (A23527)

2. [FP137] - BLINDED BY THE GAP: EXPLORING THE DIABETIC EYE DISEASE AWARENESS CRISIS

Chief & Presenting author : Debolina Chatterjee (D30818), Kalishankar Das, Sankha Subhra Chaudhuri

3. [FP180] - Effect of Air Pollution on Refractive Errors: A Systematic Review

Chief & Presenting author : Divya Jain (J12415), Anjan Kumar Dhua

4. [FP388] - Corneal Donation Awareness Among Medical Staff: A Survey Study

Chief & Presenting author : Khushboo Goel (K30877), Aditya Suresh Dutt Sharma, Yog Agrawal

5. [FP646] - Trends and Insights in Eye Banking: A Comprehensive 25-Year Statistical Analysis

Chief & Presenting author : Shalini .P (S16598)

6. [FP674] - Assessment of Knowledge, Attitude and Practices (KAP) about Diabetic Retinopathy among Diabetics

Chief & Presenting author : Neetu Kori shankhwar (K18515), Preeti Rawat, Niharika Arya, Manushree Gautam

7. [FP785] - Fragnant devil to eye-assessing ocular allergy potential of Indian devil tree/alstonia

Chief & Presenting author : .Deepthi Prabha Ekka (E15406), Sofia Ahmad

8. [FP860] - Low Vision Rehabilitation-Expanding Horizons !

Chief & Presenting author : Sumit Grover (G15915), Sarath S, Praveen Vashist

9. [FP1098] - Understanding Awareness of Diabetic Retinopathy Screening in India's General Population

Chief & Presenting author : Payal Naresh Shah (S16578), P. Mahesh Shanmugam, Kaushik Murali, Jayamadhury Gudimetla

10. [FP1150] - To increase the awareness among the clinicians regarding Bardet-Biedl syndrome.

Chief & Presenting author : Manendra Singh (S28304), Aastika GAUTAM, Jitendra Singh, Santosh Kumar

11. [FP1266] - Evaluating the Environmental Impact of Intraocular Lens Packaging.

Chief & Presenting author : Pavitra Patel (P17446), Nitin Balakrishnan, Nikhil Balakrishnan

12. [FP1423] - Comparative study of dry eye disease among undergraduate and postgraduate medical students

Chief & Presenting author : Adarsh Mehta (M30598), Neda Rahman, Rohit Kumar MAHATO

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1857] - Bridging Barriers: A Comparative Study of School-based vs. Hospital-based CVI screening models

Chief & Presenting author : Tejshivani R (T30079), Sahithya Bhaskaran

14. [FP1880] - Bridging Distance- Evaluation of a Digital Wearable Refractor for Remote Subjective Refraction

Chief & Presenting author : Kaushik Murali (M10521), Venkatakrishnan S, Kavin Kumaar P K, Namratha Hegde

15. [FP1895] - Cataract screening : A boon for detecting other ocular morbidities.

Presenting author : Varsha Nair (V30916) ,Chief author : *Rama Devi K.S.*

16. [FP1907] - AWARENESS AND KNOWLEDGE ABOUT GLAUCOMA AND IT'S TREATMENT AMONG PARAMEDICAL STAFF

Chief & Presenting author : Tultul Das (D29139), Mohammad Saleem, Tanveer Ahmed

17. [FP2002] - Role of Gonioscopy and ACD assessment prior to pupillary dilation in Diabetic Retinopathy Screening

Presenting author : Grace Lhinghoithem Haokip (G28013) ,Chief author : *Subodh Lakra*, Kaushik Sadhukhan, Mahuya Chattopadhyay

18. [FP2027] - A Case Report on Bardet-Biedl Syndrome: A rare multisystem disorder with ocular manifestations

Chief & Presenting author : Plavani Priyadarshini (P30347), Apan Kumar Saha, Suprava Sahu, Kumari Krishna Patro

19. [FP2054] - Cost-Effective Alternatives in MIGS: Comparing KDB Goniotomy and BANG for POAG

Chief & Presenting author : Mohan Shalini (S09213), Ankita Singh, Namrata Patel, Anjali Pathak

The 84th Annual Conference of All India Ophthalmological Society

PP - Uvea

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : R.Rajalakshmi, Kanwaljeet Harjot Madan, Archana Kumari, Punita Kumari Sodhi

1. [FP155] - Oral cyclophosphamide for uveitis and scleritis- 6 years experience from a tertiary eye hospital

Presenting author : Radhika Thundikandy (R21364) ,Chief author : Lisa Sunny, Radhika Thundikandy, Vedhanayaki Rajesh, R. Rathinam Sivakumar

2. [FP219] - Is Posterior subtenons steroid good enough in controlling post-op inflammation in uveitic cataract?

Chief & Presenting author : Anu Joseph (A22006), Anuradha Vadakke Kanakath

3. [FP379] - Evaluation of clinical spectrum and treatment outcome of HLA B 27 related uveitis from Central India

Presenting author : Saurabhi Jha (S31093) ,Chief author : Priyanka, Brindha Periasamy, Sabir Mohammed, Bhavana Sharma

4. [FP947] - Multiple Serous Retinal Detachments in a Patient with Active CML On Imatinib

Chief & Presenting author : Aditya Patil (P24917)

5. [FP960] - Toxic Uveitis with Secondary Glaucoma Following Insect Bite in an Elderly Patient: A Case Report

Presenting author : Karan Singh (S30743) ,Chief author : Inchara Nagaraj, Narendran B S

6. [FP1286] - Eyes Under Siege: Battling Bilateral CMV Retinitis in Pancytopenia

Chief & Presenting author : Divisha Mehta (D30867), Lisa Sunny, Radhika Thundikandy

7. [FP1307] - Title : Prompt Immunosuppression for Severe Pediatric Uveitis: A Case Report

Chief & Presenting author : Swaroichi Chada (C23189), Deepika Makam

8. [FP1425] - Fuel to the Fire: Steroid-Induced flare in Ocular Toxoplasmosis

Chief & Presenting author : Shivam Goyal (G30886), Anu Joseph, Anuradha Vadakke Kanakath

9. [FP1605] - Breaking the Barrier: Surgical Management of Dense Bilateral Anterior Iris Membrane

Chief & Presenting author : Mohammad Ali , Swati Shrivastava

10. [FP1724] - Unravelling a case of Vogt-Koyanagi Harada Syndrome .

Chief & Presenting author : Debotosh Ghosh (G27892), Debdatta Chatterjee, Tania Chakraborty, Radhakrishna Mandal

11. [FP1969] - Microvascular features of Vogt Koyanagi Harada disease using OCT Angiography

Chief & Presenting author : Aishwaraya K (A24561), Tanya Jain

12. [FP2120] - An interesting case of Frosted branch angitis

Chief & Presenting author : Apoorva Ojha (A28099), Vrushali Athavale

The 84th Annual Conference of All India Ophthalmological Society

13. [FP2136] - Fungal endogenous endophthalmitis masquerading uveitis in young healthy individuals– a case series

Chief & Presenting author : Pooja Bansal (B14017), Shruti Bhattacharya

14. [FP2232] - BLUSH OF INFECTION: PINK HYPOPYON IN SERRATIA MARCESCENS ENDOPHTHALMITIS

Chief & Presenting author : Ankita Kundu (A30879), Aindrila Roy

15. [FP2240] - Tragedy of the Almost Saved!

Chief & Presenting author : Vrinda Dalwani (V21413)

16. [FP2275] - Lost in Misdiagnosis: A Case of Neuroretinitis with Devastating Consequences.

Chief & Presenting author : Amruta Vijay More (M18724), Soumyava Basu, Alok Sen

The 84th Annual Conference of All India Ophthalmological Society

PP - Neuro Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Tutul Chakravarti, Shruti Hegde, Sunil Chaturvedi

1. [FP160] - Navigating Linezolid's Ocular Risk : Clinical Insights Into Reversible Optic Neuropathy

Chief & Presenting author : Navneet BOHRA (B26893)

2. [FP228] - Bilateral Optic Disc Edema as the Presenting Sign of Brain Metastasis in Ovarian Carcinoma

Chief & Presenting author : Nivedita Singh (N30201), Alka Tripathi

3. [FP462] - A Viral Double Hit: Rare Neuro-Ophthalmic Complications of Mumps in Adolescent Females

Chief & Presenting author : Shebsan Mohammed (M27073), Subhalakshmi Ramamoorthy , Virna Shah

4. [FP535] - A Traumatic Turn: Post-Traumatic Orbital Apex Syndrome Unveiled.

Presenting author : Snehil Sharma (S30928) ,Chief author : *Shrutakirty Parida*, Apoorva V, Lita PRAGNYA, Vandana

5. [FP544] - When nerves meet hormones- Pituitary macroadenoma emerging in the landscape of NF1

Presenting author : Vandana (V30827) ,Chief author : *Shrutakirty Parida*, Reshma S M, Somya, Snehil Sharma

6. [FP613] - Uncommon Causes, Common Pathway: A Case Series of Abducent Nerve Palsy Due to Rare Aetiologies

Chief & Presenting author : Mohit Sharma (S23684), Isha Gupta, Shailja Tibrewal, Soveeta Souravee Rath

7. [FP700] - Inconclusive neuroimaging in neuro-ophthalmology: Incidence & efficacy of repeat imaging

Chief & Presenting author : Ajinkya V Deshmukh (D21582), M. Ramakrishna Praveen

8. [FP732] - The Silent Nerve Behind the Swollen Disc: Unmasking a Glossopharyngeal Schwannoma

Chief & Presenting author : Khushi Kandoi (K30870), Gadde Anjali, Karthik Kumar Mani

9. [FP869] - Atypical IIH Presenting with Unilateral Vision Loss and Headache: A Diagnostic Challenge

Chief & Presenting author : Nani Rima (R30543), Ritu Singh, AMIT SINGH, Richa Agarwal

10. [FP885] - Beyond the Midbrain: Internuclear Ophthalmoplegia Secondary to Corona Radiata Infarct

Presenting author : Akshay K S (S29707) ,Chief author : *Nithya R.*, Arun Bhatti

11. [FP985] - RNFL Thickness as an Objective Marker of Papilledema Severity on Spectral-Domain OCT

Chief & Presenting author : Vibha Singh (V24865), Shivani VERMA, Deepak Mishra

12. [FP1040] - WHEN FEVER FADES , VISION BLURS---POST TYPHOID OPTIC NEURITIS IN A CHILD

Chief & Presenting author : Ramandeep Kaur (R26889), richa sharma, Isha Gupta

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1281] - Taming the Beast – Giant Aneurysm of the Internal Carotid Artery (ICA)

Chief & Presenting author : P Mounika (M28389), Mahesh Kumar

14. [FP1292] - Drug-Induced Posterior Reversible Encephalopathy Syndrome (PRES) Presenting as Homonymous Hemianopia

Chief & Presenting author : Ruchita Sontakke (R27958), Sonam Singh

15. [FP1300] - A Rare Case of Internuclear Ophthalmoplegia with Upgaze Palsy due to Neurocysticercosis

Chief & Presenting author : Rakhi P Dcruz (R20600)

16. [FP1431] - A Rare Genetic Insight: LYRM Mutation in Atypical Optic Neuritis

Chief & Presenting author : Deepthi S Prasad (D28798), Madhumita Gopal

17. [FP1453] - Beyond pressure: Posterior pole as a culprit for optic neuropathy in nanophthalmos

Chief & Presenting author : Gagandeep Singh Gulati (G30405), Bharti Kashyap, Somya Kumari, Birendra Prasad Kashyap

18. [FP1502] - Vision Loss and Paraparesis in a Young Child: Exploring a Provisional Diagnosis of NMOSD

Chief & Presenting author : Dr. Pratistha Rath (P30985), Bhumika Rath

19. [FP1543] - From Buzz to Blindness- A rare case of Toxic optic neuropathy post bee sting

Chief & Presenting author : Vijayaprabha R (V29572), Mahesh Kumar, Jayasri Kanthalu Narayanamoorthy

20. [FP1640] - The price of control? Optic neuritis linked to Semaglutide Treatment

Chief & Presenting author : Mitali Jhamb (M23732)

21. [FP1651] - A Case series on Sixth Nerve Palsy

Presenting author : Beulah Thomas ,Chief author : Thasneem Suraiya

22. [FP1687] - Veiled Vision: A Rare Coexistence of Weil-Marchesani Syndrome and Brown Syndrome

Presenting author : Archita Das (A28806) ,Chief author : Varsha Tamrakar, Archita Das

23. [FP1707] - "Disappearing Diplopia-Recurrent sixth nerve palsy with mysterious recovery"

Chief & Presenting author : Neethu Pradeep (N22538)

24. [FP1839] - Acute Vision Loss from Allergic Fungal Sinusitis: A Clinical Imposter

Presenting author : Divya Upendra Caculo (D19539) ,Chief author : Disha Agarwal

25. [FP1899] - Third Nerve Palsy After Routine Immunization: A Case Report in an Infant

Chief & Presenting author : Swikruti Kothari (S30829), T S Surendran, Shikha Talwar Bassi

26. [FP1905] - Title-A Rare Complication of Sulphasalazine: Case Report of Optic Atrophy

Presenting author : Chalamani Siri sivani reddy ,Chief author : Sindhu Khanna

27. [FP2028] - "Headache, Tinnitus, and a Throbbing Eye: Unmasking a Caroticocavernous Fistula"

Chief & Presenting author : Varsha Chauhan (V30552), Vijay Kumar Sharma, Vikas Ambiya

The 84th Annual Conference of All India Ophthalmological Society

28. [FP2246] - Exploring the Silent Swell: Disc edema after Cataract Surgery.

Chief & Presenting author : Shravani Dheenadhayalan , Parag K. Shah, Sharanya R

29. [FP2307] - Spaeth Richman Contrast Sensitivity Test As A Tool For Early Detection Of Linezolid Toxicity

Chief & Presenting author : Manpreet Bajaj (M27615), Suresh Kumar, Surbhi Kapoor, Parul Ichhpujani

30. [FP2388] - Atypical Case of Steroid Responsive Optic Neuropathy without MRI Evidence of Optic Nerve Enhancement

Chief & Presenting author : Monisha Meena (M10312)

The 84th Annual Conference of All India Ophthalmological Society

PP - Optics / Refraction / Contact Lens

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : MOHAMMAD SAQUIB, Abhishek Onkar, JAGANNATH BORAMANI

1. [FP164] - Agreement Between Wavefront, Autorefraction, and Manual Retinoscopy in Keratoconus

Chief & Presenting author : Samrat Chatterjee (C07146), Kiran Ahuja, Deepshikha Agrawal

2. [FP234] - InSight - VR/AR Simulator

Chief & Presenting author : Anahita Shroff (A27394), Kartic R.

3. [FP918] - PSEUDOMYopia IN A YOUNG ADULT: A CLINICAL DIAGNOSTIC CHALLENGE AND THERAPEUTIC RESPONSE

Chief & Presenting author : Shubham Singh (S30398), Somya Kumari

4. [FP1083] - Insight About Astigmatism

Presenting author : Aljapoor Sriram (S30766) ,Chief author : K. Kalaivani

5. [FP1461] - Is Cycloplegia Necessary in Adult Myopes? Insights from a Comparative Refraction Study

Chief & Presenting author : Rohan Arora (A27640), Bina John, Anisha Agrawal

The 84th Annual Conference of All India Ophthalmological Society

PP - Vitreo Retinal Diseases

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Saravanan VR, Hemanth Murthy, Deeksha Katoch, Pangarkar A.V.

1. [FP385] - A cross-sectional observational study on retinal changes following HCQ therapy in SLE patients

Chief & Presenting author : Tiyasha koner , Shashwat Bhattacharyya, Subhra Nag

2. [FP475] - Effect of eplerenone and prostaglandin inhibitors in management of CSCR: A before and after study.

Chief & Presenting author : Waikhom Shinhoileima Chanu (W30823), Raktima Baksi, Mondal Lakshmi Kanta

3. [FP552] - Clinically symmetrical Inverse Retinitis Pigmentosa (RP) with asymmetric visual acuity

Chief & Presenting author : Pragya Chauhan (P30400), Pallavi Priya, Bibhuti B. Kashyap

4. [FP565] - POSTPARTUM BRANCH RETINAL ARTERY OCCLUSION:A CASE REPORT

Chief & Presenting author : Pon Poojaa Thiruvalluvan (P31430), Yavana Rani J

5. [FP628] - Efficacy of sulfur hexafluoride (SF6) vs perfluoropropane (C3F8) gas tamponade in large macular hole

Chief & Presenting author : Ashok Kumar (K13270), Sanjay Kumar Mishra

6. [FP663] - Chorioretinitis Sclopetaria following blunt injury with copper wire: A case report

Chief & Presenting author : Reshma C (R30914), Vivek Chaitanya

7. [FP754] - Breaking the Barrier: Nd:YAG Laser for Rapid Visual Recovery in Sub-ILM Hemorrhage

Chief & Presenting author : Rajiv Kumar SINGH (S26054), Aakanksha Sinha, Shivani Sinha

8. [FP766] - “When the Retina Speaks First: Behçet’s Disease Without Mucocutaneous Clues”

Chief & Presenting author : Harshit Krishna Malavat (H25071), Krishna Teja Palla, TALABHAKTULA KRISHNA, Ajay Sharma

9. [FP790] - Gyrate Atrophy of the Choroid and Retina :A Clinical Case Report.

Chief & Presenting author : Dharm Deo Yadav (Y30840), Randhir Kumar

10. [FP849] - Surgical outcome in patients of Optic disc pit - Maculopathy with scleral patch grafting

Chief & Presenting author : Aakanksha Sinha (A26772), Rajiv Kumar SINGH, Manish Kumar Karn, Abhishek Anand

11. [FP867] - Optic Nerve Head Topography and Nerve Fibre Layer in Children: Establishing Normative Data with OCT

Chief & Presenting author : Shruti Mahajan (S30141), Preeti Rawat

12. [FP949] - EMAP- Extensive Macular atrophy with psuedodrusen like appearance- Case series

Chief & Presenting author : Bharat Arora (A25909), Adithi, Vinod Kumar

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1063] - Hyperhomocysteinemia and BRVO in Young Adults - A Rising trend in Silence!

Chief & Presenting author : Imon Roy (R30781), Rajneel Bhattacharjee, Prasanna Jit Das

14. [FP1204] - Outcomes of Laser Hyaloidotomy in PMH :Identifying Predictors of Treatment Success and Need for PPV

Chief & Presenting author : Minnu Rosey Raju (M30025), Ramesh Venkatesh

15. [FP1224] - Clinical Indications and Outcomes of Intravitreal Faricimab in Indian eyes: a Real-world Experience

Chief & Presenting author : K Shreeya Jain (K24862), Vishal Raval

16. [FP1225] - Outcomes of sutureless scleral buckling

Presenting author : Shelkikar Shrinivas Shrimant, Chief author : *Pradeep Sagar*, Ravi Shankar H.N., P. Mahesh Shanmugam

17. [FP1430] - Complex Ocular Anomalies in a Pediatric Patient:Coexistence of Optic Disc Pit and Multiple Colobomas

Chief & Presenting author : Raj Kenia (K28785), Sonali Sarangi, Anjalika Parhi, Santosh Mahapatra

18. [FP1492] - To highlight the importance of multimodal retinal imaging in a case of Morning Glory Syndrome

Chief & Presenting author : Apoorva Jadhav (A30038)

19. [FP1503] - Compromised perfusion: the hidden challenge of silicone oil tamponade in surgically treated PDR

Presenting author : Mariya Shamsi (M28296), Chief author : *Babi Sinha*, Mamatha B., Karan A.K.

20. [FP1535] - Clinical & OCT based evaluation of macular architecture post ILM peeling in RRD

Presenting author : Archita Das (A28806), Chief author : *Babi Sinha*, Karan A.K., Mamatha B.

21. [FP1572] - Oral Eplerenone Versus Observation in the Management of Acute Central Serous Chorioretinopathy

Chief & Presenting author : Harsha parihar, Devendra Kumar Yadav

22. [FP1620] - Central Serous Chorioretinopathy Linked to Topical Use of Minoxidil And Response to Oral Eplerenone

Chief & Presenting author : Apan Kumar Saha (S30963), Suprava Sahu, Plavani Priyadarshini, Kumari Krishna Patro

23. [FP1696] - Spontaneous Resolution of Chronic Rhegmatogenous Retinal Detachment Mimicking ocular inflammation

Chief & Presenting author : Devika Bhattacharya Mandlik (D21244)

24. [FP1814] - From Womb to World, Protect the Eyes from Zika!

Chief & Presenting author : Divya Goyal (D30379), Akshita Sharma, Nitika Beri, Pramod Kumar Sahu

25. [FP1820] - Evaluation of Pristine 5.0 Widefield CFP vs 7-Field Reference Standard for Retinal Lesion Detection

Chief & Presenting author : Divya Rao (R18057), Shonraj Ballae Ganesh Rao , Kalpa Negiloni, Usha Sharma

26. [FP1849] - Outcomes of treatment naïve adult rhegmatogenous retinal detachment surgery in MIVS era

Chief & Presenting author : Akanksha Sharma (A30492), DEEKSHA KATOCH, Mohit Dogra, Ramandeep Singh

27. [FP1929] - Unseen and Unspoken: A Case Series on CSR in Female Eyes

Chief & Presenting author : Suganya Sampath (S26318)

The 84th Annual Conference of All India Ophthalmological Society

28. [FP1971] - Macular Atrophy after macular hole surgery by Double-staining Technique With Brilliant Blue G

Chief & Presenting author : Sameeksha Agrawal (S20207), Krishna Kumar Agrawal, Vijay Kumar Agrawal, Ankit Agrawal

29. [FP2261] - A case of unilateral choroidal vitiligo

Chief & Presenting author : Hiten Miyani (M29605), Gahan Annadevula, zakir

The 84th Annual Conference of All India Ophthalmological Society

PP - Refractive Surgery

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Mehta Ajay B, Mallikarjun M. Heralgi, Nitin Balakrishnan, Dheeraj Gupta

1. [FP404] - CIRCLE to the rescue- post SMILE epithelial ingrowth

Chief & Presenting author : Navjyot kaur (N27829), Supriya Dhar, Sanjay Kumar Mishra

2. [FP951] - IOP and vault after phakic IOL with and without laser iridotomy-a randomized control trial

Chief & Presenting author : R Niyanthri (R26231), Prasanna Venkataraman

3. [FP1265] - Phakic IOL for Visual Rehabilitation in Post-CXL Corneal Flattening and Thinning in Keratoconus

Chief & Presenting author : Siri D (S25958), Rajesh Sinha, Kumar Kartikay Rajaura

4. [FP1580] - Infectious Keratitis post Photorefractive Keratectomy

Chief & Presenting author : Mansi Pankaj (M30435), Abhishek Chandra, Neha Shilpy

5. [FP1665] - Toric IPCL Implantation in Keratoconus Previously Treated with C3R: A Case Report

Chief & Presenting author : Dhruv Mahajan (M30940), Sri Ramya Sai Kodipalli, Sudhakar Potti

6. [FP1723] - Recurrent Rotational Instability of Toric IPCL in Myopic Astigmatism: A Case Report

Chief & Presenting author : Sri Ramya Sai Kodipalli (S30606), Dhruv Mahajan, Sudhakar Potti

7. [FP1851] - TOPOGRAPHY-GUIDED LASIK: A REAL WORLD LOOK AT PREDICTABILITY, EFFICACY, AND SAFETY

Chief & Presenting author : Medha Mahendra Bhagat (M27989), SHRUTI CHANDEL, Pawan Tadavi, Priyanka Gund

8. [FP1955] - Unique case of recurrent flap displacement/Striae Post-LASIK in Both Eyes

Chief & Presenting author : Anuradha Bishnoi (A28307), Ramesh C.Shah

9. [FP2041] - TOUCHLESS PRECISION- OUTCOMES OF TRANSEPITHELIAL PRK

Presenting author : Miriam Joseph (M17388), Chief author : Nadhna Basheer, MINUDATH K B, Miriam Joseph

10. [FP2093] - Blade vs No Blade: A Study of Visual Outcomes in Microkeratome-Assisted LASIK & Transepithelial PRK

Chief & Presenting author : Chandrakanth K.S. (C07676), Sheeja Areekkara Kunhiraman, Chandana Prabhakar , Hredhya S Muraleedharan

11. [FP2359] - TORIC IMPLANTABLE COLLAMER LENS IMPLANTATION FOR HIGH MYOPIA IN A PATIENT WITH MARFANS SYNDROME

Chief & Presenting author : Faizah Shahreer Ahmad (F23503), Mohd Saif, Metu Rajput, Saurabh Choudhry

The 84th Annual Conference of All India Ophthalmological Society

PP - Ocular Pathology / Ocular Oncology and Tumors

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Sonali V. Kumar, Manju Meena, Sahil Agrawal

1. [FP187] - Orbital rhabdomyosarcoma in an elderly

Presenting author : Kriti Sharma (K30776) ,Chief author : Lavanya S.R., Smriti Rani, Atal Revankar, Radhika

2. [FP266] - Systemic neoadjuvant chemotherapy for challenging invasive ocular surface squamous cell carcinoma

Chief & Presenting author : Rachna Meel (R12970), Sahil Agrawal, Sameer Bakhshi, Seema Kashyap

3. [FP416] - Behind the Blurred vision: A curious case with a diagnostic twist

Chief & Presenting author : Mounica Kakuturu (M24560), Modini Pandharpurkar

4. [FP470] - Clinicopathological Profile and Treatment Outcome of Giant OSSN: Review of 36 Cases

Chief & Presenting author : Vaishali Kashyap (V30368), Zainab Nahid, Shalini Ranjan, Sneha Gupta

5. [FP676] - ADENOCARCINOMA LUNG MASQUERADING AS OCULAR AND NEUROCYSTICERCOSIS

Chief & Presenting author : Ravita Kapoor (R30791), Subodh Lakra

6. [FP693] - Infected Tears, Silent Fears -Unmasking Tuberculosis of The Lacrimal Sac

Chief & Presenting author : Swarna Madhari (S29900)

7. [FP752] - Warthin's tumor of the lacrimal sac – A rare extra-parotid manifestation

Chief & Presenting author : Shreeya Mohanty , Mahuya Chattopadhyay, Prabrisha Banerjee, Grace Lhinghoithem Haokip

8. [FP929] - "Metastatic/Secondary Vitreoretinal Lymphoma": A Diagnostic and Therapeutic Challenge

Presenting author : Reshma S M (R30888) ,Chief author : Manmath Kumar Das, Reshma S M, Siddhartha Kar, Vandana

9. [FP973] - A Diagnostic Blind Spot: Orbital Squamous Cell Carcinoma Without A Detectable Primary

Presenting author : Chhavi Talwar (C30738) ,Chief author : Inchara Nagaraj

10. [FP993] - A case report of Sebaceous Carcinoma of Right Upper eyelid

Chief & Presenting author : Nivedita Nidhi (N30853), Sweta Vijay, Priyanka, Sunita Kumari

11. [FP1010] - A Case Report of " Ocular Surface Squamous Neoplasia "

Chief & Presenting author : Sweta Vijay (S30857), Nivedita Nidhi, Sunita Kumari, Priyanka

12. [FP1014] - Pseudo Ocular Surface Squamous Neoplasia in Ocular Oncology Practice

Chief & Presenting author : Vijitha S Vempuluru (V20290), dilip kumar mishra, Saumya Jakati, Swathi Kaliki

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1472] - Pigmentary Patches in choroid- a novel clinical marker in Neurofibromatosis Type 1!!!

Chief & Presenting author : Rajnee SINHA (R23634), Madhulika Sinha, Rashmi Kumari

14. [FP1527] - Choroidal Osteoma with Secondary CNVM, treated with Anti-VEGFs.

Chief & Presenting author : Ashish Gupta (G24959), Annaji Kota, TALABHAKTULA KRISHNA, Ajay Sharma

15. [FP1662] - "Rare but Real: Conjunctival Cavernous Hemangioma in an Elderly Individual"

Chief & Presenting author : Twinkle Patel Bolishetty (T30836), sai sneha yadlapalli, Satyavathi Gutti

16. [FP1771] - BEYOND THE SURFACE: EYELID LESION AS THE TIP OF A METASTATIC ICEBERG

Presenting author : Priyanka Venkatakumar (P30762), Chief author : *Hrishikesh Amin*

17. [FP1811] - Chloroma masquerading as orbital cellulitis in acute myeloid leukemia: A diagnostic challenge

Chief & Presenting author : Namrata Singha (N30927), Shibashis Deb, Das Shubhra

18. [FP1831] - Masquerading papilledema - the eyes don't lie

Chief & Presenting author : Manan Mistry (M29606), Rajeshwari Kapoor, Purva Kavishwar, Aditya Maitray

19. [FP1838] - Optic Nerve Tumors: Clinical, Radiological Profiles, Management Strategies & Outcomes

Chief & Presenting author : Farnaz YAZEER (F26303), Ruju Unadkat, Vijay Anand P Reddy, Santosh Honavar

20. [FP1980] - Giant HPV-driven conjunctival papilloma with dysplasia: Rare 4*4cm case managed successfully

Chief & Presenting author : Vinitha L Rashme (V20188), Usha R.

21. [FP2357] - Efficacy of Mitomycin C in Downstaging OSSN :A Case series

Chief & Presenting author : Simran Pahwa (S30548), Satyabrata TRIPATHY, Pushkar Dhir, Parikshit Dhir

22. [FP2370] - When the Eye Uncovers the Breast"-Breast Carcinoma Revealed by Ocular Clues.

Chief & Presenting author : Usha M (U30971), Supriya D K

The 84th Annual Conference of All India Ophthalmological Society

PP - Squint

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Rajesh Prabu V, Lakshmi K S Murthy, Antony Arokiadass Baskaran, Gowhar Ahmad

1. [FP384] - MANAGING SUPERIOR OBLIQUE PALSY: A CASE SERIES ON TAILORED SURGICAL INTERVENTIONS

Chief & Presenting author : Priyanka Chalasani (P29847), Raman Yenugandula

2. [FP443] - The Oscillating Duane: A Rare Case of Type III Duane Retraction syndrome with Nystagmus

Chief & Presenting author : Srishti Wahi (S30884), Raman Yenugandula

3. [FP773] - One does not move and the other doesn't see

Chief & Presenting author : Isha Gupta (I20770), Suma Ganesh, Shailja Tibrewal

4. [FP841] - Pattern of refractive errors among children with infantile esotropia

Chief & Presenting author : Sumita Sethi Gulati (S09823), Anupama Tandon

5. [FP845] - Trapped in the Cycle: A Rare Case of Cyclic Esotropia

Chief & Presenting author : Varnika Aditi Singh (V28112), Tanu Singh, Laxmi Tuli Kaushal, Sudesh Kumar Arya

6. [FP1255] - Resolving Third Nerve Palsy from Midbrain Hemorrhage in a Hemophilia A Patient

Chief & Presenting author : Swarna Nishu (S30474), Mittali Khurana

7. [FP1760] - Anaglyph Glasses, VR headset and Synoptophone App to test Stereopsis and Binocular Single Vision

Chief & Presenting author : John Davis Akkara (A19733), Anju Kuriakose

8. [FP2284] - Strengthening to correct Strabismus in Thyroid eye disease

Chief & Presenting author : Jaspreet Sukhija (J09047), Usha Singh, Shweta Chaurasia, Savleen Kaur

The 84th Annual Conference of All India Ophthalmological Society

PP - Cornea

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Deepa Gupta, Bhavana Sharma, Raja Kumari Murugssan, Madhusmita Das

1. [FP271] - IOCT Guided management of triple chamber after DALK

Presenting author : Avinash Pradhan (P30433), Chief author : Parul Jain, Pushkar Rangari, Umesh, Bansal Kavya

2. [FP279] - TO ASSESS THE MORPHOLOGICAL PARAMETERS OF PTERYGIUM ON AS-OCT AND It's RELATION WITH ASTIGMATISM

Chief & Presenting author : Manogna Mandava (M27472), Shankar Chokkalingam, Raja Kumari Murugssan, (Maj) Gnaneswaran Premnath

3. [FP355] - A comparative analysis of the outcome of two simple graft fixation procedures in primary pterygium

Chief & Presenting author : Alisha Porwal (A29595), Shreesha Kumar K.

4. [FP466] - OUTCOME OF MODIFIED HPMC CXL IN THIN CORNEA (<400µm)

Chief & Presenting author : Vanlalmuanpuui Ralte (V21453), John Sarkar

5. [FP834] - Comparative Corneal & Specular Microscopy Study of Crosslinking in Pediatric & Adult Keratoconus

Chief & Presenting author : Amirtha Varshini Venkata Subramanian (A29249), Srivalli Kaza

6. [FP839] - Beyond the Typical: Diagnosing and Managing Superior Pellucid Marginal Degeneration(PMD)

Chief & Presenting author : Shivangi Sharma (S28686), Nayana T, ROOPASREE. B.V, Mallikarjun M. Heralgi

7. [FP934] - Unmasking Herpes Simplex Virus Keratitis: A Retrospective Review of Atypical Corneal Presentations

Chief & Presenting author : Shreya (S27174), Aastha GARG, Manisha Chhabra Acharya

8. [FP998] - Nick, Loop And Pull Technique Of Corneal Suture Removal.

Chief & Presenting author : Vinit Tanwar (T25256), Vinit Tanwar

9. [FP1062] - Cytarabine induced corneal toxicity- A benign yet crippling side effect!

Presenting author : Bhuvanambika P (B28251), Chief author : E. Indhumathi, Timy Francis Chandy, Thasneem Suraiya, Kavitha K

10. [FP1116] - Delayed-Onset Tunnel Infection Due to Atypical Mycobacteria Post-Cataract Extraction

Presenting author : Neha Gandhi (N22238), Chief author : Anushree NAIDU, Hitendra Triloknath Ahooja, Neha Gandhi

11. [FP1176] - Seeing Through Generations: A Case Series of Inherited Granular Corneal Dystrophy"

Chief & Presenting author : Heena Dharamdasani (H26769), Aditya Sethi, Reena Sethi

The 84th Annual Conference of All India Ophthalmological Society

12. [FP1187] - Assessment of quality of life and visual rehabilitation in patients of keratoconus undergoing CXL.

Chief & Presenting author : Sharayu Bhore , Rutuja Gawande

13. [FP1188] - To evaluate clinical profile,treatment,visual outcome,and recurrence of herpes simplex keratitis.

Chief & Presenting author : Srishti Shreya (S30596), Adarsh Mehta, Anvita Kachhap

14. [FP1289] - Visual and Surgical Outcomes of DSEK in Congenital Hereditary Endothelial Dystrophy(CHED) patients.

Chief & Presenting author : Anamika Chowdhury (A29120), Adarsh Mehta, Zaid Ashraf

15. [FP1397] - Risk Factors for Poor Prognosis in Aspergillus Keratitis

Chief & Presenting author : Meena Mulla (M30954), Josephine Christy S, Naveen Radhakrishnan

16. [FP1475] - Outcome and challenges of corneal collagen cross-linking in paediatric keratoconus.

Chief & Presenting author : Nisha Jha (N30959), Surbhi, Rakhi Kusumesh

17. [FP1613] - Rescue in refractory Mooren's Ulcer using Adalimumab.

Chief & Presenting author : Sneha Jain (S28787), Vishram Sangit, Murthy Somasheila I.

18. [FP1619] - Comparison of Different modalities of treatment for Keratoconus over 1 year followup period

Chief & Presenting author : Gunjan Budhiraja (G22817), Mohamed Ibrahim Asif

19. [FP1628] - Describing The Track Of POAG On Macula Using Spectral Domain Optical Coherence Tomography.

Chief & Presenting author : Aashi Jain (A26490), Pankaj Choudhary, Sujata Lakhtakia, Shashi Agarwal

20. [FP1646] - Surgical Management of Limbal Dermoids: A Case Series

Chief & Presenting author : Anshul Garg (A25799), Sakshi Gupta, Rajni Yadav, Jyoti Deswal

21. [FP1657] - Air pump assisted Descemet stripping automated endothelial keratoplasty in silicon oil filled eye

Chief & Presenting author : Priyadarshana Bardoloi (B22384), J. S. Titiyal, Manpreet Kaur

22. [FP1722] - Demographic and clinical features of Keratoconus in a tertiary eye hospital in eastern India.

Presenting author : Sangya Chaurasia ,Chief author : Amit Raj, Amit Kumar, Nimish Singh, Naila Aftab

23. [FP1781] - Can Corneal Collagen Imaging be a Surrogate Marker in Keratoconus families.

Chief & Presenting author : Gaurav Pande (P26013), Vibha Singh, Panaah Shetty, Rahul Patil

24. [FP1787] - CXL isn't the End of the Story - Unfolding the late surprises of Corneal Collagen Cross-linking!

Presenting author : Chaitra Chidanand (C26959) ,Chief author : Mamatha B.

25. [FP1817] - Central corneal epithelium thickness mapping before and after Trans PRK

Chief & Presenting author : Keerthana Seenivasan , Niranjana Bejan Singh

26. [FP1901] - Outcomes of Anterior Lamellar Keratoplasty in limbal dermoid: A retrospective study

Chief & Presenting author : Pritisha GOSWAMI (P27997), SK Basak, Soham Basak

The 84th Annual Conference of All India Ophthalmological Society

27. [FP1938] - Preceyes: An Innovative Precision Marker Instrument for Accurate Corneoscleral Button Retrieval

Chief & Presenting author : Chandana Prabhakar (C30881), Sheeja Areekkara Kunhiraman, Brinda K, Chandrakanth K.S.

28. [FP2024] - The delayed drift: Rare case of spontaneous DMD post graft host dehiscence following uneventful DALK

Chief & Presenting author : Sheena Sonkhiya (S30896), Anand Balasubramaniam

29. [FP2039] - Morphology and Culture Behavior of Bovine Corneal Endothelium: Structural and Functional Insights

Chief & Presenting author : Charuta Puranik (P13233)

30. [FP2067] - Thinning profile of dsaek donor lenticules and its visual significance

Presenting author : Farseena Mp (F30830) ,Chief author : *Mamatha B.*, Rekha Gyanchand

The 84th Annual Conference of All India Ophthalmological Society

PP - Pediatric Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Vaishali Lalit Une, Vidhya C., Mahesh Agrawal

1. [FP591] - A tale of Twists Paralytic or Restrictive??

Chief & Presenting author : Divya Dubey (D25214), Amit Mohan

2. [FP602] - A case of unilateral sclerocornea

Chief & Presenting author : Geettanjali Somasundar (G30033)

3. [FP775] - Vitamin A Deficiency Leading to Xerophthalmia and Corneal Ulcer in a Preterm Infant with ROP

Chief & Presenting author : Pushkar Dhir (D18132), Ruchika Dhir, Pradeep Tekwani, Parikshit Dhir

4. [FP879] - Unilateral Viral Endothelitis Following Mumps Infection in Children: A Case Series & Literature Review

Chief & Presenting author : Athira Devaraj (A22716), Sourav Damodaran

5. [FP1033] - When Two Syndromes Overlap: The Intersection of Cri du Chat and Goldenhar Syndromes in an infant

Chief & Presenting author : Jaisripriya Arumugam (J23881), Anupama Janardhanan

6. [FP1369] - Faces in Harmony: Multisystem Insights with Goldenhar Syndrome"

Chief & Presenting author : Anushka Gupta (A30930), Vanshika

7. [FP1399] - Spheres of Trouble: Early Surgical Management of Pediatric Microspherophakia

Presenting author : Priyanka Mohanty (P29246), Chief author : Bhawesh Saha, Shalu Bhagat, Sheel Meshram, Pankhudi Verma

8. [FP1465] - SHADOWS IN THE GAZE : EXPLORING A CASE OF RARE CAUSE OF ACQUIRED BROWNS SYNDROME

Chief & Presenting author : Kavya Annamalai (K29433), Abinaya Valliappan

9. [FP1570] - "Unraveling a Rare Trio: MRNF, Strabismic Amblyopia & Neurological Sequelae in a Young Child"

Presenting author : Anjana NK, Chief author : Thasneem Suraiya

10. [FP1669] - UNDERSTANDING THE COMPLEXITY OF BARDET BIEDL SYNDROME: FROM GENE TO CLINIC.

Chief & Presenting author : Jennysmita Sarangi, Debasish Bishoi

11. [FP1706] - When Embryogenesis Goes Awry Twice: A Case of PHPV with Colobomatous Microphthalmos

Chief & Presenting author : Divya Choudhary (D22756), Ria Ratna

12. [FP1968] - "Meckel-Gruber Syndrome: A Rare Neonatal Case with Distinct Ocular Findings"

Presenting author : Kavya Sundharajan, Chief author : Thasneem Suraiya

The 84th Annual Conference of All India Ophthalmological Society

13. [FP2005] - Through a Child's Eyes: Mapping Refractive Errors in Central India.

Chief & Presenting author : Khyati Nirapure (K29102), Parul Mittal, ,

14. [FP2009] - Unmasking TORCH: A Striking Case of Congenital CMV Infection

Chief & Presenting author : Priyanka Gund (P28227), Pawan Tadavi, SHRUTI CHANDEL, Medha Mahendra Bhagat

15. [FP2329] - Knowledge, attitude and practices regarding prevention and management of childhood myopia in parents

Chief & Presenting author : Siddhi Shinde (S30768), Veena Kannusamy, Mouttapa Fredrick, Anjali Khadia

The 84th Annual Conference of All India Ophthalmological Society

PP - Orbit & Oculoplasty

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Y. Sujatha, Shachi Srivastava, Shalini Kumari, Pragati Gupta, Raka Chatterjee

1. [FP359] - Presentation Pattern& Outcome of Pediatric Orbital SpaceOccupying Lesion inTeaching Hospital Survey.

Chief & Presenting author : Asha Devi (A26019), Perna Chaudhary, Vaishali Kashyap, Priyanka

2. [FP622] - a comparative study of external vs endoscopic endonasal DCR with PANDOin Bhopal gas tragedy patients

Chief & Presenting author : Aditya Suresh Dutt Sharma (S26267), Yog Agrawal

3. [FP671] - An observational study of the profile of periocular swellings- Clinicopathological analysis

Chief & Presenting author : Inchara Nagaraj (I28035)

4. [FP865] - Recurrent Orbital Myiasis in patient of Periocular Basal Cell Carcinoma

Chief & Presenting author : Anuj Yadav (Y30357), Pranjuli Tyagi, Shivangi singh, Shubhangi Gupta

5. [FP944] - Orbitofacial trauma evaluation and management

Chief & Presenting author : Amit RATHORE (R27121), Amit RATHORE

6. [FP983] - DEMOGRAPHY, CLINICO-HISTOPATHOLOGY & SURGICAL OUTCOMES OF PATIENTS WITH MALIGNANT EYELID TUMORS

Chief & Presenting author : Ashitha E (A26224), Kavitha Ramakrishnan

7. [FP1361] - Orbital Pseudotumor Disguised as Oculomotor Nerve Palsy: A Diagnostic Challenge

Chief & Presenting author : Anureet Gill (A22213), M Azhar Mohd.Yusuf Sheikh, Shakeen Singh

8. [FP1635] - Outcome of Intralesional Bleomycin for Diffuse Orbital Venolymphatic Malformation

Presenting author : Shifa Shaikh (S30965) ,Chief author : Ayushi Agarwal, Ayushi Agarwal, Sourabh Patwardhan, Shifa Shaikh

9. [FP1676] - Subbrow Blepharoplasty in a North East Indian Population: Functional and Cosmetic Perspectives"

Chief & Presenting author : Lobsang Tsetim (T11101)

10. [FP1736] - Contrast-Enhanced MRI in Assessing Orbital Necrosis in Mucormycosis: A Histopathologic Correlation

Chief & Presenting author : Tarjani Dave (D13684), Saumya Jakati, Amruthavalli K.S., Doctor Sumer Kumar

11. [FP1808] - Not all Eschars are Anthrax!

Chief & Presenting author : ARPIT GUPTA (G28352), Jithin Suresh, Dayakar Yadalla, Jayagayathri Rajagopalan

12. [FP1809] - Unblinking Shadows: Managing Lagophthalmos in Hansen's Disease for Ocular Safety

Chief & Presenting author : Lipika Mishra (L29875), Anita Misra, Sibendu Maharana, Rashmi Naik

The 84th Annual Conference of All India Ophthalmological Society

13. [FP1867] - The Costly Affair of an Eyelid Itch

Chief & Presenting author : Angku Hage (A25489), Mandeep Singh Bajaj, Sahil Agrawal

14. [FP1932] - Benign lesion around eyelid: Presentation, Surgical management, Outcome.

Chief & Presenting author : Chandan Singh (S31013), Vaishnavi AWACHAT

15. [FP1975] - Arteriovenous Malformation of upper lid in a young female: a rare case with successful management

Chief & Presenting author : Darshita Pandey , Vaishnavi AWACHAT

16. [FP2032] - Orbital Nocardiosis in Immunocompetent Individuals: A Case Series of Five Patients

Chief & Presenting author : Sanjana Molugu (S25027), Anasua Ganguly Kapoor

17. [FP2036] - Ocular Rhinosporidiosis in a Rural Setting: Challenges and Solutions

Chief & Presenting author : Harapriya Sahoo (H21521), Priyadarshini Sahoo, Harapriya Sahoo

18. [FP2044] - Orbital cysticercosis: A different view

Chief & Presenting author : Jithin Suresh (S25324), ARPIT GUPTA

19. [FP2141] - Dental Drills and Ocular Trills

Chief & Presenting author : Riya Bramhapurikar (R26498), Pallavi M. P

20. [FP2148] - LUXATIONS--RARE PRESENTATIONS OF TRAUMATIC LUXATED GLOBE FOLLOWING TRIVIAL & MAJOR INJURIES.

Chief & Presenting author : Kavitha Ramakrishnan (K08218)

21. [FP2161] - WOODEN INTRUDER: UNMASKING AN ORBITAL FOREIGN BODY MASQUERADING AS CELLULITIS IN A CHILD

Chief & Presenting author : Swikrity Chakraborty (S26884), Abdul Rauf Abid, Pallavi M. P, Shashidhar Shankaranarayana Vasi

22. [FP2178] - I CAN'T OPEN MY EYES- AN INTERESTING CASE OF FOCAL EYELID DYSTONIA

Chief & Presenting author : Anubhuti Vyas (V16145)

The 84th Annual Conference of All India Ophthalmological Society

PP - Lacrimal

Date :	14-03-2026 (Saturday)
Time :	11:00-13:00
Hall :	Physical Poster Area

Judge : Haimanti Choudhury, Debashis Dutta, Amresh Kumar, Chandana Kakati, Bhawna Piplani

1. [FP1594] - Comparative study of outcome of all lacrimal surgeries as a primary modality of treatment

Chief & Presenting author : Suprabha Chandran (S26727), Darshan Shah, Burhanuddin K Fakhri

2. [FP1649] - Beyond the Mucocele, An Enigma: Lacrimal Sac Swellings as Harbingers of Hidden Tumors

Chief & Presenting author : Nayanika Bose (N25806), Nayanika Bose

3. [FP1999] - True cavernous venous malformation of the lacrimal sac

Presenting author : Tulika Bagaria (T30969) ,Chief author : Ayushi Agarwal, Akash Raut, Nidhi Patwardhan, Ayushi Agarwal

The 84th Annual Conference of All India Ophthalmological Society

Alcon Unity Symposium

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Ballroom

Chairperson : Noshir Minoo Shroff, Namrata Sharma

Moderator : Vaishali Vasavada

Panelist : Sourabh Patwardhan, Anurag Mishra

1. Superior Efficiency in Cataract surgery with Unity VCS : Shail Vasavada - 15 Mins
2. 4D Phaco - The Game changing technology in Cataract Removal : Naren Shetty - 15 Mins
3. Superior Efficiency in Vit Ret Surgery with Unity VCS : Srinivas Joshi - 15 Mins

CATARACT PANORAMA

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-01

Synopsis : Though Cataract surgery has progressed by leaps & bounds there are still several unanswered questions & not so well-defined concepts. From an absolutely practical standpoint this session in a panel discussion format with a stellar faculty, will deal with the dilemmas faced by a practicing Ophthalmologist. It would cover the entire gamut of Cataract surgery from pre-operative evaluation, biometry, surgery, surgical complications, Post-operative management and optimizing outcomes. The constant endeavour would be to deliver several take home points to the attending delegates which they can directly employ on their return to surgery.

Convenor : D. RAMAMURTHY

Panellists :

Partha Biswas

Gaurav Luthra

Kumar Doctor

Purendra Bhasin

Chitra Ramamurthy

Arup Chakrabarti

Shreyas Ramamurthy

Rohit Omprakash

The 84th Annual Conference of All India Ophthalmological Society

Updates - Managing difficult or special situations in cataract surgery

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-01A

Thukral Vikas

Cataract surgery is the most common surgery performed on the human body. Due to latest advancements in technology, delivering good results has become the norm and patient expectations are also very high. However, at times, special situations may make the surgery challenging and difficult. We shall be discussing some such difficult situations which may commonly be faced by a cataract surgeon and the techniques and methods to successfully overcome them.

1. When the rhexis extends! - Thukral Vikas - 12 Mins
2. Navigating phaco in small or poorly dilated pupil - Arora Amit - 12 Mins
3. Cracking the nucleus in difficult situations - Om Prakash Anand - 12 Mins
4. Navigating phaco in post RK cases - Sethi Anita - 12 Mins
5. Fixing the IOL in lost capsular support! - Anshu Arora - 12 Mins

Guest Talk (8') : Phaco in Hypermature Cataract : LC Madharia

The 84th Annual Conference of All India Ophthalmological Society

Rayner Session

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-02

1. Sanjay Mantri (TBC after your approval) - Present on Sophi & Galaxy
2. Sri Ganesh - Present on Sophi & Galaxy
3. Mahipal S. Sachdev - Talk on Galaxy
4. Sonu Goel - Talk on Galaxy
5. Nitin Deshpande - Talk on EMV
6. Anand Parthasarthy - Talk on EMV & Rayner Trifocal

The 84th Annual Conference of All India Ophthalmological Society

Rare but Relevant: Practical Strategies for Early Diagnosis and Management of Rare Eye Diseases

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-03

Chairperson : Virender Singh Sangwan

Moderator : Shailja Tibrewal

Rare eye diseases, though individually uncommon, collectively contribute significantly to visual morbidity and lifelong disability. For general ophthalmologists, these conditions often pose diagnostic and management challenges due to their subtle early manifestations, phenotypic variability, and limited exposure during routine clinical practice. Delayed recognition can lead to missed opportunities for timely intervention, appropriate referral, and supportive care.

This session will offer a beneficial format to clinicians to approach the early diagnosis and comprehensive management of some of the unusual eye diseases in the practice setting. Case examples will be used to emphasize “red flag” clinical features, pragmatic diagnostic modalities, and novel approaches such as the use of image and genetic technology to facilitate early diagnosis. In addition, the session will discuss the current approaches to their management, ongoing research, and the impetus of supportive care measures such as visual rehab and counseling.

Targeting both practising ophthalmologists and others, this educational session aims to help demystify rare diseases affecting the eyes and better equip ophthalmologists with knowledge they can implement immediately, which will work towards improving the lives of their patients.

1. Shailja Tibrewal – Case-based practical aspects of rare eye disease management
2. Sandeep Grover - Role of ERG in Retinal Diseases
3. Virender Singh Sangwan – Management of Stevens Johnsons Syndrome - for General Ophthalmologists
4. Ramesh Kekunnaya – Congenital Myasthenia- How genetic clues guide therapy
5. Ken Nischal - The Role of Cognitive and Anchoring Bias in the Rare Disease Odyssey

IC218 - Measuring & Monitoring – Way to Improving Quality of Cataract Surgery

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-04

Chief Instructor: R.D. Ravindran

Quality of care delivery is vital in healthcare and a key component in ensuring sustainability. Though this is well known, there are few monitoring systems that ensure a comprehensive yet detailed tracking of quality assurance in an organization. Organizations who prioritize quality, put in place a monitoring system to track not only vital quality indicators that comprises major patient safety failures, infections, complications but also patient satisfaction. A comprehensive approach for structure, processes and outcome monitoring to improve the quality of eye care is the need of the hour. In order to ensure safe, high quality and timely eye care delivery to the patient's utmost satisfaction, we have created an online quality assurance system. This helps the organization to track its quality parameters, take evidence-based decisions, and surgeons to track, improve and benchmark their performance. It bridges the chasm in quality and creates a sustainable model for monitoring.

No.	Topic	Speaker	Min
1.	Introduction	R.D. Ravindran	4
2.	Delivering Safe Cataract Surgery	Haripriya Aravind	15
3.	Ensuring Good Visual Outcomes	Shivkumar Chandrashekharan	12
4.	Monitoring Through a Structured Tool for Continuous Improvement	R.D. Ravindran	12
5.	Understanding Patient Expectations and Monitor Satisfaction	Rengaraj Venkatesh	12

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IC202 - Tackling Inferior Oblique Surgeries

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room L-05

Chief Instructor: Subhash Dadeya

Inferior oblique muscle is a unique extraocular muscle with multiple surgical options in different scenarios. The anatomy, indication for surgery, surgical approaches and complications of inferior oblique muscle surgery along with latest techniques will be discussed. A brief overview of case scenarios where inferior oblique muscle surgery is required to correct strabismus like V-patterns, dissociated vertical deviations, superior oblique palsies, etc. Multiple surgical options, including conventional recession, hangback recession and modified IO recession will be looked upon. Minimally invasive techniques Minimally invasive techniques of IO recession will be discussed including MISS and Half-MISS.

No.	Topic	Speaker	Min
1.	Anatomy and Physiology of the Inferior Oblique Muscle	Anam Ansari	10
2.	Indications for IO Muscle Surgery	Aakanksha Raghuvanshi	10
3.	Conventional Inferior Oblique Weakening Procedures	Aarushi Saini	10
4.	Modified and Combined IO Procedures	Vaishali Tomar	10
5.	Minimally Invasive Techniques – MISS and Half-MISS	Subhash Dadeya	10
6.	Complications and How to Manage Them	Kanchita Pandey	10
7.	Case-Based Discussion and Surgical Planning	Mittali Khurana	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

National Symposium on Diabetic Retinopathy

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room U-01

Chairpersons- Tara Prasad Das, Lalit Verma, S Natarajan, Ajit Babu Majji, Piyush Bansal

1. Guidelines on DR screening and management – developed by Vision 2020 India : Praveen Vashisht
2. New insights into DME/DR management via biomarkers : Santosh Gopi Krishna
3. Gut Dysbiosis in people with DR in India : Tara Prasad Das
4. Imaging in diagnosis & management : Unnikrishna Nair
5. Evidence based medical management of DME : Ritesh Narula
6. Mistakes in PDR surgery case selection : Mahesh G
7. Tips & tricks for Diabetic PPV : Vishali Gupta

The 84th Annual Conference of All India Ophthalmological Society

IC534 - Cornea Peals and pitfalls in cornea cases

Date : 14-03-2026 (Saturday)

Time : 11:30-12:40

Hall : Meeting Room U-01 A

Chief Instructor: Aneeta Jabbar

five different clinical scenarios are presented here

1. Mystery unveiled A diagnostic challenge in Microbial Keratitis
2. When the eye fights back-Navigating a relentless ocular infection
3. Behind the blur-Managing corneal edema after cataract surgery
4. Itching beyond the surface-Unraveling a severe ocular allergy
5. Sight on the line -Managing a severe penetrating corneal trauma

No.	Topic	Speaker	Min
1.	Mystery Unveiled	Aneeta Jabbar	12
2.	When the Eye fights back	Sugaranjini G	12
3.	Behind the blur	Sachin Mathew George	12
4.	Itching beyond the surface	Anil Radhakrishnan	12
5.	Sight on the line	Jyothi Krishnan	12

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

National Symposium on Imaging in Uveitis?

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room U-03

Chairpersons : Jyotirmay Biswas, Vishali Gupta, DR. Rathinam Sivakumar

Convenor and co-convenor :

Moderators : Somasheila Murthy, Jatinder Singh Bhalla

Duration : (10 per talk + 10 minutes discussion at the end)

1. Imaging in anterior uveitis, episcleritis and scleritis : Somasheila Murthy
2. The role of UBM in Uveitis : Mudit Tyagi
3. Fundus photography (Optos and Heidelberg) and red free imaging : Vishali Gupta
4. FFA & widefield imaging in uveitis and retinal vasculitis : Jyotirmay Biswas
5. ICG in Uveitis: use and limitations : Padmamalini Mahendradas
6. Optical coherence tomographic Angiography in uveitis: expanding horizons : Suchitra Pradeep
7. Optical coherence tomographic Angiography in uveitis : Parthoprati Dutta Majumder
8. Artificial intelligence in multimodal imaging : S Balamurugan

The 84th Annual Conference of All India Ophthalmological Society

National Symposium Oculoplasty and Ocular Oncology - Where India Stands in 2026?

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Meeting Room U-05

Chairperson: Mukesh Sharma

Co- Chairperson : Usha Kim

Moderator: Manju Meena

1. Thyroid Eye Disease- Combined WSOPRS/ ITEDS Consensus Statement Guidelines - Ashok Grover - 10 Mins
2. From developing to developed- Revolution in Research - Usha Kim - 10 Mins
3. Facial Rejuvenation- Newer Insights - Kasturi Bhattacharjee - 10 Mins
4. Socket Reconstruction and Prosthetic Eye- Innovations - Usha Singh - 10 Mins
5. Novel Surgical Techniques in Oculoplasty - Neelam Pushkar - 10 Mins
6. Plaque Brachytherapy- Indian Perspective - Santosh G Honavar - 10 Mins
7. Ultra-low dose Radiotherapy in Ophthalmic Oncology - Fairouz P M - 10 Mins

Panel discussion : 5 minutes

The 84th Annual Conference of All India Ophthalmological Society

IC272 - Decoding Macular Surgery-Case Based Understanding of Surgical Management in Macular Disorders

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Atlantiis 1

Chief Instructor: Vishal Agrawal

With the advent of various techniques & adjunct therapies in the management of macular disorders, there is no consensus in the standard treatment protocol. The course will showcase various High-Definition videos of routine & complex cases of macular holes, foveoschisis, ONH Pit, VMT, ERM and sub macular bleed. The videos will highlight the use of various adjuncts, dyes and flap manoeuvring techniques in myriad cases. The course consists of simple to complex cases which will be helpful to the novice and experienced surgeon alike. The final objective is to make it clear that no single technique suffices for the various surgical challenges in macular diseases. At the end of this video based course the attendee will have a knowledge of the various clinical presentations of macular diseases , customised treatment for each of them & management of the most common complications.

No.	Topic	Speaker	Min
1.	Vitreo-Macular Traction and ERM-Case Based Discussion on Complications & Management	Lalit Verma	10
2.	Optic Disc Pit Maculopathy- Case Based Presentation of Various Management Techniques	Kelkar Aditya Shreekant	10
3.	Myopic Foveoschisis- Case Based Use of Instruments & Techniques	Vishal Agrawal	10
4.	Macular Holes -Case Based Use of ILM Flap, Grafts and Other Adjuncts	Shrinivas M. Joshi	10
5.	Misadventures in Routine Macular Surgery & Their Management	Boral Subhendu Kumar	10
6.	Submacular Hemorrhage management -- tPA,gas and more	Bhuvan Chanana	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC420 - COMPREHENSIVE SURGICAL CAPSULE - FOR PERFECTING CATARACT SURGERY

Date : 14-03-2026 (Saturday)

Time : 11:30-12:40

Hall : Atlantiis 4

Chief Instructor: Sony George

Modern Day Cataract Surgery aims and promises not just restoration of poor vision to useful vision, but customised quantity and quality of vision as well as range of vision preferably spectacle free. This calls for much more perfection of the entire surgical procedure starting from proper preop evaluation through perfect surgical techniques to perfect post op care .. Perfection and optimisation of each surgical step is crucial. In complex cases with challenges too one should be prepared with the best available techniques and innovations, perfect them by practice and offer the best to the patient . This IC is aimed at educating practicing cataract surgeons as well as novices to learn from the experts in the field about the latest techniques and technologies which are useful to make the surgical outcomes as perfect as possible.

Most of the training will be through pictures and videos to make the learning easy and interesting

No.	Topic	Speaker	Min
1.	OVERVIEW AND INTRODUCTION TO THE IC	Sony George	5
2.	PERFECTING IOL POWER CALCULATIONS IN THE ERA OF REFRACTIVE CATARACT SURGERY	Akanksha Rai	10
3.	PERFECTING INCISIONS AND CAPSULORRHESIS FOR OPTIMAL VISION	P. Rohitha Nayak	9
4.	PERFECTING NUCLEOTOMY FOR CLEAR CORNEAS AND OPTIMAL IOL PLACEMENT	Mathew Kurian	10
5.	PERFECTING PUPIL MANAGEMENT FOR BEST VISUAL OUTCOMES	Minu M. Mathen	11
6.	PERFECTING IOL SELECTION FOR OPTIMAL PATIENT SATISFACTION	Sony George	12
7.	PERFECTING IOL FIXATION IN WEAK OR ABSENT CAPSULAR SUPPORT SITUATIONS	Nivean M	11

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC127 - Tips & Algorithms: Management of Congenital Ophthalmic Disorders

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Trade Room 1

Chief Instructor: Maurya R. P.

Developmental disorders of eyeball, orbit and eyelid are not uncommon. Its management is often difficult and challenging. A group of knowledgeable and skilled ophthalmologist in their subspecialties assemble to share their experience in management of various congenital / developmental disorders of eye and its adnexa.

This video & case based instruction course will highlight the newer techniques in diagnosis and management of congenital disorders of eyelid such as ptosis , blephrophimosis syndrome, anomalies of lacrimal drainage system and oculo-orbital anomalies like anophthalmos & microphthalmos and craniosynostoses/ cranio-facial clefting syndromes etc. The target audience will include both general ophthalmologist and subspecialist. By end of course attendees will (i) take home pearls of wisdom from the experts (ii) familiarize themselves with the latest evidence based techniques for management of various congenital ophthalmic disorders and (iii) implement it in their practice.

No.	Topic	Speaker	Min
1.	Congenital Microphthalmos and Anophthalmos : Current Trends	Raj Anand	10
2.	Developmental Disorders of Lacrimal Drainage System: Management Protocols.	Nilutparna Deori	8
3.	Congenital Ptosis: Tips for Successful Outcome (Video based)	Joyeeta Das	8
4.	Recent Advances in Management of Infantile Hemangioma	Maurya R. P.	10
5.	Congenital Eyelid Anomalies: Management Algorithm	Ashok Kumar Grover	12
6.	Management of Developmental Orbital Disorders : Current Concept	Kasturi Bhattacharjee	12

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC314 - Premium IOLs - Patient Selection Criteria, Investigations, IOL Models & Residual Correction

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Trade Room 2

Chief Instructor: Satyajit Sinha

Cataract surgery has seen a paradigm shift from being a restorative to now an established refractive procedure. Technological innovation and specification in the intraocular lenses further evolved to improve the quality of the vision and life of the patient post-operatively. Toric, Multi & Trifocals considered as premium IOLs are used mainly in patients without any other ocular comorbidities. In an attempt to achieve good quality of vision at all distances, while avoiding undesirable photic phenomena, a new generation of IOLs were introduced namely EDOF & ERV IOLs. Trifocal IOLs were introduced offering a distance, intermediate and near vision. Once you select your preferred procedures and technologies, you can determine patient suitability for the IOL you will use. Identifying a good patient for a premium IOL requires ample consultation time during which you should make a reasonable assessment of personality type and quantify visual demand.

No.	Topic	Speaker	Min
1.	Patient selection & Counselling for Premium IOL implantation	Satyajit Sinha	8
2.	Retinal Evaluation before Premium IOL implantation	Pooja Sinha	8
3.	It all boils down to accurate Biometry !	Nilesh Mohan	8
4.	Topo and Tomography are important for Premium IOLs	Vishal Kishore	8
5.	Image Guided Systems & Toric IOLs	Narendra Singh Verma	8
6.	EDOF, ERV & Trifocals IOLs	Subhash Prasad	10
7.	Management of Residual Refractive Error	Lav Kochgaway	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC118 - Ray tracing technology – understanding its technology, clinical use and the results

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Trade Room 3

Chief Instructor: Anand A. Shroff

This instruction course aims to help members understand ray tracing technology with a commonly used platform called WaveLight Plus.

The course will address the theory of ray tracing technology as used on this platform.

How to work up the patient and patient eligibility for undergoing treatment.

We will introduce clinical understanding of the impact of higher order aberrations on data entry for treatment and how to optimize laser data inputs to minimize residual refractive errors.

A patient counselling part will discuss differences of this technology with others and methods of patient counselling.

Finally there will be discussion on results.

No.	Topic	Speaker	Min
1.	Understanding the ray tracing technology and other added features of the Wavelight Plus platform	Pooja Khamar	10
2.	WaveLight ray tracing technology - patient work up, inclusion and exclusion criteria.	Wavikar Chandrashekhar Murlidhar	10
3.	Impact of using ray tracing technology - Use of machine refractive data, HOA and laser data inputs	Anand A. Shroff	10
4.	Results and other patient satisfaction parameters with the Wavelight Plus ray tracing technology	Saurabh Choudhry	10
5.	Patient counselling methods for discussing ray tracing technology and its impact on visual quality	Anand A. Shroff	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

FOTI Session

Date :	14-03-2026 (Saturday)
Time :	11:30-12:40
Hall :	Trade Room 4

Theme of the Session : Ideal Residency Programme in Ophthalmology in India

Convenor : A Suresh Ramana Rao

Chairpersons : Lalit Nepalia, B N R Subudhi, Lakesh Madharia, Sudhir Mahashabde,
Tejinder Singh Aluwalia, Ashok Nanda, Ramesh Ch. Gupta, Kavita Bhatnagar

Moderator : Urmil Chawla & Shreya Thatte

Preamble : Swapan Kumar Samanta (3 Mins)

Introduction : Subhash Dadeya (3 Mins)

Lead Speaker : Surinder S Pandav (6 Mins)

Key Note Speaker : K Mahadevan (8 Mins) : My Method of UG & PG Teaching

Speakers : (6 Mins)

1. India's Medical education at Cross Roads-Challenges and Opportunities for reforms - B N R Subudhi
2. AETCOM Clinical fotos Skill lab - Arvind Morya
3. Postgraduate Ophthalmology Training in India-Current Challenges and the Way Forward - Ashok Nanda
4. Competency Based PG Teaching: Need of the Hour - Maya Hada
5. READS Teacher II 2025 Survey - Parikshit Gogate
6. Outline of READS Teachers II Questionnaire - A Suresh Ramana Rao
7. Introspection of Teaching -Training by an Ophthalmic Medical Teacher: Pearls to Share - Sanjeev Kumar Mittal
8. Mental stress in students - Sagarika Patyal

Concluding Address : Satanshu Mathur

Take Away Message : Purnananda Mishra

The 84th Annual Conference of All India Ophthalmological Society

Financial Literacy for Doctors

Date :	14-03-2026 (Saturday)
Time :	11:30-13:00
Hall :	Glassroom (Atlantiis)

Chairperson - R C Shah

Co Chairperson - Sandeep Vijay

Moderator - R K Verma

Panelist - Harikrishnan, Rajesh Sekhri , Sreeni Edakhlon

1. Importance of Financial Planning for Doctors - Nikhil Nasta - 10 mins
2. Analysing Stocks: - Manish Sharma - 10 mins
3. Analysing Mutual Funds - Raju Sampangi - 10 mins
4. How to plan post retirement finances? - Sumeet Lahane - 10 mins
5. Dhurandhar Speaks : Tips from Expert on buying shares - R C Shah - 15 mins
6. Stocks vs MFs vs Options vs Commodities vs precious metals: - Umesh Y - 15 mins
7. Effective financial planning & management in Ophthalmic practice: - Sreeni Edakhlon - 10 mins

Discussion: 10 minutes

The 84th Annual Conference of All India Ophthalmological Society

IC46 - Optimizing Outcomes in Challenging Cataract Cases

Date :	14-03-2026 (Saturday)
Time :	11:45-12:55
Hall :	Meeting Room U-06

Chief Instructor: J. S. Titiyal

The video-assisted instruction course will demonstrate surgical tips for performing phacoemulsification in challenging case-scenarios including posterior polar, subluxation, hard cataract, small pupils, intumescent cataracts and post-refractive surgery cataracts. Surgical pearls to achieve a central continuous curvilinear capsulorhexis in intumescent cataract and subluxated lens shall be imparted. Nucleus management in white cataract without cortical cushion, subluxated nucleus with varying grades of nuclear sclerosis, hard cataracts and posterior polar cataracts with or without nuclear sclerosis will be demonstrated with case examples. Role of perioperative imaging including intraoperative OCT in prognostication and risk stratification in intumescent and posterior polar cataract will be discussed.

No.	Topic	Speaker	Min
1.	Imaging in cataract surgery- enhancing safety and elucidating intraoperative dynamics	J. S. Titiyal	10
2.	Phacoemulsification in compromised corneas (corneal opacity, endothelial disease, ectasia, post-PK)	Namrata Sharma	10
3.	Phacoemulsification in small pupil	Suven Bhattacharjee	10
4.	Phacoemulsification in soft cataract	Tushya Om Parkash	10
5.	Phacoemulsification in subluxated lens and hard cataract (conventional phaco & FLACS)	Rajesh Sinha	10
6.	Phacoemulsification in posterior polar cataract	Vasavada Abhaykumar Raghukant	10
7.	Post-refractive surgery cataract (IOL power calculation & intraoperative management)	Manpreet Kaur	10

Panel Discussion : 5 mins

Time :	11:50-13:00
Hall :	Meeting Room U-02

Panelist : Rama Krishnnan R, Ramanjit Sihota, G Chandra Sekhar, Pandav Surinder Singh, P Sathyan, Chandrima Paul, Jatinder Singh Bhalla

Each talk duration – 8 minutes, Total time for Discussion – 16 minutes

Moderator : Amit Porwal

1. Potpourri of advances in glaucoma knowledge - Harsh Kumar
2. Lasers in Glaucoma – Changing paradigms and newer technology - Murali Ariga
3. Role of cutting edge technology in managing Glaucoma Masquerades - P Sathyan
4. CCT as a marker for glaucomatous damage in India? - Ramanjit Sihota
5. Patient centric glaucoma care - G Chandra Sekhar
6. Home monitoring and digital health in glaucoma care - Rengaraj Venkatesh.

The 84th Annual Conference of All India Ophthalmological Society

Mission Impossible Complex cataract cases by experts (APACRS Session)

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Ballroom

Chairs: Abhay Vasavada, Sri Ganesh

Synopsis : This session is video based where expert surgeons present very complex cases- assessment, decision making , intraoperative management & outcomes. The video will typically include a very complex situation & a step by step demonstration on management and discussion on alternative approaches & decision making .

1. Thanapong Somkijrungrroj
2. Mohan Rajan
3. Samaresh Srivastava
4. Vaishali Vasavada
5. Gaurav Luthra
6. Supriya Sriganesh
7. Sri Ganesh
8. Suhas Haldipurkar

Each video presentation will be for 7 minutes followed by 3 minutes discussion .

Audience discussion Q & A - 10 minutes.

The 84th Annual Conference of All India Ophthalmological Society

IC437 - Achieving accurate outcomes in refractive cataract surgery

Date : 14-03-2026 (Saturday)

Time : 12:45-13:55

Hall : Meeting Room L-01

Chief Instructor: N.V. Arulmozhi Varman

This instruction course provides a comprehensive overview of the key components essential for achieving accurate outcomes in refractive cataract surgery. Topics covered include the interpretation and application of corneal topography, the latest advancements in ocular biometry, and the integration of intraoperative aberrometry for optimal IOL selection. The course also highlights the role of femtosecond laser-assisted cataract surgery and the principles of performing precise and efficient phacoemulsification. A dedicated segment will address the management of dissatisfied postoperative patients. The session concludes with a panel discussion, offering expert insights and practical solutions to common challenges in refractive cataract surgery.

No.	Topic	Speaker	Min
1.	The perfect phaco	N.V. Arulmozhi Varman	10
2.	Corneal topography in cataract surgery	Jeyanthan S.	10
3.	Role of aberrometry in refractive cataract surgery	Aadithreya Varman	10
4.	Role of femtosecond cataract surgery	N.V. Arulmozhi Varman	10
5.	Troubleshooting the unhappy patient	Atheek Shaik Hameed	10
6.	Updates in biometry	Aadithreya Varman	10

Keynote Address (8') : Management Of Astigmatism - Adam Muzychuk

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Innovations in Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room L-01A

Chief Instructor: Malay Chaturvedi

CI is a senior ophthalmologist involved in ophthalmic practice for 3 decades, has been keenly involved in Innovations in ophthalmology, has been a member of the managing committee of AIOS, is Immediate past president of UP state ophthalmic society. He has publications in Indian journal and has more than 100 presentations in state and national conferences. He has attended and presented in international meetings also. He has been conducting ICs in AIOS for more than a decade as chief instructor and has been working in the field of phaco techniques and medical retina especially inflammatory retinal diseases.

1. Praveen Vashist - App based tool for RAAVI surveys for assessing eREC and eCSC - 8 Mins
2. Ajay Aurora - Multidose vial puncture assist device - 8 Mins
3. Mohita Sharma - Biogenetics exploring clinical horizons - 8 Mins
4. Alkesh Chaudhary - "Fish hook technique in managing drop IOL" - 8 Mins
5. Abhijaat Chaturvedi - Flat Tipped Cannulas: An Innovation in Phaco-emulsification! - 8 Mins
6. Arvind Kumar Maurya - Netra Antyodaya- An AI Integrated Smartphone Based Camera for Common Ocular Disorders - 8 Mins
7. Rajendra Prasad - "Trishul the triple edge wedge tool" - 8 Mins
8. Pankaj Lande - "DIY" Single handed CTR Injector - 8 Mins
9. Malay Chaturvedi - Neo-Vasculo-genesis & it's Inflammatory Correlates - 8 Mins

The 84th Annual Conference of All India Ophthalmological Society

IC475 - The Hard Exudate Pathway: A Practical Algorithm for Diagnosis and Management

Date : 14-03-2026 (Saturday)

Time : 12:45-13:55

Hall : Meeting Room L-02

Chief Instructor: Ramesh Venkatesh

Hard exudates are critical clinical markers of underlying retinal and choroidal vascular pathology, most commonly associated with conditions like diabetic retinopathy, hypertensive retinopathy, retinal vein occlusion, and aneurysmal diseases. This instruction course aims to provide a holistic understanding of hard exudates—starting with their composition, formation mechanisms, and associations with both retinal and choroidal vasculopathies. We will explore their distribution patterns, imaging characteristics, and impact on visual acuity. Attendees will learn to differentiate exudates from mimickers, interpret them using multimodal imaging, and understand when and how to intervene. Real-world cases will enhance clinical insight. The course concludes with a structured, evidence-based algorithm to help clinicians and retina specialists systematically evaluate and manage eyes with hard exudates in routine practice.

No.	Topic	Speaker	Min
1.	Decoding Hard Exudates: Composition and Pathophysiology	Chaitra Jayadev	8
2.	Vascular Underpinnings: Retinal and Choroidal Causes of Hard Exudates	Prathibha Hande	10
3.	Patterns and Distribution of Hard Exudates: Recognizing the Clinical Clues	Nagesha Chokkahalli Krishnappa	8
4.	Impact on Vision: What Hard Exudates Tell Us About Visual Prognosis	Karishma Tendulkar	10
5.	Imaging Insights: How to Assess Hard Exudates Using Multimodal Tools	Vishma Prabhu Gumbira	10
6.	Therapeutic Strategies: Treating the Source and Protecting the Fovea	Naresh Kumar Yadav	12
7.	Algorithm in Action: A Stepwise Clinical Guide to Managing Hard Exudates	Ramesh Venkatesh	10
8.	Interactive Q&A / Panel Discussion / Case Pearls	Ramesh Venkatesh	7

The 84th Annual Conference of All India Ophthalmological Society

Care Group - Newer Technologies for Perfect Refractive Solution Session - 02

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room L-03

Chairman : Anjum Mazhari

Moderator : Anchal Gupta

Panelists

Rajat Gupta

Ritin Goyal

Sukrati Gupta

Speakers

1. Varun Gogia - IPCL: World's Safest Personalized Phakic Solution
2. Raashid Wani - Magnificent Plus IOL: Real-World Clinical Experience and Visual Outcomes
3. Garima Agarwal - Toric IPCL: Long Term Rotational Stability
4. Kapil Agarwal - Trans PRK
5. Krishna Prasad - Naturo: Fulfilling Patients' Need and Desires
6. Doel Biswas - Presbyopic IPCL: My Experience with Presbyopic IPCL after 2 years of follow up
7. Fahim Lala - Naturo PLus: Beyond Diffractive Rings

The 84th Annual Conference of All India Ophthalmological Society

2 Mins to Win

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room L-05

Chairman : Vinod Kumar Arora

Judge : Rajendra Prasad, Amit Tarafdar, Mallika Goyal, Jatinder Singh Bhalla, Amit Porwal, Tinku Bali, Ritu Aurora, Sudhir Srivastava, Dhami G.S., Arun Kumar Jain

1. [WIN9] - The Third Hand : Modified Irrigation Tip for Bimanual IA

Chief & Presenting author : Kumar Doctor (D03945)

2. [WIN10] - Seeing the Unseen: Intraoperative OCT Unveils hidden zonular weakness during cataract surgery

Chief & Presenting author : Bahubali N Shetti (S25847)

3. [WIN15] - Magic of ACM : Fiber or Pearl : Safe yet Complete removal.

Chief & Presenting author : Ravi Kulkarni (K14254)

4. [WIN16] - A Novel Graft Substitute Post-Pterygium Surgery Using Platelet-rich Fibrin Graft

Chief & Presenting author : Lipi Mittal (L25624)

5. [WIN23] - MAGIC OF 2 MINUTES

Chief & Presenting author : Atul Kadhane (K10498)

6. [WIN59] - PLUGGING CORNEAL HOLE BY NEIGHBOURING CONNECTIVE TISSUE

Chief & Presenting author : Tanmay Gaidhani (G30639)

7. [WIN73] - Reviving lost eyes in Endophthalmitis by multidisciplinary approach & new vitreous biopsy technique.

Chief & Presenting author : Pawan Puneet Malhotra (M19242)

8. [WIN87] - Out with the old, In with the new? Sutureless SFIOs deferred with Ingenious ways to save same IOL

Chief & Presenting author : Pawan Puneet Malhotra (M19242)

9. [WIN90] - The third hand for IOL implantation

Chief & Presenting author : Sugato Paul (P18775)

10. [WIN95] - Trypan Blue-Enhanced Detection and Repair of Corneal Tears: A Surgical Technique

Chief & Presenting author : Pranesh Ravi (R20456)

11. [WIN108] - Tenon's Tectonic Rescue: A Simple Option for Tectonic Restoration in Corneal (Re)perforations

Chief & Presenting author : Raksheeth Nathan Rajagopal (R21536)

The 84th Annual Conference of All India Ophthalmological Society

12. [WIN109] - Taming the slipping sun: CTR the Unsung Hero in a case of Cataract Surgery with Iris & Lens coloboma

Chief & Presenting author : Kovagapu Soujanya Kumari (K31363)

13. [WIN114] - OVD through ACM "Surgeon's 3rd hand!"

Chief & Presenting author : Sinu Thulaseedharan Sinumol S (S07971)

14. [WIN116] - Insulin Eye Drops in Ophthalmology: From Physiology to Pharmacology to Clinical Translation.

Chief & Presenting author : Prabhjot Singh (S26439)

15. [WIN128] - Stencils – Templates for Custom Graft Shaping

Chief & Presenting author : Gautam Singh Parmar (P13631)

The 84th Annual Conference of All India Ophthalmological Society

National Symposium - Complication Management in Refractive Surgery : Prevention, Detection & Solutions

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room L-06 & 07

Moderator : Vardhaman Kankariya

1. Top 3 complications ASA - Dimitra Portaliou
2. Top 3 LASIK flap complications - Harshul Tak
3. Post LASIK ectasia - risk factors and management - Himanshu Matalia
4. Intra-operative SMILE lenticule complications - Chitra Ramamurthy
5. Top 3 complications of SMILE and management - Vardhaman Kankariya
6. Top 3 complications of Phakic IOL - Tushya Omprakash

The 84th Annual Conference of All India Ophthalmological Society

IC230 - OCT Angiography- Navigating the Teenage tantrums

Date : 14-03-2026 (Saturday)

Time : 12:45-13:55

Hall : Meeting Room U-01

Chief Instructor: Avnindra Gupta

The world has moved progressively from invasive to Non-Invasive Imaging modalities over the last decade. These are gaining popularity as they are simple, fast and reproducible. The new baby OCT angiography is now a teenager and is showing that at times it can be difficult to handle. OCTA was initially used for macular disorders but with increased resolution, faster, deeper scans and the availability of wide-field OCTA its application has widened. But with this also comes increased errors and artefacts. This instruction course is specifically designed to educate fellow colleagues about the uses and interpretation of OCTA in various macular and vascular pathologies. This instruction course will also help to select the best OCTA machine and to negotiate through artefacts seen during interpretation.

No.	Topic	Speaker	Min
1.	Introduction, and Interpretations OCT Angiography	Avnindra Gupta	10
2.	Artefacts and Interpreting OCTA in Presence of Artefacts	Ritesh Narula	10
3.	OCTA patterns to evaluate AMD progression	Puneet Gupta	8
4.	Macular and Widefield OCTA in Diabetic Retinopathy	Anand Rajendran	8
5.	Will OCTA replace FFA	Lalit Verma	8
6.	Role of OCTA in retinal vascular Diseases	Ajay Purohit	8
7.	Role of OCTA in Glaucoma and Optic nerve head diseases	Harsh Kumar	8
8.	PCV Management: Is Change always Better?	Abhishek Kothari	10

The 84th Annual Conference of All India Ophthalmological Society

IC216 - Interventional Glaucoma: Navigating Modern Surgical Approaches

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room U-01 A

Chief Instructor: Suneeta Dubey

Glaucoma surgery has advanced significantly, and today's approach focuses on tailoring care to each patient's unique needs. By combining proven techniques with newer, less invasive options, surgeons can achieve better control of eye pressure while minimizing risks and improving recovery.

This video-based course gives an up-to-date overview of the current surgical landscape in glaucoma. It covers everything from standard procedures like trabeculectomy and tube shunts to innovative approaches like MIGS and laser treatments. The session also tackles real-world scenarios, including how to manage patients after failed surgeries and how to approach combined cataract-glaucoma cases.

Through expert insights and real case examples, participants will learn how to refine their surgical planning and deliver more effective, tailored care.

No.	Topic	Speaker	Min
1.	Refining Trabeculectomy: Indications and Techniques for Success	Kirti Singh	8
2.	Advanced Tube Shunt Strategies: Addressing Complex and Secondary Glaucoma	Julie Pegu	8
3.	Precision Lasers in Glaucoma Care: SLT & Diode Cyclophotocoagulation	Shayana Bhumbra	7
4.	MIGS: Where We Are and What's Next	Devendra Maheshwari	8
5.	Fusion of Precision: Indications and Techniques for Combined cataract and glaucoma surgeries	Mohan Shalini	8
6.	Rescue Strategies After Failed Glaucoma Surgery	Harsh Kumar	8
7.	Choosing the Right Surgery: Real Patient Examples	Suneeta Dubey	8

Panel Discussion : 20 mins

The 84th Annual Conference of All India Ophthalmological Society

IUSG - Uveitis in a Nutshell for Comprehensive Ophthalmologists: Dos and Don'ts

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room U-03

The Symposium plans to discuss various situations faced by comprehensive ophthalmologists where they are uncertain about the best course of action. Mistakes in initiating—or failing to initiate—corticosteroids, decisions on whether to administer local or systemic therapy, and choices regarding which investigations or imaging modalities to order (or not to order), are all critical decisions that can significantly affect the final visual outcome.

This course aims to present illustrated case examples with clear dos and don'ts, as shared by world experts in uveitis

Chairs : Vishali Gupta, Peter McClusky

- Patient with Cells in the Anterior Chamber and Keratic Precipitates What next? : Oren Tomkins-Netzer
- Patient with Vitritis and Media Haze How should we proceed?: Peter McClusky
- A Yellow Lesion Involving the Retina What should I do—or avoid doing?: Elisabetta Miserocchi
- A Lesion Appears Deeper in the Choroid How do I approach this case? : Vishali Gupta
- Approach to Subretinal Lesion : Ilaria Testi

Speakers details and three additional Topics :

1. Oren Tomkins-Netzer

- Imaging and management of neovascularization in uveitis
- How to spot infectious uveitis
- Use of Anti TNF biosimilars in non-infectious uveitis

2. Peter McClusky

- a scleritis survival guide
- ocular syphilis: the great pretender
- white dot syndrome mimics: not all white dots are white dot syndromes

3. Elisabetta Miserocchi

- Masquerade syndromes: how to recognize
- Uveitis and genetic diseases: when the boundaries are not clear
- Uveitis and ocular toxicity in the era of targeted cancer

The 84th Annual Conference of All India Ophthalmological Society

therapies.

4. Vishali Gupta

- Para plana vitrectomy for ARN: Tips and Tricks
- 27 G Pars plana Vitrectomy : Newer horizons
- Diabetic TRDs : Tips and Tricks for Surgical management

5. Ilaria Testi

- Viral retinitis
- Pearls and Pitfalls for Infective Uveitis Emergencies
- Clinical Spectrum and Differentials of Choroidal Non-Infectious Disorders

The 84th Annual Conference of All India Ophthalmological Society

IC20 - GENETICS IN OPHTHALMOLOGY: Patient Evaluations and Research for Possible Genetic Treatments

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Meeting Room U-05

Chief Instructor: Gerald R. Schultz

With knowledge of the basics of genetics, you will better understand human health and disease. Genomic technologies continue to expand and are implemented more into clinical care. The essentials of genetics are sequencing and gene expression. Ophthalmologists should understand genetic involvement in the pathogenesis of glaucoma, AMD, diabetic retinopathy, retinitis pigmentosa and corneal dystrophies. Gene testing and genetic counseling are important components of patient care. The mechanism of genetic alterations by the SARS-CoV-2 (Covid) genome will be used to demonstrate how a virus injects its RNA into human cells and how it may be utilized to treat ophthalmic genetic disorders. CRISPR/cas9 DNA replacement technology is being tested in mice for preventing inherited retinitis pigmentosa. Upon completion of the course, the attendees will have knowledge related to current and future trends for treatments with Adeno-Associated Viruses, epigenetics and CRISPR gene technology.

No.	Topic	Speaker	Min
1.	Review of genetics, epigenetics and the SARS-Cov-2 RNA structure. Potential CRISPR/Cas9 treatments	Gerald R. Schultz	15
2.	Molecular Genetics of Glaucoma: Dr. P. Sundaresan	Gerald R. Schultz	15
3.	Genetics of corneal dystrophies	Radhika Tandon	12
4.	Genetics of corneal ectasias	Namrata Sharma	12
5.	Genetics of retinal dystrophies and diabetic retinopathy	S. Natarajan	12

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC93 - PTERYGIUM SURGERY– BASICS AND BEYOND

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Atlantiis 1

Chief Instructor: Shreesha Kumar K.

This course will cover various surgical and medical options in the management of different types of pterygium (primary, recurrent, double head). Recurrence of pterygium after its surgical excision is one of the most common and frustrating cause of concern for both surgeon and the patient. This has lead to the development of newer surgical techniques , adjunctive measures and graft fixation procedures. The topics here will cover medical management,demonstrate various surgical techniques,their modifications, graft fixation and adjunctive measures in achieving high rate of success. The Course would target general ophthalmologists as well as the ocular surface specialists in establishing the right concepts

No.	Topic	Speaker	Min
1.	Medical management of pterygium- Recent advances	Vamsi. Konuganti	8
2.	Cataract with Pterygium- combined or sequential? -When and Why	Shreyas Ramamurthy	10
3.	Recurrent Pterygium – Newer management options	Rajesh Sinha	10
4.	Treatment algorithm for Double head Pterygium	K V Satyamurthy	8
5.	Graft Fixation-What is new?	Srinivas V.K. Rao	8
6.	Common Complications of Pterygium surgery and management	Namrata Sharma	10
7.	Surgical tips for successful pterygium surgery	Shreesha Kumar K.	10

Guest Talk (8') : Botropase : Breakthrough in pterygium graft fixation (8) - Atul Kadhane

Panel Discussion : 11 mins

The 84th Annual Conference of All India Ophthalmological Society

IC525 - Tackling the Menace of Astigmatism with MSICS

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Atlantiis 2

Chief Instructor: JAGANNATH BORAMANI

Surgically induced astigmatism is often viewed as an undesirable consequence of cataract surgery. However, Manual Small Incision Cataract Surgery (MSICS) offers a unique opportunity to turn this challenge into an advantage. This course focuses on not only managing but effectively neutralizing astigmatism through precise scleral tunnel construction—an essential element and cornerstone of successful MSICS.

Participants will learn how to perform MSICS through a minimal 2 mm (cord length) scleral incision. Emphasis will also be given on tailoring the location, length, and shape of the external incision to combat pre-existing astigmatism. The course will also provide a comparative overview of various astigmatism correction techniques, helping surgeons refine their approach for optimal visual outcomes.

No.	Topic	Speaker	Min
1.	Introduction	JAGANNATH BORAMANI	5
2.	Well constructed Scleral Tunnel - key to successful MSICS surgery	Neeta Dodwad	10
3.	Pre-operative surgical planning to avoid astigmatic surprises	Narendra Singh Verma	10
4.	Customised Incision Cataract Surgery (CICS)	JAGANNATH BORAMANI	10
5.	Anastigmatic MSICS with 2mm Incision	Amulya Nath Sahu	10
6.	Comparative Analysis of Various methods of taming the Astigmatism	Narendra Singh Verma	10
7.	Ergonomics of 2mm SICS	Nilutparna Deori	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Cornea Society Session - Strategies on improving Ocular Surface and Corneal Rehabilitation

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Atlantiis 4

1. Vishal Jhanji - Autologous Serum In Dry Eyes
2. Parag Majmudar - A Novel Treatment for Chronic Ocular Surface Pain
3. James Myerscough - DALK or Visual Rehabilitation of Post-PK eyes with High Astigmatism due to Recurrent Ectasia
4. Sonal Tuli - Using ASOCT to guide corneal reconstruction

The 84th Annual Conference of All India Ophthalmological Society

IC317 - Clinical Approaches to Strabismus: From Basics to Advanced Practice

Date : 14-03-2026 (Saturday)

Time : 12:45-13:55

Hall : Trade Room 1

Chief Instructor: ROHIT SAXENA

This instruction course is designed to provide the audience with a practical, evidence-based discussion on how to approach and manage important clinical conditions which are of contemporary interest to strabismus practitioners. Presentations include clinical photographs, case-based approach and surgical videos. Audience participation and doubts will be encouraged after each presentation. In the end, different cases will be presented for discussion. The audience will be encouraged to independently diagnose and discuss management strategies of these cases.

By the end of the course the target audience would be able to manage simple cases like esotropia and exotropia. They will also learn to diagnose and approach complicated cases like paralytic strabismus and restrictive Strabismus.

No.	Topic	Speaker	Min
1.	Approach to Esotropia	Ankur Sinha	10
2.	Intermittent Divergent Strabismus: How to manage	Digvijay Singh	10
3.	Case based approach to the management of DRS	ROHIT SAXENA	10
4.	III nerve palsy: customized approach	Swati Phuljhele	10
5.	IV nerve palsy: Diagnosis and management	Saurabh Jain	10
6.	VI nerve palsy: Surgical Decision making	Rebika	10

Keynote Address : Management of Brown syndrome : "Many Options: one goal" - Amr Hamzah - 8 Mins

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Cornea Society of India (CSI)

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Trade Room 2

Chairperson : Jnanankar Medhi

Co Chairperson : Geetha Iyer

Convenor : Vikas Mittal

Co Convenor : Vinay S Pillai

Moderator : Rishi Swarup

Panel : Quresh Maskati, Paras Mehta , Himanshu Matalia, Somasheila Murthy

1. Surgical pearls in Pterygium Surgery – Paras Mehta
2. Approach to Corneal Scar Management – Rishi Swarup
3. Optimizing outcomes of CXL – the importance of case selection – Anitha Venugopal
4. Corneal neovascularization – Why and How to manage – Radhika Natarajan
5. Management of Pseudophakic corneal edema – Vikas Mittal

8 mins talk + 5 mins discussion = 13x5 = 65 mins

The 84th Annual Conference of All India Ophthalmological Society

IC492 - "Rings, Hooks, Expanders & Hard Rocks: Tools & Tips for Tough Phacos"

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Trade Room 3

Chief Instructor: Nasrin

Cataract is leading cause of avoidable blindness. Inspite of NPCB mission towards control of blindness still cataract backlog is there in India. Most of patients are from rural BPL sector with neglected cataracts. This instruction course enlightens beginner and mid level surgeons to sharpen their surgical skills in complex scenarios, i.e., small pupil teaching how to place and remove Iris hooks and pupil expanders, Phaco in Hard cataracts, Mature and Hyper-mature cataracts with special emphasis on perfect continuous curvilinear capsulorhexis & phaco-dynamics in Hard cataracts, Management of subluxated lens/cataracts with Capsular tension ring implantation, Management of Posterior polar Cataract, Management of posterior capsular rupture with automated anterior vitrectomy and Intraocular lens implantation with optimal outcome with video based illustrations.

No.	Topic	Speaker	Min
1.	Iris Hooks -Phaco in small pupil	Raveendra T	12
2.	Pupil expanders-Expertizing insertion and removal in small pupil	Nasrin	12
3.	PPC a 'Nightmare': Dos and Don'ts In Posterior Polar Cataract	Kovagapu Soujanya Kumari	10
4.	Cutting Hard Rock-Dealing with Hard Cataract	Sree Vinya Avula	12
5.	CTR the savior- Phaco in subluxated cataract	Nasrin	12
6.	Art of Automated Anterior vitrectomy-Management Of Posterior Capsular Rupture	Raveendra T	12

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC25 - IRIS & PUPIL REPAIR: VIDEO COURSE

Date :	14-03-2026 (Saturday)
Time :	12:45-13:55
Hall :	Trade Room 4

Chief Instructor: Narang Samir Surendra Kumar

The course tends to highlight the methods and techniques to perform pupil and iris repair. In addition, the course will also highlight the functional and refractive aspect of performing the pupilloplasty.

No.	Topic	Speaker	Min
1.	Nuances, modalities and technique of performing pupil repair	Narang Samir Surendra Kumar	15
2.	Iridodialysis repair & complexities	Narang Priya	15
3.	Complex Iris repair	Ashvin Agarwal	15
4.	Pinhole pupilloplasty and higher order aberrations	Agarwal Amar	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC527 - Oops moments in Refractive Surgery- Preventing & managing them.

Date :	14-03-2026 (Saturday)
Time :	13:00-14:20
Hall :	Meeting Room U-06

Chief Instructor: Gaurav Luthra

Refractive surgery is rapidly evolving—both in the variety of techniques and the number of surgeons adopting them. With this growth comes the potential for "Oops" moments that surgeons must learn to anticipate, prevent when possible, and manage effectively when they occur.

Experienced refractive surgeons will present their own Oops moments across MK and Femto LASIK, SMILE (KLEX), surface ablation, and Phakic IOL surgeries, among others, sharing how they approached and resolved these challenges.

Video-assisted presentations will cover flap complications (e.g., striae, free flaps, buttonholes, epithelial ingrowth), suction loss, black spots, ectasia, aborted or flipped ICL insertions, high/low vaults, and many other scenarios.

By the end of the course, attendees will be better equipped to confidently manage both common and uncommon refractive surgery complications in their own practices.

No.	Topic	Speaker	Min
1.	Introduction	Gaurav Luthra	2
2.	Oops moments in SMILE/ Lenticule procedures and preventing/ managing them	Gaurav Luthra	12
3.	Oops moments in Phakic Lens surgery and managing them	Sonu Goel	8
4.	Oops moments in Refractive Lens exchange procedures- Preventing and managing them	Ashvin Agarwal	8
5.	Oops moments in Microkeratome & Femto flaps- Learning to deal with them	Kumar Doctor	8
6.	Oops moments in Surface ablation procedures- Preempting and managing them right.	Chitra Ramamurthy	8
7.	Dealing with the Unhappy/ Dissatisfied SMILE/ LASIK patient	D. Ramamurthy	8
8.	Refractive surprises after LVC- Dealing with them	Sri Ganesh	8

Panel Discussion : 12 mins

The 84th Annual Conference of All India Ophthalmological Society

Tamil Nadu Ophthalmic Association - VAST in Cataract surgery in difficult situations

Date :	14-03-2026 (Saturday)
Time :	13:00-14:10
Hall :	Atlantiis 3

Chairperson : Sujatha Mohan

Panel : Mohan Rajan, D. Ramamurthy, Nirmal Fredrick, Arulmozhi Varman

Moderator : D.Chandrashekar

1. Management of small pupil in cataract surgery : Vivekanandan V R - 9 Mins
2. White intumescent cataract management : Sujatha Mohan - 9 Mins
3. Subluxated cataract management : Jebintha Brayan - 9 Mins
4. Posterior polar cataract management : Vineet Ratra - 9 Mins
5. Management of brown and black cataracts : Madhuvanthi Mohan - 9 Mins
6. Alternative IOLs after PCR : Nivean M - 9 Mins

Interaction Time - 21 mts

The 84th Annual Conference of All India Ophthalmological Society

Beyond Pills : Reversing Chronic Disease with Lifestyle Medicine (From Control to Cure)

Date :	14-03-2026 (Saturday)
Time :	13:00-14:30
Hall :	Glassroom (Atlantiis)

Chairperson : R K Verma

Co Chairperson : Sudhir Singh

Moderator : Avisha Mathur

Panelists : Siddharth Kothari , Rabbanie Tariq, Priyanka Udawat

1. A way to Chronic Disease Reversal - The Six Pillars of Lifestyle Medicine Speaker : Rabbanie Tariq - 20 minutes
2. Role of Gut health and Therapeutic Nutrition - Case based discussion Speaker - Dr. Priyanka Udawat - 20 minutes
3. The 3 M Rule for Longevity and Antiageing -Practical Tips and Live demonstration (10 min each) - Rabbanie Tariq, Priyanka Udawat, Avisha Mathur - 30 minutes

Discussion 20 minutes

The 84th Annual Conference of All India Ophthalmological Society

IC275 - Posterior Capsule Rupture Management and Newer Secondary IOL Techniques

Date : 14-03-2026 (Saturday)

Time : 13:05-14:15

Hall : Meeting Room U-02

Chief Instructor: Haripriya Aravind

This Video-Based Course and Panel Discussion Will Highlight Tips for Early Identification of Surgical Complications, Nucleus and Cortex Management in the Presence of a Capsule Tear, Anterior Vitrectomy Tips and Technique of IOL Placement in Capsular Bag and Sulcus. Attendees Will Learn Principles of Posterior Capsule Tear Management Along with Several Case Based Scenarios to Help Them Apply These Techniques in Their Clinical Practice. Techniques of Iris Fixation and Scleral Fixation- Both Sfix and Flanged IOL Technique Shall Also Be Discussed.

No.	Topic	Speaker	Min
1.	Introduction	Haripriya Aravind	5
2.	Anterior Vitrectomy Principles	Sujatha Mohan	10
3.	Nucleus Management and Conversion to SICS	Minu M. Mathen	10
4.	Cortex Removal in the Presence of a PCR	Shivkumar Chandrashekharan	10
5.	PC IOL Placement in PCR and Iris Fixation	Haripriya Aravind	10
6.	Flanged SFIOL Technique	Vivekanandan V R	10
7.	Sfix- Scleral Fixated IOL	Prabu Baskaran	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC260 - Refractive Surgery Options and Decision Making

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room L-01

Chief Instructor: Sudhank Bharti

There Are Multiple Options of Corrective Procedures Available in the Armamentarium of Refractive Surgeon. Laser Procedures , Lens Based Procedures, Intra Corneal Rings and Crosslinking Can Manage a Large Spectrum of Refractive Conditions. the Interpretation and Consideration of Basic and Advanced Investigations Like Refraction, Dilated Fundus Examination Including Optic Nerve Analysis, Tear Film Analysis, Corneal Topography and Tomography, Corneal Biomechanics and Analysis of Anterior Chamber and Angle Are Crucial in Decision Making of the Preferred Procedure. the Choice of Postoperative Regime and Its Contraindications in Certain Conditions is Also Important for Decisionmaking.

No.	Topic	Speaker	Min
1.	Refractive surgery overview	Sudhank Bharti	15
2.	Corneal Refractive surgery - Spectrum, indications and considerations	Bhupesh Singh	15
3.	Phakic IOLs - Indications and considerations	Purendra Bhasin	15
4.	Lens based refractive surgery - indications and considerations	Rajendra Prasad	15

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC47 - The Surgical Compass:Redefining Orbital and Lacrimal Procedures with GPS-Based Navigation Technology

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Meeting Room L-01A

Chief Instructor: Kasturi Bhattacharjee

Navigation-assisted orbital and lacrimal surgery is redefining precision and safety in complex procedures. This instruction course offers a comprehensive overview of GPS-based navigation technology and its integration into orbital, lacrimal, and ophthalmic plastic surgery. Key topics include preoperative planning with segmentation, and 3D reconstruction; navigation in deep orbital and apical lesions and foreign body removal; optic canal and orbital trauma repair; and decompression in thyroid eye disease. Endoscopic and lacrimal surgeries will also be covered, emphasizing enhanced accuracy and complication avoidance. Real-world case discussions will illustrate the role of navigation in optimizing both functional and aesthetic outcomes. The course concludes with a panel discussion on future directions in navigation-assisted surgery. Designed for orbit and oculoplasty surgeons, this session delivers valuable insights into cutting-edge technology shaping the future of orbital surgeries.

No.	Topic	Speaker	Min
1.	Using GPS to Reach Destination, Pre-operative planning and its Indications in Oculoplastic Surgery	Vatika Bhardwaj	10
2.	Using GPS System Technology to Navigate in Apical Orbital Tumours and Foreign Body Removal	Aditi Mehta Grewal	10
3.	Using GPS System Technology to Navigate " in Skull Base Lesions" Ophthalmologist Perspective	Raghuraj Hegde	10
4.	Using GPS System Technology to Navigate in Complex Orbital and Optic Canal Trauma Surgery	Kasturi Bhattacharjee	10
5.	Using GPS System Technology to Navigate Orbital Decompression for Thyroid Eye Disease	Tarjani Dave	10
6.	Using GPS System Technology to Navigate in Endoscopic and Lacrimal Surgery	Obaidur Rehman	10

Panel Discussion : 15 mins

IC198 - Diopter by Diopter: A Tactical Journey to Refractive Nirvana

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room L-04

Chief Instructor: Vinita Gupta

Achieving emmetropia isn't just science—it's strategy. In the quest for perfect postoperative refractive outcomes, surgical finesse is essential, but it's the precision of measurements, accuracy of IOL calculations, and continual optimization that ultimately seal the deal. This course dives into the art and science of minimizing refractive surprises—both predictable and perplexing. Participants will explore the tools and tricks to shave off every possible diopter error, manage astigmatism with sophistication, and adapt techniques for complex scenarios like post-keratoplasty and post-refractive-surgery eyes. A high-yield blend of case studies, expert panels, pearls from experience, and interactive dialogue will offer a comprehensive, high-impact learning experience for all ophthalmic surgeons and residents looking to elevate their outcomes from good to great.

No.	Topic	Speaker	Min
1.	Biometric Bootcamp: Precision hacks and pitfalls	Jasleen Dhillon	5
2.	Optimize or Compromise?" - Mastering Biometry Calculations for Predictable Outcomes	Vinita Gupta	9
3.	Toric Turbulence- Taming the Cylindrical Beast	M. Vanathi	9
4.	One Size Doesn't Fit All: Biometry Blueprints for Challenging Eyes	Mohan Shalini	9
5.	Little Eyes, Big Challenges: Cracking the Code of Pediatric Biometry	Vinita Gupta	9
6.	Behind the Graft: Navigating Biometry in Post-Keratoplasty Eyes	Muralidhar Ramappa	9
7.	Refractive Surprise? "Oops! Now What?" – A Survival Guide	Rishi Swarup	9
8.	The Dioptric Truth: Biometry in Post-LASIK and RK Eyes	Saswata Ray	9

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC510 - "Learn from the TOP GUNS of CATARACT: While Chopping, When The Cataract Doesn't Crack, What To Do?"

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room L-05

Chief Instructor: Amit Porwal

Current clinical practice presents a comparatively younger population who has an inclination towards earlier surgeries and premium IOLs. With an increase in surgical experience, with reputation often at stake, surgeons incline towards safer surgery with due consideration to endothelium and posterior capsule avoiding aggressive chopping. After a good rhexis, nucleus cracking becomes the cornerstone of a successful case. In unprecedented scenarios, the nucleus doesn't crack even in experienced hands. Desperation to crack can often worsen the scenario, leading to complications. How to handle this and come out smoothly? This IC will be 100% video based where various experienced surgeons will show their practical situations & how they managed it. What to do in non-cracking soft, hard, hypermature, and Posterior polar cataracts and also when unable to get a crack in stop n chop and direct chop, then how to proceed, will be showcased. Vital pearls & tips for perfect outcome will be discussed.

No.	Topic	Speaker	Min
1.	What do I do when I am not able to crack my soft cataracts.	Naren Shetty	8
2.	When I am not able to crack the Posterior plate of a hard cataract - what do I do?	Minu M. Mathen	8
3.	When I am struggling and not able to get a good crack in my Direct chop - How do I deal with it?	Mathew Kurian	8
4.	When I am struggling and not able to get a good crack In my Stop chop - how do I deal with it?	Amit Porwal	8
5.	How do I deal / crack a Posterior Polar Cataract when I am not supposed to rotate.	J. S. Titiyal	8
6.	When I am not able to crack a rotating nucleus of a Hyper mature Cataract - How do I deal with it?	Haripriya Aravind	8
7.	How do I deal when I am not able to get a good crack in cases when my rhexis has extended or torn.	Krishna Prasad Kudlu	8

Panel Discussion : 14 mins

The 84th Annual Conference of All India Ophthalmological Society

IC252 - Imaging Insights defining treatment algorithms in glaucoma

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Meeting Room L-06 & 07

Chief Instructor: Kirti Singh

Imaging in glaucoma continues its exponential growth with evolving understanding. Imaging insights detailing structural parameters of angle, optic nerve head, macula, filtering bleb define treatment algorithms & disease monitoring. Case scenarios detailing clinical insights of various imaging tools with emphasis on impact on treatment will be shared. Imaging tools discussed would be : Ocular coherence tomography (OCT) namely AS OCT, RNFL, macular ganglion cell complex, OCT angiography with their fallacies and interpretations. Angle dynamics imaging tools including aqueous angiography dictating surgical decisions of cataract alone, MIGS or combined surgery. Ocular surface imaging utilizing Sirius Meibography and conjunctiva under microscope would be explained in correlation to treatment outcomes. Current utility of Ultrasound biomicroscopy in glaucoma management, Optic nerve head imaging including its interpretation and fallacies with focus on myopia confounders will be detailed.

No.	Topic	Speaker	Min
1.	OCT of ONH RNFL and mGCC : Deciding and Redefining treatment	Suneeta Dubey	10
2.	ASOCT of Lens and Angle: Key factor in surgical equations	Kirti Singh	10
3.	Angle imaging and role of aqueous angiography: Deciding factor for MIGS	Shikha Gupta	10
4.	OCT angiography: Current implications	Reena Manchanda Choudhry	10
5.	Ultrasound biomicroscopy: Still a trusted lieutenant	Siddharth Dikshit	10
6.	Gamut of Disc imaging: Documentation and follow up	John Davis Akkara	10
7.	Imaging the innocuous conjunctiva by meibography and histopathology	Arshi Singh	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC193 - Retina Biosimilars: Understanding the Science, Embracing the Aflibercept Future

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room U-01

Chief Instructor: Ashish Sharma

Biologic therapies have revolutionized retinal disease management, but high costs limit accessibility. Biosimilars offer comparable efficacy, safety, and quality at reduced costs (up to 50%). With evolving regulatory frameworks and growing clinical confidence, biosimilars are gaining acceptance. India's early adoption positions it for leadership. The introduction of aflibercept biosimilars will transform treatment for AMD, DME, and RVO. This course provides a comprehensive overview of biosimilars, equipping clinicians to critically evaluate and integrate them into practice.

No.	Topic	Speaker	Min
1.	Understanding Biosimilars, its Regulatory and Drug Trial Design	Nilesh Kumar	8
2.	The Real-World Experience of Ranibizumab Biosimilars: Dr Debdulal Chakraborty	Debdulal Chakraborty	8
3.	The Financial Implications of Biosimilars: Indian Experience	Satya Prakash Tiwary	8
4.	The Nuances of Aflibercept Biosimilars	Ashish Sharma	8
5.	The Future of Innovators in Era of Biosimilars	Jay Sheth	8

Panel Discussion : 35 mins

The 84th Annual Conference of All India Ophthalmological Society

IC396 - Angle-closure glaucoma in the young: exploring the unexplored!

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room U-01 A

Chief Instructor: Prof. Viney Gupta

Course highlights

It would help understand how angle closure glaucoma in young is different from that in older age group, etiologically, biometrically and genetically and management wise.

Angle closure in the young is not so uncommon and can be potentially difficult to manage given the socially productive age group involved.

There is scanty literature about this subtype of PACG in world literature.

It would help understand the aetiology of nanophthalmos, along with imparting understanding about its management and complications.

We will also share our experience as well as long-term outcomes of managing angle closure in young patients as well as of nanophthalmos.

No.	Topic	Speaker	Min
1.	Genetics of angle closure glaucoma in the young: The Indian context:	Prof. Viney Gupta	10
2.	Nanophthalmos: small eyes with big challenges	Shikha Gupta	10
3.	Angle closure glaucoma in the young and retinal dystrophies: What is the association	Nawazish Shaikh	10
4.	Differences between angle closure glaucoma in the young versus the late-onset angle closure glaucoma	Anand Kumar PATHAK	10
5.	Plateau iris in angle closure among the young	Arnav Panigrahi	10
6.	Management options and outcomes of angle closure glaucoma in young	Karthikeyan Mahalingam	10

IC185 - Teaching Ophthalmic Surgery to Generation Z: A Comprehensive Instructional Course

Date : 14-03-2026 (Saturday)

Time : 14:00-15:10

Hall : Meeting Room U-05

Chief Instructor: Rengaraj Venkatesh

This instructional course covers advanced methods for teaching Ophthalmic surgery to Generation Z medical students. The curriculum incorporates Virtual Reality (VR) and Augmented Reality (AR) for immersive surgical simulations, and mobile applications for real-time feedback. It utilizes interactive learning techniques such as the flipped classroom model, gamification, and hands-on practice in simulation labs. The course establishes mentorship programs and encourages peer learning for knowledge sharing and support. Continuous assessment and reflective learning practices are integrated to ensure comprehensive understanding. Additionally, the course emphasizes patient communication, teamwork, ethical practices, and professional development to prepare students for modern clinical practice.

No.	Topic	Speaker	Min
1.	Introduction for Teaching the Generation Z	Rengaraj Venkatesh	10
2.	Eyes on the Future: Virtual Reality and Augmented Reality in the Hands of Gen Z Surgeons	Prasanna Venkatesh Ramesh	12
3.	The Making of a Surgeon: Nature, Nurture, and Everything In Between	Deepak Megur	12
4.	Vision Engineered: My Journey to Bringing a New IOL to Life	Nivean M	12
5.	Innovations in Ophthalmic Teaching - Flipped Classroom to GoPro Live for Surgical Training	Rengaraj Venkatesh	12

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC38 - Electro diagnostic procedures

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Atlantiis 1

Chief Instructor: V.R. Vijaya Raghavan

Understanding the electro diagnostic procedures is not difficult. This course will impart knowledge regarding ERG,EOG and VEP.

Reading the results will be made easy . .

This course will definitely help all the practioners

No.	Topic	Speaker	Min
1.	Basics of Electro retino graphy and it's interpretation	V.R. Vijaya Raghavan	20
2.	Basics of Electro oculogram	K. Srikanth	20
3.	Basics of visually evoked response and it's interpretation	V.R. Vijaya Raghavan	25

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

American Society of Ophthalmic Plastic and Reconstructive Surgery

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Atlantiis 2

1. Ying Chen, MD - Beyond the Eye: Laser applications in functional and aesthetic oculoplastics
2. Alexandria Levitt MD - Functions First: Medical applications of botulinum toxin in ophthalmology and oculopalstics
3. Emily Li MD - Signals of Severity: A contemporary approach to managing orbital cellulitis
4. Fatemeh Rajaii MD PhD - Emerging Therapies for Thyroid Eye Disease

IC462 - Retinoblastoma revisited: What is new in 2026?

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Atlantiis 4

Chief Instructor: Bhavna Chawla

The management of Retinoblastoma has witnessed major advances in recent times. Some of these include newer systems for tumor staging, local routes of drug delivery, and multi-modal protocols for orbital disease. There has been an increasing trend worldwide towards globe salvage and vision preservation using targeted chemotherapy such as Selective Intra-Arterial and Intravitreal chemotherapy. Plaque Brachytherapy and Enucleation remain an integral part of clinical management. A multi-modal approach has significantly improved survival outcomes in extra-ocular disease. Knowledge of all these developments is essential for the practicing ophthalmologist. This course will provide a comprehensive overview of recent advances in the diagnosis and management of Retinoblastoma. Experts in the field will share current treatment practices as well as novel developments. Challenging cases will be presented and management pearls will be shared, concluding with an interactive discussion.

No.	Topic	Speaker	Min
1.	Classification and Staging of Retinoblastoma	Sima Das	10
2.	Clinical Presentation and Differential Diagnosis	Fairooz Puthiyapurayil Manjandavida	10
3.	Selective Intra-Arterial Chemotherapy: When and How?	Bhavna Chawla	10
4.	Intravitreal Chemotherapy for Globe Salvage	Swathi Kaliki	10
5.	Enucleation and Care of the Anophthalmic Socket	Kasturi Bhattacharjee	10
6.	Orbital Retinoblastoma: Challenges and Solutions	Usha Singh	10
7.	Retinoblastoma Genetics	Usha Kim	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

Vitreoretina for the Comprehensive Ophthalmologist – What to Manage & When to Refer

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Trade Room 1

Chairs : Vishali Gupta, Mahesh G.

Proposed Program Structure

1. Diabetic Macular Edema – Practical Management vs Referral Thresholds (6 min) - Mudit Tyagi
2. Proliferative DR – When Can You Treat & When to Call a Retina Specialist? (6 min) - Karobi Lahiri
3. Myths and facts . Prophylaxis for preventing post-surgical endophthalmitis (6 min) - Rajeev Jain
4. Post-operative Endophthalmitis – First Steps & Referral Guidelines (6 min) - Vishal Agrawal
5. AMD – Practical Screening & Referral Red Flags (6 min) - Gagan Bhatia
6. Central Serous Chorioretinopathy – Key Points for General Ophthalmologists (6 min) - Unnikrishnan Nair
7. Pachychoroid Spectrum – Essentials for Diagnosis & Management (6 min) - Naresh Babu Kannan
8. Retinal Detachments – How to Differentiate Rhegmatogenous vs Exudative (6 min) - Manavi Sindal
9. Drug-Induced Retinal Toxicity – What Every Ophthalmologist Must Know (6 min) - Manoj Khatri
10. Vascular occlusions - Key Points for General Ophthalmologists (6 min) - Srinivas Joshi

Interactive Q&A / Panel Discussion (15 min)

The 84th Annual Conference of All India Ophthalmological Society

IC53 - DECODING Dry Eye Disease in general practice: from bench to bedside

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Trade Room 2

Chief Instructor: Samrat Chatterjee

Dry eye disease (DED) is a dynamic condition with evolving understanding—from the 1990s NEI/Industry Workshop to the extensive 2025 Dry EyeWorkshop(DEWS) III guidelines. While these guidelines provide in-depth knowledge, their complexity can be daunting for general ophthalmologists. We aim to provide concise overview of the progression in understanding dry eye disease, from early consensus to the latest global guidelines; simplify diagnostic criteria with practical tools for the general ophthalmologist; differentiate overlapping symptoms of asthenopia to avoid misdiagnosis and mistreatment; provide evidence-based management strategies; and understanding the impact of adnexal and lid pathology in DED and adopting simple interventions like punctual plugs/cautery. The course is designed to equip participants with the confidence and clarity to diagnose, classify, and manage DED effectively, aligning with global, evidence-based consensus recommendations.

No.	Topic	Speaker	Min
1.	NEI to DEWS III: Evolution of concepts through 4 decades	Deepshikha Agrawal	10
2.	Decoding DEWS III: Investigations & diagnosis made easy	Samrat Chatterjee	15
3.	Asthenopia and DED	Anupam Sahu	10
4.	Decoding DEWS III: Treatment	Samrat Chatterjee	15
5.	Lid abnormalities and DED	Mihir Mishra	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

YOSI session 4: Title: Eyes Wide Open: Discussing Young Women's Journeys in Ophthalmology

Date :	14-03-2026 (Saturday)
Time :	14:00-15:10
Hall :	Trade Room 3

Chairpersons : Divakant Misra, Sonal Kalia, Karan Bhatia

Convenor : Prasanna Venkatesh Ramesh, Apoorva Ayachit

Panelists : Gunjan Budhiraja, Nilesh Kumar

Moderator: Nupur Goel

1. Young Women Ophthalmologist in Training : Challenges & overcoming them - Arshi Singh - 8 mins
2. Motherhood and pregnancy -thriving through career breaks financial insecurities and mental stress - Rakhi D Cruz - 8 mins
3. Mindset behind laying up the foundation for your own set up from scratch - Sunandini Bose - 8 mins
4. Gender Equality - still a myth? - Dealing with workplace biases & politics - Lipi Mittal - 8 mins
5. Breaking glass ceiling -gender bias and taking up leadership roles during early career phase - Sonal Kalia - 8 mins
6. Illuminatng Insights : Research Journey in Ophthalmology : Apoorva Ayachit - 8 mins
7. What doesn't kill you makes you stronger - Positivity is the only option! - Rolika Bansal - 8 mins
8. Sight & Insight : Balancing profession and passion - Nupur Goel - 8 mins

Discussion - 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC7 - Cataract surgery with Vitreous disturbance

Date :	14-03-2026 (Saturday)
Time :	14:20-15:30
Hall :	Meeting Room U-02

Chief Instructor: Chitra Ramamurthy

The objective of this course is to discuss threadbare the quintessential issue of vitreous disturbance in cataract surgery.

The course would start off laying down strategic pearls of anterior vitrectomy, use of tricort & safe iol implantation.

It would diversify to elaborate the management pearls of an inadvertent nucleus drop, & steps to forestall it. The course would piecemeal discuss different settings of PCR & circumvent the confounding moments.

It would summarize the management of zonular dialysis additive to existing vitreous disturbance. IOL manipulations in an advent of PCR would throw up different approaches to salvage the dire straits.

It would reroute our thought processes on managing a cataract surgery in silicon oil filled/ vitrectomised eyes. The course would reach a grand finale with complex case scenarios discussed.

The whole course would help the attendees perceive every eventuality of vitreous disturbance in cataract surgery & drive home points on this integral issue.

No.	Topic	Speaker	Min
1.	The art of anterior vitrectomy and the principles	Raksheeth Nathan Rajagopal	8
2.	Management strategies in an eventuality of an inadvertent nucleus drop	Chitra Ramamurthy	8
3.	PCR in different setting with take home pearls	Mahipal S. Sachdev	8
4.	Capsular bag dialysis and vitreous disturbance - Wheel onto a wheel	Gaurav Luthra	8
5.	IOL manipulations in the adversity of PCR - different approaches	D. Ramamurthy	8
6.	Cataract surgery in silicon oil filled/vitrectomised eyes	Kumar Doctor	8
7.	Complex Case scenarios with vitreous disturbance	Shreyas Ramamurthy	8

Panel Discussion : 19 mins

TOSI Session

Date :	14-03-2026 (Saturday)
Time :	15:15-16:00
Hall :	Trade Room 2

Chairman : BNR Subudhi

Co Chair : Sanjeev Mittal

Moderator : Chitaranjan mishra

Convenor : Nabatika Mohanty, Abhishek Sachdeva

Panelists : Manoj Mathur, Kanwaljeet Harjot Madan, Jayant Kumar Das, Madhuri Dixit, Gurvinder Kaur , Sandipak Ray, Dinesh Garg

Introduction : BNR Subudhi

1. Prof S Natarajan - Telemedicine to prevent Diabetic Retinopathy Blindness and other Diabetic Complications - Our Foundation Protocol - 6 mins + 2 mins
2. Rajiv Raman - Using AI for Ophthalmic education - 6 mins + 2 mins
3. Sabyasachi Pattanayak - Teleophthalmology Applications at Vision Centres - 6 mins + 2 mins
4. Chitaranjan Mishra - Agreement in diagnosis and compliance with referrals among the patients referred from vision centers through tele-screening in the Western part of Odisha - 6 mins + 2 mins
5. Purendra Bhasin - Role of Teleophthalmology in Ophthalmic Trauma - 6 mins + 2 mins
6. Sohini Ghosh - Role of AI in Glaucoma Screening - 6 mins + 2 mins
7. Prasanna Venkatesh - Smart Evolution of Teleophthalmology With Augmented Reality & AI - 6 mins + 2 mins
8. Kaneisha Madan - Deep Learning for Early Diagnosis of Diabetic Retinopathy Using CNN Approach - 6 mins + 2 mins
9. Concluding Remark - Sabyasachi Patnaik
10. Discussion - 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Prechopper Symposium

Date :	14-03-2026 (Saturday)
Time :	15:15-16:00
Hall :	Trade Room 3

Chairpersons : Sohel Irfan Khan, Pradip Mohanta

1. Sohel Irfan Khan - Magic of Novel Versatile Prechopper
2. Pradip Mohanta - A paradigm Shift in Soft Cataract Phaco - Prechopper Why and How
3. Pankaj Lande - New Ultrasonic tip for taming Hard Cataracts
4. Amit Porwal - Mastering the Art of Prechopping

The 84th Annual Conference of All India Ophthalmological Society

Haryana Ophthalmological Society Session - Part II

Date :	14-03-2026 (Saturday)
Time :	15:15-16:00
Hall :	Trade Room 4

CHAIRPERSON : MANISHA NADA, VARUN GUPTA, AJAY SHARMA, ASHOK RATHI, NEEBHA

CO-CHAIRPERSON : RAJAN GUPTA

PANELIST : MADAN BAGLA, MONIKA DAHIYA, RUPAL GUPTA, SHACHI SRIVASTAV, RUCHI DABAS

CONVENOR : INDER MOHAN RUSTAGI

MODERATOR : PUSHKAR DHIR

1. MARKANDAY AHUJA - ROLE OF POSITIVE ATTITUDE IN SHAPING YOUR OPHTHALMIC PRATICE: A PERSPECTIVE
2. INDER MOHAN RUSTAGI - FBS : WHY YOU SHOULD JOIN ?
3. SURABHI ARORA - Is it really that easy to start a private practice?
4. PARUL SONY - Innovative and Next-Generation Therapies for Meibomian Gland Dysfunction
5. VISHAL ARORA - UNHAPPY PATIENTS AFTER UNEVENTFUL CATARACT SURGERY !!! Is it so ?
6. KAPIL MIDHA - Role Of Atropine in Myopia Control.
7. ROULI SUD - Eye:The Window to the body
8. NEHA KHANDUJA - EYE BANKING, CURRENT PERSPECTIVES
9. DIGVIJAY SINGH - INTERESTING CASES : MY ENCOUNTERS
10. URMIL CHAWLA - My Journey of Frontalis Muscle Advancement in Severe Blepharoptosis.
11. NARINDER K TANEJA - Vaccination for Doctors

The 84th Annual Conference of All India Ophthalmological Society

IC443 - "Beyond Aphakia: Secondary IOL Implantation Strategies and Techniques."

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Ballroom

Chief Instructor: Jebinth Brayan

This instruction course explores the latest strategies and techniques in secondary IOL implantation for aphakia management. Topics include preoperative evaluation, patient selection, and decision-making for the optimal secondary IOL approach. Experts will discuss sulcus placement and IOL exchange, followed by in-depth sessions on iris-sutured, iris-claw, and scleral-fixated IOLs, covering surgical techniques, intraoperative challenges, and complication management. The course will feature real-world surgical cases, video demonstrations, and a panel discussion to enhance interactive learning. Special emphasis will be placed on choosing the right technique based on ocular anatomy, surgical expertise, and long-term safety. Attendees will gain practical insights for improved patient outcomes, making this session ideal for ophthalmic surgeons seeking to refine their skills in managing aphakic eyes with or without capsular support.

No.	Topic	Speaker	Min
1.	Technique Selection	Siddharth Narendran	8
2.	Sulcus Placement & IOL Exchange	Navaneeth Saggam	8
3.	Iris-Sutured IOLs	Madhu Shekhar	8
4.	Iris-Claw IOLs: Locking Stability with Precision	Jebinth Brayan	8
5.	Flanged SFIOL for Anterior Segment Surgeons	Vivekanandan V R	8
6.	Seven Tips for CM-T Flex IOL	Nivean M	8

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC398 - Dr Know: Navigating my toughest case this year

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Meeting Room L-01

Chief Instructor: Shivani Pattnaik

Cataract surgery remains one of the most rewarding yet unpredictable procedures in ophthalmology. In this interactive instruction course, Dr. Know takes you through the twists and turns of his most challenging case of the year, a complex cataract with multiple intraoperative surprises that tested surgical planning, adaptability, and problem-solving skills. Through real-time surgical footage, step-by-step analysis, and discussion of evidence-based strategies, the course explores preoperative assessment of high-risk eyes, intraoperative decision-making under pressure, and the fine balance between technology and surgical judgment. Attendees will gain practical pearls on managing zonular instability, compromised capsules, and unexpected complications while minimizing patient risk. Designed to sharpen your surgical reflexes and enhance outcomes, this session turns a difficult case into a powerful learning experience.

No.	Topic	Speaker	Min
1.	License to skill: Masterplan for complex cataract cases	Shivani Pattnaik	8
2.	Whitewash paradox : Management of white cataracts	Doctor Sumer Kumar	7
3.	Cataract dilemmas: Complex cataract cases and management	Prasanna Venkatesh Ramesh	7
4.	Cataract combat: My toughest cases this year	Samaresh Srivastava	7
5.	Slice and dice: Management of hard cataracts	Vardhaman Kankaria	7
6.	Touch me not: Intraoperative miosis and management	Kumar Doctor	7
7.	Clear the clouds: Management of subluxated cataracts	Harshul Tak	7

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC517 - Beyond Textbooks: Innovative Tools and Practical Solutions for Everyday Ophthalmology

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Meeting Room L-01A

Chief Instructor: Atul Bhirud

Today's ophthalmologist is expected to deliver high-quality care despite rising patient loads, limited resources, and time constraints. This unique instruction course presents a collection of smart, low-cost, and effective clinical innovations created by practicing ophthalmologists to solve everyday problems. From a DIY slit-lamp mounted fundus camera to quick screening techniques that streamline OPD flow, and from reusing discarded IOLs to AI-assisted solo surgery, each idea is designed for immediate use in real-world settings. The course combines creativity with practicality, offering high-yield tips that improve diagnostic accuracy, surgical preparedness, and patient outcomes without relying on expensive technology. Perfect for general ophthalmologists, postgraduates, and early-career consultants, this session promises to inspire a spirit of innovation and equip attendees with tools to transform their practice starting tomorrow.

No.	Topic	Speaker	Min
1.	'Full-tilt Screening': A Novel Technique to Debulk OPD load	Anchal Tripathi	7
2.	DIY Universal Slit-Lamp Mounted Fundus Imaging	Mohini Agrawal	7
3.	Pocket Lab Microscope: A Game-changer	Prithvi Chandrakanth	7
4.	Greased Lightning First Aid: A Fast and Focused Approach to Ocular Trauma	Avinash Mishra	7
5.	Demystifying Dry Eye Examination: Simple tools and Techniques	Sandeep Gupta	10
6.	Smart Gonioscopy : INDiGo - Universal Slit Lamp-Mounted Indentation Gonio Photography	Atul Bhirud	10
7.	Artificial Intelligence in OT: One-Man Army Show	Chaitanya Ankem	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC529 - "Beyond the Microscope: Mastering the Business of Private Practice"

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room L-02

Chief Instructor: Krishna Poojita Vunnava

Embarking on a private ophthalmic practice can be both exhilarating and overwhelming. While clinical acumen is foundational, navigating the multifaceted world of practice management is often the most daunting challenge for new practitioners. This instruction course demystifies the less-discussed, yet crucial elements of running a successful private setup. Participants will explore the evolving digital landscape and understand how to harness it for visibility and growth. We'll tackle the branding conundrum—personal versus organizational. The often-undervalued role of paperwork and documentation will be reframed as a strategic asset. We will examine whether specialty-focused practice is viable only within institutions, or can thrive privately. Operational excellence and its impact on scalability will be discussed, alongside a simplified, practical approach to decoding balance sheets for smarter decision-making. A must-attend for ophthalmologists aiming to thrive beyond the clinic.

No.	Topic	Speaker	Min
1.	Importance of Digital Landscape In Private Practice: Learning the fine print	Krishna Poojita Vunnava	7
2.	Safeguard with Signatures: Paperwork Demystified"	Mathew Kurian	7
3.	Branding: Personal Vs Organization; the dilemma	Abdul Rasheed	7
4.	Operational excellence : As an instrument to scale your practice	Kamal Bandhu Kapur	8
5.	Is Specialty Care Breaking Out of the Institute Walls?	Charuta Puranik	7
6.	Covered & Connected: The Role of Empanelment in Practice Growth	Samina F Zamindar	7
7.	Decoding the Balance Sheet	Sumeet Lahane	7

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC548 - Dropless Cataract Surgery: The way to go

Date :	15-03-2026 (Sunday)
Time :	08:30-09:40
Hall :	Meeting Room L-03

Chief Instructor: Abhishek Chandra

With the better understanding of ocular anatomy and physiology and advances in the surgical management of cataract, today cataract surgery has truly become an outdoor procedure. But despite the advances putting frequent drops and its compliance remains a major hurdle. Two major challenges warrant the use of these drops; risk of infection and post-operative inflammation.

Hundreds of studies have now proven that intra-cameral moxifloxacin reduces the chances of endophthalmitis manifolds. Similarly injection of triamcinolone acetonamide takes care of post-operative inflammation for at least a month. Hence we can use them intra-operatively and in postoperative period we shall not use any drops. Numerous National and International studies have been performed earlier and we too have performed the same. This course would enable the delegates to learn this technique along with benefits and risks involved with it. Patient selection and surgical technique would be the key highlight of this IC.

No.	Topic	Speaker	Min
1.	Understanding the concept of droplets cataract surgery	Abhishek Chandra	15
2.	Technique of Performing Dropless Cataract Surgery	Neha Shilpy	15
3.	Patient selection and precautions during surgery	Govind V Khalkho	15
4.	Risks and benefits associated with this technique	Sonali Singh	15

Panel Discussion : 15 mins

IC165 - Decoding Complex Capsular Dilemmas: Expert Approaches and Practical Precautions

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Meeting Room L-04

Chief Instructor: Tushya Om Parkash

Videos will illustrate CCC challenges in zonulopathy, Morgagnian & intumescent cataracts, fibrotic capsules & Anterior capsular plaques, PXF, CCC rescue & anterior capsular tears, flap motility sign for diagnosing anterior capsular tear extent, end point of safe phacoemulsification with conversion to manual techniques, appropriate site for IOL & safe phacoemulsification techniques. Videos will illustrate pearls for holding mobile nucleus in Morgagnian cataract & pearls to enlarge CCC. Videos will show PCR prevention with IOL scaffold, PCR during nuclear emulsification, anterior/posterior vitrectomy options with use of techniques and scaffolds to prevent nucleus drop, sutureless IOL fixation, converting PCR to posterior CCC, PPC with & without pre-existing PCR, PHPV, Spherophakia, ectopic lentis, use of hooks, rings, segments & hard nuclear fragments for capsular support in zonulopathies, subluxated/dislocated bag IOL complex fixation. Use of FLACS & AS-OCT in challenging cases will be shown

No.	Topic	Speaker	Min
1.	Red Flags and Rescue: Managing Anterior Capsular Tears and CCC Complications	Tushya Om Parkash	10
2.	Congenital Lens Comorbidities Demystified: A Stepwise Surgical Approach	Om Parkash Rohit	10
3.	Rescuing the Posterior Capsule: Scaffold Use, Vitrectomy Options, and IOL Fixation techniques	Vaishali Abhaykumar Vasavada	8
4.	Fixing the Unstable: Zonulopathies, Bag-IOL Complexes, and Imaging-Guided Precision	J. S. Titiyal	8
5.	The Art of Capsular Rescue: My strategies for safer cataract surgery	Arup Chakrabarti	8

IC226 - How we see beyond, in little eyes too

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Meeting Room L-05

Chief Instructor: Akash Belenje

This Instruction course aims to discuss the newer advances in Screening, Imaging, and Surgical techniques for Pediatric Retinal Diseases.

We aim to cover the following important topics:

1. Importance of Universal eye screening in neonates.
2. Fundus photography in infants.
3. Optical coherence tomography biomarkers in disease prognostication in retinopathy of prematurity.
4. Oral fundus fluorescein dye angiography (OFDA) in retinopathy of prematurity practice.
5. Modified scleral imbrication with scleral buckle for complex pediatric retinal detachments.
6. Advanced surgery in retinopathy of prematurity stage 4A/4B.
7. Tackling membranes in stage 5 retinopathy of prematurity.

Our speakers have both the expertise and experience in managing complex pediatric retinal diseases. The instruction course aims to cover the imaging and surgical challenges in various case scenarios for pediatric retinal diseases.

No.	Topic	Speaker	Min
1.	Importance of universal eye screening in neonates	Suman Sahu	6
2.	Fundus photography in infants	Bhagyashree D Meshram	6
3.	Optical coherence tomography biomarkers in retinopathy of prematurity disease prognostication	Dhanush Pandya	6
4.	Oral fundus fluorescein dye angiography (OFDA) in retinopathy of prematurity practice.	Akash Belenje	6
5.	Modified scleral imbrication with scleral buckle for complex combined pediatric retinal detachments	Subhadra Jalali	6
6.	Advanced surgery in retinopathy of prematurity stage 4A/4B	Tapas Padhi	6
7.	Tackling membranes in stage 5 retinopathy of prematurity	Komal Agarwal	6

IC536 - Keratorefractive lenticular Extraction- Unplugged - Mastering the art and science

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Meeting Room L-06 & 07

Chief Instructor: Purnima Dhand

Keratorefractive lenticular extraction using femtosecond laser 2 MHz is redefining the standards in refractive surgery, especially for myopic astigmatism. this instruction course aims to provide an in depth real world overview of Klex with practical insights into smart centration using ocualign, cyclotorsion correction with IOL master 700 iris registration details and technique for lenticule extraction. It also seeks to address centration decisions in high astigmatism and intra operative and post operative complications and their management. Featuring video- based demonstrations , complications management and real case analytics with focus on ocualign this course is designed to equip both novice and experienced surgeons with additional skills.

No.	Topic	Speaker	Min
1.	Introduction to KLEX - Concept and Evolution	Purnima Dhand	10
2.	Addressing centration and cyclotorsion- Precision in refractive surgery without the mark	Sonu Goel	10
3.	Docking Done Right- Challenges in Deep sockets, small pupil and anxious patients	Sheetal Brar	10
4.	Lenticule Extraction- Step by Step Guide	Jaswant Singh Thind	10
5.	Oops to Optimized - handling intraoperative challenges	Aditya Verma	10
6.	Outcome Optimization - Predictable Astigmatism correction and nomogram tips	Gaurav Luthra	10

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-01

Chief Instructor: Bhavik Panchal

"From Diagnosis to Recovery: Expert Approaches to Rhegmatogenous Retinal Detachment" is a comprehensive course designed for residents, fellows and young faculty offering a deep dive into the management of Rhegmatogenous Retinal Detachment (RRD). The curriculum begins with diagnosing retinal detachment and identifying retinal breaks. Participants will then explore various treatment techniques, including pneumatic retinopexy, scleral buckle procedures, and vitrectomy, with detailed guidance on when and how to apply each method. The course also addresses the management of proliferative vitreoretinopathy (PVR), a common complication of RRD, and discusses the latest biomarkers that predict successful surgical outcomes. Through expert lectures, interactive videos, and case studies, attendees will gain critical skills and knowledge to effectively diagnose, treat, and ensure optimal recovery for patients with RRD.

No.	Topic	Speaker	Min
1.	Introduction to Rhegmatogenous Retinal Detachment	Bhavik Panchal	2
2.	Diagnosing Retinal Detachment	Dhwaneer Agarwal	10
3.	Pneumatic Retinopexy: Techniques and Applications	Bhavik Panchal	10
4.	Scleral Buckling: Traditional and Modern Approaches	Sharat Hegde	10
5.	Vitrectomy in Retinal Detachment	Awaneesh Upadhyay	10
6.	Tackling Proliferative Vitreoretinopathy	Divyansh Mishra	10
7.	Biomarkers for Successful RRD Surgery	Chitaranjan Mishra	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC303 - Refractive tool box for the comprehensive ophthalmologist- corneal imaging decoded

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-01 A

Chief Instructor: Ramya Ravindran

Most comprehensive ophthalmologists perform refractive surgery. With plenty of newer investigative modalities , and the older ones still be critical to planning surgery , understanding clinical interpretation of tomography, aberrometry and OCT becomes highly important . This ic will go over tomography with both Pentacam and Sirius as well as, aberrometry and Anterior segment oct will be discussed in detail.

Basics of what to look for in ectasia as well as planning procedure based on maps will be discussed.

No.	Topic	Speaker	Min
1.	Pentacam- understanding and interpretation	Bhaskar Srinivasan	8
2.	Sirius tomography	Ruchika Pattanaik	8
3.	Aberrometry in detail	Pooja Khamar	9
5.	Anterior segment OCT- deciphered	Ramya Ravindran	8
5.	Epithelial mapping- new kid in the block	Nilay Patel	8

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC282 - Clinic To Career: Designing a thriving Ophthalmic Practice

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-02

Chief Instructor: Mohit Khattri

A young post graduate in Ophthalmology, with dreams in heart and butterflies in mind often finds himself at the crossroads of a long ophthalmic career. He needs crisp guidance on reality checks so as he can choose the correct career option and also find smooth sail in his ophthalmic journey. This course shall incorporate experienced faculty who can guide the young guns the art of developing an illustrious career preserving sight and ethics, developing a good, thriving practice and also preserving the academic front of the young doctor.

In this course, we shall discuss the financial management, work life balance, practice building and expansion methodologies along with discussion over the various career options to choose in life.

this course shall have a long lasting impact on the mindset of the young ophthalmologists and shall certainly pave their way to a glorious career ahead

No.	Topic	Speaker	Min
1.	Scale Your Dreams With Reality Check	Sudhir Srivastava	8
2.	The Scratch Of My Career	Navendu Rai	8
3.	Charms Of Institutional Practice	Mohan Shalini	10
4.	Group Practice: Need Of The Hour	Mohit Khattri	8
5.	Setting Up An Eye Hospital: The Correct Way	Manish Mahendra	12
6.	Expansions: The Correct Way	Anagha Heroor	10
7.	Common Mistakes In Career	Jatinder Wahi	12

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC439 - Refractive surgery- How to plan Refractive surgery in your setup- a guide for Ophthalmologists

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-03

Chief Instructor: Kareeshma Wadia

This IC aims to educate Ophthalmologists in all stages of their practice on how to plan their venture into Refractive surgery. Very often, one may not have finances to set this up individually. On the other hand, you may have the venture capital but need to know how to pave the way ahead. Being attached to a Multispecialty hospital with all facilities is another option and lastly, investing into a group practice. In this IC, we have 1 speaker from each different situation highlighting the pros and cons of each scenario, based on which, one may be able to choose the option most feasible and viable to them.

No.	Topic	Speaker	Min
1.	Setting up a Refractive surgery practice single handedly	Nitin Balakrishnan	15
2.	Multispeciality Hospital with all surgical facilities- is it the right choice for me?	Sujal Surendra Shah	15
3.	Group Practice in Refractive surgery- is it the truly the way forward?	Malkan Nitin Ramanlal	15
4.	Flying solo with freelancing- is it the right choice for the budding Ophthalmologist	Kareeshma Wadia	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC459 - Vitrectomy Basics Reimagined: A Step-by-Step Surgical Playbook for Young VR Surgeons

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-05

Chief Instructor: Vaibhav Sethi

This instruction course is designed to simplify foundational vitrectomy techniques for early-career vitreoretinal surgeons. Covering everything from optimal port placement and machine settings to membrane dissection and tamponade selection, the course walks participants through a logical surgical flow. Each topic is backed by practical insights, surgical videos, and real-world tips. Emphasis will also be placed on peripheral vitrectomy, controlled fluid-air/gas/oil exchanges, and advanced manoeuvres like chandelier-assisted bimanual surgery and retinectomy. The goal is to equip young surgeons with the confidence and clarity to approach every case with precision and preparedness.

No.	Topic	Speaker	Min
1.	Mastering the Machine: Cutters, Fluidics & IOP	Kshitij Raizada	5
2.	Port Placement, Core Vitrectomy & PVD Induction	Srishti Ramamurthy	5
3.	PFCL, Air & Silicon Oil: Controlled Exchanges	Prithvi Chandrakanth	5
4.	Staining & Peeling: ERM, ILM & PVR Membranes	Diva Kant Misra	5
5.	Peripheral Vitrectomy, Breaks & Tamponade Choices	Vaibhav Sethi	5
6.	Advanced Moves: Retinotomy, Retinectomy & Bimanual Surgery	Shishir Verghese	5

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC274 - Addressing Presbyopia : A Thorough Evidence based Deep Dive into the Ageing Phenomenon

Date : 15-03-2026 (Sunday)

Time : 08:30-09:25

Hall : Meeting Room U-06

Chief Instructor: Rohan Mehra

Presbyopia, the age-related decline in near vision, can be corrected with various methods, primarily involving eyeglasses, refractive surgery or refractive cataract surgery. The growing expectation of patients from their ophthalmologists to be spectacle free has put extreme pressure on doctors to over promise the final outcome, which leads to dissatisfaction amongst patients if not achieved as planned. The IC will incorporate the science and process behind eliminating the need for glasses along with keeping the doctor patient relationship cordial and happy.

No.	Topic	Speaker	Min
1.	Cataract or LASIK in Presbyopia Correction: When What How?	Naren Shetty	10
2.	Trifocals vs EDOF : Science and Evidence for good near vision	Vaishali Vasavada	10
3.	Role of Cornea in Management of Presbyopia	Karan Bhatia	10
4.	Presbyopia Correcting Lenses : A long Term Analysis	Bhupesh Singh	10
5.	Age 40!! The Magic Number or is it?	Rohan Mehra	10
6.	The Lifestyle Need to Address Presbyopia	Pooja Mehta	10
7.	Despondent Patients post Presbyopia Correcting Procedures: My SOP and Protocols	Himanshu Rasiklal Mehta	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC206 - CATARACT MULTIVERSE – THROUGH A SUPER-SPECIALIST EYES

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Atlantiis 1

Chief Instructor: Nishanth Madhivanan

Phacoemulsification has been the gold standard for cataract surgery for many years, due to its minimally invasive nature, small incision, faster healing, quicker visual recovery and reduced risk of complications.

The difficulty faced with ophthalmologists is when there is an ocular co morbidity existing along with cataract.

This instruction course is unique, where cataract is dealt with all other ocular co-morbidity like Glaucoma, compromised corneas, retinal pathologies and post refractive surgeries .

This Unique course is designed to help all the ophthalmologists to deal with cataract surgeries with underlying pathologies. We have super-specialists who will be sharing their tips, tricks and ideas how to manage and deal with cataract with other ocular co-morbidities. It will help ophthalmologists to plan before hand and not to expect any intra operative or post operative surprises .

No.	Topic	Speaker	Min
1.	Bad ocular surface to great visual comfort	Advaith Sai Alampur	10
2.	Cataract post refractive surgery- How to achieve Emmetropia?	Aadithreya Varman	10
3.	IOP Spike - How to control Before, during and after phacoemulsification ?	Nagalekshmi S.V.	10
4.	Not a clear cornea?- Management techniques during phacoemulsification	Nishanth Madhivanan	10
5.	Traumatic Paediatric cataract - Do's and Don'ts	Shruti Nishanth	10
6.	Posterior segment pathologies with cataract - Management techniques	Madanagopalan V. Govindarajan	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC444 - Periorbital Aesthetics: Fix That Face! From Finesse to Fabulous

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Atlantiis 2

Chief Instructor: Sahil Agrawal

This instruction course offers a practical approach to periorbital and facial aesthetics, blending essential techniques with real-world tips for beautiful and natural results. Using clinical photographs and video-assisted demonstrations, the course will provide a comprehensive overview of noninvasive to invasive rejuvenation.

The session begins with Facial evaluation focusing on symmetry, and age-related changes to guide aesthetic planning. Noninvasive techniques of lasers-based resurfacing and fillers will emphasize on anatomy, safety, and subtle enhancement. Fat grafting will cover harvesting, processing, and restoring youthful volume in key areas. Blepharoplasty, midface lift and rhinoplasty will be presented as synergistic procedures for overall facial balance.

Designed to bridge patient expectations with a surgeon's eye, the session promises to deepen clinical insight, sharpen hands-on skills, and inspire confidence in modern aesthetic practice.

No.	Topic	Speaker	Min
1.	Reading and Restoring the Aging Face: Key to Aesthetic Planning	Mridula Malhotra Mehta	10
2.	Precision in Periocular Resurfacing: Laser-Based Approaches	Prerana Tahiliani	10
3.	Fill It Fine: Hyaluronic Acid Filler Techniques, Tips & Tricks	Adit Gupta	10
4.	Autologous Fat Grafting: Restoring Volume Naturally	Neelam Pushker	10
5.	Fixing the Frame: Blepharoplasty in Young, Old, and Everything in Between	Sahil Agrawal	10
6.	Eyelid and Facial Scar Revision: Principles and Practice	Rachna Meel	10
7.	Deep Plane Face Lift & Rhinoplasty - Next Frontiers for the Oculo Facial Plastic Surgeon	Debraj Shome	10

Panel Discussion : 5 mins

IC152 - Phaco Surgery: From Fundamentals to Excellence

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Atlantiis 3

Chief Instructor: Tanvi Haldipurkar

"Phaco Surgery: From Fundamentals to Excellence" is a comprehensive course designed to guide surgeons at all levels through their phacoemulsification journey. We begin with the core concepts of machine dynamics and fluidics, essential for safe and effective phaco. A detailed step-by-step breakdown of the surgical technique follows, with tips tailored for beginners. We then delve into handling complex scenarios—hard cataracts, small pupils, and other intraoperative challenges—offering practical solutions. The session on complication management addresses common pitfalls and rescue techniques. Finally, we explore advanced innovations, including femtosecond-assisted cataract surgery and emerging technologies, providing a future-ready perspective for the modern surgeon. The speakers will share their collective wisdom to fine tune cataract cases and their outcomes

No.	Topic	Speaker	Min
1.	Step-by-Step Phaco: Mastering Each Stage for Safe Surgery”	Zain Khatib	12
2.	Step-by-Step Phaco: Mastering Each Stage for Safe Surgery”	Tanvi Haldipurkar	12
3.	Handling Challenges: Managing Hard Cataracts, Small Pupils, and Complicated Cases	Sri Ganesh	12
4.	Complication Management: What to Do When Things Go Wrong	Suhas Haldipurkar	12
5.	Advanced Techniques: Phaco Innovations & Future Trends	Sourabh Patwardhan	12

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC88 - Ideate, Implement, and Take it Global- Ultimate Guide for Innovation!

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Trade Room 1

Chief Instructor: Nileshe Kumar

Innovation is often seen as an elusive pursuit reserved for experts, but it is fundamentally a structured process involving problem identification, exploration, iterative development, and execution. This 75-minute session demystifies innovation and presents it as an accessible journey for individuals aiming to convert observations into impactful solutions. It begins with methods for identifying unmet needs and generating ideas using need-gap analysis and first-principle thinking. It then explores navigating roadblocks through resilience, feedback, and agile problem-solving. The course also addresses prototyping, validation, and pathways to scale, including IP strategy and global adoption. Finally, it introduces the idea of building innovation ecosystems, where individual ideas evolve into interconnected products. Through practical insights, the session positions innovation as a repeatable, empowering process rather than a distant goal.

No.	Topic	Speaker	Min
1.	From Observation to Opportunity: Identifying Ideas with Impact Potential	Nileshe Kumar	8
2.	Resilience in Innovation: Navigating Roadblocks Through Iterative Problem Solving	Suven Bhattacharjee	8
3.	Scaling Innovation: Strategies for Global Adoption and Sustainability	Ashish Sharma	8
4.	Rapid Prototyping and Iterative Design: The Role of Continuous Refinement	John Davis Akkara	8
5.	From Products to Platforms: Building Interconnected Innovation Ecosystems	Prasanna Venkatesh Ramesh	8

IC367 - A to Z of Ptosis Surgery – A Video Based Approach

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Trade Room 2

Chief Instructor: Rwituja Thomas

Ptosis surgery is one of the most satisfying yet intriguing procedures for an oculoplastic surgeon. Its varied approaches, nuances, and challenges make it a topic of daily discussion. This course aims to cover every type of ptosis surgery in current practice, with each speaker being an expert in their method. After a basic overview of evaluation and decision-making, surgical videos will guide us through techniques for congenital and acquired ptosis, divided into anterior and posterior approaches. The anterior approach includes levator resection; the workhorse and most beloved yet technically demanding surgery; followed by frontalis sling (fascia-lata and silastic), the go-to for severe cases, and the evolving frontalis-flap procedure. Posterior approaches include MMCR and Fasanella-Servat for mild ptosis, and white-line advancement for mild to moderate cases; an elegant, repeatable technique. Each speaker will also discuss complications and how to manage them effectively.

No.	Topic	Speaker	Min
1.	Evaluating and deciding on the best procedure	Doctor Sumer Kumar	10
2.	Levator resection – the quest for perfection	Maya Hada	10
3.	Frontalis sling : all the variations	Ashok Kumar Grover	10
4.	Frontalis flap – teaching you the tricks	Raghuraj Hegde	10
5.	Mild Ptosis? Mild problem!	Rwituja Thomas	10
6.	The White Knight – WLA for the win	Akshay Nair	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC139 - Best approaches for best outcomes in Premium Cataract Surgery

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Trade Room 3

Chief Instructor: Anujeet Paul

This course will cover essential aspects of patient counselling for cataracts, focusing on advanced technology IOLs, and include preoperative, intraoperative, and postoperative considerations that a surgeon must take into account. It will be delivered through a video-assisted course in question-and-answer format and case-based scenarios, involving interaction between the audience and instructors. Attendees will gain an understanding of key factors in selecting advanced technology IOLs, preoperative predictive factors for optimal outcomes, intraoperative decision-making, and best practices while performing these surgeries.

No.	Topic	Speaker	Min
1.	Science meets art: counselling for Premium Cataract Surgery	Anujeet Paul	10
2.	Don't miss the bullseye: Pupil size and Premium IOLs	Sugato Paul	10
3.	Match them wisely: Cornea and Premium IOLs	Subhrangshu Sengupta	10
4.	Best practices to bring the 'premium' in your surgery	Arup Bhaumik	10
5.	Intraoperative challenges — how to rescue a premium surgery gone wrong?	Ayan Mohanta	10
6.	Planning Premium IOLs for the second eye: myriad of scenarios	Sudipta Mitra	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC76 - Routine isn't always Risk-free: Glaucoma after routine intraocular surgeries.

Date :	15-03-2026 (Sunday)
Time :	08:30-09:25
Hall :	Trade Room 4

Chief Instructor: Shruthi S.

Intraocular surgeries like cataract extraction, vitreoretinal procedures, corneal surgeries and refractive procedures are routine in modern ophthalmology practice; yet they carry a significant risk of inducing secondary glaucoma. The incidence ranges from 0.7% to 35% and constitutes a major portion of glaucoma cases seen in the clinic. This instruction course aims to highlight the risk factors, mechanisms, and clinical presentation of glaucoma following common intraocular surgeries. Four case-based talks will cover pseudophakic glaucoma, challenges after ICL implantation, secondary glaucoma after corneal procedures (keratoplasty/KPro) and post-vitrectomy IOP rise. Emphasis will be placed on early diagnosis, imaging, preventive strategies and surgical management. A keynote address will discuss IOP spikes due to steroid response and increased inflammation which may occur following any intraocular intervention and consolidate pearls for prevention and management of iatrogenic glaucoma.

No.	Topic	Speaker	Min
1.	IOP surprises after cataract surgery -what to look for?	Menaka S.V.	11
2.	IOP rise secondary to corneal procedure	Sathi Devi A.V.	11
3.	IOP challenges post-refractive surgeries	Shruthi S.	11
4.	IOP spike post vitreoretinal interventions – clinical clues and solutions	Rashmi Krishnamurthy	11
5.	From Routine to Resilient: Elevating Safety Protocols in Intra and postoperative care	Shruthi S.	5

Panel Discussion : 6 mins

The 84th Annual Conference of All India Ophthalmological Society

IC271 - What the heck is EDOF?

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Ballroom

Chief Instructor: Sourabh Patwardhan

EDoF or extended depth of focus IOLs are a new breed of premium IOLs. They are supposedly better than trifocals and will soon replace multifocal and trifocals...but is that so? Let's find out from the experts from their experiences with different EDoF IOLs. Personal data of achieved results as well as aberrometric data will also be discussed. The Instruction course will also discuss options for different case scenarios. Which Lens is chosen by experts for the particular cases will be discussed. It is a very practical and interactive course.

No.	Topic	Speaker	Min
1.	Optical principles and categories of EDOF IOLs	Sourabh Patwardhan	20
2.	Aberrometric profile of different EDOFs	Amit Kumar Mahajan	8
3.	Real life experience of using different EDOFs	Deshpande Nitin Suhas	8
4.	Why I still prefer Trifocal lenses?	Shon Vasantrao Chinchole	8
5.	Unhappy patients after EDOF implantation	Nidhi Patwardhan	8
6.	Case Based discussion	Sourabh Patwardhan	20

Panel Discussion : 3 mins

The 84th Annual Conference of All India Ophthalmological Society

IC382 - Keratopigmentation

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room L-01

Chief Instructor: Tulika Chauhan

This detailed instructional course explores cutting-edge advances in the technique of keratopigmentation involving the intrastromal or superficial deposition of biocompatible pigments for therapeutic and cosmetic purposes. Initially used to mask corneal opacities, its indications now include photophobia, iris defects and aesthetic enhancement. This course provides a structured overview of keratopigmentation, including its historical development, clinical indications and contraindications, periocular cosmetic applications, surgical dyes, and current techniques

No.	Topic	Speaker	Min
1.	Historical Hues: A History of Keratopigmentation	Ameeta Koul	10
2.	Eye-deal Pigments and Candidates: Classic and Novel Indications	Tulika Chauhan	10
3.	Hue's Who of Keratopigmentation: Surgical insights into the art of keratopigmentation	Garvita Dabas	10
4.	Precision coloring: using FS lasers and tattoo guns	Kanika Bhardwaj	10
5.	Tints of Trouble: Complication Profiles in Keratopigmentation	Aditi Agarwal	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC280 - Retinal Laser Essentials: A Hands-On Guide for the Comprehensive Ophthalmologist

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room L-01A

Chief Instructor: Shrikant

This course is designed to empower comprehensive ophthalmologists and young surgeons with the skills to confidently perform retinal laser photocoagulation in routine practice. It covers essential concepts, including laser physics, clinical indications, safety protocols, and step-by-step techniques for common retinal conditions such as diabetic retinopathy, retinal vein occlusion, and peripheral retinal breaks and degenerations.

Participants will also learn how to assess treatment outcomes and manage post-laser follow-up effectively. The module allows deeper exploration into either setting up a laser practice, managing special clinical situations like pregnancy or hazy media, or understanding subthreshold and micropulse lasers.

Led by experienced faculty, the course blends foundational knowledge with practical insights, aiming to shorten the learning curve and facilitate the safe and efficient integration of laser into everyday ophthalmic care.

No.	Topic	Speaker	Min
1.	Fundamentals of Retinal Laser Photocoagulation	Kamaljeet Singh	10
2.	Setting Up Your Laser Station: Equipment, Workflow & Practice Tips	Jivitesh Singh	8
3.	Step-by-Step Laser Approach in Diabetic Retinopathy	Pranav Saluja	8
4.	Laser in Retinal Vein Occlusion: A Practical Guide	Smriti Gahalain	8
5.	Retinal Breaks and Degenerations: What Requires Laser?	Diva Kant Misra	8
6.	Subthreshold and Micropulse Laser: What Every General Ophthalmologist Should Know	Tanvi Jain	8
7.	Post-Laser Follow-Up: What to Monitor and When to Intervene	Shrikant	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC203 - MANAGING FLUID FLOW ISSUES DURING PHACOEMULSIFICATION

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Meeting Room L-02

Chief Instructor: Jayashree Baruah

Understanding fluid flow in the eye and principles of the phaco machine and its various parameters are essential for safe and effective phaco surgery. Inside the eye during cataract surgery, transient or reversible deformation (elasticity) and permanent or irreversible deformation (flow) can both apply. This instruction course will deal with a number of issues relating to the fluid flow in the eye during cataract surgery, which can hinder or help the operating surgeon in removing a cataract. Eminent speakers who are masters in this field will enlighten us on how to deal with numerous complications, which can occur at the time of surgery which relies on an understanding of how fluidics help to control the pressurised eye resulting in successful surgery. At the end of this course attendees will gain sufficient knowledge regarding fluid dynamics which help to establish control and stability in the anterior chamber and deliver the best cataract surgery outcomes.

No.	Topic	Speaker	Min
1.	MASTERING THE PHACODYNAMICS	Gariyashee Lahkar	10
2.	MANAGING FLUIDICS IN SHALLOW ANTERIOR CHAMBER	Nilanjan Kaushik Thakur	10
3.	CHALLENGES IN SMALL PUPIL	Haimanti Choudhury	10
4.	DEALING WITH REVERSE PUPIL BLOCK	Swaraj Bhattacharjee	10
5.	FLOW ISSUES AFTER POSTERIOR CAPSULAR RUPTURE	Jayashree Baruah	10
6.	ROLE OF FLUIDICS IN POST VITRECTOMISED EYES	Manas Nath	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC31 - All Round Approach to Ocular Allergy – Cases, Conundrums and Consensus

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room L-04

Chief Instructor: Sumana Chatterjee

Ocular allergy severely affects the quality of life, specially in children. More than 50% of patients also have dry eyes with increased concentration of inflammatory factors in decreased tear volume, thus worsening the symptoms. As the relationship between chronic eye rubbing and corneal epithelial remodelling, which may lead to keratoconus, is better understood, the early detection of these cases prevents loss of vision. The immunosuppressives and newer biologics providing long-term remission of symptoms are an important addition to the treatment protocol. Our course aims to sum up the spectrum of allergic eye disorders with the complications and atypical presentations, the newer diagnostic approaches in identifying specific allergens, and a customised medical and surgical management plan to cater to individualised needs, thus improving the quality of care.

No.	Topic	Speaker	Min
1.	Spectrum of Allergic Eye Diseases – Dr. Radhika Natarajan	Radhika Natarajan	15
2.	Complications and outlier cases, and their Challenges	Jaya Gupta	15
3.	3. Algorithmic Approach and Immunosuppression	Sumana Chatterjee	15
4.	Surgical Approaches in Ocular Allergy	Mugundhan Rajarajan	15

Keynote Address (8') : Omega-3 Fatty Acids in Ophthalmology: Clinical Relevance - Ahlad Abd Algheni Baker

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC273 - All you want to know about managing retinoblastoma

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Meeting Room L-05

Chief Instructor: Swathi Kaliki

This instructional course will address essential aspects of diagnosing and effectively managing retinoblastoma (RB), and is aimed at benefiting practitioners who manage RB. It will start by exploring common pitfalls and emphasizing how to avoid them in clinical practice. The course will cover the role of B-scan ultrasonography and other adjunctive modalities, such as ultrasound biomicroscopy, optical coherence tomography, and magnetic resonance, for diagnosing and monitoring RB. One session will focus on selecting the most appropriate chemotherapy regimens tailored to individual patient needs. The role of radiotherapy will be discussed, including its indications, techniques, and outcomes. Additionally, the course will shed light on the critical role of pathology in staging RB. Finally, it will introduce new advancements, evolving considerations, and emerging treatments, keeping participants abreast of the latest strategies for managing RB.

No.	Topic	Speaker	Min
1.	Beneath the façade: learning from mistakes	Deepthi Elizabeth Kurian	10
2.	B scan and beyond: imaging in retinoblastoma	Vijitha S Vempuluru	10
3.	Choosing the right chemotherapy	Anasua Ganguly Kapoor	10
4.	Radiotherapy for retinoblastoma: role and results	Vishal Raval	10
5.	Pathology: Beacon in the deep blue sea	Saumya Jakati	10
6.	New kids on the Retinoblastoma block	Swathi Kaliki	10

IC324 - INTRAVITREAL INJECTIONS: BEST PRACTICES, PITFALLS & PRACTICAL PEARLS FOR GENERAL OPHTHALMOLOGIST

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room L-06 & 07

Chief Instructor: Neetu Gagneja

Intravitreal injections have become a cornerstone in the management of various retinal diseases, including ARMD, DME & VENOUS OCCLUSIONS. As their use expands beyond retina specialists, general ophthalmologists increasingly perform these procedures in diverse clinical settings. This session offers a comprehensive overview tailored to the general ophthalmologist, emphasizing best practices, common pitfalls, and practical tips to enhance patient safety, comfort, and treatment efficacy. We will discuss •Indications and patient selection for anti-VEGF agents, steroids, and other intravitreal therapies •Pre-injection preparation, Injection technique, Post-injection care. Common pitfalls, Practical pearls from real-world experience to improve efficiency. This talk will equip general ophthalmologists with up-to-date, actionable knowledge for confidently integrating intravitreal injection therapy into their practice while maintaining high standards of care and patient satisfaction.

No.	Topic	Speaker	Min
1.	STEP BY STEP GUIDE TO SAFE INTRAVITREAL INJECTION	Neetu Gagneja	11
2.	ANTI VEGF IN DME	Aaditi Anilkumar	15
3.	ROLE OF INTRAVITREAL INJECTIONS IN ARMD	Sherina Thomas	15
4.	AVOIDING & MANAGING COMPLICATIONS: WHAT CAN GO WRONG & PICE	Anu Malik	12
5.	STERIODS & OTHER AGENTS : WHEN VEGF ISN'T ENOUGH	Jasiya Ishtiaq	12

IC168 - Controversies in Retinal Imaging: Answer the Unanswered

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room U-01

Chief Instructor: Ritesh Narula

Retinal imaging has revolutionised the diagnosis and management of retinal diseases, offering high-resolution structural and vascular details. However, these advancements come with a growing challenge of ambiguities, ranging from the interpretation of doubtful imaging findings to the reliability of emerging imaging biomarkers and the clinical value of newer technologies, such as widefield OCTA and artificial intelligence-driven analytics. This session will explore these contentious issues in retinal imaging, critically appraising current evidence and highlighting areas where consensus is lacking. Experts will debate imaging thresholds for diagnosis, the role of multimodal imaging in uncertain cases, the pitfalls of over-reliance on technology, and future directions where imaging may challenge traditional clinical paradigms. The session would be formatted as a "Panel Symposium with Case-Based Discussions and Expert Debates".

No.	Topic	Speaker	Min
1.	Is Widefield Imaging Essential for Retinal Diagnoses? Utility vs overuse	Daraius Shroff	10
2.	OCTA Biomarkers in AMD and DR – Are we there yet?	Ritesh Narula	10
3.	The Role of Multimodal Imaging – Complementary or Confusing? When more is not always better.	Jay Sheth	10
4.	AI in Retinal Imaging – Clinical Assistant or Ethical Risk?	Abhishek Kothari	10
5.	Where Clinical judgement trumps over Imaging...Dont forget basics	Mudit Tyagi	10

Switching in the Era of New Anti-VEGFs: Evidence and Clinical Insights - Nishant Kumar - 10 Mins

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

Facial Cosmetic Surgery: The New Frontier for Ophthalmology

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room U-01 A

Chairperson: Dr Debraj Shome

Moderators: Dr Robert Goldberg and Dr Tanuj Nakra

Convenor: Dr Masashi Mimura

Co Convenor: Dr Ho Seok Sa and Dr Nattawut Wanumkarng

Panelists: Dr Diwa Lamichhane, Dr Harika Regani, Dr Kaushambi Ranpara, Dr Pallavi Singh, Dr Perna Tahiliani, Dr Shilpa Taneja Mittal, Dr Vishal Sharma

- 1) Why should you learn Facial Cosmetic Surgery and how to get trained and accredited: Dr Debraj Shome - 10 minutes
- 2) Upper Eyelid Blepharoplasty and Asian Blepharoplasty - Dr Ho Seok Sa - 10 minutes
- 3) Lower Blepharoplasty, SOOF Lift & Mid Face Lift - Dr Pimkwan Jaru - 10 minutes
- 4) Temporal and Endoscopic Brow Lifting - Dr Robert Goldberg - 10 minutes
- 5) Non Surgical and Surgical Rhinoplasty - Dr Tanuj Nakra - 10 minutes
- 6) Deep Plane Face Lift with Fat Transfer - Dr Debraj Shome - 10 minutes

Panel Discussion: 15 minutes

Total Time: 75 minutes.

The 84th Annual Conference of All India Ophthalmological Society

IC90 - Happy Patient, Happy Doctor- The Art and Science of Effective Communication in Challenging Scenarios

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Meeting Room U-02

Chief Instructor: Vineet Ratra

Effective communication is essential for success in the medical field. It's not uncommon to face unhappy patients in difficult situations, where unrealistic expectations and unforeseen complications can create significant challenges. Unfortunately, medical education often falls short in preparing us to handle these scenarios. This is especially true for young doctors who may feel the pressure intensely. This instructional course is designed to bridge that gap, offering practical guidance on how to communicate effectively with patients and their relatives during various challenging clinical situations. The course will have engaging and insightful panel discussion that addresses communication strategies for: - Routine cataract surgery - Posterior capsule rent, Nucleus drop, Endophthalmitis, Refractive surprise, Suprachoroidal hemorrhage, Abandoned retinal surgeries, advanced glaucoma, Unfortunate outcomes in Operation theatres - and other complex scenarios that one faces everyday.

No.	Topic	Speaker	Min
1.	Panel discussion	Quresh B. Maskati	8
2.	Panel discussion	Ravindran R D	8
3.	Panel discussion	Ramesh Dorairajan	8
4.	Panel discussion	Sangeet Mittal	8
5.	Panel discussion	Vijai Shankar	8
6.	Panel discussion	Nirmal Fredrick T.	8

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC108 - Mastering The Art of Scientific Publishing

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room U-03

Chief Instructor: Subhrangshu Sengupta

This course provides practising ophthalmologists practical guidelines for converting research ideas to publications. All relevant aspects are discussed including development of robust research plans, data collection and statistical analysis, ethical use of AI, building up the manuscript and submitting the same with final discussions on navigating peer review and tips for choosing the right journal. Ethical considerations and data integrity will be emphasized. Practical tips for responding to reviewers and handling rejections will equip participants to achieve successful publications. This course aims at providing practical and precise guidelines so that every participating ophthalmologist can immortalise his/her ideas through quality publications in peer reviewed journals.

No.	Topic	Speaker	Min
1.	Designing Ophthalmic Research and going about Data Collection	Subhrangshu Sengupta	8
2.	Demystifying Statistical Tools and Analysing Your Data	Moreker Sunil Ratilal	10
3.	Crafting Clear and Compelling Manuscripts and Navigating Peer Review	Chandrima Paul	10
4.	Choosing the Right Journal, Financial Disclosure, Plagiarism Checks and Ethical Concerns	Anuradha Chandra	8
5.	Leveraging Artificial Intelligence (AI) in Research and Publications	Anujeet Paul	8

Panel Discussion : 30 mins

The 84th Annual Conference of All India Ophthalmological Society

IC354 - The Clinical Excellence in Myopia Management.

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room U-05

Chief Instructor: GULAM ALI KAMDAR

The "Clinical Excellence in Myopia Management" course equips eye care professionals to address the global myopia epidemic, providing evidence-based strategies for early detection and progression control in young children. Participants will gain essential clinical skills and knowledge to make a significant impact on myopia management and protect the vision of future generations. This course will cover the following key topics :

1. Understanding Myopia: Exploring the causes, risk factors, and epidemiology of myopia.
2. Clinical Assessment: Examining myopia through refraction and risk factors.
3. Evidence-Based Management Options: Providing an in-depth overview of various evidence-based approaches to myopia management.
4. Early Detection and Intervention: Strategies for timely action.
5. Patient Counseling and Education: Effective communication and lifestyle guidance.

No.	Topic	Speaker	Min
1.	Understanding Myopia: Exploring the causes, risk factors, and epidemiology of myopia.	Sanjiv Desai	10
2.	Clinical Assessment: Examining myopia through refraction and risk factors.	GULAM ALI KAMDAR	15
3.	Evidence-Based Management Options: overview of various evidence-based approaches to myopia management	GULAM ALI KAMDAR	15
4.	Early Detection and Intervention: Strategies for timely action.	Raj Shri Hirawat	15
5.	Patient Counseling and Education: Effective communication and lifestyle guidance.	Latika Pandey	10

Panel Discussion : 10 mins

IC57 - Understanding LASIK Surgery practise: The real world picture

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Meeting Room U-06

Chief Instructor: Monika Jethani

This instruction course covers the essentials of establishing and running a successful LASIK practice because for beginners it becomes extremely difficult to understand how when and where to start from. This course covers topics like effective marketing strategies, equipment maintenance, and optimizing return on investment. We'll discuss pros and cons of newer machines to refurbished machine procurement, providing a well-rounded understanding of the business and clinical aspects. Participants will gain practical insights on managing complications, attracting patients, and financial planning. Expert faculty will share their experiences, and interactive sessions will facilitate knowledge sharing. This course is ideal for ophthalmologists and LASIK surgeons seeking to enhance their practice and improve patient outcomes.

No.	Topic	Speaker	Min
1.	Procuring a new Lasik machine - pros and cons	Vinod Kumar Arora	10
2.	How to get a refurbished LASIK Machine	Monika Jethani	10
3.	Marketing of Laser and refractive surgery	Rahil Chaudhary	10
4.	Patient satisfaction, ROI and staff management	Wavikar Chandrashekhar Murlidhar	10
5.	How to successfully and Ethically run the Lasik practice	Darak Ambarish Balkrishna	10
6.	Solo or group practice in Lasik, pros and cons revealed	Rajiv Choudhary	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC480 - “Systemic Signatures in the Retina” –Retinal signs as Biomarker of systemic disease

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Atlantiis 1

Chief Instructor: Prakash V.S.

This instruction course aims to train practicing ophthalmologists to recognize key retinal signs that may indicate undiagnosed systemic diseases or change the management of known systemic conditions. Through case-based discussions and imaging examples, attendees will learn how to interpret ocular findings in the context of systemic health and effectively communicate with physicians for timely referral or treatment modification.

Learning Goals are :

Recognize key retinal phenotypes that signal common systemic diseases (diabetes, hypertension, anemia,).

Distinguish urgent vs routine systemic referrals triggered by retinal findings.

Use multimodal imaging (OCT, OCTA, UWF, FA/ICGA) to stratify systemic risk.

Appreciate emerging systemic biomarkers from retinal imaging (AI/ML risk prediction for cardiovascular, neurodegenerative disease).

Implement a simple documentation & communication template to alert physicians managing systemic care.

No.	Topic	Speaker	Min
1.	Diabetes & Beyond: Microvascular Grading That Matters Systemically	G. Mahesh	10
2.	Hypertensive & Cardiovascular Clues in the Retina	Ashok Nataraj	10
4.	Pediatric/Hereditary & Metabolic Storage Disorders With Retinal Footprints	Gopal S. Pillai	10
5.	Drug-Induced Retinopathies: When Medications Leave a Mark	Rajesh Puthussery	10
6.	Blood Dyscrasias & Hematologic Malignancy Alerts: Don't Miss the Fundus Flags	Prakash V.S.	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

IC52 - Beyond 20/20: Managing the Unhappy Post Operative Cataract Patient with a Perfect Visual Acuity

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Atlantiis 2

Chief Instructor: Rudra Prosad Ghosh

Despite achieving 6/6 visual acuity post-cataract surgery, some patients remain dissatisfied due to factors beyond standard visual metrics. Common causes include dysphotopsia (positive or negative), uncorrected astigmatism, posterior capsular opacification, dry eye, and poor contrast sensitivity. Psychological expectations and neuroadaptation issues also play key roles. Identifying and addressing these underlying concerns through thorough preoperative counseling, comprehensive postoperative evaluation, and appropriate management strategies is essential to improving patient satisfaction.

No.	Topic	Speaker	Min
1.	Understanding the Unhappy Post-Operative Cataract Patient: Causes, Evaluation, and Management	Rudra Prosad Ghosh	8
2.	IOL Types and the Unhappy Cataract Patient: Causes, Challenges, and Clinical Solutions	Sugato Paul	8
3.	Negative Dysphotopsia and Neuroadaptation in Unhappy Post-Op Cataract Patients: A Clinical Guide	Saurabh Sanyal	8
4.	Dry Eye Disease and the Unhappy Cataract Patient: Diagnosis, Impact, and Management Strategies	SWATI AGARWAL	8
5.	Psychological Assessment and Management of Unhappy Post-Operative Cataract Patients	Sohini Ghosh	8

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Punjab Ophthalmological Society's session

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Atlantiis 3

Panelists : GS Dhama, Gursatinder Singh, Ajay Kapoor, PS Brar, RS Dhaliwal, Sumit Chopra, Nitin BATRA, Balwinderjit Singh, GS Randhawa, KD singh, Rohit Om Parkash

Moderators : Raman Mittal

Convenor : Tushya Om Parkash

1. Jayanto Shekhar Guha - Amniotic membrane graft in large macular holes....using blue healon
2. Neetu Negi - Trabeculectomy - Tips and Tricks
3. Raman Mittal - Variants of Ptosis and their management
4. Ashwani Kalia - Tejas Technique : My new way of doing SICS
5. BS Bhaura - Phacoemulsification in Posterior Polar Cataract with Preexisting Posterior Capsule rupture
6. Karamjit Singh - Management of complicated Cataract - My experience
7. Shakeen Singh - DSEK in Challenging Situations.
8. Sangeet Mittal -Diabetic Vitrectomy: What do I do differently

The 84th Annual Conference of All India Ophthalmological Society

OTSI Session

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Atlantiis 4

Panelists: Mehul Shah, Shakeen Singh, J K Das, JKS Parihar, Sanjiv Moihan, A K Grover, Mohan Rajan, Nirmal Fredrick, Shreya Shah, Shweta Walia,

Moderators: Koushik Tripathy, Deepanshu Agrawal

1. Keynote address : Purendra Bhasin - 10 mins
2. The Eye Pops Out, the Field Fades away: Contralateral Field Defect in Traumatic Globe Luxation - Sahil Agrawal
3. One Team, One Dream: Darkness to Light! - Isha Agarwal
4. Dangers of Fire-crackers in current times - Samrat Chatterjee
5. Canalicular laceration: Joining the Nexus - Mihir Mishra
6. Management of Carbide Gun Injury - Manushree Gautam
7. Innovative methods - Maneezh Bapaye

The 84th Annual Conference of All India Ophthalmological Society

IC73 - minimizing trauma and maximising efficiency with sutureless secondary IOL surgeries

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Trade Room 1

Chief Instructor: Ashwini Meherda

Symposium on IRIS CLAW LENS, multipiece SFIOL, and CMTFLEX LENS We will describe all tips ,technique and videos of surgery and as well as complications and how to deal with it.

No.	Topic	Speaker	Min
1.	IRIS CLAW LENS	Swati Verma	20
2.	MULTIPIECE SUTURELESS SECONDARY IOL	Ketaki Dattaraj Sawarkar	20
3.	CMT FLEX IOL	Ashwini Meherda	20

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Strabismus and Pediatric Ophthalmology Society of India

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Trade Room 2

Chairpersons- P. K. Pandey, Urmil Chawla, Yogesh Shukla, S Dadeya, Shreya Shah

Duration - 1 Hour (Each Talk 7 Minutes)

1. Intermittent Exo with High AC / A Ratio - Jitendra Jethani
2. Taming the Inferior Oblique - Jaspreet Sukhija
3. Sixth Nerve Palsy: An Overview and management strategies - Urmil Chawla
4. Diagnosis and Management of MED - S Dadeya
5. Divergence Excess type of IXT - Yogesh Shukla
6. Management of Consecutive Exotropia; Case- based Approach - Shubhangi Bhawe
7. Inferior transposition of horizontal recti in the management of DVD - P. K. Pandey
8. Heavy Eye Syndrome - Shreya Shah

The 84th Annual Conference of All India Ophthalmological Society

IC21 - Contemporary IOL Power Strategies: Next Gen formulas in Normal & Challenging Eyes & Newer Biometers.

Date :	15-03-2026 (Sunday)
Time :	09:30-10:40
Hall :	Trade Room 3

Chief Instructor: Twinklekumar Shah

As premium IOLs become commonplace in refractive cataract surgery, surgeons face mounting precision demands. This instructional course addresses these challenges by exploring advanced IOL power calculation formulas, PCA and toric planning, optimized A-constants, and cutting-edge biometry tools.

Attendees will gain hands-on experience with state-of-the-art biometry systems and ESCRS-supported calculators, and learn to apply modern formulas—including Kane, Hill-RBF v3.0, Barrett suite, EVO, and ray-tracing methods.

The course equips participants to manage IOL power calculations in complex cases: extremely long or short eyes, silicone oil-filled eyes, combined surgeries, post-refractive and pediatric eyes, secondary implants, and toric IOLs using PCA and centroid data.

No.	Topic	Speaker	Min
1.	Introduction	Twinklekumar Shah	5
2.	From Theory to Practice: The Latest IOL Power Formulas in Action	Twinklekumar Shah	10
3.	Power calculations in abnormal situations (Very long & short eyes, Post vitrectomised)	Tejas Shah	10
4.	Optimizing IOL Power in Abnormal Corneas: Post LASIK, PRK & RK Cases	Anurag Mishra	10
5.	IOL Power calculations in Pediatric cataract surgery	Shail Vasavada	10
6.	Newer advancement in toric IOL power calculation	Kshetrapal Arun	10
7.	Next Gen optical biometry – SS OCT – The gold standard	Harshul Tak	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC293 - GLAUCOMA MANAGEMENT "A CASE BASED APPROACH": FAILURES & WAY OUT

Date : 15-03-2026 (Sunday)

Time : 09:30-10:40

Hall : Trade Room 4

Chief Instructor: Bibhuti Prassan Sinha

Glaucoma being the second leading cause of blindness world wide and in India .

An early diagnosis and treatment are essential to prevent glaucoma and its accompanying vision loss. Identifying failure in diagnosis and then treatment failure at an early stage is extremely important . It is distressing for the treating physician / patient to fight against failure which are bound to happen in life cycle of glaucoma patients whether it is diagnosis, medical/laser or surgical management . At the same time the quality of life also goes down due to various factors.

The objective of this course is to make the attendees identify the reasons of failure and way to fight in order to make QOL of patient better.

No.	Topic	Speaker	Min
1.	Introduction , Glaucoma Screening : Are We Failing	Bibhuti Prassan Sinha	10
2.	Under/Over Diagnosis :Failure of Machine or Man Behind Machine	Parul Sony	12
3.	Medical Management : Failure and Way Out	Tuli Deven	12
4.	Laser Procedures : A Saviour in rough weather	Deepak Mishra	10
5.	Surgical Failures : Think Ahead	Reetika	12
6.	Patient QOL: Are We Failing	Mamta Singh	10

Panel Discussion : 9 mins

The 84th Annual Conference of All India Ophthalmological Society

IC540 - Open your Eyes to Angle Closure- A Complete Guide for a Comprehensive Ophthalmologist

Date : 15-03-2026 (Sunday)

Time : 09:45-10:55

Hall : Meeting Room L-03

Chief Instructor: Siddharth Dikshit

The course is aimed at providing comprehensive overview of spectrum of angle closure disease to the Comprehensive Ophthalmologist. The carefully curated topics which cover the entire spectrum of pathogenesis, diagnosis and management of angle closure. Experienced Glaucoma specialists, with decades of experience in management of Glaucoma and teaching, publication and presenting form the faculty for the course. The messaging start from basics to advanced and include evidence as well as personal experience backed by evidence. A wonderful opportunity to pick-up all the pearls on angle closure in an hour, possibly sums up the course the best.

No.	Topic	Speaker	Min
1.	Consciously Conservative: Indications & Technique of YAG PI & Iridoplasty	Arijit Mitra	7
2.	Unravelling the Mystery: ASOCT, UBM & Advances in Imaging	Monisha Nongpiur	8
3.	Lens et. al.: Role of Lens in Angle Closure	Monisha Nongpiur	8
4.	Eagle's Eyes: Clear Lens Extraction in Angle Closure	Mona Khurana	8
5.	Beyond Lens: Role of Iris (Static & Dynamic Parameters) & Choroid in Angle Closure	G. Chandra Sekhar	10
6.	Crisis Management: Management of Primary Acute Angle Closure	Siddharth Dikshit	7
7.	Approach with Caution: Trabeculectomy in Angle Closure	Sirisha Senthil	10
8.	Does MIGS have a place without space?: MIGS in Angle Closure- Indications & results	Siddharth Dikshit	7

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC261 - EYES ON THE UNEXPECTED – Always Be Ready with the Plan”B"

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Ballroom

Chief Instructor: Rakesh Shakya

This video-based instruction course will highlight the unexpected complications occurred in cataract surgery in most challenging cases where most experienced surgeons will showcase their strategies to tackle these intraoperative and postoperative surprises with practical strategies and backup plans for managing such challenges effectively

These unexpected intra-op and post-Op surprises that demand immediate and skillful decision-making. topics include recognizing the sudden posterior capsular rent (PCR)in hard cataract, timing for conversion, managing total ZD with PCR, handling sudden intraoperative meiosis, Nucleus drop, approach to a case of PPC with PCR, IOL exchange but no capsular support and post-op unhappy patients.

Through interactive discussions & video demonstrations, to anticipate the complications and executing plan B. The goal is to enhance adaptability and surgical safety, improving patient's surgical outcomes. Each talk will have a take home message for participants

No.	Topic	Speaker	Min
1.	When Things Goes Down South - Dealing Them with Plan B in my way	Arvind Kumar Morya	8
2.	Converting Phaco in Do and Die situations.	Rakesh Shakya	8
3.	Complex Posterior polar cataract- Innovative approach to manage	Rajendra Prasad	8
4.	;Failure is not the end always, relax and adopt alternative	Purendra Bhasin	8
5.	DSEK in dislocated IOL with no Capsular support: Go with plan B	Gautam Singh Parmar	8
6.	Dealing with post-operative Unhappy patient	Rajiv Choudhary	8
7.	Nucleus drop –Various and innovative technique to manage	Vinod Kumar Singh	8

Panel Discussion : 19 mins

The 84th Annual Conference of All India Ophthalmological Society

IC448 - Microbiology & Pathology Applications in Cornea- Devil is in detail which only a microscope can see!

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room L-01

Chief Instructor: Srivalli Kaza

With newer micro-organisms emerging, both microbiology and pathology play a vital role in dictating current corneal infection management. Empirical treatment with a concoction of drugs tends to confuse the clinical picture and secondary infections can mask the underlying pathology. Corneal scrapings and biopsy form the cornerstone of evidence-based approach to management of corneal infections. It is a common misconception that corneal scraping is difficult and not cost-effective for individual practices. Through this course we want to simplify this process for all-starting from teaching the method of taking corneal smears and ordering cultures depending on clinical diagnosis. Emerging drug resistance makes the antibiotic sensitivity profile a game changer. Histopathology reports clinch the diagnosis and help in decision making in serious cases like OSSN. We will share a few case scenarios where microbiology cultures and histopathology slides made a difference in the course and outcome.

No.	Topic	Speaker	Min
1.	Specimen collection- tips and tricks	Radhika Natarajan	15
2.	Microbiology guided treatment plan	Srivalli Kaza	15
3.	Slides to slit lamp HPE correlation	Mona Bhargava	15
4.	Lab to the rescue in clinical confusion	Mugundhan Rajarajan	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC322 - Decoding and Conquering Hard Cataracts with Phacoemulsification

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Meeting Room L-01A

Chief Instructor: Sartaj Grewal

The Course Aims to Provide Cataract Surgeons with Knowledge from Real Life Scenarios on Techniques and Tools for Successfully Performing Phacoemulsification in Patients with Dense Brunescent Cataracts. the Course Shall Discuss Preoperative Evaluations Including Considerations for Biometry in Such Patients. the Course Shall Cover Pearls for Safeguarding the Cornea and Optimising Energy During Phacoemulsification, and Also Elaborate on Tools Such as Various Ovd's, Nuclear Fragmentation Devices and FLACS for Hard Cataracts. the Training Will Be Imparted with High Quality Videos of Surgeons Performing Surgery on Brunescent Cataracts and Handling Various Challenges and Complications That Can Accompany Such Difficult Cases.

No.	Topic	Speaker	Min
1.	Hard Cataract vs Hard Surgeon	Manik Sardana	10
2.	How to Crack the Hardest Ones - Pearls of Wisdom	Jagat Ram	15
3.	SICS: Optimum for hard cataracts?	DHALIWAL RANJIT SINGH	15
4.	FLACS is still Relevant for Brunescent Cataracts	S.P.S. Grewal	15
5.	Mastering the Miloop Nuclear Fragmentation Device	Sartaj Grewal	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC28 - Mastering Challenges to Safeguard Graft Success

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room L-02

Chief Instructor: Bhupesh Singh

This course is designed for surgeons with substantial experience in corneal transplantation who seek to deepen their operative precision and enhance intraoperative adaptability.

Despite significant advances in lamellar and penetrating keratoplasty techniques, intraoperative challenges such as decentered or irregular trephination, vitreous loss, iris trauma, lens damage, supra choroidal hemorrhage, iris incarceration, retained Descemet's membrane, double anterior chamber, and graft misorientation continue to test even seasoned corneal surgeons.

This surgical masterclass provides a systematic approach to identifying, preventing, and managing these complex complications across PKP, DSAEK, DALK, and DMEK. Through detailed surgical video analyses, interactive case discussions, and expert commentary, participants will acquire advanced strategies for intraoperative and postoperative troubleshooting,, and real-time decision-making to preserve graft viability and optimize patient outcomes.

No.	Topic	Speaker	Min
1.	Surgical Challenges During Penetrating Keratoplasty	Bhupesh Singh	10
2.	Post-Penetrating Keratoplasty Complications: Rejection and Infection Management	Ikeda	10
3.	Taming Astigmatism After Keratoplasty	Tushar Grover	10
4.	Troubleshooting DALK: Surgical Pitfalls and Solutions	Rushad Shroff	10
5.	Challenging Scenarios in DSEK: Identification and Management	Karan Bhatia	10
6.	Navigating the Challenges of DMEK	Namrata Sharma	10

Guest Talk : A modified method of endothelial keratoplasty (DMEK, FS-DSEK) using an implanting the bandage stromal flap - Sergei

Demianchenko - 8 Mins

Panel Discussion : 15 mins

IC114 - Case by Case: Navigating Genetic Testing in Pediatric Ophthalmology

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Meeting Room L-04

Chief Instructor: Savleen Kaur

As we move into the era of quicker, more accessible, and economical genetic testing, there has been a significant impact on the management of pediatric ocular diseases. Genetic testing allows us to diagnose, prognosticate, and counsel patients and make them aware of possible and future targeted gene therapy. However, the knowledge about when to order a test, what test to order, and how to interpret it, hasn't reached our standard textbooks in ophthalmology. In this instructional course, we discuss cases in various pediatric subspecialties to educate the listener about the pearls and pitfalls of genetic testing in ophthalmic disorders. Each talk will aim at explaining definitions, common terminologies, and variant interpretations in pediatric ophthalmology in a case-based format. The audience will get an overview of globe anomalies, as well as anterior and posterior segment pathologies.

No.	Topic	Speaker	Min
1.	Case of Pediatric Cataract: Looking beyond the eye; When to order a genetic test?	Savleen Kaur	10
2.	Risks and Benefits of Single gene testing vs panel testing: Cases in pediatric neurophthalmology	Jaspreet Sukhija	10
3.	Treating a child with glaucoma: Whole-exome testing changed my management.	Sushmita Kaushik	10
4.	Child born with globe anomalies: Indeterminate variant and prenatal testing	Shailja Tibrewal	10
5.	Corneal disorders in a child: Interpreting my variant	Sonam Yangzes	10
6.	Case of Inherited Retinal Dystrophy: Pipeline for gene therapy	Deeksha Katoch	10
7.	Potpourri of cases and panel discussion : Positive, Negative, and Inconclusive tests (All authors)	Savleen Kaur	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

IC33 - Slides to Slitlamp – Microbiology and Pathology in Corneal Diseases

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room L-05

Chief Instructor: Jaya Gupta

Microbiology and histopathology are of extreme importance in inflammatory and infective corneal diseases for etiological diagnosis and targeted therapy. Susceptibility testing helps in choosing the most effective treatment and understanding the pattern of resistance to different drugs. In nonresponding cases, repeat microbiology can guide the adjustments needed in management protocol. Histopathology can detail the type of inflammation and the extent of tissue damage. In our instruction course, we have elaborated the tips and tricks of specimen collection, diagnostic and histopathology correlation, along with rescue situations in confusing cases and microbiology-guided treatment plans. We aim to establish a justified correlation between the clinical diagnosis and microbiological and pathological confirmation of the same to ensure accurate management in corneal diseases.

No.	Topic	Speaker	Min
1.	Specimen Collection – Tips and Tricks	Radhika Natarajan	15
2.	Microbiology Guided Treatment Plan	Sumana Chatterjee	15
3.	Diagnostic and HPE correlation	Rama Rajagopal	15
4.	Lab to rescue in clinical confusion	Jaya Gupta	15

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC297 - Ocular trauma - from cornea to retina : A comprehensive overview

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Meeting Room L-06 & 07

Chief Instructor: Anisha Seth Gupta

Ocular trauma can vary from mild lid abrasions to vision threatening posterior segment injuries. Both blunt and penetrating eye injuries are extremely common especially in young population. From the lid to the retina and the choroid, every part of the eye can get affected and lead to vision loss. Most conditions if managed correctly and on time, can save vision. Hence, its important to understand the basics of diagnosis and management of all types of ocular trauma and understand the right time to refer.

No.	Topic	Speaker	Min
1.	Eye injuries : An overview	Richa Gupta	10
2.	Principles and techniques of Corneal wound closure	Arpana Bansal	10
3.	Approach to lid/ canalicular/ Canthus lacerations	Anjali Saighal Mehta	10
4.	Challenges in traumatic glaucoma : a case based discussion	Neha Midha	10

IC8 - Step-by-Step Vitrectomy

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Meeting Room U-01

Chief Instructor: Sangeet Mittal

This instructional course offers a systematic, step-by-step guide to pars plana vitrectomy, catering to both novice and experienced vitreoretinal surgeons. Essential techniques such as trocar placement, core vitrectomy, posterior hyaloid detachment, and peripheral shaving are demonstrated using annotated surgical videos. Advanced maneuvers including membrane peeling, ILM removal, and choice of tamponade agents are discussed with a focus on technique, precision, and outcome optimization. Clinical scenarios encompassing diabetic retinopathy, macular holes, and vitreous hemorrhage will be explored, emphasizing customized surgical strategies. Practical pearls will be shared to enhance fluidics control, instrument handling, and intraoperative visualization, ensuring safety and efficiency. Participants will gain clarity on instrumentation, complication avoidance, and post-op management, alongside insights into evolving innovations.

No.	Topic	Speaker	Min
1.	Vitrectomy Command Center-Machine setup, Instrumentation Walk-through & Ports	Partha RANA	10
2.	Taming the Vitreous-Handling the Core, Periphery and Posterior Vitreous Detachment	Manisha Agarwal	10
3.	The Art of the Peel- Mastering ERM and ILM Peeling Techniques	Neeraj Sanduja	10
4.	Rebuilding the Retina-Managing detachments and Retinectomies	Sangeet Mittal	10
5.	Seal & Shield-Endo-laser & Endo-tamponade Techniques	Kelkar Aditya Shreekant	10
6.	The Surgeon's Safety Net-Complications and Rescue Maneuvers	Dhanashree Ratra	10

Panel Discussion : 15 mins

IC100 - OPTIMISING THE COMPLICATED AND CHALLENGING CATARACT SURGERIES: THE WAYS AND THE METHODS

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room U-01 A

Chief Instructor: Nitin G Dhira

This IC will intent to discuss the management tricks and stratagems applied to get best result in difficult cataract surgeries. The speakers will share with or without videos how the actually manage these difficult cases. All talks will be flanked with adequate discussion session which will further clear the insight. Overall this will be a perfect blend of science experience and technology.

No.	Topic	Speaker	Min
1.	THE SINKING NUCLEUS	Arup Chakrabarti	8
2.	RESCUE FOR VR SURGEON IN COMBINED CASES	Birendra Prasad Kashyap	8
3.	SMALL PUPIL BIG PROBLEM	Vinod Kumar Arora	8
4.	STRATEGIES FOR MANAGING CATARACT WITH FLOPPY IRIS SYNDROME	Nitin G Dhira	8
5.	INTUMESCENT SOFT CATARACT: TIPS & TRICKS	Amit Porwal	8
6.	Pearls for the Yamane Technique	Virendra Agrawal	8

Panel Discussion : 18 mins

IC505 - The Future is Digital: Navigating Key Platforms Shaping the Landscape of Ophthalmology.

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room U-02

Chief Instructor: Ajit Kumar Poddar

Ophthalmology, a specialty at the crossroads of precision and technology, is undergoing a transformative shift driven by the rise of digital platforms. As the world embraces the digital era, these platforms are reshaping how eye care is delivered, documented, taught, and accessed. From AI-powered diagnostic tools and teleophthalmology services to electronic health records and immersive training simulations, digital innovations are bridging gaps in accessibility, enhancing diagnostic accuracy, and optimizing patient care outcomes.

This instruction course explores the key categories of digital platforms that are currently transforming the field, evaluates their impact, and envisions how they will continue to revolutionize the way we see, treat, and teach vision care.

No.	Topic	Speaker	Min
1.	The Rise of Digital Platforms in Ophthalmology : Introduction	Subhash Prasad	8
2.	Tele-ophthalmology: Expanding Access to eye care	Perna Sinha	8
3.	Electronic Health Records & Data Analytics	Madhu Shekhar	8
4.	Artificial Intelligence Powered Diagnostics & Clinical Decision Support	Sumit Randhir Singh	8
5.	Social Media in Ophthalmology: Enhancing Patient Engagement and Professional Branding	Sonali Prasad	8
6.	Immersive Learning and Surgical Simulation: Education & Training platform for Ophthalmologist	Ajit Kumar Poddar	8
7.	Challenges, Equity, and the Road Ahead	Ranjana Kumar	8

IC483 - New lessons for the new year- what changes I made in the year that went by

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room U-03

Chief Instructor: Mukesh J Paryani

In the ever-evolving field of ophthalmology, growth comes not only from scientific advancements but also from introspection, adaptation, and change. This instruction course is a reflective deep dive into the transformative lessons learned over the past year—lessons that led to meaningful changes in clinical practice. The session will candidly explore:

Key changes implemented in clinical protocols and why they mattered

Shifts in surgical decision-making and refractive strategy refinements

Learning from challenges, missteps, and unexpected insights

Balancing innovation with wisdom and experience

This course aims to inspire fellow ophthalmologists to embrace change by sharing real-world examples of what worked, what didn't, and what was worth rethinking.

This IC presents a pot pourri of different situations faced by young private practitioners and how they dealt with it

No.	Topic	Speaker	Min
1.	Twisting tales of tackling surprises in refractive surgery	Mukesh J Paryani	12
2.	My new "fold and flip" technique - How I managed soft cataracts this year.	Varun Kharbanda	15
3.	Intracameral antibiotics - should I be using them in my practice	Dhawal Haria	12
4.	Not all cones are thin. Interesting cases of keratoconus with Fuch's Dystrophy	Kareeshma Wadia	12
5.	PRk haze- left me in a daze	Praful Chaudhary	15

Panel Discussion : 9 mins

The 84th Annual Conference of All India Ophthalmological Society

IC458 - Slit-Lamp Photography, Wide-Field Imaging & Video Documentation: Skills to Elevate Clinical Practice

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room U-05

Chief Instructor: Kshetrapal Arun

High definition imaging of the eye is an indispensable tool not only for diagnosis and documentation but also for teaching, research and medico legal record keeping. This instruction course will focus on practical techniques and pearls in slit-lamp photography, wide-field retinal imaging, and video documentation, editing, and archiving that can transform routine ophthalmic practice.

The course will cover the selection and integration of beam splitters and imaging devices for effective photo and video capture through slit-lamp and operating microscopes. In addition, the course will review current technologies for wide-field and ultra-wide-field fundus imaging, and discuss their growing role in elevating diagnostic accuracy and clinical outcomes.

Creating engaging and effective video content relies heavily on thoughtful editing. In this course, we'll explore various video editing techniques tailored to ophthalmic applications, from clinical documentation to academic presentations.

No.	Topic	Speaker	Min
1.	Introduction to Ophthalmic Photography and Videography	Kshetrapal Arun	3
2.	Mastering the Art of Slit-Lamp Photography: Techniques, Tools, and Clinical Applications	Kshetrapal Arun	12
3.	Ultra wide field Imaging: what were we missing till now	Vishal Agrawal	12
4.	Mastering DSLR videography Through the Operating Microscope.	Satish Shet	12
5.	Advanced Video Recording and Archiving in Ophthalmology: Applications of VdoGlo and OmniGlo	Jagdeep M. Kakadia	12
6.	Mastering the steps of Video Editing.	Suven Bhattacharjee	14

Panel Discussion : 10 mins

IC552 - OOPS MOMENTS OF REFRACTIVE SURGERY AND HOW TO DEFEND IT

Date : 15-03-2026 (Sunday)

Time : 10:45-11:55

Hall : Meeting Room U-06

Chief Instructor: John Sarkar

Refractive surgery -LVC and Phakic IOLs carries potential risks despite its high success rate. Per Operative Complications are unpredictable but we should have a clear cut knowledges to handle it. This Video Basic IC designed such a way that Four vast -experienced Surgeons showcase there un-eedited videos of Per-OP complications and what they have done that Oops moments to defend and how to give ultimate outcomes .Each speakers will talk separately like Micro-Keratome Related complications Flap related, Suction loss and interphase infections, Loose Epithelium another One Highlights Femto LASIK complications -Cavitation Bubbles ,OBL , Black Spots A vast experience SMILE surgeons highlights how to tackle the Lenticular extractions complications and Last speaker will highlights the phakic IOLs per op complications - Loading , insertions and post op vault related issues followed by a Brief Q&A open house thus each and every one who will attend the IC will go back with clear concepts

No.	Topic	Speaker	Min
1.	1. Misery of Micro-Keratome	John Sarkar	12
2.	Fears of Femto LASIK	Sudipta Mitra	12
3.	Sad story of SMILEs	Rupal Samir Shah	12
4.	Pitfalls of Phakic IOLs	Bharti Kashyap	12

Panel Discussion : 27 mins

IC217 - VR surgery for Cataract Complications

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Atlantiis 1

Chief Instructor: G. V. N. Rama Kumar

Complications during cataract surgery are a nightmare for all ophthalmologists. With advancement in technology and awareness among general public because of online resources and AI in recent times, expectations of patient from cataract surgery are very high. Still, complications do occur. Of those complications that need VR surgery, many eyes do well if there is no other associated posterior segment pathology. This IC aims at outlining and demonstrating strategies to maximize outcomes from VR surgeries done for cataract surgery complications. All the instructors are well experienced VR surgeons, for more than 15 years, in managing these complications. Along with tips on VR surgery, all the presentations will have suggestions on prevention of each complication. So. This IC will be useful for both Cataract surgeons and VR surgeons.

No.	Topic	Speaker	Min
1.	Introduction	G. V. N. Rama Kumar	5
2.	Vitreous Hemorrhage and Haze	Devendra Venkatramani	8
3.	Removal of dropped nucleus and IOL	Raju S.	8
4.	IOL repositioning and Secondary IOL	Pradeep Susvar	15
5.	Post Cataract Surgery Retinal Detachment	Krishnendu Nandi	8
6.	Globe perforation and Choroidal detachment	Vadivelu Jaya Prakash	8
7.	Endophthalmitis	G. V. N. Rama Kumar	8

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC119 - Managing complications of cataract surgery

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Atlantiis 2

Chief Instructor: Kavitha K

Cataract is the most common surgery in ophthalmology, it very difficult to master it. Doing cataract surgery without complications is next to impossible.

Hence, every surgeon should be aware of all the possible complications in every step and should be capable of managing it with thorough knowledge and skills.

This course will help the surgeons to be ready to manage the most common complications occurring during, construction of wound, capsulotomy, managing the nucleus, cortex removal and placing the Intraocular lens.

This course will specifically focus on management of Posterior capsular rent. The complications due to PCR like nucleus drop, cortex aspiration after PCR, wound management after Vitreous disturbance will be dealt with.

How to hand over the case to VR surgeon in case of nucleus or IOL drop (Do's & Don'ts) so that it will be easier for them to tackle also will be dealt with in this session.

No.	Topic	Speaker	Min
1.	Complications during construction of wound in Phacoemulsification and SICS	Thasneem Suraiya	10
2.	Complications during capsulotomy	A. Nandhini	10
3.	Complications during management of nucleus	Periyanyagi Muruganantham	15
4.	Managing Posterior capsular rent	Parvatha Sundari Natarajan	15
5.	Management of Nucleus / IOL drop	Kavitha K	15

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

Karnataka Ophthalmic Society (KOS) - Ophthalmic Pot Pourri

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Atlantiis 3

Chairpersons- Shivaram KV, Ananth Bhandary

Co-Chairperson -Arvind Tenagi, Ravi Kulkarni, Sharat Hegde

Panelists - Deepthi joshi, Pallavi prabhu, Soumya Ganesh Nanaiah, Dishitha Rathod

Moderator- Hemanth Murthy, Poornachandra

Speakers:

1. Addressing presbyopia in 2026 - Krishna Prasad Kudlu
2. Management of large and recurrent Macular hole - Shrinivas M. Joshi
3. Management of intraoperative Zonular dialysis during phacoemulsification - Elankumaran Pasupathi
4. Retinochoroidal grafts for advanced AMD- Sunil Ganekal
5. Role of Neuroimaging in strabismus- Kavitha V
6. MIGS mantra for cataract surgeons-Krishnaprasad R
7. Scenario of orbital and adnexal tumors in south India -Shivayogi kusagur
8. The red flags before cataract surgery- Mahesh Babu

Updates - Multi-specialty Ophthalmic Practice : Need of the Hour

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Atlantiis 4

Sanghamitra Kanungo

Ophthalmic care is undergoing rapid transformation due to technological advancements and patient expectations. With the increasing complexity of ophthalmic diseases, subspecialty practice is essential. Solo practice has offered personal satisfaction and freedom to the practitioner. However, the healthcare sector has changed with the entrance of corporate entities with their marketing strategies and substantial resources. This has made solo practice challenging to sustain in today's competitive environment. On the contrary, multispecialty ophthalmic practices provide advantages that address modern healthcare demands. These centers deliver comprehensive eye care under one roof, creating better patient experiences. It enables optimal utilization of human resources and equipments, reducing financial burden on individual doctor. It supports improved work-life balance for practitioners through shared responsibilities. The value of multispecialty ophthalmic practice is multidimensional.

1. Beyond Solo: Unlocking the Power of Multi-specialty Ophthalmic Practice - Ankita Mahapatra - 10 Mins
2. Vision for Growth: Capturing the Eye care market with Multi-specialty services - Sanghamitra Kanungo - 10 Mins
3. Managing Money, Maximizing Potential: Strategic Finance for Sustainable Growth - Nanda Ashok Kumar - 10 Mins
4. Optimizing Patient Care and Doctor Well-being - Shradha Pattnaik - 10 Mins
5. Work-Life Balance: the Hidden Benefit - Anuradha Pradhan - 10 Mins
6. Beyond Patient Care: Academic and Research opportunities - Sasmita Das - 10 Mins

Total duration(include panel discussion : 15 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC286 - Proliferative Diabetic Retinopathy- Tricks to tackle the Tricky One!

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Trade Room 1

Chief Instructor: Gagan Bhatia

This video-assisted course deals with the management of Proliferative diabetic retinopathy. The presentations touch upon important aspects considered during decision making, and key principles applied in surgical proliferative diabetic retinopathy cases. Lectures will have videos that emphasise the crucial steps in management that impact and improve the outcome in these difficult cases. From preoperative diagnosis and surgical approaches in managing these cases to and intraop. and postop complications are discussed in detail. At the conclusion of this course the attendees will be able to improve their decision making while handling surgical proliferative diabetic retinopathy, and avoid common errors that lead to poor outcomes. Improved understanding of principles involved in management of these cases will provide their patients with better surgical results

No.	Topic	Speaker	Min
1.	How OCT helps in surgical planning in PDR	Daraius Shroff	10
2.	Disc onwards dissection: Unimanual rocks	Abhishek Kothari	10
3.	Bimanual surgery – The Savior	Gagan Bhatia	10
4.	Tackling Combined Retinal Detachments	Dhanashree Ratra	10
5.	Managing Intra operative and post operative complications	Ritesh Narula	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

Updates - Neovascular Glaucoma - Not a Lost Battle

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Trade Room 2

Gaurav Gupta

Neovascular Glaucoma (NVG) is not an uncommon problem occurring in many patients with uncontrolled diabetes mellitus and hypertension, secondary to Diabetic retinopathy and central retinal ven occlusions, respectively. Majority cases present at advanced stage and these cases keeps on roaming between retina and glaucoma specialist for medical management leading to suboptimal outcomes. These cases requires aggressive management by both retina and glaucoma specialist for better outcomes. This course will outline the pathogenesis of NVG, various management protocols for treatment of NVG by both retina and glaucoma specialist as a team. In addition, in this retina and glaucoma specialist will discuss in detail various medical and surgical options assisted with videos, from retina and glaucoma perspectives, for early treatment and better visual outcomes in this disease. NVG is not a lost battle and with proper team work and aggressive management, these cases may result in good visual outcomes.

1. Course Outline and Overview - Gaurav Gupta - 3 Mins
2. Neovascular Glaucoma- What, How and Why? - Rishi Raj Singh - 10 Mins
3. Management Protocol for NVG: Medical or Surgical - Gaurav Gupta - 10 Mins
4. Role of Lasers and Anti-VEGF - Veer Singh - 10 Mins
5. Vitrectomy in NVG - Mohit Dogra - 10 Mins
6. Trabeculectomy in NVG: Will it Help? - Faisal T. T. - 10 Mins
7. Role of Tubes in NVG - Surinder S Pandav - 12 Mins

Total duration(include panel discussion : 10 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC214 - Pterygium management: Revolution in Evolution

Date :	15-03-2026 (Sunday)
Time :	10:45-11:55
Hall :	Trade Room 3

Chief Instructor: Alok Sati

Currently, conjunctival autograft (CAG) following pterygium excision is considered to be 'gold standard' with a recurrence rate varying between 2 to 7.4%. The very purpose of pterygium surgery gets defeated by its recurrence and we are aiming for a 'zero' recurrence. To achieve zero recurrence, various techniques are evolving in recent years including P.E.R.F.E.C.T technique, pterygium excision with mini-Simple limbal epithelial transplantation (mini-SLET) and Pterygium Extended Removal with mini-SLET (PER with mini-SLET) for both primary and recurrent pterygium. This video assisted instruction course will waive the ophthalmologist through the current and the evolving techniques highlighting their concepts, surgical techniques, recurrence rate and the complications.

No.	Topic	Speaker	Min
1.	Conceptual evolution in both primary and recurrent pterygium	Murthy Somasheila I.	10
2.	Is medical management in vogue for primary and recurrent pterygium?	Srishti Khullar	10
3.	Pterygium excision with CAG: evolution in securing techniques	Ikeda	15
4.	P.E.R.F.E.C. T technique; Is it perfect for primary and recurrent pterygium?	Vijay Kumar Sharma	10
5.	Mini-SLET; primary and recurrent pterygium: Are we going to near zero recurrence?	Sanjay Kumar Mishra	10
6.	PER with mini-SLET; have we reached zero recurrence?	Alok Sati	10

Panel Discussion : 10 mins

The 84th Annual Conference of All India Ophthalmological Society

IC211 - Assessing structural and functional progression in glaucoma

Date : 15-03-2026 (Sunday)

Time : 11:00-12:10

Hall : Meeting Room L-03

Chief Instructor: Ankur Sinha

Glaucoma is a chronic progressive optic neuropathy. Visual fields (documenting function) & imaging devices (documenting structure) are commonly available clinical tools used to diagnose & ascertain progression. The devices have tools & parameters, which help us understand the disease process better. It is well known that some patients are rapid progressors while others are slow. It is important to understand each of them properly, as it is the “human interpretation” which decides the management plan to save sight years. With seven experience based, case & video presentations, assessment tools and pitfalls will be covered. The instruction course targets young practitioners, fresh post-graduates & residents. At the end of the course, attendees will be competent & confident in understanding progression, ignore the noise/artefacts to manage glaucoma patients in their practice. The presentations will be followed by panel discussion, audience participation and question and answer session

No.	Topic	Speaker	Min
1.	Importance of clinical evaluation- initiating assessment of progression	Digvijay Singh	10
2.	Tools to asses progression on visual fields	Ankur Sinha	12
3.	Pitfalls in interpretation of progression on visual fields	Mohan Shalini	10
4.	Assessment of progression and pitfalls on imaging devices	Shikha Gupta	10
5.	Integrating structure-function analysis for assessment of progression	K. Subashini	10

Panel Discussion : 23 mins

The 84th Annual Conference of All India Ophthalmological Society

IC22 - From Melt to Mend : A Practical Guide to Corneal Perforation Repair

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room L-01

Chief Instructor: Neeti Gupta

Corneal perforations are true ophthalmic emergencies requiring rapid diagnosis and individualized management to preserve globe integrity and vision. This instruction course offers a practical, step-by-step approach to evaluation and treatment, starting with the etiologies and clinical assessment. Management options are presented in a graded manner based on perforation size, location, and cause. The course covers conservative measures like tissue adhesives and bandage contact lenses, biological options such as amniotic membrane transplantation, and innovative techniques like Tenon's patch graft, ideal for resource-limited settings. Advanced interventions including corneal patch grafts and tectonic penetrating keratoplasty are also discussed. High-resolution videos, real-life cases, and interactive dialogue will help participants build confidence and refine decision-making in managing these complex conditions.

No.	Topic	Speaker	Min
1.	Cracks in the Clear Shield: Causes and First Response in Corneal Perforation	Prabhakar Singh	9
2.	Ocular Meltdown: Strategies for Perforated Corneal Ulcers	Pranita Sahay	9
3.	Stick, Shield, Save: Glue and BCL the dynamic duo in Corneal Rescue	Parul Chawla Gupta	9
4.	The Healing Veil: Amniotic Membrane in Corneal Perforations	Anu Malik	9
5.	The Inner Healer: Tenon's Patch Graft in Action	Sharon Dsouza	9
6.	Mending the Clear Shield: Corneal Patch Graft in Perforations	Neeti Gupta	9
7.	Full-Thickness Fix: Tectonic PK in Corneal Emergencies	Vikas Mittal	12

Panel Discussion : 9 mins

The 84th Annual Conference of All India Ophthalmological Society

IC247 - Smoothly sailing the boat with MSICS: Tips and Tricks

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room L-01A

Chief Instructor: Manas Nath

Manual small incision cataract surgery (MSICS) is now a worldwide accepted method for eradication of avoidable blindness. This is particularly useful in developing countries as machine related maintenance are less and affordable for the patients. However, performing MSICS in challenging cases is difficult and has a steep learning curve which increases the risk of intra operative complications. This instruction course will deal with difficult case scenarios like white cataract, small pupil, traumatic cataract, managing intra operative complications including secondary IOL implantation techniques. The eminent speakers will also explain on how learning MSICS reduces the learning curve of phacoemulsification. At the end of this course attendees will gain sufficient knowledge regarding management of such difficult case scenarios with MSICS.

No.	Topic	Speaker	Min
1.	Dealing with different shades of white cataract	Nilanjan Kaushik Thakur	10
2.	Peeping through the small pupil	Jayashree Baruah	10
3.	Managing the traumatic cataract	Manas Nath	10
4.	Tackling the intra-operative complications	Madhu Shekhar	10
5.	The second opportunity: Secondary IOL	Shivkumar Chandrashekhara	10
6.	Preparing for the next plunge	Swaraj Bhattacharjee	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC352 - Demystifying Extreme Retinal Surgery!

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room L-02

Chief Instructor: Daraius Shroff

Progressive refinements in vitreoretinal surgery have resulted in more predictable and favourable outcomes. This has encouraged retinal surgeons to push the limits and attempt surgical treatment of cases that would earlier have been left untreated. This course will present the expert panel's approach to handling extreme retinal pathologies to achieve the best possible outcomes. The course features management of recurrent retinal detachments with severe PVR, advanced proliferative diabetic retinopathy, severe trauma, pediatric vitreoretinal pathology and fulminant endophthalmitis.

The objective of this course is to present principles and customized algorithms for the management of these complex surgical pathologies which the attendees can incorporate into their practice.

At the conclusion of the course, the attendees should be equipped to tackle more challenging vitreoretinal surgical pathologies and achieve better anatomical & functional outcomes in these cases

No.	Topic	Speaker	Min
1.	Morbid Proliferative Diabetic Retinopathy	Gagan Bhatia	10
2.	Management of Recurrent Retinal detachment	Daraius Shroff	10
3.	Small eyes, big problems- nuances of pediatric vitreoretinal surgery	Parveen SEN	10
4.	Fulminant Endophthalmitis!	Abhishek Kothari	10
5.	Extreme Trauma	Ritesh Narula	10

Panel Discussion : 25 mins

The 84th Annual Conference of All India Ophthalmological Society

Ocular Trauma Essentials From ER to OR

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room L-04

Speaker - Specialty - Lecture Title - Key Teaching Points

1. Namrata Sharma - Cornea - The Primary Closure: Mastery of the Anterior Wall - Repairing Zone I and II lacerations; "Suture-in-the-gap" vs. "Bisecting" techniques; managing iris prolapse and viscoelastic use in the open globe.
2. Ameya Kulkarni - Ant. Seg / Trauma - The Lens in Turmoil: Traumatic Cataract & IOLs - Timing of lens removal; capsule management in trauma; utilizing iris or scleral-fixated IOLs (Yamane) when capsular support is lost.
3. - Retina - The Impact Zone: Posterior Segment & IOFBs - Dealing with Zone III injuries; vitrectomy timing (early vs. late); localization and safe extraction of intraocular foreign bodies.
4. Deepti Kulkarni - Retina - Salvaging Vision: Retinal Detachment & PVR - Management of traumatic retinal breaks and giant retinal tears; using silicone oil vs. gas; prevention of proliferative vitreoretinopathy (PVR)
5. All Faculty - Panel - Interactive Video Grand Rounds - Panel discussion on "Management of the Worst Case Scenario" using attendee and faculty cases.

The 84th Annual Conference of All India Ophthalmological Society

IC181 - Vast for Use of Botulinum Toxin, Fillers & Facial Thread Lifts, for Cosmetic Facial Rejuvenation

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room L-05

Chief Instructor: Debraj Shome

Aesthetic Procedures Are Gaining More & More Prominence. Oculoplastic Surgeons Have Now Started Veering More & More Towards Cosmetic Facial Treatments, Including Face Lifts and Rhinoplasty. Not Only Oculoplastic Surgeons, When We Train People in Botox & Filler Injections at Hands on Courses These Days, More Than 50% of the Attendees Are General Ophthalmologists.

This Vast Will Showcase Video Demonstration of the Anatomy of the Face Post Cadaveric Dissection, Choice of Injection Products, & Actual Patient Selection and Treatment. Post This Ic, You Will Be Able to Use Botulinum Toxin, Fillers and Facial Threads, to Lift Faces, Tighten Faces, Remove Under Eye Dark Circles, Camouflage Eyelid Bags, Remove Laugh Lines, Remove Upper Face Wrinkles & Change Facial Shapes.

This Ic Has Been Amongst the Most Attended Ic's for the Past 7 Years at AIOS. We Have Added Multiple Elements to Make This Even Better, If Chosen for This Year. Welcome to Facial Aesthetics in Ophthalmology.

No.	Topic	Speaker	Min
1.	Relevant Facial Anatomy on Cadaveric Dissection - What to Be Beware of	Shilpa Taneja Mittal	10
2.	Botox For Pericardial Rejuvenation	Adit Gupta	12
3.	Filler Injections for the Face - with Injection Videos	Kasturi Bhattacharjee	12
4.	Patient Selection & Combination Treatment for Facial Rejuvenation	Debraj Shome	12
5.	Combination Rejuvenation For The Aging Face	Debraj Shome	12
6.	How I Am Setting up My Aesthetic Practice & What You Can Learn from Me	Aditi Mehta Grewal	10

Panel Discussion : 7 mins

The 84th Annual Conference of All India Ophthalmological Society

IC264 - Vitritis decoded

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room U-01

Chief Instructor: Suganeswari Ganesan

Progressive vitritis is the hallmark of many disease entities in the eye. The spectrum is widespread . Indepth understanding of various vitritis would pave way for successful management .Here we plan to address this issue of vitritis undervarious headings. This course would provide insights from molecular level to bedside . Discussion would cover topics in these headings. Vitritis in toxic posterior segment syndrome. Vitritis in Tuberculous panuveitis, Vitritis in inflammatory etiologies , Vitritis in Gram positive endophthalmitis, Vitritis in Gram negative endophthalmitis, Vitritis in fungal endophthalmitis, Vitritis in infiltrative etiologies. Recent updates on novel diagnostic to treatment modalities with case based approach would be the important highlights.Aim of this course would be to shed light on decoding various vitritis from clinical standpoint to microbiological, pathological and pharmacological standpoint.

No.	Topic	Speaker	Min
1.	Vitritis in toxic posterior segment syndrome	K. Rajasekar	10
2.	Vitritis in inflammatory etiologies	M. Hemanandini	10
3.	Vitritis in Gram positive endophthalmitis	Sandhya Makhija	10
4.	Vitritis in Tuberculous panuveitis	Sudha Ganesh	10
5.	Vitritis in Gram negative endophthalmitis	Krishnendu Nandi	10
6.	Vitritis in fungal endophthalmitis	Manavi Deokrishna Sindal	10
7.	Vitritis in infiltrative etiologies	Suganeswari Ganesan	10

Panel Discussion : 5 mins

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - Refining Cataract Surgical Outcomes: A Comprehensive Approach

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room U-01 A

Kushal Banerjee

Refining cataract surgical outcomes is a continuously evolving process. This instruction course will explore the latest advancements in IOL technology, with focus on accommodating and EDOF IOLs. Understanding of principles and precision of ocular biometry is essential for selecting appropriate IOL power calculation formula. The course emphasizes the importance of accounting for posterior corneal astigmatism, SIA, and ELP when selecting Toric IOLs, to minimize residual astigmatism. It will also highlight the role of Pentacam's Scheimpflug imaging in accurately estimating corneal astigmatism. Understanding advanced phacodynamics is critical for managing complex cataract cases. This course is designed to equip surgeons with knowledge and skills necessary to integrate advanced IOL technology, precise biometry, accurate Toric IOL alignment, Pentacam imaging, and refined phacodynamic techniques into their surgical practice, ultimately delivering the best possible visual outcomes for their patients.

1. Introduction - Kushal Banerjee - 3 Mins
2. Hitting the target with precise biometry - Supriya Singh - 12 Mins
3. Role of Pentacam in refinement of cataract surgery outcomes - Smriti Sonthalia - 12 Mins
4. Advanced Phacodynamics - Suman Sen - 12 Mins
5. Current day IOL designs and basic understanding of optics - Smriti Sonthalia - 12 Mins
6. The ins and outs of toric IOLs - Kushal Banerjee - 12 Mins

Total duration(include panel discussion : 7 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC213 - "Surgical ops: Innovate Under Fire, Operate with Precision"

Date : 15-03-2026 (Sunday)

Time : 12:00-13:10

Hall : Meeting Room U-05

Chief Instructor: Vijay Kumar Sharma

This instructional course brings together the expertise of experienced surgeons from various subspecialties who have innovated or modified different aspects of ophthalmic surgical techniques to enhance postoperative outcomes. Many of these innovations have been published in reputable international journals. Sharing this knowledge with fellow ophthalmologists is crucial for improving results in both routine and advanced surgeries. This course is designed to benefit both general and subspecialty ophthalmic surgeons, offering valuable insights and opportunities for knowledge exchange.

No.	Topic	Speaker	Min
1.	Ocular surface: SLET and beyond	Alok Sati	10
2.	Innovations in lamellar corneal surgery	Vijay Kumar Sharma	10
3.	Optimizing Lens surgeries	Sandeep Gupta	10
4.	Improving surgical outcome in Vitreoretinal surgery	Vipin Rana	10
5.	Choosing correct instruments	(Brig) Gaurav Kapoor	10
6.	Optimizing surgical outcome by patient selection	Srishti Khullar	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

YOSI session 5 : Retina for a Newbie Cataract Surgeon

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Meeting Room U-06

Chairpersons: Jophy Philips Cherry, Nisha Chaudhary

Panelists: Kelini Nitin Solapurkar, Arthi Mohankumar, Ashutosh Gupta

Moderator: Lipi Mittal

1. The retina exam for cataract surgeons - Aparna Bose - 10 mins
2. Retina in and after PCR - Kshitiz Raizada - 10 mins
3. OCT bootcamp for Cataract surgeons - Sandeep Choudhary - 10 mins
4. Post op Vision loss module - Deeksha Rani - 10 mins
5. Retina and Premium IOLs- What not to miss? - Anujeet Paul - 10 mins
6. Retina Emergencies for Cataract surgeons- Spot it or regret it - Rohan Jain - 10 mins

Discussion - 15 mins

The 84th Annual Conference of All India Ophthalmological Society

IC221 - Title: Decoding Pachychoroid Spectrum: Imaging Insights and Management Strategies

Date : 15-03-2026 (Sunday)

Time : 12:00-13:10

Hall : Atlantiis 1

Chief Instructor: Jay Sheth

As our grasp of the choroidal pathology has evolved, the spectrum of pachychoroid diseases has broadened significantly. Initially defined by the common feature of choroidal thickening, this spectrum now includes a variety of conditions such as pachychoroid pigment epitheliopathy, CSCR, focal choroidal excavations, peripapillary pachychoroid syndrome, pachychoroid neovascularopathy, and polypoidal choroidal vasculopathy. Recent advancements in imaging technologies, such as ICGA, DFA, SS-OCT, En-face OCT, and OCTA, have greatly enhanced our ability to differentiate and understand these conditions. This course will provide a comprehensive overview of the pachychoroid spectrum, utilizing case-based discussions and multimodal imaging techniques to illustrate the diverse manifestations and diagnostic challenges. Participants will gain insights into formulating effective diagnostic and treatment strategies, ultimately aiming to improve patient outcomes in managing pachychoroid-related diseases.

No.	Topic	Speaker	Min
1.	Exploring Pachychoroid: Ambiguities and Advances in Choroidal Imaging	Jay Sheth	10
2.	Modern Angiographic Insights into Pachychoroid Spectrum	Anand Rajendran	10
3.	Innovative Non-Angiographic Approaches to Pachychoroid Disease	Mudit Tyagi	10
4.	Optimizing Treatment Approaches for Central Serous Chorioretinopathy	George J. Manayath	10
5.	Current Management Strategies for Pachychoroid Neovascularopathy / Polypoidal Choroidal Vasculopathy	Debdulal Chakraborty	10

Panel Discussion : 25 mins

IC512 - Aqueous meets Vitreous.... The story starts now

Date : 15-03-2026 (Sunday)

Time : 12:00-13:10

Hall : Atlantiis 2

Chief Instructor: Abhijeet Desai

Sangam is inevitable and common occurrence and a small but frequent complication.... In the era of premium lenses we have a team of experienced teachers who are going to share their tips and tricks to achieve that perfect 20/20 bullseye inspite of all the odds....learn from the experiences is all I would say

No.	Topic	Speaker	Min
1.	Aqueous kissed vitreous... PCR conversion to PCCC	Gaurav Luthra	10
2.	When the window opens: Managing Zonular loss	Kumar Doctor	10
3.	Vitrectomy techniques in a PCR scenario	Rishi Swarup	10
4.	There was a flap And now it's Another... posterior Flap sign	Tushya Om Parkash	10
5.	Posterior Polar Cataract: management scenarios	Parul M. Sharma	10
6.	Premium IOL.... PCR....Now What??	Abhijeet Desai	10

Panel Discussion : 15 mins

The 84th Annual Conference of All India Ophthalmological Society

Current Concept - Not Missing a Beat: Comprehensive Pediatric Eye Disorder Diagnosis Strategies

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Trade Room 1

Rishi Raj Singh

Accurate diagnosis of pediatric eye disorders is essential, as early detection and treatment can significantly influence a child's visual development, learning ability, and overall quality of life. Diagnosing eye conditions in children is often more complex than in adults due to limited communication, non-specific symptoms, and difficulty in cooperation. Clinicians must stay alert for red flag signs like leukocoria (suggestive of cataract or retinoblastoma), constant tearing with photophobia (possible congenital glaucoma), nystagmus, head tilting, and squint. Amblyopia, affecting 2–3% of children, must be detected early through comparative vision testing between eyes and managed with glasses, patching, or penalization. Common pediatric eye conditions include refractive errors, strabismus, amblyopia, congenital cataract, ROP (especially in preterm infants), retinoblastoma, and congenital glaucoma. Early, accurate diagnosis is the key to preserving and optimizing a child's vision for life.

1. Pediatric Cataract Surgery: State-of-the-Art Techniques and Expert Perspectives - Jagat Ram - 10 Mins
2. Current and Future Perspectives on Retinopathy of Prematurity Management - Mangat Ram Dogra - 10 Mins
3. Pediatric Keratoplasty: Optimizing Outcomes through Long-Term Follow-Up and Care - Ashok Sharma - 10 Mins
4. PEDIATRIC OCULAR TUMORS: DIAGNOSIS AND MANAGEMET - Neiwete Lomi - 10 Mins
5. Managing Eye Allergies in Children: A Comprehensive Approach - Rohit Gupta - 10 Mins
6. Childhood Glaucoma: A Systematic Approach to Evaluation and Categorization - Gaurav Gupta - 10 Mins
7. Uncovering the Unknowns of Myopia: What We're Missing - Rishi Raj Singh - 10 Mins

Total duration(include panel discussion : 5 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC320 - Tube Talk: Strategies for Success - Implantation Insights and Troubleshooting Tips

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Trade Room 2

Chief Instructor: Dewang Angmo

Tubes are invaluable in the management of glaucoma that are refractory to treatment but can have serious sight threatening complications. Valved and non-valved devices are available, but confusion exists wrt type to be used in different conditions. After Description of the Basic Methods of implantation, Modifications in Implantation techniques Needed for sulcus placement, Pars plana tube insertion and a repeat tube will be covered. Early and late post-op Hypotony, Hypertensive phase and tube and plate related complications will be reviewed and management strategies with special emphasis on prevention will be discussed. At the end of the course, the attendee will be able to understand the surgical technique and role of aqueous drainage Implants in the management of refractory glaucoma, recognizing intra-op and post-op problems encountered with the procedure and managing troubleshoots.

No.	Topic	Speaker	Min
1.	Types, indications & surgical technique for valved & non-valved implants	Gazella Bruce Warjri	10
2.	Tubes in complex situations – sulcus placed/post PPV or buckle, post DSAEK/DMEK	Dewang Angmo	11
3.	Preventing & managing tube retraction/ exposure/ encysted blebs	Sirisha Senthil	11
4.	Preventing & managing early/late hypotony & hypertensive phase	Julie Pegu	11
5.	Managing failed tubes – Revision or 2nd tube or CPC?	Ganesh V. Raman	11
6.	Tubes in Paediatric age group – small eye big problems!	Sushmita Kaushik	11

Panel Discussion : 10 mins

Current Concept - Artificial Intelligence in Ophthalmology: Shaping the Future and Educating for Change

Date :	15-03-2026 (Sunday)
Time :	12:00-13:10
Hall :	Trade Room 3

Neelam Pawar

This course will introduce participants to artificial intelligence (AI) and its applications in ophthalmology. Participants will learn about the fundamentals of AI, including machine learning (ML) and deep learning (DL), as well as how these technologies are used in detecting and diagnosing eye diseases. The course will specifically focus on the application of ML in myopia, natural language processing (NLP) in microbial keratitis, and DL in glaucoma. The course's objectives are to provide insight into AI in ophthalmology, understand the basic concepts of AI, ML, and DL, and describe the current applications of AI in the field. Additionally, the course will address the potential benefits and challenges of AI in ophthalmology, as well as the ethical considerations associated with it. Understanding these aspects will help ophthalmologists navigate the potential benefits and challenges that AI brings to their practice.

1. Introduction to AI in Ophthalmology-Overview of AI, Machine learning, and Deep learning - Neelam Pawar - 12 Mins
2. How LLMs are trained and Applications in microbial keratitis - Lokeshwari Aruljyothi - 15 Mins
3. AI for Accessible and Equitable Glaucoma Screening - Nimrita Gyanchand Nagdev - 12 Mins
4. Using ML to predict myopia development and progression - Neelam Pawar - 12 Mins
5. Ethics in AI-Limitations and potential biases of AI models - Anupama Janardhanan - 12 Mins

Total duration(include panel discussion : 12 Mins)

The 84th Annual Conference of All India Ophthalmological Society

IC269 - Common Pitfalls and Strategies for Improvement in glaucoma clinical practice

Date : 15-03-2026 (Sunday)

Time : 12:15-13:25

Hall : Meeting Room L-03

Chief Instructor: Vinita Ramnani

Diagnosing and managing patients with glaucoma can be a challenging task, and it is crucial to recognize that common errors can further complicate management. This comprehensive course is designed to tackle the prevalent mistakes in glaucoma diagnosis and treatment that occur in everyday clinical practice, with the ultimate objective of mitigating the consequences of overdiagnosis, overtreatment, underdiagnosis, and undertreatment. Through a series of expert-led sessions, we will conduct an in-depth examination of the common pitfalls in glaucoma management, ranging from incomplete history taking to inadequate treatment targets and strategies. By shedding light on these common pitfalls and offering strategies for improvement, this course will provide valuable insights and practical advice to enhance clinical practice and deliver better outcomes for patients.

No.	Topic	Speaker	Min
1.	Hitting the bull's eye: perfect history taking and basic examination	Shweta Tripathi	8
2.	Fallacies in disc assessment and correlation	Chandrima Paul	8
3.	Targeting the risk factors	Vinita Ramnani	8
4.	Hassles in labelling glaucoma versus no glaucoma	Sushma Tejawani	8
5.	Errors in judgement of progression	Sushmita Kaushik	8
6.	Setting up the treatment goals and counselling: Are we on the right path	Manish Shantilal Shah	8
7.	Finally choosing the right modality/ surgery: the balancing act	Prasanna Venkatesh Ramesh	8

Panel Discussion : 14 mins
